

Federal Information Sources and Systems 1

A Directory issued by the Comptroller General

1984 CONGRESSIONAL SOURCEBOOK SERIES

GAO/AFMD-85-3

FOREWORD

Title 31 U.S.C. 1112-1113, formerly the Congressional Budget Act of 1974 (P.L. 93-243), assigned the Comptroller General the responsibility to identify congressional information expressed in legislative requirements; to monitor the reporting requirements of the Congress; to furnish program evaluations conducted or commissioned by any executive agency; to identify congressional needs for fiscal, budgetary, and program-related information; and to maintain a central files of fiscal and budgetary information.

As part of its efforts to fulfill these responsibilities, the General Accounting Office established the Congressional Information Sources Inventories and Directories (CISID) data base. It consists of inventories of requirements for reports to the Congress, evaluation studies, and program-related information sources and systems. This data base is on computer and is transferable to other organizations, including the Library of Congress' SCORPIO retrieval system, thus facilitating the use of the inventories by the Congress and others.

For those who may not have immediate access to CISID or SCORPIO, GAO publishes the Congressional Sourcebook Series. This series of directories reflects the updating of the inventories. It consists of three separate volumes. Each volume is an indexed directory, addressing the following areas:

- (1) *Federal Evaluations*--describes program and management evaluation reports produced by the departments and agencies of the federal government.
- (2) *Requirements for Recurring Reports to the Congress*--describes the requirements for statutory and nonstatutory recurring reports to the Congress from the executive, legislative, and judicial branches of the federal government and from independent agencies and federal corporations.
- (3) *Federal Information Sources and Systems*--describes systems, major documents, and publications maintained by federal agencies, which support agencies' missions and contain fiscal, budgetary, and program-related information.

The Congressional Sourcebook Series volumes, together with the CISID computerized data base, are designed to facilitate identification, acquisition, and utilization of relevant and reliable information which is needed by the Congress in carrying out its oversight and budget control responsibilities.

The Congressional Sourcebook Series will be distributed to each member of the Congress; each congressional committee, subcommittee, and staff; the Executive Office of the President; the head of each federal department and agency; the Chief Justice of the United States; the officials of the judicial branch; and state government officials, and libraries.

CHARLES A. BOWSHER
Comptroller General of the United States

This 1984 edition of the *Federal Information Sources and Systems* contains updated and new material, since the previous edition was published in 1980. This document facilitates congressional access to sources and systems government-wide to assist the Congress in carrying out its oversight responsibilities.

The directory is divided into two sections, the Citation Section and the Index Section. The citations of the information sources/systems are arranged in two broad groups in the Citation Section of this publication. The first group of citations identifies and describes information systems. An information system, for the purpose of this inventory, is an organized collection of data processed in accordance with defined procedures (automated and/or manual) that generate recurring outputs containing budgetary, fiscal, social, economic, scientific-technical and/or program-related data and information operated in support of agency programs and management responsibilities identified in the *Budget of the United States Government*.

The second group identifies and describes information sources. An information source, for the purpose of this inventory, is a major information collection and/or information dissemination facility, such as, documentation center, information analysis center, research center, clearinghouse, special reference library, and information network, operated by or for the agency in support of its program(s) and mission responsibilities identified in the *Budget of the United States Government*.

Each citation is organized by agency and contains, for each source/system cited, standard bibliographic information, a descriptive abstract, budget and program data, authorizing legislation, congressional committees of relevance, geographic coverage, and public availability. The Index Section provides access to the Citation Section by subject, title, agency, congressional committee, law, budget function, and program. The User's Guide on page xiii provides an explanation of how to use the two sections.

PURPOSE AND SCOPE

The implementation of the inventory of information sources and systems and the publication of this Sourcebook are part of GAO's continuing responsibilities under 31 U.S.C. 1113(c)(1) which requires that: "The Comptroller General, in cooperation with the Director of the Congressional Budget Office, the Secretary of the Treasury, and the Director of Management and Budget shall establish and maintain a current directory of sources of, and information systems for, fiscal, budget and program information and a brief description of the contents of each source and system."

Executive, independent, and legislative agencies are included in the inventory. The term "executive agency" is defined to include executive departments, government corporations, and independent establishments. GAO also requested information from organizations which can be characterized as federal entities. The latest edition of the United States Government Manual provides the sources for identifying federal entities covered in this volume.

METHODOLOGY

Agencies were asked to prepare reports on "major" information sources and systems. Information was reported to GAO on major federal programs and the supporting information sources and systems which are important to fulfilling the agencies' missions. The content coverage of this publication reflects that concept. The size of program relative to an agency's budget was used as an operating guideline for "major" programs. Other criteria used to determine inclusion in the inventory besides the budget were system size, information content, purpose (budget and programmatic), and scope. GAO worked cooperatively with agencies in the inventory preparation and follow-up to determine reporting requirements.

The participating agencies provided information to establish a relationship between information sources/systems and the agency program(s) supported by those sources and systems. Using the Office of Management and Budget (OMB) account identification code (listed in the *Budget of the United States Government-Appendix*) as the linkage, agency information sources/systems were related to congressional committee authorization, authorizing legislation, and appropriation.

directory, except for those produced by GAO. Copies of other agencies' reports must be obtained from the agency or from the other sources identified in the citation. Listed below is information on how to obtain reports from the General Accounting Office (GAO) and the National Technical Information Service (NTIS).

General Accounting Office. Requests for copies of GAO reports should be sent to:

*U.S. General Accounting Office
Information Handling and Support Facility
P.O. Box 6015
Gaithersburg, MD 20877
Telephone: (202) 275-6241*

The first five copies of individual reports are free of charge. Additional copies of bound audit reports are \$3.25 each. Additional copies of unbound reports (i.e. letter reports) and most other publications are \$1.00 each. There is a 25% discount on all orders for 100 or more copies mailed to a single address. Sales orders must be prepaid by cash, check, or money order. Checks should be made out to the "Superintendent of Documents." GAO reports are also available on microfiche.

National Technical Information Service. Reports on file with NTIS should be ordered from:

*NTIS
5285 Port Royal Road
Springfield, VA 22161
Telephone: (703) 487-4650*

The order must include the report's NTIS number and should also include the title as a crosscheck. The fastest service is provided to customers who charge to their deposit accounts or their American Express, Visa, or MasterCard credit cards. Otherwise, payment by check or money order must accompany each order. A "ship and bill" service is available to customers who have established credit at a \$5.00 surcharge on each order.

AVAILABILITY OF COPIES OF THIS DIRECTORY

Copies of this directory are available free of charge to the Congress; federal, state, and local government agencies; members of the press; and academic libraries, by writing to:

*U.S. General Accounting Office
Information Handling and Support Facility
P.O. Box 6015
Gaithersburg, MD 20877
Telephone: (202) 275-6241*

QUESTIONS ABOUT THIS DIRECTORY

Questions regarding the information contained in this directory should be addressed to:

*Director, Accounting and Financial Management Division
U.S. General Accounting Office
441 G Street, N.W.
Washington, DC 20548
Telephone: (202) 275-9559 or 9577*

USER'S GUIDE

This publication contains a Citation Section and an Index Section.

Citation Section

The Citation Section is divided into two files: The S-File Information Systems and the I-File Information Sources. Within each file, the entries are arranged by agencies/bureaus and give for each information source or system descriptive information and an abstract prepared by the participating agency containing the information illustrated in the sample entries below. The information elements are as follows:

S-File Sample Entry:

- | | | |
|----------------------------|---|--|
| 1. Accession Number | S00524-026 | |
| 2. Title/Subtitle | Contractor Administrative Cost Information System (CACIS). | |
| | (FPA3 002) | 3. Agency Control Number |
| 4. Date | 01/74 | |
| 5. OMB Funding Code/Title | OMB Funding Code/Title: 20-8004-0-7-551 / Federal supplementary medical insurance trust fund; 20-8005-0-7-551 / Federal hospital insurance trust fund | |
| | Program: Administration | 6. Program |
| | CFDA NO.: 13.773 | 7. Catalog of Federal Domestic Assistance Number |
| 8. Congressional Relevance | Congressional Relevance: House Committee on Ways and Means; Senate Committee on Finance; Senate Committee on Labor and Human Resources; House Appropriations Committee; Labor, Health and Human Services, and Education Subcommittee; Senate Appropriations Committee; Labor, Health and Human Services, and Education Subcommittee | |
| 9. Law Authority | Authority: Social Security Act (P.L. 74-271; 42 U.S.C. 405). | |
| 10. Availability | Availability: Agency | |
| | Geographic Relevance: National | 11. Geographic Relevance |
| 12. Abstract | <p>Purpose: The current CACIS system is divided into two phases (on-line and off-line). Each phase has five subsystems-budget preparation, approval, distribution, interim, and final cost. The on-line phase provides editing and updating of the data base and a capability of manipulating selected data in arithmetic operations. The off-line phase provides reports for each subsystem to help identify and correct problem areas and provides a means for comparing budget requests, budget approvals, and final cost proposals among contractors. Input: The inputs to this system (MCFD Forms 1527 and 1528) include various administrative cost data elements indexed by budget requests, budget approvals, quarterly spending plans, interim costs, and actual year-end costs. The specific administrative cost data elements are: bill review, medical review, utilization review, beneficiary services, data entry, computer usage, EDP systems and programming, professional relations, service department, financial and accounting, general and administrative credits, provider reimbursement, provider audit, non-recurring Health Maintenance Organizations, and Professional Service Review Organizations. Other selected data sources are: peer groupings, number of providers, Blue Cross Association factors (costs), and model system maintenance and de-</p> | |

- needed to carry out its program responsibilities.
3. **Agency Control Number:** When applicable, the data inventory number assigned to the system by the submitting agency for internal reference, control, or cataloging purposes.
 4. **Date:** Refers to the date of establishment of the information system.
 5. **OMB Funding Title/Code:** Relates the specific system citation to the appropriate OMB account title(s) and the associated 11-digit identification code(s).
 6. **Program:** Programs served by the information system.
 7. **Catalog of Federal Domestic Assistance Number:** CFDA Number for programs listed in that catalog.
 8. **Congressional Relevance:** The congressional committees having oversight and spending jurisdictions for agency programs served by the system.
 9. **Law/Authority:** Identifies the legislation which authorized the programs served by the information system.
 10. **Availability:** Denotes the source(s) from which a report or output of the system is available. The source(s) may be the issuing agency itself, a publisher or contractor, an agency documentation center, or a distributor.
 11. **Geographic Relevance:** Indicates the levels of geographic reference utilized when aggregating data contained in the information system, i.e., national, state, county, congressional district, etc.
 12. **Abstract:** Consists of the following sections: Purpose: Includes purpose and requirement for the system, principal subject matter, data coverage, time reference, geographic reference, update cycle, and major characteristics of the system. Input: The primary sources or provider of data to the system. Outputs: The principal outputs (products) of the system which include reports, tables, charts, graphic displays, catalogs, etc., and an indication of frequency of preparation.
 13. **Agency Contact:** The responsible office and telephone number at the issuing/preparing agency.

I-File Sample Entry:

- | | | | |
|----------------------------|--------------------------|---|---|
| 1. Accession Number | <input type="checkbox"/> | 100709-012 | |
| 2. Title/Subtitle | <input type="checkbox"/> | Great Lakes Fishery Laboratory. | |
| | | 1927 | 3. Date (of Publication or when Facility Established) |
| 4. OMB Funding Code/Title | <input type="checkbox"/> | OMB Funding Code/Title: 14-1611-0-1-303 / Resource management | |
| | | Program: Fishery Resources (Research and Development) | 5. Program |
| | | CFDA NO.: 15.604 | 8. Catalog of Federal Domestic Assistance Number |
| 7. Congressional Relevance | <input type="checkbox"/> | Congressional Relevance: House Committee on Merchant Marine and Fisheries; Senate Committee on Energy and Natural Resources; House Appropriations Committee: Interior Subcommittee; Senate Appropriations Committee: Interior Subcommittee | |
| 8. Law Authority | <input type="checkbox"/> | Authority: Great Lakes Fishery Act of 1956 (P.L. 84-557, § 2; 70 Stat. 242; 16 U.S.C. 931). Fish and Wildlife Act of 1956 (P.L. 84-1024, § 2; 70 Stat. 1119; 16 U.S.C. 742a). Act of March 15, 1958 (P.L. 85-342, § 1-4; 72 Stat. 35; 16 U.S.C. 778-778c). Agriculture and Food Act of 1981 (95 Stat. 1328; 16 U.S.C. 3401). | |
| 9. Availability | <input type="checkbox"/> | Availability: Agency | |
| | | Geographic Relevance: Great Lakes | 10. Geographic Relevance |
| 11. Abstract | <input type="checkbox"/> | Abstract: The Great Lakes Fishery Laboratory (OLFL) conducts fishery assessment, ecology, and contaminant studies on sport and commercial fish species and the forage base in all five of the Great Lakes. The Laboratory maintains commercial and sport fishery statistics and studies how fish are affected by natural and man-made problems such as sea lamprey predation, weather changes, powerplant cooling, and shoreline modifications. The Laboratory is located in Ann Arbor, Michigan. | |

2. **Title/Subtitle:** The commonly used name and acronym (if applicable) of the information source, or activity operated by the agency component in meeting those continuing data requirements needed to carry out its program responsibilities.
3. **Date (of publication or when facility established):** Refers to the date of issue or publication or date the facility was established.
4. **OMB Funding Title/Code:** Relates the specific source citation to the appropriate OMB account title(s) and the associated 11-digit identification code(s).
5. **Program:** Programs served by the information source.
6. **Catalog of Federal Domestic Assistance Number:** CFDA Number for programs listed in that catalog.
7. **Congressional Relevance:** The congressional committees having oversight and spending jurisdictions for agency programs served by the information source.
8. **Law/Authority:** Identifies the legislation which authorized the programs served by the information source.
9. **Availability:** Denotes the source(s) from which a report is available. The source(s) may be the issuing agency itself, a publisher or contractor, an agency documentation center, or a distributor.
10. **Geographic Relevance:** Indicates the levels of geographic reference utilized when aggregating data contained in the information source, i.e., national, state, county, congressional district, etc.
11. **Abstract:** Summarizes the source or resource contents, gives purpose and requirement including principal subject matter, purpose, data coverage, geographic reference, and major characteristics.
12. **Agency Contact:** The responsible office and telephone number at the issuing/preparing agency.

Index Section

The Index Section provides the following seven indexes with references to both S and I files in one sequence:

Subject Index
Title Index
Agency Index
Congressional Index
Law Index
Budget Function Index
Program Index

S-references refer to entries in the S-File and I-references to entries in the I-File.

Subject Index: Includes entries under both descriptors (representing subject matter) and identifiers (representing proper names) dealt with by information source/system, in one alphabetic sequence.

Title Index: Lists titles of information sources/systems in one alphabetic sequence. Systems acronyms, when available, are included in parentheses at the end of the title.

Agency Index: Permits the user to identify a source or system operated or maintained by a specific federal agency. Parent departments and agencies and subordinate bureaus and

Code Number, and Statutes-at-Large which established or authorized the programs served by the sources/systems.

Budget Function Index: Entries are arranged by official OMB Budget Function/Subfunction Codes by which federal funds are classified. Information for this index is obtained from the last three digits of the OMB Funding Codes.

Program Index: Lists programs served by information sources/systems.

CITATION SECTION

(Information Systems)

S Accessions

EXECUTIVE OFFICE OF THE PRESIDENT

Council of Economic Advisers

S00103-001

Budget System.

OMB Funding Code/Title: 11-1900-0-1-802 / Salaries and expenses

Program: Economic Analysis

Congressional Relevance: *House Committee on Banking, Finance, and Urban Affairs; Senate Committee on Banking, Housing, and Urban Affairs; House Appropriations Committee: Treasury-Postal Service and General Government Subcommittee; Senate Appropriations Committee: Treasury, Postal Service, General Government Subcommittee.*

Authority: Employment Act of 1946 (P.L. 79-304; 15 U.S.C. 1021).

Availability: GPO

Purpose: This system contains budgetary data for the fiscal year. The purpose is to provide the necessary expenses of the Council in carrying out its functions under the Employment Act of 1946 (15 U.S.C. 1021). The financial information is personnel compensation and benefits; travel and transportation; standard level user charges; communications, utilities, and other rent; printing and reproduction; other services; supplies and materials; and equipment. **Input:** The data contained in the file for this system are from internal budgetary sources within the Council of Economic Advisers and the Office of Administration. **Output:** A monthly financial statement based on these data is submitted to the Council of Economic Advisers.

Agency Contact: Council of Economic Advisers. (202) 395-5108.

S00103-002

Statistical Information System.

OMB Funding Code/Title: 11-1900-0-1-802 / Salaries and expenses

Program: Economic Analysis

Congressional Relevance: *House Committee on Government Operations; Senate Committee on Banking, Housing, and Urban Affairs; House Appropriations Committee: Treasury-Postal Service and General Government Subcommittee; Senate Appropriations Committee: Treasury, Postal Service, General Government Subcommittee; Joint Economic Committee.*

Authority: Employment Act of 1946, as amended (P.L. 79-304; 15 U.S.C. 1021).

Availability: Agency; GPO

Geographic Relevance: National

Purpose: This information system collects and processes national data relating to income, employment, production, prices, and purchasing power. The major products of the system are the annual Economic Report of the President and the monthly publication "Economic Indicators," which is prepared by the Council of Economic Advisors and published by the Congressional Joint Economic Committee. **Input:** The system compiles data published by various government agencies and private sources. **Output:** Annual Economic Report of the President and monthly Economic Indicators are the products.

Agency Contact: Council of Economic Advisers. (202) 395-5062.

Council on Environmental Quality

S00105-001

Budget.

OMB Funding Code/Title: 11-1453-0-1-802 / Council on Environmental Quality and Office of Environmental Quality

Federal Information Systems and Sources

Program: Council on Environmental Quality and Office of Environmental Quality (All Programs)

Congressional Relevance: *House Committee on Merchant Marine and Fisheries; Senate Committee on Environment and Public Works; House Appropriations Committee: Commerce, Justice, State, The Judiciary and Related Agencies Subcommittee; House Appropriations Committee: Energy and Water Development Subcommittee; Senate Appropriations Committee: Commerce, Justice, State and Judiciary Subcommittee; Senate Appropriations Committee: Energy and Water Development Subcommittee.*

Authority: National Environmental Policy Act of 1969 (P.L. 91-190). Environmental Quality Improvement Act of 1970 (P.L. 91-224).

Availability: GPO

Geographic Relevance: National

Purpose: This system is designed to develop the annual budget and to monitor and report upon expenditures. The budget covers expenditures for 13 categories of expenditures for the entire Council on Environmental Quality (CEQ) operation. Expenditures are summarized monthly, and the budget is prepared annually. No formal reports are prepared except for annual budget submissions. **Input:** Information for the budget is developed internally by the administrative office. **Output:** Budget submissions in the form of tables in hardcopy.

Agency Contact: Council on Environmental Quality. (202) 395-5754.

S00105-002

User-Prompted Graphic Data Evaluation (UPGRADE) System.

OMB Funding Code/Title: 11-1453-0-1-802 / Council on Environmental Quality and Office of Environmental Quality

Program: Environmental Policy Development and Program Evaluation

Congressional Relevance: *House Committee on Merchant Marine and Fisheries; Senate Committee on Environment and Public Works; House Appropriations Committee: Commerce, Justice, State, The Judiciary and Related Agencies Subcommittee; House Appropriations Committee: Energy and Water Development Subcommittee; Senate Appropriations Committee: Commerce, Justice, State and Judiciary Subcommittee; Senate Appropriations Committee: Energy and Water Development Subcommittee.*

Authority: National Environmental Policy Act of 1969 (P.L. 91-190). Water and Environmental Improvement Act of 1970 (P.L. 91-224).

Availability: Agency; NTIS

Geographic Relevance: National; State, (SMSA) Standard Metropolitan Statistical Area; County; City; Air and Water Quality Regions

Purpose: The UPGRADE system was developed for two purposes: to enable the Council on Environmental Quality (CEQ) to analyze available computerized data more effectively and efficiently for policy-related studies and annual reports and to facilitate better and more efficient environmental analyses by other governmental and nongovernmental organizations. The information content includes the primary analytical/graphic system and interfaces (15,000 lines of code) and data bases (approximately 1.5 million observations), including environmental statistics and monitoring data on air pollution, water quality, public health, natural resources, environmental economics, and related topics. Time reference and update cycles vary with type of data. All data are selected and updated for specific studies. On-line storage is limited to studies in progress at any given time, although all data are stored off-line for rapid recall. **Input:** The input consists of carefully screened data on air pollution, water quality, public health, natural resources, environmental economics, and other topics. The data are selected for specific studies and are obtained from the computerized data systems

maintained by other agencies. **Output:** Output consists of graphic, cartographic, and numerical results of environmental data analyses that are primarily cross-disciplinary. Data on air pollution, water quality, public health, natural resources, environmental economics, and other topics are analyzed through the UPGRADE system for environmental assessments, policy studies, and program evaluations by CEQ and collaborating agencies.

Agency Contact: Council on Environmental Quality. (202) 395-5760.

Office of Management and Budget

S00110-007

Special Analyses, Budget of the United States Government.

OMB Funding Code/Title: 11-0300-0-1-802 / Salaries and expenses

Program: Budget Review

Congressional Relevance: House Committee on Government Operations; Senate Committee on Governmental Affairs; House Appropriations Committee; Treasury-Postal Service and General Government Subcommittee; Senate Appropriations Committee; Treasury, Postal Service, General Government Subcommittee

Authority: Budget and Accounting Act of 1921, as amended (P.L. 67-13; 31 U.S.C. 11).

Availability: GPO

Purpose: This information system is provided under the authority of (although not required by) the Budget and Accounting Act of 1921, as amended (31 U.S.C. 11). It contains special analyses of various aspects of the budget. This system is designed to highlight specified program areas or provide other significant presentations of federal budget data. Included is analytical information about government finances and operations as a whole and how they affect the economy; government-wide program and financial information for federal health, civil rights, and developments in research and development, environmental protection, statistical programs, credit programs, tax expenditures, and employment. **Input:** This system is produced in conjunction with the budget. Special data requirements are imposed on federal agencies to obtain information for some of the special analyses. **Output:** Special Analyses, Budget of the United States Government, is produced in hardcopy.

Agency Contact: Office of Management and Budget. (202) 395-4630.

S00110-008

The Budget of the United States Government.

OMB Funding Code/Title: 11-0300-0-1-802 / Salaries and expenses

Program: Budget Review

Congressional Relevance: House Committee on Government Operations; Senate Committee on Governmental Affairs; House Appropriations Committee; Treasury-Postal Service and General Government Subcommittee; Senate Appropriations Committee; Treasury, Postal Service, General Government Subcommittee

Authority: Budget and Accounting Act of 1921, as amended (P.L. 67-13; 31 U.S.C. 11).

Availability: GPO

Purpose: The budget provides to the Congress (and the public) information required by The Budget and Accounting Act of 1921, as amended (31 U.S.C. 11). This document contains the information that most users of the budget would normally need, including the Budget Message of the President. It presents an overview of the President's budget proposals and includes explanations of federal spending programs, estimated receipts, and the President's fiscal policy objectives. Also included are: a description of the budget system, various summary tables on the budget as a whole, a budget accounts listing containing information on budget authority and outlays by agency and account, federal employment by agency, and the economic assumptions on which the budget is based. **Input:** The federal budget review process produces the information contained in the budget. Some of it is submitted to OMB in accordance with the requirements of OMB Circular No. A-11; some is developed by OMB. The receipts estimates come largely from the Department of the Treasury, and the President supplies some of it when he makes decisions on economic, tax, and budget matters. **Output:** The hardcopy Budget of the United States Government and machine-readable tape for some dollar amounts (e.g., Budget Accounts Listing) are produced.

Agency Contact: Office of Management and Budget. (202) 395-4630.

S00110-009

The Budget of the United States Government, Appendix.

OMB Funding Code/Title: 11-0300-0-1-802 / Salaries and expenses

Program: Budget Review

Congressional Relevance: House Committee on Government Operations; Senate Committee on Governmental Affairs; House Appropriations Committee; Treasury-Postal Service and General Government Subcommittee; Senate Appropriations Committee; Treasury, Postal Service, General Government Subcommittee

Authority: Budget and Accounting Act of 1921, as amended (P.L. 67-13; 31 U.S.C. 11)

Availability: GPO

Purpose: The Appendix provides to the Congress (and the public) information required by the Budget and Accounting Act of 1921, as amended (31 U.S.C. 11). The system contains detailed information on the various appropriations and funds that comprise the budget, including the proposed text of appropriation language, budget schedules for each account, explanations of work to be performed and the funds needed, proposed general provisions applicable to the appropriations of entire agencies or groups of agencies, and schedules of permanent positions. Supplemental proposals for the current year, new legislative proposals, and proposed rescissions are identified separately. Information is also presented on certain entities whose outlays are not part of the budget total; on advance appropriations; and on loan disbursements, repayments, and net loan outlays. **Input:** Information is produced from budget requests submitted to OMB by federal agencies and adjusted during the course of review by OMB and the President. Instructions for presentation of information to OMB are contained in OMB Circular No. A-11. **Output:** The Budget of the United States Government, Appendix in hardcopy (and machine-readable tape for dollar amounts) is produced.

Agency Contact: Office of Management and Budget. (202) 395-4630.

S00110-013

Budget Status System (BSS).

OMB Funding Code/Title: 11-0300-0-1-802 / Salaries and expenses

Program: Management and Operations

Congressional Relevance: House Committee on Government Operations; Senate Committee on Governmental Affairs; House Appropriations Committee; HUD-Independent Agencies Subcommittee; Senate Appropriations Committee; HUD-Independent Agencies Subcommittee

Authority: Budget and Accounting Act of 1921, as amended (P.L. 67-13).

Availability: Internal Use Only

Purpose: This is a generalized computer-based data management system that is used by budget examiners/analysts to analyze and track budget data throughout the budget process. The system encompasses the set of capabilities which are most frequently used in storing, modifying, analyzing, and displaying budget and related information. These capabilities are provided in both the interactive and batch processing modes. Some specialized data are maintained in the Budget Status System, but its major use is to extract data from other systems and prepare special reports and summaries. **Input:** Input typically originates from agencies in the form of budget submissions during the budget preparation process. **Output:** Principal output is tabular reports, usually in hardcopy. Format and content are user determined.

Agency Contact: Office of Management and Budget. (202) 395-4632.

S00110-014

Budget Preparation System (BPS).

OMB Funding Code/Title: 11-0300-0-1-802 / Salaries and expenses

Program: Management and Operations

Congressional Relevance: House Committee on Government Operations; Senate Committee on Governmental Affairs; House Appropriations Committee; HUD-Independent Agencies Subcommittee; Senate Appropriations Committee; HUD-Independent Agencies Subcommittee

Authority: Budget and Accounting Act of 1921, as amended (P.L. 67-13).

Availability: NTIS, GPO, CBO

Purpose: The purpose is to support OMB's budget preparation process. The major update cycle is annual. The annual update builds a data base of Program and Financing, Supplemental Source Document, Object Classification, Federal Credit, and Receipt data. Quarterly updates affect only the receipt and supplemental source document data. **Input:** The input consists of budget estimates prepared by all federal government agencies according to the guidelines contained in OMB Circular A-11. **Output:** The system generates about 200 different reports in hardcopy as well as magnetic tape files containing budget data. Reports provide the main set of input numbers to the President's budget. The system also provides reports and tapes for budget updates in April and July.

Agency Contact: Office of Management and Budget. (202) 395-4632.

S00110-016

Central Budget Management System (CBMS). (OMB-1A). 08/82

OMB Funding Code/Title: 11-0300-0-1-802 / Salaries and expenses

Program: Budget Review; Management

Congressional Relevance: House Committee on Government Operations; Senate Committee on Governmental Affairs; House Appropriations Committee; Treasury-Postal Service and General Government Subcommittee; Senate Appropriations Committee; Treasury, Postal Service, General Government Subcommittee

Authority: Federal Program Information Act (P.L. 95-220, § 2, as amended by P.L. 97-258, 91 Stat. 1615; 31 U.S.C. 6101 et seq.). Budget and Accounting Act of 1921, as amended (P.L. 67-13, § 207, as amended by P.L. 93-344, P.L. 97-258; 42 Stat. 22; 31 U.S.C. 1104 et seq.). (Reorganization Plan 2 of 1970).

Availability: Agency

Purpose: The Central Budget Management System (CBMS) is a decision support and analysis system used by the Office of Management and Budget (OMB) staff during all aspects of the budget process including: budget formulation; resolution and reconciliation development and tracking; and appropriations tracking. The major system's components include: 1) a translation module to facilitate comparisons among congressional and executive branch definitions of budget concepts; 2) a communication module to enable data transfers; 3) a Report Writer for analytical and report writing capability; and 4) a Data Base Management System. **Input:** Input includes: Agency Budget Estimates (see OMB Circular A-11), CBO estimates (source MYPS, CSS, etc.), House and Senate Budget Committees, House and Senate Appropriations Committees, and estimates developed and maintained on other OMB systems (BSS, BPS, etc.). **Output:** Output includes ad hoc and standard "generic" reports. Over 150 generic reports have been developed. CBMS gives the Director of OMB the ability to structure, create, and analyze budget alternatives using modern data processing techniques by permitting OMB staff to reformat the budget in a variety of ways to serve a variety of purposes.

National Security Council

S00111-001

Presidential/NSC Correspondence File.

OMB Funding Code/Title: 11-2000-0-1-802 / Salaries and expenses

Program: Policy and Operations Coordination

Congressional Relevance: House Committee on Armed Services; Senate Committee on Armed Services; House Appropriations Committee; Treasury-Postal Service and General Government Subcommittee; Senate Appropriations Committee; Treasury, Postal Service, General Government Subcommittee

Authority: National Security Act of 1947 (P.L. 80-253; 5 U.S.C. 3109).

Availability: Internal Use Only

Purpose: This system is designed for control, tracking, and retrieval of correspondence and memoranda to and from the National Security Council (NSC). The system covers the Reagan Administration (January 20, 1981 to present) and is up-dated daily. The file contains about 27,190 records. **Input:** Input for this system includes correspondence

from the public, Congress, Executive Departments and Agencies/Executive Office of the President, and foreign governments. **Output:** The following types of reports on correspondence between the President and NSC are produced daily and monthly: names, subject/keywords, country, status/disposition data, and dates. The reports are in the form of logical/sequential display of data.

Agency Contact: National Security Council. (202) 395-3044.

S00111-002

Freedom of Information/Equal Opportunity/Privacy Requests.

OMB Funding Code/Title: 11-2000-0-1-802 / Salaries and expenses

Program: Policy and Operations Coordination

Congressional Relevance: House Committee on Armed Services; Senate Committee on Armed Services; House Appropriations Committee; Treasury-Postal Service and General Government Subcommittee; Senate Appropriations Committee; Treasury, Postal Service, General Government Subcommittee

Authority: National Security Act of 1947 (P.L. 80-253; 5 U.S.C. 3109). Freedom of Information Act of 1974 (P.L. 93-502). Privacy Act of 1974 (P.L. 93-579).

Availability: Internal Use Only

Purpose: This system is designed to fulfill legal requirements for processing and recording Freedom of Information/Executive Office/Privacy requests. This system contains information on correspondence consisting of Freedom of Information and Privacy Act requests directed to the Executive Office. The system covers the period since 1972, when Executive Order 11652 was implemented. The system, which is updated daily, contains about 5,783 records. **Input:** Input for the system is provided by the public, executive departments and agencies, and the Archives/Presidential libraries. **Output:** The following types of reports on correspondence consisting of Freedom of Information and Privacy Act requests are produced daily and monthly: names, subject/keywords, country, status/disposition data, and dates. The reports are in the form of logical/sequential display of data.

Agency Contact: National Security Council. (202) 395-3103.

S00111-003

National Security Council Policy File (NSCIP).

OMB Funding Code/Title: 11-2000-0-1-802 / Salaries and expenses

Program: Policy and Operations Coordination

Congressional Relevance: House Committee on Armed Services; Senate Committee on Armed Services; House Appropriations Committee; Treasury-Postal Service and General Government Subcommittee; Senate Appropriations Committee; Treasury, Postal Service, General Government Subcommittee

Authority: National Security Act of 1947 (P.L. 80-253; 5 U.S.C. 3109).

Availability: Internal Use Only

Purpose: The National Security Council (NSC) Policy File is designed to control, compile, retrieve, and assemble chronologically the major policy papers of the NSC since its establishment. This file contains information on the subjects, participants, countries, and dates relevant to major policy papers prepared by the NSC since its establishment in 1947. The file, which is updated daily, contains about 11,785 records. **Input:** Data for this file are provided by the Executive departments and agencies and the Executive Office of the President. **Output:** The following types of reports on major policy papers of the NSC are produced daily and/or monthly: names/participants, subject/keywords, country, status/disposition data, historical chronology, and dates. The reports are in the form of logical/sequential displays of data.

Office of the United States Trade Representative

S00113-004

Trade Actions Monitoring System (TAMS).

OMB Funding Code/Title: 11-0400-0-1-802 / Salaries and expenses

Program: Trade Policy Coordination; International Negotiations

Congressional Relevance: House Committee on Ways and Means

Senate Committee on Finance; House Appropriations Committee: Commerce, Justice, State, The Judiciary and Related Agencies Subcommittee; Senate Appropriations Committee: Commerce, Justice, State and Judiciary Subcommittee

Authority: Trade Act of 1974 (P.L. 93-618).

Availability: Agency

Geographic Relevance: National

Purpose: TAMS provides a collective, up-to-date record of pending trade actions in easily accessible form. This comprehensive service is not offered elsewhere in the federal government. TAMS provides those involved with international trade issues with the most recent information available on a range of issues. Abstracts from the Federal Register, State Department cables, and direct contact (verbal) with other inter-agency sources are contained in the system which is updated monthly. **Input:** Input is on-line entry of information pertaining to pending trade actions, such as name of petitioner and dates TAMS is updated on a monthly basis. **Output:** Output consists of a monthly and a quarterly report of all information in the TAMS system. A printout is obtained and photocopies are made and distributed to various staff in the Office and outside.

Agency Contact: Office of the United States Trade Representative.
(202) 395-5140.

S00113-005

Foreign Trade Actions Monitoring System (F TAMS).

OMB Funding Code/Title: 11-0400 0-1-802 / Salaries and expenses

Program: Trade Policy Coordination; International Trade Negotiations

Congressional Relevance: *House Committee on Ways and Means; Senate Committee on Finance; House Appropriations Committee: Commerce, Justice, State, The Judiciary and Related Agencies Subcommittee; Senate Appropriations Committee: Commerce, Justice, State and Judiciary Subcommittee*

Authority: Trade Act of 1974 (P.L. 93-618).

Availability: Internal Use Only

Geographic Relevance: International/Foreign

Purpose: Foreign TAMS provides a collective, up-to-date record of trade actions in easily accessible form. This comprehensive service is not offered elsewhere in the federal government. Foreign TAMS provides those involved with international trade issues with the most recent information available on a range of issues. The information consists of abstracts from GATT (General Agreement on Trade and Tariffs) Documents, Organization for Economic Cooperation and Development notifications, Official Journal of the European Communities, Department of State Cables, and Media Sources (Newspapers and Periodicals). **Input:** Input is on-line entry of information pertaining to pending foreign trade actions--dates, product description, specifics on action taken, and service. **Output:** Output consists of a monthly report of all information in the Foreign TAMS System. A printout is obtained and photocopies are made and distributed to various internal staff and outside parties.

Agency Contact: Office of the United States Trade Representative.
(202) 395-5140.

S00113-007

Trade Advice File (TAF).

OMB Funding Code/Title: 11-0400-0-1-802 / Salaries and expenses

Program: Trade Policy Coordination; International Trade Negotiations

Congressional Relevance: *House Committee on Ways and Means; Senate Committee on Finance; House Appropriations Committee: Commerce, Justice, State, The Judiciary and Related Agencies Subcommittee; Senate Appropriations Committee: Commerce, Justice, State and Judiciary Subcommittee*

Authority: Trade Act of 1974 (P.L. 93-618).

Availability: Agency

Geographic Relevance: International/Foreign

Purpose: The Trade Advice File (TAF) stores abstracted and coded advice from the private sector on trade issues to be retrieved for use by the staff in negotiating and formulating trade positions for the Multinational Trade Negotiations (MTN) completed in 1979. The files include private sector recommendations on international trade problems as well as Congressional views. **Input:** There are twenty different forms of advice which are coded for input on the TAF System. Letters, International Trade Commission testimony, and TPSC testimony have so far made

Output: Reports are tailored to the needs of the requester.

Agency Contact: Office of the United States Trade Representative.
(202) 395-5140

S00113-010

Electronic Mail System (TPSCMAIL).

OMB Funding Code/Title: 11-0038-0-1-802 / Salaries and expenses

Program: Automated Systems (Administrative Management and Support)

Congressional Relevance: *House Committee on Post Office and Civil Service; Senate Committee on Governmental Affairs; House Appropriations Committee: Treasury-Postal Service and General Government Subcommittee; Senate Appropriations Committee: Treasury, Postal Service, General Government Subcommittee*

Authority: Act of June 25, 1948, as amended (P.L. 80-771, § 1, as amended by P.L. 95-570, 62 Stat. 672; 3 U.S.C. 105). (Executive Order 12028). (Reorganization Plan 1 of 1977).

Availability: Internal Use Only

Purpose: The Electronic Mail System is a network for supporting the electronic transmission of Trade Policy Staff Committee (TPSC) documents and for other inter-agency communications. The advantages of electronic mail are that: delays caused by the delivery time of traditional mail or messenger are eliminated; multiple addresses can receive the same message without generating additional paper copies; and receipt of messages is verified to the sending party. The TPSC's Subcommittee on Information Systems developed this Electronic Mail System to enable efficient communications among the TPSC agencies. The Electronic Mail System is providing: a quick means to send messages among staff in the participating agencies; daily updated calendars of trade-related events, including TPSC meetings and International Trade Commission hearings; and a means of immediate transmission of TPSC documents to the involved agencies. The following features are currently available: sending mail, receiving mail, automatic receipt verification, calendars of events, logs of mail sent by each agency, and document transmission. The Electronic Mail System utilizes the Computer Center of the Division of Research and Technology, National Institutes of Health. **Input:** The Electronic Mail System transmits Trade Policy, Staff Committee Documents and other inter-agency communications via terminals. **Output:** Under the Electronic Mail System, messages, documents, and memoranda are electronically transmitted and printed.

Agency Contact: Office of the United States Trade Representative.
(202) 395-5140.

S00113-011

Trade Policy Staff Committee TradeNet (TPSC).

OMB Funding Code/Title: 11-0400-0-1-802 / Salaries and expenses

Program: Trade Policy Coordination

Congressional Relevance: *House Committee on Ways and Means; Senate Committee on Finance; House Appropriations Committee: Commerce, Justice, State, The Judiciary and Related Agencies Subcommittee; Senate Appropriations Committee: Commerce, Justice, State and Judiciary Subcommittee*

Authority: Trade Act of 1974 (P.L. 93-618, title I, § 141; 88 Stat. 1999-2001; 19 U.S.C. 2171).

Availability: Internal Use Only

Geographic Relevance: International/Foreign; National

Purpose: TPSC TradeNet is an interagency network which serves as the centralized source for the storage, retrieval, and processing of trade information of interest to the trade policy community. TPIS contains a collection of files and programs for maintaining and processing data on a timely basis. A result of an interagency effort by the TPSC agencies, trade data resources and computer expertise have been pooled together to create the TPSC TradeNet so that the information needs of all the TPSC agencies can be served more effectively and efficiently than possible on an individual basis. The TPSC Subcommittee on Information Systems, chaired by the Office of the U.S. Trade Representative, serves as the umbrella for coordinating, developing and maintaining the TPSC TradeNet and draws upon the resources of the participating agencies in this endeavor. All data and computer programs are stored at this time at the National Institutes of Health Division of Computer Research and Technology (DCRT), a federal data processing facility which furnishes computer services to all U.S. government agencies. TPSC TradeNet

on U.S. imports, exports and production data. Data files currently available are: GATT Tariff Study Files, Generalized System of Preferences, GSP Five-Year Review, U.S. Trade Data Retrieval, United Nations Data, and U.S. Federal Procurement Data. Various other system options are available: 1) the U.N. Trade Data System; 2) a network for supporting the electronic transmission of TPSC mail documents and for other interagency communications; 3) trade classification lookup by keyword program; 4) trade classification concordance lookup program; 5) tariff rate and staging lookup program; and 6) U.S./COMPRO and U.N./COMPRO. **Input:** The Trade Policy Staff Committee (TPSC) is the principal source of data on the trade policy community. **Output:** The output includes trade and tariff data on U.S. imports, exports, and production; and tariff results of the MTN, by country and various industrial sector definitions.

Program: United States Quota, International Monetary Fund

Congressional Relevance: House Committee on Banking, Finance, and Urban Affairs; House Committee on Foreign Affairs; Senate Committee on Finance; Senate Committee on Foreign Relations; House Appropriations Committee: Foreign Operations Subcommittee; Senate Appropriations Committee: Foreign Operations Subcommittee

Authority: Bretton Woods Agreements Act, as amended (P.L. 79-171, § 2, as amended by P.L. 96-544; 59 Stat. 512; 22 U.S.C. 286 et seq.).

Availability: Internal Use Only

Geographic Relevance: International/Foreign

Purpose: The information formerly available only in the blue IMF books is now in computerized form. The IMF statistics are comprised of: (1) International Financial Statistics; (2) Direction of Trade Statistics; and (3) Balance of Payments Statistics. The computer system allows you to retrieve information from over 100,000 time series ranging from 1948 through the present. **Input:** The main sources of International Monetary Fund (IMF) statistics are the IMF blue books. **Output:** The IMF statistics are presented on a computerized listing.

Agency Contact: Office of the United States Trade Representative. (202) 395-5140.

S00113-013

Trade Policy Staff Committee TradeNet, U.N./COMPRO, U.S. Import and Export Trade Statistics.

OMB Funding Code/Title: 11-0400-0-1-802 / Salaries and expenses

Program: Trade Policy Coordination

Congressional Relevance: House Committee on Ways and Means; Senate Committee on Finance; House Appropriations Committee: Commerce, Justice, State, The Judiciary and Related Agencies Subcommittee; Senate Appropriations Committee: Commerce, Justice, State and Judiciary Subcommittee

Authority: Trade Act of 1974 (P.L. 93-618, title 1, § 141; 88 Stat. 1999-2001; 19 U.S.C. 2171).

Availability: Internal Use Only

Geographic Relevance: International/Foreign

Purpose: The United Nations (U.N.) Data System is a data base of import and export data comprised of the U.N. Series D trade data. The data base is in a compressed form developed for the World Bank. Some 232 different countries are designated by the U.N. as participants; in any given reporting year (1962 through 1982) as many as 160 countries have reported data. The data are stored by a country on a 1 to 5 digit Standard International Trade Classification (SITC) aggregate basis. Both quantity and value of trade (in thousands of dollars) are stored. Access is by trading partner, making bilateral analysis of trade possible. **Input:** The principal sources of data in the United Nations Data System are import and export data derived from the U.N. series D trade data. **Output:** The data base has currently associated with it retrieval programs capable of providing time series reports on imports and/or exports by value. Retrievals can be done by a specific reporting country or countries and can be displayed by commodity, group or groups of commodities, level of SITC aggregation, partner, group or groups of

partners, or by a combination of these reporting categories.

Correspondence Control System (CCS).

OMB Funding Code/Title: 11-0400-0-1-802 / Salaries and expenses

Program: Trade Policy Coordination

Congressional Relevance: House Committee on Ways and Means; Senate Committee on Finance; House Appropriations Committee: Commerce, Justice, State, The Judiciary and Related Agencies Subcommittee; Senate Appropriations Committee: Commerce, Justice, State and Judiciary Subcommittee

Authority: Trade Act of 1974 (P.L. 93-618, title 1, § 141; 88 Stat. 1999-2001; 19 U.S.C. 2171).

Availability: Internal Use Only

Geographic Relevance: National

Purpose: The Correspondence Control System (CCS) has been implemented to retain information and monitor incoming and outgoing correspondence concerning official U.S. Trade Representative's Office business. The CCS generates weekly tracking reports and allows for search capabilities; more specifically, searching by topic, author or accession number. **Input:** The standard information collected on each piece of incoming correspondence includes: an internally assigned accession number, type of document (e.g., letter, telegram, etc.), date document received, date document written, author of document, topic with which document is concerned, trade issue with which document is concerned, suggested action of author concerning trade issue, country concerned in issue, department within the Office of the U.S. Trade Representative (USTR) to which document was assigned, date document is due out for reply, date reply mailed out, and comment, if any. If the incoming document is received from a member of Congress, additional information is collected: state and district of the member of Congress, detailed description of topic and issue of concern, and name of constituent's letter being referred to USTR. **Output:** Besides allowing for the before-mentioned search capabilities, there is a report which is generated on a weekly basis: Advance List - a listing by USTR section heads, displaying letters to be answered within the upcoming week and also letters which are overdue to be answered.

DEPARTMENT OF AGRICULTURE

S00200-001

Departmental Budget System.

OMB Funding Code/Title: 12-0120-0-1-352 / Departmental administration

Program: Budget and Program Analysis

Congressional Relevance: *House Committee on Agriculture; Senate Committee on Agriculture, Nutrition and Forestry; House Appropriations Committee: Agriculture, Rural Development and Related Agencies Subcommittee; House Appropriations Committee: Interior Subcommittee; Senate Appropriations Committee: Agriculture and Related Agencies Subcommittee; Senate Appropriations Committee: Interior Subcommittee*

Authority: Act of May 15, 1862, as amended (P.L. 37-63; 7 U.S.C. 2201; Revised Statute 520).

Availability: Internal Use Only

Geographic Relevance: National

Purpose: The system provides department level coordination of analyses and control of all processes involved in budget development, presentation, and execution. The contents of the budget system include 7-year funding information organized by agency, bureau, program, expenditures, obligations, staff years, appropriation amount, prior year, operational year, and budget year. **Input:** Information comes from bureau data submission, internal issue papers, decision alternatives analyses, a wide array of budgetary resource data (funds and employment), and program justifications. **Output:** The principal reports are tables on budget authority, outlays, and staff years.

Agency Contact: (202) 447-6667.

S00200-002

Central Accounting System.

OMB Funding Code/Title: 12-0120-0-1-352 / Departmental administration

Program: Departmental Administration (All Programs)

Congressional Relevance: *House Committee on Agriculture; Senate Committee on Agriculture, Nutrition and Forestry; House Appropriations Committee: Agriculture, Rural Development and Related Agencies Subcommittee; Senate Appropriations Committee: Agriculture and Related Agencies Subcommittee*

Authority: Act of May 15, 1862, as amended (P.L. 37-63; 7 U.S.C. 2201).

Availability: Agency

Purpose: The system was established to process all financial transactions, maintain accounts, and provide internal and external financial reports for all entities of the Department of Agriculture. The major subsystems include payroll, administrative voucher payments, and centralized account (reporting). Payroll activity consists of processing both personnel and time and attendance documents for preparation of biweekly employee payment schedules. Master files contain all compensation related data for each employee in the Department. Voucher payments are made to vendors providing goods or services to the Department. Payments are scheduled daily as a result of processing incoming documentation. In addition to the payment function in both payroll and vouchers, the system validates, records, maintains, and reports the accounting data associated with all processing. **Input:** The data in system files and documents processed are received from both public and private sources. Vouchers for payment are received from private vendors. Obligation documents, master file data, and payroll documentation are received from agency offices throughout the Department. **Output:** The frequency of reports varies from daily to yearly based on the subsystem and

specific report involved. Output is in the form of hardcopy, computer tapes, microfilm, and CRT displays. Primary reports include payment schedules to the Department of the Treasury, accounting reports to agencies, status data for inquiry purposes, and internal pay reject listings. All master files and pay history data are available for query on either microfilm, CRT display, or hardcopy (from computer tape). Source documents are also utilized for query response.

Program: Agricultural Credit Insurance Fund (All Programs); Rural Housing Insurance Fund (All Programs); Financial Assistance for Low-Rent Domestic Farm Labor Housing; Financial Assistance for Technical and Supervisory Assistance for Mutual and Self-Help Housing; Rural Water and Waste Disposal Grant Program; Rural Development Insurance Fund (All Programs); Rural Development Grants

Congressional Relevance: *House Committee on Agriculture; House Committee on Banking, Finance, and Urban Affairs; Senate Committee on Agriculture, Nutrition and Forestry; Senate Committee on Banking, Housing, and Urban Affairs; House Appropriations Committee: Agriculture, Rural Development and Related Agencies Subcommittee; Senate Appropriations Committee: Agriculture and Related Agencies Subcommittee*

Authority: Housing Act of 1949 (P.L. 81-171); Agricultural Act of 1961 (P.L. 87-128); Emergency Livestock Credit Act of 1974 (P.L. 93-357); Emergency Livestock Credit Act Extension (P.L. 94-35).

Availability: Agency

Geographic Relevance: State; County; Congressional District

Purpose: This is the source of agencywide information. This system is provided for the processing of loan and grant data, the maintenance and updating of borrower accounts and data, and the creation of required reports. Identification of a borrower account includes codes for state, county, and congressional district. Records are identified by type of loan/grant program and contain amount of loan and outstanding balance. Borrower characteristics, both social and economic, are included; however, these vary by type of loan/grant program. Where applicable the records include limited information regarding lenders. The paid-in-full account file dates to 1968; the borrower history file begins in calendar year 1970; the use of funds file starts in fiscal year 1970, and the statistical file dates to June 1969. **Input:** Derived from borrower applications and payments. **Output:** The frequency of reports for agency use is dependent upon management requirements and is either hardcopy or microfiche. A CRT display is used within the agency to quickly retrieve the status of a borrower's account.

Agency Contact: Farmers Home Administration, (301) 436-7800.

Rural Electrification Administration

S00203-001

Operating and Financial Data for REA Borrowers.

OMB Funding Code/Title: 12-3100-0-1-271 / Salaries and expenses

Program: Administration of Rural Electrification Program

Congressional Relevance: House Committee on Agriculture; Senate Committee on Agriculture, Nutrition and Forestry; House Appropriations Committee: Agriculture, Rural Development and Related Agencies Subcommittee; Senate Appropriations Committee: Agriculture and Related Agencies Subcommittee

Authority: Rural Electrification Act of 1936, as amended (P.L. 74-605, title 1, § 1-5; 49 Stat. 1363-1365; 7 U.S.C. 901-905)

Availability: Agency

Purpose: The information is compiled to assess the program and status of REA electric and telephone borrowers for loan security purposes. The content includes loans, payments, advances, balance sheet data, income statement information, numbers of consumers, and other significant data relevant to the services provided by these borrowers and to the facilities which they operate. The system is updated annually; hard-copy data is available from 1935; tape from 1971. **Input:** The information is provided by the Borrower Information System (BIS). These borrowers are cooperative organizations and commercial companies organized to provide electric and telephone service in rural areas. **Output:** The principal reports are the Rural Telephone Borrowers Statistical Report in hardcopy; Rural Electric Borrowers Statistical Report in hardcopy; and the Report of Energy Purchased by REA Borrowers in hardcopy. Additional data are available in printouts and tapes.

Agency Contact: Rural Electrification Administration. (202) 382-8959.

S00203-002

Accounting System for REA Loans, Rural Telephone Bank Loans, Federal Financing Bank Loans Guaranteed by REA, and Administrative Expenses.

OMB Funding Code/Title: 12-3100-0-1-271 / Salaries and expenses; 12-4142-0-3-452 / Rural communication development fund

Program: Administration of Rural Electrification Program; Administration of Rural Telephone Program; Community Facility Loans

Congressional Relevance: House Committee on Agriculture; Senate Committee on Agriculture, Nutrition and Forestry; House Appropriations Committee: Agriculture, Rural Development and Related Agencies Subcommittee; Senate Appropriations Committee: Agriculture and Related Agencies Subcommittee

Authority: Rural Electrification Act of 1936, as amended (P.L. 74-605, title 1, § 1-5; 49 Stat. 1363-1365; 7 U.S.C. 901-905); Rural Electrification Act of 1936, as amended (P.L. 74-605, title 1, § 1-5; 49 Stat. 1363-1365; 7 U.S.C. 901-905); Agricultural Act of 1961, as amended (P.L. 87-128, title III, § 306, 310B; 75 Stat. 308; 7 U.S.C. 1926, 1932).

Availability: Agency

Purpose: The accounting system is to provide for: 1) full disclosure of the financial results of agency activities; 2) production of adequate financial information needed for agency management purposes; 3) effective control over and accountability for all funds, property, and other assets for which the agency is responsible; 4) reliable accounting results to serve as the basis for preparing and supporting agency budget requests, for controlling the execution of the budgets, and for providing financial information required by OMB; and 5) suitable integration of Agency accounting with the central accounting and reporting operations of the Treasury Department. The intended audience and users of the agency accounting systems are agency Office of the Budget, agency management for administrative and lending activities, Rural Telephone Bank management, USDA Office of Management and Finance, the Department of the Treasury, the Office of Management and Budget, and the Congress. The accounting systems maintained by the agency are to apply to salaries and general administrative expenses; lending activities under the REA direct, insured, and guaranteed loan programs; and lending activities under the Rural Telephone Bank direct loan program. **Input:** Input data include Receipt of Cash, Deposit of Cash, Application of Loan Receipts, Application of Administrative Receipts, Administrative Disbursements, and Loan Disbursements. **Output:** The principal reports are: Report on Obligations (Monthly); Statement of Transactions (Monthly); Report on Budget Execution (Monthly); Statement of Appropriation Account (Quarterly); Statement of Receipt Account (Quarterly); Statement of Financial Condition (Semiannually); Debt Service Report (Monthly); "Annual Statistical Report, Electric Borrowers" (Annually); "Annual Statistical Report, Telephone Borrowers"

(Annually), and RTB Quarterly/Annual Report of Treasurer to Directors (Quarterly/Annually). There is limited query capability available to agency accounting personnel, primarily to support loans receivable functions, and the output is hardcopy.

S00203-003

Borrower Information System.

OMB Funding Code/Title: 12-3100-0-1-271 / Salaries and expenses

Program: Salaries and Expenses (All Programs)

Congressional Relevance: House Committee on Agriculture; Senate Committee on Agriculture, Nutrition and Forestry; House Appropriations Committee: Agriculture, Rural Development and Related Agencies Subcommittee; Senate Appropriations Committee: Agriculture and Related Agencies Subcommittee

Authority: Rural Electrification Act of 1936, as amended (P.L. 74-605).

Availability: Agency

Purpose: The purpose of the system is to support the informational needs of our program managers. The Borrower Information System (BIS) serves both the electric and telephone programs. It provides, at any work-station, complete status of loan applications, approved loans and the three most current years of each borrower's operating reports, Borrower Statistical Profiles and Statistical Report items. Data is stored in REA's Wang minicomputer. **Input:** Applications for new loans, funds advanced, operating reports from the 1980 electric and telephone borrowers of the agency. **Output:** The principal reports are progress and status reports used by internal management. It also feeds Operating and Financial Data Files (accession number 00203001).

Agricultural Marketing Service

S00204-001

Administrative Services Division Leased Wire System.

OMB Funding Code/Title: 12-2500-0-1-352 / Marketing services

Program: Market News Service

Congressional Relevance: House Committee on Agriculture; Senate Committee on Agriculture, Nutrition and Forestry; House Appropriations Committee: Agriculture, Rural Development and Related Agencies Subcommittee; Senate Appropriations Committee: Agriculture and Related Agencies Subcommittee

Authority: Agricultural Marketing Act of 1946 (P.L. 79-733, § 203(c), 203(h); 7 U.S.C. 450(b)).

Availability: Agency

Geographic Relevance: National; Regional; Local

Purpose: The leased wire system is utilized to gather and disseminate information on supplies, prices, demand, and movement of farm commodities. Through speeding the transmission of this information over the leased wire system, the market news program can help keep all parts of the farm production and marketing system equally well informed, keep products flowing to the markets where they are needed, and prevent unnecessary gluts and shortages and consequent wild price swings. The users of the system benefit directly by having timely information available upon which to base market decisions. This nationwide network consists of nine separate teletype circuits, carrying appropriate information: Eastern Livestock Circuit, Midwestern Livestock Circuit, Western Livestock Circuit, Eastern Fruit and Vegetable Circuit, Southern Fruit and Vegetable Circuit, Southern General Circuit, Central General Circuit, Western General Circuit, and the Special Data Circuit. **Input:** Marketing information is obtained by trained federal or state reporters who visit trading points at the time of transactions or gather data by telephone. Information collected by these reporters is analyzed and sent immediately over the leased wire network. **Output:** The leased wire system provides reports of daily, weekly, monthly, and annual market conditions on a local, regional, and national basis. At local market news offices, national information received over the teletypewriter is integrated with local information. The information is disseminated to agricultural producers, handlers, and shippers by the news media as well as by mimeographed reports, telephone tape recorder, and telegraph.

Agency Contact: Agricultural Marketing Service. (202) 447-7047.

S00204-004

Federal-State Marketing Improvement Program (FSMIP).

OMB Funding Code/Title: 12-2501-0-1-352 / Payments to States and possessions

Program: Payments to States for Marketing Service Work under Agricultural Marketing Act of 1946

CFDA NO.: 10.156

Congressional Relevance: *House Committee on Agriculture, Senate Committee on Agriculture, Nutrition and Forestry; House Appropriations Committee: Agriculture, Rural Development and Related Agencies Subcommittee; Senate Appropriations Committee: Agriculture and Related Agencies Subcommittee*

Authority: Agricultural Marketing Act of 1946 (P.L. 79-733, § 204(h), 7 U.S.C. 1622).

Availability: Agency

Geographic Relevance: State

Purpose: The Payments to States and Possessions program is to assist State Departments of Agriculture in conducting pilot marketing service projects geared to developing on-going State capabilities and services in these areas. Data are systematically collected in data files and used by project managers and for inquiries from higher level USDA management, Congress, and GAO. The data provided include: 1) a description of the specific marketing problems or situations that call for the state to provide service activities to improve the situation; 2) the specifics of what will be done and how; 3) the expected accomplishments of the project and who will benefit; 4) a list of participating agencies and industry groups; 5) an explanation of how the mutually funded project will help the state build its capability to provide the services as a regular activity; and 6) a list of project personnel. **Input:** State Departments of Agriculture and other appropriate state agencies prepare, at their option, one year proposals for pilot projects to improve marketing services in their states. These proposals are submitted to the FSMIP staff which reviews them for their potential productivity. If the proposals are approved, under a cooperative agreement, funds are allotted to specific projects. States must contribute at least 50 percent of the funds to carry out a project. **Output:** A summary of all 1983 activities, together with a report of ongoing 1984 projects, will be prepared in fiscal year 1985.

Agency Contact: Agricultural Marketing Service. (202) 447-6981.

S00204-005

Agricultural Marketing Service Accounting System for Federal State Marketing Improvement Program.

OMB Funding Code/Title: 12-2501-0-1-352 / Payments to States and possessions

Program: Payments to States for Marketing Services Work under Agricultural Marketing Act of 1946

CFDA NO.: 10.156

Congressional Relevance: *House Committee on Agriculture, Senate Committee on Agriculture, Nutrition and Forestry; House Appropriations Committee: Agriculture, Rural Development and Related Agencies Subcommittee; Senate Appropriations Committee: Agriculture and Related Agencies Subcommittee*

Authority: Agricultural Marketing Act of 1946, as amended (P.L. 79-733; 7 U.S.C. 1623).

Availability: Agency

Geographic Relevance: National; State

Purpose: This program assists state marketing agencies in carrying out approved marketing service projects designed to bring about improved marketing by providing up to 50 percent of the costs of such projects. If the proposals are approved, funds are allotted on an annual basis to a specific project under a cooperative agreement. States must contribute at least 50 percent of the funds for the project. In fiscal year 1983, 19 states participated in this program through 27 approved projects. A summary of all 1983 projects will be included in the fiscal year 1985 Agricultural Marketing Service Explanatory Notes. **Input:** State departments of agriculture and other appropriate state agencies prepare, at their option, one year proposals for pilot projects to improve the productivity of their marketing services. **Output:** Output consists of a summary of all 1983 projects, which will be included in fiscal year 1985 Agricultural Marketing Service Explanatory Notes.

Animal and Plant Health Inspection Service

S00205-001

Brucellosis Indemnity Claims System (BICS) for the State of Texas.

OMB Funding Code/Title: 12-1600-0-1-352 / Animal and Plant Health Inspection Service

Program: Animal Disease and Pest Control

Congressional Relevance: *House Committee on Agriculture, Senate Committee on Agriculture, Nutrition and Forestry; House Appropriations Committee: Agriculture, Rural Development and Related Agencies Subcommittee; Senate Appropriations Committee: Agriculture and Related Agencies Subcommittee*

Authority: Department of Agriculture Organic Act of 1944 (P.L. 78-425, § 102).

Availability: Internal Use Only

Purpose: The system is to provide an automated data processing facility to keep track of slaughtered infected animals in order to indemnify their owners. The major functions of this system are to validate daily input data; merge new data into the master file; and produce daily listings, monthly reports, active animal ledgers, paid animal ledgers, available payment animal ledgers, and various control counts and numbers. From July 1976 the master file contains a record for each animal brand-eared as a reactor, including test number, herd number, county, state branded, date tested, date slaughtered, type slaughter, claim date, and paid date. The file is updated weekly. **Input:** The data are derived from Veterinary Services reports of slaughtered brucellosis-infected animals and related test data and from the indemnity claims of their owners. **Output:** Complete audit lists of all data are produced daily. The monthly output includes active animal ledgers, paid animal ledgers, and available payment animal ledgers. All documents filed by hatch number can be retrieved by a computer listing of batch numbers.

Animal Welfare Licensee (AWL).

1973

OMB Funding Code/Title: 12-1600-0-1-352 / Animal and Plant Health Inspection Service

Program: Animal Disease and Pest Control (Animal Health)

Congressional Relevance: *House Committee on Agriculture, Senate Committee on Agriculture, Nutrition and Forestry; House Appropriations Committee: Agriculture, Rural Development and Related Agencies Subcommittee; Senate Appropriations Committee: Agriculture and Related Agencies Subcommittee*

Authority: Act of May 29, 1884 (23 Stat. 32; 21 U.S.C. 112); Act of February 28, 1947 (P.L. 80-8, § 1-2, 5, 61 Stat. 7; 21 U.S.C. 114h-1); Act of September 6, 1961 (P.L. 87-209; 75 Stat. 481; 21 U.S.C. 114g-114h); Act of July 2, 1962 (P.L. 87-518, § 1-6; 76 Stat. 129; 22 U.S.C. 134-134e); Animal Welfare Act (P.L. 89-554, § 1, as amended by P.L. 91-579; 80 Stat. 350; 7 U.S.C. 2131 et seq.); Horse Protection Act of 1970 (P.L. 91-540, § 2; 84 Stat. 1404; 15 U.S.C. 1821-1831).

Availability: Agency

Geographic Relevance: National; Area Offices

Purpose: The system enables APHIS to keep track of animal dealers in regard to the status of license(s) being kept up to date. The license data is maintained in a system 2000 data base. It is updated daily using on-line terminals. The data base contains data on approximately 7,200 animal dealers. The data consists of license number, date approved, renewal date, amount of license, category of animals, and complete mailing address. This information is published once a year in the Federal Register. **Input:** Input is generated from the license renewal or initial forms submitted by the dealer(s) requesting permission (license) to handle, sell, etc., certain categories of animals. **Output:** License renewal notices are generated monthly and sent to the animal dealers for license renewal action.

S00205-006

Emergency Programs Information Center System (EPIC).

1974

OMB Funding Code/Title: 12-1600-0-1-352 / Animal and Plant Health Inspection Service

Program: Contingencies (Animal Disease and Pest Control)

Congressional Relevance: House Committee on Agriculture; Senate Committee on Agriculture, Nutrition and Forestry; House Appropriations Committee: Agriculture, Rural Development and Related Agencies Subcommittee; Senate Appropriations Committee: Agriculture and Related Agencies Subcommittee

Authority: Act of February 2, 1903 (P.L. 57-49, § 2; 32 Stat. 792; 21 U.S.C. 111) Act of February 28, 1947 (P.L. 80-8, § 1-2; 67 Stat. 7; 21 U.S.C. 114b, 114c). Act of July 2, 1962 (P.L. 87-518, § 1; 76 Stat. 129; 21 U.S.C. 134-134e).

Availability: Agency

Geographic Relevance: International/Foreign

Purpose: The system provides a quick response to requests for up-to-date and background information in the event of an emergency disease outbreak. It also permits a quick response to information requests. The information retrieved consists of author, subject, title, and key phrases. With this information, the user can locate the appropriate articles from the information library. A thesaurus is published containing key phrases that describe pertinent subject matter, such as history, diagnosis, etc. The operational size of the file consists of 40,000,000 bytes of data. The update cycle is daily, and the update mode is on-line. **Input:** The input consists of books, journals, newspaper articles, etc., that are indexed by professional technical readers. These references are then keypunched and entered into the system. **Output:** The system produces an index report of world animal disease data that includes author, subject, title, and key phrases. It is available on request. Terminal retrieval capability is available

B00205-007

U.S. Department of Agriculture Exotic Pest Intercept System.
1973

OMB Funding Code/Title: 12-1600-0-1-352 / Animal and Plant Health Inspection Service

Program: Plant Disease and Pest Control (Agricultural Quarantine Inspection)

Congressional Relevance: House Committee on Agriculture; Senate Committee on Agriculture, Nutrition and Forestry; House Appropriations Committee: Agriculture, Rural Development and Related Agencies Subcommittee; Senate Appropriations Committee: Agriculture and Related Agencies Subcommittee

Authority: Plant Quarantine Act, as amended (P.L. 62-275, § 1-15; 37 Stat. 315; 7 U.S.C. 156-164; 7 U.S.C. 151-154). Act of March 4, 1915 (P.L. 63-293; 38 Stat. 1113; 7 U.S.C. 166). Federal Plant Pest Act (P.L. 85-36, title 1, § 102; 7 U.S.C. 150aa et seq.).

Availability: Agency

Geographic Relevance: International/Foreign; National

Purpose: The system identifies pests and diseases intercepted in the United States from foreign countries. The data are maintained on tape for sequential processing. Every time an insect or disease is found on incoming planes, cargo, etc., from foreign countries, a report is submitted as to the insect or disease type, where found, (cargo, baggage, etc.), date, who found it, and the stage of growth of the insect (larvae, adult, pupae, etc.). This information is available for retrieval purposes, as well as in the yearly publication. **Input:** Input is supplied via forms from all ports of entry into the United States. Approximately 20,000 reports a year are submitted. **Output:** A yearly publication of approximately 80 pages is produced that shows all insects and diseases intercepted in the United States from cargo, planes, baggage, etc. from foreign countries.

Disease and Pest Control (Plant Protection)

Congressional Relevance: House Committee on Agriculture; Senate Committee on Agriculture, Nutrition and Forestry; House Appropriations Committee: Agriculture, Rural Development and Related Agencies Subcommittee; Senate Appropriations Committee: Agriculture and Related Agencies Subcommittee

Authority: Act of May 29, 1884 (23 Stat. 32; 15 U.S.C. 1821-1831, 22 U.S.C. 134-134c; 21 U.S.C. 114b-114d-1; 21 U.S.C. 114g-114h; 21 U.S.C. 112). Department of Agriculture Organic Act of 1914, as amended (P.L. 78-425, title 1, § 102, as amended by P.L. 85-36; 58 Stat. 735; 16 U.S.C. 1537; 7 U.S.C. 147a et seq.; 7 U.S.C. 150a; 7 U.S.C. 2801 et seq.).

Availability: Agency

Geographic Relevance: National; State; City

Purpose: The system maintains an accurate mail address system. The data base contains names, address(es), literature types, and copy counts of recipients receiving APHIS literature. The data base is updated daily, and is used daily. The data base contains approximately 10 million characters with a potential of growing to 40 million. Approximately 50,000 mailings are done each month. **Input:** The input is generated by the recipients of APHIS literature, when changes in address or literature are necessary. The data are forwarded to a central location where they are prepared for submission to the computer for updating. The system is on-line and uses a DIMS. **Output:** The system produces mailing labels daily and validation reports on request.

Geographic Relevance: National

Purpose: The Work Base Budget System consists of data related to identified work assignments, time units, personnel, dollar cost, organization levels, and program. The system supports management in budget planning. The data are processed on an IBM 370 computer during the budget cycle, following which monthly completed assignments, time, and personnel are reported and processed against the projections. **Input:** Data for the system are submitted by all working units (field and headquarters). There are two phases of data collection: projective work assignments, time, and costs and completed work assignments, time, and costs. **Output:** The system produces proposal budget reports by organizational level (work unit, district, area, region, and headquarters) and monthly comparative (proposed/completed) reports.

Animal and Plant Health Inspection Service Management and Communications System (AMCS).

1974

OMB Funding Code/Title: 12-1600-0-1-352 / Animal and Plant Health Inspection Service

Authority: Act of May 29, 1884, as amended (23 Stat. 32, 21 U.S.C. 112); Act of February 2, 1903 (P.L. 57-49, § 2; 32 Stat. 792; 21 U.S.C. 111); Act of February 28, 1947 (P.L. 80-8, § 1-2; 61 Stat. 7, 21 U.S.C. 114b-114c); Act of July 2, 1962 (P.L. 87-518, § 2, 76 Stat. 129, 21 U.S.C. 134a).

Availability: Internal Use Only

Purpose: The system is used during emergency disease outbreaks in animals. It provides an automated data processing method of compiling and communicating data much faster than a manual system allows. Routine investigations utilize this system to provide an ongoing watch for possible disease outbreaks. Data (animal species, specimens, laboratory testing and results, cost figures and disease locations) are validated and new data is merged into files. Reports are generated daily and as needed by the Veterinary Services Task Force tracking the disease. Once an emergency is declared, a clean data base is needed for gathering data. The files are updated daily. This information is available until Veterinary Services decides to retire the data. **Input:** Input is data from the following Veterinary Services forms: 1) VS 12-27, 12-27A, 12-27B, 12-27C, Field Investigation Forms; 2) VS 1-23, Appraisal and Indemnity Claim Form; 3) VS 1-27, Permit for Movement of Animals, and the form AD-744, Purchase Order/Invoice/Voucher. **Output:** Audit lists of all data entered into system are produced daily, covering animal disease status, risk factor cost, and laboratory data. Both hardcopy and CRT reporting is available.

Availability: Agency

Geographic Relevance: National

Purpose: The purpose of the system is to support the administrative and program reporting needs of the Brucellosis staff in 50 states and headquarters. The Brucellosis Information System will automate all testing done at the field, market and slaughter plants. It will provide historical information to epidemiologists to determine new methods and procedures for eradication of the disease. The information stored in the system will be readily available to personnel who need to make decisions on the movements of animals, follow-up testing and other eradication activities. **Input:** Input is data from the following: 1) Field Test (VS 4-33); 2) Slaughter Plant Test (VS 4-54); 3) Market Test (VS 4-54); 4) Vaccination Records (VS 4-24); 5) Brucellosis Ring Test; 6) Indemnity Documents; 7) Epidemiological Documents; and 8) Transportation Documents. **Output:** Output is derived from the following: 1) standard monthly, weekly and daily reports; 2) ad hoc retrievals; 3) herd and animal studies; 4) progress on testing of infected herds; 5) herds pending test; 6) profile analysis; 7) reactor herd list in different sequences; 8) market and slaughter testing data; 9) daily reactor herd report; 10) blood test analysis; 11) calf and adult vaccination data; and 12) Brucellosis ring testing profile.

Congressional Relevance: House Committee on Agriculture; Senate Committee on Agriculture, Nutrition and Forestry; House Appropriations Committee: Agriculture, Rural Development and Related Agencies Subcommittee, Senate Appropriations Committee: Agriculture and Related Agencies Subcommittee

Authority: Department of Agriculture Organic Act of 1944, as amended (P.L. 78-425, title 1, § 102, 58 Stat. 735; 7 U.S.C. 147a et seq.); Federal Plant Pest Act (P.L. 85-36, title 1, § 102-109, 111, 71 Stat. 31-35; 7 U.S.C. 150aa-150jj).

Availability: Agency

Purpose: The automated Emergency Programs Pest Detection System is to be used to identify traps, monitor fruit collection, identify areas for spraying, and monitor quality control. The current manual system lacks the capability of collecting, processing, and displaying vital information in an efficient, timely, and cost effective manner. Collecting information on traps, fruit data, roving and aerial spray, temperature and climatology is estimated at about 90,000 records per week, expanding to 2,444,000 records per 6 months. This would fluctuate due to the intensity of the outbreak. **Input:** Input for the categories named below will be collected by field personnel. **Output:** Output would consist of reports for production and ad hoc, statistical analyses reports, and graphic output for identifying spray, host, trapping, fly release and sensitive areas. In addition, output will include digitizing data to produce overlays necessary for aerial bait spray, ground soil treatment, ground bait, fly release and fruit collecting.

Cooperative National Plant Pest Survey and Detection Program.

05/82

OMB Funding Code/Title: 12-1600-0-1-352 / Animal and Plant Health Inspection Service

Program: Plant Disease and Pest Control (Plant Protection)

CFDA NO.: 10.025

Congressional Relevance: House Committee on Agriculture; Senate Committee on Agriculture, Nutrition and Forestry; House Appropriations Committee: Agriculture, Rural Development and Related Agencies Subcommittee, Senate Appropriations Committee: Agriculture and Related Agencies Subcommittee

Availability: Agency**Geographic Relevance:** State

Purpose: The system, initiated in fiscal year (FY) 1982, is a cooperative effort between federal and state agencies to facilitate the detection and eradication of exotic and endemic plant pests. The system is implemented on the Fort Collins Computer Center UNIVAC system. The FY 1983 file size was over 700,000 records, and the future file size is expected to exceed 5 million records. **Input:** Data are obtained from state cooperators located at state land grant universities. **Output:** Output consists of printed reports that are user generated. There are five report formats.

Food Coupon Accountability Report. (040-R-3188).

09/73

OMB Funding Code/Title: 12-3505-0-1-605 / Food stamp program

Program: Food Stamp

Congressional Relevance: House Committee on Agriculture; Senate Committee on Agriculture, Nutrition and Forestry; House Appropriations Committee: Agriculture, Rural Development and Related Agencies Subcommittee; Senate Appropriations Committee: Agriculture and Related Agencies Subcommittee

Authority: Food Stamp Act of 1977 (P.L. 95-113).

Availability: Internal Use Only

Purpose: The Food Coupon Accountability Report is designed to account for coupon book inventory, transfers of inventory between reporting points and actual versus authorized issuance of food coupons. It is used to prepare numerous informational reports and in the billing process (state agencies are liable for lost and stolen coupons and for coupon overissuance errors committed by issuance personnel). The report contains monthly data concerning food coupon inventory, food coupon transfers, actual coupon issuance and collections, and authorized coupon issuance. **Input:** The data are derived from information obtained from Advice of Shipment, Advice of Transfer, and Food Coupon Remittance, prepared by local coupon vendors and storage points. Additional information is obtained from executed program authorization documents (Authorization to Purchase and/or Household Issuance Record Cards). **Output:** The Food Coupon Accountability Report is produced monthly.

Characteristics of Food Stamp Households.

03/79

OMB Funding Code/Title: 12-3505-0-1-605 / Food stamp program

Program: Food Stamp

Congressional Relevance: House Committee on Agriculture; Senate Committee on Agriculture, Nutrition and Forestry; House Appropriations Committee: Agriculture, Rural Development and Related Agencies Subcommittee; Senate Appropriations Committee: Agriculture and Related Agencies Subcommittee

Authority: Food Stamp Act of 1977 (P.L. 95-113).

Availability: Agency

Geographic Relevance: National; Regional

Purpose: The system provides national and regional data on the characteristics of food stamp households. Functions include the input, editing, tabulation, and statistical analysis of data. The system also interfaces with the TRIM model (Transfer Income Model). A periodic national update and replacement is obtained through sampling of households certified during one month of the survey year. The data include age, sex, employment status, student status of all household members, as well as household's income and food stamp deductions by source and

State Performance Reporting System. (040-R-3190).

03/83

OMB Funding Code/Title: 12-3505-0-1-605 / Food stamp program

Program: Food Stamp

Congressional Relevance: House Committee on Agriculture; Senate Committee on Agriculture, Nutrition and Forestry; House Appropriations Committee: Agriculture, Rural Development and Related Agencies Subcommittee; Senate Appropriations Committee: Agriculture and Related Agencies Subcommittee

Authority: Food Stamp Act of 1977 (P.L. 95-113).

Availability: Agency

Geographic Relevance: National; State; Regional

Purpose: The Food Stamp Act of 1977, as amended, requires the participating states to report to the Secretary of Agriculture on the program's efficiency and effectiveness. The State Performance Reporting System was created to fulfill this requirement. The master file consists of data from the following reports: 1) Quality Control Semiannual Report--submitted by each state at 6-month intervals and covering errors, causes and dollar losses; and 2) statewide corrective action plan based on quality control findings, FNS reviews of state operations, FNS reviews of state systems, statewide problems found during project area reviews, and comments from audits, investigations, and any other applicable sources. **Input:** The data file is derived from reports submitted to FNS by state personnel. The data are submitted from each state as defined in the Food Stamp Act of 1977, as amended. **Output:** The output is a semiannual Quality Control Report with comprehensive, valid statistics for individual reporting states, and Corrective Action Plans from individual states with comprehensive composites.

Child Care and Summer Feeding Programs Operations System.

07/73

OMB Funding Code/Title: 12-3539-0-1-605 / Child nutrition programs
Program: Cash Payments to States: Summer Feeding; Cash Payments to States: Child Care Feeding
CFDA NO.: 10.558; 10.559

Congressional Relevance: House Committee on Agriculture; House Committee on Education and Labor; Senate Committee on Agriculture, Nutrition and Forestry; House Appropriations Committee: Agriculture, Rural Development and Related Agencies Subcommittee; Senate Appropriations Committee: Agriculture and Related Agencies Subcommittee

Authority: National School Lunch Act, as amended (P.L. 79-396, § 13, as amended by P.L. 94-105; 42 U.S.C. 1761, 1766); Child Nutrition Act of 1966, as amended (P.L. 89-642, § 6; 80 Stat. 888; 42 U.S.C. 1775).

Availability: Agency

Geographic Relevance: National; State; Sponsor Level for Regional-Administered Programs

Purpose: The information system is an electronic data base of management and fiscal information. The Performance and Monitoring System for the Child Care and Summer Programs consists of monthly and quarterly listings of numbers of sponsoring organizations; children receiving free and reduced price meals; total children served; information on cash income to each child care and summer outlet including children's payments for meals, food service fees, or funds from other sources identified for use in the food service; records indicating amount of food used; program reimbursement; and level of commodity assistance. The system includes the level of state and local funding and total program funding at the beginning of each month. Total program costs are subtracted to give FNS an operating balance. This gives FNS the information needed to make statistical comparisons from one month to the next. The Summer Data Information System consists of annual listings by state, region, and nation of the number and type of sponsoring organizations; number and type of sites administered; number and type of meals served; average number of sponsor operating days; average daily attendance; number of self-prep sites; and number of rural sites. **Input:** The data are derived from fiscal and programmatic reports forwarded to FNS on a regular basis (monthly or quarterly) by participating sponsors in the Child Care and Summer Food Program. The major categories of input data include the daily number of children served; total food service operating costs to be claimed for reimbursement including food, labor, and any administrative costs; number and type of meals served; and commodity assistance levels. **Output:** System output is produced monthly for the Child Care Food Programs and quarterly for the Summer Food Service Program. Output includes computerized master record files containing data on approved outlets, attendance, meals served, and funding. System output is produced annually for the Summer Food Program. Output includes computerized master record files containing data on sponsors, sites administered, and meals.

School Feeding Programs Operations System.
12/71

OMB Funding Code/Title: 12-3539-0-1-605 / Child nutrition programs; 12-3502-0-1-605 / Special milk program

Program: Child Nutrition Programs (All Programs); Special Milk Programs (All Programs)

CFDA NO.: 10.553; 10.555; 10.556; 10.560

Congressional Relevance: House Committee on Agriculture; Senate Committee on Agriculture, Nutrition and Forestry; House Appropriations Committee: Agriculture, Rural Development and Related Agencies Subcommittee; Senate Appropriations Committee: Agriculture and Related Agencies Subcommittee

Authority: Child Nutrition Amendments of 1978 (P.L. 95-627).

Availability: Agency

Geographic Relevance: National; State; Institution level for Regional-Administered Programs

Purpose: The system is an electronic data base of management and fiscal information. The main functions of this system are to validate all new input data by comparing them to the existing data base; review the data base for program trends and take appropriate action when necessary; make appropriate additions and reductions to the base; indicate inconsistencies between input data submitted by School Food Authorities and accepted program practices; measure the level of program performance against federal and state monetary expenditures; and produce various other fiscal, accounting, program control, and statistical records.

The Performance and Monitoring System for the School Feeding Programs consists of a monthly listing of total schools operating and approved, participation levels, total meals served, and federal reimbursement claimed. Also listed are the number of needy schools and students participating in each program and the amount of additional reimbursement claimed in terms of the number of free and reduced price meals. The system states the level of state and local funding used to match federal expenditures and other non-federal expenditures to operate the programs effectively. The system lists total program funds available at the beginning of each month and subtracts total program costs during that period to give FNS a monthly closing net operating balance for each School Food Authority. **Input:** The data used to maintain the system are derived from fiscal and programmatic reports forwarded to FNS on a regular basis by those School Food Authorities participating in programs. The major categories of input data include the level of state and federal spending, program participation, number and category of meals served and type of school food authority (public vs. private, nonprofit). **Output:** System output is produced monthly and includes computerized master record files for each of the programs. These files contain data on approved outlets, average attendance and participation, total meals served, and funding levels.

Congressional Relevance: House Committee on Agriculture; Senate Committee on Agriculture, Nutrition and Forestry; House Appropriations Committee: Agriculture, Rural Development and Related Agencies Subcommittee; Senate Appropriations Committee: Agriculture and Related Agencies Subcommittee

Authority: Agriculture and Consumer Protection Act of 1973 (P.L. 93-228, § 4A).

Availability: Agency

Geographic Relevance: National; State; Local

Purpose: The system was established after enactment of the Civil Rights Act of 1964 (Title VI, sections 601-602) and the Code of Federal Regulations [Title VII, section 15.5(b)] provisions which establish a system for collecting participation data by racial/ethnic groups. The information consists of the name of the state, name of the food program, name of the project area, name and address of the reporting welfare or distributing agency, reporting month, and the number of participants-by-race as follows: Negro or black, Spanish surnamed, American Indian, Oriental, white (other than Spanish surnamed), all others, and total number of participants. **Input:** The data are derived from forms submitted by state and/or local counterpart offices to the Food and Nutrition Service. **Output:** The semiannual output (Food and Nutrition Assistance Programs-Racial participation) includes number of participants by program, state/region, and by racial category. It also compares family food assistance participation to the U.S. population, segmented by racial category and state/region.

OMB Funding Code/Title: 12-3505-0-1-605 / Food stamp program

Program: Food Stamp

Congressional Relevance: House Committee on Agriculture; Senate Committee on Agriculture, Nutrition and Forestry; House Appropriations Committee: Agriculture, Rural Development and Related Agencies Subcommittee; Senate Appropriations Committee: Agriculture and Related Agencies Subcommittee

Authority: Food Stamp Act of 1977, as amended (P.L. 95-113, § 16(A)).

Availability: Agency

Geographic Relevance: National; State

Purpose: The system was created to monitor Food Stamp administrative costs to assist in the operation of the Program as defined in the

Food Stamp Program Act of 1977. The report lists costs by program function (certification, issuance, quality control, fair hearings, outreach, and indirect expenses), by state, by quarter. *Unit costs are calculated from the functional administrative costs and the participation reports. National totals are accumulated by function costs and unit costs. Input:* The data are accumulated from cost reports submitted quarterly from each state agency and transacted authorization to purchase card reports (also assembled by the agency) showing participation levels. *Output:* The quarterly output. Federal Share of State Administrative Costs, displays cost breakdown by Food Stamp Program function and calculates unit costs. **Agency Contact:** Food and Nutrition Service. (703) 756-3800.

Geographic Relevance: National; State; FNS Region

Purpose: The system is an electronic data base of management and fiscal information. The main functions of the system are to provide an automated record keeping system of state-by-state financial and programmatic data. An analysis of the data is produced, and the trend analysis is reviewed for trends by the user. The Funds Control and Monitoring System for the Special Supplemental Food Program for Women, Infants, and Children (WIC) consists of a monthly listing of food and administrative expenditures and participation by participant category, the number of local agencies and clinics, and the number of persons on a waiting list to receive program benefits. Also listed are statistical data derived from the financial and programmatic data. *Input:* The data used to maintain the system are derived from fiscal and programmatic reports forwarded to Food and Nutrition Service (FNS) on a regular basis by those state agencies participating in the program. The data is keyed into the system at the FNS Regional Offices. The major categories of input data include the program expenditures by month and the participation by category by month. *Output:* System outputs are produced monthly as needed. Computerized master files are maintained for each state agency. These files contain data on program expenditures, participation, and funding levels.

Purpose: The System provides automated support in establishing a claim base of LOC authorizations and disbursements, provides a printing capability to produce the actual LOC authorizations, and provides LOC funds status reports. The System also produces accounting data, e.g. for the SF-224. The System provides a capability for the storing, controlling, updating, and actual printing of the LOC authorizations and provides for the editing and updating of LOC drawdowns (SF-183's and TFCS-5805's). The System produces a number of Financial Management Reports including LOC funds status reports and disbursement data for the monthly statement of transactions (SF-224) required by the Treasury. The Treasury's new Letter of Credit Message Retrieval and Authorization Subsystem (LMRAS) was recently implemented as part of The Treasury Financial Communications System (TFCS) and now permits payment requests to be transmitted from the Federal Reserve Communications System (FRCS) through the TFCS to Food and Nutrition Service terminals. The System supports annual LOC funding activities to grantees in excess of \$5 billion. **Input:** Input data is obtained through the following files: 1) Worksheet for Preparation of Notice of Revised Program Limitation; 2) Letter of Credit (LOC) Name and Address Master File; 3) LOC Number Cross Reference File, and 4) Requests for Payment on LOC. **Output:** Major outputs are: 1) Batch Control and Input Edit Listings/ LMRAS Messages (Real Time); 2) Fiscal Year Funds Authorizations (Weekly, as required); 3) SF-183 Withdrawal Report (Used to Produce SF-224), (Weekly, as required); 4) LOC Authorizations that became effective during accounting period (Weekly, as required); and 5) Fiscal Year Funds Authorized to State Agencies by LOC (Weekly, as required). **Agency Contact:** Food and Nutrition Service. OMB Funding Code/Title: 12-3539-0-1-605 / Child nutrition programs; 12-3503-0-1-605 / Food donations program

Program: State Administrative Expenses; Commodities for Families Distributing Agency Administrative Costs

CFDA NO.: 10.550; 10.560

Congressional Relevence: House Committee on Agriculture; House Committee on Education and Labor; Senate Committee on Agriculture, Nutrition and Forestry; House Appropriations Committee: Agriculture, Rural Development and Related Agencies Subcommittee; Senate Appropriations Committee: Agriculture and Related Agencies Subcommittee

Authority: Temporary Emergency Food Assistance Act of 1983 (P.L. 98-8, title II, § 201; 97 Stat. 35; 7 U.S.C. 612c).

Availability: Agency; State Agencies

Geographic Relevence: National; State

Purpose: Section 250.15 of the State Processing Regulations require that Agencies enter into written agreements with processors for the further processing of U.S. Department of Agriculture donated foods. Additionally, processors are required to submit to distributing agencies monthly reports of performance under each processing agreement. The master file consists of data from the following reports: Recipient Agency Master Listing, Processor Master Listing, End-Product Data Schedule, Master Listing, Order File Master Listing, Performance Report Master Listing, and other applicable sources. **Input:** The data file is derived from reports submitted to the Food and Nutrition Service from State Recipient Agencies and approved processors. The data are submitted monthly from each approved processor and a one-time basis for recipient agencies. **Output:** The output is a comprehensive monthly inventory status with valid statistics regarding amounts of food in the system, benefits derived by recipient agencies, and performance standards of each participating processor.

Purpose: The System provides a magnetic tape to the Office of Finance and Management on a quarterly basis that contains data by grantee for 13 Catalog of Federal Domestic Assistance numbers. The Department provides a consolidated mag-tape to the Office of Management and Budget (OMB). In November of 1978, OMB initiated an effort under Section 9 of the Federal Program Information Act (P.L. 95-220) to test the feasibility of collecting and aggregating uniform information from existing computer-assisted information systems in the major grant-making agencies. Following the test, OMB formally established the Federal Assistance Award Data System (FAADS) as a central collection point for uniform information on Federal Domestic Financial Assistance. The Intergovernmental Affairs Division (IGA) of OMB provides policy oversight with day-to-day operating responsibility now also residing at OMB (formally at the Community Services Administration). The Food and Nutrition Service provides obligation data at the state agency and ROAP Institution levels for grant programs under its eight program appropriations (14 CFC items). **Input:** Input data is obtained from the following: 1) Federal Assistance Award Data System (FAADS) Constants, 2) Grant Obligations 3) Regional Office Administered Program (ROAP) Disbursements; and 4) Food Stamp Bonus Obligations. **Output:** Major outputs include: 1) FAADS Magnetic Tape 6000 Records (400 characters each), (Quarterly), and 2) FAADS Magnetic Tape Printout (Quarterly).

Purpose: The system's purpose is to accumulate, summarize, report, and control receipts and disbursements of Commodity Credit Corporation (CCC), and to record, summarize, and report the financial condition of CCC and the financial status of Agency appropriations. Information consists of: Draft Accounting System including CCC sight drafts issued, serial number, payee, program, lost draft flag, negotiated drafts, collections deposited to the accounts of CCC; and Accounting and Reporting System, including general ledger accounts, accounting entries, and financial reports. Both are updated monthly. **Input:** Data are obtained from the Federal Reserve Banks for CCC sight drafts paid and collections made; Agricultural Stabilization and Conservation Service (ASCS) County office, state ASCS office, ASCS Kansas City Community office, approved producer associations, and the Washington office for financial transactions of CCC and appropriated funds. Data are obtained internally from the Price Support Loan System, County Office Expense System, Farm Storage Facility Loans System, Disaster Payment System, Deficiency Payments System, Conservation Systems, and Wool Processing Systems. **Output:** The system produces the following monthly hard copy reports: CCC disbursements, CCC financial reports, CCC inventories, report on budget execution, and ASCS financial reports.

Aerial Photography Contract Status (APCS).

OMB Funding Code/Title: 12-3300-0-1-351 / Salaries and expenses

Program: Salaries and Expenses (All Programs)

Congressional Relevance: House Committee on Agriculture; Senate Committee on Agriculture, Nutrition and Forestry; House Appropriations Committee: Agriculture, Rural Development and Related Agencies Subcommittee; Senate Appropriations Committee: Agriculture and Related Agencies Subcommittee

Authority: Agricultural Adjustment Act of 1938 (P.L. 75-430).

Availability: Agency

Geographic Relevance: National; State; County

Purpose: The system is used to monitor the status of aerial photographic projects for the Agricultural Stabilization and Conservation Service, the Forest Service, and the Soil Conservation Service, from approval until completion. **Input:** Input consists of contracting information including project ID, costs, flying season, and contractor's progress; status of APFO progress; and estimated and actual completion dates. **Output:** Output consists of monthly hard copy reports designed for each agency's use.

Agency Contact: Agricultural Stabilization and Conservation Service. (801) 524-4214.

S00209-014

Work Order Entry System (WOES).

OMB Funding Code/Title: 12-3300-0-1-351 / Salaries and expenses

Program: Salaries and Expenses (All Programs)

Congressional Relevance: House Committee on Agriculture; Senate Committee on Agriculture, Nutrition and Forestry; House Appropriations Committee: Agriculture, Rural Development and Related Agencies Subcommittee; Senate Appropriations Committee: Agriculture and Related Agencies Subcommittee

Authority: Agricultural Adjustment Act of 1938 (P.L. 75-430).

Availability: Internal Use Only

Purpose: This system is designed to track work orders for aerial photography in process and to monitor workload in terms of quantity and types of products being produced. Active files accumulate for two years and contain up to 6 million words. **Input:** Input consists of work order data including customer information, types and quantity of products ordered, status of order, employee ID's and dates processed. Input is both manual and through optical bar code scanner. **Output:** Output consists

of work order status information and workload data available either on CRT or hard copy.

Agency Contact: Agricultural Stabilization and Conservation Service (801) 524-4214.

S00209-015

Peanut System.

OMB Funding Code/Title: 12-3300-0-1-351 / Salaries and expenses; 12-4336-0-3-351 / Price support and related programs: Reimbursement for net realized losses

Program: Inventory Management and Merchandising; Support and Related Programs

Congressional Relevance: House Committee on Agriculture; Senate Committee on Agriculture, Nutrition and Forestry; House Appropriations Committee: Agriculture, Rural Development and Related Agencies Subcommittee; Senate Appropriations Committee: Agriculture and Related Agencies Subcommittee

Authority: Agricultural Adjustment Act of 1938, as amended (P.L. 75-430) Food and Agriculture Act of 1977 (P.L. 95-113, § 801-808)

Availability: Internal Use Only

Geographic Relevance: National; State; County

Purpose: The system's purpose is to calculate at the beginning of each crop year the allotment (i.e., the number of acres that may be planted) and the quota (i.e., the quantity of peanuts that may be marketed) for each farm participating in the program, to report the quantity of peanuts marketed by each farm and to report the quantity of peanuts purchased and sold by each peanut buyer. The system contains farm data (e.g., allotments, quotas, planted and considered planted acres, history acres, and previous year marketing data) and current year marketing data (e.g., quantity of peanuts marketed, quality factors and identification of seller and buyer). **Input:** Farm data are received from county offices via a machine readable form. Marketing data are obtained from sales documents that are prepared when peanuts are marketed. **Output:** The system produces a machine readable form that lists the farm data on file for each farm. A form is produced for each farm that lists the allotment and quota for the farm. This form is distributed to the producer. A hardcopy report is produced that provides a detailed list of farm marketing transactions. Several hardcopy reports are produced that provide information regarding sales and purchases by peanut buyers.

Tobacco System.

OMB Funding Code/Title: 12-3300-0-1-351 / Salaries and expenses; 12-4336-0-3-351 / Price support and related programs: Reimbursement for net realized losses

Program: Inventory Management and Merchandising; Support and Related Programs

Congressional Relevance: House Committee on Agriculture; Senate Committee on Agriculture, Nutrition and Forestry; House Appropriations Committee: Agriculture, Rural Development and Related Agencies Subcommittee; Senate Appropriations Committee: Agriculture and Related Agencies Subcommittee

Authority: Agricultural Adjustment Act of 1938, as amended (P.L. 75-430) Food and Agriculture Act of 1977 (P.L. 95-113).

Availability: Internal Use Only

Geographic Relevance: National; State; County

Purpose: The system's purpose is to calculate at the beginning of each crop year the allotment (i.e., the number of acres that may be planted) and the quota (i.e., the quantity of tobacco that may be marketed) for each farm participating in the program, to report the quantity of tobacco sold by each farm and to report the quantities of tobacco purchased and sold by tobacco warehouses and dealers. **Input:** Farm data are received from county offices via a machine readable form. Sales data are received on a machine readable form that is prepared at a tobacco warehouse at the time of the sale. **Output:** The system produces a form for each farm that lists the allotment and quota for the farm. This form is distributed to the producers. A machine readable form is produced for each farm that lists the farm data on file for the farm. A hardcopy report is produced that provides a detailed list of farm marketing trans-

actions. A hardcopy report is produced that provides a detailed list of sales transactions by tobacco warehouses and dealers.

Agency Contact: Agricultural Stabilization and Conservation Service. (816) 926-6502.

S00209-017

Grain Inventory System (GIS).

1962

OMB Funding Code/Title: 12-3300-0-1-351 / Salaries and expenses; 12-4336-0-3-351 / Price support and related programs: Reimbursement for net realized losses

Program: Inventory Management and Merchandising; Support and Related Programs

Congressional Relevance: House Committee on Agriculture; Senate Committee on Agriculture, Nutrition and Forestry; House Appropriations Committee: Agriculture, Rural Development and Related Agencies Subcommittee; Senate Appropriations Committee: Agriculture and Related Agencies Subcommittee

Authority: Agricultural Adjustment Act of 1938 (P.L. 75-430). Agricultural Act of 1949 (P.L. 81-439).

Availability: Agency

Geographic Relevance: National; State; County

Purpose: The purpose of the Grain Inventory System is to manage the Department of Agriculture's inventory of owned grain. The system controls inventory in approximately 7000 commercial warehouses. It directs shipments, pays storage, financially settles over/under shipments with warehouses, and maintains position and financial accounting of government-owned grain. **Input:** Input consists of warehouse receipts, inspection certificates, Bills of Lading, and shipment reports. **Output:** Products are daily, weekly, quarterly, and relate to directing shipments (loading orders), storage payments, settlement documents and payments, and internal lists for inventory control.

Agency Contact: Agricultural Stabilization and Conservation Service. (816) 926-6502.

S00209-018

Processed Commodity System (PCS).

1968

OMB Funding Code/Title: 12-3300-0-1-351 / Salaries and expenses; 12-4336-0-3-351 / Price support and related programs: Reimbursement for net realized losses

Program: Inventory Management and Merchandising; Support and Related Programs

Congressional Relevance: House Committee on Agriculture; Senate Committee on Agriculture, Nutrition and Forestry; House Appropriations Committee: Agriculture, Rural Development and Related Agencies Subcommittee; Senate Appropriations Committee: Agriculture and Related Agencies Subcommittee

Authority: Agricultural Act of 1938 (P.L. 75-430). Agricultural Trade Development and Assistance Act of 1954 (P.L. 83-480). Agricultural Act of 1949 (P.L. 81-439).

Availability: Agency

Geographic Relevance: International/Foreign; National; State; County

Purpose: The purpose of the Processed Commodity System is to manage the inventory and shipment of processed food products owned or purchased by the Department of Agriculture. It directs shipments, controls inventory, pays vendors' invoices, and maintains position and financial accounting information. **Input:** Input consists of warehouse receipts, inspection certificates, Bills of Lading, vendor invoices, shipment information, contracts, and Delivery Orders for FNS/FSQS. **Output:** Products are daily, weekly, monthly and relate to directing shipments (Notice to Deliver), storage payments, sight drafts, shipment status for FNS and FSQS, contract awards, and internal lists for inventory control. **Agency Contact:** Agricultural Stabilization and Conservation Service. (816) 926-6502.

S00209-019

Analytical Acrotrilangulation System (ASCAP).

OMB Funding Code/Title: 12-3300-0-1-351 / Salaries and expenses;

12-4336-0-1-351 / Price support and related programs: Reimbursement for net realized losses
Program: Operation of Supply Adjustment, Conservation, and Price Support Programs; Support and Related Programs
Congressional Relevance: *House Committee on Agriculture; Senate Committee on Agriculture, Nutrition and Forestry; House Appropriations Committee: Agriculture, Rural Development and Related Agencies Subcommittee; Senate Appropriations Committee: Agriculture and Related Agencies Subcommittee*
Authority: Agricultural Adjustment Act of 1938 (P.L. 75-430); Agricultural Act of 1949 (P.L. 81-439)
Availability: Internal Use Only
Geographic Relevance: State; County
Purpose: This is a specially designed method of analytical aerotriangulation for the purpose of determining the correction necessary to produce rectified enlargements of aerial photographs used for acreage determinations for Agricultural Stabilization and Conservation Service farm programs. It is an ongoing program capable of processing up to 400,000 square miles of photography from throughout the nation annually. Files are temporary and vary in size with the size of the project. **Input:** Input consists of: comparator measurements of photogrammetric points of reference, coordinate values of geoletic control points, and aerial camera calibration data. **Output:** Rectification data are produced for individual aerial photographs in terms of scale and inset tilt used in rectifying enlargers. Output is both hard copy and punched paper tape.
Agency Contact: Agricultural Stabilization and Conservation Service. (801) 524-4214.

S00209-020

High Altitude County Photography.

OMB Funding Code/Title: 12-3300-0-1-351 / Salaries and expenses
Program: Inventory Management and Merchandising
Congressional Relevance: *House Committee on Agriculture; Senate Committee on Agriculture, Nutrition and Forestry; House Appropriations Committee: Agriculture, Rural Development and Related Agencies Subcommittee; Senate Appropriations Committee: Agriculture and Related Agencies Subcommittee*
Authority: Agricultural Adjustment Act of 1938 (P.L. 75-430, title III, § 392; 52 Stat. 69; 7 U.S.C. 1392). Act of July 22, 1942 (P.L. 77-674, § 1; 56 Stat. 691; 16 U.S.C. 590i-1).
Availability: Agency
Geographic Relevance: County
Purpose: The system is used to monitor the receiving of film from the National High Altitude Photography program. As film is received, all exposures are logged. Special emphasis is placed on when full county coverage is available, when county coverage is to be used for Agricultural Stabilization and Conservation Service purposes, what individual frames are used in production, and when cost has been recovered for individual frames. Inter-office work flow is also tracked. **Input:** Input consists of High Altitude Photography contract year, roll number, range of exposures, county FIPS code, and internal work segments. **Output:** Output consists of internal work status reports, a monthly report of fully covered counties to various agencies, a quarterly magnetic tape of fully covered counties to the Soil Conservation Service, selected output used as input to the status of the aerial photography system, and a comprehensive listing system.
Agency Contact: Agricultural Stabilization and Conservation Service. (801) 524-4214.

S00209-021

Time and Production System (TIME).

OMB Funding Code/Title: 12-3300-0-1-351 / Salaries and expenses.
Program: Program Formulation and Appraisal; Operation of Supply Adjustment, Conservation, and Price Support Programs; Inventory Management and Merchandising
Congressional Relevance: *House Committee on Agriculture; Senate Committee on Agriculture, Nutrition and Forestry; House Appropriations Committee: Agriculture, Rural Development and Related Agencies Subcommittee; Senate Appropriations Committee: Agriculture and Related Agencies Subcommittee*
Authority: Agricultural Adjustment Act of 1938 (P.L. 75-430, title III, § 392; 52 Stat. 69; 7 U.S.C. 1392). Act of July 22, 1942 (P.L. 77-674, § 1; 56 Stat. 691; 16 U.S.C. 590i-1).

Availability: Internal Use Only

Purpose: Information includes date, identification code, activity code, hours expended on activity, project, and special remarks. Each employee on a daily basis reports the various activities worked on, hours expended, and units produced if applicable. Data is stored and filed in section. The system is used for monthly and yearly production summaries, performance evaluations, product cost analysis, section operating cost, workload monitoring, and management. **Input:** Input consists of individual daily work reports and form AFPO-20. **Output:** Output consists of periodic production reports broken down by section, products, projects, distribution of hours, or any combination of these elements. Section operating costs are broken down by products, projects, hours, employee, or any combination of these elements. Other output includes performance evaluations, data to establish standards, data individual to aid in evaluations, and laboratory costs to aid fiscal reporting and setting for products.
Agency Contact: Agricultural Stabilization and Conservation Service. (801) 524-4214.

S00209-022

Comprehensive Listing System (COMP).

OMB Funding Code/Title: 12-3300-0-1-351 / Salaries and expenses
Program: Program Formulation and Appraisal; Inventory Management and Merchandising
Congressional Relevance: *House Committee on Agriculture; Senate Committee on Agriculture, Nutrition and Forestry; House Appropriations Committee: Agriculture, Rural Development and Related Agencies Subcommittee; Senate Appropriations Committee: Agriculture and Related Agencies Subcommittee*
Authority: Agricultural Adjustment Act of 1938 (P.L. 75-430, title III, § 392; 52 Stat. 69; 7 U.S.C. 1392). Act of July 22, 1942 (P.L. 77-674, § 1; 56 Stat. 691; 16 U.S.C. 590i-1).
Availability: Agency
Geographic Relevance: National; State; County
Purpose: The system contains data on all film libraries at the Aerial Photography Field Office, broken down by acquisition agency (the Agricultural Stabilization and Conservation Service, the Soil Conservation Service, Forest Service, and National High Altitude Photography), state or national forest, county, or forest project, year of flying, film type, scale of film, number of indexes, and scale accuracy available. The system is used as a guide to available photography. **Input:** Input consists of completed contracts and received film; cooperative agreements with other agencies, usually Forest Service or Soil Conservation Service; National High Altitude Photography; and some Earth resources satellite and National Aeronautics and Space Administration film. **Output:** Output consists of a hard copy book of all available photography published periodically and internal lookup capabilities.
Agency Contact: Agricultural Stabilization and Conservation Service. (801) 524-4214.

Federal Crop Insurance Corporation

S00211-001

Crop Insurance System.

OMB Funding Code/Title: 12-4085-0-3-351 / Federal Crop Insurance Corporation fund
Program: Federal Crop Insurance Program
Congressional Relevance: *House Committee on Agriculture; Senate Committee on Agriculture, Nutrition and Forestry; House Appropriations Committee: Agriculture, Rural Development and Related Agencies Subcommittee; Senate Appropriations Committee: Agriculture and Related Agencies Subcommittee*
Authority: Agricultural Adjustment Act of 1938 (P.L. 75-430). Federal Crop Insurance Act of 1980 (P.L. 96-365).
Availability: Internal Use Only
Geographic Relevance: National; State; County
Purpose: The system was created in response to the recordkeeping needs of the crop insurance program. The major functions of the system are to accept or reject applications for insurance, process acreage reports, bill insured producers, process indemnity claims for payment

maintain actuarial statistics, and produce various accounting and statistical data. The crop insurance system is a completely automated system for program services. Every acceptable application for insurance, addition of crops to an existing policy, requested contract change, or cancellation of a policy submitted by a farmer is accepted by the computer system and a Policy Confirmation issued from the Kansas City Operations Office. Annual certification or reporting of planted acreage of each crop insured is processed through the system; premium dollars are computed and entered into accounts receivable; liability is calculated and stored for the preparation of annual statistical tables and analysis. Premium billing utilizes a turnaround document. Federal Crop Insurance is sold and serviced through private sector agencies under contract with FCIC. Master Marketing Contractors utilize their agents to sell and service policies; Loss Adjustment Contractors provide crop inspections and claims adjustment. Reinsured Companies sell, service and adjust claims for an insurance offer identical to FCIC's plan, which is underwritten by FCIC. Principal subject matter areas in the files include contract number, name and address of insured, crop endorsements, acreage insured, accounts receivable, premium collections, indemnity payments, and statistical and actuarial data. **Input:** Data are derived from insurance applications, acreage reports, premium collections, claims, and indemnity payments. **Output:** The frequency of system output varies, but most internal records are updated weekly. Representative output includes: Policy Confirmation (Weekly - hardcopy), Summary of Protection (Weekly - hardcopy), Premium Billing (Monthly - hardcopy), Statement of Accounts (Monthly - hardcopy), Notice of Indemnity (Weekly - hardcopy), Agent Commission Detail (Monthly - hardcopy), Participation Summary (Annually - hardcopy), Actuarial Tables and Analyses (Annually and on request - hardcopy and microfiche).

Agency Contact: Federal Crop Insurance Corporation. (816) 926-1928.

Foreign Agricultural Service

S00212-001

Export Sales Reporting.
1973

OMB Funding Code/Title: 12-4336-0-3-351 / Price support and related programs: Reimbursement for net realized losses

Program: Capital Investment: Export Credit Sales

Congressional Relevance: House Committee on Agriculture; Senate Committee on Agriculture, Nutrition and Forestry; House Appropriations Committee: Agriculture, Rural Development and Related Agencies Subcommittee; Senate Appropriations Committee: Agriculture and Related Agencies Subcommittee

Authority: Agricultural and Consumer Protection Act of 1973 (P.L. 93-86, § 1(27)(B), as amended by P.L. 95-113; 87 Stat. 238; 7 U.S.C. 612c-3). Export Administration Act of 1979 (P.L. 96-72, § 7(g); 93 Stat. 519; 50 U.S.C. App. 2406(g)).

Geographic Relevance: International/Foreign

Purpose: The system is to provide automated support for publication, on a weekly basis, of "U.S. Export Sales." Section 812 of the Agricultural Act of 1970 as amended by the Agriculture and Consumer Protection Act of 1973 requires all exporters of wheat and wheat flour, feed grains, oilseeds, cotton and products thereof, cattle hides and skins, and other commodities the Secretary may designate produced in the United States shall report to the Secretary of Agriculture, on a weekly basis, various information regarding any contract for export sales entered into or subsequently modified in any manner during the reporting period. Weekly updating of the data base occurs after publication of the "U.S. Export Sales" report and upon receipt of reporting forms indicating changes in the status of previously reported sales and/or new sales. **Input:** Source documents list such information as commodity name; country; marketing year; exporter name and number; quantity sold during reporting week; quantity exported; outstanding sales, as well as other types of changes, e.g., change in destination or cancellations. Numeric codes are shown on these forms for commodity, country, and marketing year for entry into the data system. **Output:** All reports are produced weekly. Balance Sheet, Zero-Plus, Firm Listing, Audit Summary, and Camera Copy are produced as hardcopy. Camera Copy is photographed and made into the publication "U.S. Export Sales." Interactive query of

the data base is accomplished through a terminal, using a variety of programs to provide various output formats.

Agency Contact: Foreign Agricultural Service. (202) 447-3273.

S00212-004

U.S. Agricultural Export-Import Data System.

OMB Funding Code/Title: 12-2900-0-1-352 / Foreign Agricultural Service

Program: International Agricultural Statistics

Congressional Relevance: House Committee on Agriculture; Senate Committee on Agriculture, Nutrition and Forestry; House Appropriations Committee: Agriculture, Rural Development and Related Agencies Subcommittee; Senate Appropriations Committee: Agriculture and Related Agencies Subcommittee

Authority: National Wool Act of 1954 (P.L. 83-690, § 601; 7 U.S.C. 1761-1766).

Availability: Agency

Purpose: This system is composed of two subsystems: (1) an on line system for interactive retrieval of current information; and (2) a batch system which uses SAS for time series analysis and report generation of historical series. This system is used to support the agricultural exports mission. It serves as the automated system of record for historical and current information about U.S. exports of agricultural commodities to all foreign destinations and imports from all origins. It is used in publication of agricultural trade as well as for statistical analysis and projections of exports. The on line system carries monthly information for the most recent 60 months of U.S. imports and exports of agricultural commodities. The monthly information is carried to the lowest level of detail. For imports, the content of monthly import data includes commodity, country of origin, customs district of entry, import type, economic class, and rate provision. Export monthly data include commodity, country of destination, and customs district. Historical data in the SAS data base are also carried in monthly summary form from 1967 to date. The summary information for exports and imports carries information by commodity and country of destination/origin. Both quantity and value are carried in monthly records. **Input:** Information is obtained monthly on magnetic tape from the Bureau of Census. Import data originate from information reported on customs input documents and are based on tariff schedule (TSUSA) commodity classification. Export data originate with the shipper's export declaration form. **Output:** A wide variety of output is produced from the system. A generalized report retrieval system that allows users to specify report subject and sub content by parameters is used to vary report subjects and content. A variety of different fixed report formats are available. Reports are produced for publication in FAS circulars and other publications. They are produced regularly for use by commodity divisions and agricultural attaches as well as FAS program managers and other USDA agencies.

S00212-006

Foreign Crop Condition Assessment Division (FCCAD).

OMB Funding Code/Title: 12-2900-0-1-352 / Foreign Agricultural Service

Program: Foreign Agricultural Service (All Programs)

Congressional Relevance: House Committee on Agriculture; Senate Committee on Agriculture, Nutrition and Forestry; House Appropriations Committee: Agriculture, Rural Development and Related Agencies Subcommittee; Senate Appropriations Committee: Agriculture and Related Agencies Subcommittee

Authority: Agricultural Trade Development and Assistance Act of 1954 (P.L. 83-480). National Wool Act of 1954 (P.L. 83-690; 7 U.S.C. 1761).

Availability: Internal Use Only

Geographic Relevance: International/Foreign

Purpose: This system supports the Foreign Agricultural Service's (FAS) mission by providing commodity analysts with prompt information on the existence, severity, and extent of unusual events which may affect the condition and production of major world crops. The Crop Condition Assessment data base includes information on more than 20,000 current and historical satellite scenes, plus soils, climate, and statistical data for high priority/high risk areas in major importing and competitor countries for crops of major economic importance to the United States. The statistical data base component will be updated annually; other components will be updated as data are available. Analysts will use the

Department of Agriculture (USDA), and reports and/or alerts generated by FAS attaches or other USDA functional elements. **Output:** Crop assessment reports will be produced on an as-requested basis. These reports will be interim products used for input to the Department's foreign crop production analytical process. The formats and frequency will be as required by foreign commodity analysts. The information produced by this system is considered as transitory and internal to the USDA analytical process and is not intended for separate publication or distribution.

Agency Contact: Foreign Agricultural Service. (202) 475-5129.

S00212-007

Trade Opportunity Referral System (TORS).

OMB Funding Code/Title: 12-2900-0-1-352 / Foreign Agricultural Service

Program: Foreign Agricultural Service (All Programs)

Congressional Relevance: House Committee on Agriculture; Senate Committee on Agriculture, Nutrition and Forestry; House Appropriations Committee: Agriculture, Rural Development and Related Agencies Subcommittee; Senate Appropriations Committee: Agriculture and Related Agencies Subcommittee

Authority: Agricultural Trade Development and Assistance Act of 1954 (P.L. 83-480; 7 U.S.C. 1704). Natural Wool Act of 1954 (P.L. 83-690).

Availability: Agency

Geographic Relevance: International/Foreign

Purpose: The Trade Opportunity Referral System is used to promote the sale of U.S. agricultural commodities in foreign countries by facilitating rapid communication of agricultural trade opportunities between foreign importers, agricultural attaches at U.S. embassies, and U.S. exporters. The foreign buyers contact the agricultural attaches and provide information on the agricultural items they wish to purchase. This is cable to the FAS/Washington office and disseminated to participating U.S. firms through a computerized flexi-mailer and a weekly trade bulletin, Export Briefs. The two major files (domestic exporter name and address file and foreign importer name and address file) are updated regularly and are comprised of about 19,000 records. **Input:** Information concerning trade opportunities is received daily via cables and telecommunication lines from overseas posts. Additional trade leads are sent through Commercial officers or letters from foreign importers, through State Department channels which are then transmitted to the Foreign Agricultural Service (FAS). Domestic importer names are referred to FAS via representatives from the departments of agriculture in the various states. Several overseas posts maintain their importer lists at the host country. The data are sent to Washington to maintain the list of foreign importers for the composite database of foreign importers. Additionally, agricultural contacts are recorded by functional category. Updating of all databases is completed through interactive processing. **Output:** Trade lead flexi-mailer envelopes and trade lead acknowledgements are mailed daily to U.S. exporters. In addition, users can access trade leads electronically. A weekly newsletter, "Export Briefs," which lists all trade leads from the previous week, is mailed to subscribers. A large variety of reports are generated, on a fee basis, for both the domestic and foreign segments of the TORS system, and includes company data and commodity specialties. Analytical reports are available which record origination and destinations of leads and active importing firms, and serve to assess the efficiency of the system. Mailing labels for both foreign and domestic firms and individuals may be generated in several formats. All reports are available on a fee basis. Reports by commodity or by firm are also available detailing the most recent trade inquiries for that commodity or country.

Global Economic Data Exchange System (GEDXS).

OMB Funding Code/Title: 12-2900-0-1-352 / Foreign Agricultural Service

Authority: Agricultural Trade Development and Assistance Act of 1954 (P.L. 83-480, title 1, § 104; 68 Stat. 456; 7 U.S.C. 1704).

Availability: Agency

Geographic Relevance: International/Foreign

Purpose: This system is used to support the agricultural exports mission of the Foreign Agricultural Service by providing an automated telecommunications minicomputer system between the agricultural attaches located at overseas embassies and the main office in Washington, D.C. The system allows the exchange of agricultural intelligence concerning worldwide production, stocks, imports, and exports of agricultural commodities. It also allows the attaché to request weather and soil information from the Landsat Satellite data base. This information allows the attaché to make production estimates of the agricultural exports produced in the foreign country. **Input:** The data come from the agricultural attaché in the overseas embassies. **Output:** Outputs are both hard-copy and available on the CRT. A "bridge" function provides the data to a report writer which commodity analysts use to develop reports. The tape is produced every 6 months for sale by the National Technical Information Service.

Authority: Bankhead-Jones Act, as amended (P.L. 74-182, § 1, as amended by P.L. 79-733; 49 Stat. 436; 7 U.S.C. 427).

Availability: Agency

Geographic Relevance: International/Foreign; National

Purpose: The Wheat Seedling Disease File is an independent collection of data on some 38,000 accessions which have been evaluated and incorporated into not only this system, but other general purpose files at the Field Crops Laboratory, as well. This file, however, relates to evaluations pertaining to only two diseases: (1) Mildew; and (2) Stem Rust. These are the two most significant diseases effecting wheat production around the world. They are of vital interest to both wheat producers and their respective governments. **Input:** Data for this file is currently available by extracting this special interest subset on wheat seedling diseases from larger existing data bases, such as the Historic Wheat Disease Test System. No additional flow of data or coding sheets is thus required by the Field Crops Laboratory. **Output:** Presently the information contained in this special interest file is available only within the Agency. Sometime soon, however, it is anticipated that it will be available to other government entities and the public for answering specific queries on-line.

Agricultural Research Service Plant Introduction File (PI File).

1970

OMB Funding Code/Title: 12-1400-0-1-352 / Agricultural Research Service

Program: Research on Plant Production

Congressional Relevance: *House Committee on Agriculture; Senate Committee on Agriculture, Nutrition and Forestry; House Appropriations Committee: Agriculture, Rural Development and Related Agencies Subcommittee; Senate Appropriations Committee: Agriculture and Related Agencies Subcommittee*

Authority: Agricultural Marketing Act of 1946 (P.L. 79-733).

Availability: Agency

Geographic Relevance: International/Foreign; National; State

Purpose: This system maintains and searches a file of all plant material introduced to the United States from foreign lands since 1969. The current file size now exceeds 56,000 plants. It is essential that this basic data be maintained in an automated system for the purpose of tracing plant source, collector, and identification information. These data represent the only data available on plant material introduced to the United States at the time of its introduction. It becomes the source data to which all further information taken from performance evaluations is appended. **Input:** Input is from all Agricultural Research Service field stations and other government agencies. **Output:** Output is generated only on demand.

Agency Contact: Agricultural Research Service. (301) 344-3328.

S00213-007

Agricultural Research Service National Small Grains Collection.

1976

OMB Funding Code/Title: 12-1400-0-1-352 / Agricultural Research Service

Program: Research on Plant Production

Congressional Relevance: *House Committee on Agriculture; Senate Committee on Agriculture, Nutrition and Forestry; House Appropriations Committee: Agriculture, Rural Development and Related Agencies Subcommittee; Senate Appropriations Committee: Agriculture and Related Agencies Subcommittee*

Authority: Agricultural Marketing Act of 1946 (P.L. 79-733).

Availability: Agency

Geographic Relevance: International/Foreign; National; State

Purpose: The system maintains complete data on small grains, rice, wheat, barley, triticale, "aegilops" rye, and oats being collected and analyzed by the Germplasm Resources Laboratory. The data consist of numerous test results primarily for resistance to diseases. The file consists of over 104,000 varieties. Data are distributed nationally and internationally throughout the small grains plant science community. The file is updated periodically. **Input:** Data are accumulated from examination of plant material under scientific observation in nursery performance trials throughout the nation. **Output:** A microfiche listing of the accessions with a limited number of descriptors is produced annually for each crop. Other reports are produced on demand.

Agency Contact: Agricultural Research Service. (301) 344-3022.

S00213-008

Agricultural Research Service Small Grains Rust Nurseries.

1978

OMB Funding Code/Title: 12-1400-0-1-352 / Agricultural Research Service

Program: Research on Plant Production

Congressional Relevance: *House Committee on Agriculture; Senate*

Committee on Agriculture, Nutrition and Forestry; House Appropriations Committee: Agriculture, Rural Development and Related Agencies Subcommittee; Senate Appropriations Committee: Agriculture and Related Agencies Subcommittee

Authority: Agricultural Marketing Act of 1946 (P.L. 79-733).

Availability: Agency

Geographic Relevance: International/Foreign

Purpose: The purpose is to maintain data resulting from research to find new genes or combinations of genes in small grains which confer resistance to populations of rust fungi throughout the world and to test new varieties and promising selections of wheat and oats developed by plant breeders and pathologists for resistance to rusts. The geographic coverage is worldwide; the data are collected at 58 locations in 33 countries on five continents and include reactions of 600 varieties of spring wheat and oats to various disease-producing organisms. Six major reports are produced annually. Updates in files are ongoing at all times. **Input:** The sources are the National Collection of Small Grains (US13A) and new cultivars supplied by plant breeders/pathologists. **Output:** The reports produced are preliminary reports, not for formal publication. The reports are either photocopies of computer listings or xerox reproductions of computer produced print tapes with accompanying text.

S00213-009

Agricultural Research Service Historic Wheat Disease Test System.

1975

OMB Funding Code/Title: 12-1400-0-1-352 / Agricultural Research Service

Program: Research on Plant Production

Congressional Relevance: *House Committee on Agriculture; Senate Committee on Agriculture, Nutrition and Forestry; House Appropriations Committee: Agriculture, Rural Development and Related Agencies Subcommittee; Senate Appropriations Committee: Agriculture and Related Agencies Subcommittee*

Authority: Agricultural Marketing Act of 1946 (P.L. 79-733).

Availability: Agency

Geographic Relevance: International/Foreign

Purpose: The system records responses of wheat varieties to major diseases. The file is used in wheat improvement programs. When potential commercial varieties are developed, the responses of the parents of the variety to diseases are checked for disease susceptibility. The system is international in scope. Major updates occur annually, but many minor updates occur throughout the year when need demands. The file contains records on 46,165 wheat accessions, dates back to 1918, and has 13 descriptors. These include: Year Tested, Crop, Nursery, Years in Nursery, Entry Number, CI/PI Number, Source, Pedigree, Powdery Mildew Reaction, Stem Rust Reaction, Leaf Rust Reaction, and Stripe Rust Reaction. **Input:** The data are supplied on coding sheets and compiled by the International Rust Nursery Program, USDA-ARS, Beltsville, MD. **Output:** There is no scheduled report. The system responds to individual specific queries in batch mode. The responses are then forwarded to the requestor either via correspondence or computer listing.

S00213-010

Agricultural Research Service Bean Germplasm System.

1975

OMB Funding Code/Title: 12-1400-0-1-352 / Agricultural Research Service

Program: Research on Plant Production

Congressional Relevance: *House Committee on Agriculture; Senate Committee on Agriculture, Nutrition and Forestry; House Appropriations Committee: Agriculture, Rural Development and Related Agencies Subcommittee; Senate Appropriations Committee: Agriculture and Related Agencies Subcommittee*

Authority: Agricultural Marketing Act of 1946 (P.L. 79-733).

Availability: Agency

Geographic Relevance: International/Foreign

Purpose: The system records inventory of the world bean collection. The system contains historical information, taxonomic and agronomic data. The file is used by bean improvement scientists from all over the world. The content is international in scope. The file is updated periodically throughout the year. The file contains bean accessions developed

from bean improvement programs throughout the world. The file contains 6,300 accessions until 43 descriptors. These include: P.I. Number, Prefix, Family, Genus, Species, Variety, Hybrid, Ploidy, Country, Locality, Name, Plant Habit, Plant Size, Leaf Size, Petiole Size, Internode Length, Plant Erect, Plant Branch, Plant Stem Color, Flower Color, Flower Concentration, Flower Raceme Length, Pod Concentration, Pod Length, Pod Constrictions, Pod Curve, Pod Cross Section, Pod Fibre, Pod Wall Thickness, Pod Beak, Pod String, Pod Color, Pod Type, Seed Color, Seed Pattern, Seed Size, Maturity, Laungitule Alpha, Longitude Degree, Latitude Alpha, Latitude Degree, Altitude, and Latitude Minutes. **Input:** The data are compiled by the USDA-SEA Western Regional Plant Introduction Station at Pullman, WA. **Output:** A catalog is produced at intervals when sufficient data have been added. The multifield search capability is used to answer queries such as, "Please send the seed and list of information on all beans grown close to the equator and below 2000-foot elevation."

S00213-011

Agricultural Research Service Cotton Germplasm System.
1974

OMB Funding Code/Title: 12-1400-0-1-352 / Agricultural Research Service

Program: Research on Plant Production

Congressional Relevance: House Committee on Agriculture; Senate Committee on Agriculture, Nutrition and Forestry; House Appropriations Committee: Agriculture, Rural Development and Related Agencies Subcommittee; Senate Appropriations Committee: Agriculture and Related Agencies Subcommittee

Authority: Agricultural Marketing Act of 1946 (P.L. 79-733).

Availability: Agency

Geographic Relevance: International/Foreign; National

Purpose: The cotton germplasm system inventories cotton varieties developed nationally and internationally since 1902. The file contains varietal information and agronomic and quality data. The content is international in scope. The file is updated when sufficient data are accumulated and a catalog produced. The subsystems are base file containing agronomic and quality information and a taxonomic file. The file contains approximately 5,000 varieties, wild types and species, and 44 descriptors. These include: Texas Number, C.I. Number, P.I. Number, Ft. Collins Number, Species, Race, Origin, Plant Height, Relative Maturity, Relative Productiveness, Pubescence, College Station Flowering Score, Boll Weight, Lint Percentage, Seed Index, Lint Index, Upper Half Mean Fibre Length, Mean Fibre Length, Fibre Strength 2, Percentage Elongation, Fineness, Surface Area/Volume Fibre, Fibre Fineness, S.A. Number, Designation, Phoenix, Ariz. Flowering Date, Boll Size, Leaf Color, Leaf Hairs, Petal Color, Petal Spot, Pollen Color, Ariz. K. Number, Locks Per Boll, Seeds Per Boll, Reflectance, Yellowness, Leaf Lac, Calyx Hairs, Boll Length, Boll Width, Fuzz Grade, and Type Seed. **Input:** Data are supplied on coding sheets and compiled by Dr. Russell J. Koehl, USDA, ARS, Texas A and M University, College Station, TX. **Output:** A catalog is produced when sufficient information has been added. Multifield search capabilities are possible.

Agency Contact: Agricultural Research Service. (409) 846-2419.

S00213-012

Agricultural Research Service Peanut Germplasm System.
1977

OMB Funding Code/Title: 12-1400-0-1-352 / Agricultural Research Service

Program: Research on Plant Production

Congressional Relevance: House Committee on Agriculture; Senate Committee on Agriculture, Nutrition and Forestry; House Appropriations Committee: Agriculture, Rural Development and Related Agencies Subcommittee; Senate Appropriations Committee: Agriculture and Related Agencies Subcommittee

Authority: Agricultural Marketing Act of 1946 (P.L. 79-733).

Availability: Agency

Geographic Relevance: International/Foreign; National

Purpose: The system inventories accessions held in the world peanut

collection. The agronomic and diverse information is used by peanut improvement scientists both nationally and abroad. The file is updated when sufficient information has been added. The system contains 22 descriptors and 4,210 accessions. These include: Identification Number, Genus, Species, Origin, Cultivar, Maturity, Plant Type, Pod Type, Seed Size, Testa Color, Seal/Pod, Shelling Percent, General Vigour, Percent Dormancy, and disease and pest resistance. **Input:** Data are collected by the USDA-ARS Southern Regional Plant Introduction Station on coding sheets and magnetic tape. **Output:** The system responds to specific queries and summaries using batch mode. A catalog is produced annually or when sufficient information has been added to warrant a new catalog.

Agency Contact: Agricultural Research Service. (404) 228-7255.

S00213-013

Agricultural Research Service Sorghum Germplasm System.

OMB Funding Code/Title: 12-1400-0-1-352 / Agricultural Research Service

Program: Research on Plant Production

Congressional Relevance: House Committee on Agriculture; Senate Committee on Agriculture, Nutrition and Forestry; House Appropriations Committee: Agriculture, Rural Development and Related Agencies Subcommittee; Senate Appropriations Committee: Agriculture and Related Agencies Subcommittee

Authority: Agricultural Marketing Act of 1946 (P.L. 79-733).

Availability: Agency

Geographic Relevance: International/Foreign; National

Purpose: The system is being developed to service sorghum improvement scientists within the United States and to supply information to scientists working in sorghum producing areas around the world. The major functions are to supply lists of potential parents and disease resistant germplasm. The content is international in scope. Major inquiries will occur annually. The system will possess the following subsystems: Base file with identification information, microorganism disease file, agronomic file, chemical constituent file, entomological file, and morphological file. To date (March 1977), the files contain 16,000 accessions and 52 descriptors. In the near future (1979) the file will contain 24,000 accessions and close to 200 descriptors. These include: Panicle Length, Panicle Breadth, Panicle Compactness, Glume Color, Glume Covering, Glume Texture, Aiming, Tillerage, Threshability, Early Vigour, Height, Leaf Breadth, Leafness, Leaf Drying, Seed Color, Seed Size, Length of Primary Branch, No. of Whorls in Panicle, Days to 5 Percent Flowering, 100 Grain Weight, Weight of Grain Per 5 Panicle, Vigour After 6 Weeks, Total Number of Tillers, Grain Hardiness, Group Number, Subgroup, Leaf Number, Stem Borer, Identification Number, Genus, Species, Source, Cultivar, Maturity, Type, Plant Uniformity, and Number of Nodes. **Input:** Data will be compiled from national and international sources by either the USDA SEA Southern Regional Plant Introduction, Experiment, GA, or National Seed Storage Laboratory, Ft. Collins, CO. Coding sheets, cards, and magnetic tape will be the principal devices to record and enter data. **Output:** The system will respond to specific queries using batch mode and produce requested summaries. A catalog from the base file is planned.

S00213-014

Agricultural Research Service Soybean Germplasm System.

OMB Funding Code/Title: 12-1400-0-1-352 / Agricultural Research Service

Program: Research on Plant Production

Congressional Relevance: House Committee on Agriculture; Senate Committee on Agriculture, Nutrition and Forestry; House Appropriations Committee: Agriculture, Rural Development and Related Agencies Subcommittee; Senate Appropriations Committee: Agriculture and Related Agencies Subcommittee

Authority: Agricultural Marketing Act of 1946 (P.L. 79-733).

Availability: Agency

Geographic Relevance: National

Purpose: The purpose is to report inventory of current accessions of soybeans maintained in the continental United States. The report contains identifying information, disease, chemical, and agronomic data. The content is national in scope, and the update cycle is "on demand."

Subsystems include isolines; maturity groups OO to IV--named varieties; wild soybeans; soybean genetic tape collection; maturity Groups III and IV--germplasm collection; and maturity Groups V to X--germplasm collection. The file contains varieties developed from early 1900 to the present. It contains 6,500 accessions and has 44 descriptors. These include: Variety Name, Maturity Group, Flower Color, Pubescence Color, Pod Color, Seed Coat Luster, Seed Coat Color, Hilum Color, Prior Designation, Source, Year, Flowering Date, Maturity Date, Lodging Score, Height, Stem Termination Score, Branching Score, Seed Quality, Weight Per Seed, Yield, Protein Content, Oil Content, Methionine, SBTI, Linolenic, Linoleic, Palmitic, Stearic, Oleic, Iodine No., Phytophthora Rot, Chlorosis Score, Mating Score, Shattering Score, Variety Parentage, Bacterial Pustule, Frogeye Reaction, Leaf Hopper Injury, Salt Reaction, and Downy Mildew Reaction. **Input:** Input includes coding sheets, cards, and magnetic tape. Data are compiled by Richard Bernard, USDA-SEA Urbana, IL and Edgar Hartwig, USDA-SEA Stoneville, MS. **Output:** The principal output is an inventory catalog, produced in hardcopy every four or five years. The system has a multifield search query capability using batch mode. **Agency Contact:** Agricultural Research Service. (217) 333-6459.

S00213-015

Agricultural Research Service Sugarcane Germplasm System.

1974

OMB Funding Code/Title: 12-1400-0-1-352 / Agricultural Research Service

Program: Research on Plant Production

Congressional Relevance: House Committee on Agriculture; Senate Committee on Agriculture, Nutrition and Forestry; House Appropriations Committee: Agriculture, Rural Development and Related Agencies Subcommittee; Senate Appropriations Committee: Agriculture and Related Agencies Subcommittee

Authority: Agricultural Marketing Act of 1946 (P.L. 79-733).

Availability: Agency

Geographic Relevance: International/Foreign; National; State

Purpose: The system is to report inventory of current accessions of sugarcane maintained in the continental United States. The report contains identification information. The content is international in scope, and the update cycle is "on demand." Subsystems include an inventory control file and a historical information file. The file contains varieties developed from 1918 to present, approximately 6,000 accessions, and 10 descriptors. These include: Variety Name, Import Number, Use Code, Location Code, Parents, Block in Field, Tier in Field, Plant Introduction Number, and Origin. **Input:** Data are compiled from coding sheets by the Principal Plant Introduction Officer, USDA-ARS, Beltsville, MD and Jim Miller, USDA-ARS, Canal Point, FL. **Output:** The principal output is the hardcopy inventory catalog. The system has a multifield search capability using batch mode. There is no schedule for output.

Agency Contact: Agricultural Research Service. (305) 924-5227.

S00213-018

Agricultural Research Service Apple Breeding System.

1969

OMB Funding Code/Title: 12-1400-0-1-352 / Agricultural Research Service

Program: Research on Plant Production

Congressional Relevance: House Committee on Agriculture; Senate Committee on Agriculture, Nutrition and Forestry; House Appropriations Committee: Agriculture, Rural Development and Related Agencies Subcommittee; Senate Appropriations Committee: Agriculture and Related Agencies Subcommittee

Authority: Agricultural Marketing Act of 1946 (P.L. 79-733).

Availability: Agency

Geographic Relevance: National; State

Purpose: This is a system that reports the progress in apple quality improvement. The system is geared for the southern apple producing areas. The file is updated annually, contains data back to 1963, and includes 10,441 accessions and 35 descriptors. These include: Farm, Orchard, Row, Tree, Year Planted, Seed Number, Fruit Diameter, Fruit Depth, Fruit Form, Fruit Symmetry, Fruit Color, Color Pattern, Color Intensity, Maxima, Average, Russet, Appearance, Flower Color, Coarseness, Texture, Acidity, Aroma, Sweetness, PO Solution, Quality, Harvest Date, Scab Reaction, Cork Reaction, Bloom Year, Number

Blooms, Bloom Date, Number Fruit, Generation, Root-Canker Reaction, and Progeny. **Input:** Input comes from coding sheets, magnetic tape, and data acquired from James M. Thompson, USDA, ARS, Byron, GA. **Output:** Output is produced annually and includes all data collected to date.

Agency Contact: Agricultural Research Service. (912) 956-5656.

S00213-017

Agricultural Research Service Pear Breeding System.

1977

OMB Funding Code/Title: 12-1400-0-1-352 / Agricultural Research Service

Program: Research on Plant Production

Congressional Relevance: House Committee on Agriculture; Senate Committee on Agriculture, Nutrition and Forestry; House Appropriations Committee: Agriculture, Rural Development and Related Agencies Subcommittee; Senate Appropriations Committee: Agriculture and Related Agencies Subcommittee

Authority: Agricultural Marketing Act of 1946 (P.L. 79-733).

Availability: Agency

Geographic Relevance: National; State

Purpose: The system reports progress, summarizes results, and stores historical information on major pear improvement research programs within the United States. The system serves major pear producing areas in the United States and is updated annually. Subsystems are progeny numbers and parentage, cultivars and selections, seedling tree data, seedling fruit data, and cultivar fruit quality. The system contains descriptors on 400,000 accessions. These include: Progeny Number, Seed Parent Code, Pollen Parent Code, Location, year planted, Cultivar Number, Name, Fire Blight Score, Species, Percent Pyrus Content, Year, Flowering, Blossom Blight, Stem Diameter, Twig Blight, Leaf Spot, Pollen, Pear Psylla, Leaf Scorch, Trunk Swelling, Blister Mite, Harvest Date, Pressure Test, Date from Storage, Evaluation Day, Length, Width, Sample Size, Shape, Surface Contour, Stem Length, Stem Thickness, Stem Angle, Color, Blush Percent, Blush Color, Russet Rating, Russet Type, Russet Location, Russet Color, Appearance, Flesh Color, Flesh Texture, Flesh Juiciness, Grit Rating, Color, Location, Grit Size, Flavor Rating, Flavor Description, Flavor, Aromatic Skin Thickness, Skin Taste, Core Size, Internal Breakdown, Seed Block, Cultivar, and Tree Number. **Input:** Data are supplied by scientists at USDA-ARS stations at Wooster, OH; Kearneysville, WV; Byron, GA; and Beltsville, MD. Data are supplied in magnetic tape, farms, and coding sheets. **Output:** A statistical summary report is produced annually from each of the five subsystems. Each report contains calculated pear quality indices, means, frequency distributions, analysis of variance, correlations, and chi-square analyses. The system possesses multifield search capabilities.

Cooperative State Research Service

S00214-001

*Cooperative State Research Service National Pesticide Information Retrieval System (NPEST).***OMB Funding Code/Title:** 12-1500-0-1-352 / Cooperative State Research Service**Program:** Federal Administration (Direct Appropriation)**Congressional Relevance:** House Committee on Agriculture; Senate Committee on Agriculture, Nutrition and Forestry; House Appropriations Committee: Agriculture, Rural Development and Related Agencies Subcommittee; Senate Appropriations Committee: Agriculture and Related Agencies Subcommittee**Authority:** Rural Development Act of 1972, as amended (P.L. 92-419, title VI, § 603(n), as amended by P.L. 95-113, 86 Stat. 675; 7 U.S.C. 2201; Revised Statute 520). Act of August 4, 1965 (P.L. 89-106, § 7, 79 Stat. 432; 7 U.S.C. 2235). Federal Insecticide, Fungicide and Rodenticide Act (P.L. 92-516, § 2, 86 Stat. 975; 7 U.S.C. 136 et seq.). Agriculture and Food Act of 1981 (P.L. 97-98, title XI, § 1121; 95 Stat. 1273; 7 U.S.C. 2242a).**Availability:** Agency; CSRS & Extension Offices**Geographic Relevance:** National; State**Purpose:** This information system contains data on pesticides. Included in this data base are the approximately 50,000 products registered by the Environmental Protection Agency as well as state registrations from participating states. This system serves federal and state interests on matters concerning pesticides. **Input:** The source for this data base will be the currently available, but still not coherently organized, body of information on federally registered pesticides as well as those recorded through state product registrations. Such data will be accepted in whatever medium they are available. **Output:** The information will be essentially available to the public through the use of on-line query protocols which will accept requests for general and specific retrievals from interested governmental as well as private parties.**Agency Contact:** Cooperative State Research Service. (202) 447-7895.**CRIS. Output:** Both technical and management reports are provided on demand basis. Annually the system produces a publication entitled "Inventory of Agricultural Research, Volumes I, II, and III." Output is generally hardcopy although computer tape and microfilm can be provided as required.**Agency Contact:** Cooperative State Research Service. (301) 344-3846.

S00214-002

Cooperative State Research Service Current Research Information System (CRIS). (ARB-83-CSRS-20). 1969**OMB Funding Code/Title:** 12-1500-0-1-352 / Cooperative State Research Service**Program:** Federal Administration**Congressional Relevance:** House Committee on Agriculture; Senate Committee on Agriculture, Nutrition and Forestry; House Appropriations Committee: Agriculture, Rural Development and Related Agencies Subcommittee; Senate Appropriations Committee: Agriculture and Related Agencies Subcommittee**Authority:** Hatch Act of 1887, as amended (P.L. 49-112). Agricultural Marketing Act of 1946 (P.L. 79-733).**Availability:** Agency; NTIS**Geographic Relevance:** National; State; Regional**Purpose:** Begun in 1967, the system serves as the USDA-state research project system to improve communications among agricultural scientists especially in regard to ongoing research, and provide agricultural research planners with up-to-date coordinated planning information on the programs of USDA and the state Agricultural Experiment Stations. Each work unit/project consists of one fixed length administrative record and five variable length textual records. The administrative record includes items such as project number, performing organization, responsible organization, investigators and coinvestigators, location, title, classification, and various fund and staff support data. The text records include such items as: objective, approach, keywords, progress, and publications. The system has nationwide coverage and is updated at least twice a month. **Input:** The data come from forms submitted by the five research agencies of the USDA, 58 state Agricultural Experiment Stations, 16 forestry schools, 16 1890 Institutions, Tuskegee Institute, and 27 schools of veterinary medicine. **Output:** The system produces a publication entitled "Inventory of Agricultural Research, Volumes I, II, and III." Output is generally hardcopy although computer tape and microfilm can be provided as required.

S00215-004

Extension Expanded Food and Nutrition Education Report Program (EEF-NEP).

1969

OMB Funding Code/Title: 12-0502-0-1-352 / Extension Service

Program: Payments to States

Congressional Relevance: *House* Committee on Agriculture; *Senate* Committee on Agriculture, Nutrition and Forestry; *House* Appropriations Committee: Agriculture, Rural Development and Related Agencies Subcommittee; *Senate* Appropriations Committee: Agriculture and Related Agencies Subcommittee

Authority: Smith Lever Act of 1914 (P.L. 63-95, § 2; 38 Stat. 373; 7 U.S.C. 342).

Availability: Agency

Geographic Relevance: National; State

Purpose: The system is a composite of two periodic reports--a 6-month national sample from operating program units on demographic and behavior change data, and a 12-month report on the demographic data from all operating units. The system provides program managers with information to make program decisions, in-depth program evaluation, and information to measure the effectiveness of the program in achieving the objectives and the congressional intent. **Input:** The data are derived from sample unit and unit reports prepared by operating staff professionals. **Output:** Six-month reports represent a national sample of operating units on nutrition behavior change and demographic data on program participants. All operating units provide annual reports on demographic data of participants.

S00215-005

Extension Penalty Mail Survey.

1976

OMB Funding Code/Title: 12-0502-0-1-352 / Extension Service

Program: Payments to States

Congressional Relevance: *House* Committee on Agriculture; *Senate* Committee on Agriculture, Nutrition and Forestry; *House* Appropriations Committee: Agriculture, Rural Development and Related Agencies Subcommittee; *Senate* Appropriations Committee: Agriculture and Related Agencies Subcommittee

Authority: Smith Lever Act of 1914 (P.L. 63-95). Food and Agriculture Act of 1977 (P.L. 95-113).

Availability: Internal Use Only

Geographic Relevance: State; County

Purpose: This is the central point for analyzing, summarizing, and consolidating the monthly Cooperative Extension Service Penalty Mail Survey submitted by the states. The survey is used to determine the amount to reimburse Postal Service and is used as a management tool by the states and counties for monitoring the Penalty Mail Program. A summary is provided to each state showing the total mail volume used during the month, broken down by mail categories and associated costs. A projection of the final mail cost for the year is also provided each state. **Input:** The data come from state and county Penalty Mail Surveys submitted monthly. **Output:** The output consists of a monthly summary of mail usage by category and associated cost for each state, as well as a yearly projection, and a national summary provided to management elements of Science and Education agencies.

S00215-006

Annual 4-H Youth Enrollment Report.

1974

OMB Funding Code/Title: 12-0502-0-1-352 / Extension Service

Program: 4-H Youth

Congressional Relevance: *House* Committee on Agriculture; *Senate* Committee on Agriculture, Nutrition and Forestry; *House* Appropriations Committee: Agriculture, Rural Development and Related Agencies Subcommittee; *Senate* Appropriations Committee: Agriculture and Related Agencies Subcommittee

Authority: Smith Lever Act of 1914 (P.L. 63-95, § 3(3); 7 U.S.C. 341-349).

Availability: Agency

Geographic Relevance: National; State; Region

Purpose: This is the central 4-H program development, curriculum development, monitoring, information, and program management report for the Cooperative Extension Service in conducting the 4-H Youth Development program nationwide. The following receive copies of the national summary: All State Extension Services, Secretary's Office of the U.S. Department of Agriculture (USDA), and the USDA Office of Equal Opportunity. Others are provided specific information on request, including more than 100 major U.S. corporations contributing to phases of the 4-H program through the National 4-H Council. The summary includes state, regional, and national totals of youth participation in 4-H clubs, 4-H special interest groups, the 4-H education program, instructional 4-H TV, and 4-H camps; 4-H youth participation by age, racial-ethnic group, sex, residence type and in subject/project areas; and 4-H units and volunteers assisting. **Input:** The data are derived from state 4-H enrollment summaries submitted once a year to the Extension Service. **Output:** The principal output is an annual national summary of state 4-H enrollment reports, including 4-H youth participation by racial/ethnic, sex, and residence groups; subject project areas; and 4-H units and volunteers serving with state, regional, and national totals.

Forest Service

S00216-001

Timber Management System (TMS). (2400).

OMB Funding Code/Title: 12-1100-0-1-302 / Forest management, protection and utilization

Program: Forest Protection and Utilization (All Programs)

Congressional Relevance: *House* Committee on Agriculture; *Senate* Committee on Agriculture, Nutrition and Forestry; *House* Appropriations Committee: Interior Subcommittee; *Senate* Appropriations Committee: Interior Subcommittee

Authority: Forest Service Creative Act of 1973 (P.L. 93-145).

Geographic Relevance: National; Regional

Purpose: This system provides national, regional, and forest level information required to properly manage the resource and supply timber products of the U.S. economy as well as satisfy the ever increasing demands from Congress, the Administration and the public at large for immediate, accurate answers to questions about our stewardship of national forests. The servicewide data base has a file containing records identified by land use classification, a file of potential volume yield records for all national forests, files of programmed timber harvest volume records for all national forests for the current fiscal year and two following years, and files of reforestation and timber stand improvement accomplishment records for all national forests for the current and two following calendar years. The regional data bases contain a file with timber inventory adjustment records to reflect changes in inventoried national forest volumes resulting from harvest and other identifiable causes. The forest data bases contain a file of current intensive forest examination in-place data records by stratum, forest type, or stand, a file of the most recent extensive forest inventory records, and a file of each forest's timber activities program records including both plans and accomplishments. **Input:** Input comes from internal records and reports. **Output:** The system produces annual reports of accomplishment for internal and external use and query as needed. The reports include: Timber Land Use Summary, Summary of Area Needing Reforestation or Timber Stand Improvement, Inventory Summary of Volume Growth and Mortality, Potential Yield Statement Commercial Forest Land Volume Summary, Programmed Harvest Statement Commercial Forest Land Volume Summary, and Annual Reforestation and Timber Stand Improvement Report.

Agency Contact: Forest Service. (202) 447-6893.

S00216-004

Recreation Information System (RIS). (2300).

OMB Funding Code/Title: 12-1100-0-1-302 / Forest management, protection and utilization

tection and utilization; 12-5009-0-2-303 / Construction and operation of recreation facilities

Program: Recreation Use, Recreation Construction

Congressional Relevance: *House* Committee on Agriculture; *House* Committee on Interior and Insular Affairs; *Senate* Committee on Agriculture, Nutrition and Forestry; *Senate* Committee on Energy and Natural Resources; *House* Appropriations Committee: Interior Subcommittee; *Senate* Appropriations Committee: Interior Subcommittee

Authority: Forest Service Creative Act of 1891 (P.L. 51-145).

Availability: Agency

Purpose: The RIM System provides information on the facilities, development, and use of all recreation areas in the Forest Service. The system also provides data for the preparation of national directories of recreation facilities and plans for construction and maintenance. RIM was developed because it became impossible to manually keep track of the numbers, kinds, conditions, costs, and the use of the things and places that comprise the recreation resource. The RIM System is designed to simultaneously cope with information about places, people, and things over periods of time. It copes with information about places (lands and waters) in terms of acres, sites, areas, counties, states, ranger districts, national forests, regions, and census divisions. It copes with information about people (customers) who visit, view, harvest, and generally enjoy the benefits of the places. It copes with information about things which grow on the land on which we add to the land in the form of improvements and/or investments to promote beneficial use of places by people. It copes with information about time relationships (present and future) between the people, the places, and the things. Data are systematized so that bits of information can be aggregated several different ways. The most common are: by administrative units (region, national forest, ranger district); by political subdivision (states, counties, congressional districts); and by classification of some type of physical attribute (wilderness, national recreation area, river basin). Summaries often require combinations of these three types of aggregates. The RIM data base also supplies information for Rand McNally camping information and 40 other publishers. Updating and the production of the fixed frequency reports is done on a yearly basis at Fort Collins. **Input:** Data for the system come from internal records maintained at the recreation sites. **Output:** The principal reports are annual reports on recreation use by location and type, data for the national directory of recreation facilities, and annual plans for construction and maintenance.

S00216-005

Fire Information System (FIRESTATS). (7401004).

OMB Funding Code/Title: 12-1100-0-1-302 / Forest management, protection and utilization

Program: Forest Fire Prevention and Protection of National Forests

Congressional Relevance: *House* Committee on Agriculture; *Senate* Committee on Agriculture, Nutrition and Forestry; *House* Appropriations Committee: Interior Subcommittee; *Senate* Appropriations Committee: Interior Subcommittee

Authority: Agricultural Act of 1956 (P.L. 84-540, § 401; 16 U.S.C. 586). Forest Service Creative Act of 1891 (P.L. 51-145).

Availability: Agency

Geographic Relevance: National, State, County, District

Purpose: The system provides an automated method for accumulating fire report data from regional collection tape files into a National Master File for Fire Management Statistical Reporting requirements. The Individual Fire Report is the basic record for forest fire occurrences throughout the Nation. The computer record contains 65 data items for a reported fire resulting in a record size of 252 characters in length. The individual records are collected into a yearly file averaging about 14,000 records per year. The yearly files are saved for fire history analysis programs and statistical reporting requirements. **Input:** The input consists of data collected from the Individual Fire Report, the U.S. Department of Agriculture, and the Forest Service. Form 5100-29 is prepared by ranger district personnel and forwarded to RO for editing and entry into computer readable files. **Output:** The output are a monthly cumulative forest fire report and an annual national forest fire report. These are in batch mode and hardcopy, and provide information on number of fires, acres burned, dollar damage, size class, and statistical cause.

Agency Contact: Forest Service, (703) 235-8666.

S00216-006

Program: Forest Management, Protection, and Utilization (All Programs); Road and Trail Construction

Congressional Relevance: *House* Committee on Agriculture; *House* Committee on Education and Labor; *Senate* Committee on Agriculture, Nutrition and Forestry; *Senate* Committee on Energy and Natural Resources; *House* Appropriations Committee: Interior Subcommittee; *Senate* Appropriations Committee: Interior Subcommittee

Authority: Forest Service Creative Act of 1891 (P.L. 51-145, § 24; 16 U.S.C. 471). Agricultural Act of 1956 (P.L. 84-54, § 401; 16 U.S.C. 586). Conservation Act (Navigable Waters) (P.L. 61-435, § 1, 2; 16 U.S.C. 552-553). Youth Conservation Corps Act of 1970 (P.L. 91-378, 16 U.S.C. 1701-1706).

Availability: Agency

Geographic Relevance: National

Purpose: The report summarizes all statement of appropriation status reports and produces total forest status by appropriate symbols. These summaries provide the basis for completing Form SF-133 as required by law for the submission to other agencies for the transfer of appropriations aid to the Office of Management and Budget and Treasury for Forest Service appropriations. The report is run monthly with new updates occurring monthly in the file. The file size is 80 characters with 5000 records. **Input:** Source documents are received from all regions within the Forest Service and are used to produce required accounting reports. **Output:** The outputs are: appropriation status report, a file that is passed to the FFDG system, and special quarterly and semiannual reports

Agency Contact: Forest Service, (703) 235-8130.

S00215-007

Bacteriological Monitoring System (BMS). (7401004).

OMB Funding Code/Title: 12-5208-0-2-302 / Acquisition of lands for national forests, special acts

Program: Pollution Abatement

Congressional Relevance: *House* Committee on Interior and Insular Affairs; *Senate* Committee on Environment and Public Works; *House* Appropriations Committee: Interior Subcommittee; *Senate* Appropriations Committee: Interior Subcommittee

Authority: Interior Department and Related Agencies, Appropriations For Fiscal Year 1983 (P.L. 97-394).

Availability: Agency

Geographic Relevance: National

Purpose: The system provides for monitoring of bacteriological testing activities, reports the disposition of the testing activity, indicates appropriate action to be taken, and maintains a testing history of each site. The information is used by all internal organization levels, the Environmental Protection Agency, and states. The system provides an automated method for recording individual bacteriological test results. It combines the results of current testing records, compares these to previous test records, and reports the disposition back to the user. The system also produces a record of all sampling and testing results for each individual water supply. The file size varies, but the current system contains approximately 5,000 records. The systems has five subroutines with approximately 8,700 lines of code. There are four executable file elements. There are about 80 characters per record. Information is updated a minimum of once per month. **Input:** All input is internal at the thought District, forest, and regional levels. The major categories of input are file identification, site address, test data, sample results, disposition condition survey, sanitary survey, and site name. **Output:** Outputs are in report form with four principal categories: bacteriological monitoring data, tests no site, site no test, and history record. Reports are a minimum of once per month, and the medium is machine readable and/or hardcopy.

Availability: Agency

Geographic Relevance: State; County; City

Purpose: This report provides the dollar outlays for the Forest Service by program and influence activities for every state, county, independent city of the United States, and each incorporated city where the population exceeds 25,000. The information is part of a federal outlays report for the entire department. The report is run annually, with new updates each year; it has a file size of 80 characters and 3000 records on the file. **Input:** Source documents are submitted by each region within the Forest Service. The major category of input is cards. Also, expenditure data are obtained. **Output:** The system produces a report of outlays by state within each appropriation. After the data are balanced, a tape file is created that contains the input data card images that produce the final report. The report and tape are sent to the Department.

Land Use Reports (LUR).

OMB Funding Code/Title: 12-1100-0-1-302 / Forest management, protection and utilization

Program: Special Uses--Nonrecreation

Congressional Relevance: *House* Committee on Agriculture; *Senate* Committee on Agriculture, Nutrition and Forestry; *House* Appropriations Committee: Interior Subcommittee; *Senate* Appropriations Committee: Interior Subcommittee

Authority: Forest Service Creative Act of 1891 (P.L. 51-145, § 24).

Availability: Agency

Geographic Relevance: National; State; County; Forest Service Administrative units

Purpose: The system provides for machine accomplishment of certain basic clerical jobs (i.e., billing) and to facilitate the preparation of managerial reports by developing a computerized land uses information system. Each FS region is responsible for its file maintenance. The regional LUR files contain the following information: user name and address; type of permit; issuing office or agency; billing information (type, amount, expiration date, etc.); kind of use and location of use by district, state, and county, and measurement of FS resource being used, (i.e., right-of-way length and width, area, cubic yard/ton, holes, and structures). Files are updated annually, usually in November. File sizes vary from region to region depending on the volume of permits issued for special use activities. **Input:** Input is derived from information contained in the authorizing documents, which allow others to occupy lands and to have interests in land administered by the Forest Service (FS). The system is designed for implementation at the Forest supervisor's office. All source input information is available internally. The computer system is maintained by the national office and operated by the separate regions. Each region is responsible for its own updating, output generation, and file maintenance. **Output:** The system produces computer-generated bills for special land uses, with predetermined annual fees, and workload and summary reports by kind of use, type of user, miles of right-of-way, and authorizing officer or agency, by Forest Service administrative unit, county, and state. All reports are produced annually.

Automated Data Processing Management Information System (ADP-MIS). (68001001).

OMB Funding Code/Title: 12-1100-0-1-302 / Forest management, protection and utilization

Program: Forest Management, Protection and Utilization (All Programs); Private Forestry; Cooperative Renewable Resource Management and Utilization

Congressional Relevance: *House* Committee on Agriculture; *Senate* Committee on Agriculture, Nutrition and Forestry; *House* Appropriations Committee: Interior Subcommittee; *Senate* Appropriations Committee: Interior Subcommittee

Authority: Forest Service Creative Act of 1891 (P.L. 51-145, § 24; U.S.C. 471).

Geographic Relevance: National

Purpose: The information contained in these annual reports is required by Federal Management Circular 74-2. These reports are used internally as management tools. All equipment purchased, leased, or given to the Forest Service is listed by unit and contains information on make, model, serial number, maintenance and/or rental costs, acquisition date, and purchase price. Information by unit is available on all manpower and cost data, including the cost of computing supplied by other agencies, schools, and contractors. Also, information is included on computer usage and the amount of time the computers are available for outside use. **Input:** Forest Service reporting is supplied internally by nine regions, eight stations, northeastern and southeastern areas of state and private forestry, Forest Products Laboratory, and the Washington office. **Output:** Reports that are produced annually for internal use include summaries of computer systems, computer inventory, PCAM inventory, terminal inventory, system utilization, and manpower and cost data. All changes, additions, and/or deletions are provided on punch cards to the Department of Agriculture for forwarding to GSA for inclusion in the GSA Master File for the United States.

S00216-023*Communications on Renewable Resources (CORR).***OMB Funding Code/Title:** 12-1100-0-1-302 / Forest management, protection and utilization**Program:** Cooperative Forestry Assistance**CFDA NO.:** 10.664**Congressional Relevance:** *House* Committee on Interior and Insular Affairs; *Senate* Committee on Agriculture, Nutrition and Forestry; *House* Appropriations Committee: Interior Subcommittee; *Senate* Appropriations Committee: Interior Subcommittee**Authority:** Cooperative Forestry Assistance Act of 1978 (P.L. 95-313; 92 Stat. 365; 16 U.S.C. 2107).**Availability:** Agency**Geographic Relevance:** International/Foreign; National**Purpose:** The Communications on Renewable Resources system provides support for programs and activities authorized by Public Law 95-313 by facilitating technical assistance and technology transfer through technical information flows and continuing education. Information concerning timber production, forest insects and diseases, fire and wildlife fires, fish and wildlife habitat, range management, use of wood products, and urban forestry is included in the system. Information which is difficult to obtain, older information (pre-1970), lesson plans and course schedules, equipment specifications, and general and practical information for "how-to-do-it" or "what-is-known" queries are considered for inclusion in the file. About 20,000 records have been created through 1979, production will be initiated in 1980. Anticipated update will be quarterly, with about 8,000 new records created per year. The users of the system include public and private managers and forest and rangelands and other renewable resources. **Input:** The computer file consists primarily of bibliographic data obtained from existing information sources when possible. Duplication of information readily available from existing data bases is avoided. Data selection for the file is based on the judgments of subject experts, program managers, and users' expressions of need, with an emphasis on information that is directly usable. **Output:** Outputs of the system include magnetic tapes for distribution to information retrieval systems, tapes for computer typesetting, COM-produced microfiche, hardcopy printouts, and indices, and on-line retrieval.**Agency Contact:** Forest Service. (703) 235-2074.**S00216-024***Program Accounting Management Attainment Reporting System (PAMARS).***OMB Funding Code/Title:** 12-1100-0-1-302 / Forest management, protection and utilization**Program:** Forest Management, Protection, and Utilization (All Programs)**CFDA NO.:** 10.664**Congressional Relevance:** *House* Committee on Interior and Insular Affairs; *Senate* Committee on Agriculture, Nutrition and Forestry; *House* Appropriations Committee: Interior Subcommittee; *Senate* Appropriations Committee: Interior Subcommittee**Authority:** Forest Service Creative Act of 1891, as amended (P.L. 51-145); Cooperative Forestry Assistance Act of 1978 (P.L. 95-313; 16 U.S.C. 202); Volunteers in the National Forests Act (P.L. 92-300); Agricultural Act of 1956 (P.L. 84-540)**Availability:** Agency**Geographic Relevance:** National**Purpose:** This system collects and identifies program costs and relates these costs to program accomplishments. The system uses the program development and budgeting process to generate cost data on land management planning, resource programs, and assessments. **Input:** The Forest Service units provide the fiscal information used in the system. **Output:** This system produces accounting reports.**Agency Contact:** Forest Service. (703) 235-8130.**S00216-025***Land and Resource Management Planning System (LRMP). (1980).***OMB Funding Code/Title:** 12-1100-0-1-302 / Forest management, protection and utilization**Program:** National Forest System: Land and Resource Protection**Congressional Relevance:** *House* Committee on Agriculture; *Senate* Committee on Agriculture, Nutrition and Forestry; *House* Appropriations Committee: Agriculture, Rural Development and Related Agencies Subcommittee; *Senate* Appropriations Committee: Agriculture and Related Agencies Subcommittee**Authority:** Forest and Rangeland Renewable Resources Planning Act of 1974, as amended (P.L. 93-378, § 2-8, 16 U.S.C. 1600-1606).**Availability:** Agency**Geographic Relevance:** National**Purpose:** The Land and Resource Management Planning System (LRMP) is designed to interface various data and information sources, analytical systems, and management processes into an integrated, multi-step approach to executing the land and resource management planning process defined in the National Forest Management Act. The LRMP system includes a number of computer-aided models supported by a decentralized information system. FORPLAN is a multi-resource allocation and scheduling system which utilizes the FMPS linear programming algorithm. The matrix generator calculates the values for various schedules from the base data set. The generator calculates acreage control limitations, costs, benefits, and net present value for each management prescription in the model. IMPLAN is an analytical technique for input/output analysis of social and economic impacts. The input-output model is an accounting device which depicts the structure of a selected economy. The effect of use or sale of a resource to consumers on total production in an economy is derived by solving a set of simultaneous equations. Employment income population and the economic indicators are estimated based on the level of production in the economy. **Input:** Resource and management information are input to FORPLAN in a logical sequence and form. Flows of resources can be input and traced through the IMPLAN model to show linkages between the various sectors composing the economy. **Output:** The solution from FMPS is processed by a report writer module which displays tables and graphs which depict output flows over time by land areas in management prescriptions. IMPLAN is used to evaluate the economic and social impacts of management alternatives on affected communities.**Agency Contact:** Forest Service. (202) 447-6697.**S00216-026***Multi-Year Project Planning (ADVENT). 1965***OMB Funding Code/Title:** 12-1100-0-1-302 / Forest management, protection and utilization; 12-1103-0-1-302 / Construction**Program:** Forest Management, Protection and Utilization (All Programs); Construction (All Programs)**Congressional Relevance:** *House* Committee on Agriculture; *Senate* Committee on Agriculture, Nutrition and Forestry; *House* Appropriations Committee: Interior Subcommittee; *Senate* Appropriations Committee: Interior Subcommittee**Authority:** Department of Agriculture Organic Act of 1944 (P.L. 78-425; 58 Stat. 743; 7 U.S.C. 2249); Forest Service Creative Act of 1891, as amended (P.L. 51-145; 26 Stat. 1103; 16 U.S.C. 471 et seq.); Youth Conservation Corps Act of 1970 (P.L. 91-378, § 1-5; 84 Stat. 794; 16 U.S.C. 1701-1705); National Forests, Roads and Trails System Act (P.L. 88-657, § 1-7; 78 Stat. 1089; 16 U.S.C. 532-538).**Availability:** Agency**Geographic Relevance:** National**Purpose:** ADVENT is a formal process for developing both multi-year and annual projects. ADVENT makes it possible for planners to identify a large number of alternative project combinations to fit various goals and objectives that are subject to financial, manpower, and output constraints. **Input:** Input includes data on Forest Service activities, outputs, appropriations, functions, manpower, and scheduling. **Output:** ADVENT data is used for the RPA program data base at national levels. It is also used for annual budget proposals.**Agency Contact:** Forest Service. (202) 447-6987.**S00216-027***Timber Sales Accounting (TSA).***OMB Funding Code/Title:** 12-1100-0-1-302 / Forest management, protection and utilization

Program: National Forest System: Renewable Resource Management and Utilization (Timber Sales and Administration)

Congressional Relevance: *House Committee on Agriculture; Senate Committee on Agriculture, Nutrition and Forestry; House Appropriations Committee: Interior Subcommittee; Senate Appropriations Committee: Interior Subcommittee*

Authority: Multiple Use Sustained-Yield Act of 1960 (P.L. 86-517, § 1-4; 74 Stat. 215; 16 U.S.C. 528-531; 36 C.F.R. sec. 223). Forest and Rangeland Renewable Resources Planning Act of 1974 (P.L. 93-378, § 3, as amended by P.L. 94-588; 88 Stat. 476; 16 U.S.C. 1601).

Availability: Agency

Geographic Relevance: National; State; County; Zone

Purpose: The service-wide Timber Sale Accounting System (TSA) is designed to perform all required timber sale accounting operations from the time a timber sale contract or permit is awarded to a purchaser until all the conditions of the contract or permit have been fulfilled and it is terminated. This accounting system accumulates differing accounting requirements of five separate existing contract forms and two or more permit forms. In addition to maintaining individual timber sale contract accounts for deposits, credits, guarantees, bonds, and various charges for material removed plus associated charges, the system will aggregate certain volume and financial data for statistical and reporting purposes. **Input:** Forests inputs data as they are available and controls updates and outputs. The system is updated via remote terminals at S.O. and made available to Forests. **Output:** Output is in form of hardcopy reports as well as by remote terminals. Outputs vary from the daily transaction report through comprehensive Statements of Account that reflect each sale's monthly financial condition, quarterly administrative reports, to an annual summarized accounting report that provides data calculations for the 25 percent Fund Payments to States. A total of 23 outputs are produced by the system. Several have more than one format to meet specific needs.

S00216-028

Mineral Leasing File. (28001002).

OMB Funding Code/Title: 12-1106-0-1-302 / National forest system

Program: Land and Resource Protection

Congressional Relevance: *House Committee on Agriculture; Senate Committee on Agriculture, Nutrition and Forestry; House Appropriations Committee: Agriculture, Rural Development and Related Agencies Subcommittee; Senate Appropriations Committee: Agriculture and Related Agencies Subcommittee*

Authority: Wilderness Act (P.L. 88-577, § 4; 78 Stat. 893; 16 U.S.C. 1133). Forest and Rangeland Renewable Resources Planning Act of 1974, as amended (P.L. 93-378, § 3(a), as amended by P.L. 94-588, § 2; 88 Stat. 476; 16 U.S.C. 1601 et seq.).

Availability: Agency

Geographic Relevance: Regional

Purpose: The Mineral Leasing File (MFL) is mainly used to manage the mineral leasing activities on the national forest lands. One of the fringe benefits of this data base is to provide information to Congress, GAO, and the public on the minerals activities on a specific location within the national forest boundary, for example, the wilderness study area in California. The MFL consists of a group of the regional data bases. Each one of the regional data bases is independent of the others. The MFL is managed by the System 2000 (S2K) Data Base Management System. The total file size is approximately 15 million characters. The period covered varies from region to region. **Input:** Data are Bureau of Land Management mineral leases, permits, and licenses applications. **Output:** Output consists of monthly and semiannual reports.

Agency Contact: Forest Service (202) 235-2076.

Soil Conservation Service

S00218-001

Snow Surveys and Water Supply Forecasting (SNOWTEL).

OMB Funding Code/Title: 12-1000-0-1-302 / Conservation operations

Program: Snow Surveys and Water Supply Forecasting

Congressional Relevance: *House Committee on Agriculture; Senate Committee on Agriculture, Nutrition and Forestry; House Appropriations*

Committee: Agriculture, Rural Development and Related Agencies Subcommittee; Senate Appropriations Committee: Agriculture and Related Agencies Subcommittee

Authority: Soil Conservation and Domestic Allotment Act, as amended (P.L. 74-46, as amended by P.L. 74-461) Act of September 7, 1966 (P.L. 89-560).

Availability: Agency

Purpose: The purpose is to gather snow and other hydrometeorological data, validate it, and use it for forecasting available water at downstream points for agriculture (water management, irrigation, flood control, and the like). Data are gathered during the snow accumulation period and through the spring snow-melt period. Data include—but are not limited to—temperature, precipitation, snow water equivalent, and battery voltage. **Input:** Data are collected from remote mountain sites in 11 Western States. **Output:** The principal output is monthly water supply forecasts. There is a limited ad hoc query capability.

Agency Contact: Soil Conservation Service. (202) 447-6267.

S00218-002

Great Plains Conservation Program (GPCP) Cost-Share Reporting.

OMB Funding Code/Title: 12-2268-0-1-302 / Great plains conservation program

Program: Great Plains Conservation (All Programs)

Congressional Relevance: *House Committee on Agriculture; Senate Committee on Agriculture, Nutrition and Forestry; House Appropriations Committee: Agriculture, Rural Development and Related Agencies Subcommittee; Senate Appropriations Committee: Agriculture and Related Agencies Subcommittee*

Authority: Soil Conservation and Domestic Allotment Act (P.L. 96-263, as amended by P.L. 74-46, P.L. 84-1021, P.L. 91-118, P.L. 96-263; 16 U.S.C. 590p (b)).

Availability: Agency

Purpose: The program provides cost-sharing assistance to participating landowners or operators for developing and installing long-term conservation plans and practices for their land. The GPCP Cost-share Reporting System provides recall and enumeration potential of cost-share payments, refunds, and practice unit completion and destruction. This recall and combination can be made by location, by contract (producer), by time, and by practice. The scope covers all GPCP cost-share transactions. The system has been operational since March 1962. It replaced manual systems maintained by designated states since the program began in 1957. The data date from the program inception in 1957. The geographic coverage includes designated counties in designated states from 233 counties in 1957 to 519 counties at present. Coding includes state, county, conservation district, congressional district, project, field office, and SCS area organization. Update reports are submitted monthly. Summaries and cost-share statements are prepared and distributed monthly. A Producer Report of Payments is prepared annually. **Input:** Input includes: 1) Producer masterfile: name, address, contract number, location code, and social security or tax identification number; 2) Cost-share payment and refund information: practice code and amount, amount paid or refunded, date of action, and original action dates for adjustments. These are coded to contract and social security or tax identification numbers; and 3) Location coding: location codes are accessed from the Time and Progress Reporting System. They are a combination of organizational level, project, and geographical coding including political subdivisions. **Output:** An annual Report of Payment in hardcopy is furnished to the producer for tax reporting; a monthly summary in hardcopy is furnished in SCS organizational level; microfiche and hardcopy are furnished to Washington SCS; and an annual report with limited narrative is prepared by the Washington office.

Agency Contact: Soil Conservation Service. (202) 447-5904.

S00218-003

Time and Progress Reporting System.

1970

OMB Funding Code/Title: 12-1000-0-1-302 / Conservation operations; 12-1069-0-1-301 / River basin surveys and investigations; 12-1066-0-1-301 / Watershed planning; 12-1072-0-1-301 / Watershed and flood prevention operations; 12-2268-0-1-302 / Great plains conservation program; 12-1010-0-1-302 / Resource conservation and development; 12-1069-0-1-301 / River basin surveys and investigations; 12-8210-0-7-301 / Miscellaneous contributed funds

Program: Conservation Operations (All Programs); River Basin Surveys; Small Watershed Planning Authorized by Public Law 566; Watershed and Flood Prevention Operations (All Programs); Cost-Sharing Assistance; Cost-Sharing Programming and Contract Administration; Technical Assistance; Financial Assistance; Loan Services; Flood Plain Management Assistance; Interagency Coordination and Program Formulation; Miscellaneous Contributed Funds

Congressional Relevance: *House Committee on Agriculture, House Committee on Public Works and Transportation; Senate Committee on Agriculture, Nutrition and Forestry; Senate Committee on Banking, Housing, and Urban Affairs; Senate Committee on Environment and Public Works; Senate Appropriations Committee; Agriculture and Related Agencies Subcommittee; Senate Appropriations Committee; Agriculture and Related Agencies Subcommittee*

Authority: Soil Conservation and Domestic Allotment Act, as amended (P.L. 74-46, as amended by P.L. 74-461). Act of September 7, 1965 (P.L. 89-560).

Availability: Internal Use Only

Purpose: The system provides recall and combination potential of time, progress, and (when combined with accounts data) personnel costs, unit costs, and productivity indices for all SCS activities. This recall and combination can be made by location, fund, activity, recipient of service, time, progress item, organizational unit, employee classification, and combinations of each. **Input:** The file covers time and progress data for all Soil Conservation (SCS) programs at all organizational levels. The systems have been updated periodically since the early years of SCS. The last major revision was effective October 1, 1983. Time and progress reporting system is servicewide. Geographic coding includes, as applicable, state charged, state worked, area, field office, conservation district, congressional district, project or projects area, and county. Goals are submitted annually and updated currently. Accounts data are submitted monthly. Time summaries are prepared semiannually and annually. Progress summaries are prepared as needed. **Output:** The following summaries are produced: Time, progress, cost, cost-based budget, cost-based budget is quarterly, others annually or semiannually; hardcopy (and microfilm to Washington office). At end of fiscal year, USDA's National Finance Center furnishes tapes to SCS for continued recall capability. Annual reports with varying amount of narrative supplement are prepared at various organizational levels. Location coding is furnished to Ft. Worth ADP Unit for the Great Plains Conservation Program cost-share reporting.

Agency Contact: Soil Conservation Service. (202) 382-8067.

S00218-004

National List of Scientific Plant Names (NLSP).

OMB Funding Code/Title: 12-1000-0-1-302 / Conservation operations

Program: Conservation Technical Assistance

Congressional Relevance: *House Committee on Agriculture; Senate Committee on Agriculture, Nutrition and Forestry; House Appropriations Committee; Agriculture, Rural Development and Related Agencies Subcommittee; Senate Appropriations Committee; Agriculture and Related Agencies Subcommittee*

Authority: Soil Conservation and Domestic Allotment Act (P.L. 74-461, § 1-6). (P.L. 89-560, § 1, 2; 42 U.S.C. 3271, 3272).

Availability: Agency

Geographic Relevance: National

Purpose: The system provides a comprehensive single-source list for scientific reference and for data storage and retrieval. The information content is a plant species checklist of all species in continuous United States, Alaska, Hawaii, and the Caribbean area. The list contains plant symbols for use in computer files, genus, species, author's name, regional distribution, and primary botanical reference. Approximately 40,000 records are in the file. The update cycle is random. **Input:** The source of input is from governmental and university plant scientists describing native and adapted plant species throughout the United States. **Output:** The system produces a hardcopy and published list of plant names.

Agency Contact: Soil Conservation Service. (202) 447-2587.

S00218-006

Soil Survey Interpretations.

OMB Funding Code/Title: 12-1000-0-1-302 / Conservation operations

Program: Conservation Technical Assistance

Congressional Relevance: *House Committee on Agriculture, Senate Committee on Agriculture, Nutrition and Forestry; House Appropriations Committee; Agriculture, Rural Development and Related Agencies Subcommittee; Senate Appropriations Committee; Agriculture and Related Agencies Subcommittee*

Authority: Soil Conservation and Domestic Allotment Act (P.L. 74-461, § 1-6). Act of September 7, 1965 (P.L. 89-560, § 1, 2, 42 U.S.C. 3271, 3272).

Availability: Agency

Geographic Relevance: State; County

Purpose: The system provides land use planners and managers with information relating to the suitability of various soil types for specific uses. It supports the National Cooperative Soil Survey Program. Soil interpretation records are developed for each soil series. These include a classification and brief soil description. Soil properties are estimated based on laboratory data and field observations. Soil limitations or suitability ratings are listed for sanitary facilities, building site development, construction material, water management and recreational development. Soil capability subclass and woodland suitability class, and break suitability and wildlife habitat suitability are given. Predicted yields are given for selected crops produced under high-level management. Potential productivity is given for common trees. Approximately 25,000 records are in the file. The update cycle is monthly. **Input:** The source of input is from Soil Conservation Service state soil scientists and Technical Service Center soil correlators to the Statistical Laboratory, Iowa State University where the file is maintained. **Output:** The system produces hardcopy text material for soil survey reports and tabular interpretive data for publication and public use.

Agency Contact: Soil Conservation Service. (202) 382-1808.

S00218-007

National Resource Inventory: 1977 (NRI-77).

OMB Funding Code/Title: 12-1000-0-1-302 / Conservation operations

Program: Resource Appraisal and Program Development

CFDA NO.: 10.909

Congressional Relevance: *House Committee on Agriculture, Senate Committee on Agriculture, Nutrition and Forestry; House Appropriations Committee; Agriculture, Rural Development and Related Agencies Subcommittee; Senate Appropriations Committee; Agriculture and Related Agencies Subcommittee*

Authority: Soil and Water Resources Conservation Act of 1977 (P.L. 95-192, § 5; 91 Stat. 1408; 16 U.S.C. 2004). Rural Development Act of 1972 (P.L. 92-419, § 302; 86 Stat. 670; 7 U.S.C. 1010a).

Availability: Agency

Geographic Relevance: National; State

Purpose: The system contains basic data on natural resources (e.g. land use; soil, water and wind erosion; land cover; conservation practices and treatment needs). These data were collected on sample sites on private lands that were selected using a systematic randomized sampling procedure. The data are site-specific, but the data are considered reliable aggregated to the state and national level. **Input:** The data are collected on sample sites on private lands using a systematic randomized sampling procedure. **Output:** Outputs include tables and graphs display of many combinations of resource data (e.g. acres of various erosion rates by kind of soil, by state, by land use, etc.). Output is hardcopy, graphics, or maps.

Agency Contact: Soil Conservation Service. (202) 447-0267.

Federal Grain Inspection Service

S00223-001

Grain, Licensed Inspector Supervision System or Grain Monitoring System.

OMB Funding Code/Title: 12-4050-0-3-352 / Inspection and weighing services

Program: Inspection, Grading, Classing, and Standardization

Congressional Relevance: *House Committee on Agriculture, Senate Committee on Agriculture, Nutrition and Forestry; House Appropriations Committee; Agriculture, Rural Development and Related Agencies Subcommittee; Senate Appropriations Committee; Agriculture and Related Agencies Subcommittee*

g grading, sorting, screening, cleaning, and detecting and correcting problems before they become serious threats to the inspection activities. The Tolerance Table Master File is a statistical table which is used to normalize the differences in grading results so they may be plotted on a control chart. The Control Chart Master File contains the grading data which are used to create the Control Charts. Two years worth of historical data are contained in the Good GR-189 Data File reflecting all the data entered from the forms. The Supervision Workload Master File contains data on the numbers and types of supervision inspections performed by each field office on a current-period and year-to-date basis for each type of grain, movement, and carrier type. The Names File contains current data on the licensed inspectors, ACG's, inspection points, and field offices, and maintains some relatively static data (valid grains, factors) for data validation. **Input:** The primary source of input is the "Grain Sample Ticket." These forms are filled in by FGIS personnel in the field offices and at the Board of Appeals and Review (BAR) and are sent to the Washington office where the data are keyed to magnetic tape. A secondary source of input is data concerning the licensed inspectors, ACG's, inspection points, and field offices. This file contains names and descriptions of the graders and offices. All input data are private. **Output:** The system produces the following monthly hardcopy reports: Control Charts and Supervision Workload Reports for the current period. These hardcopy reports may be obtained on request: Historical Control Charts, Licensed Inspector Directory, Inspection Point Directory, Year-to-Date Supervision Workload Reports, and Names File Listing. The system has no on-line query capabilities.

Agency Contact: Federal Grain Inspection Service. (202) 382-1741.

Office of the Inspector General

S00230-001

Assignment Tracking and Reporting System (ATARS).

OMB Funding Code/Title: 12-0900-0-1-352 / Office of the Inspector General

Program: Audits and Investigations

Congressional Relevance: House Committee on Agriculture; Senate Committee on Agriculture, Nutrition and Forestry; House Appropriations Committee: Agriculture, Rural Development and Related Agencies Subcommittee; Senate Appropriations Committee: Agriculture and Related Agencies Subcommittee

Authority: Rural Development Act of 1972 (P.L. 92-419; 7 U.S.C. 2201). (Revised Statute 520).

Availability: Agency

Purpose: The Assignment Tracking and Reporting System (ATARS) is a computer-based information system that provides the Office of Inspector General, Department of Agriculture (OIG/USDA) managers, and program specialists with information on current and historical assignments (audits and special projects). Assignment information contained in ATARS is also used for appropriations hearings, responses to congressional inquiries, and general administration activities. The system covers all work that was in-process as of or initiated since October 1, 1980. Audits and special projects which were completed prior to October 1, 1980, are maintained on a separate file. Information on assignments that were in-process as of or initiated after October 1, 1978, can be retrieved. ATARS contains some 5700 master file records and about 16,500 detail file records (as of August 6, 1981). ATARS is a data base management system written with COBOL interfaces. The system operates on a Honeywell 6600 computer. ATARS is on-line 24 hours per day. **Input:** ATARS input forms are prepared by OIG auditors and field supervisors. Forms consist of an Assignment Letter, Code Sheet, Close-out Report, and an Employee Monthly Report. There are also several Utility Input Transactions used for data base maintenance. **Output:** There are 18 different parameter-driven reports produced by ATARS. These reports are produced monthly, quarterly, semiannually, and annually. They can also be produced upon demand. Additionally, the system provides for the generation of "AD HOC" reports as needed.

S00230-002

Management Information System (MIS).

OMB Funding Code/Title: 12-0900-0-1-352 / Office of the Inspector General

Program: Audits and Investigations

Congressional Relevance: House Committee on Agriculture, Senate Committee on Agriculture, Nutrition and Forestry; House Appropriations Committee: Agriculture, Rural Development and Related Agencies Subcommittee; Senate Appropriations Committee: Agriculture and Related Agencies Subcommittee

Authority: Rural Development Act of 1972 (P.L. 92-419; 7 U.S.C. 2201). (Revised Statute 520).

Availability: Agency

Purpose: The Management Information System (MIS) is a computer-based system that provides the Office of Inspector General (OIG) with consolidated information on all OIG investigations-work-in-process, status of case, results of investigation, etc. The MIS provides managers and program specialists with decision-making information on current and historical investigations. Information contained in the system is also used for appropriations hearings, responses to agency inquiries, and general administration activities. The System covers all work that was in-process or initiated since July 1, 1975. The system currently contains information on some 25,000 investigations from July 1975 to the present. The System is basically composed of three subsystems--Cases, Personnel, and Reporting. The MIS is operational on an IBM 3033. Programs are written in COBOL and standard IBM utility programs. **Input:** Input to the MIS is provided by Supervisor Agents at field locations based on an investigator's reports (oral and narrative). A single input document--Investigations Case Entry Sheet--is used to initiate, modify, update, and close out a case. This input document also serves to report case findings/results/referrals. A second and last input document serves to accumulate hours/days on all cases, the results of which are used in time related studies and budget and staffing considerations. **Output:** The MIS produces 5 regular monthly parameter-driven reports and an additional 6 "Ad Hoc" parameter-driven reports. These reports are printed on hard-copy and provide management with the following type information--accomplishment data: results of investigation statistics; man-power utilization data, agency action reports, etc. In addition to monthly schedules, reports can be produced at quarterly, semiannual and annual intervals as well as on demand.

Statistical Reporting Service

S00232-001

Crop and Livestock Estimates.

OMB Funding Code/Title: 12-0401-0-1-352 / Salaries and expenses

Program: Crop and Livestock Estimates

Congressional Relevance: House Committee on Agriculture; Senate Committee on Agriculture, Nutrition and Forestry; House Appropriations Committee: Agriculture, Rural Development and Related Agencies Subcommittee; Senate Appropriations Committee: Agriculture and Related Agencies Subcommittee

Authority: Agricultural Marketing Act of 1946 (P.L. 79-733, § 204(b), 205; 7 U.S.C. 1621-1627).

Availability: Agency; GPO

Geographic Relevance: National; State; County

Purpose: The system is to provide statistical and economic data on food and agriculture essential to farmers, processors, and handlers in making production and marketing decisions and to legislators, administrators, and others concerned with developing and administering programs. The SRS administers the Department of Agriculture's program of collecting and publishing national and state agricultural statistics. It is also responsible for the coordination and improvement of the Department's statistical practices. Survey work performed for other federal, state, and private agencies on a reimbursable or advance payment basis

is also a significant part of the SRS program. The Service maintains a central office in Washington, DC, but a large part of the crop and livestock estimates program is carried out through 44 state offices serving the 50 states. Most state statistical offices are operated as joint state and federal services through cooperative arrangements with various state agencies. Data are gathered on such subjects as field crops, farm and vegetables, cattle, hogs, poultry, prices received by farmers, prices paid for commodities and services, indexes of prices received and paid, parity prices, farm employment, and farm wage rates. Input: The data are obtained through sample surveys of farmers and persons who do business with farmers. Output: Forecasts on approximately 75 crops and 50 livestock items are included in over 300 national reports and 5,000 official reports issued each year.

Agency Contact: Statistical Reporting Service. (202) 447-2130.

Agricultural Cooperative Service

S00233-001

Farmer Cooperative Statistics.

12/78

OMB Funding Code/Title: 12-0401-0-1-352 / Salaries and expenses

Program: Research and Technical Assistance for Agricultural Cooperatives

Congressional Relevance: House Committee on Agriculture; Senate Committee on Agriculture, Nutrition and Forestry; House Appropriations Committee: Agriculture, Rural Development and Related Agencies Subcommittee; Senate Appropriations Committee: Agriculture and Related Agencies Subcommittee

Authority: Agricultural Marketing Act of 1946 (P.L. 79-733, § 202, 205, 207).

Availability: Agency

Purpose: The Agricultural Cooperative Service functions as a central storehouse of data about farmer cooperatives in the United States. Data include information on number of cooperatives, membership, and volume of business (sales by principal products and receipts from related services). Data are published on balance sheet and net margin items. Data are also published by commodities and states. They are assembled by the Statistics and ADP Group of the Agricultural Cooperative Service. Input: Statistical data are obtained from the 6,000 farmer cooperatives. Output: The principal report is an annual publication.

Agency Contact: Agricultural Cooperative Service. (202) 447-8955.

National Agricultural Library

S00237-001

National Agricultural Library (NAL) Agricultural On-line Access (AGRICOLA). (ARB-83-NAL-41).

1970

OMB Funding Code/Title: 12-0300-0-1-352 / National Agricultural Library

Program: Information and Library Services

Congressional Relevance: House Committee on Agriculture; Senate Committee on Agriculture, Nutrition and Forestry; House Appropriations Committee: Agriculture, Rural Development and Related Agencies Subcommittee; Senate Appropriations Committee: Agriculture and Related Agencies Subcommittee

Authority: Department of Agriculture Organic Act of 1944 (P.L. 78-425; 7 U.S.C. 2225).

Availability: NTIS; Agency

Geographic Relevance: International/Foreign; National; State

Purpose: AGRICOLA (Formerly CAIN On-Line) was established in 1970 as an on-line interactive bibliographic search and retrieval service to provide information on publications in the National Agricultural Library to scientists and researchers. It includes a family of data bases created by NAL: CAIN, Food and Nutrition (FNIC), 4-H, and AGECON (a data base noted by the Economics/Statistics and Cooperative Service, USDA). Records include NAL call numbers, ID number, title of article, language, author, journal title abbreviation, volume, number, pages, date, and type of document. Tapes are up-dated monthly. Geographic coverage is worldwide. Input: Data are derived from

cataloging-indexing records pertaining to books and journal articles acquired by the National Agricultural Library through purchase from publishers and dealers, gifts from individuals, societies, and other noncommercial sources, and exchange with foreign research organizations and governing bodies. Output: Principal products are the magnetic tapes released monthly for sale by NTIS. Derived from the sale tapes are the commercially published Bibliography of Agriculture and the National Agricultural Library Catalog. The tapes are also loaded into several commercial on-line information services which are used for current awareness service and retrospective literature searches.

Agency Contact: National Agricultural Library. (301) 344-3813.

S00237-002

National Agricultural Library Current Awareness Literature Service (CALIS). (ARB-83-NAL-42).

1971

OMB Funding Code/Title: 12-0300-0-1-352 / National Agricultural Library

Program: Information and Library Services

Congressional Relevance: House Committee on Agriculture; Senate Committee on Agriculture, Nutrition and Forestry; House Appropriations Committee: Agriculture, Rural Development and Related Agencies Subcommittee; Senate Appropriations Committee: Agriculture and Related Agencies Subcommittee

Authority: Department of Agriculture Organic Act of 1944 (P.L. 78-425; 7 U.S.C. 2225).

Availability: Internal Use Only

Geographic Relevance: National; State; County; City

Purpose: The system provides retrospective and current coverage of the scientific literature through user-defined, computer processed search profiles. The retrospective coverage provides lists of bibliographic citations from the past, and the current coverage provides searches of each data base issue as received. Users receive individual printouts by data base. The system attempts to cover the major, machine readable data bases available to support all areas of agricultural research. Coverage is international, and the earliest files date back to 1969. Files are updated with the same frequency as the vendor tapes are issued: weekly, biweekly, and monthly. A complete user's guide for the system is available from the Information Systems Division, Current Awareness Literature Service. Input: CALIS includes scientist-written profiles and vendor-created data bases. The data bases include Biological Abstracts, Biological Abstracts/Reports, Reviews, Meetings, CA-SEARCH, Food Science and Technology Abstracts, World Textile Abstracts, Engineering Index, the Commonwealth Agricultural Bureaux file, the National Technical Information Service file, Government Reports Announcements of NTIS and the AGRICOLA tapes of the National Agricultural Library, Engineering Index, Water Resources Abstracts, TELETYPE, and Zoological Record. Output: The major output is the periodic lists of citations sent to each user. These are hardcopy and are issued with the same frequency as the data base being searched. Queries are accepted from any individual in USDA and USDA contractors.

Agency Contact: National Agricultural Library. (301) 344-3859.

DEPARTMENT OF COMMERCE

800300-005

Office of the Secretary Accounting System.

OMB Funding Code/Title: 13-0120-0-1-376 / Salaries and expenses

Program: Departmental Staff Services

Congressional Relevance: *House Committee on Energy and Commerce; Senate Committee on Commerce, Science, and Transportation; House Appropriations Committee; Commerce, Justice, State, The Judiciary and Related Agencies Subcommittee; Senate Appropriations Committee; Commerce, Justice, State and Judiciary Subcommittee.*

Authority: Department of Commerce Organic Act (P.L. 57-87).

Availability: Internal Use Only

Geographic Relevance: National; State; City; County; (SMSA) Standard Metropolitan Statistical Area

Purpose: This system provides for all accounting functions of the Office of Secretary of Commerce, United States Travel Service, Economic and Statistical Analysis, and Appalachian Regional Commission, and for the administrative accounting functions for the Minority Business Development Agency. The system edits and validates all transactions submitted daily. At the end of each month the daily transactions are used to update master accounting files. These master files are used to produce monthly and year-to-date accounting reports. **Input:** Input is derived from contractor reports, Commerce and other federal forms, travel vouchers, contracts, purchase orders, grant agreements, vendor invoices, employee time and attendance reports, and payment vouchers. **Output:** Output includes Status of Allotments, Transaction Journal, Accounting Registers, Cost and Obligation Reports, General Ledgers, and Fund Control Reports. These are produced monthly. The Report of Federal Outlays by Geographic Location is produced semiannually.

Agency Contact: (202) 377-2227.

International Trade Administration

500301-001

Foreign Traders Index (FTI).

1965

OMB Funding Code/Title: 13-1250-0-1-376 / Operations and administration

Program: Trade Development

Congressional Relevance: *House Committee on Armed Services; House Committee on Banking, Finance, and Urban Affairs; Senate Committee on Armed Services; Senate Committee on Banking, Housing, and Urban Affairs; House Appropriations Committee; Commerce, Justice, State, The Judiciary and Related Agencies Subcommittee; Senate Appropriations Committee; Commerce, Justice, State and Judiciary Subcommittee.*

Authority: Trade Expansion Act of 1962 (P.L. 87-794), Export Administration Act of 1979, Trade Act of 1974 (P.L. 93-618), (P.L. 96-72).

Availability: Agency

Geographic Relevance: International/Foreign

Purpose: This system is designed to produce lists of potential direct-use purchasers and other importers of U.S. goods. Information includes data on importing manufacturers, service organizations, agent representatives, retailers, wholesalers/distributors, and cooperatives which import from the United States which have a high potential as purchasers of U.S. goods. It also includes firms which express interest in representing U.S. exporters. **Input:** Input information is supplied by the U.S. Foreign Commercial Service and the U.S. Foreign Service. **Output:** Hardcopy output is produced in response to information retrieval requests.

Agency Contact: International Trade Administration. (202) 377-4992.

500301-013

Computer Export Monitoring System (Three COM System).

OMB Funding Code/Title: 13-1250-0-1-376 / Operations and administration

Program: Trade Administration

Congressional Relevance: *House Committee on Armed Services; House Committee on Banking, Finance, and Urban Affairs; Senate Committee on Armed Services; Senate Committee on Banking, Housing, and Urban Affairs; House Appropriations Committee; Commerce, Justice, State, The Judiciary and Related Agencies Subcommittee; Senate Appropriations Committee; Commerce, Justice, State and Judiciary Subcommittee.*

Authority: Export Administration Act of 1979 (P.L. 96-72).

Availability: Internal Use Only

Geographic Relevance: National

Purpose: This system provides a data base on applications for export licenses for computer equipment to selected countries. Content includes names of firms seeking to export computers, types of equipment in question, and status of license applications. **Input:** Input include applications for export licenses, including commodity descriptions, for computer and computer-related equipment, together with associated documentation. **Output:** Output includes export status reports by case and summaries by applicant, country, and commodity.

Agency Contact: International Trade Administration. (202) 377-4657.

500301-015

Reporting of Economic Data for Negotiation of International Transportation Conventions (REDNITRAC) System.

OMB Funding Code/Title: 13-1251-0-1-376 / Operations and administration

Program: International Economic Policy

Congressional Relevance: *House Committee on Armed Services; House Committee on Banking, Finance, and Urban Affairs; Senate Committee on Armed Services; Senate Committee on Banking, Housing, and Urban Affairs; House Appropriations Committee; Commerce, Justice, State, The Judiciary and Related Agencies Subcommittee; Senate Appropriations Committee; Commerce, Justice, State and Judiciary Subcommittee.*

Authority: Mutual Educational and Cultural Exchange Act of 1961 (P.L. 87-256, § 102), Department of Commerce Organic Act (P.L. 57-87, § 1).

Availability: Agency

Geographic Relevance: International/Foreign; National

Purpose: This system provides economic data for the negotiation or renegotiation of international conventions for the carriage of goods by air, sea, and intermodal transport. The system contains information on the quantities and values of products imported by and exported from the United States. **Input:** Basic input consists of two tapes prepared each year by the Bureau of the Census--Annual Census Import Trade Statistics and Annual Census Export Trade Statistics. **Output:** This system produces 18 reports about imported and exported products according to mode of transportation.

Agency Contact: International Trade Administration. (202) 377-5012.

S00301-017

Boycott Report Systems (BRS).

OMB Funding Code/Title: 13-1250-0-1-376 / Operations and administration

Program: Trade Administration

Congressional Relevance: *House* Committee on Foreign Affairs; *Senate* Committee on Foreign Relations; *House* Appropriations Committee: Commerce, Justice, State, The Judiciary and Related Agencies Subcommittee; *Senate* Appropriations Committee: Commerce, Justice, State and Judiciary Subcommittee

Authority: Trade Expansion Act of 1962 (P.L. 87-794). Export Administration Act of 1979 (P.L. 96-72). Trade Act of 1974 (P.L. 93-618).

Availability: Internal Use Only

Geographic Relevance: National

Purpose: U.S. persons must report to the Department of Commerce any request for a restrictive trade practice or boycott against countries friendly to the United States. The BRS processes boycott reports to produce statistical summary information for management purposes and information for enforcement purposes. BRS contains two subsystems. One, the Firm Identification File, assigns a unique number to each reporting entity. The second, the Boycott Report subsystem, is a data bank containing information extracted from the boycott reports. **Input:** Reports of restrictive trade practices required to be filed by U.S. persons under the Export Administration Act of 1979 provide the input for this system. **Output:** This system produces quarterly statistical summary print-outs for internal use and an annual statistical report.

Agency Contact: International Trade Administration. (202) 377-2448.

S00301-018

License Accounting and Review System (LARS).

OMB Funding Code/Title: 13-1250-0-1-376 / Operations and administration

Program: Trade Administration

Congressional Relevance: *House* Committee on Foreign Affairs; *Senate* Committee on Foreign Relations; *House* Appropriations Committee: Commerce, Justice, State, The Judiciary and Related Agencies Subcommittee; *Senate* Appropriations Committee: Commerce, Justice, State and Judiciary Subcommittee

Authority: Export Administration Act of 1979 (P.L. 96-72). Trade Expansion Act of 1962 (P.L. 87-794). Trade Act of 1974 (P.L. 93-618).

Availability: Internal Use Only

Geographic Relevance: National

Purpose: The Office of Export Administration receives and processes applications from U.S. businesses to export certain commodities, approves or disapproves applications, and grants licenses as appropriate. The volume of such export applications is large, and processing is complex. LARS provides an effective means to track and account for license applications, accurate management information, and a means to audit licensing procedures. Information included in the system consists of the exporting firm name, commodity, quantity and value, intended customer, and consignee. **Input:** Export license applications form the basic input for this system. **Output:** This system provides status information relative to export licenses in process (classified) and a daily licensing list (unclassified).

Agency Contact: International Trade Administration. (202) 377-1377.

S00301-019

Trade Opportunities Program (TOP).

OMB Funding Code/Title: 13-1250-0-1-376 / Operations and administration

Program: Trade Development

Congressional Relevance: *House* Committee on Ways and Means; *Senate* Committee on Finance; *House* Appropriations Committee: Commerce, Justice, State, The Judiciary and Related Agencies Subcommittee; *Senate* Appropriations Committee: Commerce, Justice, State and Judiciary Subcommittee

Authority: Trade Expansion Act of 1962 (P.L. 87-794). Export Administration Act of 1979 (P.L. 96-72). Trade Act of 1974 (P.L. 93-618).

Availability: Agency

Geographic Relevance: International/Foreign; National

Purpose: The TOP system provides timely, targeted dissemination of sales lead information to U.S. companies interested or involved in exporting. The system contains information on sales opportunities abroad

by type of trade opportunity and information on subscribers' interest by product category. There are 5,900 subscribers to the Notices, 2,900 to the Bulletin, and nine to the Data Tape. **Input:** Trade leads are collected principally by U.S. Foreign Service posts abroad, sent to Washington, and coded, verified, and entered into the system. **Output:** This system produces a variety of outputs available to subscribers: 1) Trade Opportunity Notices which are sent to subscribers when a "match" occurs; 2) TOP Bulletin which are mailed to subscribers weekly; and 3) TOP Data Tapes which are mailed to subscribers weekly and biweekly. Output cannot be delivered offshore.

Agency Contact: International Trade Administration. (202) 377-4992.

S00301-020

Textile Agreement Monitoring System (TAMS).

OMB Funding Code/Title: 13-1250-0-1-376 / Operations and administration

Program: Trade Administration; Import Administration

Congressional Relevance: *House* Committee on Ways and Means; *Senate* Committee on Finance; *House* Appropriations Committee: Commerce, Justice, State, The Judiciary and Related Agencies Subcommittee; *Senate* Appropriations Committee: Commerce, Justice, State and Judiciary Subcommittee

Authority: Tariff Act of 1930 (P.L. 71-361, title 11, § 303, 318, as amended by P.L. 96-39; 46 Stat. 687, 696; 19 U.S.C. 1502; 19 U.S.C. 1671 et seq; 19 U.S.C. 1514-1516a; 19 U.S.C. 1303, 1318; 19 U.S.C. 1617). Trade Expansion Act of 1962 (P.L. 87-794, title 11, § 232, as amended by P.L. 93-618; 76 Stat. 877; 19 U.S.C. 1862).

Availability: Agency

Geographic Relevance: National

Purpose: This system monitors imports of textiles and textile products from countries with which the United States has textile trade agreements. The system compares import quantities with negotiated quotas to determine what portion of the quota has been filled. A subsystem produces an intermediate data base, comprising a shipping profile from which the automated performance report is generated. **Input:** Two data files are maintained. One is a cumulative file of imports summarized by product code and is relatively small and static, currently consisting of about 14,000 records. The other is a history file of all import transactions which grows at a rate of about 30,000 records per month. **Output:** The system produces a performance report on all textile products and an early warning report on those items on which possible overshipments are projected. Both reports are generated monthly.

Agency Contact: International Trade Administration. (202) 377-4058.

S00301-021

Automated Information Transfer System (AITS).

1983

OMB Funding Code/Title: 13-1250-0-1-376 / Operations and administration

Program: Trade Development

Congressional Relevance: *House* Committee on Energy and Commerce; *Senate* Committee on Commerce, Science, and Transportation; *House* Appropriations Committee: Commerce, Justice, State, The Judiciary and Related Agencies Subcommittee; *Senate* Appropriations Committee: Commerce, Justice, State and Judiciary Subcommittee

Authority: Trade Expansion Act of 1962 (P.L. 87-794). Department of Commerce Organic Act, as amended (P.L. 57-87).

Availability: Agency

Geographic Relevance: National; International/Foreign

Purpose: The Automated Information Transfer System (AITS) is a computerized marketing information system for business and government. It will provide fast, convenient access to more current marketing information than any other single information system. It will contain: (1) hard leads to thousands of potential business contacts abroad; (2) actual offers to export or import specific products; (3) detailed information about U.S. firms interested in exporting; and (4) commercial data on U.S. firms. **Input:** Input is from local data bases developed by the International Trade Administration's District Offices and Foreign Commercial Service overseas posts. **Output:** The system will generate a variety of reports and will access information directly from a target market country that is the most up-to-date available in the Department of

Commerce. Output is available as computer listings and computer tapes.
Agency Contact: International Trade Administration. (202) 377-4532.

S00301-022

Trade Policy Information System.

1982

OMB Funding Code/Title: 13-1250-0-1-376 / Operations and administration

Program: Trade Development

Congressional Relevance: *House Committee on Energy and Commerce; Senate Committee on Commerce, Science, and Transportation; House Appropriations Committee: Commerce, Justice, State, The Judiciary and Related Agencies Subcommittee; Senate Appropriations Committee: Commerce, Justice, State and Judiciary Subcommittee*

Authority: Department of Commerce Organic Act, as amended (P.L. 57-87, § 3; 32 Stat. 826; 15 U.S.C. 1512).

Availability: Time sharing available to government agencies

Geographic Relevance: International/Foreign; National

Purpose: This is a large comprehensive integrated system to enable the Department of Commerce and other federal government agencies to retrieve data on U.S. trade, U.S. exports, and U.S. imports from Census, non-tariff measure data, General Agreement on Tariffs and Trade (GATT) trade data, and international financial statistics from the International Monetary Fund. The United Nations series D trade data will eventually be included. **Input:** Data are obtained from the U.S. government, international organizations, and the United Nations. **Output:** Periodic and ad hoc reports and information are produced.

Agency Contact: International Trade Administration. (202) 377-5994.

S00301-023

Office of Trade and Investment Analysis System (OTIAS).

06/82

OMB Funding Code/Title: 13-1250-0-1-376 / Operations and administration

Program: International Economic Policy (Regional Economic Planning)

Congressional Relevance: *House Committee on Energy and Commerce; House Committee on Ways and Means; Senate Committee on Commerce, Science, and Transportation; Senate Committee on Finance; House Appropriations Committee: Commerce, Justice, State, The Judiciary and Related Agencies Subcommittee; Senate Appropriations Committee: Commerce, Justice, State and Judiciary Subcommittee*

Authority: International Investment Survey Act of 1976 (P.L. 94-472, § 4, as amended by P.L. 96-72; 90 Stat. 2060; 22 U.S.C. 3103). Department of Commerce Organic Act, as amended (P.L. 57-87, § 3; 32 Stat. 826; 15 U.S.C. 1512). Trade Agreements Act of 1979 (P.L. 96-39, title III, § 305; 93 Stat. 239; 19 U.S.C. 2515(b)).

Availability: Agency

Geographic Relevance: International/Foreign; National

Purpose: The system contains comprehensive information on foreign direct investment transactions in the United States from the years 1974 through 1982. The information is for completed transactions as well as those which were pending at the time. The information covers manufacturing and all other sectors including real estate. There is data on U.S. enterprises, foreign investors, and the terms of the transactions. **Input:** The primary sources of data are federal and state agencies, periodicals, and university libraries. **Output:** Periodic outputs and ad hoc reports and studies are provided to Congress, federal agencies, state governments, and the public.

Exposition Tracking System.

12/82

OMB Funding Code/Title: 13-1250-0-1-376 / Operations and administration

Program: Trade Development

CFDA NO.: 11.108

Congressional Relevance: House Committee on Energy and Commerce; Senate Committee on Commerce, Science, and Transportation; House Appropriations Committee: Commerce, Justice, State, The Judiciary and Related Agencies Subcommittee; Senate Appropriations Committee: Commerce, Justice, State and Judiciary Subcommittee

Authority: Louisiana World Exposition (P.L. 97-254; 22 U.S.C. 2801). Department of Commerce Organic Act, as amended (P.L. 57-87, § 3; 32 Stat. 826; 15 U.S.C. 1512).

Availability: Internal Use Only

Geographic Relevance: National

Purpose: The Exposition Tracking System is being developed to document and provide management information on budget plans, expenditures, contracts, and gifts and bequests associated with international expositions. Contents of the system are currently limited to test data. **Input:** Data originate with the headquarters and field staff responsible for standard budget and fiscal documents from which information is entered into computer data bases. **Output:** Major reports include status of budget and expenditures, listings of contractors, contracts, and amount expended, and listings of donors and donations. Budget and expenditure reports present data by cost category and object class, and are expected to be prepared monthly. Other reports will be prepared on an ad hoc basis.

Agency Contact: International Trade Administration. (202) 377-4601.

Program: Trade Administration; Trade Development; International Economic Policy; U.S. and Foreign Commercial Services
Congressional Relevance: House Committee on Ways and Means; Senate Committee on Finance; House Appropriations Committee: Commerce, Justice, State, The Judiciary and Related Agencies Subcommittee; Senate Appropriations Committee: Commerce, Justice, State and Judiciary Subcommittee
Authority: Department of Commerce Act (P.L. 57-87, § 3; 32 Stat. 825; 15 U.S.C. 1501 et seq.)
Availability: Agency; Department of the Treasury
Purpose: The ITA Accounting System maintains financial management and accounting operations data for the ITA. It provides comprehensive financial management and accounting reports for both internal and external use, for example, the Department of Commerce, the Department of the Treasury, and the Office of Management and Budget. **Input:** Daily inputs are via terminal or magnetic tape on International Trade Administration (ITA) expenditures, obligations, accruals, allotments, receipts, and reimbursable orders. **Output:** Outputs include monthly and annual financial management and accounting operations summary reports on all activity by object class; object by appropriation; receipts; payroll data; sources and applications of funds; and obligations and accruals for travel, services, and supplies/equipment.
Agency Contact: International Trade Administration. (202) 377-3788.

Economic Development Administration

S00302-001

Economic Development Administration Fund Accounting (ENACT) System.
OMB Funding Code/Title: 13-0125-0-1-452 / Salaries and expenses
Program: Economic Development Assistance Programs (All Other)
Congressional Relevance: House Committee on Public Works and Transportation; Senate Committee on Environment and Public Works; House Appropriations Committee: Commerce, Justice, State, The Judiciary and Related Agencies Subcommittee; Senate Appropriations Committee: Commerce, Justice, State and Judiciary Subcommittee
Authority: Public Works and Economic Development Act of 1965, as amended (P.L. 89-136, title VII, § 701; 79 Stat. 570; 42 U.S.C. 3211).
Availability: Internal Use Only
Geographic Relevance: Regional Offices
Purpose: The system is to keep a detailed financial record of all federal monies reserved, obligated, disbursed as well as deserved and deobligated on all projects approved or pending in accordance with the legislation. Regular weekly and monthly updating cycles were established. Provision was made to give the system's users timely analyses of summary data included in fund status and general ledger reports. For example, if required, the system will print out listings by projects, of reservations, obligations, and disbursements, in support of related totals shown on fund status reports. This ready availability of financial data from automated loan accounting records has reduced to a minimum the informal manual records formerly maintained by program operations offices. Update cycle is daily. **Input:** Various source documents are used by the Agency's programs to inform the Accounting Division of funds they want reserved, obligated, or disbursed on an approved/pending project. **Output:** Over 60 reports are prepared and distributed within the Agency which pertain to the Fund Accounting System. This includes daily queries, weekly, biweekly, monthly, quarterly, semiannual, and annual reports. The data base is queried either by QQP (Quick Query Program) or MIRADS (Marshall Information and Display System). The reports are hardcopy, and a machine-readable file can be developed.
Agency Contact: Economic Development Administration. (202) 377-3017.

S00302-002

Operational Planning and Control System (OPCS).
OMB Funding Code/Title: 13-2050-0-1-452 / Economic development assistance programs

11307

Congressional Relevance: House Committee on Public Works and Transportation; House Committee on Ways and Means; Senate Committee on Environment and Public Works; Senate Committee on Finance; House Appropriations Committee: Commerce, Justice, State, The Judiciary and Related Agencies Subcommittee; Senate Appropriations Committee: Commerce, Justice, State and Judiciary Subcommittee
Authority: Public Works and Economic Development Act (P.L. 89-136, § 102).
Availability: Agency
Geographic Relevance: State; (SMSA) Standard Metropolitan Statistical Area; Congressional District; County; City; Regional Offices
Purpose: This system is to provide Agency management with a series of reports on the complete status of an application submitted to the Agency for consideration under one of the Agency's programs. This system provides recurring and summary reports to planning, operations, and regional offices of EDA. The reports provide project descriptive, funding, and status information which are vital for management planning and operational analysis of the EDA project activity. The OPCS also provides project profiles retrievable on a real-time basis describing the economic and demographic characteristics of the project's geographic area, estimated economic impact, funding, and other information concerning each individual project. The Geographic Code Directory Subsystem maintains a file containing state, county, congressional district, SMSA, regional commission, EDA region, EDA district, EDA growth center, and other numeric codes which identify specific geographic areas. The file also contains area designation status, population, median family income, migration rate and multiagency identity codes when other agencies contribute funds to an Economic Development District. The file is utilized within the OPCS to validate input geographic codes, prepare the EDA Geographic Code Directory and Maximum Grant Rate Book, and present statistics and the maximum allowable grant rate for each currently qualified area. Other subsystems of OPCS include the ED-612 which collects employee and payroll data on all approved EDA projects for the Office of Civil Rights; and the Trade Act Certification which monitors applications through the certification process. The update cycle is daily. **Input:** Information on program activities, applications, and employee and payroll data comprise the input. **Output:** This system produces a series of reports for program/regional personnel to use to monitor the preapproval processing of an application and to report the approval of a project and associated funding and to provide a post approval monitoring document through project close out. Output also includes a series of reports regarding the status of construction management projects and several files queryable through the QQP and MIRADS retrieval systems.

S00302-004

Economic Development Administration Loan Accounting System (LNACT).
OMB Funding Code/Title: 13-0125-0-1-452 / Salaries and expenses
Program: Economic Development Assistance Programs (All Other)
Congressional Relevance: House Committee on Public Works and Transportation; Senate Committee on Environment and Public Works; House Appropriations Committee: Commerce, Justice, State, The Judiciary and Related Agencies Subcommittee; Senate Appropriations Committee: Commerce, Justice, State and Judiciary Subcommittee
Authority: Public Works and Economic Development Act of 1965, as amended (P.L. 89-136, title VII, § 701; 79 Stat. 570; 42 U.S.C. 3211).
Availability: Internal Use Only
Geographic Relevance: State; Congressional District; County; City; Regional Offices
Purpose: This system gives Agency operational management control on all business loans undertaken for all of the programs. The system provides general ledger, other reports, and controls for commercial and industrial business loans and public works loans. Benefits derived from this automation effort are accuracy, rapid reports capability, and reduced operating costs compared to a manual posting system. The Business Loan Summary application provides the EDA Office of Business Development with loan information concerning the project status,

borrower's financial situation, loan repayment history, and employment characteristics of the business. The update cycle is weekly. **Input:** This system uses the ED-65, Project Transcript, and the ED-622, 623 Business Loans, as input. **Output:** This system provides general ledger reports on all loan transactions and a detailed history of all loans.

Agency Contact: Economic Development Administration. (202) 377-3017.

S00302-005

Industrial Location and Retrieval System (ILRS).

OMB Funding Code/Title: 13-0125-0-1-452 / Salaries and expenses

Program: Economic Development Assistance Programs

Congressional Relevance: House Committee on Public Works and Transportation; Senate Committee on Environment and Public Works; House Appropriations Committee: Commerce, Justice, State, The Judiciary and Related Agencies Subcommittee; Senate Appropriations Committee: Commerce, Justice, State and Judiciary Subcommittee

Authority: Public Works and Economic Development Act of 1965, as amended (P.L. 89-136, title VII, § 701; 79 Stat. 570, 42 U.S.C. 3211).

Availability: Agency

Geographic Relevance: State; (SMSA) Standard Metropolitan Statistical Area; Congressional District; County; Regional Offices

Purpose: The purpose of this system is to provide EDA areas and districts a service which will match the demand for and the supply of locations within the economically distressed areas of the Nation. This system provides an industrial location planning service for EDA areas and districts, making it possible to match the demand for and the supply of locational factors as perceived by industries and as reported by EDA areas. **Input:** Input to the system is derived from: 1) Collection and compilation of community resource profile information through the cooperation of community leaders and development district staffs and the efforts of the EDA staff; 2) use of survey data from leading manufacturing industries by the Bureau of the Census; and 3) analysis of survey results by EDA. The principal categories of data captured via these instruments are industrial location, manufacturing industries, and geocoding. **Output:** Reports on request for potential industrial locations with appropriate supporting facilities and resources.

Agency Contact: Economic Development Administration. (202) 377-3017.

S00302-006

Economic Development Administration Socioeconomic Data System.

OMB Funding Code/Title: 13-0125-0-1-452 / Salaries and expenses

Program: Economic Development Assistance Programs (All Other)

Congressional Relevance: House Committee on Public Works and Transportation; Senate Committee on Environment and Public Works; House Appropriations Committee: Commerce, Justice, State, The Judiciary and Related Agencies Subcommittee; Senate Appropriations Committee: Commerce, Justice, State and Judiciary Subcommittee

Authority: Public Works and Economic Development Act of 1965, as amended (P.L. 89-136, title VII, § 701; 79 Stat. 570, 42 U.S.C. 3211).

Availability: Agency

Geographic Relevance: National; State; (SMSA) Standard Metropolitan Statistical Area; Congressional District; Regional Offices

Purpose: The system is to provide the Agency with all identified socioeconomic characteristics of the areas in which EDA approved projects are placed. Files can be formatted to permit quick query and custom retrieval of specified data elements. Each of the data files contains data elements that can be referenced on social and economic characteristics. The user must describe or identify the data elements to be considered, pertinent geographic areas, parameters for qualitative and quantitative desired limitations, the meaningful accumulations and ratio calculations desired, and the preferred sequence of presentation. Statistical routines, through which users may perform calculations, compute ratios, and measure relationships are available; a mapping program is also available, which allows graphic presentations of data. **Input:** Data files available through this system include: 1) Census Data Files--census of population, 1st and 4th counts (summary tables); 2) County Merge--contains census socioeconomic (population, business, manufacturing, etc.) data for counties; 3) County Business Patterns Files--contains data on business establishments, payroll, and operating units

economic sector on per capita income, personal income, wages and salaries, and total earnings aggregated at county level; 5) Location of Manufacturing Plants--contains data on number of plants and employees in each Standard Industrial Classification by county; 6) BLS data including employment statistics; and 7) population and income figures from Revenue Sharing Files. **Output:** This data is available for emulating into a common file which can then be queried by QQP or MIRADS and system 2000 DBMS.

Agency Contact: Economic Development Administration. (202) 377-3017.

S00302-007

Composite Mapping System (CMS).

OMB Funding Code/Title: 13-0125-0-1-452 / Salaries and expenses

Program: Economic Development Assistance Programs (All Other)

Congressional Relevance: House Committee on Public Works and Transportation; Senate Committee on Environment and Public Works; House Appropriations Committee: Commerce, Justice, State, The Judiciary and Related Agencies Subcommittee; Senate Appropriations Committee: Commerce, Justice, State and Judiciary Subcommittee

Authority: Public Works and Economic Development Act of 1965, as amended (P.L. 89-136, title VII, § 701; 79 Stat. 570, 42 U.S.C. 3211).

Availability: Agency

Geographic Relevance: National; State; (SMSA) Standard Metropolitan Statistical Area; Congressional District; Regional Offices

Purpose: This computerized capability merges coincident sets of digitized map data into differentially weighted combinations or composite maps. The CMS is used within the Economic Development Administration (EDA) in support of the EDA socioeconomic data bases to produce graphic displays and maps. The system stores data at any scale in a 120x120 array of grid cells. As used by EDA, each grid cell corresponds to an area of two minutes of latitude by two minutes of longitude or about four square miles. This scale (about 1:1, 167,000) is convenient for performing multistage regional analyses. From this design scale, scale reductions are possible. CMS can produce single factor maps in digital printout form of two types--free form or maps based on governmental or jurisdictional units at which the data are collected. The free form maps can represent zones of accessibility to linear or point phenomena such as transportation or power networks and modes, isopleth maps of continuously variable phenomena such as climate, or locational maps depicting forest types or land use. Multiple factor maps are produced as differentially weighted combinations of up to 120 different free form and governmental units maps of the same geographical area at the same map scale. CMS is available to other federal agencies, state agencies, universities, and contractors to state and federal agencies. The system is sold at cost with documentation. **Input:** Various data files relating to socioeconomic factors may be used with this system. **Output:** This system has been made available to over 40 governmental units in the Nation and to four foreign nations. It is being given to the United Nations for support/distribution to all international nations.

Agency Contact: Economic Development Administration. (202) 377-3017.

S00302-008

Local Public Works (LPW) Data Base.

OMB Funding Code/Title: 13-2052-0-1-452 / Local public works program

Program: Economic Development Assistance Programs

Congressional Relevance: House Committee on Public Works and Transportation; Senate Committee on Environment and Public Works; House Appropriations Committee: Commerce, Justice, State, The Judiciary and Related Agencies Subcommittee; Senate Appropriations Committee: Commerce, Justice, State and Judiciary Subcommittee

Authority: Public Works Employment Act of 1976 (P.L. 94-369, § 101) Act of May 13, 1977 (P.L. 95-28, § 110).

Availability: Agency

Geographic Relevance: National; State; (SMSA) Standard Metropolitan Statistical Area; County; Congressional District; City; Regional

Purpose: This system improves administration, implementation, evaluation, and analysis of the Local Public Works (LPW) program in accordance with the provisions of the Local Public Works program in accord

apprised of overall LPW program progress in a timely basis. The LPW information system involves reports to the Assistant Secretary for Economic Development, LPW program offices, and regional offices. Information content includes LPW construction starts, minority business enterprise (MBE) participation, and disbursement of \$4 billion for LPW grants to 4,000 state and local governments. Information is used in monitoring the 8,555 LPW II projects to check compliance with statutory requirements with regard to persons employed on LPW projects and types of activity, material, and equipment to be supported with LPW grants. Various management reports will be prepared over the course of the LPW program to help with the assessment of the efficiency of the program as a counterfactual tool and to help determine if the LPW objectives are being accomplished. **Input:** The LPW system uses data from the Local Public Works Capital Development and Investment Program Application (Form ED-101 LPW) and its Supplement (Form ED-101 LPW-S), LPW Project Performance Report (Form ED-113 A), Minority Business Enterprise (Form ED-530), Davis-Brown Weekly Payroll (Form ED-110), data from the Bureau of Labor Statistics (BLS), and data from the Bureau of Census (BOC). **Output:** Computerized exception reports from the LPW data base are furnished either by QQS (Quick Query System) or MIRADS (Marshall Information and Display System) and provide information on a daily, weekly, or monthly basis. The output includes updated information on the disbursement of funds to all categories of LPW applicants on several project functions as well as implementation of the 10 percent minority business enterprise requirement.

Loan Portfolio Management System.

01/01/80

OMB Funding Code/Title: 13-2050-0-1-452 / Economic development assistance programs

Program: Planning Grants; Technical Assistance Grants; Development Grants; Economic Adjustment Grants
CFDA NO.: 11.300

Congressional Relevance: House Committee on Public Works and Transportation; Senate Committee on Environment and Public Works; House Appropriations Committee: Commerce, Justice, State, The Judiciary and Related Agencies Subcommittee; Senate Appropriations Committee: Commerce, Justice, State and Judiciary Subcommittee

Authority: Public Works and Economic Development Act of 1965 (P.L. 89-136, title II, § 201-202; 79 Stat. 554-556; 42 U.S.C. 3141-3142).

Availability: Agency

Geographic Relevance: State; City; County; Congressional District; Regional Office

Purpose: The system is a loan and guarantees outstanding data base and contains composite information from the various agency debt collection and project tracking systems which effect loans and guarantees. The system provides information on the current status including principal amount due, current payments due, identity of borrowers, and geographical location. **Input:** The primary sources of data are: the Loan Accounting System; the Operational Planning and Control System; and loan billings. **Output:** Output consists of Senior Management reports providing status of Economic Development Administration portfolio and Loan Tracking reports providing detailed status of individual borrowers. A variety of specialized queries are produced to satisfy agency and outside requests.

Minority Business Development Agency

S00304-001

Businesses Development Reporting System (BDR). (MSDA-145).

OMB Funding Code/Title: 13-0201-0-1-376 / Minority business development

Program: Advocacy, Research and Information

CFDA NO.: 11.800

Congressional Relevance: House Committee on Banking, Finance,

and Urban Affairs; House Committee on Education and Labor; Senate Committee on Commerce, Science, and Transportation; Senate Committee on Governmental Affairs; House Appropriations Committee: Commerce, Justice, State, The Judiciary and Related Agencies Subcommittee; Senate Appropriations Committee: Commerce, Justice, State and Judiciary Subcommittee

Authority: Department of Commerce Organic Act, as amended (P.L. 57-87, § 3; 32 Stat. 826; 15 U.S.C. 1512). Public Works and Economic Development Act of 1965, as amended (P.L. 89-136, title III, § 301; 79 Stat. 558; 42 U.S.C. 3151). (Executive Order 11625). (Executive Order 12432).

Availability: Agency

Geographic Relevance: National; State; City; (SMSA) Standard Metropolitan Statistical Area

Purpose: The system maintains data concerning the performance of MBDA funded organizations which provide business-type assistance to various clients. Information derived from this system is used to evaluate performance of the funded organizations against established operating goals and to inform the department, Office of Management and Budget, and Congress of the progress of the program. Also, the information is used for analytical and research studies concerning the characteristics and growth of minority business. The system consists of a single data base with two record types--a master record for each of the funded organizations and a master client record for each of the clients receiving assistance. Assistance provided consists of Financial Assistance, Procurement Assistance, and Provision of Management Services and Technical Assistance. Transactions are updated monthly. **Input:** The data are derived from a multipurpose form prepared on an as-required basis by MBDA funded organizations. **Output:** Output is produced quarterly and includes a summary of funded organizations' performance, detailed client listings, and other reports as required. Output is hardcopy in fixed formats. Since the system is a data base management system, data are also retrieved on a flexible basis via queries.

National Bureau of Standards

S00306-001

National Bureau of Standards Internal Accounting Reports System.

OMB Funding Code/Title: 13-4650-0-4-376 / Working capital fund

Program: Competence and Central Technical Support; Central Technical Support

Congressional Relevance: House Committee on Energy and Commerce; House Committee on Science and Technology; Senate Committee on Commerce, Science, and Transportation; House Appropriations Committee: Commerce, Justice, State, The Judiciary and Related Agencies Subcommittee; Senate Appropriations Committee: Commerce, Justice, State and Judiciary Subcommittee

Authority: National Bureau of Standards Organic Act, as amended (P.L. 56-177, § 12; 15 U.S.C. 278h).

Availability: Internal Use Only

Purpose: This system consists of approximately 70 programs which supply data needed to prepare working capital fund and appropriation financial reports of obligations at various levels of summarization. The reports are used by NBS managers to monitor and report spending on projects or programs for which they are responsible. The most important reports summarize accrued costs and unliquidated obligations by funding source and by object class, at the cost center level and above. **Input:** Input data are entirely internal and include labor costs and various other objects obligating and accrual documents. Data include accrued expenditures and obligations. **Output:** Accounting reports are issued biweekly, monthly, quarterly, and annually in hardcopy and microfilm. Major output is directed to operating unit managers for monitoring their financial status and to report the results of operations to OMB and Treasury.

Agency Contact: National Bureau of Standards. (301) 921-2507.

Congressional Relevance: House Committee on Merchant Marine and Fisheries; Senate Committee on Commerce, Science, and Transportation; House Appropriations Committee: Commerce, Justice, State, The Judiciary and Related Agencies Subcommittee; Senate Appropriations Committee: Commerce, Justice, State and Judiciary Subcommittee

Authority: Act of August 27, 1954, as amended (P.L. 83-680, § 10, as amended by P.L. 95-376, § 3(a); 22 U.S.C. 1980). Outer Continental Shelf Lands Act Amendments of 1978 (P.L. 95-372, title IV, § 402-403; 92 Stat. 686-687; 43 U.S.C. 1842-1843). Fishery Conservation and Management Act of 1976 (P.L. 94-265, title II, § 201; 90 Stat. 337; 16 U.S.C. 1821). Fish and Wildlife Act of 1956 (P.L. 84-1024, § 4; 70 Stat. 3653; 16 U.S.C. 1362). Public Law 96-359, § 201, 202, 203, 204, 205, 206, 207, 208, 209, 210, 211, 212, 213, 214, 215, 216, 217, 218, 219, 220, 221, 222, 223, 224, 225, 226, 227, 228, 229, 230, 231, 232, 233, 234, 235, 236, 237, 238, 239, 240, 241, 242, 243, 244, 245, 246, 247, 248, 249, 250, 251, 252, 253, 254, 255, 256, 257, 258, 259, 260, 261, 262, 263, 264, 265, 266, 267, 268, 269, 270, 271, 272, 273, 274, 275, 276, 277, 278, 279, 280, 281, 282, 283, 284, 285, 286, 287, 288, 289, 290, 291, 292, 293, 294, 295, 296, 297, 298, 299, 300, 301, 302, 303, 304, 305, 306, 307, 308, 309, 310, 311, 312, 313, 314, 315, 316, 317, 318, 319, 320, 321, 322, 323, 324, 325, 326, 327, 328, 329, 330, 331, 332, 333, 334, 335, 336, 337, 338, 339, 340, 341, 342, 343, 344, 345, 346, 347, 348, 349, 350, 351, 352, 353, 354, 355, 356, 357, 358, 359, 360, 361, 362, 363, 364, 365, 366, 367, 368, 369, 370, 371, 372, 373, 374, 375, 376, 377, 378, 379, 380, 381, 382, 383, 384, 385, 386, 387, 388, 389, 390, 391, 392, 393, 394, 395, 396, 397, 398, 399, 400, 401, 402, 403, 404, 405, 406, 407, 408, 409, 410, 411, 412, 413, 414, 415, 416, 417, 418, 419, 420, 421, 422, 423, 424, 425, 426, 427, 428, 429, 430, 431, 432, 433, 434, 435, 436, 437, 438, 439, 440, 441, 442, 443, 444, 445, 446, 447, 448, 449, 450, 451, 452, 453, 454, 455, 456, 457, 458, 459, 460, 461, 462, 463, 464, 465, 466, 467, 468, 469, 470, 471, 472, 473, 474, 475, 476, 477, 478, 479, 480, 481, 482, 483, 484, 485, 486, 487, 488, 489, 490, 491, 492, 493, 494, 495, 496, 497, 498, 499, 500, 501, 502, 503, 504, 505, 506, 507, 508, 509, 510, 511, 512, 513, 514, 515, 516, 517, 518, 519, 520, 521, 522, 523, 524, 525, 526, 527, 528, 529, 530, 531, 532, 533, 534, 535, 536, 537, 538, 539, 540, 541, 542, 543, 544, 545, 546, 547, 548, 549, 550, 551, 552, 553, 554, 555, 556, 557, 558, 559, 560, 561, 562, 563, 564, 565, 566, 567, 568, 569, 570, 571, 572, 573, 574, 575, 576, 577, 578, 579, 580, 581, 582, 583, 584, 585, 586, 587, 588, 589, 590, 591, 592, 593, 594, 595, 596, 597, 598, 599, 600, 601, 602, 603, 604, 605, 606, 607, 608, 609, 610, 611, 612, 613, 614, 615, 616, 617, 618, 619, 620, 621, 622, 623, 624, 625, 626, 627, 628, 629, 630, 631, 632, 633, 634, 635, 636, 637, 638, 639, 640, 641, 642, 643, 644, 645, 646, 647, 648, 649, 650, 651, 652, 653, 654, 655, 656, 657, 658, 659, 660, 661, 662, 663, 664, 665, 666, 667, 668, 669, 670, 671, 672, 673, 674, 675, 676, 677, 678, 679, 680, 681, 682, 683, 684, 685, 686, 687, 688, 689, 690, 691, 692, 693, 694, 695, 696, 697, 698, 699, 700, 701, 702, 703, 704, 705, 706, 707, 708, 709, 710, 711, 712, 713, 714, 715, 716, 717, 718, 719, 720, 721, 722, 723, 724, 725, 726, 727, 728, 729, 730, 731, 732, 733, 734, 735, 736, 737, 738, 739, 740, 741, 742, 743, 744, 745, 746, 747, 748, 749, 750, 751, 752, 753, 754, 755, 756, 757, 758, 759, 760, 761, 762, 763, 764, 765, 766, 767, 768, 769, 770, 771, 772, 773, 774, 775, 776, 777, 778, 779, 780, 781, 782, 783, 784, 785, 786, 787, 788, 789, 790, 791, 792, 793, 794, 795, 796, 797, 798, 799, 800, 801, 802, 803, 804, 805, 806, 807, 808, 809, 810, 811, 812, 813, 814, 815, 816, 817, 818, 819, 820, 821, 822, 823, 824, 825, 826, 827, 828, 829, 830, 831, 832, 833, 834, 835, 836, 837, 838, 839, 840, 841, 842, 843, 844, 845, 846, 847, 848, 849, 850, 851, 852, 853, 854, 855, 856, 857, 858, 859, 860, 861, 862, 863, 864, 865, 866, 867, 868, 869, 870, 871, 872, 873, 874, 875, 876, 877, 878, 879, 880, 881, 882, 883, 884, 885, 886, 887, 888, 889, 890, 891, 892, 893, 894, 895, 896, 897, 898, 899, 900, 901, 902, 903, 904, 905, 906, 907, 908, 909, 910, 911, 912, 913, 914, 915, 916, 917, 918, 919, 920, 921, 922, 923, 924, 925, 926, 927, 928, 929, 930, 931, 932, 933, 934, 935, 936, 937, 938, 939, 940, 941, 942, 943, 944, 945, 946, 947, 948, 949, 950, 951, 952, 953, 954, 955, 956, 957, 958, 959, 960, 961, 962, 963, 964, 965, 966, 967, 968, 969, 970, 971, 972, 973, 974, 975, 976, 977, 978, 979, 980, 981, 982, 983, 984, 985, 986, 987, 988, 989, 990, 991, 992, 993, 994, 995, 996, 997, 998, 999, 1000.

Geographic Relevance: International/Foreign

Purpose: The system is an automated budget and accounting system which provides the basis for comparing actual costs and obligations of a program and organization with that planned. The FIMA accounting system complements the planning process and places accounting services closer to program management. Voucher examination, scheduling for disbursement, and source data entry have been decentralized to field finance offices which are linked with NOAA's central computer facility by a telecommunication network of programmable terminals. The system supports the cash control, document control, general ledger and cost accounting automated subsystem. In addition, operating plans are linked with accounting transactions by common financial classifications to produce monthly operating status reports. These are used to evaluate, monitor, and control NOAA's funds, programs, and support activities at several organizational levels. The accounting data are recorded by fund, task (the lowest program structure level), and object class, at the lowest organizational levels. Plans in the system are by Financial Management Center (FMC), by fund, by subactivity (level 2 of the program structure), and by object class. Generated reports contain both planned and actual display accounting data summarized to the planning level. **Input:** Internal operating plans and accounting data originating within NOAA organizations are sources of input. **Output:** Output includes operating status reports which contain plans and summarized accounting data (monthly, combination of hardcopy and microfilm) and report of cumulative costs and obligations, a detailed accounting report (monthly, largely microfilm with some hardcopy).

S00306-002

Computerized Information Retrieval Services System (CIRS).

1974

OMB Funding Code/Title: 13-1450-0-1-306 / Operations, research, and facilities

Program: Satellite and Environmental Data and Information Services

Congressional Relevance: House Committee on Merchant Marine and Fisheries; Senate Committee on Commerce, Science, and Transportation; House Appropriations Committee: Commerce, Justice, State, The Judiciary and Related Agencies Subcommittee; Senate Appropriations Committee: Commerce, Justice, State and Judiciary Subcommittee

Authority: Act of October 1, 1890 (26 Stat. 653; 15 U.S.C. 311, 313).

Availability: Agency

Geographic Relevance: International/Foreign; National

Purpose: The system provides a computerized information retrieval service for ready reference and literature research in the environmental sciences and marine and coastal resources. NOAA-sponsored or partially supported data bases are: (1) Aquatic Sciences and Fisheries Abstracts, and (2) Aquaculture. Over 200 non-NOAA-supported data bases are accessed. The system includes access to major bibliographic information files; computerized searches of NOAA and non-NOAA data bases containing references to technical publications, abstracts, Index Compendex, government reports announcements. National and international coverage is provided. **Input:** Data are derived from computerized searches of both NOAA and non-NOAA data bases containing references to technical publications. The system has interactive query capability. **Output:** Output is either CRT display or hardcopy printout or both of bibliographic citations, abstracts, or full text.

Agency Contact: National Oceanic and Atmospheric Administration. (301) 443-8358.

S00306-012

Aeronautical Charting Information System.

OMB Funding Code/Title: 13-1450-0-1-306 / Operations, research, and facilities

Program: Mapping, Charting, and Surveying Services

Congressional Relevance: House Committee on Merchant Marine and Fisheries; Senate Committee on Labor and Human Resources; House Appropriations Committee: Commerce, Justice, State, The Judiciary and Related Agencies Subcommittee; Senate Appropriations Committee: Commerce, Justice, State and Judiciary Subcommittee

Availability: Agency

Geographic Relevance: International/Foreign; National; State; (SMSA) Standard Metropolitan Statistical Area; County; City; National Airspace

Purpose: The Aeronautical Information Branch maintains the file for the graphic and tabulated data required to define the National Airspace System. This includes coverage of the entire United States and selected terminus points abroad. This system supplies the basic repository of information to be included on all types of aeronautical charts. Users of this system include the Federal Aviation Administration (FAA), Military Aviation, General Aviation, and internal components when maintaining aviation products. The files contain information such as obstacle location (towers, spires, buildings, and other culture), airports and facilities; airway fix points; angles, bearings, and distances between points; and landmarks and bearing (locality) data. Approximately 30 percent of the airway fix information is revised on a 56-day cycle. Other information is updated as required. The information is maintained for the entire United States and U.S. territorial locations. **Input:** The primary provider of raw system information is the National Flight Data Center of the FAA. Information pertains to the national airspace, describing restricted areas, delineating airways and heights, and indicating transition points. Other contributors include the military (airbases), Federal Communications Commission (transmission towers), the Coast Guard (marine navigational aids), and flying public and associations (obstacles to navigation). **Output:** Besides information which is supplied on demand, the system produces controller chart supplements each 168 days. These magnetic tapes are subsequently printed in a series of seven booklets. Other output includes obstacle and airway information used in the preparation of aeronautical charting products. Information is obtainable as magnetic tape, punched cards, and hardcopy.

Agency Contact: National Oceanic and Atmospheric Administration. (301) 443-8071.

500306-014**Program Management System.**

OMB Funding Code/Title: 13-1451-0-1-302 / Coastal zone management; 13-4315-0-3-452 / Coastal energy impact fund

Program: Coastal Zone Management (All Programs); Coastal Energy Impact Fund (All Programs)

Congressional Relevance: House Committee on Merchant Marine and Fisheries; Senate Committee on Commerce, Science, and Transportation; House Appropriations Committee: Commerce, Justice, State, The Judiciary and Related Agencies Subcommittee; Senate Appropriations Committee: Commerce, Justice, State and Judiciary Subcommittee

Authority: Marine Resources and Engineering Development Act of 1966, as amended (P.L. 89-454, title III, § 302, as amended by P.L. 94-370; 16 U.S.C. 1451 et seq.).

Availability: Agency; Internal Use Only

Geographic Relevance: National; State

Purpose: This system is responsible for program planning, development, and integration and the financial management of the Office of Ocean and Coastal Resources Management (OCRM). Program requirements are evaluated in relation to personnel and budgetary ceilings and other pertinent restraints; the system develops OCRM input to the NOAA Management Information System and develops and administers a detailed planning and program execution discipline within OCRM. Information content includes budget figures (requirements, projections, etc.), and travel, personnel, contractual, supply, and equipment analyses of obligation and cost detail. Grants and loans statistics are included in analyzing future budget and program requirements. Overall financial monitoring statistics are also included. **Input:** Input comes primarily from internal sources such as Coastal Programs Office and Grants and Loans Operations Staff. These are all within the Office of Ocean and Coastal Resources Management. External input is obtained from the NOAA Budget Office and NOAA Finance Office. **Output:** This system prepares annual budget submissions to NOAA, DOC, and OMB and monthly contract, travel, and other financial administration reports for internal use. All reports are prepared manually, though eventually they are put into printed form.

Agency Contact: National Oceanic and Atmospheric Administration. (202) 634-4241.

500306-015**Management by Objectives Planning and Monitoring Analysis System.**

OMB Funding Code/Title: 13-1451-0-1-302 / Coastal zone management; 13-4315-0-3-452 / Coastal energy impact fund

Program: Coastal Zone Management (All Programs); Coastal Energy Impact Fund (All Programs)

Congressional Relevance: House Committee on Merchant Marine and Fisheries; Senate Committee on Commerce, Science, and Transportation; House Appropriations Committee: Commerce, Justice, The Judiciary and Related Agencies Subcommittee; Senate Appropriations Committee: Commerce, Justice, State and Judiciary Subcommittee

Authority: Marine Resources and Engineering Development Act of 1966, as amended (P.L. 89-454, title III, § 302, as amended by P.L. 94-370; 16 U.S.C. 1451 et seq.).

Availability: Agency; Internal Use Only

Geographic Relevance: National; State; Local

Purpose: The Office of Ocean and Coastal Resources Management established pursuant to the Coastal Zone Management Act of 1972 to establish a national policy program for the management, beneficial use, protection, and development of the land and water resources of the nation's coastal zone. This function has been divided into several program areas. The information system facilitates the broad based planning objectives of each program and monitors program progress and adherence from plans. The system monitors and records fund obligation and adherence to plans and serves as a program control agent. The Management by Objectives information system provides a systematic approach to planning and controlling program efforts in the establishment, management of marine and estuarine sanctuaries, estuarine research and evaluation of and technical assistance to state Coastal Zone Management (CZM) programs. The coastal energy impact and CZM technical assistance programs are planned and monitored on the basis of grants and loans to the coastal states and territories. By monitoring activity variance, analyses allow a rescheduling of plan and redirect management effort to improve the quality of each program and provide necessary assistance. **Input:** The input to this system is generated from program activities, the development of planned objectives, and monitoring of criteria to measure environmental change. **Output:** Following reports are produced monthly in hardcopy or viewgraph format: Management by Objectives charts, analysis of variance reports, versus planned obligation graphs, and maps. Program status reports are produced in hardcopy only.

Agency Contact: National Oceanic and Atmospheric Administration. (202) 634-4241.

500306-017**Current Meter Data (CMD) Data Base.**

OMB Funding Code/Title: 13-1450-0-1-306 / Operations, research, facilities

Program: Ocean and Coastal Programs (Ocean Services)

Congressional Relevance: House Committee on Merchant Marine and Fisheries; Senate Committee on Commerce, Science, and Transportation; House Appropriations Committee: Commerce, Justice, The Judiciary and Related Agencies Subcommittee; Senate Appropriations Committee: Commerce, Justice, State and Judiciary Subcommittee

Authority: Act of August 6, 1947 (P.L. 80-373, § 1; 61 Stat. 700; 16 U.S.C. 883a).

Availability: Agency; GPO

Geographic Relevance: National; State; Estuaries

Purpose: The Current Meter Data (CMD) data base provides a national-gathering mechanism for preparing and updating the publications "Tidal Current Charts" and "Tidal Current Tables." It also documents estuarial circulation so that data are available in the event of environmental emergencies (e.g., oil spills). Data are collected from two National Ocean Survey ships—one on the East Coast and one on the West Coast—equipped with current meters. The data base attempts to correlate data received from these ships into an accurate comprehensive view of the speed and direction of currents throughout the tidal cycle. The data base contains extensive information on estuarial circulation and tidal currents. It is updated as necessary and current information from the 1800's to the present. The data base is interactive. **Input:** Input to file is from data collected from data gathering ships. **Output:** This system produces two annual publications: Tidal Current

S00306-016

Tides Data Base.

OMB Funding Code/Title: 13-1450-0-1-306 / Operations, research, and facilities

Program: Ocean and Coastal Programs (Ocean Services)

Congressional Relevance: *House* Committee on Merchant Marine and Fisheries; *Senate* Committee on Commerce, Science, and Transportation; *House* Appropriations Committee: Commerce, Justice, State, The Judiciary and Related Agencies Subcommittee; *Senate* Appropriations Committee: Commerce, Justice, State and Judiciary Subcommittee

Authority: Act of August 6, 1947 (P.L. 80-373, § 1; 61 Stat. 787; 33 U.S.C. 883a).

Availability: Agency; GPO

Geographic Relevance: National; State; Tide Stations

Purpose: The tides data base facilitates user access to data necessary for various agency research projects (computing tidal constants, tidal datums, and tide tables). The system supports the annual publication of the "Tide Tables." The system contains basic on tides, hourly tide heights, and tide statistics. Tide records cover the period from 1965 to present (comprehensive), but records from some stations date from 1854. The system has remote entry capability. **Input:** The TIDES data bank contains reports of hourly tide heights from a national network of approximately 175 tide stations and a variety of other stations, included as part of the Marine Boundary Surveys. **Output:** This system produces tide tables, magnetic tapes, miscellaneous publications, and printouts. About one month should be allowed for printouts and tape preparation.

Agency Contact: National Oceanic and Atmospheric Administration. (301) 443-3778.

S00306-019

Tidal Constants (TC) System.

OMB Funding Code/Title: 13-1450-0-1-306 / Operations, research, and facilities

Program: Ocean and Coastal Programs (Ocean Services)

Congressional Relevance: *House* Committee on Merchant Marine and Fisheries; *Senate* Committee on Commerce, Science, and Transportation; *House* Appropriations Committee: Commerce, Justice, State, The Judiciary and Related Agencies Subcommittee; *Senate* Appropriations Committee: Commerce, Justice, State and Judiciary Subcommittee

Authority: Act of August 6, 1947 (P.L. 80-373, § 1; 61 Stat. 787; 33 U.S.C. 883a).

Availability: Agency; GPO

Geographic Relevance: National; State; Local Stations

Purpose: This system is designed to predict tidal information. The predictions, based on analysis of data measured by tide gauges and current meters on survey stations, are divided into two categories: daily high and low water predictions for 196 reference points, including times and heights, and predicted times of slack water and of times and velocities of maximum current flood and ebb. The system predicts harmonic constants, tidal currents, and tidal predictions. The system contains records of 40,000 to 50,000 locations. It is updated as necessary and contains records from 1867 to the present. The system has remote entry capability. **Input:** Utilizing information from the TIDES and Current Meter Data data bases, Tidal Constants predicts harmonic constants of tides and currents and facilitates annual publication of the predictions. **Output:** This system produces two annual publications in conjunction with TIDES and Current Meter Data: Tide Tables (4 volumes) and Tidal Current Tables (2 volumes)

Agency Contact: National Oceanic and Atmospheric Administration. (301) 443-3778.

S00306-021

Report of Observations/Samples Collected by Oceanographic Programs (ROSCOP) Data Base.

Program: Science and Environmental Data and Information Services
Congressional Relevance: *House* Committee on Merchant Marine and Fisheries; *Senate* Committee on Commerce, Science, and Transportation; *House* Appropriations Committee: Commerce, Justice, State, The Judiciary and Related Agencies Subcommittee; *Senate* Appropriations Committee: Commerce, Justice, State and Judiciary Subcommittee

Authority: Act of October 1, 1890 (26 Stat. 653; 15 U.S.C. 311, 313).

Availability: Agency

Geographic Relevance: International/Foreign; National; State; Oceans
Purpose: The ROSCOP data base supports the international oceanographic data exchange system by providing a basis for timely inventories of data and samples collected as a result of ongoing programs. This data base includes information on researching institutions, types of studies, parameters measured, project cycles, chief scientists, geographic area, cruise number, ship/platform data, disposition of data, and whom to query for further information. The system contains basic research data on biology, geology, meteorology, oceanography, and pollution. The system has remote entry capability and contains over 4,000 entries. It is updated monthly and contains records from 1974 to the present. **Input:** External and internal program data on oceanographic research provide the input for the system. **Output:** Printouts and reports are generated from this system.

Agency Contact: National Oceanic and Atmospheric Administration. (202) 634-7298.

S00306-028

Fishery Statistics Data Base (FISHSTAT).

OMB Funding Code/Title: 13-1450-0-1-306 / Operations, research, and facilities; 13-5139-0-2-376 / Promote and develop fishery products and research pertaining to American fisheries; 13-1450-0-1-306 / Operations, research, and facilities

Program: Ocean and Coastal Programs; Ocean Fisheries and Living Marine Resources; Marine Fishery Resource Programs

Congressional Relevance: *House* Committee on Merchant Marine and Fisheries; *Senate* Committee on Commerce, Science, and Transportation; *House* Appropriations Committee: Commerce, Justice, State, The Judiciary and Related Agencies Subcommittee; *Senate* Appropriations Committee: Commerce, Justice, State and Judiciary Subcommittee

Authority: Marine Resources and Engineering Development Act of 1966, as amended (P.L. 84-454, title III, § 302, as amended by P.L. 94-370; 16 U.S.C. 1451 et seq.); Marine Mammal Protection Act of 1972 (P.L. 92-522, title I, II, § 101, 201; 86 Stat. 1029, 1043; 16 U.S.C. 1371 et seq., 1401 et seq.); Fish and Wildlife Act of 1956 (P.L. 84-1024; 70 Stat. 1119; 16 U.S.C. 742(a)); Fishery Conservation and Management Act of 1976 (P.L. 94-265; 90 Stat. 331; 16 U.S.C. 1801).

Availability: Agency

Geographic Relevance: International/Foreign; National; State; County; Regional

Purpose: The Fishery Statistics Data Base (FSDB) provides federal, state and university researchers and industry management with information necessary to assess the economic and environmental impact of the fishing industry and to support future policy formulation. FSDB is a partially automated data base encompassing five categories of industry-related data: (1) fishery landings, identified by county, state, and region of the landing; size; species; and mode and area of capture; (2) employment in the harvesting and the processing and wholesaling branches of the industry by geographic area; (3) processed products, listing species used; (4) foreign trade statistics; and (5) stocks, identifying available stored fish products. The data base contains approximately one million records. The file is updated annually; ADP records in the file are maintained for the latest 10 years, and manual files are maintained from 1880 to the present. The data base is interactive and has query capability. **Input:** Fish industry sources, including harvesters, processors, and wholesalers, and foreign trade statistics from the Census Bureau and the United Nations provide the input for this system. **Output:** This system produces publications and special searches.

Agency Contact: National Oceanic and Atmospheric Administration. (202) 634-7366.

S00306-029

Retrospective Satellite Data Services (RSDS).

OMB Funding Code/Title: 13-1450-0-1-306 / Operations, research, and facilities

Program: Satellite and Environmental Data and Information Services
Congressional Relevance: House Committee on Merchant Marine and Fisheries; Senate Committee on Commerce, Science, and Transportation; House Appropriations Committee: Commerce, Justice, State, The Judiciary and Related Agencies Subcommittee; Senate Appropriations Committee: Commerce, Justice, State and Judiciary Subcommittee

Authority: Act of October 1, 1890 (26 Stat. 653; 15 U.S.C. 311, 313).

Availability: Agency

Geographic Relevance: International/Foreign; National; State; (SMSA) Standard Metropolitan Statistical Area; Congressional District; County; City; Regional

Purpose: The Satellite Data Services Division collects and distributes environmental satellite data after the original purpose for collecting the information (i.e., weather forecasting) has been satisfied. The data base comprises visible and infrared imagery and data collected from earth-orbiting operational and some experimental satellites. Records are organized by location, data, and time of collection. The data base contains approximately 25,000 magnetic tapes and over eight million images. It is updated daily and contains satellite records from 1960 to the present. **Input:** Input data are collected from orbiting environmental satellites. **Output:** This system provides photographs, magnetic tapes, catalogs, and user services. In addition, it produces a monthly publication, "Environmental Satellite Imagery."

Agency Contact: National Oceanic and Atmospheric Administration. (301) 763-8111.

S00306-030

Coastal Zone Management System.

OMB Funding Code/Title: 13-1451-0-1-302 / Coastal zone management; 13-4315-0-3-452 / Coastal energy impact fund

Program: Coastal Zone Management (All Programs); Coastal Energy Impact Fund (All Programs)

Congressional Relevance: House Committee on Merchant Marine and Fisheries; Senate Committee on Commerce, Science, and Transportation; House Appropriations Committee: Commerce, Justice, State, The Judiciary and Related Agencies Subcommittee; Senate Appropriations Committee: Commerce, Justice, State and Judiciary Subcommittee

Authority: Marine Resources and Engineering Development Act of 1966, as amended (P.L. 89-454, title III, § 302, as amended by P.L. 94-370; 16 U.S.C. 1451 et seq.).

Availability: Internal Use Only

Geographic Relevance: National; State; County; City; Local

Purpose: This system is designed to provide a record of all funding requests from application receipt through award or denial. The system is also used to assess workload and schedule work flow and to inform senior program managers of the funding status of their programs. The information content consists of preapplications and applications received, type of assistance requested, processing status, funds requested, funds awarded, funds denied, date of award, period of performance, and balance remaining by appropriation and allotment. **Input:** The input data are derived from applications filed by states and local governments for grants, loans, and repayment assistance. **Output:** This system produces a monthly application status report for all Office of Ocean and Coastal Resources Management grant, guarantee, and repayment assistance programs.

Agency Contact: National Oceanic and Atmospheric Administration. (202) 634-4241.

S00306-031

Weather Modification Reporting Program.

OMB Funding Code/Title: 13-1450-0-1-306 / Operations, research, and facilities

Program: Weather Modification

Congressional Relevance: House Committee on Merchant Marine and Fisheries; Senate Committee on Commerce, Science, and Transportation; House Appropriations Committee: Commerce, Justice, State,

The Judiciary and Related Agencies Subcommittee; Senate Appropriations Committee: Commerce, Justice, State and Judiciary Subcommittee

Authority: Weather Modification Reporting Act of 1972 (P.L. 92-205; 85 Stat. 735; 15 U.S.C. 908). National Weather Modification Policy Act of 1976, as amended (P.L. 94-490, as amended by P.L. 96-547; 94 Stat. 3217).

Availability: Agency

Geographic Relevance: National; State

Purpose: This program obtains, assembles, analyzes, and retains records of weather modification activities, both operational and experimental, in the United States. Four hundred and ninety-five activity reports were filed with the National Oceanic and Atmospheric Administration (NOAA) between November 1972 and January 1, 1983. These records are available for inspection by the public. The data in the activity reports include the purpose, sponsor, operator, technique used, seeding material used, number of modification days, target area, and location by state. **Input:** Reporting forms are submitted by weather modifiers or by the sponsors of the weather modification activities. **Output:** Periodic summaries of reported information are published by NOAA.

Agency Contact: National Oceanic and Atmospheric Administration. (301) 443-8108.

S00306-032

Coastal Energy Facility Information System.

OMB Funding Code/Title: 13-1451-0-1-302 / Coastal zone management; 13-4315-0-3-452 / Coastal energy impact fund

Program: Coastal Energy Impact Fund (All Programs); OCS State Participation Grants

CFDA NO.: 11.421; 11.422; 11.423

Congressional Relevance: House Committee on Merchant Marine and Fisheries; Senate Committee on Commerce, Science, and Transportation; House Appropriations Committee: Commerce, Justice, State, The Judiciary and Related Agencies Subcommittee; Senate Appropriations Committee: Commerce, Justice, State and Judiciary Subcommittee

Authority: Marine Resources and Engineering Development Act of 1966, as amended (P.L. 89-454, title III, § 302, as amended by P.L. 94-370; 16 U.S.C. 1451 et seq.).

Availability: Internal Use Only

Geographic Relevance: National; State; Coastal Regions

Purpose: This system assists the coastal energy impact program office in computing the allotments of appropriated funds among the coastal states. The system contains an inventory of new energy facilities under construction in or planned for coastal areas of the United States. The inventory is updated each fiscal year when program funds are available.

Input: Information on new energy facilities, location, type, and associated employment form the basis for this system. **Output:** The allotment by state of available Coastal Energy Impact Funds constitutes the product of this system.

Agency Contact: National Oceanic and Atmospheric Administration. (202) 254-8000.

S00306-033

Sea Grant Management Information System.

03/01/83

OMB Funding Code/Title: 13-1450-0-1-306 / Operations, research, and facilities

Program: Ocean and Coastal Programs

CFDA NO.: 11.417

Congressional Relevance: House Committee on Merchant Marine and Fisheries; Senate Committee on Commerce, Science, and Transportation; House Appropriations Committee: Commerce, Justice, State, The Judiciary and Related Agencies Subcommittee; Senate Appropriations Committee: Commerce, Justice, State and Judiciary Subcommittee

Authority: Sea Grant Program Improvement Act of 1976 (P.L. 94-461; 90 Stat. 1961; 33 U.S.C. 1121). National Sea Grant College and Program Act of 1966 (P.L. 89-688). Act of October 7, 1978 (P.L. 95-428).

Availability: Agency

Geographic Relevance: National

Purpose: This system provides information on sea grants and projects. Information available relates to previous and current funding, matching funds, major and minor fields of effort, personnel involved, and title and duration of the project. Information is stored for the current and the two prior years. Updating is real-time basis. The file contains information on about 3,000 projects and grants. It also provides an electronic mail system between grantees and the central office, access to the sea grant depository files, and a calendar of events. **Input:** Grant control forms and project summaries, which are part of the grant proposal applications, provide the data used in this system. Input is by grantees. **Output:** An annual listing by state and by project classification and statistical reports are produced. The system is also available for random access. Output is in hardcopy format or to grantee computer terminals, as desired.

Agency Contact: National Oceanic and Atmospheric Administration. (301) 443-8290.

S00305-034

Central National Oceanic and Atmospheric Administration ADP System Office of Ocean and Coastal Zone Management.

OMB Funding Code/Title: 13-1450-0-1-306 / Operations, research, and facilities

Program: Operations, Research, and Facilities (All Programs)

Congressional Relevance: House Committee on Merchant Marine and Fisheries; Senate Committee on Commerce, Science, and Transportation; House Appropriations Committee: Commerce, Justice, State, The Judiciary and Related Agencies Subcommittee; Senate Appropriations Committee: Commerce, Justice, State and Judiciary Subcommittee

Authority: Marine Resources and Engineering Development Act of 1966 (P.L. 89-454); National Advisory Committee on Oceans and Atmosphere Act of 1977 (P.L. 95-304).

Purpose: This system maintains data and provides report summaries on all budgetary and accounting information. **Input:** Agency budget data form the basis for this system. **Output:** A budget report is produced.

Agency Contact: National Oceanic and Atmospheric Administration. (202) 634-4132.

S00305-037

National Environmental Data Referral Service (NEDRES).

OMB Funding Code/Title: 13-1450-0-1-306 / Operations, research, and facilities

Program: Satellite and Environmental Data and Information Services

Congressional Relevance: House Committee on Merchant Marine and Fisheries; Senate Committee on Commerce, Science, and Transportation; House Appropriations Committee: Commerce, Justice, State, The Judiciary and Related Agencies Subcommittee; Senate Appropriations Committee: Commerce, Justice, State and Judiciary Subcommittee

Authority: Act of October 1, 1890 (26 Stat. 653; 15 U.S.C. 311, 313).

Availability: Agency

Geographic Relevance: National; International/Foreign; State; Regional

Purpose: The objective of the system is to provide products and services that enable users of environmental data to determine whether specific data exist and, if so, where they might be obtained. The supporting automated system will be an information storage and retrieval system which will contain environmental data file descriptions for both the National Oceanic and Atmospheric Administration (NOAA) and non-NOAA data files. The database will ultimately contain approximately 20,000-35,000 descriptions of data files from which data referral can be accomplished. **Input:** Information will be obtained from holders of environmental data files and input to the NEDRES retrieval system. The data collected will include descriptions of the environmental data, location, cost to acquire, format, etc. **Output:** Output consists of CRT, hardcopy, computer printout, graphic, and microforms of data file descriptions and summaries.

Agency Contact: National Oceanic and Atmospheric Administration. (202) 634-7722.

S00306-038

National Oceanic and Atmospheric Administration Library and Information System (NALIS).

OMB Funding Code/Title: 13-1450-0-1-306 / Operations, research, and facilities

Program: Operations, Research, and Facilities (All Programs)

Congressional Relevance: House Committee on Energy and Commerce; Senate Committee on Commerce, Science, and Transportation; House Appropriations Committee: Commerce, Justice, State, The Judiciary and Related Agencies Subcommittee; Senate Appropriations Committee: Commerce, Justice, State and Judiciary Subcommittee

Authority: National Weather Service Organic Act, as amended (26 Stat. 653; 15 U.S.C. 311, 313).

Availability: Agency

Geographic Relevance: International/Foreign; National

Purpose: The system provides automated support to the library/information center functions of acquisitions, cataloging, serials control, agency report processing, authority control, information retrieval (user oriented), circulation, and management information. The main database consists of 40,000 bibliographic records of items acquired by NOAA libraries subsequent to 1971. **Input:** Input consists of subject bibliographic, ordering and location information prepared in-house or derived from a national bibliographic network utility. **Output:** Output consists of CRT, hardcopy, computer printout, subject and other bibliographies, and microforms of bibliographic and bibliographic control information. Output is on demand.

Agency Contact: National Oceanic and Atmospheric Administration. (301) 443-8287.

S00306-040

National Marine Pollution Information System (NMPIS).

1981

OMB Funding Code/Title: 13-1450-0-1-306 / Operations, research, and facilities

Program: Satellite and Environmental Data and Information Services; Ocean and Coastal Programs (Ocean Research)

Congressional Relevance: House Committee on Merchant Marine and Fisheries; Senate Committee on Commerce, Science, and Transportation; House Appropriations Committee: Commerce, Justice, State, The Judiciary and Related Agencies Subcommittee; Senate Appropriations Committee: Commerce, Justice, State and Judiciary Subcommittee

Authority: Act of October 1, 1890 (26 Stat. 653; 15 U.S.C. 311, 313). National Ocean Pollution Planning Act of 1978 (P.L. 95-273, § 4-5, as amended by P.L. 96-255; 92 Stat. 229-230; 13 U.S.C. 1703-1704).

Availability: Agency

Geographic Relevance: National

Purpose: The National Marine Pollution Information System is an automated Catalog of Federal Ocean Pollution Research, Development, and Monitoring Programs. The data base contains fiscal and programmatic information on the programs of 11 federal agencies, Fiscal Years 1978-83. **Input:** Input data are machine-entered from information supplied by 11 federal agencies on an NMPIS questionnaire. **Output:** Information in NMPIS may be retrieved as CRT display and/or printout from terminal devices. Various report-generating programs offer structured retrieval options.

Agency Contact: National Oceanic and Atmospheric Administration. (202) 634-7441.

National Technical Information Service

S00307-001

National Technical Information Service Bibliographic Data Base.

OMB Funding Code/Title: 13-1500-0-1-376 / Salaries and expenses

Program: Dissemination of Technical Information

CFOA NO.: 11.650

Congressional Relevance: House Committee on Energy and Commerce; House Committee on Science and Technology; Senate Committee on Commerce, Science, and Transportation; House Appropriations Committee: Commerce, Justice, State, The Judiciary and Related Agencies Subcommittee; Senate Appropriations Committee: Commerce, Justice, State and Judiciary Subcommittee

Authority: Act of September 9, 1950, as amended (P.L. 81-776, § 1-7; 64 Stat. 823-824, 15 U.S.C. 1151-1157).

Availability: NTIS

Geographic Relevance: National

Purpose: The data base contains bibliographic citations of completed U.S. government sponsored research, development, and engineering reports; computer products; and inventions available for licensing. Selected state and local government reports are also included. It is the purpose of the National Technical Information Service (NTIS) to disseminate to the public information products from U.S. government agencies. These reports cover all disciplines of research including physics, chemistry, biology, medicine, materials, sociology, urban development, engineering, transportation, energy, computer technology, and environmental research. The data base is multidisciplinary and contains summaries of new U.S. government generated research and development reports, other data and analyses, as well as translations of foreign technical materials. The data base contains more than one million titles. Most of the items have full bibliographic citations. The data base can be searched by report, contract, or accession number; personal or corporate author; title; subject category; or keywords. **Input:** The sources of information include over 350 U.S. government agencies. **Output:** Output consists of custom searches, printouts, computer tapes, and microfiche. Most reports are available for purchase from NTIS. All others contain availability information in the document citation.

Agency Contact: National Technical Information Service. (703) 487-4808.

Patent and Trademark Office

S00308-001

Accounting System.

OMB Funding Code/Title: 13-1006-0-1-376 / Salaries and expenses

Program: Executive Direction and Administration

Congressional Relevance: House Committee on The Judiciary; Senate Committee on The Judiciary; House Appropriations Committee: Commerce, Justice, State, The Judiciary and Related Agencies Subcommittee; Senate Appropriations Committee: Commerce, Justice, State and Judiciary Subcommittee

Authority: Trademark Act of 1946, as amended (P.L. 79-489, title 1, § 1, as amended by P.L. 96-517; 60 Stat. 427; 15 U.S.C. 1051-1127). Act of July 19, 1952, as amended (P.L. 82-593, § 1, as amended by P.L. 97-247; 66 Stat. 792-793; 35 U.S.C. 1, 3, 6).

Availability: Internal Use Only

Purpose: The system supports the Patent and Trademark Office (PTO) accounting and cost-based budgeting functions. It furnishes fully automated support for the administrative control of funds under an allotment structure and provides reconcilable data on appropriations, apportionments, allotments, obligations, accrued expenditures, receipts and costs. The system provides accounting and budgeting data to meet the reporting requirements of all PTO activities. The system supports PTO accounting and budget functions on a continuing basis. Major subsystems include the Personal Services Subsystem, the Accounting Edit Subsystem, the Personal Property Subsystem, and the Fee Accounting Subsystem. Basic accounting updating occurs biweekly and monthly. **Input:** Input data are received from various cost centers throughout the PTO. These data are prepared in automated form by the Office of Finance for entry into the system. Major categories of input include Personal Services data reflected on Time, Attendance, and Cost Cards, other cost and obligation data for non-personal services costs, and journal voucher data. Automated payroll data and budget data are also input to the system. The primary reports are produced on a monthly, biweekly, quarterly, and yearly basis. **Output:** Major report types include biweekly personal services reports; monthly accounting reports including cost statements, obligations reports, and fee income reports; monthly personal property reports; quarterly reports for starting budget results on an accrual basis; quarterly report on budget execution; annual statement of financial condition; annual report of federal outlay by geographic distribution; annual reports on manyears and personnel costs for civilian employment; and annual statements of receipts.

Agency Contact: Patent and Trademark Office. (703) 557-3051.

S00308-003

Program Measurement System (PMS).

OMB Funding Code/Title: 13-1006-0-1-376 / Salaries and expenses

Program: Executive Direction and Administration

Congressional Relevance: House Committee on The Judiciary; Senate Committee on The Judiciary; House Appropriations Committee: Commerce, Justice, State, The Judiciary and Related Agencies Subcommittee; Senate Appropriations Committee: Commerce, Justice, State and Judiciary Subcommittee

Authority: Act of July 19, 1952 (P.L. 82-593; 66 Stat. 792; 35 U.S.C. 1, 3).

Availability: Internal Use Only

Purpose: The system is an automated time and production data collection procedure monitoring the activities of approximately 1,500 employees. Output data are used by management to evaluate the productivity of individuals and organizations and to provide a basis for rationalized development of budget plans and staffing levels. Information reported to the system includes employee identification, PTO organization identification, job identification, pay status, work units produced, related time, and reporting period. **Input:** PTO employers report expenditures and related production information on a daily or weekly basis. **Output:** Weekly, monthly, quarterly, and fiscal year cumulative printouts summarize time and production information for individual employees and organizations at four levels of work identification. No item query capability exists.

Agency Contact: Patent and Trademark Office. (703) 557-5825.

S00308-006

Patent Application Locator and Monitoring System (PALM).

12/72

OMB Funding Code/Title: 13-1006-0-1-376 / Salaries and expenses

Program: Information Dissemination

Congressional Relevance: House Committee on The Judiciary; Senate Committee on The Judiciary; House Appropriations Committee: Commerce, Justice, State, The Judiciary and Related Agencies Subcommittee; Senate Appropriations Committee: Commerce, Justice, State and Judiciary Subcommittee

Authority: Trademark Act of 1946 (P.L. 79-489, title 1, § 1; 15 U.S.C. 1062). Act of July 19, 1952 (P.L. 82-593; 66 Stat. 794, 801; 35 U.S.C. 11, 131).

Availability: Internal Use Only

Purpose: PALM provides bibliographic information for producing file jacket label, filing receipt headings for routine correspondence, notices and other internal reports. In addition data are provided on status and physical location of each patent application and patented abandoned files during prosecution and movement throughout the office. The system also includes patent examiner production data functions as a patent application inventory system. The system consists of a master file (PALM 3) of application data, an Examiner Production File, an Accumulated Production File, and a PALM History File. The system is updated on line by means of a widespread telecommunication system which relies heavily on bar code technology. The system receives examiner production data daily by overnight batch process. The PALM 3 data base is accessible on-line daily through CRT status and location query, error correction, and limited management information. Major data elements being maintained on the PALM 3 data base include location, status, key dates, classification, examiner group unit identification, state/country code, assignment code, inventors, addresses of correspondents, and all data pertinent to prior applications. Major data elements on the Production File include institution of examiner's time, actions taken, and docket activity. **Input:** On-line input comes from all patent processing areas of the Office and individual patent examiner. Major categories of input data include identification information, key identifying application data, actions taken, dates, group unit and examiner assigned, examiner time distribution, and docket activity. **Output:** On-line output consists of patent application status and location, and bibliographic data used to assist in prosecution or on-line printing of correspondence. On-line query serial number, patent number, or applicant. Daily print products include filing receipts and file jacket labels. Reports produced are: Weekly Query Statistics and patent order quantities, biweekly Examiner Activity and Examiner Docket (hardcopy, tape, and microfilm), monthly Pendency (first action, disposal, issue or abandonment) (hardcopy), and quarterly the Examiner Quarterly Review (hardcopy). Actions Filed and Patents Issued by Residency of Inventor is printed

S00306-010

Trademark Reporting and Monitoring System 2 (TRAM2).
04/83

OMB Funding Code/Title: 13-1006-0-1-376 / Salaries and expenses
Program: Information Dissemination

CFDA NO.: 11.900

Congressional Relevance: House Committee on The Judiciary; Senate Committee on The Judiciary; House Appropriations Committee: Commerce, Justice, State, The Judiciary and Related Agencies Subcommittee; Senate Appropriations Committee: Commerce, Justice, State and Judiciary Subcommittee

Authority: Trademark Act of 1946 (P.L. 79-489, title 1, § 12-22; 60 Stat. 432-435, 15 U.S.C. 1062-1072); Act of July 19, 1952 (P.L. 82-593, § 1, 66 Stat. 794; 35 U.S.C. 111).

Availability: Agency

Purpose: TRAM2 was developed and implemented to monitor the movement of trademark applications, provide management control reports, and eliminate redundant manual control systems. The master file contains serial number, location code, date received, examiner code, and number of classes. The TRAM1 system was merged with the former Trademark Application Data Base to form a part of the TRAM2 system. This includes not only the TRAM1 information but all bibliographic, location, and status data, and can support automated searching, photocomposition, and workflow control and management information. The system contains information on over 300,000 trademarks pending or filed since 1980 and about 500,000 live registrations. **Input:** Input on receipt of application contents and other updating information comes from trademark examiners and all key processing areas of the trademark operation. Receipts are reported by application serial number and location code. **Output:** The following output is generated; file jacket label; filing fee receipt; filing receipt; correspondence labels; registrants' index cards; applicants' index cards; notice of publication; standard headings; trademark contents list for printer. Examination Production: Examiner Activity Report; Trademark Pending Report-Frequency Distribution; New Case Backlog for TMEO. Inventory: TRAM Monthly Status Code Summary; Multiple Class Summary; Summary of Examiner Dockets; TRAM Location Listing; TRAM Location Listing by Office; Potential Abandonment Listing; Distribution by State/Country of Trademark Applications Filed; Distribution by State/Country of Trademarks Issued; Trademark Applications Filed; Missing/Inactive Serial Numbers; Trademarks Registered; Missing/Duplicate Registration Numbers; Abandoned Mark Pull List; Logging Mode Error Report; Lost/Found Cases Report; Overdue Mailing/TTAB Action.

Agency Contact: Patent and Trademark Office. (703) 557-3268.

Bureau of the Census

S00309-001

Budget/Progress Reporting System (BUDPRS).
1973

OMB Funding Code/Title: 13-0401-0-1-376 / Salaries and expenses; 13-0450-0-1-376 / Periodic censuses and programs

Program: Census Activities (All Programs); Periodic Census and Programs (All Programs)

Congressional Relevance: House Committee on Post Office and Civil Service; Senate Committee on Governmental Affairs; House Appropriations Committee: Commerce, Justice, State, The Judiciary and Related Agencies Subcommittee; Senate Appropriations Committee: Commerce, Justice, State and Judiciary Subcommittee

Authority: Act of August 31, 1954, as amended (P.L. 83-740, § 1, as amended by P.L. 85-207; 68 Stat. 1012-1015; 13 U.S.C. 1 et seq.).

Availability: Agency

Purpose: This system provides uniform procedures for planning and monitoring a project in terms of time, money, and materials. It provides the complete Bureau of Census budget system. Key subsystems are

Each division is required to plan its costs and resource use on a monthly basis for the operating year and on an annual basis for future budget years. The same source document is used for both types of budget data with coding providing the ability to select required data for current budget reports or future budget presentation reports. The cost section is updated weekly with PROP (Performance Review of Operating Programs), BURR (Bureau Utilization Records and Reports-Computers and Peripheral Equipment) and other selected data. Field payroll data are available biweekly, and most of the accounting data are available only on a monthly basis. **Output:** A few weekly progress reports are prepared for selected areas being closely monitored where the minimum of data available on a weekly basis (PROP and BURR) are considered to be over 80 percent of their overall costs. For the most part, all reports are distributed monthly during the third week of the following month. All budget reports including Fiscal Plans, budget input to the cost statements, apportionment planning, and travel plans are generated from this system. The Progress Reporting System generates project summaries and details of plans compared to actual cost by month and cumulative to date for the fiscal year, work-days planned compared to actual by month, and labor distribution detail by month.

Agency Contact: Bureau of the Census. (301) 763-7452.

S00309-002

Performance Review of Operating Programs (PROP) System.
1963

OMB Funding Code/Title: 13-0401-0-1-376 / Salaries and expenses
Program: Census Activities (All Programs)

Congressional Relevance: House Committee on Energy and Commerce; House Committee on Post Office and Civil Service; Senate Committee on Governmental Affairs; House Appropriations Committee: Commerce, Justice, State, The Judiciary and Related Agencies Subcommittee; Senate Appropriations Committee: Commerce, Justice, State and Judiciary Subcommittee

Authority: Act of August 31, 1954 (P.L. 83-740).

Availability: Internal Use Only

Purpose: PROP is a system to measure, report, and/or control productivity of employee performance, progress of jobs, and costs of personal services. A wide variety of reports are prepared detailing activity, production, productivity, and error rates at the individual employee level, and at summary levels for the various organizational components of the Bureau. The system is the primary source of personal service costs, man-day, and workloads for the Budget/Progress Reporting System. It runs an incentive award system based on productivity monthly; a performance error report of very high and very low employee performance is run weekly. The data are updated weekly and at the end of each calendar month. The system includes data on personal service costs, man-hours expended, work units produced, and productivity. **Input:** Each employee reports, on a daily or weekly basis, all hours worked and units produced, where appropriate. This manually coded document is converted to tape through FOSDiC or Entrex Key to disk. These data are matched against the personnel file which contains the salary of each employee to obtain personal services costs and against a Job Reference File to obtain productivity rates. **Output:** Reports are published weekly and monthly in hardcopy. There is no query capability in the PROP System.

Availability: Agency
Geographic Relevance: International/Foreign
Purpose: The system is an international data base of demographic, social, and economic data, by urban and rural areas. Data on approximately 75 variables are being compiled, analyzed, and adjusted if applicable. When completed, the data base will include data for all countries of the world, covering a period from 1950 to the present and to 2010 for a few projected variables. **Input:** Input and data sources include surveys, official statistical publications, census reports, research papers, journals, and unpublished sources. **Output:** Output are 95 tables providing demographic, social, and economic data often disaggregated by sex and urban/rural residence. Output format includes machine readable form, hard copy, and CRT display.

S00309-006

Census of Agriculture and Cotton Ginning Statistics.
OMB Funding Code/Title: 13-0450-0-1-376 / Periodic censuses and programs
Program: Economic Statistics Programs: Census of Agriculture
Congressional Relevance: *House* Committee on Post Office and Civil Service; *Senate* Committee on Governmental Affairs; *House* Appropriations Committee: Commerce, Justice, State, The Judiciary and Related Agencies Subcommittee; *Senate* Appropriations Committee: Commerce, Justice, State and Judiciary Subcommittee
Authority: Act of August 31, 1954 (P.L. 83-740, § 1, as amended by P.L. 94-229; 68 Stat. 1020; 13 U.S.C. 142).
Availability: Agency
Geographic Relevance: National; State; County
Purpose: Pursuant to Public Law 94-229 Agriculture Censuses will be conducted for 1978 and thereafter for years ending in 2 and 7. Census of Agriculture reports contain data for states and counties including such items as number, size, and type of farm; crops harvested; value of farm products; and selected farm expenditures. Data are also available on machine-readable computer tapes. Each year statistics are collected on cotton ginning and production during the ginning season. Reports on cotton ginned prior to specific dates plus an end-of-season report are prepared and issued each year on dates prescribed by the Congress. **Input:** Survey activities are sources of data. **Output:** Printed reports and machine-readable data files are produced.
Agency Contact: Bureau of the Census. (301) 763-5230

S00309-007

Census Bureau Transportation Statistics.
OMB Funding Code/Title: 13-0450-0-1-376 / Periodic censuses and programs
Program: Economic Statistics
Congressional Relevance: *House* Committee on Energy and Commerce; *House* Committee on Post Office and Civil Service; *Senate* Committee on Governmental Affairs; *House* Appropriations Committee: Commerce, Justice, State, The Judiciary and Related Agencies Subcommittee; *Senate* Appropriations Committee: Commerce, Justice, State and Judiciary Subcommittee
Authority: Act of August 31, 1954 (P.L. 83-740, 13 U.S.C. 131).
Availability: Agency; GPO
Geographic Relevance: National; State
Purpose: Under legislation enacted in 1964, the Census of Transportation is taken at 5-year intervals (for years ending in two and seven), coinciding with the other economic censuses. The Census of Transportation consists of three major phases: 1) National Travel Survey, 2) Truck Inventory and Use Survey, and 3) Commodity Transportation Survey. These surveys present benchmark data on personal travel, the use of trucks, and the shipment of commodities. Microdata files are available from each of these surveys. **Input:** Survey activities are system input. **Output:** Printed reports, microfiche reports, and machine-readable data files are generated.
Agency Contact: Bureau of the Census. (301) 763-1804.

S00309-008
Census of Retail Trade, Wholesale Trade, and Service Industries.
OMB Funding Code/Title: 13-0450-0-1-376 / Periodic censuses and programs
Program: Current Economic Statistics Programs: Economic Censuses
CFDA NO: 11.001
Congressional Relevance: *House* Committee on Post Office and Civil Service; *Senate* Committee on Governmental Affairs; *House* Appropriations Committee: Commerce, Justice, State, The Judiciary and Related Agencies Subcommittee; *Senate* Appropriations Committee: Commerce, Justice, State and Judiciary Subcommittee
Authority: Act of August 31, 1954 (P.L. 83-740, § 1; 68 Stat. 1019, 13 U.S.C. 131).
Availability: Agency; GPO
Geographic Relevance: National; State; (SMSA) Standard Metropolitan Statistical Area; County
Purpose: Under legislation enacted in 1964, quinquennial economic censuses are conducted covering years ending in two and seven. Wholesale, retail, and service data are available in the Area Data Files from the 1977 Economic Census. Data tabulations include number of establishments; sales (receipts); payroll; employment; number of proprietorships and partnerships; and for wholesale trade, operating expenses and end-of-year inventories, and retail and wholesale statistics by type of commodity sold. Geographic areas covered include the U.S.A., states, counties, Standard Metropolitan Statistical Areas, and incorporated places with 2,500 inhabitants or more. **Input:** The Censuses and Surveys cover business establishments in retail trade, wholesale trade, and selected services industries, as well as travel agencies, non-regulated motor carriers, and public warehouses. **Output:** Reports are available as printed publications, computer tapes and microfiche.
Agency Contact: Bureau of the Census. (301) 763-7564.

S00309-009

Governments Statistics.
OMB Funding Code/Title: 13-0401-0-1-376 / Salaries and expenses; 13-0450-0-1-376 / Periodic censuses and programs
Program: Current Economic Statistics Programs: Economic Statistics
Congressional Relevance: *House* Committee on Energy and Commerce; *House* Committee on Post Office and Civil Service; *Senate* Committee on Governmental Affairs; *House* Appropriations Committee: Interior Subcommittee; *Senate* Appropriations Committee: HUD Independent Agencies Subcommittee
Authority: Act of August 31, 1954 (P.L. 83-740).
Availability: Agency
Geographic Relevance: National; State; (SMSA) Standard Metropolitan Statistical Area
Purpose: The Governments Division collects data and prepares reports showing current and benchmark statistical data relating to the characteristics and functions of state and local governments. Annual series include reports on governmental finances and on public employment which present figures for the federal, state, county, and city governments, state and local totals by states, and local total for selected geographic areas. There are quarterly reports on tax revenue and holdings of selected public-employee retirement systems for state and local governments. Governments data presently available include: 1) 1977 Census of Governments Employment--data are presented on number of employees, payroll, etc. for the approximately 80,000 governmental units; 2) 1982 Governmental Employment--annual sample of approximately 16,000 local governmental units; 3) 1977 Census of Governments Finance--data are presented on revenue and expenditures; 4) General Revenue Sharing Data--basic data elements (i.e., population and tax and intergovernmental revenues) for each governmental unit recognized under the General Revenue Program. Also available are the Planned and Actual Use Reports for fiscal years 1977, 1978, 1981, and 1982. **Input:** The governments data program includes general purposes governments such as counties, municipalities, and townships as well as governmental units such as school districts and housing authorities. **Output:** Printed reports (annual) and machine-readable data are produced.
Agency Contact: Bureau of the Census. (301) 763-7366.

S00309-011

Manufacturing and Mineral Industries Statistical System.
OMB Funding Code/Title: 13-0401-0-1-376 / Salaries and expenses,

Program: Current Economic Statistics Programs: Manufacturing Statistics, Demographic Statistics Programs. Decennial Census CFDA NO.: 11.001

Congressional Relevance: House Committee on Post Office and Civil Service; Senate Committee on Governmental Affairs; House Appropriations Committee: Commerce, Justice, State, The Judiciary and Related Agencies Subcommittee; Senate Appropriations Committee: Commerce, Justice, State and Judiciary Subcommittee

Authority: Act of August 31, 1954 (P.L. 83-740, § 1; 68 Stat. 1019; 13 U.S.C. 141). Act of October 17, 1976 (P.L. 94-521, § 8(a); 90 Stat. 2463; 13 U.S.C. 182).

Availability: Agency; GPO

Geographic Relevance: National; State; (SMSA) Standard Metropolitan Statistical Area; County; City

Purpose: Under legislation enacted in 1964, the Censuses of Manufactures and mineral industries are to be taken in years ending in two and seven. The results provide benchmarks for many of the Bureau's other statistical programs and are the basis for many detailed studies. Current surveys are also conducted at annual, quarterly, and monthly intervals. The Annual Survey of Manufactures is based on a scientific sample of manufacturing establishments and provides annual statistics for interim years on employment, payrolls and supplemental labor costs, materials, value added by manufacture inventories, capital expenditures, assets, retirements, depreciation, rental payments and value of products shipped--data which are shown in more detail in the Census of Manufactures reports. Current statistics on commodity production and shipments are issued in the Current Industrial reports series. Industry data are available in the Area Data Files from the 1982 Economic Census covering manufacturing and mineral industries. The files include data on number of establishments, employment, payroll, man-hours, cost of materials, value of shipments, capital expenditures and inventories, for areas, states, counties, and cities. Quantity and value of materials consumed and products shipped are available nationally. **Input:** Data are collected from all manufacturing and mineral establishments with one or more paid employees. **Output:** Monthly, quarterly, and annual reports and machine-readable data (1982 Economic Census) are generated.

S00309-012

Personal Census Records Service System.

OMB Funding Code/Title: 13-0401-0-1-376 / Salaries and expenses

Program: Current Demographic Statistics Programs

Congressional Relevance: House Committee on Energy and Commerce; House Committee on Post Office and Civil Service; Senate Committee on Commerce, Science, and Transportation; Senate Committee on Governmental Affairs; House Appropriations Committee: Commerce, Justice, State, The Judiciary and Related Agencies Subcommittee; Senate Appropriations Committee: Commerce, Justice, State and Judiciary Subcommittee

Authority: Act of August 31, 1954 (P.L. 83-740).

Availability: Agency

Purpose: The Bureau of the Census maintains a staff of employees at Pittsburgh, KS, whose function is to search the various federal censuses of population to provide at a normal cost personal data from these records to individuals who lack other documents of birth or citizenship. Extracts from these records are often accepted as evidence of age and place of birth for obtaining employment, social security benefits, old-age assistance, passports, naturalization papers, delayed birth certificates, and for other purposes. The system contains all historical census data back to and including that of the 1900 census. (Earlier records, back to 1790, are in the custody of the National Archives). **Input:** Input is the decennial census data collected by the Bureau of the Census. **Output:** Output consists of responses to individual search requests.

Agency Contact: Bureau of the Census. (301) 763-7936.

S00309-013

Census Bureau Population Statistics System.

OMB Funding Code/Title: 13-0401-0-1-376 / Salaries and expenses;

13-0450-0-1-376 / Periodic censuses and programs

Program: Current Demographic Statistics Programs: Demographic Statistics, Demographic Statistics Programs. Decennial Census CFDA NO.: 11.001

Congressional Relevance: House Committee on Post Office and Civil Service; Senate Committee on Governmental Affairs; House Appropriations Committee: Commerce, Justice, State, The Judiciary and Related Agencies Subcommittee; Senate Appropriations Committee: Commerce, Justice, State and Judiciary Subcommittee

Authority: Act of August 31, 1954 (P.L. 83-740, § 1; 68 Stat. 1019; 13 U.S.C. 141). Act of October 17, 1976 (P.L. 94-521, § 8(a); 90 Stat. 2463; 13 U.S.C. 182).

Availability: GPO, Agency; NTIS

Geographic Relevance: National; State; (SMSA) Standard Metropolitan Statistical Area; Congressional District; County; City; Census tracts, blocks, SCSA, urbanized areas

Purpose: A census of population has been taken every 10 years since 1790, the twentieth being conducted as of April 1, 1980. The census function is described in and authorized by the Constitution and by laws codified as Title 13, U.S. Code. These data are utilized by the Congress, by the executive branch, and by the public generally in the development and evaluation of economic and social programs. Information from surveys and population estimates are used in similar fashion. Census information includes a wide variety of statistical data about the people and economy of the Nation. Population and housing data presently available include: 1) 1980 Census Summary tape (files 1, 2, 3, 4, and 5); 2) Selected 1970 Census Subject Report Files; 3) 1980, 1970 and 1960 Census Public Use Sample Files; 4) Annual Demographic Files 1968-1983; 5) Survey of Income and Program Participation (SIPP); 6) Voting Supplement; 7) 1970 Census Child Spacing and Fertility Public Use Sample; and 8) Population Estimates File. **Input:** The major decennial censuses provide the basic data input. To update these data, the current population survey is conducted monthly. Interviewers visit a scientifically selected sample of the population to obtain current information on the personal and family characteristics of the population, mobility of the population, income, poverty, school enrollment, and other subjects. Also derived from this survey are estimates of employment, unemployment, hours of work, occupation, and earnings. These labor force data are turned over to the Bureau of Labor Statistics, U.S. Department of Labor, for analysis and publication. That agency assumed responsibility for these functions effective July 1, 1959. Detailed information on the economic situation of persons and families is provided by the SIPP. The survey covers an extensive number of income sources with greater frequency than any currently available source of data. Interviews are conducted every 4 months over a 2 1/2 year period to collect income data and program eligibility data. **Output:** Output includes printed reports, computer tapes, and special tabulations. However, catalogs, guides, and directories which are useful in locating information on specific subjects are also produced. The publication program for the 1980 census is planned for completion in October 1983. Estimates of population and per capita income for post and interim dates, as well as projections of the population, are prepared from time to time. Special censuses of local areas are taken at the request and expense of the local governments involved. Reports providing estimates and projections of the population of various foreign countries also are published periodically. Output from the SIPP includes publications and public use data files, both of which are differentiated by whether they are cross-sectional or longitudinal. Cross-sectional reports planned include: 1) a set of quarterly reports focusing on income; and 2) a set of single-time reports that will be released for each of the nine interviews planned for the survey. Longitudinal reports and files are still under discussion.

Agency Contact: Bureau of the Census. (301) 763-7646.

S00309-014

Foreign Trade Statistics System.

OMB Funding Code/Title: 13-0401-0-1-376 / Salaries and expenses

Program: Current Economic Statistics Programs: Foreign Trade Statistics

CFDA NO.: 11.001

Congressional Relevance: House Committee on Energy and Commerce; House Committee on Post Office and Civil Service; Senate Committee on Commerce, Science, and Transportation; Senate Committee on Governmental Affairs; House Appropriations Committee: Commerce, Justice, State, The Judiciary and Related Agencies Subcommittee; Senate Appropriations Committee: Commerce, Justice, State and Judiciary Subcommittee

Authority: Trade Act of 1974 (P.L. 93-618). Act of August 31, 1954 (P.L. 83-740). Act of October 15, 1962 (P.L. 87-826). Trade Agreements Act of 1979 (P.L. 96-39).

Availability: GPO; Agency

Geographic Relevance: National; International/Foreign; Customs District

Purpose: The data are used by the Congress, the executive branch and the public as a measure of the U.S. balance of trade with foreign countries and as a source of detailed commodity information, serving an important function in trade negotiations, in trade promotion activities and in programs to monitor export controls and import restraints. As authorized in the Trade Act of 1974, the program provides for monitoring imports in accordance with the adjustment assistance provisions of the act, for compiling import data which separately identify articles from developing countries accorded duty-free classification, and for improving the comparability of commodity classification systems for imports, exports and domestic production. Data are shown by country of origin and destination and Customs districts through which merchandise enters and leaves the United States. The export statistics are initially compiled in accordance with the classifications in Schedule B, Statistical Classifications of Domestic and Foreign Commodities Exported from the United States. Import data are initially compiled in terms of Tariff Schedules of the United States Annotated (TSUSA). U.S. import and export statistics are also compiled in terms of the SITC (Standard International Trade Classification) based Schedule A, Statistical Classification of Commodities Imported into the United States and Schedule E, Classification of Domestic and Foreign Commodities Exported from the United States, respectively. **Input:** Input is comprised of statistical information on the dollar value and net quantity (pounds, gallons, square yards, etc.) of U.S. import and export commodities sent by all means of transportation. **Output:** These data are made available on a monthly and annual basis in the form of published reports, microform, and computer tape presenting value, quantity, and shipping weight of merchandise exported and imported. Such data are shown in various arrangements by commodity, by country of origin/destination, by customs district of entry/exportation, and by mode of transportation. Additional data are made available detailing the waterborne and airborne movement of exports and imports and shipments between the United States and its possessions. The current "Guide to Foreign Trade Statistics" presents illustrations of the various foreign trade publications and tabulations available.

Census Bureau Geographic Reference File.

OMB Funding Code/Title: 13-0450-0-1-376 / Periodic censuses and programs

Program: Decennial Census

Congressional Relevance: House Committee on Energy and Commerce; House Committee on Post Office and Civil Service; Senate Committee on Commerce, Science, and Transportation; Senate Committee on Governmental Affairs; House Appropriations Committee: Commerce, Justice, State, The Judiciary and Related Agencies Subcommittee; Senate Appropriations Committee: Commerce, Justice, State and Judiciary Subcommittee

Authority: Act of August 31, 1954 (P.L. 83-740).

Availability: Agency

Geographic Relevance: State; (SMSA) Standard Metropolitan Statistical Area; Congressional District; County

Purpose: These data are developed by the Census Bureau in conducting its many censuses and surveys. Geographic Reference files presently available include: 1) Master Enumeration District List (MED-List)—presents the codes which identify the geographic areas presented on the 1970 census data files, such as places, counties, census tracts; 2) GBF/DIME Files—street inventories, in the urbanized portion of SMSA's, which relate address ranges to census geographic area codes; 3) Zip/Tract Cross-Reference File—correspondence file, in urbanized areas of SMSA's, between ZIP codes and census tracts as of 1972; 4) City Reference File—census places and post office names and their associated ZIP, state, county, and place codes as of 1972 and 1982 (preliminary); 5) 1980 County Boundary File—latitude-longitude coordinates describing the boundaries of all counties in the United States; 6) U.S. centers of population—latitude-longitude coordinates for the 1970 Census population centers of counties in the U.S.; 7) SMSA Tract

Boundaries—latitude-longitude coordinates for the boundaries of census tracts with 1970 SMSA's; 8) MARF—(Master Area Reference File)—contains the codes which identify the geographic areas represented on the 1980 census data files, such as places, counties, census tracts; 9) 1980 GICS File (Geographic Identification Coding Scheme)—a "print file" containing the same information which went into the GICS publication. **Input:** The Bureau's Geography Division, through its analysis, creates the standard geographical data elements for inclusion in the file. **Output:** The Geography Division of the Bureau of the Census prepares maps and other material for use by the Bureau in conducting its many censuses and surveys. From time to time it also publishes maps and series of reports presenting, cartographically or in tabular format, information on the geographic distribution of the population, population characteristics, land and water areas, crop and livestock distribution, and other subjects.

CFDA NO.: 11.001

Congressional Relevance: House Committee on Post Office and Civil Service; Senate Committee on Governmental Affairs; House Appropriations Committee: Commerce, Justice, State, The Judiciary and Related Agencies Subcommittee; Senate Appropriations Committee: Commerce, Justice, State and Judiciary Subcommittee

Purpose: This system provides for specialized studies in the distribution of population and manufacturing activity in the U.S. and various foreign countries. The system has two subsystems. The first consists of studies of the geographic distribution of population in the U.S. and various foreign countries. The second subsystem consists of studies of the geographic distribution of industrial activity in the U.S. and various foreign countries. Detailed listings of populated places and industrial centers are prepared, the population of each locality is projected, and the industrial output of each industrial center is estimated. The estimates developed in this system are provided on a regular basis to the sponsoring agencies at the federal government. **Input:** Input is from the analysis of official Census volumes and reports and from estimates made by various U.S. government agencies, BEA and Census. **Output:** Output is processed data entered on computer tapes that are delivered to the sponsoring agencies.

Availability: Agency; GPO

Geographic Relevance: National; State; County; (SMSA) Standard Metropolitan Statistical Area

Purpose: This system acts as a central, standardized business register for governmentwide use in the conduct of statistical surveys. The system provides for the annual compilation of basic establishment data (first quarter employment and payroll and annual payroll) for about 4 million employer business enterprises and establishments in the United States classified as to activity (Standard Industrial Classification) and geographic location. Currently, the system is operational within the Census Bureau as the data base for the annual County Business Patterns publications and is used in the conduct of the Bureau's current economic programs and in a number of reimbursable projects performed for other agencies. The system also serves as the basic source mailing list for the conduct of the 5-year economic censuses. **Input:** Economic data and information on company structure, business activity, location, and other related data are provided by the annual Company Organization Survey for multi-establishment firms. Similar but less detailed data are obtained from business related administrative records of the Internal Revenue Service and the Social Security Administration for single-establishment firms. **Output:** The primary output is the annual County Business Patterns publication, which is also available in machine-readable form.

Federal Assistance Award Data System (FAADS).

01/82

OMB Funding Code/Title: 13-0401-0-1-376 / Salaries and expenses

Program: Current Economic Statistics Programs (All Programs)

CFDA NO.: 11.001

Congressional Relevance: *House Committee on Post Office and Civil Service; Senate Committee on Governmental Affairs; House Appropriations Committee: Commerce, Justice, State, The Judiciary and Related Agencies Subcommittee; Senate Appropriations Committee: Commerce, Justice, State and Judiciary Subcommittee*

Authority: Consolidated Federal Funds Report Act of 1982 (P.L. 97-326, § 8, as amended by P.L. 97-326; 96 Stat. 1607; 31 U.S.C. 6102 note). Act of October 17, 1976 (P.L. 94-521, § 8(a); 90 Stat. 2463; 13 U.S.C. 182). Act of October 15, 1962 (P.L. 87-826, § 2; 76 Stat. 951; 13 U.S.C. 301).

Availability: National Archives and Records Service, GSA

Geographic Relevance: National; State; City; County; Congressional District

Purpose: This is a computer generated compilation of information on federal financial assistance transactions containing about 185,000 records, each of which provides up to 33 data items relating to the name

and location of recipient, amount of federal funding, project description, and identification of the federal program involved. The Federal Assistance Award Data System is used to provide official notification of grants awarded within each state. As such, it assists states in tracking federal funds and in performing oversight and audit responsibilities. The data enable the Office of Management and Budget and GAO to evaluate and monitor the federal assistance system. The information also helps members of Congress to assess the importance of various programs and respond to constituent requests. **Input:** The primary source of data is from approximately 25 federal government agencies. **Output:** On a quarterly basis, computer tapes and printouts are produced.

Availability: Internal Use Only

Geographic Relevance: International/Foreign; National

Purpose: This system is an automated file of all radio frequency assignments in use by federal agencies, with related data on equipment characteristics and an allocation table for federal radio frequency management. Content includes engineering characteristics of federal radar, radar, and other EMF-emitting facilities, including location, equipment, and operational schedules. Files are referenced daily and updated monthly, geographically coded to a particular state or foreign country. **Input:** Actions on radio frequency assignment applications of federal agencies are system input. **Output:** Radio frequency management listings, cataloging assignments to federal radio systems (hardcopy, magnetic tape, and microfiche), are produced daily. The system is queried by computer, through the agency contact above.

Program: Economic Analysis: National Economic Accounts; Economic Analysis: Analysis of Business; Economic Analysis: International Economic Accounts

Congressional Relevance: House Committee on Energy and Commerce; House Committee on Foreign Affairs; Senate Committee on Commerce, Science, and Transportation; House Appropriations Committee: Commerce, Justice, State, The Judiciary and Related Agencies Subcommittee; Senate Appropriations Committee: Commerce, Justice, State and Judiciary Subcommittee

Authority: Bretton Woods Agreements Act (P.L. 79-171); Economy Act (P.L. 72-212); International Investment Survey Act of 1976 (P.L. 94-472, 22 U.S.C. 3101).

Availability: NTIS; GPO

Geographic Relevance: National; State; (MSA) Standard Metropolitan Statistical Area; County

Purpose: The functions of BEA are to prepare the economic accounts of the United States and to interpret economic developments in the light of these accounts and other pertinent information. The economic accounts provide a quantitative view of the economic process in terms of the production, distribution, and use of the Nation's output. This system includes numerous subsystems (manual, automated, and a combination of both) which produce various elements of the national accounts. These subsystems are in many respects stand-alone systems. However, their overall structure and purpose are so interrelated that it is necessary to consider the subsystems as parts of a total national economic accounts information system. The major subsystems include the national income and product accounts system which focuses on the gross national product and provides an overall view of the economic process; the input-output accounts system which describes industrial interactions; the balance of payments accounts system which details U.S. transactions with foreign countries; and the regional accounts system which provide measurements and projections of economic activity by state, metropolitan area, and county. **Input:** Input to the various subsystems that make up the *Economic Accounts of the United States* comes from numerous sources—from within BEA, from other federal agencies, and from private and public organizations outside the federal government. Primary sources include the Bureau of Labor Statistics (wholesale and consumer price indices, various employment series), the Internal Revenue Service (statistics of income, self-employed income data), the Bureau of the Census (retail and wholesale trade data, agricultural and transportation statistics), State Unemployment Insurance Offices (county income data), and private companies (plant and equipment expenditure, foreign investment). **Output:** System output includes: Survey of Current Business (monthly), Business Conditions Digest (monthly), and Business Statistics (every two years), numerous staff studies, supplements to the Survey, and special reports are issued periodically through GPO and/or NTIS.

Agency Contact: Bureau of Economic Analysis. (202) 523-0777.

Geographic Relevance: National

duction, its distribution, and its use, as shown by the interrelated receipts and expenditures of U.S. producers, consumers, investors, and of the foreign customers of the United States. The overall system includes several subsystems, each dealing with a major section of the national accounts (corporate income, personal income, personal consumption, etc). The national income and product accounts are developed on a quarterly and annual basis, with the quarterly data being updated each month and the annual estimates being developed at the end of each year and updated several times thereafter as more accurate input data become available. Estimates of personal income are produced monthly. The quarterly data are available from 1946, while the annual and monthly estimates extend back to 1929. **Input:** Input is obtained from numerous sources. From within BEA, major data sources include the personal income estimates by industry from the Regional Economic Measurement Division and the imports and exports estimates from the Balance of Payments Division. External data sources include the Federal Reserve Board, the Bureau of the Census, the Bureau of Labor Statistics, the Securities and Exchange Commission, and the Internal Revenue Service. **Output:** Output includes Survey of Current Business (monthly), staff studies, supplements to the Survey, and special reports are issued periodically through GPO and/or NTIS. These apply particularly to the estimates of capital stocks, and the major benchmark revisions of the national accounts.

Congressional Relevance: House Committee on Foreign Affairs; Senate Committee on Commerce, Science, and Transportation; Senate Committee on Foreign Relations; House Appropriations Committee: Commerce, Justice, State, The Judiciary and Related Agencies Subcommittee; Senate Appropriations Committee: Commerce, Justice, State and Judiciary Subcommittee

Authority: Department of Commerce Organic Act (P.L. 57-87).

Availability: GPO

Geographic Relevance: National

Purpose: This system provides an in-depth analysis of the various interrelationships that exist among the industries of the United States. The output is essential to all studies of the cost-price structure of the economy and to productivity analysis. It is used to examine the effect of changes in the level and composition of consumer, business, foreign, and government demand on industrial activity and the effect of price changes in individual industries on the prices of other industries and on the price level as a whole. The system includes two major subsystems. The primary subsystem is the input-output estimates and analysis program. These estimates focus on the way the industries of the Nation interact in producing the gross national product--the industry-to-industry flow that accounts for the production of the final output. These input-output estimates are conceptually and statistically integrated with the national income and product accounts. The first set of input-output tables was prepared in 1958, and detailed tables are scheduled for every five years to correspond with the economic censuses. These tables will be updated annually at the summary level only. This subsystem also produces a capital goods flow table which shows estimates of capital goods cross-classified by selling and purchasing industries. The capital goods flow tables have been prepared for 1958, 1963, and 1967. The secondary subsystem develops estimates that show the industrial origin of the gross national product in current and constant dollars. These estimates, which are available on an annual basis starting with 1946, measure the industrial sources of growth of the economy and provide information on the price of output and its various cost elements. **Input:** Input is from the National Income and Wealth Division of BEA, the Bureau of the Census, the Economic Research Service of the Agriculture Department, the Bureau of Mines, the Bureau of Labor Statistics, and numerous private trade associations and corporations. **Output:** Reports based on the Interindustry Accounts System appear periodically in the Survey of Current Business published by GPO and in special supplements, such as the Input-Output Structure of the U.S. Economy (three volumes), published by GPO.

U.S. Regional Economic Accounts System.

OMB Funding Code/Title: 13-1500-0-1-376 / Salaries and expenses

Program: Bureau of Economic Analysis; National Economic Accounts
Congressional Relevance: *House* Committee on Foreign Affairs; *Senate* Committee on Commerce, Science, and Transportation; *Senate* Committee on Foreign Relations; *House* Appropriations Committee: Commerce, Justice, State, The Judiciary and Related Agencies Subcommittee; *Senate* Appropriations Committee: Commerce, Justice, State and Judiciary Subcommittee

Authority: Department of Commerce Organic Act (P.L. 57-87).

Availability: Agency; GPO; NTIS

Geographic Relevance: State; County; (MSA) Metropolitan Statistical Area

Purpose: 1) The REM system measures economic activity in the United States by geographic area and retrieves and distributes these measures for any geographic grouping desired. The estimates that are developed constitute the most comprehensive set of economic activity data that are available on a regional or local area basis. 2) The REA system is a series of interrelated subsystems that develop projections of economic activity by geographic area and review and analyze the current economic activities in and between these economic areas. 1) The REM system develops estimates of personal income by type and by industry for each state, metropolitan statistical area (MSA), and county. A summary set of state personal income estimates is prepared quarterly; a more detailed set is produced annually. The quarterly estimates cover the post-World War II period, while the annual data are available from 1929 forward. In addition the system produces annual estimates of personal income and its components for all MSA's and counties. These estimates are available for selected years from 1929 to 1965 and annually thereafter. Estimates of per capita income have been prepared for the same years as the aggregate personal income measures. The system also develops annual measures of employment for states, MSA's and counties that are consistent with the income estimates. These employment estimates have been produced for all years from 1967 onward. Finally, a subsystem of the U.S. Regional Economic Measurement system provides the ability to retrieve estimates of any grouping of states, MSA's and counties and display the information in a variety of formats. 2) The REA projection system provides long-range projections of income, employment, and population for each of about 950 local areas. These areas are tailored to the requirements of public and private users and consist of states, MSA's, and water resources and other economic planning areas. The income and employment projections are made for 37 individual industries. **Input:** Substantial amounts of theoretical and empirical work on improving the projections is being done and revised projections will be prepared on a 5-year schedule. The analytical efforts of the Regional Economic Analysis system are concerned primarily with identifying and measuring the factors that determine regional differences in the levels of economic activity and differences in the rates of economic growth, and in analyzing migration patterns of the work force. To accomplish this latter effort the system maintains annual and quarterly data on the demographic and economic characteristics of the work force. **Output:** 1) REM estimates are published quarterly in the Survey of Current Business available from GPO and in microfiche from NTIS. In addition, extensive detailed estimates are published. Various tables are available from the Regional Economic Measurement Division as either computer print-outs or on magnetic tape. These tables can be produced for any geographic combination of counties. 2) REA analytical projections are published periodically in the Survey of Current Business, which is available from GPO. Special supplements of the Survey are also published on occasion (an 11 volume set of detailed projections by various geographic aggregations was published in 1980, for example). **Agency Contact:** Bureau of Economic Analysis. (202) 523-0777.

S00316-007

Business Indicators Data System.

OMB Funding Code/Title: 13-1500-0-1-376 / Salaries and expenses

Availability: GPO; NTIS

Geographic Relevance: National

Purpose: The function of this system is to compile, maintain, and analyze short term economic time series at the national level and to provide statistical analyses of long term economic trends in the United States. This system prepares all data for the Business Conditions Digest, a monthly compendium of approximately 300 economic time series presented in both graphic form since 1959 and in tabular form since 1982. Diffusion indices, assorted analytical measures, and summary characteristics of individual series are also produced. Approximately 80 of these economic series are classified according to their business cycle timing. These series are identified as leading, coincident, or lagging indicators, and composite indices are derived. **Input:** Input is from a variety of public and private sources, including the National Income and Wealth Division of BEA and the Census Bureau. **Output:** Business Conditions Digest (monthly) is among the major reports.

Availability: GPO

Geographic Relevance: International/Foreign; National

Purpose: This system prepares the quarterly estimates of the U.S. international transactions accounts and of the international investment position of the United States. The system provides a complete and systematic view of all economic transactions between the United States and foreign countries. Major types of transactions covered are merchandise trade, travel, transportation, government expenditures abroad, private remittances and foreign aid programs, private capital flows and income on foreign investments, and changes in monetary reserves. The accounts data are available quarterly from 1945 and annually from 1919. Analytical studies include regular evaluations of current balance of payments developments and research on the factors determining international trade and portfolio investment. The system is also used to analyze the impact of alternative policies aimed at improving the balance of payments. **Input:** Major sources of input include the International Investment Division of BEA, the Department of the Treasury, the Export-Import Bank, the Agency for International Development, and the Bureau of International Commerce. **Output:** International transactions estimates and analyses are published quarterly in the Survey of Current Business published by GPO.

Agency Contact: Bureau of Economic Analysis. (202) 523-0777.

U.S. International Investment Accounts System.

OMB Funding Code/Title: 13-1500-0-1-376 / Salaries and expenses

Program: Bureau of Economic Analysis; International Economic Accounts

Congressional Relevance: *House* Committee on Foreign Affairs; *Senate* Committee on Commerce, Science, and Transportation; *Senate* Committee on Foreign Relations; *House* Appropriations Committee: Commerce, Justice, State, The Judiciary and Related Agencies Subcommittee; *Senate* Appropriations Committee: Commerce, Justice, State and Judiciary Subcommittee

Authority: Bretton Woods Agreements Act (P.L. 79-171). International Investment Survey Act of 1976 (P.L. 94-472; 22 U.S.C. 3101, 3108). Foreign Investment Study Act of 1974 (P.L. 93-479; 15 U.S.C. 78b note).

Availability: Agency; GPO; NTIS

Geographic Relevance: International/Foreign; National
Purpose: This system measures and analyzes the economic impact of the activities of multinational corporations. The system includes subsystems that estimate U.S. direct investment abroad, foreign direct investment in the United States, and income flows associated with such investment for inclusion in the balance of payments and international investment position accounts; survey and analyze actual and planned expenditures for plant and equipment by foreign affiliates of U.S. multinational corporations; Investment Accounts System includes income accounts sources and uses of funds statements, balance sheets and data on exports, imports, employment, and expenditures for research and development. Most data produced by this system are annual estimates, some of which are updated quarterly on the basis of new information obtained in the various BFA surveys. The data appear in the Survey of Current Business, both in the balance of payments accounts tables and in the annual review articles on direct investment and on the U.S. international investment position. In addition to the recurring surveys, periodic special surveys of particular aspects of the international investments accounts are undertaken. An example of this is the benchmark survey of foreign direct investment in the United States in 1980 which was conducted to meet the statistical data requirements of the Foreign Investment Study Act of 1976. The results of this survey were published in *Foreign Direct Investment in the United States, 1980*. **Input:** In this publication, data are classified by country and industry of foreign parent, and by country of ultimate beneficial owner, industry and legal form of U.S. affiliate, and state and region of affiliate location in the United States. **Output:** Output includes the Survey of Current Business, published by GPO and special reports published by GPO and NTIS.

Purpose: The Industrial Analysis and Productivity Research (IAPR) data base is being developed to support the Industrial Analysis and Productivity Research Program. The purpose of the program is to provide analytical support to economic policymakers concerning industry-level, production-related issues. Included are industry-specific analyses of characteristics of production processes, determinants of single and total factor productivity, determinants of the demand factors of production (capital, labor, energy, and materials), and the determinants of the cost of production. As a prelude to this research, the IAPR data base is being constructed to include an exhaustive set of all variables that relate to the microeconomics of the production/decisionmaking process of 3-digit industries comprising the total private business economy. When completed, the data base will contain a variety of price, quantity, quality, and financial information related to output, capital, labor, energy, and materials for 3-digit, and in some cases 4-digit, industries for the period from 1958-forward. At present, major portions of the output, capital, and energy data bases have been completed and made available to the public for a fee. Major milestones will also have been achieved in the labor-force demographics and financial data bases. Overall, the data base will contain more than 100,000 time series and more than 10 million records. **Input:** The primary sources of data are: the Bureau of Statistics, the Bureau of Economic Analysis, the Bureau of Labor Statistics, the Bureau of Mines, the Internal Revenue Service, the Department of Transportation, the Department of Agriculture, and Standard & Poor's Compustat. **Output:** Comprehensive 3/4-digit Standard Industrial Classification annual (1958 to 1980) data are available. The system will be updated annually as time and resources permit.

Agency Contact: Bureau of Industrial Economics. (202) 377-2019.

DEPARTMENT OF DEFENSE

S00400-001

Five Year Defense Program (FYDP). (13800C). 1965

OMB Funding Code/Title: 97-0100-0-1-051 / Operation and maintenance, Defense agencies

Program: Operations and Maintenance, Defense Agencies (All Programs)

Congressional Relevance: *House Committee on Agriculture; House Committee on Armed Services; House Committee on Banking, Finance, and Urban Affairs; House Committee on Foreign Affairs; House Committee on Interior and Insular Affairs; House Committee on Merchant Marine and Fisheries; Senate Committee on Agriculture, Nutrition and Forestry; Senate Committee on Armed Services; Senate Committee on Banking, Housing, and Urban Affairs; Senate Committee on Energy and Natural Resources; Senate Committee on Environment and Public Works; Senate Committee on Foreign Relations; House Appropriations Committee: Defense Subcommittee; House Appropriations Committee: District of Columbia Subcommittee; House Appropriations Committee: Energy and Water Development Subcommittee; House Appropriations Committee: Foreign Operations Subcommittee; House Appropriations Committee: Military Construction Subcommittee; Senate Appropriations Committee: Defense Subcommittee; Senate Appropriations Committee: Energy and Water Development Subcommittee; Senate Appropriations Committee: Foreign Operations Subcommittee; Senate Appropriations Committee: Military Construction Subcommittee; Senate Appropriations Committee: Treasury, Postal Service, General Government Subcommittee*

Authority: Department of Defense Appropriation Authorization Act of 1976 (P.L. 94-106).

Availability: Internal Use Only

Geographic Relevance: Worldwide

Purpose: The Five Year Defense Program is the official program which summarizes the Secretary of Defense approved plans and programs for the Department of Defense. It is represented by a computer data base which is updated at least three times a year to reflect decisions made during the evolution of the PPBS cycle. Data included are by program (e.g., Strategic Forces, General Purpose Forces), by appropriation (e.g., Research and Development, Procurement), and by manpower (military, civilian, officer, enlisted, United States or foreign). **Input:** The primary providers of data are the military departments (Army, Navy, Air Force) and defense agencies. Major categories of input data are current year, budget year, and four subsequent year data on approved funding and manpower requirements. Actual costs and manpower are provided for prior years. Key source documents include Joint Strategic Planning Document, Defense Guidance, Program Change Decision, Program Decision Memorandum, and Program Objective Memorandum. **Output:** The principal output is the Five Year Defense Program program element summary data (machine-readable--three times per year).

S00400-002

Information Requirements Control Automated System (IRCAS). (COMP(AR)1469).

1977

OMB Funding Code/Title: 97-0100-0-1-051 / Operation and maintenance, Defense agencies

Program: Administration and Associated Activities

Congressional Relevance: *House Committee on Armed Services; Senate Committee on Armed Services; House Appropriations Committee: Defense Subcommittee; Senate Appropriations Committee: Defense Subcommittee*

Authority: Department of Defense Appropriation Authorization Act of 1979 (P.L. 95-485). Department of Defense Appropriation Authorization Act of 1976 (P.L. 94-106). Paperwork Reduction Act of 1980 (P.L. 96-511).

Availability: Agency; NTIS

Geographic Relevance: National

Purpose: The Information Requirements Control Automated System provides the capability to manage and control information requirements at the data element level. The system is used for information planning, information location, and preventing duplication and overlap of information. The system is an on-line, interactive, user-oriented data base management system which has been specifically tailored for an information control and locator environment. It is being used to assist in planning for the information needs of program managers. The system is used to search for and identify duplication or similarity within existing information requirements. The scope of the system includes information requirements prescribed by the Office of the Secretary of Defense, interagency reports imposed on the Department of Defense (DOD) by other agencies or on other agencies by DOD, DOD public use reports, firms used by two or more DOD components, acquisition management systems/contractor data requirements, DOD budget exhibits, and total source documents/systems. **Input:** Input includes Approved Information Requirements (OSD) and management data and data block titles. **Output:** Output includes inventory or list of approved requirements for DOD distribution.

Agency Contact: (202) 695-4470.

S00400-003

Computerized System of the Advisory Group on Electronic Devices (AGEED).

OMB Funding Code/Title: 97-0400-0-1-051 / Research, development, test, and evaluation, Defense agencies

Program: Technology Base

Congressional Relevance: *House Committee on Armed Services; Senate Committee on Armed Services; House Appropriations Committee: Defense Subcommittee; Senate Appropriations Committee: Defense Subcommittee*

Authority: Department of Defense Appropriation Authorization Act of 1977 (P.L. 94-361). Department of Defense Appropriation Authorization Act of 1979 (P.L. 94-485).

Availability: Agency

Purpose: This system serves government project managers, engineers, and contractors by disseminating information on research and development (6.1, 6.2, 6.3A) programs conducted by the Office of Defense Research and Engineering and other government laboratories in the area of electron devices. The system includes information on low power lasers, visible and IR sensors, displays, microwave tubes and solid state tubes, and low power solid state devices. The computer files hold 8,000 citations to research programs, and information on the characteristics of 8,600 microwave tubes. A library collection of 21,000 documents in hard copy and microfiche is also maintained. **Input:** Data for the system are extracted from government contractor quarterly and final reports, government research and technology work unit summaries, foreign contractor reports, company catalogs and update procedures, periodicals, and telephone contacts. **Output:** Publications from the system include the monthly Government Sponsored List; Project Briefs, published biennially; and the Comprehensive List of Microwave Tubes, published biennially. All publications are available only to U.S. government agencies and qualified contractors and consultants.

Agency Contact: (202) 697-4198.

S00400-004

Defense Energy Information System (DEIS). (DD-M(M)1313)

1976

OMB Funding Code/Title: 97-0100-0-1-051 / Operation and maintenance, Defense agencies

Program: Administration and Associated Activities; Office of the Secretary of Defense

Congressional Relevance: House Committee on Armed Services; Senate Committee on Armed Services; House Appropriations Committee; Defense Subcommittee; Senate Appropriations Committee; Defense Subcommittee

Authority: Department of Defense Appropriation Authorization Act of 1976 (P.L. 95-435); Department of Defense Appropriation Authorization Act of 1979 (P.L. 96-106)

Availability: Internal Use Only

Geographic Relevance: International/Foreign; National; State; Defense Activities

Purpose: The purpose of this system is to provide the Department of Defense (DOD) with a monthly management record of DOD activities' energy consumption, inventories. It includes data collected from all DOD activities worldwide. Fifteen months of data are held on-line, older data are retained on a quarterly basis. The Defense Energy Information System (DEIS) is comprised of two major subsystems: DEIS-I, petroleum data, and DEIS-II, utility data. The period covered is from fiscal year 1975 to the present. The current file, as of February 1984, contains 4952 records in DEIS-I and 3637 records in DEIS-II. Input: The primary source of data is military base petroleum distribution facilities and Navy ships (DEIS-I reports) and military base engineering offices (DEIS-II reports). Output: The principal output includes monthly microfiche reports. On-line (CRT) management queries may be made. DOD is attempting to move towards selected data tailored to the management needs of large group of military consumers. Reports contain data on energy and inventories for the Army, Navy, Air Force, Marine Corps, and Defense Agencies worldwide.

Agency Contact: (202) 697-1988.

S00400-005

Defense Enrollment Eligibility Reporting System (DEERS).

02/80

OMB Funding Code/Title: 97-0100-0-1-051 / Operation and maintenance, Defense agencies

Program: Training, Medical, and Other General Personnel Activities (Medical Information System)

Congressional Relevance: House Committee on Armed Services; Senate Committee on Armed Services; House Appropriations Committee; Defense Subcommittee; Senate Appropriations Committee; Defense Subcommittee

Authority: Act of September 2, 1958 (P.L. 85-861, § 1; 72 Stat. 1445; 10 U.S.C. 1071 et seq.)

Availability: Medical Treatment Facilities and Service Personnel Offices

Purpose: DEERS is the central repository for information concerning the eligibility of individuals to receive Uniformed Services' privileges. The DEERS data base currently has eligibility information on over nine million individuals. The system has a nationwide communications network tied to personnel offices, medical treatment facilities, central personnel, and finance systems as well as insurance claims processors, providing on-line data access. Input: The primary input to the Defense Enrollment Eligibility Reporting System (DEERS) is eligibility information from the Uniformed Services Personnel Offices and Finance Centers. Output: The major output is confirmation of privileges for Uniformed Services' sponsors and their dependents.

Agency Contact: (202) 694-4639.

Program: Military Personnel, Air Force (All Programs); Operation and Maintenance, Air Force (All Programs); Aircraft Procurement, Air Force (All Programs); Missile Procurement, Air Force (All Programs); Procurement, Air Force (Other-All Programs); Research, Development, Test, and Evaluation, Air Force (All Programs); Military Construction, Air Force (All Programs); Air Force Stock Fund (All Programs); Air Force Industrial Fund (All Programs); Air Force Management Fund

Congressional Relevance: House Committee on Armed Services; Senate Committee on Armed Services; House Appropriations Committee; Defense Subcommittee; House Appropriations Committee; Military Construction Subcommittee; Senate Appropriations Committee; Defense Subcommittee; Senate Appropriations Committee; Military Construction Subcommittee

Authority: Act of August 10, 1956, as amended (P.L. 84-1028)

Availability: Internal Use Only

Purpose: The system accounts for all moneys appropriated by Congress for specific Air Force programs and provides a method of fund control for financial managers charged with responsibility for controlling funds. It provides complete and reliable status of appropriation information for financial managers at all levels and serves as the basis for preparing supporting Air Force budget requests and controlling execution of budget. The system contains the following information for unexpired appropriations: Availability by budget program; budget authorization by OAC within project; budget allocation by OAC; cumulative by OAC commitments by OAC within project and current month, current year, and cumulative obligations and disbursements by OAC within budget program/project. For expired and lapsed appropriations, comparable information is provided, but in less detail. Input: The Director of Logistics USAF provides information on appropriation availability, budget authorization, and budget allocation. Operating Agency Codes (OAC) provide information on commitments and obligations. Air Force regulations, other military services' installations, and State Department disbursing offices provide information on disbursements and collections. Output: Major systems reports include monthly hardcopy output, Status of Project by Operating Agency Code, Appropriation Status by Fiscal Year Program and Subaccounts, and Financial Status Report. Monthly hardcopy output, Report on Budget Execution, Annual hardcopy output, Annual Report under Section 1311, Supplemental Appropriation Act of 1955. Monthly magnetic tape output, Operating Budget Status Report.

Agency Contact: Air Force. (303) 370-7378.

Program: Administration and Associated Activities; Associated Activities, Defense Legal Services Agency; Country Program; Administration and Associated Activities; Family Housing, Defense (All Programs); Support Centers; Engineer Automation Support Activity; General Counsel

Congressional Relevance: House Committee on Agriculture; House Committee on Armed Services; House Committee on Banking, Finance, and Urban Affairs; House Committee on Foreign Affairs; House Committee on Interior and Insular Affairs; House Committee on Merchant Marine and Fisheries; House Committee on Public Works and Transportation; Senate Committee on Agriculture, Nutrition and Forestry; Senate Committee on Armed Services; Senate Committee on Banking, Housing, and Urban Affairs; Senate Committee on Energy and Natural Resources; Senate Committee on Environment and Public Works; Senate Committee on Foreign Relations; House Appropriations Committee; Defense Subcommittee; House Appropriations Committee; Foreign Relations Subcommittee; House Appropriations Committee; Military

Construction Subcommittee; State Appropriations Committee; Defense Subcommittee; Senate Appropriations Committee; Energy and Water Development Subcommittee; Senate Appropriations Committee; Foreign Operations Subcommittee; Senate Appropriations Committee; Military Construction Subcommittee; Senate Appropriations Committee; Transportation Subcommittee; Senate Appropriations Committee; Treasury, Postal Service, General Government Subcommittee.

Authority: Act of August 10, 1956, as amended (P.L. 84-1028) (Department of Defense Directive 5160.64).

Availability: Agency

Geographic Relevance: National

Purpose: FLITE is a full-text automated legal information storage and retrieval system. It is a Department of Defense (DOD) System, operated by the Air Force Office of the Judge Advocate General as Executive Agent for the DOD. The system is designed to search legal materials in response to user requests to find precedent and authority related to the requestors' legal issues. Documents are retrieved by searching the full text in desired combinations of words and phrases. FLITE produces and distributes indexes and collections of unpublished legal materials on microfiche. Any federal officer or employee is eligible to use FLITE with respect to government business. **Input:** The FLITE system includes approximately 20 billion characters of data. FLITE attorneys also have on-line access to the following research systems: JURIS, LEXIS, WESTLAW, DIALOG, and LEGISLATE. These combined resources include federal, state, and military court decisions, administrative agency decisions, legislative history, statutes, regulations, bills pending in Congress, law review articles, and many nonlegal data bases of interest to attorneys. Text materials are obtained in magnetic media by the following means: in-house conversion, data conversion contract, and tapes from GPO and commercial publishers who use computers in the publication process. **Output:** FLITE search and retrieval services may be obtained by contacting a FLITE attorney-advisor via AUTOVON 926-7531, FTS/COM1 (303) 370-7531. The FLITE attorney-advisor discusses the problem with the requestor, including the legal issues, the salient facts, terms that would be likely to appear in relevant documents, the types of legal materials that should be searched, and the output format desired (Key-Word-in-Context, citations, full text, headnotes.) Search requests are normally batch processed on the day received by the attorney-advisor and mailed to the requestor on the following day. Results may also be furnished to requestors on the same day by telephone if the situation so dictates.

Agency Contact: Air Force. (303) 370-7531.

Advanced Personnel Data System (APDS). (ADPS 13).

OMB Funding Code/Title: 57-3500-0-1-051 / Military personnel, Air Force; 57-3700-0-1-051 / Reserve personnel, Air Force; 57-3850-0-1-051 / National Guard personnel, Air Force

Program: Entire Direct Program

Congressional Relevance: House Committee on Armed Services; Senate Committee on Armed Services; House Appropriations Committee; Defense Subcommittee; Senate Appropriations Committee; Defense Subcommittee

Authority: Department of Defense Appropriation Authorization Act of 1976 (P.L. 94-106). Act of May 6, 1974 (P.L. 93-274). Act of May 10, 1974 (P.L. 93-277).

Availability: Internal Use Only

Purpose: APDS provides information to managers at all levels of command for the accomplishment of essential personnel actions in areas such as planning and programming, recruiting, accessions, education and training, assignments, reenlistments, promotions, career counseling, immunization and physical examinations, casualty matters, personal affairs, and separations and retirements. The system also transmits personnel actions from one echelon to another via AUTODIN. It encompasses active duty military, AF Reserve and Air National Guard (ANG), and civilian personnel. APDS is composed of subsystems and files which contain data in the following categories: accessions, education and training, utilization (assignment related), evaluation, promotion, compensation, subsistence (personal information), and separations and retirements. This information is maintained on approximately 600,000 active duty; 95,000 ANG; 460,000 Reserve; 245,000 civilian; and 472,000 retired personnel. The size of individual records varies from 366 to over 6500 characters, depending on the category and individual. Information on a person may also appear on other special purpose files

relating to specific areas of personnel management. The frequency of update is dependent on the file type. Most are updated at least weekly. The main storage media are magnetic disk and tape. **Input:** Some data in the system may be provided by the service member or civilian employee. Most, however, is entered into the system by Air Force personnel technicians as a result of specific personnel action or change in status. **Output:** The output frequency varies from daily to annually. The output includes active military, Air Force civilian, Air National Guard, Air Force Reserve, retired Air Force military, and manpower reports. **Output media include** machine readable forms, hardcopy (paper and microfiche), microform, and CRT and RJE terminals. The system has three query modes: ATLAS (diffused inquiry), SURF (single record look-up), and WINQ (immediate inquiry capability).

Agency Contact: Air Force. (202) 695-5247.

Air Force Logistics Command (AFLC) Wholesale Logistics Support Systems. (ADPS 12).

12/79

OMB Funding Code/Title: 57-3400-0-1-051 / Operation and maintenance, Air Force; 57-3080-0-1-051 / Other procurement, Air Force; 57-3020-0-1-051 / Missile procurement, Air Force; 57-3010-0-1-051 / Aircraft procurement, Air Force

Program: Central Supply and Maintenance; Munitions and Associated Equipment; Vehicular Equipment; Electronic and Telecommunication Equipment; Base Maintenance and Support Equipment (Other); Missile Procurement, Air Force (All Programs); Aircraft Procurement, Air Force (All Programs)

Congressional Relevance: House Committee on Armed Services; Senate Committee on Armed Services; House Appropriations Committee; Defense Subcommittee; Senate Appropriations Committee; Defense Subcommittee

Authority: Act of August 10, 1956 (P.L. 84-1028)

Availability: Internal Use Only

Geographic Relevance: National

Purpose: The Air Force Logistics Command (AFLC) Wholesale Logistics Support Systems were established and have evolved to provide visibility and control over 800,000 Air Force logistics operations. Major functions of the systems are: input validation, maintenance of master files, error identification/correction, creation of management action documents, fiscal accounting/control, and management status and statistics. The AFLC standard systems encompass over 200 individual capabilities supporting all aspects of Air Force logistics operations. All capabilities with their characteristics are listed in the Air Force Data System Automated Directory and specific capability description can be provided upon request. **Input:** Data utilized in this system are created from a variety of internal DOD procedures and documents related to inventory, controlling, ordering, distributing, and utilizing material. Input forms include hand coded documents, machine readable documents, and direct entry. **Output:** System outputs include daily, weekly, monthly, quarterly, and annual products relative to stock control and distribution, item management, equipment item requirements, configuration management, economic order projections, stock list data, collection and assimilation of production costs, progress payment, standard costs, procurement, distribution, nuclear ordnance cost accounting, international logistics, and depot level maintenance management. **Output forms include** machine readable products, hardcopy, and terminal display. Limited system capability exists.

Air Force Weather System Support. (ADPS 15).

OMB Funding Code/Title: 57-3400-0-1-051 / Operation and maintenance, Air Force

Program: General Purpose Forces

Congressional Relevance: House Committee on Armed Services; Senate Committee on Armed Services; House Appropriations Committee; Defense Subcommittee; Senate Appropriations Committee; Defense Subcommittee

Authority: Department of Defense Appropriation Authorization Act of 1976 (P.L. 94-106). Act of August 10, 1956 (P.L. 84-1028).

Availability: Agency

Geographic Relevancy: International/Foreign, National, State, Military Installations

Purpose: The Air Force Weather System provides weather and aerospace environmental information for the global weather requirements of the Air Force, Army, and other designated Defense agencies. The systems automated observing systems acquire, process, and transmit solar geophysical and winds aloft data. The weather communications systems gather and relay global weather data and provide rapid, automated switching and exchange of Air Force weather data. The Air Force global weather central processes conventional weather, aerospace environmental, and satellite data to predict the effects of weather on Air Force and Army installations, facilities, and operations. The Air Force Environmental Technical Application Center prepares special weather studies to assist in designing new military facilities and systems and planning for future military operations. **Input:** The primary sources of information are the Automated Observing System, the Automated Weather Network, and the Defense Meteorological Satellite Program. The major category of input data is atmospheric data electronically transmitted through the Automated Weather Network. **Output:** The frequency of system output is every three hours and includes computer predicted weather models, severe weather forecasts, forecasts for cloud and ionospheric conditions, worldwide historical weather data base, weather summaries and studies for the acquisition of new military systems, and weather summaries and analyses of weather sensitive military systems and operations.

S00402-007

Management and Scientific Information System (MASIS).

OMB Funding Code/Title: 57-3600-0-1-051 / Research, development, test, and evaluation, Air Force

Program: Defensewide Mission Support

Congressional Relevancy: House Committee on Armed Services; Senate Committee on Armed Services; House Appropriations Committee; Defense Subcommittee; Senate Appropriations Committee; Defense Subcommittee

Authority: Department of Defense Appropriation Authorization Act of 1976 (P.L. 94-106); Department of Defense Appropriation Authorization Act of 1979 (P.L. 95-485).

Availability: Internal Use Only

Geographic Relevancy: National; Military Installations

Purpose: This system provides a centralized automated data bank for integrating management and scientific information relating to all Air Force System Command laboratory programs. The system provides a flexible retrieval capability to satisfy command and laboratory requirements for management information related to work units reports and program and budgeting information. The retrieval subsystem is designed to provide a variety of custom-tailored reports from the data base, including work effort summaries containing the latest objective progress reports and publications produced under contract. The master files, totaling about 500 million characters, are contained on magnetic tape on permanent and removable disc depending on the frequency of access. **Input:** Air Force System Command laboratory personnel input an average of 15,000 data transactions per week. **Output:** Twelve update audit listings are produced regularly. A total of 1,000 recurring reports and 600 ad hoc reports are produced per year.

Program: Operation and Maintenance, Army (All Programs), Mission Forces; Operation and Maintenance, Army National Guard (All Programs); Research, Development, Test, and Evaluation, Army (All Programs); Family Housing, Defense (All Programs); Depot Maintenance; Support (Other)

Congressional Relevancy: House Committee on Armed Services; Senate Committee on Armed Services; House Appropriations Committee; Defense Subcommittee; Senate Appropriations Committee; Defense Subcommittee

Authority: Act of August 10, 1956 (P.L. 84-1028)

Availability: Agency

Geographic Relevancy: International/Foreign

Purpose: The objectives of Standard Army Civilian Payroll System (STARCIPS) are to provide standard pay services to civilian employees of the Army, create/maintain a standard civilian pay, leave, and attendance data base, standardize civilian payroll forms and listings, provide feeder data and listings to other applications, minimize input requirements, and provide necessary controls for audit purposes. STARCIPS is designed to provide pay service to civilian employees of the Army; to process deductions and employee contributions; to record, maintain, and report leave status; and to provide automated input into the Army Standard Finance System (STANFINS). The system produces the pay checks, leave and earnings statements, and bonds, as well as the numerous lists and reports required for installation fund management and reporting requirements. **Input:** Input is comprised of data from payroll forms, listings and other applications. **Output:** Principal output is: edit listings, payroll computation listing, weekly reports, Treasury reports, miscellaneous pay and attendance reports, employee checks and bonds, earnings and leave statements, time and attendance cards, and accounting interface (all are on preprinted forms, punch cards, checks, bonds, or magnetic tapes).

Joint Uniform Military Pay System--Army (JUMPS-Army). (C04).

OMB Funding Code/Title: 21-2010-0-1-051 / Military personnel, Army; 21-2020-0-1-051 / Operation and maintenance, Army

Program: Military Personnel, Army (All Programs); Operation and Maintenance, Army (All Programs)

Congressional Relevancy: House Committee on Armed Services; Senate Committee on Armed Services; House Appropriations Committee; Defense Subcommittee; Senate Appropriations Committee; Defense Subcommittee

Authority: Act of September 7, 1962 (P.L. 87-649, as amended by P.L. 93-277; 76 Stat. 467; 37 U.S.C. 308); Act of August 10, 1956 (P.L. 84-1028; 70 Stat. 157; 10 U.S.C. 3010,3012)

Availability: Agency

Geographic Relevancy: National; Military Installations

Purpose: JUMPS-Army is the centralized and computerized military pay and leave accounting system of the Department of the Army, implementing the Joint Uniform Military Pay System prescribed by the Department of Defense for all military services. Objectives of the system are to provide the best and most efficient management and operating techniques in a military pay system; maintain or improve the quality of military pay service to members; provide maximum practicable uniformity with the military pay systems of the other military services; provide centralized and computerized pay account maintenance; provide optimum support of the planning, programming, and budgetary systems by providing and making effective use of comprehensive, accurate, and timely accounting reports and other end products; eliminate or reduce erroneous or illegal payments; produce from the pay data, back data and reports now available only through special statistical and reporting methods outside the pay system; provide interface with personnel and other related systems; and provide more effective support to military pay appropriation and resource management systems. The system provides for input of pay changes and leave usage data on the individual service member from the field or, by interface with central military personnel systems, with the master military pay file maintained on computers at the U.S. Army Finance and Accounting Center (USAFAC). Utilizing the master file, FAC will compute pay, prepare detailed leave and earnings statements, issue checks, and prepare the cash payment documents; make allotment payments, account for expenditures and collections, and provide a variety of management data for use of the program manager of the military pay, Army appropriation. **Input:** Sources of input are Morning Report Changes, Unit Pay Changes, Pay Inquiries, Family Housing Orders, and Leave Usage. **Output:** Major output is payroll checks, pay allotments, savings bonds, and leave/earning statements.

Availability: Agency

Geographic Relevance: State; City

Purpose: Joint Uniform Military Pay System--Reserve Components (Army) [JUMPS-(RC)-Army] is the centralized, computerized, military pay/budget/accounting system dedicated to the Army Reserve components (Army Reserve and National Guard). It is an extension of the JUMPS-Army system. Objectives of the system are to provide the best and most efficient management and operating techniques in a military pay system; maintain or improve the quality of military pay service to members; provide maximum practicable uniformity with the military pay systems of the other military services; provide centralized and computerized pay account maintenance; provide optimum support of the planning, programming, and budgetary systems by providing and making effective use of comprehensive, accurate, and timely accounting reports and other end products; eliminate or reduce erroneous or illegal payments; produce from the pay data, historical data and reports now available only through special statistical and reporting methods outside the pay system; provide interface with personnel and other related systems; provide more effective support to military pay appropriation and resource management systems; and provide for a smooth transition of pay accounts to JUMPS-Army in the event of mobilization. The system provides for the input of pay changes and drill performance from the field, the latter on an exception basis. For Army National Guard accounts there is an interface with the Army National Guard Personnel System. For Army Reserve accounts there is no such interface at present although one is planned through the Reserve Components Personnel and Administration Center, St. Louis, MO. For the time, all Army Reserve input is by keypunched cards. Utilizing the Reserve Components Master Pay File, U.S. Army Finance and Accounts Center computes pay for inactive duty training performance, issues checks, and prepares detailed leave and earnings statements; makes remittances to National Guard Associations for State sponsored life insurance programs; accounts for expenditures and collections; and provides a variety of management, budget and accounting, and statistical data for various levels in the management chain. **Input:** Input includes drill schedules, personnel changes, exception notices, and pay changes. **Output:** Major reports produced are the weekly transaction acknowledgements, payroll checks (monthly), leave/earnings statements (monthly), and administrative/statistical reports as required (in hardcopy/microfiche/magnetic tape).

Authority: Act of August 10, 1956 (P.L. 84-1028; 70 Stat. 91, 10 U.S.C. 1201-1431). (10 U.S.C. 3010, 3012).

Availability: Agency

Geographic Relevance: State; City

Purpose: Joint Uniform Military Pay System--Retired (JUMPS-Retired) is the centralized and computerized retired pay system of the

Department of the Army, implementing the Joint Uniform Military Pay System prescribed by the Department of Defense for all the military services. Its objectives are to provide the best and most efficient management and operating techniques in a retired pay system; maintain or improve the quality of retired pay service to members; provide maximum practicable uniformity with the retired pay systems of the other military services; provide centralized and computerized pay account maintenance; provide optimum support of the planning, programming, and budgetary systems by providing and making effective use of comprehensive, accurate, and timely accounting reports and other end products; eliminate or reduce erroneous or illegal payments; produce from the pay data, back data and reports now available only through special statistical and reporting methods outside the pay system; provide interface with other related systems; and provide more effective support to retired pay appropriation and resource management systems. The system provides for input of pay changes on the individual retiree or annuitant from Retired Pay Operations, U.S. Army Finance and Accounts Center, or by interface with the JUMPS-Army system, with the master retired pay file maintained on computers at the USAFAC JUM punchcards are the principal means of data transmission. Utilizing the master file, USAFAC will compute pay, issue Statements of Account USAFAC where status changes have occurred, issue checks, make allotment payments, account for expenditures and collections, and provide a variety of management data. **Input:** Military retirement orders, pay inquiries from retirees, and correspondence from other government agencies comprise system input. **Output:** Paychecks, allotment payments, expenditure/collection reports, and various management reports comprise major system output.

Geographic Relevance: State; City

Purpose: This is a centralized and computerized disbursing and accounting system for the Departments of the Army, Air Force, Defense, Navy, and Department of Labor prescribed by the Department of Army for all transportation services performed by common carriers. Objectives of the system are: 1) To provide prompt payment to the carriers; 2) to account and report these payments to the proper benefiting appropriation; 3) to provide the maximum practicable uniformity with other compatible Disbursing Officers accountability; 4) to minimize erroneous accounting data; 5) to produce reports required by Department of the Army and Department of Defense regulations; 6) to produce additional statistical data as agreed for other related agencies and as interfaced with their systems; and 7) to provide interface with the Transportation Management Fund system for payments and collections citing appropriations participating in the Army Management Fund, Transportation. The system provides for input of billings received from carriers and supporting documentation consisting of prenumbered government bills of lading, transportation requests, meal tickets, and collections received from carriers, individuals, and installations. The system balances, collates, and edits the input data. Output of the system consists of check payments to carriers and various daily, cyclical, and monthly reports, including formatted data for input to the Transportation Management Fund System. **Input:** Input includes daily expenditure adjustments, collections, and obligation activity; bills of lading; meal tickets; and transportation requests. **Output:** Check payments to carriers and daily, monthly, quarterly hardcopy and punchcard statistical and management reports comprise major output.

Agency Contact: Army. (317) 542-2486.

Transportation Management Fund System (TRANS-TMF).

OMB Funding Code/Title: 21-3970-0-4-051 / Army management fund

Program: Army Management Fund (All Programs)

Congressional Relevance: House Committee on Armed Services; Senate Committee on Armed Services; House Appropriations Committee; Defense Subcommittee; Senate Appropriations Committee; Defense Subcommittee

Authority: Act of September 7, 1962 (P.L. 87-651).

Availability: Agency

Geographic Relevance: State; City

Purpose: This unique fund was established by law to conduct economically and efficiently Department of Defense operations that are financed by at least two appropriations but whose costs cannot be immediately distributed and charged to those appropriations. Specifically, the purpose of the fund is to provide, on a continuing basis, the means for financing and accounting for commercial transportation charges incurred through government bills of lading, transportation requests, meal tickets, and other incidental charges as billed by carriers. Objectives are: 1) to provide and account for, by underlying participating appropriations, disbursements and collections recorded in the Army Management Fund; 2) to report the end results of all matching operations by subsidiary accounts and by type of document; 3) to produce certain management reports as required (Net of Income and Expense per appropriation); 4) to minimize erroneous accounting data and to provide a means of correction; 5) to generate monthly billings and refunds to the installations; and 6) to return pro rata share of income to participating appropriations. The system makes payments to and collections from carriers and accounts for such transactions in terms of the specific appropriations, funds, and fiscal stations participating in the fund. Generally, this fund services all of DOD except the Navy and Marine Corps. Input for the system includes output data from the daily disbursing and reporting computer system. This input is balanced by type of transaction monthly and matched against payments from installations, after which the fund asset, liability, and net worth accounts are updated. **Input:** Sources of input are monthly payment and obligation activity (tape), monthly passenger billing activity (tape), and monthly corrections activity (key

tape/punchcards). **Output:** System output consists of billings and refunds; payments to carriers; collection from carriers; quarterly management reports involving inventory for obligations, payments, and accounts receivable; and annual management reports concerning lapsed accounts, ledger codes, summaries, station reports, inventories for obligation, payments, and accounts receivables

Soldier Cost Information System (SCIS). (C12).

OMB Funding Code/Title: 21-2020-0-1-051 / Operation and maintenance, Army; 21-2010-0-1-051 / Military personnel, Army; 21-2031-0-1-051 / Aircraft procurement, Army; 21-2032-0-1-051 / Missile procurement, Army; 21-2033-0-1-051 / Procurement of weapons and tracked combat vehicles, Army; 21-2034-0-1-051 / Procurement of ammunition, Army; 97-0701-0-1-051 / Family housing, Defense; 21-2033-0-1-051 / Procurement of weapons and tracked combat vehicles, Army; 21-2034-0-1-051 / Procurement of ammunition, Army **Program:** Operation and Maintenance, Army (All Programs); Military Personnel, Army (All Programs); Aircraft Procurement, Army (All Programs); Missile Procurement, Army (All Programs); Tracked Combat Vehicles; Ammunition; Family Housing, Defense (All Programs); Weapons and Other Combat Vehicles; Ammunition Production Base Support

Congressional Relevance: House Committee on Armed Services; House Committee on Banking, Finance, and Urban Affairs; Senate Committee on Armed Services; Senate Committee on Banking, Housing, and Urban Affairs; House Appropriations Committee; Defense Subcommittee; Senate Appropriations Committee; Defense Subcommittee

Authority: Act of May 10, 1974 (P.L. 93-277). Department of Defense Appropriation Authorization Act of 1976 (P.L. 94-106)

Geographic Relevance: State; County

Purpose: The Soldier Cost Information System (SCIS) will provide the Army with an automated Military Occupational Specialty Training Cost System. Three types of major reports are produced--school/course reports, the Military Personnel Center Selective Reenlistment Bonus/Proficiency Pay Report, and the Training Cost Report for Officer/Warrant Officers and Enlisted Men. The system will also feed other computer models, most important of which is the Force Cost Information System (FCIS). The present design is a system with 8 FORTRAN and 16 COBOL programs. This system does not contain any investigative data on persons or organizations who are not affiliated with DOD. This system does not involve automated decisionmaking applications. **Input:** The system receives data on magnetic tape and/or punchcards from Army agencies. **Output:** Principal output is Army Training and Doctrine Command Course Reports, Variable Reenlistment Bonus/Profile Pay Report, and Training Cost Handbook, all in hardcopy.

Geographic Relevance: State; County

Purpose: The Force Cost Information System (FCIS) is used to estimate costs of Army force units and force structures based on personnel

and equipment. Cost estimates are produced for six theaters and are related to investment and are broken into appropriate funds showing detailed costs in 50 subcategories relating to budget programs. FCIS is operational and used daily. It has CRT capability to update/edit major files and to cost forces in a conversational mode. The system consists of 76 separate tasks to update and/or create 18 files on magnetic disks and tapes. The largest file is the unit cost bank. Among the tasks are 57 FORTRAN and COBOL programs. This system does not contain any investigative data on persons or organizations who are not affiliated with DOD. The system does not include automated decisionmaking applications. **Input:** Input comes from Table of Organization and Equipment Data, cost factors, and consumption factors (on cards, tape, and coding sheets). **Output:** Principal reports are the Army Force Planning Cost Handbook, Division Force Equivalent Cost Handbook, and Force Cost and Organizational/Unit Cost Information, as required. **Agency Contact:** Army. (202) 695-6697.

500403-011

Standard Finance System (STANFINS). (C01).

OMB Funding Code/Title: 21-2020-0-1-051 / Operation and maintenance, Army

Program: Operation and Maintenance, Army (All Programs)

Congressional Relevance: House Committee on Armed Services, House Committee on Banking, Finance, and Urban Affairs; Senate Committee on Armed Services; Senate Committee on Banking, Housing, and Urban Affairs; House Appropriations Committee: Defense Subcommittee; House Appropriations Committee: Military Construction Subcommittee; Senate Appropriations Committee: Defense Subcommittee; Senate Appropriations Committee: Military Construction Subcommittee

Authority: Act of August 10, 1956 (P.L. 84-1028).

Availability: Agency

Geographic Relevance: International/Foreign

Purpose: The Standard Finance System (STANFINS) provides an Army standard installation-level system for financial management of consumer funds. STANFINS standardizes and automates financial transactions and major operating requirements of installation finance and accounting divisions; creates, updates, and maintains base-level financial data banks for retrieval of statistical reports; and produces data required to update higher echelon data banks. The objectives are: 1) To facilitate rapid, accurate accumulation of financial transactions; 2) to create/maintain a standard financial data base; 3) to prepare hardcopy reports for required submission to higher headquarters; 4) to provide automated input to higher echelon data bases; 5) to provide reports to enhance management at various levels within the installation; 6) to provide a vehicle for prompt, standard implementation of changes in regulatory requirements; and 7) to accomplish Base Operations (BASOPS) Supply or BASOPS Processing Link for Unautomated Supply (PLUS) interfacing reporting for Army Stock Fund. STANFINS is predicated on minimal manual input and maximum computer processing utilizing a variety of master files and system tables. The current STANFINS applications include appropriation and fund accounting, cost accounting, and, when supporting BASOPS Supply, stock fund and financial inventory accounting. The system provides an audit trail of daily transactions, summarization of daily business, fund availability, cost data, and various reports and automated data for higher headquarters. Daily processing combines data converted by the finance and accounting division and financial transactions integrated from the associated supply system (BASOPS I Supply, BASOPS PLUS SAILS, or 3S). Data are furnished daily to balance accountability and to provide status of available funds, making maximum use of the principle of management by exception. **Input:** System input is military/civilian pay, travel orders and vouchers, interest fund vouchers, obligation adjustment vouchers, military/civilian labor cost vouchers, and engineer expense distributions. **Output:** Automated output includes: 1) Daily--Edit, balance, and control listings; fund control exception reports; disbursing reports; 2) Weekly--Decentralized accounts; transactions for others; cost reports for installation managers; and 3) Monthly--All required allotment and disbursement reports; reimbursement and cost reports for installation managers. **Agency Contact:** Army. (317) 542-3152.

Authority: Act of August 10, 1956 (P.L. 84-1028).

Availability: N115; Agency

Geographic Relevance: State; County

Purpose: The Civilian Budget System (CBS) provides an automated civilian costing capability which will define cost factor at Army Management Structure (AMS) level, provide a base for analysis of the impact of budget decisions, provide an analytical interface with manpower and budget reporting systems, produce Army civilian budget submissions to Office of the Secretary of Defense, and produce the civilian manpower update of the fiscal year defense program. The initial objective of CBS was to automate the manual process of preparing the civilian budget estimates. This action relieved analysts from performing numerous repetitive computations and allowed them to concentrate their effort on analyzing the impact of manpower budget decisions. CBS provides a uniform and consistent source of information on the civilian budget. CBS is currently the only system which contains prior, current, budget, and out-year data on civilian manpower depicting end strengths, man-years, and personnel compensation in the Army staff. The system's flexible terminal capability permits the testing of various alternatives to budget decisions without being committed to adopting them. In addition, it improves the capability to formulate recommendations on distribution of increases or reductions determined by budget decisions. The generation of a new budget year with man-year and cost data can be accomplished solely based on end strengths for the new year. The CBS audit trail provides complete and readily accessible audit trail of all changes and allows analysts to review and analyze the impact of past decisions when evaluating current budget requirements. **Input:** Sources of data are: actual cost factors; manpower change data; pay raise current evaluation data; and foreign nationals separation allowance adjustment data. **Output:** Principal output is budget submissions to the Office of the Secretary of Defense and the President (hardcopy); supplemental budget requests to Congress (hardcopy); and fiscal year defense program updates (magnetic tape).

Curps of Engineers--Military Construction Progress Reporting System.

OMB Funding Code/Title: 21-2050-0-1-051 / Military construction, Army

Program: Military Construction Projects

Congressional Relevance: House Committee on Armed Services; Senate Committee on Armed Services; House Appropriations Committee: Military Construction Subcommittee; Senate Appropriations Committee: Military Construction Subcommittee

Authority: Act of September 2, 1958 (P.L. 85-861). Military Construction Authorization Act of 1976 (P.L. 94-107).

Availability: Internal Use Only

Geographic Relevance: National

Purpose: The system was developed and is maintained to provide current information on the status of military construction projects. This system provides information relating to military design and construction

programs under the jurisdiction of the Director of Military Programs. The system provides a single data base for OCE which produces recurring and special reports for use by higher authorities, OCE elements, Corps field offices, and using services. **Input:** Corps districts with military construction missions are the primary source of data input for the system. These offices supply input on a monthly basis for consolidation at the office of the Chief of Engineers (OCE) and for updating the data base. Reports required by the Military Programs Directorate can then be generated, using the updated data base. **Output:** The reports generated include Design Projects by Sections and Districts, Design Contracts, Construction Projects by Sections and Districts, Construction Contracts Contract Awards Status, Forecast Awards, and Work Placement Estimate.

Corps of Engineers--Military Construction, Army (MCA) Program System.
OMB Funding Code/Title: 21-2050-0-1-051 / Military construction, Army

Program: Military Construction, Army (All Programs)

Congressional Relevance: House Committee on Armed Services; Senate Committee on Armed Services; House Appropriations Committee; Military Construction Subcommittee; Senate Appropriations Committee; Military Construction Subcommittee

Authority: Act of October 7, 1975 (P.L. 94-107).

Availability: Agency

Geographic Relevance: National

Purpose: The system was developed and is maintained to provide information on upcoming and future military construction requirements. This system maintains information on future facility requirements to support the Army's missions and provides by subelements of time, location, facility description, priority, or using service a continuous flow of information pertaining to the up-to-date status of the Military Construction Army (MCA) program. The Assistant Chief of Engineers and the Program, Planning, and Civil Preparedness Division of the Military Construction Directorate are the primary users of this system. On an average of three times a week, the data base is updated, and reports are generated for use by Congress, Secretary of the Army, and/or other agencies. **Input:** Army military installations provide input annually for updating the MCA data base. **Output:** Reports generated include Design Annex, Execution Annex, Command Priorities, Station, Construction Category, Future Years, Program Element, OCE (Office of the Chief of Engineers) to DCSLOG (Deputy Chief of Staff for Logistics), Improvement and Rehabilitation, Construction Type, Funded Report, and Program Analysis by DOD Grouping.

Authority: Act of June 13, 1902 (P.L. 57-154). Flood Control Act of 1917 (P.L. 64-367). Act of August 13, 1946 (P.L. 79-727). Act of November 7, 1983 (P.L. 88-172).

Availability: NTIS; Agency

Geographic Relevance: National

Purpose: The system was developed in response to the Dam Safety Act of 1972, Public Law 92-367, which requires the Corps of Engineers to prepare an inventory of all federal and non-federal dams and recommend a comprehensive national program to inspect and regulate the Nation's dams for safety purposes. The data and the inventory of dams are now available on an automated file and are being maintained on an active up-to-date basis. The initial report to Congress has been printed. The Corps of Engineers will recommend that it be authorized to maintain the inventory of dams on a continuous basis. Assuming this is approved, these data will be available for the Chief of Engineers' Annual

Report, for periodic inspection by the U.S. Congress on Large Dams (USCOLD) and the International Congress on Large Dams (ICOLD); for information retrieval analysis; and for use in coping with natural disasters such as earthquakes and hurricanes. **Input:** Data are obtained from Corps regional offices and from dam sites. **Output:** The limited inventory report has been printed and released to the Congress. System reports can be produced on large dams as required.

Corps of Engineers--Inland Navigation System Analysis (INSA).

OMB Funding Code/Title: 96-3124-0-1-301 / General expenses

Program: General Expenses (All Programs)

Congressional Relevance: House Committee on Interior and Insular Affairs; House Committee on Merchant Marine and Fisheries; House Committee on Public Works and Transportation; House Committee on Standards of Official Conduct; Senate Committee on Energy and Natural Resources; Senate Committee on Environment and Public Works; Senate Committee on Governmental Affairs; House Appropriations Committee; Energy and Water Development Subcommittee; Senate Appropriations Committee; Energy and Water Development Subcommittee

Authority: Act of June 13, 1902 (P.L. 57-154). Flood Control Act of 1917 (P.L. 64-367). Act of August 13, 1946 (P.L. 79-727). Act of November 7, 1963 (P.L. 88-172).

Availability: Internal Use Only

Geographic Relevance: National

Purpose: The Inland Navigation System Analysis (INSA) collects, analyzes, and evaluates data on the inland waterways to improve inland waterways and the inland navigational system. Four contracts have been awarded to support future system development: Real-time Traffic Monitoring Study (complete), Commodity Market Analyses of Waterborne Commerce (underway), Multi-Regional Commodity Flow Model (underway), and Waterway Network Flow Simulation Model (underway). During fiscal year 1976 a pilot study was initiated using the results of the Real-time Traffic Monitoring Study and a Generalized Functional System Requirement (GFSR) will be written on the Real-time Traffic Monitoring Study. Prior to publication of INSA program implementation regulations various systems and procedures will be devised and developed to effect data collection, optimize lock operations, and support network simulation. **Input:** Input is from traffic monitoring, commodity flow, and waterway simulation models. **Output:** Reports are produced on inland waterway traffic and commodity flows as needed by Corps analysts.

Program: General Expenses (All Programs)

Congressional Relevance: House Committee on Interior and Insular Affairs; House Committee on Merchant Marine and Fisheries; House Committee on Public Works and Transportation; Senate Committee on Energy and Natural Resources; Senate Committee on Environment and Public Works; Senate Committee on Governmental Affairs; House Appropriations Committee; Energy and Water Development Subcommittee; Senate Appropriations Committee; Energy and Water Development Subcommittee

Authority: Act of June 13, 1902 (P.L. 57-154). Flood Control Act of 1917 (P.L. 64-367). Act of August 13, 1946 (P.L. 79-727). Act of November 7, 1963 (P.L. 88-172).

Availability: Internal Use Only

Geographic Relevance: National; State; County; City

Purpose: The Systems of Information Retrieval and Analysis Planning (SIRAP) provides a means whereby planning data can be made available to all Corps. The master file for SIRAP contains 1972 OH-RS (Joint Bureau of Economic Analysis and Economic Research Service) projections, census data on agriculture, population, and housing, city and county data; manufacturing locations; county business patterns, LEOC minority employment; public use data; and environmentally sensitive wildlife. The data are aggregated by various jurisdictions and

areas, including EPA, WRPA, and SMSA districts, State, county, and SIC (Standard Industrial Classification) within county; and BFA economic areas. This socioeconomic-demographic information is continually maintained at Lawrence Berkeley Laboratory and is accessed remotely by users for any jurisdiction or geographic region desired. The regional data base at each division office contains only that portion of the total master file which applies to the region's geographic area. **Input:** Socioeconomic data are obtained from Bureau of Economic Analysis, Census, Department of Agriculture, and Equal Employment Opportunity Commission and are merged with internally generated data. **Output:** Environmental impact statements and regional reports comprise principal output.

Purpose: The objective of the Columbia River Operational Hydromet and Management System (CROHMS) is to provide a cooperative multi-agency system dedicated to the acquisition, derivation, and dissemination of hydrologic, meteorologic, and project operational information vital to real-time water resources management activities in the Pacific Northwest. CROHMS is a cooperative effort involving the Corps, Bonneville Power Administration, U.S. Bureau of Reclamation, U.S. Geological Survey, U.S. Forest Service, National Weather Service, and the Environmental Protection Agency. As its part in the CROHMS concept, the Corps is responsible for design, construction, and operation of 224 automated data acquisition stations, within a network of 437 stations in the Willamette River Basin, the Lower Snake, and the Mid-Kootenai, Lower Pen Oreille, and Coeur d'Alene drainages; procurement, operation, and maintenance of a central hydromet data management facility; quality control of collected data; data conversion and derivation; and rapid and repetitive analysis and forecasting to evaluate project operating criteria and to facilitate real-time water control decisions; and retrieval and dissemination of information to water management personnel. **Input:** System input is automatically obtained from remotely located data acquisition controllers, hydromet gaging stations, and the Columbia Basin Teletype Network. **Output:** Water management information and reports and operations forecasts are principal output.

S00403-022

Corps of Engineers--Corps-Wide Water Control Management System (WCMS).

OMB Funding Code/Title: 96-3124-01-301 / General expenses

Program: General Expenses (All Programs)

Congressional Relevance: *House* Committee on Interior and Insular Affairs; *House* Committee on Merchant Marine and Fisheries; *House* Committee on Public Works and Transportation; *Senate* Committee on Energy and Natural Resources; *Senate* Committee on Environment and Public Works; *Senate* Committee on Governmental Affairs; *House* Appropriations Committee; Energy and Water Development Subcommittee; *Senate* Appropriations Committee; Energy and Water Development Subcommittee

Authority: Act of June 13, 1902 (P.L. 57-154); Flood Control Act of

1917 (P.L. 64-367); Act of August 13, 1946 (P.L. 79-727); Act of November 7, 1963 (P.L. 88-172).

Availability: Internal Use Only

Geographic Relevance: National

Purpose: The system is a set of programs and models developed for water control and forecasting. The WCMS consists of configurations and systems for hydrometeorological data collection and generalized computer applications and models for water control developed by field agencies within the Corps. It employs current computer applications in water control to include advanced hydrologic modeling techniques for data manipulation, hydrologic forecasting, and water control decisions. Hydrometeorological data collection systems are being modernized with emphasis on station distribution, density, and automation to assure compatibility with river basin modeling; systems include data transmission via satellites where feasible. **Input:** Data are collected from hydrometeorological field stations and regional components. **Output:** Reports and forecasts on water control projects are produced periodically on a demand basis.

Availability: NTIS; Agency;

Geographic Relevance: National

Purpose: The system is used to manage civil works data bases and to generate management reports. The Civil Works Information System (CWIS) consists of eight separate but related automated files: Recreation Resources Management System; Civil Works Information System; River Basin Monetary Authorization; Research Management System; Planning, Programming, and Budgeting System; Intensive Management Program Monitor System; Flood Plain Management Services; and Project Historical Data System. These data bases serve such major functions as the management of recreational resources, planning and construction, monetary authorizations by river basins for justification for passage of legislation, the Civil Works Five-Year Construction Program that is submitted to the Office of Management and Budget and to both the Senate and House Public Works Subcommittees of the Committees on Appropriations, monitoring the fiscal and physical status of civil works planning studies and projects, flood plain management, and information on other projects and/or activities that have been or may be accomplished under the Civil Works Program. These systems are integrated into the Civil Works Management Information System (in common data base) consisting of approximately 640 different data elements that are project oriented. **Input:** Input is received from and on all Corps civil works programs. **Output:** The 5-year construction program report and reports on all civil works projects are the principal output.

Geographic Relevance: National

Purpose: As a part of the Army Management Information System (AMIS), Corps of Engineers Management Information System (COEMIS) is the standard information system developed by the Corps for use by the engineer divisions and districts. It also satisfies the information reporting needs of the Office of the Chief of Engineers (OCE). The system maintains integrated master files for each district and supports the functional areas of controller, personnel, real estate, and resource allocation/project management for both civil works and military construction activities. To facilitate support activities COEMIS contains four primary subsystems: 1) Finance and Accounting (F and A) Subsystem--maintains all formal district-level accounting records to include civil, military, and revolving fund accounts; furnishes financial reports to OCE, and provides financial data for use in other COEMIS subsystems through interface. 2) Personnel Administration (PA)--produces personnel documents, suspense listings, statistics and reports required for local civilian personnel management functions; provides input to other Department of the Army automated systems; and provides personnel data for use in other COEMIS subsystems through interface. 3) Resource Allocation/Project Management (RA/PM) Subsystem--using information available through interface with the integrated data base of the PA and F and A Subsystems, furnishes managers at all levels timely information on resources (time, money, and manpower) to enhance their capability to plan, program, and budget for current and future requirements. 4) Real Estate (RE) Subsystem--proposed to provide an information storage and retrieval capability to support activities for the acquisition, management, and disposal of real properties; to provide input on existing facilities to the Integrated Facilities System through interface; and to maintain inventory records in an automated mode to fulfill reporting requirements. **Input:** Input is comprised of financial, personnel and inventory data and information available through interface with data bases. **Output:** Principal output is district and project level financial data and reports, personnel statistics, resource and budget data, and real property records and data.

Geographic Relevance: International/Foreign; National; State; County

Purpose: This system provides the Secretary of Defense with information required for his annual report to the Congress and the President on real and personal property. Similar information is produced by the Navy and Air Force and, when combined with the Army summaries, describes the total Department of Defense real property condition. The user of this system is the Real Estate Office at the Office of the Chief of Engineers. This system is updated annually and covers world-wide cost and rental of Army real property (military and civil). **Input:** The input for this system is internal data generated from the Army Military Real Property Inventory and Civil Works Real Property Inventory report. Major categories of input reflect cost, rental, and acreage. **Output:** The annually prepared Dawson Report consists of the following 16 tables of real property data: cost and rental of military real property controlled; acreage of military real property controlled and located at installations; cost to the U.S. government of land controlled; cost and rentals of military real property controlled, U.S.; acreage of military real property controlled at installations, U.S.; military real property controlled at installations, by States; listing of public domain lands, military; listing of public domain lands, civil; listing of donated lands, military; listing of donated lands, civil; military real property controlled at

installations in possessions, territories, and Commonwealth of Puerto Rico; military real property controlled at installations in foreign countries; 15 largest categories of military real property controlled; cost to the U.S. government controlled by facility class; military construction progress; and civil works property. The system does not have query capability.

Geographic Relevance: International/Foreign; National; State; County; Installations

Purpose: The system provides data on the location, type, size, and cost of individual items of real property at all Army installations in the United States and overseas. The data is used to compile and publish the annual inventory summary required by Department of Defense and supply information to offices of the Department of Defense, Congressional committees, General Services Administration, and other interested government agencies. The system provides data on the location, type, size, and cost of individual items of real property at all Army installations in the United States and overseas. Information is updated quarterly. Building information available from this system includes the following types of data on buildings at Army installations in the United States: information available, the current and recommended use, the estimated cost, and the type of material comprising the foundation, structure, roof. **Input:** Data input for this internal system are received from Army installations, commands, and activities, including the Army National Guard and Army Reserve, having accountability for or occupancy of Army real property. Data are also received through interface with the Integrated Facilities System from those Army installations that have been converted to that System. The major categories of input data are the designed use, the size, and the cost of each item of real property. **Output:** The principal reports produced by this system include the installation inventory of Army military real property, produced quarterly on computer-output-microfiche; Installation Summary (annual publication); overseas leaseholdings, produced semiannually; GSA report of federal real property, produced annually; report on real and personal property, produced annually; building information schedule, produced quarterly; replacement cost report, produced annually; chapels report, produced semiannually; welfare and morale report, produced annually; Army Exchange report, produced annually; and tactical facilities, produced semiannually; military real property schedule categories, produced quarterly; army installations comprising 50 areas, produced annually; 25 largest army installations measured cost, produced annually; statement of financial condition, produced annually; total military deficiency, produced annually. All these reports are in hardcopy form, with the exception of the annual publication which is reproduced from hardcopy. The system has no query capability.

Purpose: The system provides detailed and summary data on applicants at federal and federally-assisted projects who have requested reimbursement of relocation expenses incurred as a result of government acquisition of their property. Data from this system is used by Real Estate for preparing required reports to the Office of Management and Budget. Users of this system include Real Estate offices of the Corps of Engineers. Information for this system is updated quarterly and covers relocation assistance claims and payments made by the Corps of Engineers within the United States, including eligibility of applicant, moving and related expenses, property cost, type of dwelling payments made, administrative cost, and site of proposed relocation. Also included are the kind of property to be relocated, reimbursement claims, and appeal data if the determination is that the applicant is "ineligible" for benefits under Title II of Public Law 91-646. The following information is contained in the system: name of applicant, address from and to which moved, date of acquisition, eligibility information, and amounts claimed and paid. **Input:** Information is supplied from internal and external sources. Information is provided by applicants who qualify for benefits under the Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970. Data is supplied to the system from all Division and District Engineers having real estate responsibility. **Output:** Outputs of this system are computer listings and include the following reports: booklet sheets for every applicant (paper and microfilm), produced quarterly; relocation claims and payments, produced quarterly; relocation payments made during the fiscal year, prepared annually, claimants displaced during the fiscal year by age group, produced annually; people displaced in the fiscal year, produced annually; replacement housing payment in the fiscal year, produced annually; rent payments in the fiscal year, produced annually; down payments in the fiscal year, produced annually; relocation program index, produced quarterly; installation project listing, produced quarterly; district summary of payment made during the fiscal year, produced annually; and summary of relocation claims and payments, produced annually. The system has no query capability.

Sensitive Wildlife Information System.

OMB Funding Code/Title: 96-3121-0-1-301 / General investigations

Program: Collection and Study of Basic Data

Congressional Relevance: House Committee on Merchant Marine and Fisheries; House Committee on Public Works and Transportation; Senate Committee on Environment and Public Works; House Appropriations Committee: Energy and Water Development Subcommittee; Senate Appropriations Committee: Energy and Water Development Subcommittee

Authority: Fish and Wildlife Coordination Act (P.L. 85-624). Act of June 25, 1910 (P.L. 61-264).

Geographic Relevance: National; State; County

Purpose: This system provides authoritative information on selected plants and animals in a narrative format. Selection of species is based on federal agency requirements for dissemination of information, particularly endangered species information. Anyone with a teletype can gain access to the system on the verbal authorization of any of the sponsoring federal agencies. The system contains information in a narrative format on habits and habitat requirements of selected species. The system was the basis of a 1976 agreement among several federal agencies to

coordinate some features of plant and animal species data collection and distribution activities. Information is arranged by State or U.S. territory, and for each species the recorded information includes: the degree of protection and welfare benefits accorded the species under federal and state or territorial law; its geographic distribution, including a distribution map that is plotted automatically when requested by the user; the known behavioral characteristics and habitat requirements that relate particularly to its adaptability to structural changes in its environment, its population structure and trends; and a list of information source documents (reference bibliography). The information system contents are accessible to authorized users through a user-operated computer retrieval program named "SPECINFO," which is readily available for use by anyone in the U.S. with access to a teletype with audio-coupler. The retrieval program is written in conversational mode so that only a modest acquaintance with computer techniques is required for its operation. Instructions for accessing the WES computer and starting operation of SPECINFO are available on request. **Input:** Input data are derived from Waterways Experiment Station (WES) review of state legislation and available technical and scientific species information, and provided by the Fish and Wildlife Service, Forest Service, Soil Conservation Service, and Federal Highway Administration. **Output:** The system is designed for user access and operation. Reports are produced on the user's teletype. Computer graphics generated by the user at the computer are mailed to the user.

Geographic Relevance: National; State; County

Purpose: The system reports progress in disposing of inactive, excess, and surplus real property at military installations (Army and Air Force), civil works projects, Department of Energy and National Aeronautics and Space Administration installations, and installations of other federal agencies for which the Corps of Engineers acts as real estate agent. The users of this system are real estate offices of the Corps of Engineers. Information for the system is updated quarterly and reflects data on real property disposed of, or to be disposed of, by means of sale, reported excess to General Services Administration for disposal, transferred to the agency from which originally acquired, transferred to another agency, and on termination of easements, license, permits, or leasehold interests in land. The following information is contained in the system: name of the installation, acreage of the installation, date of excess, authorities, the acreage to be disposed of, the method of disposal, date reported for disposal, and the date of disposal. **Input:** Information for this system is internal and submitted by those Division and District Engineers having real estate responsibility. **Output:** Principal outputs of the system are in the form of computer listings and include semiannual progress reports on real property disposals completed during the fiscal year. The system has no query capability.

Availability: Internal Use Only

Geographic Relevance: National; State; County

Purpose: The Military Construction--Army (MCA) Five Year Defense Program (FYDP) System provides: a centralized collection of major command and installation requests for new facilities; a centralized point for recompilation of FYDP budget submissions; an after funding authorization coordinated point of departure for Corps program design and construction execution; and a continuing management bridge alignment tool for future year programs and projects unfunded in current budget year. The MCA FYDP System contains data concerning project location, relevant year of request, funding classification, priorities, facility type, project description, project estimate, public law codes, project unit of measure, number of units requested, States of the United States, authorization total, appropriation total, and final fiscal cost. Machine readable cards are submitted annually from all Army Installations world-wide that required new facilities. **Input:** Input to the MCA FYDP System is created by individual Army Military Installations, submitted thru commands, when requesting the design and construction of new facilities. Machine-readable cards accompany installation requests for new facilities. The cards are processed in support of budget accumulation procedures. **Output:** The following major reports are created in hardcopy: design annex; execution annex; command priorities; station listings; construction category; future years; program element; construction type; funded report; program analysis by DOD/Grouping; listing by States of the United States; fiscal status; and history files. Query capabilities do not exist due to equipment limitations.

Geographic Relevance: National, State, County

Purpose: The system provides data on real property acquisitions by the Corps of Engineers on behalf of the Army, Air Force, and federal agencies, as assigned. The data reflect current and progress-to-date accomplishments. Users of the system are Real Estate offices of the Corps of Engineers. This system provides for the quarterly reporting on methods of acquisition and types of land in the United States and its possessions acquired by the Corps of Engineers for the Departments of the Army (Military and Civil Works) and Air Force, Department of Energy, National Aeronautics and Space Administration, and other federal agencies as assigned. The following types of land and methods of acquisition are reportable: fee simple title by purchase, condemnation, donation, exchange, relocation contract, and vacation proceedings; federally owned lands; easements, regardless of consideration paid or length of term acquired; licenses and other lesser interest, including permits and other use privileges acquired from States, counties, and other political subdivisions, as well as from private landowners; and leaseholds of land areas by negotiation, condemnation proceedings, or transfer from other federal agencies. For the above types of land acquisition transactions, the system reflects the following information: name of the installation or project, State location, acquisition directive number and date, the type of land, the method of acquisition, number of tracts and acres, option price, deposit or deficiency award, and the Corps office responsible for the acquisition. **Input:** The Chief of Engineers acquires information by internal means through the Divisions from the District offices. The major categories of input data include types of interest acquired, methods of acquisition, number of tracts, and acres acquired and cost thereof. **Output:** The outputs of this system include the following computer listing reports: acquisition detail listing, produced quarterly; acquisition progress report, produced quarterly; summary of land acquisition during the fiscal year, produced annually; and acquisition accomplishments by State for the fiscal year, produced annually. The reports are in hardcopy form. The system has no query capability.

Authority: Military Construction Authorization Act of 1976 (P.L. 94-107). Act of August 10, 1956, as amended (P.L. 84-1028). Act of September 2, 1958 (P.L. 85-861).

Availability: Agency

Geographic Relevance: National, State, County

Purpose: The Automated Military Construction Progress Reporting System, referred to as AMPRS, provides: 1) a common, Corps-wide design and construction progress reporting system for military projects; 2) direct access to automated financial data; 3) reports for District, Division, OCE, and major Army Commands; 4) centralized maintenance of ADP programs; 5) flexibility in data storage and input report creation; and 6) expandability for inclusion of other programs. AMPRS is a District-oriented management tool, and as such, provides primary

support to military project managers in the Project Management and the Planning and Reports Branches of Engineering and Construction Divisions, respectively of local Corps District Offices. AMPRS contains data which allows monitoring of a project from its inception of concept design through construction completion. Approximately 340 data elements can be included for project monitoring. However, many of these are optional, while others are computed automatically from resident data elements. Approximately 120 data elements must be input by users. However, many of these are included only at the initiation of the project and do not require recurrent updating. AMPRS contains data which relates primarily to: financial status, dates, relevant organizations and locations, contractors, physical progress, construction modifications, work placement estimates, funding classifications, and schedules. **Input:** Data concerning the progress of Engineering and Design, or the Construction Progress is reported by those most closely associated with the project. **Output:** Principal reports produced by the system include the OCE Construction Progress Report, which is in machine-readable form, and the Air Force Status of Design Worksheet, a hardcopy production, both produced monthly. Hardcopy reports produced on an as needed basis include: Division Design Report; Division Construction Report; Contract Modifications and Pending Items Reports, District Exception Reports; and many others.

Program: Homeowners Assistance Programs

Congressional Relevance: House Committee on Armed Services; Senate Committee on Armed Services; House Appropriations Committee; Military Construction Subcommittee; Senate Appropriations Committee; Military Construction Subcommittee

Authority: Demonstration Cities and Metropolitan Development Act of 1966 (P.L. 89-754).

Geographic Relevance: National; State; County; District

Purpose: This system provides a running report on the status of individual applications for assistance from eligible military and civilian homeowners in localities where DOD base closures will affect the market values of their property. Data from this system are used by real estate offices of the Corps of Engineers for preparing required reports to the Office of Management and Budget. Information for this system is updated quarterly and reflects the dates that reportable actions occurred on each applicant's request for assistance. The following information is contained in the system: name and location of the installation; name and address of the applicant; date of the application; eligibility information; dates of title evidence and Attorney General opinions; appraisal values; dates of closings; and amounts of payments made. **Input:** Information is supplied from internal and external sources. Homeowners submit applications for assistance to Division and District Engineers, and those officials supply data to the system. **Output:** Major outputs of the system are the following quarterly computer listing reports: docket sheets for each applicant (paper and microfilm); index of all applicants; summary of all applications by installation; summary of applications by districts; summary by district of mortgages assumed and settlements; summary by selected installations; summary by selected installations of mortgages assumed and settlements; summary by payments by installations and department; and FHA cases, eligibility appeals, and settlements appeals. The system has no query capability.

S00403-037

Real Estate Outgrants.

OMB Funding Code/Title: 97-4090-0-3-051 / Homeowners assistance fund, Defense

Program: Homeowners Assistance Programs

Congressional Relevance: House Committee on Armed Services; Senate Committee on Armed Services; House Appropriations Committee; HUD-Independent Agencies Subcommittee; Senate Appropriations Committee; HUD-Independent Agencies Subcommittee

Authority: Department of Housing and Urban Development-Independent Agencies Appropriation Act of 1977 (P.L. 94-378).

Availability: Agency; Internal Use Only

Geographic Relevance: National; State; County

Purpose: This system reflects records of outgrants authorizing the use of Army real property by other agencies of the federal government, agencies of State or local governments, and private organizations and individuals within the United States. The users of this system are real estate offices of the Corps of Engineers. System information is updated quarterly and reflects the following types of outgrant actions: 1) leases for agricultural, grazing, industrial, commercial, housing, and other purposes; 2) easements and licenses over lands owned by the government and under the jurisdiction of the granting agency; and 3) permits granted to other federal departments or agencies. The following information is contained in the system: name of installation or project, name of grantee, contract number, type and purposes of outgrant, term of the outgrant, number of acres, rental received, and the Corps office responsible for the outgrant. **Input:** Information is internal and reported through the Division and District Engineers having responsibility for real estate. Major categories of information input include outleases, easements, licenses, and permits. **Output:** Major outputs of the system include the following quarterly computer listings: detailed listings of grants by district, outgrant purpose summary by district and department, and outgrants due to terminate by districts. The Air Force real property grants and the DARCOM real property grants reports are produced semiannually, and the Outgrant Installation Book is produced annually. The system does not have query capability.

Agency Contact: Army. (202) 272-0527.

S00403-038

Lease and Space Allocation System.

OMB Funding Code/Title: 21-2020-0-1-051 / Operation and maintenance, Army

Program: Corps of Engineers Leased Space; GSA Leased Space; Government Owned Buildings

Congressional Relevance: House Committee on Armed Services; Senate Committee on Armed Services; House Appropriations Committee; Defense Subcommittee; Senate Appropriations Committee; Defense Subcommittee

Authority: Act of August 10, 1956, as amended (P.L. 84-1028).

Geographic Relevance: National; State; County

Purpose: The system provides current data on space leased by the Army Corps of Engineers and space provided in government buildings by federal agencies in the United States. The data are required for management purposes and as a source of information in responding to inquiries from Army staff, Department of Defense, and the Congress. Users of the system are real estate offices of the Corps of Engineers. The system is updated each quarter and reflects data on all leasehold interests acquired by the Corps of Engineers and on permits and space allocations covering real property provided by General Services Administration. The following types of leaseholds are reportable: voluntary leases; leasehold condemnation proceedings, with or without declaration of taking; permits from other federal agencies for the use of space in buildings; and permits and other instruments from states, counties, political subdivisions, firms, and individuals. The following information is contained in the system: contract number, address, city and state, lease terms, annual rental rate, lessor's name, type of space, the name of the using agency, and the Corps office responsible for the space. **Input:** Information input for this system is interactive, the Interactive Leasing System (ILS). Submissions are from all Division and District Engineers having real estate responsibility. Input reflects data on real estate leases, space allocations in federal buildings, and estimated savings space. **Output:** Major outputs of this system include the following quarterly computer listings: District Detail Report and Summaries; Air Force Leases and Rent Free Allocations; \$5,000 to \$50,000 Report of New and Renewed Leases; DOD Recruiting Facilities Detail List and Directory; and 18-Month Lease Expiration Report with Rental over \$30,000, Leases Not All or Part of an Installation; Location of New Federal Offices and Other Facilities; and GSA Report of Leased Real Property. The system does have query capability.

S00403-039

Armed Forces Institute of Pathology (AFIP) Data Base.

OMB Funding Code/Title: 21-2020-0-1-051 / Operation and maintenance, Army

Program: Operation and Maintenance, Army (All Programs)
Congressional Relevance: *House Committee on Armed Services; Senate Committee on Armed Services; House Appropriations Committee; Defense Subcommittee; Senate Appropriations Committee; Defense Subcommittee*

Authority: Act of August 10, 1956, as amended (P.L. 84-1028).

Availability: Agency

Geographic Relevance: International/Foreign

Purpose: This system provides the means of indexing and managing pathology cases referred to the Armed Forces Institute of Pathology (AFIP) for consultation, education, and research. Two systems function within this data base. The Standard Nomenclature of Disease and Operations (SNDO) system provides the means for processing the data base of those cases abstracted prior to 1970. The Pathology Natural Language Retrieval System (PANLARS) processes cases abstracted since 1970 and provides more comprehensive diagnoses and uses an updated system of diagnostic codes. Both systems contain demographic data, diagnostic data, and diagnostic codes for each case. Updates to the PANLARS data base are performed twice each month with about 4,000 cases added each month. The system provides a method for the rapid retrieval of data on specific categories of cases to support the consultation, education, and research missions of the Institute of Pathology. Cases may be retrieved on any logical combination of words in the diagnosis, demographic information, and diagnostic code. **Input:** Data for the system are derived from pathology case folders. Demographic, clinical, and diagnostic information is provided by the contributor. The consulting AFIP pathologist also provides diagnostic information. **Output:** Principal products of the system are hardcopy listings and/or microfiche of selected categories of cases and statistical tabulations. Retrievals are provided on an as-required basis and generally contain thousands of cases and consultations each. Between 150 and 350 retrievals are provided each month.

Agency Contact: Army. (202) 576-2836.

S00403-040

Automated Integrated Microfilm System (AIMS).

OMB Funding Code/Title: 21-2035-0-1-051 / Other procurement, Army Program; Procurement, Army (Other-All Programs)

Congressional Relevance: *House Committee on Armed Services; Senate Committee on Armed Services; House Appropriations Committee; Defense Subcommittee; Senate Appropriations Committee; Defense Subcommittee*

Authority: Department of Defense Appropriation Authorization Act of 1979 (P.L. 94-485).

Availability: Internal Use Only

Purpose: This system is an automated storage and retrieval and dissemination system for technical data and information, commodity command management information system data, and other related documents. The system is oriented to identify each document with its weapon systems and to trace its use in technical data procurement packages. The system supplies data to support U.S. Army aviation activities worldwide and is part of the Department of Defense (DOD) Data Exchange Program. The data are maintained in microfilm aperture cards or tab-cards size microfiche. **Input:** Contractors and in-house design engineers provide the information used in this system. **Output:** The system produces copies of microfilm duplicated on roll microfilm, aperture cards, or microfiche, or as production of COM cartridges for distribution in-house and to remote sites for use as stand-alone files, as a support service for inspecting and testing of products or modification of design or for reproducing technical data packages for use by DOD procurement activities.

S00403-041

Chemical/Biological Information System.

OMB Funding Code/Title: 21-2040-0-1-051 / Research, development, test, and evaluation, Army

Program: Research, Development, Test, and Evaluation, Army (All Programs)

Congressional Relevance: *House Committee on Armed Services; Senate Committee on Armed Services; House Appropriations Committee;*

Defense Subcommittee; Senate Appropriations Committee; Defense Subcommittee

Authority: Department of Defense Appropriation Authorization Act of 1977 (P.L. 94-361) Act of August 10, 1956, as amended (P.L. 84-1028).

Availability: Internal Use Only

Purpose: This system consists of integrated chemical, biological, and inventory subsystems and files containing data acquired in and used to guide the Army Medical Department Drug Development Program. Investigators in the program use the system to retrieve specific and general data about compounds for use in structure-activity studies, as a guide for chemical synthesis, as a guide for selection for screening, and to compare various candidate compounds. The current data base includes over 200,000 chemical structures, about 440,000 physical samples, and over 1 million biological records. The chemical file is updated weekly. The inventory subsystem is updated every third working day and produces both inventory records and shipping documents. Biology transaction processing occurs as data are received (between three and five groups per month), and master file updates are scheduled biannually. **Input:** Chemical data are furnished by suppliers and samples for drug screening. Inventory data are received from suppliers and internal shipping requests. Biological data consist of screening results received from internal and external contract screeners. **Output:** The chemical subsystem produces file management reports weekly and structural data from identity and substructure queries on demand. Full inventory reports are produced monthly. Biology transaction reports are produced as the data are received, and full reports are produced bimonthly. Integrated reports from all three subsystems are produced on demand.

Agency Contact: Army. (301) 427-5422.

S00403-043

Computerized Data Base Containing Data on Compatibility of Polymers and Explosives: Product of PLASTECH (COMPAT).

OMB Funding Code/Title: 21-2040-0-1-051 / Research, development, test, and evaluation, Army

Program: Technology Base

Congressional Relevance: *House Committee on Armed Services; Senate Committee on Armed Services; House Appropriations Committee; Defense Subcommittee; Senate Appropriations Committee; Defense Subcommittee*

Authority: Department of Defense Appropriation Authorization Act of 1979 (P.L. 95-485).

Availability: Agency

Geographic Relevance: National

Purpose: COMPAT is a computerized data base containing technical data on the compatibility of polymers and metals and explosives, propellants, and pyrotechnics. This system is used by Army, Navy, Air Force, and government contractor engineers engaged in designing military weaponry. **Input:** Inputs for the system are obtained by abstracting government and industry technical reports and engineering tests. **Output:** Hardcopy documents are produced from storage discs or video displays on remote terminals.

Agency Contact: Army. (703) 274-8949.

S00403-044

Computer-Aided Environmental Legislative Data System (CELEDS).

OMB Funding Code/Title: 21-2040-0-1-051 / Research, development, test, and evaluation, Army

Program: Technology Base

Congressional Relevance: *House Committee on Armed Services; Senate Committee on Armed Services; House Appropriations Committee; Defense Subcommittee; Senate Appropriations Committee; Defense Subcommittee*

Authority: Department of Defense Appropriation Authorization Act of 1979 (P.L. 95-485).

Availability: Agency

Geographic Relevance: National; State

Purpose: This system is a subsystem of the Environmental Technical Information System (ETIS) which summarizes information abstracted from federal and State environmental legislation. The system was developed for query usage by planners and engineers and produces abstracts of laws in straightforward, narrative style with all legal jargon and excessive verbiage removed. The abstracts are not intended to replace the

Construction Engineering Laboratory. **Output:** A terminal listing of the legislation that applies to the query input criteria is produced. The user may then obtain an abstract of any specific laws within that listing.

Agency Contact: Army. (202) 695-8064.

S00404-001

Government-Industry Data Exchange Program (GIDEP).

02/80

OMB Funding Code/Title: 17-1804-0-1-051 / Operation and maintenance, Navy

Program: Intelligence and Communications

Congressional Relevance: House Committee on Armed Services; Senate Committee on Armed Services; House Appropriations Committee; Defense Subcommittee; Senate Appropriations Committee; Defense Subcommittee

Authority: Act of August 10, 1956, as amended (P.L. 84-1048; 70 Stat. 277; 10 U.S.C. 5012).

Availability: Agency

Purpose: Participants in the Government-Industry Data Exchange Program (GIDEP) are provided access to four major data banks: (1) the Engineering Data Bank, which contains engineering evaluation and qualification test reports, nonstandard parts justification data, parts/materials specifications, manufacturing processes, failure analysis data, and other related engineering data on parts, components, materials, and processes; (2) the Reliability Maintainability Data Bank, which contains failure rate/mode data on parts and components based on field performance information and reliability demonstration tests on operational system and equipment; (3) the Metrology Data Bank, which contains test equipment calibration procedures and related metrology engineering data on test systems, calibration systems, and measurement technology; and (4) the Failure Experience Data Bank, which contains GIDEP ALERTs, consisting of objective failure information generated wherever significant problems are identified on parts and materials. **Input:** Information originates with government and industry members.

Federal Information Systems and Sources

Navy Industrial Fund Accounting (NIF). (III-B).

OMB Funding Code/Title: 17-4912-0-4-051 / Navy industrial fund

Program: Navy Industrial Fund (All Programs)

Congressional Relevance: House Committee on Armed Services; Senate Committee on Armed Services; House Appropriations Committee; Defense Subcommittee; Senate Appropriations Committee; Defense Subcommittee

Authority: Act of September 7, 1962 (P.L. 87-651; 10 U.S.C. 2208)

Availability: Agency

Geographic Relevance: National

Purpose: This system comprises both manual and automated systems which perform the accounting for revolving funds established to provide working capital for the operation of industrial type activities. The functions include: double entry method for classifying and recording transactions to subsidiary and General ledgers; accumulation of direct and indirect costs on an accrual basis; distribution of overhead costs to recover all costs of operation; and production of reports concerning the financial condition of the activity at the close of any accounting period. The system stores and updates daily the job cost records for each direct and general and administrative overhead job order and/or customer account. These records include amounts authorized for each job, accrued direct and indirect expenditures by element of expenses, and by general ledger accounts. The system generates statements of financial conditions and operating results, billing support listings, and various cost analysis reports for such operations as transportation, utilities, shipbuilding conversion, overhaul and repair, aircraft overhaul and repair, research and development, and ammunition breakdown and processing. These reports are generated for local management and for submission to higher authority. **Input:** Navy Industrial Fund (NIF) activities receive requests for performance of work or services which are within their mission assignment from various Navy components. Documents encumbering NIF and other statistical and quantitative data are generated internally within NIF activity while evidence of receipt of material or services is received from suppliers or contractors. Disbursements covering these material and services, including payroll changes and collections representing reimbursements to NIF, are received from the Navy regional finance centers. **Output:** Hardcopy output includes cost analysis reports, billing support listings, statement of financial condition and operating results, report on budget execution, and report on reimbursement.

Agency Contact: Navy. (202) 695-4342.

S00404-004

Navy Standard Accounting and Reporting System (STARS). (II-B-3).

OMB Funding Code/Title: 17-1506-0-1-051 / Aircraft procurement, Navy; 17-1507-0-1-051 / Weapons procurement, Navy; 17-1611-0-1-051 / Shipbuilding and conversion, Navy; 17-1810-0-1-051 / Other procurement, Navy

Program: Modification of Aircraft; Aircraft Spares and Repair Parts; Aircraft Support Equipment and Facilities; All Programs; Ship Design, Construction, Acquisition, Conversion, and Related Equipment; All Programs

Congressional Relevance: House Committee on Armed Services; Senate Committee on Armed Services; House Appropriations Committee; Defense Subcommittee; Senate Appropriations Committee; Defense Subcommittee

Authority: Act of August 10, 1956, as amended (P.L. 84-1028).

Availability: Internal Use Only

Purpose: The system records, accumulates, and reports the fiscal status of the various procurement appropriations made available to the Navy. The system contains information relative to the amounts appropriated by the Congress for the procurement of weapons systems and related support equipment such as spare parts. It also contains information concerning the amount of such funds that have been initiated, committed, obligated, or disbursed. This information is identified by appropriation, P.L. budget line item, fiscal year, program year, weapon system, component, and component end-item. The system also identifies the particular organization, such as Chief of Naval Operations and Chief of Naval

Material, having cognizance of the weapon system as well as identifying the program manager, the participating manager(s) responsible for the execution of the various weapon systems and/or program. The system generates monthly and other periodic financial status and analysis reports for local management and higher authorities. Such reports include report on budget status, report on reimbursable transactions by appropriation subdivisions, Budget Activity Trial Balance, and appropriation status by fiscal year program and subaccounts. **Input:** Fund allocation, project directives, commitment, and obligation documents are received from the Chief of Naval Material, Chief of Naval Operations, systems commands, and designated project managers. Field obligations, commitments, and expenditures are received on monthly status of allotments reports covering allotments granted field activities and commands. Summaries, disbursements, and collections applicable to the funds are received monthly from the Navy accounting and finance centers. **Output:** Several hardcopy reports are produced.

Agency Contact: Navy. (202) 695-5516.

S00404-005

Reserve Command Management Information System (RESCOMMIS). (R-10).
1973
OMB Funding Code/Title: 17-1405-0-1-051 / Reserve personnel, Navy; 17-1806-0-1-051 / Operation and maintenance, Navy Reserve
Program: Reserve Component Personnel and Reserve Office Candidates; Reserve Mission Forces; Depot Maintenance; Support (Other)
Congressional Relevance: House Committee on Armed Services; Senate Committee on Armed Services; House Appropriations Committee; Defense Subcommittee, Senate Appropriations Committee; Defense Subcommittee
Authority: Act of August 10, 1956, as amended (P.L. 84-1028).
Availability: Internal Use Only
Purpose: RESCOMMIS is an information system that provides data support in such areas as supply, personnel and finance. It assists the Chief of Naval Reserve in performing his mission to administer to the Naval Reserve program which includes management of all Naval Reserve resources. The consolidated input data are utilized to prepare reports required by higher authority and to provide financial managers and related functional commands with financial data necessary for management of resources. **Input:** Input consists of machine-readable data which updates the data base weekly and monthly. **Output:** Hardcopy reports include performance statements, operating budget/expense report, trial balance report, and budget classification/functional category/expense element report.

Agency Contact: Navy. (504) 948-5323.

S00404-006

Major Command/Fund Management, Naval Supply Systems Command--Stock Fund. (II-A-7).
1965
OMB Funding Code/Title: 17-4911-0-4-051 / Navy stock fund
Program: Retail Commodities, Forms and Printed Matter; Retail Clothing and Subsistence; Ships Store and Commissary Store Stock; Fuel and Related Items; Aviation Consumable Items; Ship Ordnance and Repair Parts
Congressional Relevance: House Committee on Armed Services; Senate Committee on Armed Services; House Appropriations Committee; Defense Subcommittee, Senate Appropriations Committee; Defense Subcommittee
Authority: Act of August 10, 1956, as amended (P.L. 84-1028).
Availability: Internal Use Only
Geographic Relevance: International/Foreign
Purpose: The fund is to finance specified categories of material to support ships, aircraft, personnel, and the shore establishment of the Navy. In addition, material is furnished to other services and other government agencies. The capital of the fund is maintained by receipts of cash or credit from issue of material to consumers, largely Navy appropriations. Although the Navy Stock Fund is a revolving fund, it is subject to the same administrative control for budgeting and accounting as pertains to annual appropriations. **Input:** Input is comprised of data from cash

or credit transactions. **Output:** System output includes: Status of Fund Authorization Navy Stock Fund (monthly); Project Control Ledger Summary (monthly); Reconciliation Report (Expenditure/Collections) (quarterly); Statement of Financial Condition (semiannually); Changes in Capital of the Fund (semiannually); Summary of Cash Sources and Application and Cash Budgets for Permits Indicated (semiannually); Financial Program Objectives (semiannually); Changes in Inventory Statement (semiannually); Inventory Status and Transactions Statement (semiannually); Operating Budget Statement for Navy Stock Fund (semiannually); Reimbursable Issues (semiannually); Monthly Management Report (monthly); Distribution of Trial Inventory by Category (semiannually); Inventory Management Reports of Material Assets (semiannually); Annual Report on Navy Stock Fund (annually); Customer Orders/Sales Computation and Comparison (annually); and Comparison of Sales, Obligations and Expenditures (annually).

Agency Contact: Navy. (202) 697-9320.

S00404-007

Engineering Field Division Management Information System (EFD/MIS) (Part of the Navy Facilities System (NFS)). (Navy System L80).
OMB Funding Code/Title: 17-1205-0-1-051 / Military construction, Navy
Program: Major and Minor Construction, Planning, and Support Activities
Congressional Relevance: House Committee on Armed Services; Senate Committee on Armed Services; House Appropriations Committee; Military Construction Subcommittee; Senate Appropriations Committee; Military Construction Subcommittee
Authority: Act of August 10, 1956, as amended (P.L. 84-1028).
Availability: Agency; Internal Use Only
Geographic Relevance: International/Foreign; National, State; Congressional District; County
Purpose: This financial management system is designed to perform a full range of accounting, disbursing, and information processing functions which provide accurate and timely information at levels of detail required by each echelon of management. MILCON information is provided not only to Navy but to other DOD and federal government agencies who receive MILCON support from the Navy. The financial system uses IDA (MILCON) and operates from a single data base that supports the accounting and disbursing requirements for Military Construction, Resources Management System (RMS), Allotments, Reimbursables, and Memorandum Records for contractual procurement. The system includes financial management (budget, accounting, disbursing, and resource management) and facilities acquisition (design, construction and program management). This system is totally interfaced with the Navy Facilities System and processed at a single computer center (FACSO), Facilities Systems Office, with data communication links between the various EFDs, FACSO and Headquarters (NAVFAC). The NFS is composed of automated data systems that are organized to provide an interfaced data base for all aspects of the facilities business. **Input:** Input data are generated by funding and tasking forces, operating personnel at the EFD and subordinate levels, and other commands and activities, such as other EFD's, activities requesting services, and the other parts of the Navy Facilities System (NFS) which share a common data base. **Output:** The system provides on-line inquiry and remote batch processing capability for NAVFAC's six EFD's and two DOD's via Cathode Ray Tube (CRT) and Remote Job Entry (RJE) terminals. Hard copy reports, lists, ledgers, etc. are provided at design frequencies on the status of Military Construction design, construction and funding.

S00404-008

Marine Corps Headquarters--Financial Integrated Management Information System (FIMIS). (II-A-8).
OMB Funding Code/Title: 17-1106-0-1-051 / Operation and maintenance, Marine Corps
Program: Administration and Associated Activities
Congressional Relevance: House Committee on Armed Services; Senate Committee on Armed Services; House Appropriations Committee; Defense Subcommittee, Senate Appropriations Committee; Defense Subcommittee
Authority: Act of August 10, 1956, as amended (P.L. 84-1028).

Availability: Internal Use Only

Purpose: The Financial Integrated Management Information System (FIMIS) system is the accounting process used to perform the medium level accounting for all headquarters held funds and merging headquarters and field activity transactions. The system provides data for accounting and budgeting report requirements. **Input:** Subhead, Allotment/Operating Budget, Budget Project, Fund Administrator/Spansor, Budget Classification/Functional Category/Expense Element, and Functional Account Number. The double entry method of accounting is utilized to record transactions in subsidiary and general ledger accounts. The accounts and records are designed to provide internal fund control and management reports and all external reports to higher authority. The system consolidates data for all Marine Corps appropriations and funds worldwide on a monthly update basis. The system produces status of funds, budgetary reports, and cost reports required by higher authority. Internal Marine Corps data requirements are also produced by the system. **Output:** Sources of input are headquarters, Marine Corps reports for HQD Held Funds; Marine Corps Field Activity Reports on Status of Funds; Navy Finance Network (CERFS); Expenditure/Collection Data, Department of the Treasury--Treasury Warrants; Comptroller of the Navy--Allocations and Appropriations; Department of Defense--Authorizations for Marine Corps Portion of DOD Funds (Family Housing-Retired Pay-Claims); Office of Naval Research--Marine Corps Portion of RDT and E.N Appropriation. **Output:** Principal output includes: Report on budget execution (monthly, hardcopy); appropriation status by fiscal year program and subelements (monthly, hardcopy); report on reimbursements (monthly, hardcopy); and statement of unexpended balances of appropriations and funds (Treasury) annual certification (hardcopy). The Headquarters, Marine Corps Central Data Bank has the capability of providing selective data requested.

S00404-009

Major Command/Field Management, Office of Naval Research--Research, Development, Test, and Evaluation. (II-A-5).

OMB Funding Code/Title: 17-1319-0-1-051 / Research, development, test, and evaluation, Navy

Program: Research, Development, Test, and Evaluation, Navy (All Programs)

Congressional Relevance: House Committee on Armed Services; Senate Committee on Armed Services; House Appropriations Committee; Defense Subcommittee; Senate Appropriations Committee; Defense Subcommittee

Authority: Act of August 10, 1956, as amended (P.L. 84-1028)

Availability: Agency

Purpose: The accounting system provides accounts, records, and procedures for recording transactions and is designed to include accounting and budgeting controls for the Research, Development, Test, and Evaluation appropriation. The accounts and records are designed to provide financial and cost information required by internal management and higher authority. Information is identified to appropriation program year, research category, budget activity, program element, and project level. Specific information includes budget and accounting data for direct and reimbursable program by general ledger. Primary classifications of data include base for reprogramming and reprogramming limits, deferrals, allocations/adjustments, commitments, obligations, accrued expenditures, disbursements, statistical costs, and cumulative monthly information from beginning of program year. **Input:** Information is received from field activities and is summarized with departmentally administered programs by program element, project, budget activity, and research category. Information is provided by General Ledger Accounts used in the Resources Management System for RDT and E.N. **Output:** The system generates Status of Budget Execution--report of reimbursable transactions by source--and various internal management reports--used for appropriation control and program/budget execution.

Manpower, Personnel, and Training Information System (MAPTIS). (P-30).

OMB Funding Code/Title: 17-1453-0-1-051 / Military personnel, Navy; 17-1405-0-1-051 / Reserve personnel, Navy; 17-1804-0-1-051 / Operation

and maintenance, Navy

Program: Administration, Reserve Component Personnel Administration

Congressional Relevance: House Committee on Armed Services; Senate Committee on Armed Services; House Appropriations Committee; Defense Subcommittee; Senate Appropriations Committee; Defense Subcommittee

Authority: Armed Forces Enlisted Personnel Bonus Revision Act of 1974 (P.L. 93-277); Armed Forces Special Pay-Medical Officers Act (P.L. 93-274)

Availability: Internal Use Only

Purpose: MAPTIS is the information system which provides military personnel response accounting for active duty and reserve Navy components. The system is the central source of personnel records and provides information used by personnel managers at all levels in the Navy. MAPTIS is composed of two primary programs - MIS and DSS. The MP&T users of MAPTIS interface with MAPTIS through one or both of these two programs. The MIS program collects, maintains and disseminates factual information about manpower and personnel. The DSS program develops personnel models which offer MP&T managers alternatives to consider as part of the MP&T decision making process. The factual data collected and maintained by MIS is the basis for the predictive and modeling programs developed by DSS. **Input:** The data contained in the master files for this system is derived from enlisted and officer personnel forms and billet information from organizational activities. **Output:** Reports are produced from each update for individual accounts. Outputs include reports of enlisted and officer personnel, accounting data that are used for verification of records, and distribution of personnel. Extracted data form the data bases for personnel planning systems (NAMPS) and for personnel force projections (ADSTAP)

Authority: Act of August 10, 1956, as amended (P.L. 84-1028).

Availability: Agency

Geographic Relevance: International/Foreign; National; State; Community; City

Purpose: The system was established centrally to maintain personnel information on all employees for the Department of the Navy. It meets the requirement of providing information to the Central Personnel Data File and, in turn, the Federal Personnel Management Information System. Information contained in the files include employee name, birth date, social security number, veteran preference, service completion date, insurance and retirement, grade, position title, salary, and effective date of last personnel action. As this data is entered into the system through tape, cards--Anodin, and Key punch forms, it is edited. At that time information about activity and geographic location is related. **Input:** The data contained in the master file for this system are derived from employee standard personnel forms such as Notification of Personnel Action (SF-50) and Payroll Change Slip (SI-1126). **Output:** The frequency of system output is predominantly monthly, but ad hoc reports are produced as needed by using various generalized retrieval and

print programs. Outputs include extract tapes for the Civil Service Commission, Defense Manpower Data Center, and Navy Manpower and Material Analysis Center. Pacific, reports of employee data by activity and type of appointment, and employee statistics by State, county, and city.

Advancement, Strength and Training Planning (ADSTAP). (P-40).

OMB Funding Code/Title: 17-1453-0-1-051 / Military personnel, Navy;

17-1804-0-1-051 / Operation and maintenance, Navy

Program: Administration

Congressional Relevance: House Committee on Armed Services; Senate Committee on Armed Services; House Appropriations Committee; Defense Subcommittee; Senate Appropriations Committee; Defense Subcommittee

Authority: Department of Defense Appropriation Authorization Act of 1976 (P.L. 94-106). Armed Forces-Special Pay-Medical Officers Act (P.L. 93-274). Armed Forces Enlisted Personnel Bonus Revision Act of 1974 (P.L. 93-277).

Availability: Internal Use Only

Purpose: The ADSTAP system supports a wide variety of functions essential to personnel management, such as inventory projections, accession planning, advancement planning, training planning, and costing. Modeling tools have been and are being developed for Navy personnel managers to determine which mix of policies achieves a balanced "total force" under such constraints as personnel requirements, the needs of the individual, the needs of Navy, budgetary shortages, personnel shortages, and legislative policies. The goal of the ADSTAP system is to optimize the Navy's scarce resource allocation decisions in a very dynamic environment, cutting across the spectrum of planning and programming of Navy personnel and the budgeting and execution of personnel resource policy. ADSTAP maintains scenario data, which include parameters describing force profiles, and personnel characteristics, that are used on an iterative basis in support of repeated model execution and relies upon processed input data from other system sources. **Input:** Since ADSTAP is essentially a composite of modeling tools used in support of active enlisted and officer personnel planning actions, it relies almost exclusively on input data from operational system supporting the day-to-day personnel administrative support functions, primarily the Manpower, Personnel, and Training Information System (MAPTIS). ADSTAP receives enlisted and officer personnel requirements and billet data from MAPTIS, constraint parameters from law, DOD and CNO (OP-01) used to execute the models and special parameters used to support demand analyses of model support studies. The system is being modified to include reserves and civilian capabilities. **Output:** The principal categories of output from these systems are: physical planning and programming support reports; management and operational planning of advance recruit trainings; optimal force composition reports; and special on-demand analyses in these areas. The reports are usually flat paper written reports supported by model-generated analytical output. Model results can be displayed on CRT terminal devices in support of demand responsive analyses.

S00404-015

Navy Manpower Planning System (NAMPS). (P-40).

OMB Funding Code/Title: 17-1453-0-1-051 / Military personnel, Navy;

17-1804-0-1-051 / Operation and maintenance, Navy

Program: Administration

Congressional Relevance: House Committee on Armed Services; Senate Committee on Armed Services; House Appropriations Committee; Defense Subcommittee; Senate Appropriations Committee; Defense Subcommittee

Authority: Department of Defense Appropriation Authorization Act of 1976 (P.L. 94-106). Armed Forces-Special Pay-Medical Officers Act (P.L. 93-274). Armed Forces Enlisted Personnel Bonus Revision Act of 1974 (P.L. 93-277).

Availability: Internal Use Only

Purpose: The objective of the Navy Manpower Planning System (NAMPS) is to provide comprehensive human resources management

information support to Navy decision makers. The scope of its support includes storage, retrieval, processing, analysis, and modeling of information and display of results. The span of support extends from long range national planning functions up to and including the resource management and execution phases. NAMPS is currently supported by various, dispersed information sources. NAMPS uses these information sources, upgrades them as required, builds interim data sets, and provides finished decision support information. Major types of information used and/or maintained are: personnel skill attributes data (e.g. occupation, ratings, paygrade, billet title); workload/watch bill data; productivity models and algorithms; organizational component data; and operational/mission demand or readiness data. **Input:** NAMPS receives its military billet data from Navy personnel offices; personnel requirements from the Five Year Defense Plan (FYDP) data base; and its documented unconstrained personnel requirements from the Navy Manpower Requirements System (NMRS) data base. Another major data input to the system is in the form of sponsor-generated increments/decrements which are being entered via the Manpower Data Collection Forms. **Output:** The principal outputs of the systems are: unconstrained personnel requirements documents for ship (SHMD's), squadron (SQMD's), and shore (SMD's) activities and decision support displays resulting in the execution of various personnel allocation modeling capabilities as part of the Personnel Planning, Programming, Budgeting System (PPBS). The major output for the personnel requirements documents is microfiche with a hardcopy capability. The media used for decision support displays hard copy on a demand response basis.

Authority: Department of Defense Appropriation Authorization Act of 1976 (P.L. 94-106). Armed Forces-Special Pay-Medical Officers Act (P.L. 93-274). Armed Forces Enlisted Personnel Bonus Revision Act of 1974 (P.L. 93-277).

Availability: Agency

Geographic Relevance: International/Foreign; National; State

Purpose: The system was established to centrally compute pay for members of the active Navy, allotments for Navy dependents, and withhold federal and State taxes. The major functions are to: validate input data; add new accounts to the master files; update files with changes; create exception and error lists; produce various disbursement/fiscal records; and produce military pay and allotment checks. Information contained in the files include identification data, active history, leave data, reenlistment bonus/COPAY data, and allotment deductions. Specific elements of data are: Social Security number, grade, entitlements, allotments, income, state and federal tax codes, and unit locations of members in the U. S. Navy. The Personnel Management Information System (Personnel) automatically feeds the JUMPS system with data to create a Master Military Pay Account. Update data such as promotions, assignment to sea duty, and flight day allotments are effected by Optical Character Recognition documents. **Input:** The data contained in the master file for this system are derived from pay and personnel forms. **Output:** The frequency of system output is monthly and annually and includes the following: Payment Master Record; Treasury Payment File; Payment Reference Listings; Allotment Payments; and Tax Withholding and Reporting.

Availability: Agency

Geographic Relevance: International/Foreign; National

Purpose: The Naval Safety Center was established in May of 1968 by consolidation of resources of the Aviation and Submarine Safety Centers and with expanded responsibilities for ships and shore activity safety matters. The major functions of the system are to collect and evaluate data, maintain a repository for accident and safety reports, and publish statistical data concerning various types of accidents. The master files contain updated data on all Navy and Marine Aircraft, ship, submarine, and shore facility accidents, injury, and exposure inspection/safety reports, as well as flight activity, steaming hours reports, and other pertinent operational activity data to enable identification of situations where accident reduction may be possible. The files are used to compile reports regarding safety analysis for the Navy Department and others. The data are subjected to many statistical methods and complex mathematical computations and are used in many studies of a special nature. There are 15 files used to accumulate coded/indexed data relative to the 32 different functional reports. **Input:** The data contained in the master files for this system are derived from Aviation Mishaps Reports; Inspection Reports; Fire Reports; Medical Reports; Accident/Injury Reports for diving, motor vehicles, and aircraft forces; and Industrial Mishaps Reports. **Output:** The frequency of system output is monthly and quarterly. Nonrecurring reports (requests) are produced as needed by using various generalized retrieval, computation, and print programs. Outputs include Navy and Marine facility accidents, flight activity, and steaming reports to identify potential accident reduction areas.

Agency Contact: Navy. (804) 444-2151.

environmental data, publications, and regulations for retrieval and distribution in Naval activities. The system serves as a central storage and processing operation for Navy water quality data, Navy and Marine Corps owned or used treatment facilities, municipal connections, solid and hazardous waste disposal sites, and Navy air emission data. The system supports the Navy Environmental Protection Program by compiling, storing, and disseminating to Navy users a wide variety of environmental information, laws, regulations, technical reports, and documents. Navy ships and shore activities are requested to report all accidental oil spills to the system working proponent, Navy Environmental Support Office. The spills are studied to identify the total magnitude of the Navy oil spill problems and to define corrective action. The system maintains information on the progress of funded pollution control projects, as well as justification for unfunded projects. The system collects studies on ship waste for analysis and processing. **Input:** Inputs are generated by one time occurrences such as oil spills and by regular environmental readings conducted at Naval shore activities, ships, and aircraft. Also, the results of special studies on ships, aircraft, and shore processes are stored and processed in order to measure and study effects upon the environment. Pollution control project status is updated monthly by Naval activities having ongoing or proposed projects. **Output:** The outputs include environmental data, emission readings, and pollution control project status. The reports are hardcopy printed at regular design frequencies. Magnetic tapes of project data are available for the Office of Management and Budget. The system is batch oriented, and special one-time reports must be programmed on request.

Family Housing Management Information System (FH/MIS) (Part of the Navy Facilities System (NFS)). (Navy System L80).

OMB Funding Code/Title: 97-0701-0-1-051 / Family Housing, Defense

Program: Operation, Maintenance, and Interest Payment

Congressional Relevance: House Committee on Armed Services; Senate Committee on Armed Services; House Appropriations Committee; Defense Subcommittee; Senate Appropriations Committee; Defense Subcommittee

Authority: Military Construction Authorization Act of 1976 (P.L. 94-107).

Availability: Agency; Internal Use Only

Geographic Relevance: International/Foreign; National; State; Congressional District; County

Purpose: This system is designed to support the efficient and economical administration of operating and maintaining the Navy's 75,000 family housing units. Major participants in the system include the Naval Facilities Engineering Command (NAVFAC), the six Engineering Field Divisions, and the approximately 180 activities with family housing assets. The system is used for day to day housing management, projection, and planning for future requirements, and reporting to other DOD activities, the Office of the Secretary of Defense, and Congress. The system contains statistically-based data on bachelor and family population and composition, adequacy of current housing, and preference. It summarizes gross assets and costs by location and category of housing units by geographic area. The system includes costs for the Domestic Leasing Program for family housing. The system compares housing utilization and occupancy with the DOD standards. The system contains current and projected base loading for Navy and Marine Corps personnel and generates the random sample of personnel to participate in the Family Housing Survey. **Input:** The system includes inputs from all echelons supporting family housing. The local activities input questionnaires on family housing, statistics on bachelor housing, and management costs and cost utilization data. NAVFAC headquarters inputs maintenance and utilities budgets, and housing utilization and occupancy directives. The Bureau of Naval Personnel and Marine Corps input personnel and manpower data for current and projected base loading, and the NFS inputs military housing construction status. **Output:** The FH/MIS provides a series of Navy family and bachelor housing reports in hardcopy and has the capability for supplemental one-time reports. The system is batch processed at a central site. The Facilities Systems Office (FAC-

Management Information System (MIS) for Industrial Naval Air Stations (INAS). (ADPS No. V10, V20, V30)

OMB Funding Code/Title: 17-1804-0-1-051 / Operation and maintenance, Navy; 17-4913-0-4-051 / Marine Corps stock fund

Program: General Purpose Forces; Central Supply and Maintenance, Administrative and Associated Activities; Aircraft Maintenance Facilities

Congressional Relevance: House Committee on Armed Services; Senate Committee on Armed Services; House Appropriations Committee; Defense Subcommittee; Senate Appropriations Committee; Defense Subcommittee

Authority: Act of August 10, 1956, as amended (P.L. 84-1028). Act of September 2, 1958 (P.L. 85-861).

Availability: Internal Use Only

Geographic Relevance: National; State; Congressional District

Purpose: Major requirements which necessitated the Management Information System (MIS) for Industrial Naval Air Stations (INAS) include: production control, to monitor production of NAVAIREWORKFAC workload from inception to completion; financial, to account for costs incurred in operation of NAVAIREWORKFAC; material management, to provide an inventory module to account for material produced by NAVAIREWORKFAC; maintenance management, to record equipment failures and maintenance resulting therefrom; and payroll, to record civilian hours worked and to produce payroll records, reports and checks. If the above systems are discontinued, the NAVAIREWORKFAC operations would halt because the systems are vital to and intertwine with NAVAIREWORKFAC operations. The alternative is reversion to manual operation, which is not practicable due to the large numbers of personnel required to perform these functions. Outside users are not involved. MIS for INAS is a uniform command/management information system supporting the Naval Air Rework Facilities (NAVAIREWORKFACs) at Industrial Air Stations. The MIS for INAS supports the NAVAIREWORKFAC management functions of workload control, material control, and financial control. Other industrial functions supported are rework workload and capability planning, rework control standards development and analysis, workload scheduling, production and performance review, engineering investigation control, configuration status accounting, and group support equipment allowance and readiness list preparation. Subsystems within MIS for INAS are integral to NAVAIREWORKFAC operations. The NAVAIREWORKFAC workloads are of such volume as to preclude the possibility of manual record keeping. **Input:** Production control, financial, and labor input is provided by aircraft rework workloading management personnel; schedules and planners; production, supply and maintenance supervisors; and individual artisans performing specific tasks. **Output:** Production status, financial, material, maintenance, and labor reports are available in real-time through CRT on-line query capability and also through scheduled daily, weekly, and monthly cyclic production in printed hardcopy, tape, and microfiche media.

Congressional Relevance: House Committee on Armed Services; Senate Committee on Armed Services; House Appropriations Committee; Defense Subcommittee; Senate Appropriations Committee; Defense Subcommittee

Authority: Act of August 10, 1956, as amended (P.L. 84-1028). Act of September 2, 1958 (P.L. 85-861)

Availability: Internal Use Only; Agency

Geographic Relevance: National; State; Congressional District

Purpose: The purpose of the Integrated Logistics Support System (ILSS) is to provide AIR-4104 logistics managers with a intensified management and analysis techniques. In addition to COMNAVAIRSYS-COM, the users include the Ships Parts Control Center, Naval Air Rework Facilities Naval Aviation Logistics Command, and Ship Wean-

on Systems Engineering Station, Fleet Analysis Center, and Mobile Missile Maintenance Units, among others. ILSS Subsystems include: 1) the PMS Subsystem, which is responsible for collecting all data for the ILSS common data base, building the data files, interfacing with all other computer systems, and providing reports on costs, schedules, logistics performance parameters, and trouble reports. 2) the IPM Subsystem, which provides budget projections, inventory projections, budget summaries, budget appropriation, and linear plots of the data. 3) the All-Up-Round (AUR) Subsystem, which provides weapon managers with a tool in plan workload execution. At the AUR level the program will show workload at the WINSTA's by quarter and by missile. 4) the AWP Component (COMP) Subsystem, which accounts for intermediate and depot level maintenance workload projections at the component level for all missiles of interest. This program will be used when assets are critical. 5) the AAS Subsystem, which performs the bookkeeping functions necessary to effect day-by-day internal tracking and control of allocated Operations and Maintenance, Navy (O&MN), Weapons Procurement, Navy (WPN), Research, Development, Test and Evaluation, Navy (RDT&E), and Other Procurement, Navy (OPN) funds. **Input:** Inputs for the ILSS will be primarily from the following subsystems: the performance monitoring subsystem, the inventory projection model subsystem, the automated workload execution plan subsystem (both component and all-up-round subsystems), and the automated accounting subsystem. **Output:** The following types of output are produced monthly, quarterly, and annually as required (real time): asset constraints, funding constraints, work status, budget, and missile performance. Output media include hardcopy, CRT display, punched cards, magnetic tape, and cassette. The remotes will allow ready access to the common data base in an interactive manner, utilizing a conversational mode so as not to require any special user skill.

Authority: Act of August 10, 1956, as amended (P.L. 84-1028).

Availability: Agency

Geographic Relevance: National

Purpose: The cost estimating system provides the means for evaluating and comparing costs of construction or conversion of Navy ships. The individual Ship Acquisition Program Managers utilize the basic data or analyses made from the basic data to prepare contract bid estimates and to evaluate contract bids. The cost estimating system is, in reality, a series of six separate applications, each serving separate cost estimation functions in support of Ship Acquisition Program Managers. These data bases are: the index application data base, which provides independent monitoring and projection of cost indices in selected labor and material areas; contract escalation, which determines allowable escalation in private shipyard contracts based on Bureau of Labor Statistics indices; suppliers quotations on hardware, which provides cost estimation for future procurements; commercial shipbuilders bid rates, which tracks overhead, G & A, composite labor rates, and profit rates from private shipbuilders' bids to provide cost projections; ship cost models, which develop estimated construction cost and total program cost by cost estimating relationships; and the INSURV Ship Investment File, which tracks ship construction costs, modernization costs, and operational expenditure rates for all ships in the Fleet. **Input:** The system inputs include contract data, Bureau of Labor statistics, and direct interface. **Output:** The outputs from this system include contract escalation projections developed by program-year, a ship investment file keyed to ship designation, and cost models organized by ship work breakdown structure. The system includes on-line capability, current telecomm capability, and remote terminals.

Geographic Relevance: National

Purpose: The purpose of UICP is to provide an automated system to support inventory decisions to control asset locations and to purchase, repair, or disposal of items managed by the two Navy Inventory Control Points (ICPs), the Aviation Supply Office and the Ships Parts Control Center, in support of the Fleet. Through UICP, the ICPs ensure that sufficient stocks of the proper items are distributed throughout the world to support Fleet operations. **Input:** There are two major files: the Inventory Control Series (ICS) Files, used in daily item management, and the Weapons System Files (WSF), used for configuration status, control, and accounting. The major file within the ICS is the Master Data File which holds selected, fixed data about an item, such as standard price. The Weapons System File is a "Top-Down Break-Down" of every ship and aircraft in the Navy's inventory. It provides the capability to identify each part, component, system or sub-system to its next higher or lower application. The ICS is updated at least daily with inventory data. The WSF is updated as required. Both files are on-line and linked through a telecommunications network. They are also linked AUTODIN to Navy activities throughout the country. **Output:** The regular outputs of this system include daily requisitions, status of requisitions, financial reports, purchase and delivery data, and other daily reports or status information pertaining to inventory management. Various allowance lists, information on configuration status, and budgetary data can be produced as needed.

Purpose: UADPS-SP is an inventory/financial management system designed to provide management at Navy Stock Points with a real-time/random access, integrated supply capability that will give efficient and responsible support to the customer while realizing a measurable savings in time, manpower, and dollars through standardization of programs and operations. UADPS-SP has been implemented at over 30 activities both in the Continental United States and overseas and provides responsible, flexible logistics support to deployed Fleet units. UADPS-SP performs the following functions: financial inventory control, stores accounting, cost/allotment accounting, shipment and delivery data, disbursing, purchase, budgeting, receipt processing, demand processing, inventory control, disposal, payroll, billing, and personnel accounting. Most of the files except payroll and personnel are on-line and accessible from terminals. Files are updated on various cycles as appropriate, such as requisition processing on a daily basis, and payroll on a bi-weekly basis. File size varies by activity with the larger activities exceeding 1,000 Kilobytes of on-line storage. **Input:** Inputs come from Navy ships, other Navy activities, Navy Inventory Control Points, other services, and Defense Logistics Agency activities and consist of such items as requisitions, status requests, and payroll cards. **Output:** Outputs from this system include requisitions, requisition status, bills, financial reports, payrolls, personnel reports, and various item management and

Purpose: The Data Bank of Astronomical Ephemerides contains data related to the calculation and preparation of ephemerides, almanacs, and other publications; reduction and analysis of telescopic observations; analysis of clock data; and performance of observations necessary to the determination of accurate time. Astronomical data in machine-readable form includes deterministic astronomical data from mathematical theories, star catalogs, and positions of celestial objectives derived for observation programs. Data are available from the system in the following general subject fields: the sun, the moon, planets, minor planets, star catalogs, coordinates, and miscellaneous data sets. **Input:** Information developed through the research and observations performed by the Naval Observatory and other institutions and data from published star catalogs provide the input for this system. **Output:** Publications include the Astronomical Almanac (annual); the Nautical Almanac (monthly); the Air Almanac (two volumes a year); Astronomical Phenomena (annual); the Ephemeris (annual); the Almanac for Computers; and the time service publications, a series of publications concerning time determination and measurement which are issued periodically.

Purpose: This automated retrieval system provides bibliographic control of the technical reports collection of the Naval Weapons Center Technical Library. The technical reports are cataloged by corporate author, personal author, report number, and shelf number. The technical reports cover the following fields of information: ordnance, rockets, missiles, electronics, optics, users, chemistry, and other related topics. The system lists about 10,000 reports. **Input:** Technical reports received by the library are indexed for inclusion in this system. **Output:** Card catalogs are produced as required.
Agency Contact: Navy. (714) 939-3177.

S00404-028

Pay/Personnel Administrative Support System Phase II (Source Data System) (PASS/SDS). (P-35).
OMB Funding Code/Title: 17-1804-0-1-051 / Other procurement, Navy; 17-1804-0-1-051 / Operation and maintenance, Navy; 17-1453-0-1-051 / Military personnel, Navy
Program: Personnel and Command Support Equipment; Administration and Associated Activities
Congressional Relevance: House Committee on Armed Services; Senate Committee on Armed Services; House Appropriations Committee; Defense Subcommittee; Senate Appropriations Committee; Defense Subcommittee
Authority: Act of August 10, 1956, as amended (P.L. 84-1028).
Availability: Internal Use Only
Purpose: Pay/Personnel Administrative Support System Phase II, Source Data System (PASS Phase II/SDS) will perform payroll processing for Personnel Support Activities throughout the Continental United States and for U.S. Naval Activities overseas. Financial reporting and personnel accounting data will be provided to the Naval Military Personnel Command and the Navy Finance Center computers. When fully implemented, PASS/SDS will contain the military personnel records of all active duty officers and enlisted personnel in the U.S. Navy as well as approximately 75 percent of U.S. Naval Reserve in a drill pay status. All data files may eventually be linked via a teleprocessing network. **Input:** Input is in the form of event reporting, such as personnel gains and losses; special pay authorizations; authorization for leave, promotions, and changes to allotments. **Output:** Output consists of military paychecks (bimonthly), military leave and earnings statement (monthly), personnel reports (periodically and on demand), and independent inquiries using CRT terminals.
Agency Contact: Navy. (202) 694-5534.

S00404-029

Integrated Disbursing and Accounting Financial Management System (IDAFMS). (F20).
OMB Funding Code/Title: 17-1804-0-1-051 / Operation and maintenance, Navy
Program: Administration and Associated Activities
Congressional Relevance: House Committee on Armed Services; Senate Committee on Armed Services; House Appropriations Committee; Defense Subcommittee; Senate Appropriations Committee; Defense Subcommittee
Authority: Act of August 10, 1956, as amended (P.L. 84-1028; 70 Stat. 277; 10 U.S.C. 5012).
Availability: Internal Use Only
Purpose: The Integrated Disbursing and Accounting Financial Management System (IDAFMS) is an automated system that covers the disbursing and accounting functions related to all Department of the Navy appropriations, except non-appropriated funds. Its primary purpose is to improve the disbursing and accounting functions Navy-wide by combining these functions into a single process and by centralizing this process at selected regional processing centers. IDAFMS will be implemented using state-of-the-art automatic data processing hardware and software techniques. **Input:** The sources of data are various financial transactions. **Output:** Various accounting reports, disbursing reports, and payment records are produced.
Agency Contact: Navy. (202) 697-6835.

S00408-001

Foreign Military Sales Credit System (FMSCS). (DSAA-AR-1115).
OMB Funding Code/Title: 11-1082-0-1-152 / Foreign military sales credit
Program: Foreign Military Credit Sales, Credits, and Guaranties
Congressional Relevance: House Committee on Foreign Affairs; Senate Committee on Foreign Relations; House Appropriations Committee; Foreign Operations Subcommittee; Senate Appropriations Committee; Foreign Operations Subcommittee
Authority: Foreign Military Sales Act (P.L. 90-629); International Security Assistance and Arms Export Control Act of 1976 (P.L. 94-329); International Security and Development Cooperation Act of 1980 (P.L. 96-533).
Availability: Internal Use Only
Purpose: DSAA is responsible for the administration of the Foreign Military Sales (FMS) Credit Programs; in this capacity it monitors foreign military credits, both direct and guaranteed. DSAA prepares and sends bills, thus acting as the collection agency for the U.S. government. The FMS Credit System aids DSAA in these functions by producing automated bills and management reports. It has been designed to maintain a record of each credit program with its corresponding payment schedule, to record disbursements by DSAA on behalf of the borrower, to prepare bills based upon repayment schedules and loan balances outstanding, and to record all repayments of principal and interest. Each respective credit record also contains a memo record of subsequent disbursements by the military departments of credit funds paid to the military departments by DSAA. The FMS Credit System is used to maintain records of the loans made to foreign countries for purchase of defense items and services. Disbursement and collection documents comprise the basic source document for this system. It is generally run weekly but is often run more frequently to satisfy special requests. The data base is grouped by credit arrangements for each country with the necessary supporting information for each arrangement. The system is maintained and processed by the Air Force Data Services Center. **Input:** All input is furnished internally by the Financial Reports and Credit Programs Division, Office of the Comptroller, DSAA. Their information, input, and backup documentation of foreign military sales are provided to DSAA for each individual credit program by the particular military department involved in the sale. This system does not interface with any other data system. **Output:** Principal reports are the Summary of Loan Repayments (monthly, hardcopy); Foreign Military System Credit Printout (as requested, hardcopy and microfiche); Repayment of Foreign Military Credit Bills (as requested, hardcopy); Forecast of Payments Due (as requested, hardcopy); Credit Programs in Arrears 30 days and 90 days (as requested, hardcopy); Management Report (quarterly, hardcopy); Summary of Loan Repayments prior to FY 68 (quarterly, hardcopy); Summary of Loan Repayments FY 69 and after (quarterly, hardcopy); Treasury Reporting of Guaranteed Loans (quarterly, hardcopy and punched cards); and Treasury Reporting of Active Credits (quarterly, hardcopy and punched cards).
Agency Contact: Defense Security Assistance Agency. (202) 694-3310

Defense Logistics Agency

S00410-001

Central Accounts Office Data Bank.
OMB Funding Code/Title: 97-0100-0-1-051 / Operation and maintenance, Defense agencies; 97-0300-0-1-051 / Procurement, Defense agencies; 97-0400-0-1-051 / Research, development, test, and evaluation, Defense agencies; 97-0500-0-1-051 / Military construction, Defense agencies; 97-0701-0-1-051 / Family housing, Defense
Program: Central Supply and Maintenance, Defense Logistics Agency; Major Equipment; Defensewide Mission Support; Major Construction, Operation, Maintenance, and Interest Payment; Maintenance of Real Property

Congressional Relevance: House Committee on Armed Services; Senate Committee on Armed Services; House Appropriations Committee; Defense Subcommittee; Senate Appropriations Committee; Defense Subcommittee

Authority: Act of September 2, 1958 (P.L. 85-861); Armed Services Procurement Act of 1947 (P.L. 80-413); Act of August 10, 1956, as amended (P.L. 84-1028).

Availability: Agency

Purpose: The system provides automated reports by appropriation/subhead, which are used by the Central Accounting Office in the preparation of consolidated reports for submission to higher authorities (primarily DASD(CJ)). These reports are also used by the Budget Division to monitor progress against budgeted goals. The system is basically a simple one in that data are transcribed on a monthly basis by PLFAs, and the system is updated and produces the required reports. **Input:** The system contains accounting/budgetary data on a monthly cumulative basis by fiscal year. It is updated monthly without regard for geographic references. **Output:** The system provides the following hardcopy reports on a monthly basis: Status of Financial Authority, Status of Allotment, Status of Prior Year Funds, Obligations by Object Class, and Report of Reimbursable Transactions. It does not have query capability.

Agency Contact: Defense Logistics Agency. (202) 274-6217.

S00410-002

Defense Logistics Agency Management Information System (MIS).

OMB Funding Code/Title: 97-0100-0-1-051 / Operation and maintenance, Defense agencies; 97-0400-0-1-051 / Research, development, test, and evaluation, Defense agencies

Program: Central Supply and Maintenance; Program Management and Support

Congressional Relevance: House Committee on Armed Services; Senate Committee on Armed Services; House Appropriations Committee; Defense Subcommittee; Senate Appropriations Committee; Defense Subcommittee

Authority: Department of Defense Appropriation Authorization Act of 1976 (P.L. 94-106). Department of Defense Appropriation Authorization Act of 1977 (P.L. 94-361). Department of Defense Appropriation Authorization Act of 1978 (P.L. 95-111).

Availability: Agency;

Purpose: The DLA system provides a comprehensive data base of general purpose management data elements for use by program managers in exercising management planning and control functions in support of the decisionmaking process. These data are primarily summary-type performance indicators necessary for resources management and control functions, or staff monitoring of program performance. The DLA Management Information System is the official source of automated management data used in planning, coordinating, directing and controlling DLA programs. Its data base is structured into 2 major segments, the larger being a General Management Data Segment designed to provide performance, manpower and selected workload data to facilitate short and long range management and control functions exercised by DLA program managers. The other is a Specialized Management Data Segment consisting of dedicated files which serve the highly specialized or proprietary needs of program managers. Data base update is on a monthly frequency for most data elements. Two years of historical data is readily available for retrieval on an as-required basis. Records are stored for a minimum of 5 years. **Input:** Basic data elements are compiled and transmitted to a HQ DLA Central Data Bank by the primary level field activities. These data are derived from operational data systems, augmented by manual compilations as the operational processes occur. The detail data elements are officially prescribed by the DLA MIS Glossary, and include cost, personnel, manpower utilization, performance and workload. **Output:** The system provides statistical data, selected management data, and performance evaluation reporting system. The statistical data includes cost/expense, strength, manpower, and workload and consists of hard copy reports, charts, graphs, and tables. It is prepared monthly or as required. The selected management data is prepared in hardbook format on a monthly basis. It consists of sensitive program indicators which portray monthly progress. The performance evaluation reporting system is prepared in hardbook format on a monthly basis. It relates resources utilization, standards, cost, and productivity effectiveness.

Agency Contact: Defense Logistics Agency. (202) 274-6215.

S00410-004

Standard Automated Material Management System (SAMMS).

OMB Funding Code/Title: 97-0100-0-1-051 / Operation and maintenance, Defense agencies

Program: Central Supply and Maintenance

Congressional Relevance: House Committee on Armed Services; Senate Committee on Armed Services; House Appropriations Committee; Defense Subcommittee; Senate Appropriations Committee; Defense Subcommittee

Authority: Department of Defense Appropriation Authorization Act of 1976 (P.L. 94-106).

Availability: Agency

Purpose: SAMMS is an inventory control system which manages DLA's items supporting the Military Services, DOD Components and civil agencies. SAMMS is installed at the Defense Construction Supply Center, Columbus, Ohio; the Defense Electronics Supply Center, Dayton, Ohio; the Defense General Supply Center, Richmond, Virginia; the Defense Industrial Supply Center, and the Defense Personnel Support Center, both located in Philadelphia, Pennsylvania. SAMMS manages DLA's hardware, clothing, and medical commodities by identification of management data related to items managed, determination of quantities procured, recording and control of procurement actions, inventory accounting and issuance of material, and financial accounting/billing. SAMMS consists of the following six subsystems: distribution, requirements, procurement, financial, technical, and provisioning. SAMMS contains over 900 files. These files vary in size depending on the number of items managed by each Defense Supply Center. Files are updated as each subsystem is processed. Distribution is processed 7 days a week; procurement, financial, and provisioning are processed 5 days a week; technical is processed 6 days a week; and requirements is processed 3 days a week. **Input:** Inputs from inventory managers, procurement analysts, financial analysts, and catalogers include adjustments, inquiries, redistribution, cancellations, awards, confirmation, denials, and follow-ups. External sources including the Military Services, DOD Components, civil agencies, and vendors provide the following inputs: requisitions, cancellations, follow-ups, returns, and quotations. **Output:** Reports from the SAMMS subsystems include machine readable, hard copy, microfiche, and CRT display outputs. Inquiry to the system can be through CRT or cards. The major outputs include financial, material management, and cataloging reports.

Agency Contact: Defense Logistics Agency. (202) 274-7014.

S00410-006

Defense Integrated Data System (DIDS).

OMB Funding Code/Title: 97-0100-0-1-051 / Operation and maintenance, Defense agencies

Program: Central Supply and Maintenance

Congressional Relevance: House Committee on Armed Services; Senate Committee on Armed Services; House Appropriations Committee; Defense Subcommittee; Senate Appropriations Committee; Defense Subcommittee

Authority: Department of Defense Appropriation Authorization Act of 1976 (P.L. 94-106).

Availability: Agency; GPO

Purpose: DIDS mechanizes the central screening and file maintenance operations of the Federal Catalog System, which maintains a consolidated data base of all stock-numbered items of supply used in the federal government. The Federal Catalog System, with DIDS as the central processing activity, provides for screening all new items against existing stock-numbered items. DIDS assigns and maintains all National Stock Numbers utilized in the Federal Government Supply Systems as required by Chapter 145, Title 10, U.S. Code. The Federal Catalog System/DIDS also provides the basis for and interfaces with the NAFC Codification System and provides cataloging services and products to NATO and other foreign nations. The consolidated data base includes data on approximately 5 million items of supply that are under active inventory management. The DIDS provides for the inclusion of the following Federal Catalog System data for each stock-numbered item: Item name; description; manufacturers part number; drawing numbers; identification of the managing activities and other activities having logistical responsibility and interest. DIDS also contains supply management

data, including source of supply; standardization relationships; interchangeability and substitutability relationships; and freight classification data. **Input:** Data are initially established in the consolidated data base as a result of processing requests for the assignment of National Stock Numbers (NSNs) by inventory control organizations. Thereafter, data are maintained by the input of additions, deletions, or changes. Other inputs are requests for information applicable to stock-numbered items and requests to search the consolidated data base to determine the existence of a stock-numbered item. Approximately 200 organizations are authorized to input to DIDS. **Output:** The principal output of the system is the National Stock Numbers (NSNs) and associated Federal Catalog System data applicable to stock-numbered items of supply. Machine sensible records are furnished on a real-time basis in response to interrogations and are pushed to participating activities as a result of processing required transactions. Hardcopy and microfiche products include stock list type catalogs, Federal Catalog System manuals, guides, and handbooks. Access to the DIDS via remote terminals at user workstation is available for searching the file.

Agency Contact: Defense Logistics Agency. (202) 274-6281.

S00410-006

Mechanization of Warehousing and Shipment Processing (MOWASP).

OMB Funding Code/Title: 97-0100-0-1-051 / Operation and maintenance, Defense agencies

Program: Central Supply and Maintenance

Congressional Relevance: House Committee on Armed Services; Senate Committee on Armed Services; House Appropriations Committee; Defense Subcommittee; Senate Appropriations Committee; Defense Subcommittee

Authority: Department of Defense Appropriation Authorization Act of 1976 (P.L. 94-106).

Availability: Agency

Purpose: MOWASP is the standard DLA automated warehousing and shipping system operated at six storage depots. This automated data system supports all of an activity's operational functions associated with the receipt, storage, and issue of material. Information content is data relative to material stored at the depot. This includes item description, condition, quantity, location, freight classification data, weight, and cube. It also includes information as to material release orders being processed, receipts being processed, inventories being conducted, rewarehousing projects, material awaiting processing, shipments being planned, and shipments awaiting transportation. It also includes past histories as to performance levels. **Input:** The primary external input, received through the Automated Digital Network (AUTODIN), is in the form of a material release order; this is the order to ship material stored at the depots to a customer and originates at one of the five Defense Supply Centers (which have inventory management responsibility). Other external inputs are advance procurement data, advance receipt data, catalog data, and addressing information. Internal inputs are inventory data, locator data, work production data, warehousing data, and personnel data. **Output:** The primary output of the system is material to the customer. The principal automated data outputs consist of confirmations of shipments to the inventory control points, receipt updates, and status of material in storage or in-processing. The principal outputs to the customer include status reports, advance shipment data, and documents accompanying the material. Within the storage activity, the primary outputs are in-process status reports, work production data, inventory and location survey reports, and care and preservation data.

Agency Contact: Defense Logistics Agency. (202) 274-6371.

S00410-007

Mechanization of Contract Administration Services (MOCAS).

OMB Funding Code/Title: 97-0100-0-1-051 / Operation and maintenance, Defense agencies

Program: Central Supply and Maintenance

Congressional Relevance: House Committee on Armed Services; Senate Committee on Armed Services; House Appropriations Committee; Defense Subcommittee; Senate Appropriations Committee; Defense Subcommittee

Authority: Department of Defense Appropriation Authorization Act of 1976 (P.L. 94-106).

Availability: Agency

Purpose: MOCAS is a uniform data system operating at the nine Defense Contract Administration Services Regions (DCASRs) which automates the post award administration of defense and other assigned contracts and modifications. The system serves the functional elements within the DCASRs and their subordinate offices and provides contract administration information to buying, finding, and receiving activities of the Department of Defense and similar organizations. The system provides management and operational data on contractual actions, delivery schedules, shipments, contract financial status and disbursing. It also computes contractor payments and contract closing data. MOCAS contains key contractual information on contracts assigned to the DCASRs by DOD buying activities for administration. The principal master files are: Contract Administrative Data, which reflects key contract administrative information; Contingent Liability Record; and On Order Delivery Schedule Summary. The files provide data on the financial and the quantities of items on order, delivery schedules and line items and quantities shipped. There are 23 additional basic files supporting the system aggregating to approximately 1.1 million records at each small DCASR; 2.5 million records at each large DCASR. **Input:** Headquarters Defense Contract Administration Services Region organizations and subordinate organizations in the Defense Contract Administration Services Management Area offices and Plant Representative Offices provide internal information to the MOCAS System. National Aeronautics and Space Administration, Agriculture, Department of Energy, Postal Service, Department of Transportation, and Veterans Administration also provide input data for contracts DLA administers. Input data include contract administrative data; accounting and funding data; line item data; delivery status data; transportation/packaging data; and inspection/acceptance data. **Output:** The major report categories produced by this system include contract administration data; management and operational data on contract delivery schedules, shipments, contractual actions, financial status, disbursements, and contract closing; information on production surveillance, transportation, quality assurance, and accounting and finding; payments to contractors; and summary management information data. Output are primarily daily, augmented by monthly, quarterly, and annual reports, and are produced in machine readable, hardcopy, and/or microfiche media. The system has batched card query capability resulting in hardcopy output.

Defense Communications Agency

S00411-001

Information System Supports Communications Services Industrial Fund (CSIF).

1965

OMB Funding Code/Title: 97-4962-0-4-051 / Defense industrial fund

Program: Communication Services Industrial Fund

Congressional Relevance: House Committee on Armed Services; Senate Committee on Armed Services; House Appropriations Committee; Defense Subcommittee; Senate Appropriations Committee; Defense Subcommittee

Authority: Act of September 7, 1962 (P.L. 87-651).

Availability: Agency

Geographic Relevance: International/Foreign; National; State

Purpose: The system processes financial data necessary for the management of leased communications services to both DOD and non-DOD government activities. The annual dollar volume of leased communications provided to customer activities by the Communications Services Industrial Fund (CSIF) is approximately \$994 million. Under management by the Comptroller Directorate, Headquarters Defense Communications Agency (DCA), the Defense Commercial Communications Office (DECCO), located at Scott AFB, IL, provides all customer services. The system tracks the telecommunications leasing process to include the receipt of telecommunications service orders from customers, the ordering of services against previously written contracts, the planning and monitoring of services provided to various customers, the disbursement of funds to vendors, and the transfer of funds to the CSIF from customer accounts. Incorporated in the system is an automated bill-paying feature. Customers and vendors are located worldwide. The primary cycle of the system is monthly, culminating in the reconciliation of customer and vendor accounts. **Input:** Major input to the system is customer-initiated telecommunications service orders and contractual information necessary to obtain specific services from the various vendors.

of leased communications. **Output:** Monthly machine readable reports to all customer activities providing detailed current monthly costs, cumulative to date and projected costs for balance of fiscal year; various other machine readable and manual reports prepared monthly, quarterly, and annually.

Agency Contact: Defense Communications Agency. (202) 692-2824.

Defense Nuclear Agency

S00414-001

Defense Nuclear Agency Accounting System.

1972

OMB Funding Code/Title: 97-0400-0-1-051 / Research, development, test, and evaluation, Defense agencies; 97-0100-0-1-051 / Operation and maintenance, Defense agencies; 97-0300-0-1-051 / Procurement, Defense agencies; 97-0500-0-1-051 / Military construction, Defense agencies

Program: Technology Base; Intelligence and Communications; Major Equipment; Major Construction

Congressional Relevance: *House Committee on Armed Services; Senate Committee on Armed Services; House Appropriations Committee; Defense Subcommittee; Senate Appropriations Committee; Defense Subcommittee*

Authority: Department of Defense Appropriation Authorization Act of 1976 (P.L. 94-106). Armed Services Procurement Act of 1947 (P.L. 80-413). Act of August 10, 1956, as amended (P.L. 84-1028). Department of Defense Appropriation Authorization Act of 1977 (P.L. 94-361).

Availability: Internal Use Only

Purpose: The system is designed to provide timely reports on budget execution, to provide Defense Nuclear Agency (DNA) program managers with status-of-funds information, and to assure maximum effective utilization of Agency financial resources. The automated portion of the system covers financial resources in the Research, Development, Test, and Evaluation (RDT and E), Operation and Maintenance (O and M), Military Construction (MCON), and Procurement, Defense Agencies (P, DA) appropriations. The system is primarily utilized by financial managers at both headquarters, DNA, and at the Armed Forces Radiobiology Research Institute (AFRRI) in Bethesda, MD. Updated data files are available for inquiry at any time. Current status of funds reports are produced at the close of business each day. **Input:** Records are created at the detail level recording initiations, commitments, obligations, accrued expenditures, and disbursements as the information is developed and/or received. The system covers the entire geo-code requirements for report preparation. Financial data are input into the system via a CRT on a daily basis. **Output:** The system produces daily reports of fund availability identifying uncommitted balances by activity. At the present time the system does not produce hardcopy accounting reports ready for submission. All current reports are management-oriented with the capability to produce them as required. Query capability exists through the use of a CRT.

DEPARTMENT OF HEALTH AND HUMAN SERVICES

S00500-001

Regional Accounting System (RAS). (AMN 001).

OMB Funding Code/Title: 75-0120-0-1-609 / General Departmental management

Program: Departmental Direction: Management and Budget

Congressional Relevance: *House Committee on Education and Labor; Senate Committee on Finance; Senate Committee on Labor and Human Resources; House Appropriations Committee: Labor, Health and Human Services, and Education Subcommittee; Senate Appropriations Committee: Labor, Health and Human Services, and Education Subcommittee*

Authority: (5 U.S.C. 3501; Reorganization Plan 1 of 1953). Older Americans Act of 1965 (P.L. 89-73, title V, § 501). Economic Opportunity Act (P.L. 93-644, § 582, 803).

Availability: Internal Use Only

Geographic Relevance: Regional

Purpose: The system consolidates accounting operation support provided to regional offices. The Regional Accounting System (RAS) acts as the central automated processing system for regional accounting data. The system contains information on warrants, allotments, travel advances, payroll advances, accruals, obligations, operating plans, expenditures, etc., necessary to maintain a full accounting system to be used by the regions for maintaining their programs. All data content is consistent with the requirements of the Departmental Accounting Manual. **Input:** The input consists of regional accounting transactions, central accounting transaction data from central payroll, expenditure transactions from the Payment Management System, Health and Human Services principal operating components, and departmental management accounting systems. **Output:** The output includes Status of Funds, Status of Documents, Geographic Funds Distribution, Transactions, and Accounting Control Reports. At present, RAS has limited query capability.

Authority: Social Security Act, as amended (P.L. 74-271); 42 U.S.C. 13101. (5 U.S.C. 3501).

Availability: Internal Use Only

Geographic Relevance: State; County; City; (SMSA) Standard Metropolitan Statistical Area

Purpose: The system provides automated accounting data to internal management and meets Treasury and Office of Management and Budget reporting requirements. The system services the Office of the Secretary (OS) and the Office of Human Development (OHD) and accounts for funds transferred to Health and Human Services by other Departments. The system contains information on warrants, allotments, allowances, operating plans, obligations, advances, accruals, and expenditures. Data elements required by the Department Accounting Manual are reflected in the system, including geocodes that represent state, county, city, congressional district, and standard metropolitan statistical area. The system is designed to update daily. **Input:** Fiscal documents are received from the various offices within the OS and the OHD. Data are also received from offices, such as the Departmental Federal Assistance Financing Branch, the Regional Accounting Systems Branch, and the Division of Data Processing. Invoices and bills are received from various private sources as well as from numerous federal offices. **Output:** A series of financial reports and ledgers, including the standard reports required by Treasury, is produced monthly. Output is available in hardcopy, microfilm, and magnetic tapes. Some reports are available in microfiche.

Agency Contact: (202) 245-6388.

S00500-003

Central Registry System (CRS). (AMN 003).

OMB Funding Code/Title: 75-0120-0-1-609 / General Departmental management

Program: Departmental Direction: Management and Budget

Congressional Relevance: *House Committee on Education and Labor; Senate Committee on Finance; Senate Committee on Labor and Human Resources; House Appropriations Committee: Labor, Health and Human Services, and Education Subcommittee; Senate Appropriations Committee: Labor, Health and Human Services, and Education Subcommittee*

Authority: (Reorganization Plan 1 of 1953).

Availability: Internal Use Only

Geographic Relevance: National; State; County; City; International/Foreign

Purpose: The system maintains the name, address, geographic locations, entity type, and certain other characteristics of organizations and individuals who are recipients of Health and Human Services (HHS) grants and contracts. The system utilizes the Internal Revenue Service's employer identification for organizations and the social security number for individuals. It also relates the departmental Federal Assistance Financing Branch (FAFB) Payment Management System Payee Identification Number (PIN) to appropriate entities. The input is Agency code, entity name and number, mailing address, geopolitical codes, entity type, and FAFB PIN. Data are input as the need occurs, and updates are made on the on-line system. **Input:** Input is provided by all HHS organizations which fund or otherwise deal with recipients of HHS grants and contracts. The FAFB PINs are updated in the CRS file by the FAFB on-line system. Input is in standard format and may be by hardcopy or through on-line terminals located throughout HHS. Queries to the system, as well as adds and changes, may be made through on-line terminals. **Output:** Magnetic tape output of the master file or segments of the file are available to HHS users on request. Query capability is available. Annually, a microfilm tape of the master file is prepared.

01/70

OMB Funding Code/Title: 75-0128-0-1-609 / Office of the Inspector General

Program: Office of Audit

Congressional Relevance: House Committee on Government Operations; Senate Committee on Labor and Human Resources; House Appropriations Committee: Labor, Health and Human Services, and Education Subcommittee; Senate Appropriations Committee: Labor, Health and Human Services, and Education Subcommittee

Authority: (Reorganization Plan 1 of 1939). Act of October 15, 1976 (P.L. 94-505, title II, § 204; 42 U.S.C. 3521).

Availability: Internal Use Only

Geographic Relevance: State; National; Regional

Purpose: This system provides information on current workload, audit reports issued, and audit findings. It provides a centralized control over the number and types of reports issued by all offices within the audit agency. A data base of statistical information which can be analyzed for workload accomplishments as well as for producing special reports is also provided by this system. The principal subject matter of the input is the particulars associated with performance of the audit work and the type of program being audited. The following data are provided by the sources: Code Sheet 485-A--the Region and Audit Control Number (ACN) of the audit report, the numeric code of the state in which the auditee is located, responsible Operating Division (OPDIV), appropriation number, program, audit category, name of grantee or contractor audited, period of time audited, federal audited costs, man-days used, report issued date, month and year next audit is due, indications of what advanced techniques were used in doing audit, action official, and indication if there were any findings: Code Sheet 485-B--region and ACN, finding type and POC responsible for finding resolution, and Code Sheet OS 486--region and ACN, finding type and amount, OPDIV agreement or disagreement with the finding, and identification of the OPDIV. **Input:** The 10 regional offices and the headquarters of the audit agency are the providers of information for the system. Operating Divisions (OPDIV) also provide input in the form of reactions to audit findings. **Output:** The system produces hardcopy output, including the monthly schedule of audit reports and production report; the quarterly schedule of audit reports issued. HHS-produced audit reports issued by region; all audit reports issued by region; audit reports without findings; comparison of monetary and nonmonetary findings; findings utilization report; and the stewardship data base. The reports produced on a fiscal year basis are the schedule of audit reports issued by the categories HHS only and all. The system can and does produce a large number of special request type reports.

S00500-008

Time Reporting and Audit Control System (TRACS) OIG Office of Audit. (AFC 002).

01/74

OMB Funding Code/Title: 75-0128-0-1-609 / Office of the Inspector General

Program: Office of Audit

Congressional Relevance: House Committee on Government Operations; Senate Committee on Labor and Human Resources; House Appropriations Committee: Labor, Health and Human Services, and Education Subcommittee; Senate Appropriations Committee: Labor, Health and Human Services, and Education Subcommittee

Authority: (Reorganization Plan 1 of 1939). Act of October 15, 1976 (P.L. 94-505, title II, § 204; 42 U.S.C. 3521).

Availability: Internal Use Only

Geographic Relevance: State; National; Regional

Purpose: The system provides headquarters and regional management with detailed and summarized information regarding audit assignments. Each month timecards (OS-509) are completed by each auditor, showing the number of hours and audits to be worked on during the month. Additional data code sheets are prepared for any new audits started

and field work completed. Work plan data such as total estimated reports issued and estimated man-days expended are also coded into the system at the beginning of each fiscal year. No geocoding is used other than the inclusion of the HHS region and state code number on the auditee code sheet and the branch and region numbers for the auditor. **Input:** The input is assembled at the audit agency's 10 regional and headquarters offices by the responsible HHS auditor. The initial input consists of three basic types of data--annual work plan, employee basic information, and auditee basic information. Information on the status of audit assignments is furnished by the branch managers and/or responsible regional auditor. **Output:** The system produces nine monthly reports and two quarterly reports. They are: the monthly schedule of staff time--auditors direct and indirect hours, monthly status of audit assignments, monthly schedule of cancelled and completed audit assignments, monthly billing of reimbursable audit hours--by agency and a headquarters summary, monthly summary of hours expended at educational institutes, milestone report--regular and 60 plus days, quarterly accomplishment report, and quarterly schedule of time expended on Social Security Administration trust funds audits. This system also produces in hardcopy.

S00500-012

Health and Human Services-Owned Detail File (FEAMS). (AMFS 006).

01/75

OMB Funding Code/Title: 75-0120-0-1-609 / General Departmental management

Program: Departmental Operations: Facilities Engineering

Congressional Relevance: House Committee on Education and Labor; Senate Committee on Finance; Senate Committee on Labor and Human Resources; House Appropriations Committee: Labor, Health and Human Services, and Education Subcommittee; Senate Appropriations Committee: Labor, Health and Human Services, and Education Subcommittee

Authority: (Reorganization Plan 1 of 1939).

Availability: Internal Use Only

Purpose: With the established geographic location file, the HHS-Owned Detail Files are divided into two major sorts, one by region and one by POC's. The property description by land, building, structure utility, and building categories in which HHS houses its programs may be extracted from these printouts. Data contained in this system are real property, including building structure, associated mechanical equipment, and current book value. **Input:** At the present time the source of input both external and internal is manual. Updating information is submitted to the systems manager by means of FEC Form 3-17 or prekey punched cards. There are a number of situations that are handled via telephone. **Output:** The Principal Operating Components (POC's) receive certain printouts for their review, correction, and/or confirmation prior to reporting to GSA on the annual report. At the present time, the only query capability is locally controlled. On a quarterly basis, the regional and principal operating components reports are mailed.

Automated Data Processing Application Data Base. (AMMB 022).

03/01/81

OMB Funding Code/Title: 75-0120-0-1-609 / General Departmental management

Program: General Departmental Management (All Programs)

Congressional Relevance: House Committee on Education and Labor; Senate Committee on Finance; Senate Committee on Labor and Human Resources; House Appropriations Committee: Labor, Health and Human Services, and Education Subcommittee; Senate Appropriations Committee: Labor, Health and Human Services, and Education Subcommittee

Availability: Agency

Purpose: This system provides, as directed by Federal Property Management Regulation FPMR 101-36, a management information system to assist GSA, other federal agencies, and the Department in managing, developing, and coordinating ADP information systems. The ADP data base is an inventory of all ADP information systems within HHS. Newly planned ADP systems are reported to the data base for registration prior to expenditure of resources for systems development. The data submitted by the ODPDVS are used for the HHS Application Systems Report and financial analysis of the HHS ADP information budget. Data elements collected include a 4-year resource summary, budget, application and administrative codes, and privacy information. **Input:** HHS Form 617 is used to collect data from all operating divisions and suborganizations with ADP information systems. **Output:** The principal report, which is produced annually, is the HHS ADP Application Systems Report.

Departmental Contract Information System (DCIS). (AMH 001).

09/30/74

OMB Funding Code/Title: 75-0120-0-1-609 / General Departmental management

Program: Departmental Operations

Congressional Relevance: House Committee on Education and Labor; Senate Committee on Finance; Senate Committee on Labor and Human Resources; House Appropriations Committee: Labor, Health and Human Services, and Education Subcommittee; Senate Appropriations Committee: Legislative Branch Subcommittee

Authority: (Reorganization Plan 1 of 1939). Office of Federal Procurement Policy Act (P.L. 93-400).

Availability: Agency

Geographic Relevance: National; State; Congressional District; County; City

Purpose: The Departmental Contract Information System is a tool that aids in responsiveness to inquiries for contracts over \$10,000 let for goods and services. Inquiries are received from the Presidential staff, Congress, state and local governments, the public, and HHS management. The system also inputs contracts over \$10 K to the Federal Procurement Data System (FPDS). The system contains approximately 36,000 contracts in the data base. The update cycle is monthly. The information in the system is a profile of the contract, any modifications, and the contractee. **Input:** Data are submitted via hardcopy, tape, and cards from each contract/procurement office in HHS. **Output:** The principal reports produced by this system are contractor reports, geographic area reports, type contractor reports, and STD Form 37 reports. The reports are generated upon ad hoc request. There are no standard reports.

Case Information Management System (CIMS). (ATC 003).

10/80

OMB Funding Code/Title: 75-0135-0-1-751 / Office for Civil Rights

Program: Civil Rights

CFDA NO.: 13.675

Congressional Relevance: House Committee on Education and Labor; Senate Committee on Labor and Human Resources; House Appropriations Committee: Labor, Health and Human Services, and Education Subcommittee; Senate Appropriations Committee: Labor, Health and Human Services, and Education Subcommittee

Authority: Civil Rights Act of 1964 (P.L. 88-352); Rehabilitation Act of 1973 (P.L. 93-112, § 504; 87 Stat. 394; 29 U.S.C. 794); Public Health Service Act (P.L. 78-410, § 799A, 855; 42 U.S.C. 241); Age Discrimination Act of 1975 (P.L. 94-135; 29 U.S.C. 794).

Availability: Internal Use Only

Geographic Relevance: National; Region

Purpose: The Case Information Management System (CIMS) provides the Office for Civil Rights (OCR) with a tool to track the steps taken in

the processing of complaints and reviews. It serves as the primary mechanism for recording and reporting the status of compliance investigation and enforcement activities undertaken by OCR. The system allows OCR to meet reporting requirements as well as to respond to specific data requests. It also serves to standardize terminology and to insure that the necessary investigative steps have been taken for each case. The Case Information Management System has three subsystems which are updated at least monthly. The data are submitted by investigators after the completion of each step in the investigative process and are entered into the system by regional staff. Data collected include complaint and review information. **Input:** Data entry forms are completed in the regions by investigators. **Output:** Principal reports from the system are produced monthly. These reports include complaint report and status reports, summary reports, and institution list. Regions can also generate reports on demand.

Availability: Treasury, OMB

Geographic Relevance: National; State; (SMSA) Standard Metropolitan Statistical Area; Congressional District; County; City

Purpose: An on-line system composed of about 400 programs for all Departmental Components and Regional Offices that support direct (source) data entry of Financial Transactions from numerous terminals and can be selectively queried by users for special needs, e.g., reporting requirements. Standard software is being developed and will be maintained centrally; software may qualify for modification by the Operating Division's for unique requirements. The system will be linked, as necessary and appropriate, with the Operating Division, Regional, and other Departmental Systems, e.g., CRS, Grants and Contracts. Interface programs have been or will be developed for single source input. A capability exists for future linkage with other systems. **Input:** Object class 11 and 12 data is captured from computer tapes derived from the payroll systems. All other data are obtained from hard copy documents--obligations, payments, etc., and entered on-line to the accounting system. **Output:** Standard (26) reports are produced monthly and quarterly, including formally established formats for General Ledger, Allotments, Commitments, Obligations, Payments, Advances, and Receivables. Standard (15) table listings are produced as needed. (Easy-to-read structured format for each table.)

Payment Management System (PMS). (AMN008).

02/05/84

OMB Funding Code/Title: 75-0120-0-1-609 / General Departmental management

Program: Departmental Direction: Management and Budget

Congressional Relevance: House Committee on Ways and Means; Senate Committee on Finance; Senate Committee on Labor and Human Resources; House Appropriations Committee: Labor, Health and Human Services, and Education Subcommittee; Senate Appropriations Committee: Labor, Health and Human Services, and Education Subcommittee

Authority: Act of April 1, 1953 (P.L. 83-13; 67 Stat. 18; 42 U.S.C. 3501 note). Government Organization and Employees Act (P.L. 89-554; 80 Stat. 396; 5 U.S.C. 905).

Availability: Internal Use Only

Geographic Relevance: National; State; City; Congressional District; County; (SMSA) Standard Metropolitan Statistical Area

Purpose: The system will provide Department of Health and Human Services agencies and recipient organizations receiving grants/contracts with a central location for the payment of funds and recording of disbursements data on federal assistance type programs. The system will be on-line at the National Institutes of Health Computer Center and will provide users with financial and statistical reports in hard copy/microfilm and magnetic tape. The system will replace the Department Federal Assistance Financing System utilizing more efficient and effective state-of-the-art technology and techniques. It will provide more usable financial information than presently available. **Input:** Input consists of transactions which update the various files with new obligations, payments, recipient disbursements, and other specialized transactions. The Department of Health and Human Services agencies send obligation data via telecommunications, although CDC in Atlanta uses magnetic tape. Recipients send disbursements data by hard copy and on magnetic tape for direct input. **Output:** The Payment Management System will provide a variety of reports, including summary, financial, and statistical reports.

(105mm) microfiche, magnetic tape, and hard copy. Most reports are for internal use and for the monitoring of the Department of Health and Human Services federal funds. The prime recipient report will be sent quarterly; it will require each recipient to submit detailed disbursement data by filling in the report or by forwarding the data by magnetic tape.

Program: Departmental Direction: Management and Budget

Congressional Relevance: House Committee on Ways and Means; Senate Committee on Finance; Senate Committee on Labor and Human Resources; House Appropriations Committee: Labor, Health and Human Services, and Education Subcommittee; Senate Appropriations Committee: Labor, Health and Human Services, and Education Subcommittee

Authority: Congressional Budget Act of 1982 (P.L. 97-241, § 226, et seq.)

amended by P.L. 97-452; 96 Stat. 1607). (OMB Circular A-84).

Availability: Agency; OMB (Census)(FAADS)

Geographic Relevance: International/Foreign; National; State; (SMSA) Standard Metropolitan Statistical Area; Congressional District; County; City

Purpose: The Financial Assistance Reporting System (FARS) was established to gather financial data on the Department of Health and Human Services' programs and to report recipient obligations by geographic area. Data is gathered on a cumulative quarterly basis and for the production of an annual report. The data base is used to meet the Office of Management and Budget (OMB) reporting requirements for the annual production of the "Geographic Distribution of Federal Report" as previously required by OMB Circular A-84 and as currently authorized in Public Law 97-326, the Consolidated Federal Funds Act of 1982. The data base is also used in the production of the quarterly Federal Assistance Award Data System which is a component of the newly enacted Act. A copy of the cumulative FARS data base is provided to the House Information Systems on a quarterly basis. **Input:** The primary source of data is supplied by the Operating Divisions and Staff Divisions of the Department of Health and Human Services (HHS) on a quarterly cumulative basis. The data contains information on all programs by HHS and as contained in the Office Management and Budget Catalog of Federal Domestic Assistance. **Output:** The quarterly Federal Assistance Award Data System report is produced and furnished to Census on magnetic tape. The annual Department of Health and Human Services "Financial Assistance by Geographic Area" is prepared in hard copy book form and provided to members of Congress, state and local governments, libraries, and the public on an as needed basis.

Geographic Relevance: State; County; City

Purpose: The purpose is to record the development of all fraud and

potential fraud activities directed against the supplemental security income (SSI) program. It provides program integrity management with a means of assuring timely processing of cases. It provides management with reports that are used to evaluate the effort for detecting, detecting, and dealing with SSI Fraud. The content is: prefix, type of action; date of action; name of recipient; social security number (SSN) of recipient; type of benefit; city of recipient; state and county of recipient; servicing DO of recipient; name of suspect; SSN of suspect; city of suspect; state and county of suspect; classification of suspect; status of investigation; disposition of case; program integrity office; location office; source of complaints; date of complaints; type of violation; violation source identification; other involvement; amount of overpayment; duration of overpayment; date of indictment; date of arraignment; and the date of trial. **Input:** received daily facilitate a weekly system update. **Input:** The program integrity field staffs located in New York, Philadelphia, Chicago, Birmingham, San Francisco, Kansas City, Houston, Seattle, and Dallas are the providers of information. Data are internal and private. Four SSA-8550 is used for the input of data. **Output:** Reports are prepared monthly on magnetic tape (which provides hardcopy printouts) and deal with workload processing, age of pending cases by status and violation, disposition of closed cases by potential violation, average processing time (days) of closed cases by disposition, pending cases (alphabetically and date received), and geographic concentration. It is possible to query part or all information from the data base.

Alcohol, Drug Abuse, and Mental Health Administration

S00503-002

National Drug and Alcoholism Treatment Utilization Survey (NDATUS). (HMH 027).

OMB Funding Code/Title: 75-1361-0-1-550 / Alcohol, drug abuse, and mental health

Program: Drug Abuse

Congressional Relevance: House Committee on Energy and Commerce; Senate Committee on Labor and Human Resources; House Appropriations Committee: Labor, Health and Human Services, and Education Subcommittee; Senate Appropriations Committee: Labor, Health and Human Services, and Education Subcommittee

Authority: Drug Abuse Office and Treatment Act of 1972 (P.L. 92-255); Health Professions Educational Assistance Act of 1972 (P.L. 91-616); Health Professions Educational Assistance Act of 1976 (P.L. 94-484).

Availability: Agency

Geographic Relevance: National; State

Purpose: NDATUS is a biennial voluntary survey of all alcohol and drug abuse treatment, prevention and service facilities in the country. The purpose of the survey is to conduct a national inventory of all facilities offering drug and alcoholism treatment, preventing DWI and other related services within the United States and its territories, both public and privately funded. NDATUS is jointly funded by the National Institute on Drug Abuse (NIDA) and the National Institute on Alcohol Abuse and Alcoholism (NIAAA), and collects the following information: unit identification data; types and scope of services provided; and client census. These data are used by both Institutes for epidemiologic and research purposes through the use of the universe for sample surveys and to ascertain the location and types of treatment available. Information is also collected from, and for, the Veterans Administration, the Federal Prison System, and the Administrative Office of the U. S. Courts. **Input:** A one-page form is forwarded for completion to each treatment, prevention and service unit in the data base. The Single State Agency in each state (drug, alcohol, or combined) is responsible for identifying and updating information on new or closed units in their state, performance of quality control and consistency checks on the forms, and submission of these to the federal contractor for inclusion in the national data base. **Output:** National and state level reports are produced from the NDATUS information. In addition, computer tapes of each state's data are made available to the state. Special reports and requests are also produced for other federal agencies as requested. Information requests can be filled by reports, tables, charts, and other displays in a hardcopy format or by computer tape. A National Directory of Treatment and Prevention Programs is a major by-product of the system and

S00503-004

Research Grants Application System. (HMM 003).

OMB Funding Code/Title: 75-1361-0-1-550 / Alcohol, drug abuse, and mental health

Program: General Mental Health Research

Congressional Relevance: House Committee on Energy and Commerce; Senate Committee on Labor and Human Resources; House Appropriations Committee: Labor, Health and Human Services, and Education Subcommittee; Senate Appropriations Committee: Labor, Health and Human Services, and Education Subcommittee

Authority: Public Health Service Act (P.L. 78-410, § 472)

Availability: Agency

Geographic Relevance: National, State; City

Purpose: The Research Grants Application System is a management information system for use in research grant analysis, planning, and administration by the components of the National Institute of Mental Health (NIMH) research grant program. All NIMH research grant applications are entered. Application content inquiries are also handled. These come from various NIMH or Agency staff as well as the general public. The information on file consists of all administrative facts about a research grant application, such as title, investigator, budget and project dates, sponsoring institution, location down to city, review action, and funding. The information is updated every 2 weeks via NIH tapes. The system also includes content coding of the proposed research and later coded information about the research from the final report. The content coding is updated whenever an applicant recompetes for support. **Input:** Objective grant data (title, investigator, dates, etc.) are obtained by tape from Division of Research Grants, NIH. Content coding of applications is done by NIMH professional staff, in the Research Planning and Evaluation Branch, OPDPE. Data from final reports submitted by grantees are also entered. **Output:** Frequent reports on management information which are content searches are produced. Yearly output includes NSF report, case report, NIH survey, and a data sourcebook. The system puts out about 400 requests per year. Output is possible in a large variety of media such as cards, tapes, etc.

S00503-005

Saint Elizabeth's Hospital Information Reporting System. (HMM 022).

OMB Funding Code/Title: 75-1300-0-1-551 / Federal subsidy for Saint Elizabeth's Hospital

Program: Program Support

Congressional Relevance: House Committee on Energy and Commerce; Senate Committee on Labor and Human Resources; House Appropriations Committee: Labor, Health and Human Services, and Education Subcommittee; Senate Appropriations Committee: Labor, Health and Human Services, and Education Subcommittee

Authority: Public Health Service Act (P.L. 78-410)

Availability: Internal Use Only

Geographic Relevance: Public Health Service Hospital

Purpose: This system is designed both to provide program managers with data about their operation on a periodic basis to monitor and evaluate performance, as well as to provide clinicians with patient treatment data. The system includes data about patients on the rolls at Saint Elizabeth's Hospital and descriptive data about fiscal and physical support programs. The data pertain to items of inventory, equipment numbers, and kinds of patients. **Input:** As a series of related subsystems, input varies from patient movement data, supply and inventory data, medical data, lab results, fiscal data, and department personnel and financial systems. Data sources include a variety of hospital programs. **Output:** Output includes patient statistics, inventory reports, equipment lists, manpower and financial reports. It also includes information required to support patient billing and an accounts receivable function.

Agency Contact: Alcohol, Drug Abuse, and Mental Health Administration. (202) 574-7330.

Congressional Relevance: House Committee on Energy and Commerce; Senate Committee on Labor and Human Resources; House Appropriations Committee: Labor, Health and Human Services, and Education Subcommittee; Senate Appropriations Committee: Labor, Health and Human Services, and Education Subcommittee

Authority: Public Health Service Act (P.L. 78-410) Developmental Disabilities Services and Facilities Construction Act (P.L. 88-164), Narcotic Addict Rehabilitation Act of 1966 (P.L. 89-793), Comprehensive Alcohol Abuse and Alcohol Prevention, Treatment, and Rehabilitation Act of 1970 (P.L. 91-616).

Availability: Agency

Geographic Relevance: National; State

Purpose: The purpose of this system is to provide accurate and timely information on all Alcohol, Drug Abuse and Mental Health Administration (ADAMHA) contracts. This system contains all financial and other administrative information necessary to manage contracts awarded and administered by the Agency and to report FY obligations to the Department Contract Information system and the Federal Procurement system. **Input:** Information is gathered from ADAMHA contracting officers.

Output: This system provides reports to management on Alcohol, Drug Abuse, and Mental Health Administration contracts. Related reports are available for ADAMHA users.

Agency Contact: Alcohol, Drug Abuse, and Mental Health Administration. (301) 443-3424.

S00503-008

Community Mental Health Center Management Information System (CMHC/MIS). (HMM 019).

OMB Funding Code/Title: 75-1361-0-1-550 / Alcohol, drug abuse, and mental health

Program: Mental Health

CFDA NO.: 13.240; 13.295

Congressional Relevance: House Committee on Energy and Commerce; Senate Committee on Labor and Human Resources; House Appropriations Committee: Labor, Health and Human Services, and Education Subcommittee; Senate Appropriations Committee: Labor, Health and Human Services, and Education Subcommittee

Authority: Mental Retardation Facilities and Community Mental Health Center Construction Act of 1963 (P.L. 88-164, title II, § 202; 77 Stat. 290; 42 U.S.C. 2682 et seq.).

Availability: Agency; GPO

Geographic Relevance: National; State; City; Congressional District

Purpose: This management information system provides a variety of information on the community mental health centers funded by the National Institute of Mental Health through 1982. This system compiles information on the composition of the community mental health centers (lead agency and affiliates), sponsorship, services provided, types and amounts of grants awarded, poverty and operational status, and a brief narrative description of the service area and the program thrust. The results of monitoring visits and other topics are also summarized. Data are provided for 1968 and subsequent years through 1982, although since 1981 it is on a limited basis due to reduced data processing services. An update of the 1981 CMHC directory is in process. **Input:** Data for this system were obtained primarily from grant applications, grant awards, and reports pursuant to monitoring visits. CMHC construction grantees continue to be monitored. **Output:** The system generates the following hardcopy reports on request and annually: complete listings of community mental health centers; the number of centers operational and funded by state and by region, including poverty status; overview of grant monitoring; listings of services offered by centers and affiliates; population data on the service areas and cities in which the centers are located; and all grants awarded to each center, together with the award amounts, dates, and other identifying information.

Agency Contact: Alcohol, Drug Abuse, and Mental Health Administration. (301) 436-6278.

Centers for Disease Control

S00504-001

Registry of Toxic Effects of Chemical Substances. (HCC 009).

OMB Funding Code/Title: 75-0943-0-1-550 / Disease control

Program: Occupational Health: Direct Operations

Congressional Relevance: *House Committee on Education and Labor; House Committee on Energy and Commerce; Senate Committee on Labor and Human Resources; House Appropriations Committee: Labor, Health and Human Services, and Education Subcommittee; Senate Appropriations Committee: Labor, Health and Human Services, and Education Subcommittee*

Authority: Occupational Safety and Health Act of 1970 (P.L. 91-596).

Availability: GPO

Purpose: The purpose of the system is to accomplish the National Institute of Occupational Safety and Health (NIOSH) mandate in the Occupational Safety and Health Act of 1970 to publish "at least annually, a list of all known toxic substances by generic family or other useful grouping, and the concentrations at which such toxicity is known to occur." Since the list now includes 22,000 chemicals and 81,000 synonyms, a data processing capability is needed for updating, correcting, and searching the file. The audience is anyone who works with or makes decisions about the use of chemicals. The system contains unevaluated toxicity information on the chemicals whose effects are acute lethal animal toxicity; carcinogenic, teratogenic and mutagenic effects in experimental animals; and any human toxic effects correlated to a published dose of the chemical. In addition to the toxicity data, as made available, there has been added the molecular weight and formula, Wiswesser line notation, Chemical Abstracts registry number, synonyms, and pertinent occupational health standards. The descriptions, unevaluated toxicity data with original document references, and standards present a hazard profile of the chemical and its effects. The file is updated monthly with information from new references. The references are as old as 80 years. **Input:** The primary sources of data are published reports and unpublished data. The published reports are the world literature of toxicity. The unpublished data come from industry sources, government reports, and academic institutions. **Output:** A book containing all data is published annually. Subfiles of the data are also published to identify substances which may warrant additional research or standards. Computer tapes are available on request, and batch searches can be done. The file is machine-searchable by the chemical structure, empirical formula, and certain classifications such as carcinogens, mutagens, teratogens, drugs, and agricultural chemicals.

Agency Contact: Centers for Disease Control. (513) 684-8317.

S00504-002

National Institute of Occupational Safety and Health Technical Information System (NIOSH-TIC). (HCC 013).

OMB Funding Code/Title: 75-0943-0-1-550 / Disease control

Program: Occupational Health: Direct Operations

Congressional Relevance: *House Committee on Education and Labor; House Committee on Energy and Commerce; Senate Committee on Labor and Human Resources; House Appropriations Committee: Labor, Health and Human Services, and Education Subcommittee; Senate Appropriations Committee: Labor, Health and Human Services, and Education Subcommittee*

Authority: Occupational Safety and Health Act of 1970 (P.L. 91-596).

Availability: Agency

Purpose: The purpose of the system is to create a universe of indexed technical information. The system will provide information from published documents and also information from unpublished internal non-confidential files. The audience will be National Institute of Occupational Safety and Health (NIOSH) employees and the occupational health and safety community. The data are composed of occupational safety and health related data. The articles are abstracted by a contractor and also key-worded. The system created is a document storage and retrieval system based on keywords in an abstract. The data are stored on a disk pack and accessed through Time Sharing Option. The data are updated periodically. **Input:** The primary sources of data are journals, conference proceedings, technical reports, and other publications. Other sources are nonconfidential internal NIOSH correspondence and reports.

Output: The output is a hardcopy printout on computer paper. It is generated as needed. The system is queried through TSO or batch.

Agency Contact: Centers for Disease Control. (513) 684-8474.

S00504-003

Occupational Health Field Research Studies. (HCC 018).

OMB Funding Code/Title: 75-0943-0-1-550 / Disease control

Program: Occupational Health: Direct Operations

Congressional Relevance: *House Committee on Education and Labor; House Committee on Energy and Commerce; Senate Committee on Labor and Human Resources; House Appropriations Committee: Labor, Health and Human Services, and Education Subcommittee; Senate Appropriations Committee: Labor, Health and Human Services, and Education Subcommittee*

Authority: Occupational Safety and Health Act of 1970 (P.L. 91-596)

Availability: Internal Use Only

Purpose: The Occupational Health Field Research Studies System processes and analyzes environmental, medical, and demographic data on industrial employees. The statistical summaries generated by the system are used by National Institute of Occupational Safety and Health (NIOSH), Department of Labor, and other Agencies. The data in the system are environmental, medical, and demographic data collected from employees. The employees sign a consent form to allow NIOSH to collect the data. The data are used to determine any health problems in industry. **Input:** The data for the system are provided by NIOSH health hazard evaluations and clinical investigations conducted by NIOSH. Information is also supplied from technical assistance provided to industry by NIOSH. **Output:** Statistical hardcopy reports are produced as needed. Most of the computer work is done by a NIOSH contractor who accesses the system by batch. Industry and unions receive reports, but they do not receive personal identifiers. Therefore, only NIOSH knows the results of the investigations. The employees who participate in the study are notified of their test results by mail.

Agency Contact: Centers for Disease Control. (513) 684-4382.

S00504-004

National Occupational Hazard Survey Data Projection System. (HCC 004).

OMB Funding Code/Title: 75-0943-0-1-550 / Disease control

Program: Occupational Safety and Health: Scientific/Technical Services

Congressional Relevance: *House Committee on Education and Labor; House Committee on Energy and Commerce; Senate Committee on Labor and Human Resources; House Appropriations Committee: Labor, Health and Human Services, and Education Subcommittee; Senate Appropriations Committee: Labor, Health and Human Services, and Education Subcommittee*

Authority: Occupational Safety and Health Act of 1970 (P.L. 91-596)

Purpose: The purpose of this system is to respond to queries on individual exposure levels for selected hazardous occupations and industries. This system contains information on urban industries covered by the Occupational Safety and Health Act. Information collected includes exposure of employees to chemical, physical, and biological hazards. **Input:** Input data are collected from National Institute of Occupational Safety and Health-generated survey data. **Output:** Output from the system includes statistical selected exposure levels and National Institute of Occupational Safety and Health surveyor reports.

Agency Contact: Centers for Disease Control. (513) 684-2706.

S00504-005

Coal Miner Medical Information Processing System. (HCC 007).

OMB Funding Code/Title: 75-0943-0-1-550 / Disease control

Program: Occupational Safety and Health

Congressional Relevance: *House Committee on Education and Labor; House Committee on Energy and Commerce; Senate Committee on Labor and Human Resources; House Appropriations Committee: Labor, Health and Human Services, and Education Subcommittee; Senate Appropriations Committee: Labor, Health and Human Services, and Education Subcommittee*

Authority: Coal Mine Health and Safety Act of 1969, as amended.

Geographic Relevance: National; State

Purpose: The purpose of this system is to maintain results of X-rays and detect the development of pneumoconiosis. The system covers all underground coal miners in the United States and contains x-rays, medical examinations, and the results of interviews. **Input:** The information is gathered from medical examinations and occupational history and individual questioning. **Output:** Outputs from this system include letter reports and statistical reports regarding the results of X-rays and medical examinations of coal miners.

Agency Contact: Centers for Disease Control (FIS) 923-4306.

S00504-006

National TB Statistics System (ST01). (HCM 014).

OMB Funding Code/Title: 75-0943-0-1-550 / Disease control

Program: Disease Control

Congressional Relevance: House Committee on Education and Labor; House Committee on Energy and Commerce; Senate Committee on Labor and Human Resources; House Appropriations Committee: Labor, Health and Human Services, and Education Subcommittee; Senate Appropriations Committee: Labor, Health and Human Services, and Education Subcommittee

Authority: Public Health Service Act (P.L. 78-410).

Purpose: The purpose of this system is to monitor the status of the tuberculosis problem in the United States. The system contains information gathered from state and local tuberculosis control programs. Information collected from these sources include statistical summaries, geographical area reports, case registers, contacts, laboratory results, drugs, case treatment, and therapy population estimates. **Input:** Information is generated from case details. **Output:** The products of this system include statistical profiles, special studies, projections and evaluations of programs, and annual statistical summaries by state and city.

Agency Contact: Centers for Disease Control. (404) 329-2508.

Food and Drug Administration

S00505-001

Drug Information System (ASTRO-4). (HFN 001).

OMB Funding Code/Title: 75-0600-0-1-554 / Program expenses

Program: Drugs and Devices

Congressional Relevance: House Committee on Energy and Commerce; Senate Committee on Labor and Human Resources; House Appropriations Committee: Agriculture, Rural Development and Related Agencies Subcommittee; Senate Appropriations Committee: Agriculture and Related Agencies Subcommittee

Authority: Tea Importation Act (P.L. 29-358). Import Milk Act of 1927 (P.L. 69-625). Public Health Service Act (P.L. 78-410). Federal Food, Drug, and Cosmetic Act (P.L. 75-717).

Availability: Internal Use Only

Geographic Relevance: State; City

Purpose: The ASTRO-4 Drug Information System was designed and developed to provide information relating to Investigational New Drug Applications (INDs), New Drug Applications (NDAs), Abbreviated New Drug Applications (ANDAs), and Antibiotic Form 5s and Form 6s. Data in the various files of the system support the new drug evaluation process, the preparation of special purpose reports on individual or classes of drugs, compliance programs, and major publications, such as the Approved Prescription Drug Products With Therapeutic Equivalence Evaluations. Information that supports ASTRO-4 processing and report generation comes from data that have been collected since 1938. The ASTRO-4 data base comprises approximately 85,500 records (44,740 INDs and 40,760 NDAs, ANDAs, Form 5s and Form 6s) for a total of 100 million bytes of data. The principal data in the ASTRO-4 files are related to drug formulation, activity, use, and legal status. These data include the following: document/product number, application holder, drug composition, use and supporting information (e.g., legal status and supporting documents). Levels of geocoding are FDA districts and city/state for application holder. Internal (FDA) and external (FOI) requests for ad hoc reports from the ASTRO-4 file number approximately 50 per month. **Input:** Selected data from IND/NDA bound jackets and correspondence are extracted onto coding sheets for data

entry on a minicomputer system with on-line editing capability. Chemists identify ingredients in an application, and the name, structure, and molecular formula are placed into a manual and automated chemical nomenclature file. Data are reviewed by pharmacists and technical information specialists to assure conformity with Center for Drugs and Biologics standards. **Output:** The system output is in the form of standard hardcopy and computer output microfiche (COM). Master listings are produced at least monthly containing all file data elements used for internal system maintenance. Ad hoc reports are produced upon request for internal users, principally reviewing officers, approximately 40 times per month. Standard reports are produced for internal purposes and FOI requests. Special purpose reports are supported by ASTRO-4 and particularly the major publication Approved Prescription Drug Products With Therapeutic Equivalence Evaluations. All of these reports are produced in the batch mode. Other Center files are coordinated with and depend on this system. NDAs are now available via on-line query.

Agency Contact: Food and Drug Administration. (301) 443-2836

S00505-002

Drug Product Problem Reporting System. (HFN 004).

OMB Funding Code/Title: 75-0600-0-1-554 / Program expenses

Program: Drugs and Devices

Congressional Relevance: House Committee on Energy and Commerce; Senate Committee on Banking, Housing, and Urban Affairs; House Appropriations Committee: Labor, Health and Human Services, and Education Subcommittee; Senate Appropriations Committee: Labor, Health and Human Services, and Education Subcommittee

Authority: Tea Importation Act (P.L. 29-358). Import Milk Act of 1927 (P.L. 69-625). Public Health Service Act (P.L. 78-410). Federal Food, Drug, and Cosmetic Act (P.L. 75-717).

Availability: Agency

Purpose: The Drug Product Problem Reporting System is a voluntary, spontaneous reporting system, dependent upon hospital and community pharmacists and nurses voluntarily reporting drug defects to the Food and Drug Administration (FDA) via the U.S. Pharmacopeia (USP). The FDA shares the information with the USP and the American Society of Hospital Pharmacists. The system is used to help determine if the reported defect is peculiar to the product itself, might occur in other products made by that company, or is an industry-wide phenomenon. FDA also pursues compliance action as deemed appropriate. The system maintains a single comprehensive file of voluntarily submitted reports from hospital and community pharmacists and nurses on defective drug products. The data base is cumulative from 1972. It is updated weekly. The principal data elements are National Drug Code (NDC), drug name, manufacturer, address (uses USPS state and zip codes), defect, and report text. **Input:** Initial input to the system is the three problem reports (Hospital Pharmacists' Drug Problem Report, Community Pharmacists' Drug Problem Report, and the Nurse's Drug Problem Report) which are submitted directly to the USP by hospital pharmacists (55 percent), community pharmacists (31 percent) and nurses (14 percent). The USP acknowledges the reports, prepares them for keytaping by transposing data from the relatively free-form defect report to the fixed form problem coding sheet, and enters the data on a minicomputer. Internal data relative to report follow-up are entered on a coding form by personnel in the compliance area and entered into the system using the minicomputer. **Output:** A cumulative basic report log is used for internal review and reference is produced with each update. A quarterly alphabetic report of drugs reported is produced for internal maintenance functions (review, reference, elimination of duplicate reports). Reports by FDA district are produced semiannually and sent to respective districts for use in inspections. Internal reports and reports mailed to the districts are computer-generated hardcopy. The system is programmed in the MARK IV File Management System to allow for batch mode retrieval.

Agency Contact: Food and Drug Administration. (301) 443-2836.

S00505-003

Drug Experience Information System. (HFN 008).

OMB Funding Code/Title: 75-0600-0-1-554 / Program expenses

Program: Drugs and Devices

Congressional Relevance: House Committee on Energy and Commerce; Senate Committee on Labor and Human Resources; House Appropriations Committee: Agriculture, Rural Development and Related

S00505-003

Agencies Subcommittee; Senate Appropriations Committee: Agriculture and Related Agencies Subcommittee

Authority: Tea Importation Act (P.L. 29-358). Import Milk Act of 1927 (P.L. 69-625). Public Health Service Act (P.L. 78-410). Federal Food, Drug and Cosmetic Act (P.L. 75-717).

Availability: Internal Use Only

Purpose: The Drug Experience Information System maintains data files of drug experience case reports related to both marketed (primarily) and investigational drugs. The reports are submitted either as a requirement of law by drug manufacturers or as voluntary information by health professionals, hospitals, and the public. Computer reports are generated to assist the Agency in evaluating trends in drug experience and in preparing reports for dissemination within and without the Agency regarding the significance of the epidemiological aspects of the drug experience information. The DEIS data base currently contains two files (AROLD from 1966-1968 and ARNEW from 1969 to present) which contain 10,000 and 90,000 cases respectively, for a total of 58.5 million bits of drug experience data. The ARNEW file grows by approximately 1,000 case reports per month. The system is operated in batch mode and programmed in the MARK IV File Management System, with updates scheduled weekly. Original collection of data began in 1966. The file content consists of patient demographic data, patient adverse reactions experienced (maximum of four) with associated severity, outcome, factors, categories, and dates; names of drugs taken (maximum of five) with associated manufacturer, identifying numbers, administration data, therapeutic indication, interaction evaluation, causal relationship to the adverse reactions, category and previous history of usage indicators. **Input:** Adverse drug reaction cases are reported voluntarily by hospitals, physicians, and the public. FDA regulation requires the reporting of cases by manufacturers of drugs. Data are extracted from letters or forms and entered on a minicomputer system with on-line editing capability. **Output:** The principal output is hardcopy reports produced quarterly for internal use. All queries are made in batch mode against the entire file or subsets based on drugs, adverse reactions or both; but no queries are made on individual adverse drug experience reports. Many ad hoc FOI reports are also produced. A microfilm copy is made of all the original drug experience reports for internal use.

Agency Contact: Food and Drug Administration. (301) 443-2836.

S00505-004

Drug Registration and Listing System. (HFN 015).

OMB Funding Code/Title: 75-0600-0-1-554 / Program expenses

Program: Drugs and Devices

Congressional Relevance: House Committee on Energy and Commerce; Senate Committee on Labor and Human Resources; House Appropriations Committee: Agriculture, Rural Development and Related Agencies Subcommittee; Senate Appropriations Committee: Agriculture and Related Agencies Subcommittee

Authority: Tea Importation Act (P.L. 29-358). Import Milk Act of 1927 (P.L. 69-625). Public Health Service Act (P.L. 78-410). Federal Food, Drug and Cosmetic Act (P.L. 75-717).

Availability: GPO

Purpose: The Drug Registration and Listing System maintains files of drug establishments registered with the Food and Drug Administration and product data submitted by drug establishments as required by the Drug Listing Act of 1972. An inventory of marketed drugs and establishments, the system provides information to organizational units within the Agency to assist in regulatory activities. The system contains human drugs, biologicals, in vitro diagnostic products, and veterinary drugs. Data entry is performed on a minicomputer system with on-line editing capability. Both reports are programmed in the MARK IV File Management System. Registration data are updated annually and product data semiannually or as needed by drug establishments. Data maintained include establishment name, FDA registration number, address (uses USPS state and zip codes), types of business engaged in, types of products marketed, and years registered with FDA. Product data include name, class, legal status, ingredients, and dosage. When the data base of the current system is complete, it will contain data pertaining to all marketed drugs in commercial distribution.

the National Drug Code Directory, lists of approved drugs for state governments, and computer-prepared registration forms. Internal reports are used for editing data, in support of compliance programs, and to answer FOI requests and inquiries from other units within the Center for Drugs and Biologics and the Department.

Agency Contact: Food and Drug Administration. (301) 443-2836.

S00505-005

Compliance Activities Planning and Evaluation System (CAPES). (HFN 0031).

OMB Funding Code/Title: 75-0600-0-1-554 / Program expenses

Program: Radiological Products

Congressional Relevance: House Committee on Energy and Commerce; Senate Committee on Labor and Human Resources; House Appropriations Committee: Agriculture, Rural Development and Related Agencies Subcommittee; Senate Appropriations Committee: Agriculture and Related Agencies Subcommittee

Authority: Tea Importation Act (P.L. 29-358). Import Milk Act of 1927 (P.L. 69-625). Public Health Service Act (P.L. 78-410). Federal Food, Drug and Cosmetic Act (P.L. 75-717).

Availability: Agency

Geographic Relevance: National; State; City

Purpose: The major intent of the Automated Compliance Activities Planning and Evaluation System (CAPES) is to assist the Center in control, analysis, and decision-making with respect to data submitted under requirements of the Radiation Control for Health and Safety Act. The system provides the Center with the ability to keep track of pertinent compliance data, to combine data from several sources, to perform complex calculations and estimations, and to compare results with requirements of applicable performance standards. Manufacturer's data include identification and location of the manufacturer and the system of concern. Assembler's data include location of the X-ray system, intended use of the system, system description, system type, date of installation and, for the list of certified compatible components that the assembler installed, the type, manufacturer, model, and serial number. Field test data include results of technical measurements and calculations, and parameters at which a specified examination would have been performed. The master files are updated daily as data become available. **Input:** Data are provided from three sources: manufacturers of electronic products which fall under the standard(s), assemblers of complete x-ray systems, and field personnel who perform compliance surveys on the equipment. Assemblers of diagnostic x-ray systems supply the Center with coded, descriptive data on certified compatible components that they install. Field test data is supplied to the Center by federal/state personnel who perform equipment surveys. **Output:** The system routinely (monthly) produces a statistical summary of reports received for review. The report is broken down by type of product (consumer, industrial, or X-ray), and by specific product. Graphical output in the form of histograms or fitted curves is accomplished with graphic display terminals. The system supports a comprehensive query capability which allows the user to interactively search and query files and generate output on demand.

OMB Funding Code/Title: 75-0600-0-1-554 / Program expenses

Program: Drugs and Devices

Congressional Relevance: House Committee on Energy and Commerce; Senate Committee on Labor and Human Resources; House Appropriations Committee: Agriculture, Rural Development and Related Agencies Subcommittee; Senate Appropriations Committee: Agriculture and Related Agencies Subcommittee

Authority: Federal Food, Drug, and Cosmetic Act (P.L. 75-717).

Purpose: The purpose of this system is to maintain information relative to the receipt and review of investigational new drugs, new drug applications, and related types of submissions within the Office of Drug Research and Review and Office of Biologics Research and Review. The system contains information on investigational new drugs, new drug applications, and related types of submissions. Also included is information related to the review of submissions. Also included is information related to the review of submissions.

records. Data entry is accomplished on-line through a microcomputer system. **Output:** Products of the system are hardcopy reports on investigational new drugs and new drug applications. Management reports are available via on-line query.

Program: Health Facilities Construction

Congressional Relevance: House Committee on Energy and Commerce; Senate Committee on Labor and Human Resources; House Appropriations Committee: Labor, Health and Human Services, and Education Subcommittee; Senate Appropriations Committee: Labor, Health and Human Services, and Education Subcommittee

Authority: Public Health Service Act (P.L. 78-410); National Health Planning and Resources Development Act of 1974 (P.L. 93-641).

Availability: Agency

Geographic Relevance: National; State; Agricultural Product Regions

Purpose: This system is designed to generate management reports specifically designed to show the extent to which federally-aided health facilities are in compliance with the federal regulations on uncompensated services for persons unable to pay and the community service obligation. Data acquired include identification data on each facility, compliance selected, the amount of uncompensated service provided, facility's operating costs, inpatient and outpatient data, and other data certifying that the facility is providing a community service. There is an annual updating process. **Input:** Facilities submit completed reporting forms to the DHHS regional offices. After reviewing the forms the RCO's transmit pertinent data to OHT/BIHMORD. Approximately 6700 health facilities around the country send reports into the system. **Output:** Management reports are produced, including a listing of facilities determined to be out of compliance with regulations. These reports are distributed in hardcopy to selected personnel in the central office, regional offices, and state agencies on a continuous basis.

S00506-005

Hill-Burton Grant and Loan ADP System. (HBA 001).

OMB Funding Code/Title: 75-0712-0-1-551 / Health resources

Program: Health Facilities Construction

Congressional Relevance: House Committee on Energy and Commerce; Senate Committee on Labor and Human Resources; House Appropriations Committee: Labor, Health and Human Services, and Education Subcommittee; Senate Appropriations Committee: Labor, Health and Human Services, and Education Subcommittee

Authority: Public Health Service Act (P.L. 78-410, § 720, 729, 801, 805); National Health Planning and Resources Development Act of 1974 (P.L. 93-641).

Availability: Internal Use Only

Geographic Relevance: State; (SMSA) Standard Metropolitan Statistical Area; Congressional District; National; Regional

Purpose: This system supports grant and loan administration of the Hill-Burton programs which provide assistance to health care facilities for new construction or modernization. It includes information on approximately 12,000 projects approved for construction or modernization of health facilities. Types of data collected include total cost of the project, federal share, type of facility, type of construction, and number of inpatient beds provided. The system is a batch processing system for data submitted from the Hill-Burton state agencies. These data are used to generate project registers, progress reports, and analytical reports for congressional and budget usage. **Input:** Project applications from health facilities requesting aid and state plans from Hill-Burton state agencies comprise the input for the system. **Output:** The system produces management summary reports through varied batch processing of input and output reports.

S00506-010

Loan Monitoring System. (HBN 003).

OMB Funding Code/Title: 75-4430-0-3-551 / Medical facilities guarantee and loan fund

Program: Direct Loan Program; Interest Expense Paid to FFB

Congressional Relevance: House Committee on Energy and Commerce; Senate Committee on Labor and Human Resources; House Appropriations Committee; Labor, Health and Human Services, and Education Subcommittee; Senate Appropriations Committee; Labor, Health and Human Services, and Education Subcommittee

Authority: Public Health Service Act, as amended (P.L. 78-410). National Health Planning and Resources Development Act of 1974 (P.L. 93-641). Health Planning and Resources Development Amendments of 1979 (P.L. 96-79). National Housing Act (P.L. 92-213).

Availability: Agency

Geographic Relevance: National; State; City; County; HHS Region

Purpose: The system provides key Office of Health Facilities (OHF) and Department of Health and Human Services regional office professionals with the information needed to improve methods used to make financial review decisions, improve loan risk assessments, and reduce the possibility of a loan default by a health facility funded or insured against default by the federal government. The loan monitoring system masterfile consists of master records containing audited annual financial information for over 500 health facilities funded under Titles VI and XVI of the Public Health Service (PHS) Act and the mortgage insurance program of Title II of the National Housing Act. The period covered by the file is 1975 to present. A minimum of five years of financial information is necessary in order to compute meaningful trends and projections through the use of linear regression methods. The same system is projected to be used in two other ways in the OHF: first, as a means to determine a facility's ability to provide free care under the assurances monitoring program; and second, as a means to determine whether a facility should be a candidate for a conversion or discontinuance grant. Both of these functions are provided for under Title XVI of the PHS Act. **Input:** Input data come from audited financial statements and/or forms SSA-2551 and SSA-2552. **Output:** Output is trends and projected financial and statistical ratios for each facility in the file, based upon the previous five years of audited financial data.

Agency Contact: Health Resources and Services Administration. (301) 443-3608.

S00506-012

Area Resource File System (ARFS). (HBP 005).

OMB Funding Code/Title: 75-0350-0-1-550 / Health resources and services

Program: Health Planning

Congressional Relevance: House Committee on Energy and Commerce; Senate Committee on Labor and Human Resources; House Appropriations Committee; Labor, Health and Human Services, and Education Subcommittee; Senate Appropriations Committee; Labor, Health and Human Services, and Education Subcommittee

Authority: Public Health Service Act, as amended (P.L. 78-410). Health Professions Education Assistance Act of 1976 (P.L. 94-484 &

and its mandated programs of research and analysis of the geographic distribution and maldistribution of health manpower and the identification and designation of health manpower shortage areas; analysis of health manpower supply, utilization, requirements, costs, and related issues; and dissemination of health manpower data and analyses. The Master Area Resource File is a county-unit data base with over 8,000 data elements for each county in the United States with the exception of Alaska for which there is a state total, and certain independent cities which have been combined into their appropriate counties. Altogether, there is a total of 3,677 records on the file. The file summarizes data from many disparate sources into a single file in facsimile health manpower analysis. The time period covered varies according to data element. Trend data are available for most major data elements. **Input:** The data contained in the data file for this system are drawn from national surveys conducted by major professional associations (American Medical Association, American Hospital Association, etc.) and major federal statistical agencies (Bureau of Census, National Center for Health Statistics, etc.). Major categories of data are Health Professions, Health Facilities, Health Training, Population Characteristics, Economic, Utilization Expenditures, and Environment. **Output:** The frequency of system output varies and includes the following: Master Tape--quarterly, Basic Area and Ranking Profiles--annually, and 52 Volume State Pub--bi-monthly.

S00506-013

On-Request Reports. (HBN 011).

OMB Funding Code/Title: 75-0390-0-1-551 / Indian health

Program: Program Management

Congressional Relevance: House Committee on Energy and Commerce; House Committee on Interior and Insular Affairs; Senate Committee on Energy and Natural Resources; House Appropriations Committee; Interior Subcommittee; Senate Appropriations Committee; Interior Subcommittee

Authority: Public Health Service Act (P.L. 78-410). Indian Self-Determination and Educational Assistance Act (P.L. 93-638). Indian Health Care Improvement Act (P.L. 94-437).

Availability: Internal Use Only

Geographic Relevance: National; State; County

Purpose: The purpose of the Indian Health Service (IHS) On-Request Report System is to assist IHS personnel at all levels in making management and planning decisions. It is designed to eliminate the periodic generation of reports that are important but required at infrequent and infrequent times. The data utilized are primarily epidemiological, including health problems encountered, immunizations, laboratory tests ordered, community of patient residence (community/county/state codes) and codes of facility or organization providing the service. Data bases are updated monthly and maintained chronologically by provider organization. The system is basically statistical, with minimal aggregation of data by patient. The system provides an inexpensive means of meeting special data need through batch processing techniques. **Input:** The source of data is primarily data bases collected by the other systems. The current on-request report system utilizes the files of health related data which are collected each time services are provided to an individual (outpatient visits, Public Health Nursing (PHN) visits, dental visits, inpatient discharges, mental health and social service visits, community health representative visits, and contract health care services. Categories of input data are services rendered, epidemiological data, and health team member activities. The data are collected by IHS personnel for internal use and are confidential if personal information is included. **Output:** Batch reports are prepared when requested for management in hardcopy form and are mailed to the requesting health care and management teams. They include epidemiological and health team activity reports (meetings, consultations, patient encounters, training, etc.). The reports are principally epidemiological in nature, with emphasis on health problems by community or residence.

Agency Contact: Health Resources and Services Administration. (301) 443-6920.

prophylaxis Committee: Labor, Health and Human Services, and Education Subcommittee; Senate Appropriations Committee: Labor, Health and Human Services, and Education Subcommittee

Authority: Public Health Service Act (P.L. 78-410, § 331).

Availability: Federal Register

Geographic Relevance: County, Census Tract and Minor Civil Division (MCD)

Purpose: This system is designed to provide a means for identifying and designating medically underserved areas. These designated areas will be allocated health resources and services on a preferential basis by programs with legislated mandates to do so. This system contains information on active physicians, infant mortality, percentage of population under poverty level, and percentage of population age 65 and over. Information is collected for all counties, minor civil divisions/census county divisions, and census tracts in the United States. **Input:** Data are obtained from the National Center for Health Statistics, U.S. Census, American Medical Association, American Osteopathic Association, and other agencies. **Output:** This system produces reports used in the identification of priority areas for funding under community health centers, health maintenance organizations, and health facilities legislation

Agency Contact: Health Resources and Services Administration. (301) 443-2210.

S00506-015

Indian Health Service Health Care Statistics System. (HBN 002).

OMB Funding Code/Title: 75-0390-0-1-551 / Indian health

Program: Patient Care

Congressional Relevance: House Committee on Energy and Commerce; Senate Committee on Environment and Public Works; House Appropriations Committee: Interior Subcommittee; Senate Appropriations Committee: Interior Subcommittee

Authority: Public Health Service Act (P.L. 78-410, § 509).

Availability: Internal Use Only

Geographic Relevance: National; State; County

Purpose: The purpose of this system is to provide information on Indian Health Services. Data are provided on services rendered and health problems in such areas as immunization programs and family planning. The system also provides improved direct patient care through the establishment of various registers. This system contains epidemiological data and health team activity data (e.g., meetings, consultations). Information is collected for the entire Indian Health Service population. **Input:** Information is collected from records of those patients served. **Output:** Batch reports are produced monthly, quarterly, semi-annually, and annually.

Agency Contact: Health Resources and Services Administration. (301) 443-1180.

S00506-017

Bureau of Health Care Delivery and Assistance Community Reporting System. (HBC 018)

OMB Funding Code/Title: 75-0350-0-1-551 / Health resources and services

Program: Community Health Services

Congressional Relevance: House Committee on Energy and Commerce; Senate Committee on Labor and Human Resources; House Appropriations Committee: Labor, Health and Human Services, and Education Subcommittee; Senate Appropriations Committee: Labor, Health and Human Services, and Education Subcommittee

Authority: Public Health Service Act (P.L. 78-410, § 329, 330, 331, 1001); Social Security Act (P.L. 74-271).

Availability: Agency

Purpose: This system is designed to improve the way the Bureau of Health Care Delivery and Assistance (BHCA) manages its programs. The system is used to extract patient volume and financial data from semi-annual grantee summary reports from BCIS grantees in order to satisfy the following objectives: assure compliance with legislative mandates; report to Congress regarding program status; allocate resources to the regional offices; conduct program evaluation, including comparisons among programs, states and regions; provide a data base for objective level grant awards; facilitate program integration, and identify areas where grantees need technical assistance. **Input:** Information is obtained from programs managed by the Community Health Service. **Output:** This system produces reports on the status of Bureau of Health Care Delivery and Assistance programs.

Agency Contact: Health Resources and Services Administration. (301) 443-2210.

Recruitment and Placement File Maintenance and Reporting System. (HBC 014).

OMB Funding Code/Title: 75-0350-0-1-551 / Health resources and services

Program: Community Health Services

CFDA NO.: 13.258

Congressional Relevance: House Committee on Energy and Commerce; Senate Committee on Labor and Human Resources; House Appropriations Committee: Labor, Health and Human Services, and Education Subcommittee; Senate Appropriations Committee: Labor, Health and Human Services, and Education Subcommittee

Authority: Health Professions Educational Assistance Act of 1976 (P.L. 94-484); Public Health Service Act (P.L. 78-410).

Availability: Internal Use Only

Geographic Relevance: National

Purpose: This system maintains and provides information pertaining to both obligated and volunteer individuals who have expressed interest in the National Health Service Corps, the Bureau of Medical Services, or the Indian Health Service as a potential career. The system provides such information to medical personnel recruited for Bureau of Health Care Delivery and Assistance's National Health Service Corps projects as specialty area, work area preference, and available employment year. **Input:** Information is submitted using various internal forms indicating data on recruits to the National Health Service Corps volunteer program. **Output:** The system generates administrative, operational, and evaluation reports for internal management use. In addition, lists of recruits are maintained and updated daily, and mailing labels are produced as needed. Management reports include statistical data and master lists of recruits.

Agency Contact: Health Resources and Services Administration. (301) 443-5630.

S00506-019

Site/Provider Management Reporting System. (HBC 019).

OMB Funding Code/Title: 75-0350-0-1-551 / Health resources and services

Education Subcommittee, Senate Appropriations Committee: Labor, Health and Human Services, and Education Subcommittee
Authority: Public Health Service Act (P.L. 78-410). Health Professions Educational Assistance Act of 1976 (P.L. 94-484).

Availability: Internal Use Only

Geographic Relevance: National

Purpose: This system provides information on the identity, location, and characteristics of National Health Service Corps sites and health care providers. This system provides information on medical personnel employed by the National Health Service Corps projects, including data on education and experience extracted from employee applications and other information from personnel action reports pertinent to the staffing of the projects. Lists of sites and providers are also maintained and updated. Both the site and provider portions of this system are updated monthly. **Input:** Information is submitted through the use of internal forms and such other means as letters from providers, which provide update information. **Output:** The system generates mailing labels, statistical reports, and master listings.

Agency Contact: Health Resources and Services Administration. (301) 443-2216.

Health Accounting System (HIS). (HBA 014).

OMB Funding Code/Title: 75-0350-0-1-551 / Health resources and services

Program: Health Resources and Services (All Programs)

Congressional Relevance: House Committee on Energy and Commerce; Senate Committee on Labor and Human Resources; House Appropriations Committee: Labor, Health and Human Services, and Education Subcommittee; Senate Appropriations Committee: Labor, Health and Human Services, and Education Subcommittee

Authority: Public Health Service Act (P.L. 78-410).

Availability: Internal Use Only

Geographic Relevance: International/Foreign; National; State; County; City, Congressional District

Purpose: This accounting system provides accurate and timely financial data to the program managers of the Health Services Administration, the Health Resources Administration, the Alcohol, Drug Abuse, and Mental Health Administration, and the Assistant Secretary for Health. More than 3 million transactions are processed yearly. The system includes 150 computer production programs, eleven major system files (some having more than a million records), operational procedures, and report formats which are basically designed to meet user needs. The system operates in regular daily, weekly, monthly, quarterly, and yearly processing cycles. The transactions covered involve budget obligations, accrued expenditures, disbursements, and collections for the current year, first and second prior years, and merged appropriation accounts. **Input:** Detailed financial data from headquarters are transmitted directly to the computer via remote job entry stations, and detailed data from field offices are transmitted from NCR encoders at each accounting point to receiver units at the computer center. Summary data are received from the Regional Accounting System. **Output:** Products of the system consist of four major types of reports: status funds, generated daily; open document, produced bi-weekly; allotment allowance, generated monthly; and general ledgers, produced weekly.

Agency Contact: Health Resources and Services Administration. (301) 443-1569.

S00506-022

Health Maintenance Organization (HMO) Information System. (HBA 007).

OMB Funding Code/Title: 75-0350-0-1-550 / Health resources and services

Program: Health Maintenance Organizations and Resources Development

Health Maintenance Organization Act of 1973 (P.L. 93-232). Health Maintenance Organization Act Amendments of 1976 (P.L. 94-360). Health Maintenance Organization Act Amendments of 1978 (P.L. 95-359).

Availability: Agency

Purpose: The purpose of this system is to provide management on grantee progress from and loan guarantees, and program information on qualified health maintenance organizations' (HMO) performance for the annual report to Congress, as required by P.L. 93-232. The system contains information on total enrollment, expenses by type, by type, inpatient utilization, and ambulatory encounters for HMOs and on the date of and amount of each grant. Grant data are completed by date, and progress and problems with respect to fulfilling grant objectives for HMO grantees. Monitoring of HMOs with respect to continued compliance with the Act. Information is obtained from information submitted by qualified HMOs, grants office, and regional representatives. Each qualified HMO financial, enrollment, and utilization data. Grantee data are from documents prepared in the regions. **Output:** The product of the system include an annual report to Congress, financial and enrollment reports for qualified health maintenance organizations, summary reports on health maintenance organization grantee performance. **Agency Contact:** Health Resources and Services Administration. (301) 443-4106.

National Institutes of Health

600506-001

National Cancer Program/Management Information System (NCP/MIS). (HNC 001).

OMB Funding Code/Title: 75-0849-0-1-550 / National Institutes of Health

Program: Research Development

Congressional Relevance: House Committee on Energy and Commerce; Senate Committee on Labor and Human Resources; House Appropriations Committee: Labor, Health and Human Services, and Education Subcommittee; Senate Appropriations Committee: Health and Human Services, and Education Subcommittee

Authority: National Cancer Act of 1971 (P.L. 92-218). Public Health Service Act (P.L. 78-430).

Availability: Agency

Geographic Relevance: State; Congressional District, City

Purpose: The purpose of NCP/MIS is to provide a timely and accurate base of programmatic information and to assist scientists, administrative, and scientific administrative personnel in meeting information needs at the program level, operating division level, Office of the Director level. This system assists in the collection, processing and dissemination of information that is necessary for the National Cancer Institute (NCI) program. **Input:** NCP/MIS receives primary data/information related to personnel from the NCI TAPS (TDCS-Arms Personnel System) and from the NCI Management for Management Planning, Analysis and Control System, which provides NCP/MIS with basic financial and personnel data relating to contracts and grants administration. The NCI Accounting System (CAS) provides NCP/MIS with basic financial management and accounting data. The operating division will provide all detailed programmatic and scientific project information which can then be aggregated/summarized at the division level. **Output:** The NCP/MIS produces monthly printed reports. Also produced are a large number of detail and summary reports providing divisional level programmatic, contract and scientific management data to division and program managers. At the divisional level there exists a comprehensive query capability, on-line (CRT) interactive displays or printer produced data requests.

Agency Contact: National Institutes of Health. (301) 496-1529.

Congressional Relevance: House Committee on Energy and Commerce; Senate Committee on Labor and Human Resources; House Appropriations Committee: Labor, Health and Human Services, and Education Subcommittee; Senate Appropriations Committee: Labor, Health and Human Services, and Education Subcommittee

Authority: Public Health Service Act (P.L. 78-410, § 409, 410); National Cancer Act of 1971 (P.L. 92-218).

Availability: NTIS

Geographic Relevance: International/Foreign; National; State; City
Purpose: This system provides for collection, analysis, and dissemination of all data useful in the prevention, diagnosis, and treatment of cancer and, insofar as feasible, dissemination of the results of cancer research undertaken in any country for the use of any person involved in cancer research in any country. The CANCERLIT data base is updated monthly and is expected to grow at a rate of 35,000 abstracts per year. Coverage is both national and international. The CANCERPROJ data base contains approximately 18,000 summaries with a projected increase to approximately 20,000 summaries. CANCERPROJ includes the most recent federally and privately supported grants and contracts and is updated every three months. The project descriptions are collected and processed by the Current Cancer Research Projects Analysis Center (CCRESIAC). CLINPROT contains nearly 1,000 summaries of clinical protocols for treating specific types of cancer including specific anticancer agents or modalities. It is updated every three months. **Input:** The system is made up of three data bases: CANCERLITentire, CANCERPROJects, and CLINPROTocols. CANCERLIT contains approximately 210,000 abstracts of published articles appearing in over 3,000 technical and scientific journals from 1963 to date. Books, monographs, symposia, and reports are also being screened for cancer-related articles for abstracting and input to CANCERLIT. The CANCERPROJ data base is composed of summaries of ongoing cancer research projects submitted by scientists from many countries. **Output:** On-line and off-line (detailed abstracts of published and unpublished cancer research literature) are available to research scientists, practitioners, nurses, other health professionals and educators through the NLM system. Cancergrams, collections of abstracts of ongoing cancer research projects in specific areas of cancer research are being produced as special listings. The listings are distributed to contributing scientists currently working on each specific topic so they can easily identify and establish direct communications with other scientists working in the same area.

S00508-003

National Heart, Lung and Blood Institute Information System. (HNL 004).

04/74

OMB Funding Code/Title: 75-0872-0-1-550 / National Heart, Lung and Blood Institute

Program: National Heart and Lung Institute

Congressional Relevance: House Committee on Energy and Commerce; Senate Committee on Labor and Human Resources; House Appropriations Committee: Labor, Health and Human Services, and Education Subcommittee; Senate Appropriations Committee: Labor, Health and Human Services, and Education Subcommittee

Authority: National Heart, Blood Vessel, Lung, and Blood Act of 1972 (P.L. 92-423).

Availability: Internal Use Only

Purpose: The National Heart Lung and Blood Institute (NHLBI) information system furnishes reports and base-line data on NHLBI grants and contracts to assist in the monitoring and planning of the Institute Scientific and award programs. The system produces ad hoc and recurring reports using a data base designed to provide fiscal and/or scientific accountability and capable of reflecting changes of direction in the Institute's goals or plans. Scientific, administrative, and financial information is supplied to the Institute's programmatic divisions, Budget Office, Grants and Contracts Processing Offices, Information Office and the office of the director. The NHLBI information system master file,

located on an on-line private disk pack, is updated weekly. A less formal update schedule is maintained for the abstract file. The master file holds records for current and completed projects completed within the past year. Older records are purged to a history file annually. **Input:** Approximately half the items in the NHLBI information system are transferred directly from the Information for Management Planning Analysis and Coordinator (IMPAC) system of the Division of Research Grants (DRG) on a weekly basis. These data are supplemented by administrative scientific, and programmatic items captured by NHLBI from primary source documents. Additional records are created by the NHLBI update program in anticipation of their appearance in IMPAC to allow the institute to track fiscal commitments on grants and to respond to future planning needs. NHLBI receives weekly reports from the Division of Financial Management (DFM) (DMS System). The NHLBI system receives from IMPAC items such as name of principal investigator, raw and normalized priority scores assigned by initial review group, and requested, approved, awarded and indirect cost funds. NHLBI input includes several items on manpower utilization, codes to track progress on the national plan, programmatic codes (division), and abstracts of scientific content of each project. **Output:** The NHLBI Information System provides about 75 hardcopy reports each calendar cycle (3 or 4 months). Reports dealing with grants and contracts monitoring are run on recurring basis, state weekly, most monthly or at longer intervals. Commitment lists are run according to user need. Reports dealing with scientific abstracts, national plan codes, and manpower utilization items are run on demand.

Medical Literature Analysis and Retrieval System (MEDLARS II). (HNL 001).

06/71

OMB Funding Code/Title: 75-0807-0-1-550 / National Library of Medicine

Program: National Library of Medicine

Congressional Relevance: House Committee on Energy and Commerce; Senate Committee on Labor and Human Resources; House Appropriations Committee: Labor, Health and Human Services, and Education Subcommittee; Senate Appropriations Committee: Labor, Health and Human Services, and Education Subcommittee

Authority: National Library of Medicine Act (P.L. 84-941).

Availability: Agency; GPO

Purpose: The system assists the advancement of medical and related health sciences through the collection and dissemination of bibliographic and monographic information important to the progress of medicine and health. MEDLARS (Medical Literature Analysis and Retrieval System) is an information storage and on-line retrieval system that currently services more than 700 on-line international users. Some of the data elements included in the citation record are: title, author, pagination, source, vocabulary medical terms, and abstract. The subject matter is designed to help health professionals find out easily and quickly what has been published on any specific biomedical subject. Records indexed from 1966 forward are included in the data bases. Most of the 13 on-line data bases are updated on a monthly cycle. **Input:** The major category of input data comes from approximately 2,500 recurring national and international biomedical journals which are indexed to produce over 22,000 citation records monthly. Monthly magnetic tapes are received from the following organizations or agencies and are added to the pertinent data bases: the National Cancer Institute-NIH, the National Bio-sciences Information Services, American Society of Hospital Pharmacists, Environmental Protection Agency, and the Hayes File on Pesticides. **Output:** Output from the system includes on-line retrieval listings and screen displays of citations retrieved as a result of searching data bases. Batch search results are printed using the high speed printer. On-line retrieval is available from the system 12-14 hours daily, Monday through Friday. Searching of biomedical bibliographic and monographic information for health practitioners, individuals, and institutions within 28 recurring biomedical publications and catalogs is also accomplished by this system (weekly, monthly bimonthly). Over 600 biomedical institutions have on-line access to the system.

Geographic Relevance: International/Foreign; National; State; County; City; Congressional District; (SMSA) Standard Metropolitan Statistical Area

Purpose: This system maintains an up-to-date in-depth scientific information system on research projects supported through the various research grants and contracts programs of the Public Health Service or conducted intramurally by the National Institutes of Health (NIH) and the National Institute of Mental Health (NIMH). The system includes a wide range of biomedical scientific information related to research funded or conducted by NIH and NIMH. The system includes coverage of the discipline or other research areas, diseases, and research subjects, materials, and methods. Data may be retrieved on specific single topics, on all research in a given scientific area, or on such complex comprehensive biomedical areas as all research relating to the activities of a particular NIH institute. The information retrieved from the system may be used for scientific purposes or for program analysis and evaluation. The system covers research grants and contracts from fiscal year 1971 to the present and internal projects from 1975 to the present. **Input:** Data for the system, including awarded grant applications and progress reports, negotiated contracts and progress reports, intramural annual reports and individual project descriptions, are submitted by the scientific community and by the bureaus, institutes, and divisions of NIH and NIMH. **Output:** Principal reports include system extract tapes for institutions/institutes, scientific profiles, research grants index, and the Health Related Sciences Thesaurus. Outputs are in the form of listings, tabulations, magnetic tapes, microfiche, and linotron tapes. All of the system's files can be accessed through query programs.

Geographic Relevance: International/Foreign; National; State; County; City; Congressional District; (SMSA) Standard Metropolitan Statistical Area

Purpose: This system supports the grant programs of the Public Health Service (PHS) by providing services in the areas of grant application and referral, initial review, council review, award processing, and grant accounting. The principal areas covered by the system are application and awards for biomedical research, training, and construction grant research fellowships, research career programs, and research contracts. Information on grant applications, trustee appointments, research contracts, personnel reports, and reports of expenditures are used in the system. The system provides information on investigations, grantee distributions, initial review group actions, council actions, and awarding actions. Grant programs from 1962 to the present are included. **Input:** Data for the system are received from applicants for PHS support and from national advisory councils, bureaus, institutes, and divisions of PHS; initial review groups; and the Division of Financial Management. **Output:** The system produces over 70 different formatted working documents during each review cycle. About 200 review groups and advisory councils receive about 1,600 reports during each of the cycles. In addition, about 10,000 nonrecurring reports are produced each year in response to queries and another 2,000 queries for recurring reports. **Products:** Products are in the form of listings, tabulations, magnetic tapes, linotron tapes, punch cards, CRT displays, mailing labels, and microfiche.

Purpose: The Office of Hearings and Appeals (OHA) case control system was created to track and control hearings, appeals, and court action case files. The system tracks hearing, appeal, and court case files and records through 38 key action steps. Key actions and programmatic reports relate to hearings, appeals, or civil (court) actions on individual or groups of case files concerning entitlements to SSA old age, survivors, and disability insurance, Medicare, or the Social Security Insurance program. **Input:** Input is comprised of hearing, appeal and court case files and records. **Output:** Hardcopy reports produced are the Associate Commissioner's monthly statistical reports, reflecting case receipts, processed, and pending bureau workloads; and recurring reports with a combination of detail. Summary reports in various levels of OHA management and one time special requirement reports can be produced on relatively short notice.

Purpose: The system records and reports on all funds collected and expended by the Social Security Administration (SSA) including program

ports and reports. **Input:** The system records accounting data, including commitments, obligations, expenditures, costs, allotments, allowances, assets, liabilities, receivables, payables, and unobligated balances for all Social Security Administration (SSA) operations. It records accounting data for each General Ledger Account by each appropriation. It also records all transactions by subobject class by each organization. It maintains subsidiary records for property, third party, and receivable accounts. The data are carried for the current fiscal year, the past two fiscal years, and are in a merged account for the prior years. **Output:** All reports are hardcopy and some data are on-line for analysis by retrieval. Most hardcopy reports are produced on Xerox 1200 equipment, except for the daily reports. Reports include-- daily status of funds report, daily general ledger trial balance, payroll analysis recap report (biweekly), statistical employee analysis report (quarterly), general ledger summary, open commitment report, obligation report, advances and receivable report, third party activity report, property report, cash disbursements report, monthly status of funds, monthly transaction report, report of premium collections, report of reimbursements earned, comparison of actual to planned obligation report, etc. Reports are produced on a daily, bi-weekly and monthly basis. Internal reports are issued to offices, suboffices, and regions.

Authority: Social Security Act (P.L. 74-271).

Availability: Internal Use Only

Geographic Relevance: National

Purpose: The purpose of Office of Program Service Centers (OPSC) Management Information System is to record, analyze, and report manpower and workload information for all levels of RSI management and for higher level offices in SSA and AHIS. The audiences are the Central Office management staff and analysts, PSC director and top PSC staff, section and module managers, and PSC analysts. The status of pending data fields is changed daily to reflect the workload situation at the end of the previous day. Receipt and dispatch data fields are changed daily to reflect both a summary of yesterday's workload movements and a summary of the week-to-date workload movements. After the weekly and biweekly processing is completed, selected summary items are extracted from the Central Office data bases and transmitted to CSC to update the respective fields in the central office data base. Manpower data are transmitted biweekly. **Input:** Workload data are received daily from the Program Service Center (PSC) case control system. The daily workload data are derived from the folder movement file, and the cases in process file. Workloads not tracked by the case control system are manually counted and entered weekly. Manpower data come from payroll time and attendance cards and organization rosters. The sampling data are used to distribute the manpower to workloads based upon the amount of time spent on that workload. **Output:** Three general hardcopy reports are produced. Daily reports provide a manager with barometers to monitor the health of the organization and progress, or lack of it, in attaining the work process plan. Weekly reports provide a manager with the means to plan his priority workloads based upon his present pending situation and his work production during the previous week. Biweekly reports provide workload and manpower data. In addition to these programmed reports, there is an interactive demand facility accessing the central office data base.

Authority: Social Security Act (P.L. 74-271).

Availability: Agency

Geographic Relevance: National

Purpose: This system is designed to investigate the change in the economic and social characteristics of men and unmarried women as they approach and enter "retirement" and the relationship of the social security program to these changes. The sample is National. Economic information includes current labor force and employment status, characteristics of current or last job, pension eligibility of respondent and spouse separately, assets and income of respondent, spouse and children under 18, certain household expenditures, expectation of future income, medical insurance coverage, respondent's expenditures over the year for medical care, and indebtedness. Demographic information covers age, sex, educational attainment and marital status of respondent. Social information pertaining to living arrangements, communication and relationship with siblings, parents and children, leisure activities, self-assessment of well-being, perceptions of the future, and adaptation to change. **Input:** External sources of data are the responses to six surveys conducted by the Bureau of the Census for the Social Security Administration every two years beginning in April 1969. The study is longitudinal; the respondents are the same individuals in each of the surveys, allowing for attrition from death, failure to locate and refusals. Internal sources are extracts of the Social Security Master Beneficiary Record for the period of surveys (10 years) and possibly beyond, and social security earnings records for 1951 and subsequent years. These records are for each member of the sample and spouse(s), if any. **Output:** Output includes articles on specific subjects in Social Security Bulletin, papers delivered at meetings and conferences, and journal articles. A system of tapes representing survey responses, records of institutionalized respondents, nonresponses, and information from internal sources is also generated.

Availability: Internal Use Only

Geographic Relevance: International/Foreign

Purpose: The system provides an EDP facility for benefit payments, records maintenance, and management data accumulation for the mine benefit provisions of the Federal Coal Mine Health and Safety Act. Major functions are to: maintain a master payment file; create new accounts, and apply changes to previously established records in accordance with established validation criteria. Black lung master records consist of a payment master record and a benefit master record which are matched once a month. The payment master record reflects the social security number, payment code, and payment data, such as the monthly payment amount, initial payment amount, offset information, number of beneficiaries, month of accrual, month of debit, credit information, future action dates, cross-reference information, payee name and address, direct deposit data, and statistical information. The benefit master record contains a benefit record for each beneficiary on the account which includes social security number, payment and benefit identification codes, payment status, monthly benefit amount, beneficiary's name, type of benefit, date of birth, race, sex, offset information, credit information, date of filing, date of entitlement, representative payee information, and statistical information. **Input:** Most information is furnished by the beneficiary at the time of filing via the application form and during the period of entitlement when notice of events affecting payment or eligibility is submitted to SSA offices. The Bureau of Disability Insurance enters benefit rates and certain codes required for recouping unit control. **Output:** Output consists of daily and monthly reports and documentation of transactions, including exceptions, beneficiary notices, and payment files for the Treasury Department. The output media are tapes, hardcopy, listings, and microfiche. The system is capable of producing a payment and benefit record (hardcopy) when information on a specific account is necessary.

Purpose: The continuous work history sample is a set of general multi-purpose research files designed primarily for socioeconomic analyses. It is used for program statistics and analyses as mandated by the Social Security Act. The system consists of samples of records of individuals with employment covered by Social Security. Data for the CWHS are obtained from administrative records derived from reporting and informational forms. Data are used by Social Security Administration researchers; other federal, state, and local government agencies; and universities and private research organizations. Information in the system pertains to personal characteristics, earnings data, employer information, residence information, claims, insurance status and benefit data. **Input:** Input is derived from Social Security records of workers and self-employed individuals and from information now derived from reports provided by employers. **Output:** Output includes: statistical tabulations (hardcopy, as needed); special data files (magnetic tape, as needed); Tables for Publication (hardcopy); and an annual microfilm listing of basic records for reference.

Authority: Social Security Act (P.L. 74-271, § 401). Federal Coal Mine Health and Safety Act of 1969 (P.L. 91-173).

Availability: Internal Use Only

Purpose: The Resource Accounting System (RAS) provides detailed cost information for in-house ADP Support of administrative, statistical, and management information systems by the Office of Systems (OS). RAS is an integral part of the overall planning, budgeting, screening, and chargeback process which is used to manage OS support of these systems. The RAS is primarily used by OS and its users within SSA. It was implemented in July 1975, and, based on a year's operating experience, was enhanced for FY 1977. The system is updated from the previously stated inputs at the day's end. RAS has three subsystems: the budget subsystem, which maintains on-line data regarding expenditures; the weekly activity report subsystem, which maintains on-line records on analyst and data preparation time spent on projects; and the project descriptor subsystem, which maintains an on-line file describing these projects. RAS also has a batch maintaining data on computer usage by project. **Input:** Weekly inputs include activity reports, which are completed by OS personnel and identify time spent on projects or administrative activities, and computer usage. Daily inputs include requests for services from user organizations, project spending information, service request and project status reports, debit/credit actions, and file maintenance activities. **Output:** Hardcopy reports are produced on a recurring basis which show OS management and the users the status of requests for services and the amount of services used monthly and for the year to date. Resources used and planned are reported in two resource categories: personpower and computer services. On-line query capability is available.

Purpose: The purpose of this system is to determine error rates in federally administered state supplements to the Supplemental Security Income payments and to tabulate data on incidence, type, source, cause, and effect of failures to pay correct benefits on time in the Supplemental Security Income program. Reports based on tabulations are provided to SSA's fiscal operations and to SSA administrative staff for determination of federal fiscal liability for incorrect payment of state supplements and for required corrective action in the entire Supplemental Security Income operation. Monthly update of selected items in individual records from the Supplemental Security Record includes: identifiers, such as SSN, name, and state; factors of entitlement such as living arrangements, resources, income, and marital status; and type and amount of benefits. Weekly updates to the systems produced records include type, source, cause, effect, and money amount of failures within the Supplemental Security Income Operation. **Input:** Systems input includes selected extracted data from the Supplemental Security Record provided by the Office of Systems. In addition, data on failure or non-failure of individual SSI case benefit payments, denials, terminations, or suspensions are provided via the SSA telecommunications system by the Field Assessment Offices. **Output:** The system provides hardcopy reports of two major types: lists and counts used for systems monitoring and for relaying data to the Field Assessment Offices on selected cases to be reviewed and tables providing error (failure) rates by type, cause, effect, source, and money amounts by cases involving state supplement payments and total cases and by state, regional, and national totals.

Availability: Internal Use Only

Geographic Relevance: National; State

Purpose: The SSI Accounting Systems perform various benefit accounting functions and accounting to the states for the administration of funds pertaining to the Supplemental Security Income (SSI) program for the Aged, Blind, and Disabled. No single system in this accounting system fully meets all the accounting requirements; therefore, there are a number of subsystems which furnish various accounting data, including the daily accounting system, the overpayment and underpayment accounting system, the one-time payment accounting system, the financial accounting exchange, and the payment system. The programs are run either daily or monthly. **Input:** The data contained in these files are derived from applications for SSI benefits, monies returned by recipients, financial information from the Treasury, and information from other Social Security Administration (SSA) programs. **Output:** The various systems produce reports which are used in the certification of benefit payment process, in reporting financial data to the Treasury and to other Internal SSA offices, and in reporting to the states in the form of a Financial Accountability Statement.

Authority: Social Security Act (P.L. 74-271). Federal Coal Mine Health and Safety Act of 1969 (P.L. 91-173). Migration and Refugee Assistance Act of 1962 (P.L. 87-510). Social Security Amendments of 1977 (P.L. 95-216).

...broad areas: formulation, execution, and cost analysis. The update cycle is geared to the timing of the several review levels in the federal budget process cycle. Most of the system's applications are in support of the administrative budget which is heavily workload-based. Program (benefit-related) data applications account for only a small part of the total budget system. **Input:** The system contains budget estimate and base year experience data for each SSA program budget activity on workload volumes, such as estimates of the number of claims to be processed, staffing by type of employment, employee years, and payroll; other object costs; and benefit payments. **Output:** Outputs from the computerized applications are hardcopy products, including formats and tables of various arrays of budget data on workload volumes, person-years in workloads and employment type, production rates, obligations and costs by workload and object class, and benefit dollars. Data are presented by budget activities and by appropriation accounts.

Geographic Relevance: National

Purpose: The survey data provide information necessary in establishing eligibility requirements for public income maintenance programs and for evaluating existing provisions and proposals for policy and legislative changes. The file consists of a total sample size of approximately 11,750 persons interviewed from July through September 1978. Mainly the data represent a collection of information on the economic, medical, and social circumstances of the disabled to: assess the public knowledge regarding governmental programs for the disabled; determine work incentives and their influence on labor market participation and benefit application; and provide linkage between levels of medical severity and levels of work limitation. **Input:** The data file is based on Bureau of Census interviews of a national sample of civilian noninstitutionalized adults aged 18-64. The household interview vehicle was the census questionnaire "1978 Disability Survey" DIS-100. Census edited the raw data and created a computer tape for the Social Security Administration. Selected items extracted from the SSA Master Beneficiary Record augmented the data. **Output:** The output is of two types. There is a documented public-use tape file available at a set price to all requestors. For internal use there is a more comprehensive restricted use tape file that supports a multitude of research efforts. Research reports are published periodically.

Geographic Relevance: National

Purpose: The Continuous Disability History Sample (CDHS) is a yearly cross-sectional data file that is an approximately 20 percent sample of persons filing for social security disability benefits after 1966. The basic data include: personal characteristics--sex, race, date of birth, occupation; agency decision--allowance/denial, legal basis, medical diagnoses, onset date; payment history--worker and family payments after 1967, reason for termination; and annual earnings after 1956. The file responds to general disability research needs, is the basis for the creation of specialized files, and satisfies the requirements of the constant stream of inquiries made by various Social Security Administration components, other agencies, and Congress, as well as private sector organizations. The file now contains about 240,000 records per year. **Input:** The file contains data from the Disability Determination and Transmittal file, manual coding operations based on this file, the Master Beneficiary Record, and the Summary Earnings Record. **Output:** The file is used to create the yearly publication, "Disabled Applicant Statistics," and responds to a variety of research needs and inquiries in the form of supplementary files, tabulations, frequency tables, and analytic procedures.

Purpose: The purpose of this effort is to provide data for the Annual Report to Congress on the status of handicapped children in Headstart programs. Data are collected through annual surveys of Full Year and Summer programs each year on the number of children served, their handicapping conditions, and services provided. There are 216 questionnaire items entailing 33 80-column cards for 1,900 Headstart programs. Data have been collected each year since 1973. **Input:** Data are obtained from each program through a mailout questionnaire consisting of 216 items on general information, staffing, staff training, physical facilities, equipment, materials, and enrollment of handicapped children according to the handicapped conditions. **Output:** Output is in the form of final data tables of number and percent distributions. There are about 51 national, 31 regional and 2 state tables (for each state) produced. All data are discussed in the Annual Report on a national basis. With state enrollment data provided, these reports are available from the Agency and ERIC national and regional program planning.

Grants Data System (GDS). (HAY4 009)

OMB Funding Code/Title: 75-1101-0-1-552 / Public health service management

Program: Program Direction and Support Services

Congressional Relevance: *House Committee on Energy and Commerce, Senate Committee on Labor and Human Resources; House Appropriations Committee, Labor, Health and Human Services, and Education Subcommittee; Senate Appropriations Committee, Labor, Health and Human Services, and Education Subcommittee*

Authority: Public Health Service Act (P.L. 78-410, § 201)

Availability: Internal Use Only

Geographic Relevance: Nutrient: State: City:

Purpose: The system (GDS) is the official Public Health Service (PHS) grants administrative system for decentralized grant programs. It also support centralized health services grant programs. It currently captures grant award data as found on the Notice of Grant Award (PHS-5152) for inclusion in the data base. Utilizing this data, reports are then produced for PHS management both in the regions and in headquarters. This method keeps program/budget personnel in the regional offices informed of any grant activity which could impact their respective regional operations. It also keeps PHS management at headquarters informed of the grants being awarded in the regions. The notice of grant award contains certain information applicable to all grants which are input in the GDS. These include grant identification number, administration code, title of project, grantee name, entity code, street address, city, state, Zip code, organization descriptions, geographical codes, case codes, initial record award date, latest award date, commit accounting number, related grant numbers, user areas, fund services, and fiscal year of award date. In addition, certain information applicable only to loans, formula grants, construction grants, or other specialized areas is included such as project grant period, period of support, foreign country code, name of facility, current budget period of support, current fiscal year of support, direct assistance, financial assistance-direct cost, and financial assistance indirect costs. Total federal funds in budget period, unobligated balance, budget period dates, formula award period dates, period of support for scholarships. The data base is updated each time a new notice of grant award is put into the system. **Input:** Input comes directly from the Notice of Grant Award (PHS-5152, PHS-6217, PHS-5153, PHS-6096), which is prepared by the office awarding the grant. This could be any of the program offices within each Bureau in headquarters or the Grants Management Office within region. Major categories of data include information on the grantee, dates, and amounts of the awards. **Output:** Batch reports are produced in hardcopy from the master file and financial file on a routine scheduled basis. They include reports for grants information, administrative reports, and control reports. Reports are produced from the on-line file in formats which are preprogrammed in this file. The user may make selections from any of several parameters to produce the specialized report of his choice.

Public Health Service Grants Reporting System. (HAVA 010)

OMB Funding Code/Title: 75-1101-0-1-552 / Public health service management

Program: Program Direction and Support Services

Congressional Relevance: *House Committee on Energy and Commerce; Senate Committee on Labor and Human Resources; House Appropriations Committee; Labor, Health and Human Services, and Education Subcommittee; Senate Appropriations Committee; Labor*

Health and Human Services, and Education Subcommittee
Authority: Public Health Service Act (P.L. 78-410, § 201)

Availability: Internal Use Only

Geographic Relevance: National; State

Purpose: The system is the central source of information on all PHS centralized and decentralized grants for PHS management. This system, on a regular basis, collects grant award administrative data from the two official grants information systems in PHS. It is also the source for supplying data to the DHHS grants information system. The data reviewed for the grants reporting system are all active PHS grants, as well as those that have received any financial action in the specified fiscal year. Data elements included in the data base are grantee name, grant numbers, supporting agency, awarding/institute/bureau/program, administering component, program descriptors, title or purpose, project and budget period dates, amount awarded in the specified fiscal year, amount awarded to date for the specified budget period. **Input:** Input comes from the PHS grants data system which provides data on the decentralized grant programs and NIH's information for management planning analysis data on centralized (IMPAC) grant programs. The grants data system is maintained by the Division of Grants and Contracts while the IMPAC system is administered by NIH's Division of Research Grants. **Output:** All reports produced contain the same basic data elements as listed above. Differences between the various reports are due to changes in format, sequence, etc. Hardcopy reports produced include: PHS grants in state and grantee name sequence; PHS grants in state and grantee name sequence (centralized vs. decentralized); PHS grants in state, agency, institute/program and grantee name sequence. It is also possible to query the system to select only certain regions, states, etc. Reports are produced on request.

S00522-004

Audit Report Control System. (HAV4 011).

OMB Funding Code/Title: 75-1101-0-1-550 / Public health service management

Program: Program Direction and Support Services

Congressional Relevance: House Committee on Energy and Commerce; Senate Committee on Labor and Human Resources; House Appropriations Committee: Labor, Health and Human Services, and Education Subcommittee; Senate Appropriations Committee: Labor, Health and Human Services, and Education Subcommittee

Authority: Public Health Service Act (P.L. 78-410).

Availability: Internal Use Only

Purpose: The system (ARCS) provides a means of establishing, maintaining, and integrating a data base composed of audit report records for all of PHS. All communication between ARCS and the user is via the administrative management information retrieval system, an interactive system which provides the facilities required to perform data base management and inquiry functions from a remote terminal. This system permits PHS management to monitor (track and control) all PHS audits directed to the Office of the Assistant Secretary for Health. Information includes type of audit code, cognizant agency, audit control number, issue date, auditee, recovered amount, projected closure date, comments transmittal date, closure date, pre-release code, management deficiency codes, and cost incurred code. An update is performed by the user whenever audit reports are received, normally daily. **Input:** Data are input via a remote terminal operated by the Division of Grants and Contracts/Office of Resource Management/PHS. Data are taken from audit reports received in this office. The ARCS system is composed of three main audit types: IHS internal audit reports, IHS external audit reports, and GAO audit reports. **Output:** System formatted preprogrammed reports are produced on a routine schedule and user formatted or special purpose reports are produced as needed. Hardcopy system formatted reports produced monthly, bi-monthly, quarterly, or annually include open audit report followup; aging reports; PHS external audit reports-audit of costs incurred codes; year-end report activity summary, ARCS master listing of records purged; and cursory examination.

Authority: Public Health Service Act (P.L. 78-410, § 201).

Availability: Agency

Geographic Relevance: National; State; County

Purpose: The data base is to provide critically needed access to data required to respond to requests for information on PHS ADP activities from outside agencies such as the Office of Management and Budget, General Services Administration, and the Comptroller General, and from the Department. Each system and contract reported is identified by a pre-assigned administrative and system/contract ID code, as well as by system name, system and project description, name and telephone number. Total resource expenditure period and cost figures for systems and contracts are reported for past and current budget and budget year plus one. Planned systems reporting expenditures of over \$1,000 in any one fiscal year must also provide milestone and justification information. **Input:** Input is collected from the Alcohol, Drug Abuse, and Mental Health Administration; Center for Disease Control; Food and Drug Administration; Health Resources and Services Administration; National Institutes of Health; Office of Equal Employment Opportunity; Office of Program Implementation; Office of Administrative Management; and Office of Health Legislation. **Output:** Output is reports, tables, directories, and listings of data in specified categories, including both machine-readable and hardcopy formats. Most of the individual reports are generated on an as-needed basis consistent with outside reporting requirements and internal needs.

Budget Information System (BIS). (HAV4 021).

OMB Funding Code/Title: 75-9941-0-4-552 / Miscellaneous consolidated working funds

Program: Program Management

Congressional Relevance: House Committee on Energy and Commerce; Senate Committee on Labor and Human Resources; House Appropriations Committee: Labor, Health and Human Services, and Education Subcommittee; Senate Appropriations Committee: Labor, Health and Human Services, and Education Subcommittee

Authority: Economy Act of 1932 (P.L. 72-212).

Availability: Internal Use Only

Purpose: The Budget Information System is a data base maintenance and report generation system designed to aid in tracking and comparing many years of budget data. The BIS is used to track both formulations and execution data from one year to the next and to provide various reports specified by the user. It covers the total scope of the budget formulation process and many aspects of budget execution, including outlays analysis. BIS is used by Public Health Service (PHS) top management to identify and correct potential problem areas, to meet Departmental reporting requirements, and to prepare budget schedules. Examples of both budget formulation and execution data in the BIS are: President's budget, effects of amendments and reprogramming, continuing resolutions, supplementals, requests to DMB, House and Senate allowances, appropriations, other obligatory authority, netual obligations, spending plans, and employment data. These data are updated as frequently as changes occur in order that the data base be current at all times. Additional data may be derived from the above-mentioned data contained in the BIS by using any of several budget calculations determined by the user at the time a report is produced. **Input:** The BIS is maintained and operated by the Resources Analysis Branch/DFM/ORM/OM which provides direct input to the system. The two categories of input are budget formulation and budget execution data. Input of budget formulation data is a result of decisions/actions made by any of several organizations, including the Office of Resource Management, Office of Management, PHS agencies budget personnel, the Department, Office of Management and Budget, or the Congress. Budget execution data are derived from any of several agency accounting systems financial reports. **Output:** The following types of financial

reports are produced by the system--obligations versus the availability of employment analysis, outlays, and Zero Based Budgeting. Special charts and graphs are produced as requested. Reports are produced in hard-copy.

Geographic Relevance: National

Purpose: The major objective of this system is to develop statistics on the characteristics of health resources and the utilization of health resources. The health resources program operates multiple data collection systems to compile and analyze national data, monitor resource and utilization data systems, and set standards and guidelines. The data collected by the system are: master inventory of health care institutions, multiple data systems and files, hospitals, nursing homes, and data on resources utilization. Health resources data are needed by planners in the health field to determine the need for health manpower and facilities and to evaluate the utilization of current health services, especially with regard to changing financing systems. The major processing characteristics of the system are national inventories and surveys to determine utilization. Batch processing is employed as well as interactional analysis. **Input:** The primary source of data is external through surveys of the health occupations, the institutionalized population, hospitals, nursing homes, physicians offices, laboratories, and other health related facilities. **Output:** The major output includes publications on health care institutions, health manpower and health resource utilization.

Agency Contact: Assistant Secretary for Health. (301) 436-8522.

S00522-010

Health and Nutrition Examination Survey Statistics (HANES). (HAS 00301).

OMB Funding Code/Title: 75-1101-0-1-550 / Public health service management

Program: National Health Surveys and Analysis

Congressional Relevance: *House* Committee on Energy and Commerce; *Senate* Committee on Labor and Human Resources; *House* Ap-

propriations Committee: Labor, Health and Human Services, and Education Subcommittee; *Senate* Appropriations Committee: Labor, Health and Human Services, and Education Subcommittee

Authority: Public Health Service Act (P.L. 95-623, § 306).

Availability: Agency; GPO; NTIS

Geographic Relevance: National

Purpose: This program is the sole source of national morbidity data obtained through direct examination and clinical tests of samples of population to measure health status and collect data on infectious and untreated diseases. This program yields data that permit standardized assessment of nutritional status and other nutritional information on high risk groups, as well as permitting generalization to the population between the ages 1 and 74. This is an interactive and batch oriented system with continuous output requirements. **Input:** The subject matter is gathered through direct examination and clinical tests of samples of the population. The information covered includes cardiovascular diseases, hypertension, nutritional deficiencies, respiratory diseases, arthritis, hearing levels, visual acuity, eye diseases, and dental measurements. **Output:** The system produces continuous reports in hardcopy and has query capability.

Agency Contact: Assistant Secretary for Health. (301) 436-7068.

S00522-011

Health Interview Statistics (HIS). (HAS 00201).

OMB Funding Code/Title: 75-1101-0-1-550 / Public health service management

Program: National Health Surveys and Analysis

Congressional Relevance: *House* Committee on Energy and Commerce; *Senate* Committee on Labor and Human Resources; *House* Appropriations Committee: Labor, Health and Human Services, and Education Subcommittee; *Senate* Appropriations Committee: Labor, Health and Human Services, and Education Subcommittee

Authority: Public Health Service Act (P.L. 95-623, § 306).

Availability: Agency; GPO; NTIS

Geographic Relevance: National

Purpose: The purpose of this activity is to produce national health statistics from household interview directly from consumers of health services regarding their health status, practices, services obtained, satisfactions regarding their health and services obtained. Subject matter includes health status, practices, health services, and satisfaction with services. This is a continuous process of batch updating with interactive features. There is a considerable on-line analysis process. **Input:** The project collects information from a statistical sample of 40,000 households annually. The data are collected by interviewers from household members. **Output:** The principal output is hardcopy summaries of data and on-line analysis and interactive processing. Data are used for general research purposes.

Agency Contact: Assistant Secretary for Health. (301) 436-7085.

S00522-014

Vital Statistics Data Systems. (HAS 00101).

OMB Funding Code/Title: 75-1101-0-1-550 / Public health service management

Program: Program Operations: Health Statistics--Surveys and Analysis

Congressional Relevance: *House* Committee on Energy and Commerce; *Senate* Committee on Labor and Human Resources; *House* Appropriations Committee: Labor, Health and Human Services, and Education Subcommittee; *Senate* Appropriations Committee: Labor, Health and Human Services, and Education Subcommittee

Authority: Health Services Research, Health Statistics, and Health Technology Act of 1978 (P.L. 95-623, § 306; 92 Stat. 3443; 42 U.S.C. 242k); Public Health Service Act, as amended (P.L. 78-110, 58 Stat. 682; 42 U.S.C. 242).

Availability: Agency; GPO; NTIS

Geographic Relevance: National; State; City; County; (SMSA) Standard Metropolitan Statistical Area

Purpose: The system provides statistics of wide public interest on births, deaths, fetal deaths, abortions, marriages, and divorces or dissolutions of marriages. Vital statistics include a range of demographic, medical data related to these events. Provisional statistics are published monthly and annually and final detailed data are made available annually. Records of these vital events also provide a sampling frame

periodic followback surveys that extend the range of statistical information for a sample of the events, including socioeconomic, environmental, and health related data. **Input:** These statistics are obtained through the state vital registration systems from records of live births, deaths, fetal deaths, abortions, marriages, and divorces or dissolutions of marriages. **Output:** Output from the vital statistics include publications in "Vital Statistics of the United States," the "Monthly Vital Statistics Report (and Supplements)," and the "Vital and Health Statistics" series; and public use data tapes.

Agency Contact: Assistant Secretary for Health. (301) 436-8951.

S00522-015

National Survey of Family Growth (NSFG). (HAS 00101).

OMB Funding Code/Title: 75-1101-0-1-550 / Public health service management

Program: Program Operations. Health Statistics, Surveys, and Analysis
Congressional Relevance: House Committee on Energy and Commerce; Senate Committee on Labor and Human Resources; House Appropriations Committee: Labor, Health and Human Services, and Education Subcommittee; Senate Appropriations Committee: Labor, Health and Human Services, and Education Subcommittee

Authority: Health Services Research, Health Statistics, and Health Care Technology Act of 1978 (P.L. 95-623, § 5; 92 Stat. 3445; 42 U.S.C. 242k). Public Health Service Act (P.L. 78-410; 58 Stat. 692; 42 U.S.C. 242).

Availability: Agency; OPO; NTIS

Geographic Relevance: National

Purpose: The National Survey of Family Growth (NSFG) is a multipurpose statistical survey that provides a wide range of information serving needs of persons and organizations concerned with the dynamics of population change, family planning, and maternal and child health. It is designed to produce data on factors influencing trends and differentials in fertility, family planning practices of the population, sources from which family planning advice and services are obtained, the effectiveness and acceptability of the various methods of family planning, and those aspects of maternal and child health that are most directly related to fertility and family planning. **Input:** The survey is based on personal interviews with women in the childbearing ages selected from a nationwide probability sample of households. **Output:** Output for the NSFG includes advance reports in the form of supplements to the "Monthly Vital Statistics Report," methodological and analytical reports in "Vital and Health Statistics," and public use data tapes.

Agency Contact: Assistant Secretary for Health. (301) 436-8951.

S00522-016

National Medical Care Utilization and Expenditure Survey (NMCUES). (HAS 01001).

OMB Funding Code/Title: 75-1101-0-1-550 / Public health service management

Program: Program Operations: Health Statistics, Surveys and Analysis
Congressional Relevance: House Committee on Energy and Commerce; Senate Committee on Labor and Human Resources; House Appropriations Committee: Labor, Health and Human Services, and Education Subcommittee; Senate Appropriations Committee: Labor, Health and Human Services, and Education Subcommittee

Authority: Health Services Research, Health Statistics, and Health Care Technology Act of 1978 (P.L. 95-623, § 5; 92 Stat. 3445; 42 U.S.C. 242k). Public Health Service Act (P.L. 78-410; 58 Stat. 692; 42 U.S.C. 242).

Availability: Agency; OPO; NTIS

Geographic Relevance: National; selected States (New York, Texas, California, and Michigan)

Purpose: The activity will produce national estimates on the utilization and expenditures for various types of medical care. Data collected in the survey include: episodes of illness, number of bed days and restricted activity days, hospitalizations, medical and dental visits, encounters with other types of medical providers, purchases of prescribed medicines, the costs and sources of payment for the visits and purchases, limitation of activity due to chronic conditions, health insurance coverage, and a variety of social and demographic characteristics. Data will be for calendar year 1980. **Input:** Data are from a series of five household interviews conducted with about 6,000 households in a national probability sample and about 1,000 households each from the Medicaid rolls in

Michigan, New York, Texas, and California. **Output:** Information will be available in preliminary reports in mid-1981. Published reports on the final data will be available in 1982. Also, in 1982, a public use data tape will become available for general research purposes

Agency Contact: Assistant Secretary for Health. (301) 436-7085.

Assistant Secretary for Human Development Services

S00523-001

Grants Management Information System. (DBG 001).

1979

OMB Funding Code/Title: 75-1636-0-1-506 / Human development services

Program: Child Development; Youth Development; Programs for the Aging; Rehabilitation Services and Facilities; Grants for Developmentally Disabled; Public Assistance Research and Training

Congressional Relevance: House Committee on Education and Labor; House Committee on Ways and Means; Senate Committee on Finance; Senate Committee on Labor and Human Resources; House Appropriations Committee: Labor, Health and Human Services, and Education Subcommittee; Senate Appropriations Committee: Labor, Health and Human Services, and Education Subcommittee

Authority: Social Security Act (P.L. 74-271, title XI, § 1110, 1115). Developmental Disabilities Services and Facilities Construction Act, as amended (P.L. 88-164, as amended by P.L. 86-778). Older Americans Act of 1965, as amended (P.L. 89-73, as amended by P.L. 93-644). Headstart Economic Opportunity and Community Partnership Act (P.L. 95-568).

Availability: Internal Use Only

Geographic Relevance: National; State; Congressional District; County; City

Purpose: This system is designed to provide program and administrative personnel responsible for the management of OHDS project grant programs with up-to-date information on Headquarters and regionally funded grants. Information includes the name and address of the grantee; location by state, city, and county; grant number; project title; start and end dates for the project and budget periods; congressional district; Zip code; award amount; indirect and direct costs; characteristics of recipient institution; case code; NSF field of science code; year of support; and prior year funding amounts. **Input:** OHDS Headquarters Grants management office in Washington, D.C. enters grant award documents received from the 10 regional offices into an on-line data base.

Output: The principal report will be a monthly run by headquarters and regions of the majority of the data items in the system with special emphasis on total obligations for each common accounting number. Special purpose reports on grants due to expire soon or on grantees which have not submitted a report of expenditures will also be produced. The data base is on-line so ad hoc inquiries can be made as needed to answer special requests.

Agency Contact: Assistant Secretary for Human Development Services. (202) 245-9281.

Child Abuse and Neglect Data Base. (DCS 002).

OMB Funding Code/Title: 75-1636-0-1-506 / Human development services

Program: Administration for Children, Youth, and Families

CFDA NO.: 13.628

Congressional Relevance: *House* Committee on Education and Labor; *Senate* Committee on Labor and Human Resources; *House* Appropriations Committee: Labor, Health and Human Services, and Education Subcommittee; *Senate* Appropriations Committee: Labor, Health and Human Services, and Education Subcommittee

Authority: Child Abuse Prevention and Treatment Act (P.L. 93-247; 42 U.S.C. 5101).

Availability: NTIS

Geographic Relevance: International/Foreign

Purpose: This data base contains comprehensive information on child abuse and neglect. Information on child abuse and neglect contained in this system includes abstracts of literature and state laws and descriptions of on-going research projects, service programs, and audiovisual materials. The data base, which covers the period since 1965, is updated semiannually or annually, depending on the category of the data. The system contains about 8,000 records and grows by about 20 percent annually. **Output:** This system produces catalogs, directories, and data analyses. In addition, full-text searching may be performed in response to inquiries.

CFDA NO.: 13.647

Congressional Relevance: House Committee on Education and Labor; Senate Committee on Labor and Human Resources; House Appropriations Committee: Labor, Health and Human Services, and Education Subcommittee; Senate Appropriations Committee: Labor, Health and Human Services, and Education Subcommittee

Authority: Social Security Act, as amended (P.L. 74-271, title XI, § 1106, 1110, as amended by P.L. 90-248; 42 U.S.C. 1306, 1310).

Availability: Internal Use Only

Purpose: The system is designed to provide current information on the status, events, and products of all Human Development Services (HDS) discretionary grants. Over 400 grants are maintained in this data base. It is an on-line system permitting users instant access and specialized retrievals. The Grants Tracking Information System works with and supplements data related to the HDS Grants Management Information System. **Input:** The Office of Human Development Services Headquarters Grants Management Office in Washington, DC, enters grant award documents received from the regions into an on-line data base. Information is entered, updated, and edited on a daily basis. **Output:** Output consists of hard copy and CRT display of quarterly, final, and dissemination plan reports of grant events and/or deliverables. Reports may focus on the status of the grant, schedule of events and deliverables per month, and overdue deliverables. Each report is selectable by agency, project officer, supervisor, and/or grant number.

Authority: Social Security Act, as amended (P.L. 74-271, title XI, § 1106, 1110, as amended by P.L. 90-248; 42 U.S.C. 1306, 1310).

Availability: Agency

Geographic Relevance: Regional

Purpose: This is an agency operational plan permitting the Office of the Assistant Secretary for Human Development Services (HDS) to track headquarters and regional progress and/or accomplishment of major HDS mission goals. This user friendly system provides for updating of progress and reporting of events and accomplishments. Seven major goals, 80 related objectives, and additional supportive sublevel initiatives and tasks are defined. Specification of resources required, due dates, and milestones can be entered. Summarization reports are generated periodically. **Input:** Data are CRT input from the program seg-

ment (HDS). **Output:** Output consists of CRT display and summary reports on the status and aggregation of national initiatives, performance of tasks, planned resources per initiative, and summaries of key indicators. The reports can be retrieved by administration, office, program, division level, and organization code, as well as by goal and/or initiative.

Contractor Administrative Cost Information System (CACIS). (FPA3 002).

01/74

OMB Funding Code/Title: 20-8004-0-7-551 / Federal supplementary medical insurance trust fund; 20-8005-0-7-551 / Federal hospital insurance trust fund

Program: Administration

Resources; *House Appropriations Committee: Labor, Health and Human Services, and Education Subcommittee; Senate Appropriations Committee: Labor, Health and Human Services, and Education Subcommittee*

Authority: Social Security Act (P.L. 74-271; 42 U.S.C. 405).

Availability: Agency

Geographic Relevance: National

Purpose: The current CACIS system is divided into two phases (on-line and off-line). Each phase has five subsystems--budget preparation, approval, distribution, interim, and final cost. The on-line phase provides editing and updating of the data base and a capability of manipulating selected data in arithmetic operations. The off-line phase provides reports for each subsystem to help identify and correct problem areas and provides a means for comparing budget requests, budget approvals, and final cost proposals among contractors. **Input:** The inputs to this system (MCFD Forms 1527 and 1528) include various administrative cost data elements indexed by budget requests, budget approvals, quarterly spending plans, interim costs, and actual year-end costs. The specific administrative cost data elements are: bill review, medical review, utilization review, beneficiary services, data entry, computer usage, EDP systems and programming, professional relations, service department, financial and accounting, general and administrative credits, provider reimbursement, provider audit, non-recurring Health Maintenance Organizations, and Professional Service Review Organizations. Other selected data sources are: peer groupings, number of providers, Blue Cross Association factors (costs), and model system maintenance and development cost. **Output:** The system produces four ongoing reports: 1) Budget Preparation (yearly, in May), 2) Budget Approval (yearly, in June), 3) Interim Cost (quarterly, in November, February, May, August), and 4) Final Cost (yearly, in April).

Program: Housing Assistance; Community Development; Fair Housing Assistance

Congressional Relevance: House Committee on Banking, Finance, and Urban Affairs; Senate Committee on Banking, Housing, and Urban Affairs; House Appropriations Committee: HUD-Independent Agencies Subcommittee; Senate Appropriations Committee: HUD-Independent Agencies Subcommittee

Authority: Housing Act of 1948 (P.L. 80-901, title V, § 502).

Availability: Internal Use Only

Purpose: This system receives data from the Insurance in Force and Title I Systems to reconcile scheduled deposits, disbursements, and certificates of deposit with Treasury confirmed transactions. Mortgage Insurance, Title I Loans, Insurance in Force, Certificates of Deposit, Scheduled Deposits, and Disbursements comprise information content. **Input:** The primary input source documents are Certificate of Deposit; Debit Vouchers; Schedule of Withdrawals and Credits; Voucher and Schedule of Withdrawals and Credits; Schedule of Cancelled Checks; Voucher and Schedule of Payments; and Miscellaneous Deposits and Disbursements. **Output:** The system produces magnetic tape output representing confirmed deposits for forwarding to the Treasury Department. The output includes a list of confirmed certificates of deposit and debit vouchers, deposit and debit tape file, and various accounting reports.

Agency Contact: (202) 755-5461.

S00600-007

Acquired Home Property Phase I System. (F62).

OMB Funding Code/Tiila: 86-4070-0-3-371 / Federal Housing Administration fund

Program: Home Mortgage Insurance Program

Congressional Relevance: House Committee on Banking, Finance, and Urban Affairs; Senate Committee on Banking, Housing, and Urban Affairs; House Appropriations Committee: HUD-Independent Agencies Subcommittee; Senate Appropriations Committee: HUD-Independent Agencies Subcommittee

Authority: National Housing Act of 1934, as amended (P.L. 73-479); Housing and Urban Development Act of 1968 (P.L. 90-448); Housing and Community Development Act of 1974 (P.L. 93-383); Housing Authorization Act of 1976 (P.L. 94-375).

Availability: Internal Use Only

Geographic Relevance: State; HUD Regional/Area Office

Purpose: This system records the acquisition cost of properties acquired incident to the payment of FHA insurance claims, and effects the computation of claims settlement amounts. Data are provided through automated interface to the Insurance in Force System for use in terminating insurance on properties insured by FHA. An automated interface is further provided with the Acquired Home Property Phase II System which permits the establishment of records of expenses incurred against acquired properties. Information includes acquired home properties, acquisition costs, FHA insurance claims, default terminations, and expenses incurred. Geographic data elements include state, HUD regional office, HUD area office, and HUD insuring office codes. **Input:** Input sources are: 1) Notice of Property Transfer and Application for Insurance Benefits, 2) Assignment of Undivided and Application for Insurance Benefits, 3) Application for Insurance Benefits and General Assignments, 4) Insurance Claim Settlement Statement and Voucher Assigned Home Mortgage or Insured Loan, 5) Mortgage Insurance Claim Settlement Statement (Conveyed Home Property), and 6) Schedule of Tax Information. **Output:** The principal output consists of mailing labels, summary of acquisitions, master file listing, disbursements tape file, and various accounting reports.

Agency Contact: (202) 755-5461.

S00600-008

Acquired Home Property Phase II System. (F63).

OMB Funding Code/Tiila: 86-4070-0-3-371 / Federal Housing Administration fund

Program: Home Mortgage Insurance Program

Congressional Relevance: House Committee on Banking, Finance, and Urban Affairs; Senate Committee on Banking, Housing, and Urban Affairs; House Appropriations Committee: HUD-Independent Agencies Subcommittee; Senate Appropriations Committee: HUD-Independent Agencies Subcommittee

Authority: National Housing Act of 1934, as amended (P.L. 73-479); Housing and Urban Development Act of 1968 (P.L. 90-448); Housing and Community Development Act of 1974 (P.L. 93-383); Housing Authorization Act of 1976 (P.L. 94-375)

Availability: Internal Use Only

Geographic Relevance: State; HUD Regional/Area Offices

Purpose: This system maintains records of all expenses incurred incident to acquisition, maintenance, and sale of properties acquired by HUD as a result of mortgage insurance claims and mortgage foreclosures. Automated interface is effected with the Acquired Home Property Phase I System to permit establishment of records upon which the recording of these expenses can be put into effect. Content pertains to acquired home properties, maintenance expenses, acquired home property inventory, and trial balance data. Geographic data elements include

S00800-010

Amortizations System. (F04).

OMB Funding Code/Title: 86-4070-0-3-371 / Federal Housing Administration fund

Program: Home Mortgage Insurance Program

Congressional Relevance: House Committee on Banking, Finance, and Urban Affairs; Senate Committee on Banking, Housing, and Urban Affairs; House Appropriations Committee: HUD-Independent Agencies Subcommittee; Senate Appropriations Committee: HUD-Independent Agencies Subcommittee

Authority: National Housing Act of 1934, as amended (P.L. 73-479). Housing and Urban Development Act of 1968 (P.L. 90-448). Housing Authorization Act of 1976 (P.L. 94-375). Housing and Community Development Act of 1974 (P.L. 93-383).

Availability: Internal Use Only

Geographic Relevance: HUD Area Office

Purpose: This system prepares the amortization schedules for the Department's mortgage insurance programs. The system computes the payment to interest, the amount to be applied to principal, and the amount of annual Mortgage Insurance Premium. The system also computes the amount of interest reduction subsidy where appropriate. Specific categories of data include amortization schedule, interest, principal, mortgage insurance premium, and interest reduction subsidy data. Geographic data elements include HUD area office and HUD insuring office codes. **Input:** Amortization work sheets are the system's input. **Output:** Amortization schedules are the principal output.

Agency Contact: (202) 755-5461.

Annual Contributions System. (A03).

06/76

OMB Funding Code/Title: 86-0139-0-1-604 / Subsidized housing programs; 86-0163-0-1-604 / Payments for operation of low income housing projects; 86-0139-0-1-604 / Subsidized housing programs

Program: Assistance Contracts for Rent Supplement Payments; Annual Payments; Public Housing Operating Subsidies; Annual Contribution Contracts for Assisted Housing; Assistance Contracts for Payments

Congressional Relevance: House Committee on Banking, Finance, and Urban Affairs; Senate Committee on Banking, Housing, and Urban Affairs; House Appropriations Committee: HUD-Independent Agencies Subcommittee; Senate Appropriations Committee: HUD-Independent Agencies Subcommittee

Authority: Housing and Urban Development Act of 1965 (P.L. 89-117, § 101). U.S. Housing Act of 1937 (P.L. 75-412, § 5). Housing and Urban Development Act of 1968 (P.L. 90-448, § 235, 236).

Availability: Internal Use Only

Purpose: This system processes Low Rent Housing accounting data. **Input:** Input is comprised of accounting data from low rent public housing, public housing accounting, annual contributions, and public housing authorities. Geographic data elements are HUD regional office and state codes. **Output:** This system produces monthly and annual contribution obligation vouchers, obligation and refund summary listings, annual contributions, accounts payable, ledger trial balances, unliquidated obligations, net disbursements by state, status of appropriations, and authorization for annual contributions to public housing authorities. Reports on obligations, refund summary, applied/unapplied, trial balance, status of funds, accounts payable, and unliquidated obligations are generated.

Agency Contact: (202) 755-5461.

S00800-012

Budget Management Information System. (A91).

OMB Funding Code/Title: 86-0143-0-1-604 / Salaries and expenses, In-

Authority: Housing Act of 1948 (P.L. 80-901, title V, § 502).

Availability: Internal Use Only

Purpose: This system maintains a current staffing file, by activity and source fund, from which the operating expenses budget reports are prepared for the Office of Budget. Future fiscal year staffing projections in the Department's annual budget submissions to the Office of Management and Budget and the Congress are one of the major products of the system. Staffing, source fund, budget submission, and operation expense data comprise the system content. **Input:** Past year obligations, past year staffyears, projected staffyears, projected staff changes, projected obligations are sources of input. **Output:** The principal output is the Current Staffing Review List, Year-to-Date Staff Utilization, Consolidated Grade Distribution, and Green Sheets Report.

Agency Contact: (202) 755-5461.

Program: Housing Assistance; Community Development; Fair Housing Assistance

Congressional Relevance: House Committee on Banking, Finance, and Urban Affairs; Senate Committee on Banking, Housing, and Urban Affairs; House Appropriations Committee: HUD-Independent Agencies Subcommittee; Senate Appropriations Committee: HUD-Independent Agencies Subcommittee

Authority: Housing Act of 1948 (P.L. 80-901, title V, § 502).

Availability: Internal Use Only

Geographic Relevance: HUD Regional/Area Office

Purpose: This system applies time expended against HUD programs regional, area, and insuring offices. Geographic data are HUD regional, area, and insuring office codes. Other information includes time expenditures, staff resources expended, staff resources, projected staff budget formulation, productivity analysis, and related data. **Input:** Individual Daily Time Reports and Translation Transactions comprise the system's input. **Output:** The system produces detailed reports which assist administrators in tracking personnel expenditures by program against projected program budgets. Data are produced for use in budget formulation and execution, for monitoring staff resource expenditure against the Regional Operating Plan, work measurement, productivity analysis, and for billing other federal agencies for reimbursable work performed. Examples of output are source of funds, staff usage, summaries of time applied, activities, and skills.

Agency Contact: (202) 755-5461.

S00500-015

Diversified Payments-Disbursement System. (F84).

OMB Funding Code/Title: 86-0143-0-1-604 / Salaries and expenses, including transfer of funds; 86-0143-0-1-451 / Salaries and expenses, including transfer of funds; 86-0144-0-1-751 / Fair housing assistance

Program: Housing Assistance; Community Development; Fair Housing Assistance

Congressional Relevance: House Committee on Banking, Finance, and Urban Affairs; Senate Committee on Banking, Housing, and Urban Affairs; House Appropriations Committee: HUD-Independent Agencies Subcommittee; Senate Appropriations Committee: HUD-Independent Agencies Subcommittee

Authority: Housing Act of 1948 (P.L. 80-901, title V, § 502).

Availability: Internal Use Only

Geographic Relevance: State; HUD Regional/Area Office

Purpose: This system features direct input of voucher information key-to-tape data entry media and produces, in check format, data

transmittal to the Treasury Department's Disbursing Office for issuance of checks. It further accumulates records of those disbursements that are reportable to the Internal Revenue Service and provides a periodic report by IRS/ID number of amounts subject to tax regulations under Section 6041 of the Internal Revenue Code. Internal Revenue reporting data are included in information content. Geographic data elements are state, HUD regional office, HUD area office, and HUD insuring office codes. **Input:** Payment vouchers, IRS reporting data, and cancelled IRS reportable payments comprise the system's input. **Output:** Disbursements file, various accounting reports, IRS Form 1099, and IRS data file are the principal system output.
Agency Contact: (202) 755-5461.

S00800-018

General Administrative Accounting System (GAAS). (A93).

OMB Funding Code/Title: 86-0143-0-1-604 / Salaries and expenses, including transfer of funds; 86-0143-0-1-451 / Salaries and expenses, including transfer of funds; 86-0144-0-1-751 / Fair housing assistance
Program: Housing Assistance; Community Development; Fair Housing Assistance

Congressional Relevance: House Committee on Banking, Finance, and Urban Affairs; Senate Committee on Banking, Housing, and Urban Affairs; House Appropriations Committee: HUD-Independent Agencies Subcommittee; Senate Appropriations Committee: HUD-Independent Agencies Subcommittee

Authority: Housing Act of 1948 (P.L. 80-901, title V, § 502).

Availability: Internal Use Only

Geographic Relevance: HUD Regional/Area Office

Purpose: This system is used by the regional Accounting Divisions and the central office to provide for the processing of the administrative staff expense transactions, as well as other general accounting transactions. It is intended to improve the accounting controls over departmental funds, decrease manual accounting workloads, improve internal and external reporting capabilities, and expedite payment processing. Administrative Staff Expense Accounting, Allotment Ledger, and Status of Funds data are information content. Geographic data elements are HUD regional office, HUD area office, and HUD insuring office codes. **Input:** Travel and miscellaneous vouchers, purchase orders, printing requisitions, and financial obligating documents are sources of data. **Output:** Allotment ledger, status of funds, cost and allotment, and obligations incurred are principal output.

Agency Contact: (202) 755-5461.

S00800-019

Home Mortgage Distributive Shares System. (F26).

OMB Funding Code/Title: 86-4070-0-3-371 / Federal Housing Administration fund

Program: Home Mortgage Insurance Program

Congressional Relevance: House Committee on Banking, Finance, and Urban Affairs; Senate Committee on Banking, Housing, and Urban Affairs; House Appropriations Committee: HUD-Independent Agencies Subcommittee; Senate Appropriations Committee: HUD-Independent Agencies Subcommittee

Authority: National Housing Act of 1934, as amended (P.L. 73-479). Housing and Urban Development Act of 1968 (P.L. 90-448). Housing Authorization Act of 1976 (P.L. 94-375). Housing and Community Development Act of 1974 (P.L. 93-383).

Availability: Internal Use Only

Geographic Relevance: HUD Area Office

Purpose: This system accepts and processes data regarding refund payments for terminated FHA insured mortgages which participate in FHA's Mutual Mortgage Insurance Fund. The payment is a one-time refund of a portion of the Mortgage Insurance Premiums paid to FHA throughout the term of the mortgage. Mortgage insurance, terminations, mutual mortgage insurance fund, and refund payments data are information sources. Geographic data elements are HUD area offices and HUD insuring office codes. **Input:** Data are derived from lender's request for termination of home mortgage insurance and confirmation of encumbrance amount and name and address. **Output:** Principal output includes Disbursement Register, Transaction and Control, Special Inquiry, Disbursement Schedules, Confirmation of Encumbrance, and Disbursement Tape File.

Agency Contact: (202) 755-5461.

S00800-020

Geographic Code System. (D71)

OMB Funding Code/Title: 86-0139-0-1-604 / Subsidized housing programs; 86-0163-0-1-604 / Payments for operation of low income housing projects; 86-0139-0-1-604 / Subsidized housing programs

Program: Assistance Contracts for Rent Supplement Payments; Annual Payments; Public Housing Operating Subsidies; Annual Contribution Contracts for Assisted Housing; Assistance Contracts for Payments

Congressional Relevance: House Committee on Banking, Finance, and Urban Affairs; Senate Committee on Banking, Housing, and Urban Affairs; House Appropriations Committee: HUD-Independent Agencies Subcommittee; Senate Appropriations Committee: HUD-Independent Agencies Subcommittee

Authority: Housing and Urban Development Act of 1965 (P.L. 87-117, § 101). U.S. Housing Act of 1937 (P.L. 75-412, § 5). Housing and Urban Development Act of 1968 (P.L. 90-448, § 235, 236).

Availability: Internal Use Only

Geographic Relevance: State; County; HUD locality, HUD Regional/Area Office

Purpose: This system maintains a master reference file containing geographic codes which uniquely identify each place where a HUD project is located. It employs a geographical hierarchy of places, by population, for use as an analytical tool. The file is also used to interface with other automated systems to achieve standardization within HUD programs and to eliminate redundant data entry into each program file of elements of information regarding the localities of projects. Locality, geographic codes, and population data are generated. Geographic data elements are state, county, HUD locality, place, and HUD regional codes. **Input:** Input is comprised of geographic codes and population data for the Department of Housing and Urban Development (HUD) projects. **Output:** Master Locality Directories are the principal output.

Agency Contact: (202) 755-5461.

Assisted Housing Accounting System (AHAS). (A45).

OMB Funding Code/Title: 86-0139-0-1-604 / Subsidized housing programs; 86-0163-0-1-604 / Payments for operation of low-income housing projects

Program: Lower Income Housing Assistance, Public Housing Operating Subsidies

Congressional Relevance: House Committee on Banking, Finance, and Urban Affairs; Senate Committee on Banking, Housing, and Urban Affairs; House Appropriations Committee: HUD-Independent Agencies Subcommittee; Senate Appropriations Committee: HUD-Independent Agencies Subcommittee

Authority: Supplemental Housing Authorization Act of 1977 (P.L. 95-24); U.S. Housing Act of 1937 (P.L. 75-412); Housing Act of 1950 (P.L. 81-475); Housing and Urban Development Act of 1965 (P.L. 89-117).

Availability: Agency; Internal Use Only

Geographic Relevance: National

Purpose: This system provides a uniform automated accounting system for the recording and reporting of the assignments and subassignments of loan, contracts, and budget authority and for the recording and reporting of the reservation of the loan, contract, and budget authority for the Section 8 Housing Assistance Payments Program (Section 8 HAP), the traditional public housing programs, and the modernization program. The system, as a matter of agency policy, is the sole source for actual dollar and unit amounts relating to the reservation of loan, contract, and budget authority. This system operates in an on-line, real-time environment. **Input:** Sources of the data used in the system include project accounting data, regional fund and contract authority assignments, and regional fund and contract authority subassignments.

Output: Detailed accounting reports are produced daily and monthly on remote printer and annually on main computer printer. Inquiry reports are printed on remote printer as requested.

Authority: Housing Act of 1948, as amended (P.L. 80-901; 12 U.S.C. 1701).

Availability: Agency; Office of Legislation and Intergovernmental Relations

Geographic Relevance: State, Congressional District

Purpose: This file was established to provide members of Congress with listings of projects and grants which have been awarded to their districts or states. This file contains data on community development block grants, section 701 comprehensive planning assistance grants, section 312 rehabilitation loans, urban homesteading projects, section 8 lower income rental assistance, low-income public housing, public housing modernization, multifamily project insurance, home mortgage insurance, special assistance mortgage purchase commitments (Tandem plan), solar heating and cooling grants, housing counseling grants, and federal disaster assistance grants. Project and grant data in the file include the project or grant number, the number of grants or projects, the amount of award, reservation, or insurance; the number of units; location of the project or grant; and the location of the applicant. **Input:** The data for eight of the covered programs are accessed directly from various automated systems, while data for six other programs are input manually. **Output:** Reports by Congressional District and by state are produced semiannually based on data as of the preceding March 31 and September 30.

S00600-050

Resource Allocation Guideline System (RAGS). (A52).

OMB Funding Code/Title: 86-0143-0-1-999 / Salaries and expenses, including transfer of funds

Program: Departmental Management, Legal and Audit Services

Congressional Relevance: *House* Committee on Banking, Finance, and Urban Affairs; *Senate* Committee on Banking, Housing, and Urban Affairs; *House* Appropriations Committee: HUD-Independent Agencies Subcommittee; *Senate* Appropriations Committee: HUD-Independent Agencies Subcommittee

Authority: Housing Act of 1948 (P.L. 80-901, title V, § 502; 62 Stat. 1283; 12 U.S.C. 1701c).

Availability: Internal Use Only

Purpose: The Resource Allocation Guideline System (RAGS-A52), when operational (expected date to become operational April 30, 1984), will provide the HUD headquarters a consolidated source of data major work outputs reported by all the HUD program areas and subprogram areas, as appropriate, that account for the bulk of the HUD staff time. These key work outputs reported, the historical patterns of productivity, will be maintained in this system for each region and for each location. RAGS data will permit relative comparisons to be made between organizational units in relation to some norm. The system sponsor is the Office of Administrative and Management Services. **Input:** Staff-hour data will be supplied by the Employee Time Reporting System (A02), and workload data will be supplied by the various program areas within the Department of Housing and Urban Development (HUD). **Output:** The system will provide management reports containing information derived from staff-hour and workload data for various program areas. Productivity reports will be generated on a quarterly, semi-annual, and annual basis.

Agency Contact: (202) 755-5461.

S00600-051

Forms, Issuances, and Publications Inventory Control System (FIPICS). (A55).

OMB Funding Code/Title: 86-0143-0-1-999 / Salaries and expenses, including transfer of funds

Program: Departmental Management, Legal and Audit Services

Congressional Relevance: *House* Committee on Banking, Finance, and Urban Affairs; *Senate* Committee on Banking, Housing, and Urban Affairs; *House* Appropriations Committee: HUD-Independent Agencies Subcommittee; *Senate* Appropriations Committee: HUD-Independent Agencies Subcommittee

Authority: Housing Act of 1948 (P.L. 80-901, title V, § 502; 62 Stat. 1283; 12 U.S.C. 1701c).

Availability: Agency

Geographic Relevance: Regional

Purpose: The system will satisfy the requirements for a Forms, Publications, and Issuances Inventory Management System which is simplified and non-staff demanding to operate but provides inventory control. It will link interactively the various HUD regional offices with HUD headquarters supply section to process requisitions for Forms, Issuances, and Publications. **Input:** Input consists of Department of Housing and Urban Development (HUD) requisitions for Forms, Issuances, and Publications. **Output:** Hardcopy reports are produced on a daily, monthly, quarterly, and as needed basis.

Agency Contact: (202) 755-5461.

S00600-052

Correspondence Processing and Accountability System (CPAS). (A72). 09/83

OMB Funding Code/Title: 86-0143-0-1-999 / Salaries and expenses, including transfer of funds

Program: Field Direction and Administration

Congressional Relevance: *House* Committee on Banking, Finance, and Urban Affairs; *Senate* Committee on Banking, Housing, and Urban Affairs; *House* Appropriations Committee: HUD-Independent Agencies Subcommittee; *Senate* Appropriations Committee: HUD-Independent Agencies Subcommittee

Authority: Housing Act of 1948 (P.L. 80-901, title V, § 502; 62 Stat. 1283; 12 U.S.C. 1701c).

Availability: Agency; Internal Use Only

Purpose: The Correspondence Processing and Accountability System is an automated correspondence logging and tracking system. The system uses a Honeywell level 6 computer terminal to log all significant correspondence, control due dates, track document flow, and measure staff performance. Each document is tracked from initiation through completion. Data is stored on a Univac System 2000 data base for 1 year. **Input:** Input consists of correspondence generated from within the Office of Personnel, correspondence generated from within the Department of Housing and Urban Development (HUD) going into the Office of Personnel, and correspondence generated outside HUD going into the Office of Personnel. **Output:** Output includes a daily error/update report for each batch of transactions input, monthly correspondence suspense reports, and a monthly quality/quantity of work evaluation reports.

Agency Contact: (202) 755-5918.

S00600-053

Personal Property Management System (PPMS). (A81).

OMB Funding Code/Title: 86-0143-0-1-999 / Salaries and expenses, including transfer of funds

Program: Departmental Management, Legal and Audit Services

Congressional Relevance: *House* Committee on Banking, Finance, and Urban Affairs; *Senate* Committee on Banking, Housing, and Urban Affairs; *House* Appropriations Committee: HUD-Independent Agencies Subcommittee; *Senate* Appropriations Committee: HUD-Independent Agencies Subcommittee

Authority: Housing Act of 1948 (P.L. 80-901, title V, § 502; 62 Stat. 1283; 12 U.S.C. 1701c).

Availability: Agency; Internal Use Only

Geographic Relevance: Regional

Purpose: The Personal Property Management System (PPMS-A81) provides a data management facility for all personal property inventories held by headquarters and regional offices within HUD and satisfies the administrative requirements for property control of the Office of Administrative and Management Services and the Office of Finance and Accounting. PPMS maintains HUD's personal property inventory data

lets and the 10 regional offices. **Input:** Input consists of the inventory transcription form, Department of Housing and Urban Development (HUD)-1602. **Output:** Outputs include inventory by office (weekly), a transaction report (weekly), an inventory management report (monthly), and general ledger reports (monthly). **Agency Contact:** (202) 755-5461.

S00600-054

Delinquent Debt Control System. (A97).

OMB Funding Code/Title: 86-0143-0-1-999 / Salaries and expenses, Including transfer of funds

Program: Departmental Management, Legal and Audit Services

Congressional Relevance: House Committee on Banking, Finance, and Urban Affairs; Senate Committee on Banking, Housing, and Urban Affairs; House Appropriations Committee: HUD-Independent Agencies Subcommittee; Senate Appropriations Committee: HUD-Independent Agencies Subcommittee

Authority: Housing Act of 1948 (P.L. 80-901, title V, § 502; 62 Stat. 1283; 12 U.S.C. 1701c) Act of September 13, 1982 (P.L. 97-258; 96 Stat. 970; 31 U.S.C. 3701 et seq.).

Availability: Internal Use Only

Purpose: The system establishes better accounting control of accounts and loans and notes receivables that are in the claims collection process. Major functions are to maintain a master delinquent debt file, create new cases, and apply changes to previously established cases. Additionally, reports will be produced on a monthly and quarterly basis. **Input:** The primary source of data is furnished by the claims collection officers at the time the cases are assigned to them. **Output:** The output consists of monthly and quarterly reports for the claims collection officers, the regional claims coordinators, and the departmental collection officer.

Agency Contact: (202) 755-5854.

S00600-055

Computer Accounting and Resources Management System (CARMS). (U05).

OMB Funding Code/Title: 86-0143-0-1-999 / Salaries and expenses, Including transfer of funds

Program: Departmental Management, Legal and Audit Services

Congressional Relevance: House Committee on Banking, Finance, and Urban Affairs; Senate Committee on Banking, Housing, and Urban Affairs; House Appropriations Committee: HUD-Independent Agencies Subcommittee; Senate Appropriations Committee: HUD-Independent Agencies Subcommittee

Authority: Housing Act of 1948 (P.L. 80-901, title V, § 502; 62 Stat. 1283; 12 U.S.C. 1701c).

Availability: Internal Use Only

Purpose: This system reads log accounting records generated by the computer operating system and tracks all system activity. There are five specific areas for which data is compiled: UNIVAC accounting, Honeywell accounting, tape management, file management, and line utilization. **Input:** Input consists of computer operating system log records. **Output:** Output includes management reports on a daily, weekly, and monthly basis which detail computer usage.

Agency Contact: (202) 755-5461.

S00600-056

Multifamily Tenant Certification System (MTCs). (F86).

OMB Funding Code/Title: 86-0139-0-1-604 / Subsidized housing programs; 86-0163-0-1-604 / Payments for operation of low income housing projects

Program: Lower Income Housing (section 8); Public Housing Operation Subsidies

CFDA NO.: 14.156

Congressional Relevance: House Committee on Banking, Finance, and Urban Affairs; Senate Committee on Banking, Housing, and Urban Affairs; House Appropriations Committee: HUD-Independent Agencies Subcommittee; Senate Appropriations Committee: HUD-Independent Agencies Subcommittee

Authority: United States Housing Act of 1937, as amended (P.L.

4477). United States Housing Act of 1937, as amended (P.L. 75-416, § 9, as amended by P.L. 93-383, title 11, § 201(a); 42 U.S.C. 1437a; Housing and Urban Development Act of 1965 (P.L. 89-117, § 161 Stat. 451; 12 U.S.C. 1701s)

Availability: Internal Use Only

Purpose: The purpose of the system is to gather eligibility data for numerous tenant subsidy programs within HUD. The system will provide tenant and project characteristics data and is intended eventually support an automated payment voucher process. **Input:** The input to this system is the Department of Housing and Urban Development (HUD) Form 50059 submitted from public housing authorities or management agents/owners of housing projects. **Output:** Output products include reports on the quality of the data, tenant characteristics, and occupancy data. Future uses will be edit error lists returned to the Public Housing Authority and management/owners, and a voucher process.

Agency Contact: (202) 755-5461.

S00600-057

Due Time Premium Collection System. (A83).

09/01/83

OMB Funding Code/Title: 86-4070-0-3-371 / Federal Housing Administration fund

Program: Home Mortgage Insurance Programs

CFDA NO.: 14.117

Congressional Relevance: House Committee on Banking, Finance, and Urban Affairs; Senate Committee on Banking, Housing, and Urban Affairs; House Appropriations Committee: HUD-Independent Agencies Subcommittee; Senate Appropriations Committee: HUD-Independent Agencies Subcommittee

Authority: National Housing Act, as amended (P.L. 73-479, title 203, 217, as amended by P.L. 74-76, § 29, P.L. 90-448, title 1, § 10 Stat. 1248; 12 U.S.C. 1709, 1715h).

Availability: United States Postal Service Electronic Computer Originated Mail

Purpose: The system records the payment of premiums for certain single family dwellings insured after September 1, 1983. It receives a payment data from a lockbox, verifies the data for accuracy, and automatically returns a receipt of payment via the United States Postal Service's electronic computer originated mail facilities. The system provides the HUDMAP Single Family Insurance System the premium data required to eventually allow for the computation of funds of unearned premiums at time of termination. **Input:** Input consists of lockbox's daily transmission of Department of the Treasury posits as a result of mortgagees submitting a "Mortgage's One-MIP Transmittal" form. **Output:** Output consists of daily bulk mortgagees, reports of collections, transaction registers, monthly schedules, and file maintenance reporting.

Agency Contact: (202) 755-5461.

S00600-058

General Accounting System (HUDMAP). (A56).

10/01/83

OMB Funding Code/Title: 86-4070-0-3-371 / Federal Housing Administration fund

Program: Home Mortgage Insurance Programs

CFDA NO.: 14.117

Congressional Relevance: House Committee on Banking, Finance, and Urban Affairs; Senate Committee on Banking, Housing, and Urban Affairs; House Appropriations Committee: HUD-Independent Agencies Subcommittee; Senate Appropriations Committee: HUD-Independent Agencies Subcommittee

Authority: National Housing Act, as amended (P.L. 73-479, title 203, 207, 213, as amended by P.L. 74-305, title 111, § 344; 48 Stat. 1252; 12 U.S.C. 1709, 1713, 1715 et seq.).

Availability: Internal Use Only

Purpose: This system is an automated general ledger for all aspects of the Department of Housing and Urban Development's mortgage insurance accounting programs. It features online and batch processing files which potentially could contain over three million records. Four of the four relevant funds it maintains financial and statistical inven-

and statistical debt collection accounts by section of the act or new office. **Input:** Input consists of debt and credit posting transactions via automated interfaces with the automated systems which deal with the various aspects of the Mortgage Insurance Program. **Output:** Output consists of financial statements, including statements of assets and liabilities, schedule of debt collection, insurance activity, profit, and loss. Output is produced monthly, quarterly, and annually.

Housing Act of 1959, as amended (P.L. 86-372, title 11, § 202, as amended by P.L. 87-70, title 11, § 201; 73 Stat. 667; 12 U.S.C. 1701(h)). Housing and Community Development Amendments of 1978 (P.L. 95-557, title 11, § 201; 92 Stat. 2084, 12 U.S.C. 1715a-1(n)). United States Housing Act of 1937, as amended (P.L. 74-412, § 9, as amended by P.L. 93-383, title 1, § 201(a); 42 U.S.C. 1437g). Energy Security Act (P.L. 96-294, title V, § 509, 511-512; 94 Stat. 725-726, 728, 12 U.S.C. 3607, 3609-3610). Housing and Urban Development Act of 1970, as amended (P.L. 91-609, title V, § 501-502, as amended by P.L. 94-375, § 23; 84 Stat. 1784, 12 U.S.C. 1701z-1-1701z-2). Housing and Community Development Act of 1974, as amended (P.L. 93-383, title VI, § 602; 88 Stat. 700; 42 U.S.C. 5401 et seq.). (Treasury Department Circular 1075).

Availability: Internal Use Only; Department of the Treasury.

Geographic Relevance: HUD Regional/Field Offices.

Purpose: LOCCS provides an automated process which authorizes or rejects requests for HUD funds by recipients. The major HUD program areas which are utilizing letter of credits are community planning and development, public housing, and multifamily housing. Other program areas will be added in fiscal year 1985. The present file size estimates indicate that there will be 75 million characters. The system is due to be developed and implemented for one region by September 30, 1984, with nationwide implementation beginning October 1, 1984. **Input:** Request for funds will be submitted by recipients to the Department of the Treasury which will relay it to the Department of Housing and Urban Development (HUD). The Letter of Credit Control System (LOCCS) will have been loaded with program-area data from the regional accounting divisions and field offices. **Output:** LOCCS will nightly transmit to the Department of the Treasury the status of the request for funds. There will be reports generated to HUD regional and field office staff on a daily, monthly, and quarterly basis.

Authority: National Housing Act, as amended (P.L. 73-479, title II, § 203, 217, as amended by P.L. 74-76, § 29, P.L. 90-448, title I, § 203, P.L. 93-383; 48 Stat. 1248; 12 U.S.C. 1709, 1715h).

Availability: Internal Use Only

Purpose: This system contains an online file of seven million home mortgage insurance records which are maintained and controlled daily. The system produces monthly estimates of premiums earned for each case and annual advanced premium notice records for each case. The system provides totals of case inventory, mortgage amounts, and unpaid mortgage balances for entry in the general ledger books of accounts via an automated interface with the HUDADP general ledger system. The system computes earned and unearned monthly balances of one time premiums as well as the refund owed the mortgagor at the time of termination. **Input:** Input consists of mortgage record changes, lenders request for termination of home mortgage insurance, Computerized Homes Underwriting Management System new insurance interface, neighborhood and minority data, and one time premium amounts from the One Time Premium Collection System. All inputs can be entered in a batch or online mode. **Output:** Output includes a section of the ACT report, online inquiry, ad hoc reporting, insurance in force by group accounts, and management reports.

S00600-065

Bonds Direct Deposit/Electronic Phone Transfer. (A26).

OMB Funding Code/Title: 86-0143-0-1-751 / Salaries and expenses, including transfer of funds

Program: Departmental Management, Legal and Audit Services

Congressional Relevance: *House* Committee on Banking, Finance, and Urban Affairs; *Senate* Committee on Banking, Housing, and Urban Affairs; *House* Appropriations Committee: HUD-Independent Agencies Subcommittee; *Senate* Appropriations Committee: HUD-Independent Agencies Subcommittee

Authority: Housing Act of 1948 (P.L. 80-901, title V, § 502; 62 Stat. 1283; 12 U.S.C. 1701c).

Availability: Agency

Purpose: The A26 system generates a magnetic tape of direct deposits to the Department of the Treasury. The system covers bonds and other miscellaneous payments. **Input:** Input consists of bond deductions and other miscellaneous payments. **Output:** Output includes magnetic tape of direct deposits to the Department of the Treasury.

Agency Contact: (202) 755-5461.

S00600-069

Management and Control of Commitments. (A82).

OMB Funding Code/Title: 86-0143-0-1-751 / Salaries and expenses, including transfer of funds

Program: Departmental Management, Legal and Audit Services

Congressional Relevance: *House* Committee on Banking, Finance, and Urban Affairs; *Senate* Committee on Banking, Housing, and Urban Affairs; *House* Appropriations Committee: HUD-Independent Agencies Subcommittee; *Senate* Appropriations Committee: HUD-Independent Agencies Subcommittee

Authority: Housing Act of 1948 (P.L. 80-901, title V, § 502; 62 Stat. 1283; 12 U.S.C. 1701c).

Availability: Agency

Purpose: The A82 system maintains controls within HUD of the commitment of funds as received on requisition forms (HUD-10). **Input:** Input consists of Department of Housing and Urban Development (HUD)-10 requisition forms. **Output:** Output includes various standard hard copy reports.

Agency Contact: (202) 755-5854.

New Communities**S00601-001**

New Community Simulation Models (NUCOMS). (K02).

OMB Funding Code/Title: 86-4237-0-3-451 / New communities fund

Program: New Communities Fund

Congressional Relevance: *House* Committee on Banking, Finance, and Urban Affairs; *Senate* Committee on Banking, Housing, and Urban Affairs; *House* Appropriations Committee: HUD-Independent Agencies Subcommittee; *Senate* Appropriations Committee: HUD-Independent Agencies Subcommittee

Authority: Housing and Urban Development Act of 1968, as amended (P.L. 90-448, § 403).

Availability: Internal Use Only

Purpose: This system is a set of analytical models and supporting procedures to examine and support the decisionmaking process regarding the economic and financial consequences of a proposed and/or ongoing new community. Through the employment of a range of economic and financial variables (economic financial variables, feasibility, forecasting, new community, monitor, land developments, and analytical models data), the user is able to determine the feasibility of a project. It is used for the development of techniques in forecasting, reporting, and optimizing large scale land developments for HUD management and private developers. Subsequent to approval, the system is used to ascertain stability and to monitor and evaluate the step-by-step process of constructing a new community. **Input:** Economic and financial data are acquired from various sources. **Output:** Output is a cash flow statement, statisti-

cal probability report, and PERT charts.

Agency Contact: New Communities (202) 755-5461.

Community Planning and Development**S00602-003**

Land Acquisition/Relocation System (LARS). (C12).

OMB Funding Code/Title: 86-0162-0-1-451 / Community development grants

Program: Grants and Related Expenses

Congressional Relevance: *House* Committee on Banking, Finance, and Urban Affairs; *Senate* Committee on Banking, Housing, and Urban Affairs; *House* Appropriations Committee: HUD-Independent Agencies Subcommittee; *Senate* Appropriations Committee: HUD-Independent Agencies Subcommittee

Authority: Housing and Community Development Act of 1974 (P.L. 93-383, § 103).

Availability: Internal Use Only

Geographic Relevance: State, HUD Regional/Area Office

Purpose: This system provides summary information on relocation payments and expenses and real property acquisition settlements under the Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970. The system includes fiscal year data for the new Community Development Block Grant Program as well as the categorical programs that involve relocation or acquisition. Data categories are relocated families, relocated individuals, relocated businesses, real property acquisition, and acquired lands. Geographic coverage includes state, HUD regional office, HUD locality, and HUD area office codes. **Input:** Annual Reports on Relocation and Real Property Activities are information sources. **Output:** Output is a management information report (by region, area, and program), summary activities by state, project control list, and management information by state.

S00602-006

Community Development Block Grant (CDBG) Management System. (C11).

OMB Funding Code/Title: 86-4015-0-3-451 / Revolving fund (liquidating programs)

Program: Grants for Neighborhood Facilities

Congressional Relevance: *House* Committee on Banking, Finance, and Urban Affairs; *Senate* Committee on Banking, Housing, and Urban Affairs; *House* Appropriations Committee: HUD-Independent Agencies Subcommittee; *Senate* Appropriations Committee: HUD-Independent Agencies Subcommittee

Authority: Independent Offices Appropriation Act of 1955 (P.L. 83-428).

Availability: *House* Committee on Banking, Finance, and Urban Affairs

Geographic Relevance: National; State; (SMSA) Standard Metropolitan Statistical Area; Congressional District; County; HUD Regional/Area Office

Purpose: This system provides an audit function to Community Planning and Development pertaining to the granting of funds to units of general local government, and their use of such funds under the 1974 legislation. The system will collect data from other automated systems, i.e., Field Office Reporting/Management System (FORMS) and the Program Accounting System (PAS). The system provides a record of allocations and outlays, by locality; each locality's past participation in the predecessor categorical programs; and what the locality has identified as its community development needs in its applications from year-to-year under CDBG. Geographic and programmatic data elements are U.S., state, county, SMSA, congressional district, HUD regional offices, HUD area office, HUD and locality codes and Community Development Block Grants (CDBG), Block Grants Applications, Funding Approvals, and Budget Disbursements Data. **Input:** Application Information, Funding Approval, CD Budget, Distribution Ledger, and User Parameter Cards are data sources. **Output:** Directory reports, summary reports, budget reports, drawdown reports, master reports, and system control reports are produced.

Agency Contact: Community Planning and Development. (202) 755-5461.

OMB Funding Code/Title: 86-0162-0-1-451 / Community development grants

Program: Grants and Related Expenses

CFOA NO.: 14.218; 14.219; 14.221

Congressional Relevance: House Committee on Banking, Finance, and Urban Affairs; Senate Committee on Banking, Housing, and Urban Affairs; House Appropriations Committee: HUD-Independent Agencies Subcommittee; Senate Appropriations Committee: HUD-Independent Agencies Subcommittee

Authority: Housing and Community Development Act of 1974 (P.L. 93-383, § 103).

Availability: House Committee on Banking, Finance, and Urban Affairs

Geographic Relevance: National, State; (SMSA) Standard Metropolitan Statistical Area; County; HUD Regional/Area Office

Purpose: This system allocates appropriated funds to localities which HUD determines to be eligible, based upon population, other demographic characteristics, and prior community development program participation levels attributable to the various eligible communities. The allocation system involves the use of a mathematical formula in which each community's characteristics are compared with those of all such eligible communities to determine its relative share of the funds to be allocated. The specific formula is set forth in the legislation. This system also allocates discretionary funds among geographic areas. The geographic and programmatic data include: U.S. state, SMSA, HUD regional office, HUD area office, and HUD locality codes and Community Development Block Grant (CDBG), Block Grants, CDBG entitlement determination, need-based formula allocation, discretionary funds, and Hold Harmless Community data. **Input:** Data are derived from a Master File Annotation Listing with additions, changes, and deletions, and user parameters on demographic and population characteristics. **Output:** Output consists of entitlement reports, comparison reports, distribution of entitlements, worksheet listings, transaction control listings, and CDBG master file annotation listings.

Rehabilitation Loans and Grants System. (R64).

OMB Funding Code/Title: 86-4036-0-3-451 / Rehabilitation loan fund

Program: Capital Investment

Congressional Relevance: House Committee on Banking, Finance, and Urban Affairs; Senate Committee on Banking, Housing, and Urban Affairs; House Appropriations Committee: HUD-Independent Agencies Subcommittee; Senate Appropriations Committee: HUD-Independent Agencies Subcommittee

Authority: Housing Act of 1964, as amended (P.L. 88-560, § 312).

Availability: Internal Use Only

Geographic Relevance: State; locality

Purpose: This system provides detailed information concerning section 115 Rehabilitation Grants and section 312 Rehabilitation Loans, by geographical area and by characteristics of the property and the recipient. Summaries are provided for the total program and by the applicable urban renewal activity, e.g., urban renewal projects, code enforcement, neighborhood development, and certified areas. The content includes state and HUD locality codes, as well as programmatic data, such as rehabilitation grants, rehabilitation loans, grants, loans, investor-owned/mixed use, and refinanced loans data. **Input:** Data are derived from applications for federal loan, applications for Rehabilitation loan, applications for section 115 rehabilitation grant, and Certification of Final Inspection. **Output:** Major output is Statistical Tables, Dwelling Units by Cost or Loan Amount, Rehabilitation Over \$2,500, Rehabilitation of Housing Units, and Control Listings.

Program: Home Mortgage Insurance Program

Congressional Relevance: House Committee on Banking, Finance, and Urban Affairs; Senate Committee on Banking, Housing, and Urban Affairs; House Appropriations Committee: HUD-Independent Agencies Subcommittee; Senate Appropriations Committee: HUD-Independent Agencies Subcommittee

Authority: National Housing Act of 1934, as amended (P.L. 73-479); Housing and Urban Development Act of 1968 (P.L. 90-448); Housing Authorization Act of 1976 (P.L. 94-375); Housing and Community Development Act of 1974 (P.L. 93-383).

Availability: HUD Statistical Year Book

Geographic Relevance: State; (SMSA) Standard Metropolitan Statistical Area; HUD Area Office

Purpose: This system provides sampled statistical data reflecting characteristics of single family homes newly insured under the Title II home-

ing laws. Processing is done quarterly and annually, with the data assembled by section of the act, construction status, and 10 specific data elements relating to the 10 major reports from this system. The geographic and programmatic data maintained are state, SMSA, HUD area office, and HUD insuring office codes and single family homes, housing characteristics, section of the act, and new insurance data. **Input:** Single Family Mortgage Trends and statistical data are sources of system information. **Output:** The major output includes Single Family Housing Mortgage, Mortgagee, and Home Characteristic and statistical reports with summary.

Agency Contact: Housing Production and Mortgage Credit. (202) 755-5461.

Single Family Trends Data System. (F31-D).

OMB Funding Code/Title: 86-4070-0-3-371 / Federal Housing Administration fund

Program: Home Mortgage Insurance Program

Congressional Relevance: House Committee on Banking, Finance, and Urban Affairs; Senate Committee on Banking, Housing, and Urban Affairs; House Appropriations Committee: HUD-Independent Agencies Subcommittee; Senate Appropriations Committee: HUD-Independent Agencies Subcommittee

Authority: National Housing Act of 1934, as amended (P.L. 73-479). Housing and Urban Development Act of 1968 (P.L. 90-448). Housing Authorization Act of 1976 (P.L. 94-375). Housing and Community Development Assistance Act of 1974 (P.L. 93-383).

Availability: HUD Publications Office

Geographic Relevance: State; (SMSA) Standard Metropolitan Statistical Area

Purpose: This system generates statistical arrays of single family insurance characteristics of the newly insured under Title II of the National Housing Act. The reports produced are camera-ready copy for regularly scheduled HUD publications. Data profiled are selected because they are indicative of housing trends. They are reported annually by state and housing area with supplementary quarterly reports and by FHA-insurance Value for section 203(b) and section 221(d). The latter reports, produced quarterly, contain and compare quarters to annual data. The system captures and maintains data by state and SMSA. The primary categories of data are single family homes, housing characteristics, and housing trends. **Input:** Data are derived from single family insurance characteristics data. **Output:** Output consists of Home Characteristics Tables by State, and Selected Housing Areas and Trends Publication Reports.

Program: Home Mortgage Insurance Program

Congressional Relevance: House Committee on Banking, Finance, and Urban Affairs; Senate Committee on Banking, Housing, and Urban Affairs; House Appropriations Committee: HUD-Independent Agencies Subcommittee; Senate Appropriations Committee: HUD-Independent Agencies Subcommittee

Authority: National Housing Act of 1934, as amended (P.L. 73-479). Housing and Urban Development Act of 1968 (P.L. 90-448). Housing Authorization Act of 1976 (P.L. 94-375). Housing and Community Development Act of 1974 (P.L. 93-383).

Availability: Internal Use Only

Geographic Relevance: National; State; HUD Regional Office

Purpose: This system produces actuarial reports that show the life expectancy of single family home mortgages by section of the act and ratio reports that show the ratio of terminated mortgages to endorsements by policy year. The reports are used to develop comprehensive statistics on housing programs. These statistics are the basis for evaluation of existing programs and development of future programs that are actuarially sound. The geographic and program area categories of data are U.S., state, and HUD regional office codes and single family mortgages, termination ratios, volume, section of the act, construction status, and ac-

tuary reports data. **Input:** Data are derived from single family mortgage data on new insured cases and terminations. **Output:** Non-Selected Transaction Listings, United States State Actuary Tabulations, and United States and State Ratio Reports are produced.

Authority: National Housing Act of 1934, as amended (P.L. 73-479). Housing and Urban Development Act of 1968 (P.L. 90-448). Housing Authorization Act of 1976 (P.L. 94-375). Housing and Community Assistance Act of 1974 (P.L. 93-383).

Availability: Internal Use Only

Purpose: The system provides a record of all Insurance Case Binders stored in the Central Office of the Federal Records Center. As case binders are retrieved from the storage site, a record will be created to show the location of the binder and the organizational element responsible for the binder until it is returned to storage. Requester identification, Federal Housing Administration case number, accession number, binder location and insured case binders data are provided as required, and on a monthly update cycle. **Input:** Input includes case binder and

Output: The principal outputs, frequencies, and means of production are: transaction register (daily), printer; retrieval requests (daily), printer; case binder inventory (monthly), printer; inquiry reports (as required), printer; and microfilm (annually), tape.

Insurance in Force (HIF)--Coinsurance System. (A19).

OMB Funding Code/Title: 86-4070-0-3-371 / Federal Housing Administration fund

Program: Home Mortgage Insurance Program

Congressional Relevance: House Committee on Banking, Finance, and Urban Affairs; Senate Committee on Banking, Housing, and Urban Affairs; House Appropriations Committee: HUD-Independent Agencies Subcommittee; Senate Appropriations Committee: HUD-Independent Agencies Subcommittee

Authority: National Housing Act of 1934, as amended (P.L. 73-479). Housing and Urban Development Act of 1968 (P.L. 90-448). Housing Authorization Act of 1976 (P.L. 94-375). Housing and Community Development Act of 1974 (P.L. 93-383).

Availability: Internal Use Only

Geographic Relevance: HUD Area Office

Purpose: This system supports the fiscal accounting, actuarial, and inquiry data requirements of the Coinsurance Program authorized by section 307 of the Housing and Community Development Act of 1974. The system records the insurance, allocates the appropriate amount of insurance premiums, records the claim, and keeps a record of each mortgagee reserve account. The system maintains data dealing with insured cases, premiums paid, terminations, claims, reserve accounts and other accounting/fiscal data dealing with the Coinsurance Program, which is processed monthly. **Input:** The inputs to the system are coinsurance entry/adjustment forms and claim forms via card input; and new insured cases, premiums paid data, and termination data via magnetic tape interface with insurance in force automated systems. **Output:** The principal outputs, frequency, and means of production are: mortgage portfolio report (annually), main printer; accounting report (monthly), main printer; extract control total report (monthly), main printer; coinsurance status report (as required), main printer; and on-line query/update listing (as required), remote terminal.

*Computerized Home Underwriting Management System (CHUMS). (F17).
OMB Funding Code/Title: 86-4070-0-3-371 / Federal Housing Administration fund*

Program: Administrative (Home Mortgage Insurance Programs)

CFDA NO.: 14.117

Congressional Relevance: House Committee on Banking, Finance, and Urban Affairs; Senate Committee on Banking, Housing, and Urban Affairs; House Appropriations Committee: HUD-Independent Agencies Subcommittee; Senate Appropriations Committee: HUD-Independent Agencies Subcommittee

Authority: National Housing Act, as amended (P.L. 73-479, title II, § 203, 217, as amended by P.L. 74-76, § 29, P.L. 90-448, title I, § 103; 48 Stat. 1248; 12 U.S.C. 1709, 1715h).

Availability: Internal Use Only; Mortgage lenders

Geographic Relevance: National; HUD Regional/Field Offices

Purpose: The Computerized Home Underwriting Management System (CHUMS) is an automated system for HUD single family mortgage insurance application processing, including property approval, buyer approval, and insurance endorsement. In scope CHUMS is nationwide, involving all HUD regional and field offices in the 50 states. The CHUMS data base size will average 1,000,000 records, each consisting of approximately 3,000 characters. The retention for each record will range from 12 to 15 months. **Input:** Primary data sources are Department of Housing and Urban Development (HUD)-92800, HUD-92900, HUD-59100 forms, and they include Federal National Mortgage Association form-1004. Input data is also called in to the field offices by mortgage lenders via telephone. **Output:** Major outputs include the conditional commitment document, firm commitment document, and mortgage insurance certificate (all produced daily) and the summary of single family operations reports (produced twice a month). CHUMS will also provide a file containing mortgage insurance data to the HUD Single Family Insurance System (A43) on a weekly basis.

Availability: Internal Use Only

Purpose: The system upgraded to employ on-line DBMS technology in 1982 provides for the preparation, processing and reporting of accounting data on a timely basis. The major functions of this system are to edit and post accounting transactions and to provide various accounting and management reports. One time entry of transactions from accounting source documents posts allotment ledger cost accounts and general ledger control accounts. All reports are extracted from this data. **Input:** Transactions input from source documents applicable to source of funds, appropriations, apportionments, allotments, reimbursable agreements, use of funds (commitments, obligations, accrued expenditures, disbursements), and reimbursements. **Output:** Continuous on an interactive basis through on-line inquiry facility as required for operations manage-

ment. Internal financial management reports provided periodically and as required to program managers; official external reports.

S00700-002

National Natural Resources Library and Information System (NNRLIS).

OMB Funding Code/Title: 14-0102-0-1-306 / Office of the Secretary
Program: Library and Information Services

Congressional Relevance: House Committee on Interior and Insular Affairs; Senate Committee on Energy and Natural Resources; House Appropriations Committee: Interior Subcommittee; Senate Appropriations Committee: Interior Subcommittee

Authority: Department of the Interior Organic Act (P.L. 30-108).

Availability: Agency; On-line via OCLC

Purpose: This system produces machine-readable catalog records of the published materials acquired by the Natural Resources Library and more than 30 of its field libraries. The system content consists of natural resources data as contained primarily in published materials. It covers current and previous periods and is updated continually in many regular and irregular cycles. Special book catalogs and other listings are produced by computer, including combined serials listed by author, title, and subject. Computer-produced listings of records cataloged for individual field libraries can be produced on demand. **Input:** Bibliographic descriptions of acquired materials are entered into the system. **Output:** Products of this system include the Catalog of the National Resources Library (cards and books), the Libraries and Information Services Directory (produced irregularly), the Union List of Serials (NNRLIS), and specialized bibliographies produced on demand.

Purpose: The Facility Construction, Operations, and Maintenance (FACCOM) system supports the Bureau of Indian Affairs' facility management program in the following areas: project management and tracking of major repair and improvement and new construction projects, operations and maintenance activities, and facility planning. It is a System 2000 based application utilizing IBM's CICS telecommunications software in an interactive, 3270 protocol dial-up environment. FACCOM contains facility improvement and repair information, and a complete facility inventory on 10,000 buildings comprising 29 million square feet.
Input: Most information is furnished by facility management personnel located throughout the United States on a continuing basis. A one-time load of the data base occurred several years ago in which facility inventory data was structured in a System 2000 data base.
Output: Output consists of ad hoc, daily, and monthly reports used by facility management personnel and other departmental personnel. The system is capable of producing hardcopy reports on the status of specific projects and can generate inventory information at the building level.
Agency Contact: (202) 343-3403.

S00709-001

May Aerial Survey

OMB Funding Code/Title: 14-1611-0-1-303 / Resource management
Program: Wildlife Resources
Congressional Relevance: *House* Committee on Interior and Insular Affairs; *House* Committee on Merchant Marine and Fisheries; *Senate* Committee on Commerce, Science, and Transportation; *Senate* Committee on Energy and Natural Resources; *House* Appropriations Committee Interior Subcommittee; *Senate* Appropriations Committee Interior Subcommittee
Authority: Migratory Bird Treaty Act (P.L. 65-186). Fish and Wildlife Act of 1956 (P.L. 86-686). Fish and Wildlife Coordination Act (P.L. 85-624). National Wildlife Refuge System Administration Act of 1966 (P.L. 91-135).
Availability: GPO
Geographic Relevance: Alaska, Western Canada
Purpose: The system provides data tables for use in estimating the size of waterfowl populations. It uses a master file of aerial survey data accumulated and updated each year. The principal audience for the report are professional staff biologists and specialists in waterfowl management and research. The principal subject matter is waterfowl populations. The geographic coverage is breeding areas of Alaska, Western Canada, and the North Central and Western States of the United States. The survey (data gathering) operation is conducted each year in the spring.
Input: The primary providers of the input data are Fish and Wildlife Service, Canadian Wildlife Service, and state conservation agency personnel. The data are enumerations of waterfowl by species and a variety of other factors.
Output: The output report is data tables in a computer printout produced annually. In addition, a narrative summary entitled the "Waterfowl Status Report" is produced annually by the Laurel branch of the Migratory Bird Management Office.
Agency Contact: U.S. Fish and Wildlife Service. (202) 254-3207.

S00709-002

Duck Wing Analysis and Mall Survey Kill

OMB Funding Code/Title: 14-1611-0-1-303 / Resource management
Program: Wildlife Resources
Congressional Relevance: *House* Committee on Interior and Insular

Committee on Energy and Natural Resources; House Appropriations Committee Interior Subcommittee; Senate Appropriations Committee Interior Subcommittee
Authority: Migratory Bird Treaty Act (P.L. 65-186). Fish and Wildlife Act of 1956 (P.L. 86-686). Fish and Wildlife Coordination Act (P.L. 85-624). National Wildlife Refuge System Administration Act of 1966 (P.L. 91-135).
Availability: GPO
Geographic Relevance: International/Foreign, North American Continent
Purpose: This system provides data for use in estimating the waterfowl kill by species, estimating annual production and other facts relating to the waterfowl kill, and hunter activity for the Nation in various political and geographic regions. The principal audience is Fish and Wildlife Service staff specialists and scientists. The subject matter is the species composition, general age range, and sex, as well as other characteristics of waterfowl hunted in the United States.
Input: The primary providers of input are individual hunters who send in wings and bills of birds killed along with partially completed forms. These are analyzed by Fish and Wildlife Service waterfowl specialists who complete the forms, the data of which are keyed onto magnetic tape.
Output: The principal output report is a computer printout with tables of data. Staff specialists also prepare a summary report from the printout. Both are produced annually.
Agency Contact: U.S. Fish and Wildlife Service. (202) 254-3207.

S00709-003

Waterfowl Recovery Rate Analysis

OMB Funding Code/Title: 14-1611-0-1-303 / Resource management
Program: Wildlife Resources
FOIA NO.: 15.606
Congressional Relevance: *House* Committee on Interior and Insular Affairs; *House* Committee on Merchant Marine and Fisheries; *Senate* Committee on Commerce, Science, and Transportation; *Senate* Committee on Energy and Natural Resources; *House* Appropriations Committee Interior Subcommittee; *Senate* Appropriations Committee Interior Subcommittee
Authority: Migratory Bird Treaty Act (P.L. 65-186). Fish and Wildlife Act of 1956 (P.L. 86-686). Fish and Wildlife Coordination Act (P.L. 85-624). National Wildlife Refuge System Administration Act of 1966 (P.L. 91-135).
Availability: Internal Use Only
Geographic Relevance: National; State
Purpose: The system provides data on which to base analyses for use in formulating and evaluating waterfowl hunting regulations. The primary users of the report are staff biologists and waterfowl management specialists who analyze and interpret the data. The bird band recovery rate is the main emphasis of the report. These data are in tabulations prepared in June (approximately) of each year. The principal geographic coverage is the North American continent. The data are organized in broad groupings of age and sex.
Input: The primary providers of the input are bird banding personnel of the U.S. Fish and Wildlife Service and the Canadian Wildlife Service, with some assistance from state conservation agencies. Subsequently, the recovered bands are sent in by individual citizens. Fish and Wildlife Service personnel then complete forms from which the data are keyed onto magnetic tapes.
Output: The reports are annual computer printouts of rate recovery figures in tabular form.
Agency Contact: U.S. Fish and Wildlife Service. (202) 254-3207.

S00709-006

Congressional District Report System

OMB Funding Code/Title: 14-1611-0-1-303 / Resource management, 14-1612-0-1-303 / Construction and anadromous fish; 14-5137-0-2-303 / Migratory bird conservation account; 14-9923-0-2-303 / Miscellaneous permanent appropriations
Program: General Administration; Administration; Federal Aid in Fish and Wildlife Restoration
Congressional Relevance: *House* Committee on Interior and Insular Affairs; *House* Committee on Merchant Marine and Fisheries; *Senate* Committee on Commerce, Science, and Transportation; *Senate* Commu

tion Act (P.L. 89-304). Migratory Bird Conservation Act (P.L. 73-124).
Availability: Agency
Geographic Relevance: Congressional District
Purpose: As requested by Congress, the system reports on funds programmed by congressional district. The principal users are Members of Congress and their staffs. The principal subject matter coverage is outlined above. The geographic coverage is all congressional districts of the United States. **Input:** The primary providers of data are Fish and Wildlife Service staffs of the regional and Washington office headquarters. The major categories of input data are dollars by appropriation and budget activity for the past, present, and budget year for each congressional district of the United States. These data are transferred to punch cards from various forms and papers. **Output:** The output report is a tabular printout, produced annually.

Agency Contact: U.S. Fish and Wildlife Service. (202) 653-7526.

Refuge Management Information.

1973

OMB Funding Code/Title: 14-1611-0-1-303 / Resource management; 14-1612-0-1-303 / Construction and anadromous fish; 14-5137-0-2-303 / Migratory bird conservation account; 14-9923-0-2-303 / Miscellaneous permanent appropriations

Program: Wildlife Resources, Habitat Preservation, Endangered Species, Construction, Rehabilitation, and Anadromous Fish; Acquisition of Refuges and Other Areas; National Wildlife Refuge Fund

Congressional Relevance: House Committee on Interior and Insular Affairs; House Committee on Merchant Marine and Fisheries; Senate Committee on Commerce, Science, and Transportation; Senate Committee on Energy and Natural Resources; House Appropriations Committee; Interior Subcommittee; Senate Appropriations Committee; Interior Subcommittee

Authority: Fish and Wildlife Act of 1956 (P.L. 86-686, 70 Stat. 1119; 16 U.S.C. 742). National Wildlife Refuge System Administration Act of 1966 (P.L. 91-135; 80 Stat. 927; 16 U.S.C. 668ld-668ee). Migratory Bird Conservation Act (P.L. 73-124; 16 U.S.C. 715).

Availability: Internal Use Only

Geographic Relevance: Nationwide for FWS National Wildlife Refuge
Purpose: The system provides budgetary and refuge benefits data as well as other information on national wildlife refuges, such as public use and wildlife population data. The principal users of the report data are wildlife refuges management staff specialists who draw on the data for preparation of budgets, responses to congressional and other inquiries, and for other analytical purposes. The subject matter is the estimates of dollar and manpower needs to operate and develop national wildlife refuges in relation to given levels of management intensity. The refuges are located in 49 states, the Pacific Island Trust, and in Puerto Rico. The budgetary projections are over a 6-year period. **Input:** The primary providers of the data are Fish and Wildlife Service personnel who manage individual wildlife refuges. The major categories of input data are dollars, manpower, wildlife inventories, and public use information. **Output:** The reports are printouts of tables, charts, and directories. Reports are produced annually on a fiscal year basis.

Program: General Administration; Capital Development and Maintenance Management; Acquisition of Refuges and Other Areas; Federal Aid in Fish Restoration and Management; Administration; Contributed Funds (Other)

Congressional Relevance: House Committee on Interior and Insular Affairs; House Committee on Merchant Marine and Fisheries; Senate

Fish Conservation Act (P.L. 89-304). Fish and Wildlife Coordination Act (P.L. 73-124, 48 Stat. 401). Fish and Wildlife Coordination Act (P.L. 85-624; 16 U.S.C. 661)

Availability: Agency

Geographic Relevance: National

Purpose: The system is composed of component processes and systems, including the program planning and budgeting process, the budget execution process, and the Program and Financial Management Information System (PFMIS) which follows through with program management information reports as well as accounting and other financial management information reports for internal and external purposes. The subject matter is Service-wide (national) in nature and includes the annual budgets of the Fish and Wildlife Service, annual program policy and objectives guidance (Program Advice), program of work planned and actual work units accomplished, and fund status and other accounting and financial information. **Input:** The primary providers of data are Fish and Wildlife Service personnel. The main input of the PFMIS are the Annual Work Plans, Time and Attendance Reports, and various transaction documents from which magnetic tapes are keyed. **Output:** The major output is hardcopy budgets, such as the annual Budget Justifications, which include narratives, tables, charts, and graphic displays; the Program Advice and Program and Financial Management Information such as the hardcopy paper Monthly Management Report; and the financial reports to the Treasury and OMB.

Agency Contact: U.S. Fish and Wildlife Service. (202) 343-4328.

S00709-008

Propagation and Distribution of Fishes from National Fish Hatcheries for the Fiscal Year. (FWS-C-3-5003).

OMB Funding Code/Title: 14-1611-1-1-303 / Resource management

Program: Fishery Resources

CFDA NO.: 15.603; 15.608

Congressional Relevance: House Committee on Interior and Insular Affairs; House Committee on Merchant Marine and Fisheries; Senate Committee on Commerce, Science, and Transportation; Senate Committee on Environment and Public Works; House Appropriations Committee; Interior Subcommittee; Senate Appropriations Committee; Interior Subcommittee

Authority: Fish and Wildlife Coordination Act (P.L. 85-624; 48 Stat. 401; 16 U.S.C. 661). National Fish Hatchery Act (P.L. 86-686; 70 Stat. 1119; 16 U.S.C. 742a-742j). Anadromous Fish Conservation Act (P.L. 89-324; 60 Stat. 932; 16 U.S.C. 755-757). Columbia Basin Project Act (P.L. 78-8; 57 Stat. 140; 16 U.S.C. 835).

Availability: Agency

Geographic Relevance: National; State; Agricultural Product Regions
Purpose: The system documents the propagation and distribution of fish and fish eggs from 91 national fish hatcheries on a fiscal year basis. The information is summarized in computer printouts and the final tabular reports are published. Each hatchery's daily distribution reports summarized in a quarterly report by the major categories listed above. Quarterly reports from all the national fish hatcheries are entered into a central office computer. The resulting quarterly and yearly printouts and published annual fiscal year summaries show the number and pounds of fish eggs, fry, fingerlings, adults (6 inches) and total egg and fish distributed by each of the six major categories and numerous subcategories. All information is cumulative and is incorporated into the Program and Financial Management Information System (PFMIS) and annual reports for the Division of National Fish Hatcheries. **Input:** The primary providers of information are internal, and are the 91 National Fish Hatcheries as listed in publications of the Fish and Wildlife Service. The major input categories are: species; jurisdiction of waters stocked; type of program; description of waters stocked; hatcheries; and states. **Output:** The system produces a paperback tabular fiscal year summary showing fish and fish egg distribution by species, major groups, jurisdiction of water stocked, type of program, description of waters stocked, hatcheries, private pond stocks, research, Indian programs, international programs, state programs, and Fish and Wildlife Service jurisdiction. The query capability is limited to the table of contents.

Habitat Evaluation Procedures (HEP).

OMB Funding Code/Title: 14-1611-0-1-303 / Resource management

Program: Habitat Resources

Congressional Relevance: *House* Committee on Merchant Marine and Fisheries; *Senate* Committee on Environment and Public Works; *House* Appropriations Committee: Interior Subcommittee; *Senate* Appropriations Committee: Interior Subcommittee

Authority: Fish and Wildlife Coordination Act (P.L. 73-121, § 1; 48 Stat. 401; 16 U.S.C. 661 et seq.); National Environmental Policy Act of 1969 (P.L. 91-190, § 2; 83 Stat. 852; 42 U.S.C. 4321 et seq.).

Availability: Agency

Geographic Relevance: National

Purpose: Federal and state land managers utilize Habitat Evaluation Procedures to evaluate the effects of proposed land/water resource development projects on fish and wildlife resources. This system measures the quality and quantity of habitats prior to development projects and predicts the habitat characteristics if such projects are implemented. The system is used to assist federal and state project managers in the planning and design stages to minimize adverse impacts on the ecosystems.

Input: Information is provided by federal or state field/project personnel. Output: Assessments of a project's changes to the habitat and are prepared on an as needed basis.

Programming and Financial Management System (PFMS).

OMB Funding Code/Title: 14-1036-0-1-303 / Operation of the national park system; 14-1037-0-1-303 / Road construction; 14-1038-0-1-303 / John F. Kennedy Center for the Performing Arts; 14-1039-0-1-303 / Construction; 14-5006-0-2-303 / Planning, development, and operation of recreation facilities

Program: Park Management; Forest Fire Suppression and Rehabilitation of Burned Areas; Executive Direction; Park, Recreation, and Wilderness Planning; Cooperative Programs; Statutory and Contractual Aid, Roads, Trails, and Parkways; John F. Kennedy Center for the Performing Arts; Buildings, Utilities, and Other Facilities; Roads, Trails, and Parkways; Recreation Facilities

Congressional Relevance: *House* Committee on Interior and Insular Affairs; *House* Committee on Merchant Marine and Fisheries; *House* Committee on Public Works and Transportation; *Senate* Committee on Commerce, Science, and Transportation; *Senate* Committee on Energy and Natural Resources; *Senate* Committee on Environment and Public Works; *House* Appropriations Committee: Interior Subcommittee; *Senate* Appropriations Committee: Interior Subcommittee

Authority: Act of August 18, 1970 (P.L. 91-383). Federal Aid Highway Act of 1976 (P.L. 94-280). John F. Kennedy Center Act (P.L. 94-119) Land and Water Conservation Fund Act Amendments (P.L. 90-401)

Availability: Internal Use Only

Geographic Relevance: National

Purpose: PFMS is used to account for, control, and report obligations charged to funds appropriated or made available to the National Park Service; account for and report cost of operations; and prepare external financial reports required by regulation or directive. Financial data are recorded and stored with the following structure: 1) Appropriations, activity and subactivity; 2) allotment; 3) object class within appropriation and activity; 4) general ledger account; 5) cost account; and 6) element of cost. The primary files are: Cost File--source of data and entry point for cost information; Allotment Activity File--contains financial information on each NPS allotment and provides information essential for fund control purposes; and the Fund File--contains summarized financial transaction data for each NPS appropriation or fund. **Input:** Input for Programming and Financial Management System (PFMS) is comprised of financial data--appropriations, allotment, cost account, general ledger account--and transaction data for appropriations and funds. **Output:** The major output types are: Work Order Summary for Construction Projects in Progress (monthly); Cost Account Summary Report for Operations (monthly); Outlays by Geographic Location (annually); Allotment Status Report (monthly); Project Management Report (monthly for projects in progress); Fund Status Reports (monthly); and Labor Distribution Summary (biweekly).

Congressional Relevance: *House Committee on Interior and Insular Affairs; Senate Committee on Energy and Natural Resources; House Appropriations Committee; Interior Subcommittee; Senate Appropriations Committee; Interior Subcommittee*

Authority: Land and Water Conservation Fund Act of 1965 (P.L. 88-578).

Availability: Agency

Geographic Relevance: National; State; Congressional District; County; Region

Purpose: The system provides support for record keeping, project control, and contract compliance related to the administration of the grants program; certifying availability of funds, establishing and maintaining project accounts, and processing financial reports relating to the state grants-in-aid program of the Land and Water Conservation Fund. The subject matter is project identification, obligation data, project use data, and project facility data. Information is reported at National, regional, state, county, SMSA, and congressional district levels. Project data are updated monthly. **Input:** Grants ADP Input Coding Forms (OCR readable) are filled out in Heritage Conservation and Recreation Service's (HCRS) regional offices and processed in Washington, DC. Other input data used to build the master files are from Census and GSA publications and data entered by HCRS's grants program personnel in Washington, DC. **Output:** The major output types are grants financial reports (hardcopy) and grants status reports (hardcopy). An operational query capability is available to produce hardcopy listings of computer-stored grants data.

Federal Helium Program.

OMB Funding Code/Title: 14-4053-0-3-306 / Helium fund

Program: Helium Fund (All Programs)

CFDA NO.: 15.304

Congressional Relevance: House Committee on Interior and Insular Affairs; Senate Committee on Energy and Natural Resources; House Appropriations Committee; Interior Subcommittee; Senate Appropriations Committee; Interior Subcommittee

Authority: Helium Act Amendments of 1960 (P.L. 86-777)

Availability: Agency; GPO; NTIS

Geographic Relevance: International/Foreign; National

Purpose: The federal helium program is designed to provide for the current and foreseeable future, requirements for helium for essential government activities. The program involves the production, conservation, sale, and distribution of helium and includes the following functions: 1) acquisition, construction, operation, and management, of helium plants, gas fields, helium storage fields, etc.; 2) the search for new sources of natural helium-bearing gas and negotiation of contracts for supplies of helium-bearing gas; 3) establishment of helium reserves; and 4) experimentation and research to discover helium supplies and to improve methods of helium production. **Input:** Information is received from the Bureau of Mines, the Geological Survey, and the National Park Service. **Output:** Reports are produced on the occurrence of helium and evaluation of

helium resources maintained on machine readable tape and published in annual reports. Information covering all aspects of helium production, sales, distribution, conservation, uses, future demand, and reserve collected and issued through various internal and external reports, papers, and publications. **Input:** Information is gathered through interviews and contracts with other federal agencies, private helium producers, distributors and users, and well drilling companies, as well as other methods. **Output:** Reports consist of information circulars, internal reports normally issued annually. Data regarding the percent of helium in natural gases found throughout the United States, several foreign countries are available on computer tape through the National Technical Information Service of the Department of Commerce.

S00711-005

Minerals Commodities Surveys.

OMB Funding Code/Title: 14-0959-0-1-306 / Mines and minerals

Program: Minerals Information and Analysis (Minerals Information)

CFDA NO.: 15.304

Congressional Relevance: House Committee on Education and Labor; House Committee on Interior and Insular Affairs; Senate Committee on Energy and Natural Resources; Senate Committee on Governmental Affairs; House Appropriations Committee; Interior Subcommittee; Senate Appropriations Committee; Interior Subcommittee

Authority: Economy Act of 1932 (P.L. 72-212); Act of June 26, 1932 (P.L. 73-473); Bureau of Mines Organic Act, as amended (P.L. 61-173); Mining and Minerals Policy Act of 1970 (P.L. 91-631).

Availability: Agency

Geographic Relevance: National; State

Purpose: The system develops and disseminates a coordinated body of basic minerals information, both domestic and foreign, covering statistics of 100 commodities for government and industry policy, planning, and decisionmaking. Technical and economic information covering aspects of reserves, production, processing, consumption, and international trade is collected. This information is analyzed to determine the current and future mineral-related problems and opportunities and to identify the underlying factors. In addition, the effects that legislation and policy decisions have on the supply/demand relationship of minerals as well as their impact on the environment, economy, and public well-being are assessed. **Input:** The information is collected by various 60,000 mineral establishments by means of more than 600 statistical surveys and by personal contacts on a weekly, monthly, quarterly, semiannual, or annual basis. In addition, foreign data are obtained from various publications, foreign service dispatches, other government agencies, and resource attaches at foreign posts. **Output:** The Bureau of Mines develops and disseminates in a variety of forms many reports and studies. The following is a list of principal, periodic publications: Mineral Industry Surveys (monthly, quarterly, and annually); Mineral and Materials (a monthly survey); Mineral Commodity Summaries (annually); Status of the Mineral Industries (annually); Mineral Products Problems (every five years); and Minerals Yearbook (annually), as well as others.

S00711-009

Automated Minerals Information System (AMIS).

OMB Funding Code/Title: 14-0959-0-1-306 / Mines and minerals

Program: Minerals Information and Analysis (Minerals Information)

CFDA NO.: 15.304

Congressional Relevance: House Committee on Interior and Insular Affairs; Senate Committee on Energy and Natural Resources; House Appropriations Committee; Interior Subcommittee; Senate Appropriations Committee; Interior Subcommittee

Authority: Bureau of Mines Organic Act, as amended (P.L. 61-173); Mining and Minerals Policy Act of 1970 (P.L. 91-631); Federal Mine Health and Safety Act of 1969 (P.L. 91-173); Wilderness Act of 1964 (P.L. 88-577).

Geographic Relevance: National; International/Foreign

Purpose: This integrated summary data base system provides a framework for analysis of the broad range of mineral policy issues, ranging from basic scientific information to the economic and social impacts of mineral production and consumption.

consumption, industrial stocks, strategic stockpiles, imports, exports, reserves, and recycled materials. The foundation of this system is Bureau of Mines information collection, analysis, and dissemination activities, including mineral commodity surveys, mineral land assessment, deposit evaluations, international data collection, and economic and inter-industry analysis. State-of-the-art information processing, storage, and communication equipment and software are being utilized in this system. **Input:** Production, consumption, imports, exports, recycling, reserves and related data on 100 commodities worldwide is collected through Bureau of Mines industrial canvasses, analysis of foreign government statistics and by data exchange with other agencies. **Output:** Reports, graphic displays of data, statistical and operations research studies, inquiries in response to requests from government agencies and the general public.

Agency Contact: Bureau of Mines. (202) 634-1117.

S00711-010

Minerals Availability System (MAS).

OMB Funding Code/Title: 14-0959-0-1-306 / Mines and minerals

Program: Minerals Information and Analysis: Mineral Data Analysis

Congressional Relevance: *House Committee on Interior and Insular Affairs; Senate Committee on Energy and Natural Resources; House Appropriations Committee: Interior Subcommittee; Senate Appropriations Committee: Interior Subcommittee*

Authority: Bureau of Mines Organic Act of 1910, as amended (P.L. 61-179, § 2, as amended by P.L. 62-386, 36 Stat. 370; 30 U.S.C. 3). Wilderness Act of 1964 (P.L. 88-577, § 4; 78 Stat. 893; 16 U.S.C. 1333)

Availability: Agency

Geographic Relevance: International/Foreign; National

Purpose: The MAS program is a comprehensive mineral supply information system that provides potential production profiles for various mineral commodities through evaluations of domestic and foreign sources, reserves, production capability and costs. The unique feature of MAS is that engineering and financial specialists analyze site-specific data collected locally and internationally to produce reserve estimates and appraisals of mineral availability. The MAS is not a database; it analyzes produce resource/reserve appraisals and identify and measure policy-related factors impacting the present and future of mineral resources. **Input:** Data for the Minerals Availability System (MAS) data base are obtained directly and indirectly from mine/deposit owners and operators and through MAS program personnel and international engineering firms under contract. Engineering and cost data are generated primarily by MAS program personnel. **Output:** Major types of output from the MAS data base are computer listings, map overlays, magnetic tapes, and summary tables. Frequency is on a daily basis. MAS Program analyses reports are ongoing and deal with 34 mineral commodities. These products are in the form of availability and potential production curves, availability appraisals, and sensitivity analysis of factors affecting minerals availability.

Geological Survey

S00712-003

National Water Data Storage and Retrieval System (WATSTORE).

OMB Funding Code/Title: 14-0804-0-1-306 / Surveys, investigations and research

Program: Water Resources

Congressional Relevance: *House Committee on Interior and Insular Affairs; Senate Committee on Energy and Natural Resources; House Appropriations Committee: Interior Subcommittee; Senate Appropriations Committee: Interior Subcommittee*

Authority: Outer Continental Shelf Lands Act (P.L. 83-212). Act of September 5, 1962 (P.L. 87-626; 43 U.S.C. 31(a)(b)).

Availability: Agency

Geographic Relevance: State

Purpose: WATSTORE was established to store data collected as a result of measuring and quantifying the occurrence and quality of U.S. water resources and the effect of development and utilization on those resources. WATSTORE makes statistical data and summary reports on

water data available to planners, developers, and managers. The system contains hydrologic data collected nationwide. Some data are computed and stored as averages for the day; other data are instantaneous observations. The data are generally updated on a continuing basis and are referenced by state, county, and latitude-longitude. **Input:** The data are collected internally. The data base includes surface water stage and discharge, chemical quality parameters, radiochemistry, sediment, pesticide and certain biological concentrations in water, ground water levels, geologic data describing the framework in which ground water occurs, flood frequency, and flood inundation mapping. **Output:** The major output types are water resources data published yearly on a state basis and water supply papers of the Geological Survey. Data are also available in machine-readable form (punched cards or tapes) and hardcopy. It is a batch oriented system.

Agency Contact: Geological Survey. (703) 860-6871.

S00712-004

Procurement Management Information System.

OMB Funding Code/Title: 14-0804-0-1-306 / Surveys, investigations and research

Program: Surveys, Investigations and Research (All Programs)

Congressional Relevance: *House Committee on Interior and Insular Affairs; Senate Committee on Energy and Natural Resources; House Appropriations Committee: Interior Subcommittee; Senate Appropriations Committee: Interior Subcommittee*

Authority: Outer Continental Shelf Lands Act (P.L. 83-212). Act of September 5, 1962 (P.L. 87-626; 43 U.S.C. 31(a)(b)).

Availability: Internal Use Only

Purpose: The purpose is to maintain an inventory of procurements during and by fiscal year. The system will assist in measuring workloads, evaluating the status of individual procurements, and enabling analysis of the Bureau procurement program within a fiscal year. The system serves as an inventory of Bureau procurements, tracing each from a requisition, through solicitation, to award. As such, the information captured by the system is descriptive in nature. Information from the requisition includes dates, dollar amounts, and the source of the requisition. The solicitation information identifies the type of solicitation, dates actions occurred, and the contracting official. Finally, the award information delineates the type of award, the vendor, city and state of the award, and the dollar value of the award. **Input:** Information is obtained from internal source documents such as requisitions, solicitation documents, purchase orders, and delivery orders. **Output:** The Procurement System provides external procurement reports and internal management reports. The external reports include the annual report of Minority Business Enterprise and the report on procurements by executive agencies. These internal reports provide information on the status of Bureau procurements and workload information. These reports are produced monthly; however, less frequent reports are produced to meet specific Bureau internal needs.

Agency Contact: Geological Survey. (703) 860-7201.

S00712-006

Financial Management System.

OMB Funding Code/Title: 14-0804-0-1-306 / Surveys, investigations and research

Program: Surveys, Investigations and Research (All Programs)

Congressional Relevance: *House Committee on Interior and Insular Affairs; Senate Committee on Energy and Natural Resources; House Appropriations Committee: Interior Subcommittee; Senate Appropriations Committee: Interior Subcommittee*

Authority: Outer Continental Shelf Lands Act (P.L. 83-212). Act of September 5, 1962 (P.L. 87-626; 43 U.S.C. 31(a)(b)).

Availability: Internal Use Only

Purpose: The system serves the dual function of providing financial management information and maintaining accountability for its financial resources. The data base contains basic accounting data showing the account charged, appropriation, the amount, type of expenditure, and data relating the expenditures to legal documents such as purchase orders and invoices. To support the workload the data base is updated daily with a monthly report cycle. It is a centralized system serving Bureauwide financial information and accounting and processing needs. The system then provides machine-readable input to the Treasury De-

ment for payment. **Input:** Information is from Bureau level documents such as purchase orders, delivery orders, and journal vouchers. The departmental personnel/payroll system provides labor distribution data. Data are also obtained from documents such as vendors' invoices for products or services supplied to the Geological Survey and Treasury Department data. **Output:** Output is provided in various forms such as tape, microfilm, and hardcopy to fulfill the many budget, financial, and fiscal requirements of the executive and legislative branches of government. The internal reports are for both internal processing of financial information, internal expenditure reports for the major organizational levels within the Bureau, and financial summary reports for Bureau administrative officials.

S00712-008

National Mapping Program.

OMB Funding Code/Title: 14-0804-0-1-306 / Surveys, investigations and research

Program: Topographic Surveys and Mapping

Congressional Relevance: *House* Committee on Interior and Insular Affairs; *Senate* Committee on Energy and Natural Resources; *House* Appropriations Committee: Interior Subcommittee; *Senate* Appropriations Committee: Interior Subcommittee

Authority: Act of September 5, 1962 (P.L. 87-626; 43 U.S.C. 31(a)(b)).

Availability: Agency

Geographic Relevance: National; State

Purpose: The program (NMP) coordinates the national cartographic surveying activities in order to meet basic mapping needs which includes a family of multipurpose maps, digital cartographic data, and cover data of the Department of the Interior, other federal agencies, state and local governments, and the general public. It also prints and distributes the Geological Survey products, i.e., topographic, hydrologic, geographic and geologic maps, professional papers and books. The basic information is contained in a family of general purpose maps and related cartographic products and digital data covering the United States and the outlying areas providing land reference systems; hypsography; hydrography; boundaries; transportation systems; cultural features such as buildings, airports, dams; geodetic control and survey monumentation; geographic names; and orthophotographic imagery; and land use and land cover data. **Input:** Basic cartographic data are collected internally through field surveys; office compilation processes; and research of libraries and federal, state, and local agencies and offices. Data are also collected through management agreements with federal and state agencies and through private contractors for such purposes as obtaining aerial photography and the preparation of cartographic products or components of products. **Output:** The major output is: 1) Standard topographic maps at 1:24,000-scale or 1:25,000-scale (1:63,360 in Alaska); 2) digital cartographic data; 3) intermediate scale base maps at 1:100,000 or 1:50,000-scale prepared in quadrangle or county format, and a multi-purpose base for users to display information unique to their individual programs; 4) land use and land cover maps and related statistical data, orthophotographs, and various small-scale and special map products.

S00712-012

Energy Resource Data System.

OMB Funding Code/Title: 14-0804-0-1-306 / Surveys, investigations and research

Program: Geologic and Mineral Resource Surveys and Mapping

Congressional Relevance: *House* Committee on Interior and Insular Affairs; *Senate* Committee on Energy and Natural Resources; *House* Appropriations Committee: Interior Subcommittee; *Senate* Appropriations Committee: Interior Subcommittee

Authority: Outer Continental Shelf Lands Act (P.L. 83-212). Act of September 5, 1962 (P.L. 87-626; 43 U.S.C. 31(a)(b)).

Availability: Agency; University of Oklahoma

Geographic Relevance: National; State; County

Purpose: The system provides information on the distribution and quality of coal resources in the United States. NCRDS is developing one file for coal tonnage and chemical analysis records and a second file for detailed coal occurrences by quadrangle; PDS contains data on pools; WHCS is an oil and gas well history file; GEOTHERM contains records

of geothermal resources; the abundance information the contains are a mineral production data; and the oil shale file is composed of records derived from 30 drill cores. **Input:** Input sources include published documents for file 1, and from geologic agencies, AAPG, USBM, state geological surveys, and local geological societies, the Petroleum Information Corporation, and several others. **Output:** The major output types are: NCRDS--tonnage of coal and analysis of coal resource summary reports for specified men. Contain maps, cross-sections, and resource field maps; PDS--oil and gas pool distribution maps and detail pool report or summary, regional reports. WHCS--contain maps and detailed well reports; GEOTHERM--occurrence maps and detailed engineering reports; uranium-rhodium--contain maps and generalized reports, and State--drill core profiles and Fisher assay reports by depth.

Congressional Relevance: *House* Committee on Interior and Insular Affairs; *Senate* Committee on Energy and Natural Resources; *House* Appropriations Committee: Interior Subcommittee; *Senate* Appropriations Committee: Interior Subcommittee

Authority: Outer Continental Shelf Lands Act (P.L. 83-212). Act of September 5, 1962 (P.L. 87-626; 43 U.S.C. 31(a)(b)).

Availability: General Electric Mark III

Geographic Relevance: National; State

Purpose: The purpose of the various mineral information systems is to provide pertinent geologic, economic, and abundance information on the mineral deposits, occurrences, and resources of the Nation and the world. The information consists of data on world mineral deposits. The file is worldwide in coverage; however, special emphasis has been placed on gathering data for the United States. A computer graphics map-plotting package allows the generation of accurate maps displaying the locations of any subset of deposits. **Input:** Information sources are commodity geologists of the USGS; the Minerals Atlantic program; State Department airgrams, and Minerals Yearbooks; the mining journals, bibliographic references, the Minerals Atlantic program, and commodity geologists; and the USGS Atlas of the United States. **Output:** All four files can produce hardcopy output in a variety of formats. In addition, information from all four files can be formulated to a magnetic device (i.e., tape or disk) or punch cards for use with another software package. The CRIB file operates under GIPSY (General Information Processing System) which has an interactive and batchmode query capability. The other three mineral files operate under GRASP (Geology Retrieval and Synopsis Programs) which also has an interactive query capability.

S00712-015

Geographic Names Information System (GNIS).

OMB Funding Code/Title: 14-0804-0-1-306 / Surveys, investigations and research

Program: Topographic Surveys and Mapping

COFA NO.: 15.801

Congressional Relevance: *House* Committee on Interior and Insular Affairs; *Senate* Committee on Energy and Natural Resources; *House* Appropriations Committee: Interior Subcommittee; *Senate* Appropriations Committee: Interior Subcommittee

Authority: Act of March 3, 1879 (P.L. 45-82). Act of September 5, 1962 (P.L. 87-626).

Availability: Agency

Geographic Relevance: National; State; County; City

Purpose: This computer-based domestic geographic names information system is being developed to handle the large amount of information associated with official geographic names to support the mapping and publishing programs of the federal government, to answer public inquiries relating to geographic names, and to provide an official geographic data base for other data files. This system includes the official names, spellings, forms, and applications of all named places, features, and areas in the 50 states and other areas under the sovereignty of the

entity. Data elements include each official name, include state, county, and town in which the named entity is located, kind of feature, place, or area, geographical coordinates giving the location and extent of the named entity, elevation, length, or size of the entity, and variant spellings and names. In some cases, name origins and meanings are included. When completed, the system will contain about 3 to 5 million domestic geographic names and attendant information, and it is maintained on a current basis. **Input:** Information is obtained primarily from the Geological Survey's 7.5 minute, 1:24,000-scale Topographic Map Series. Additional information is then obtained from the National Ocean Service's charts, from Forest Service maps, and other federal and state sources. If necessary, *external material is consulted.* **Output:** Information in the system can be furnished in machine readable form (magnetic tapes), hard copy (printouts and published gazetteers), and microfiche. **Agency Contact:** Geological Survey. (703) 860-6261.

Water Resources Scientific Information Center (WRSIC).

OMB Funding Code/Title: 14-0804-0-1-306 / Surveys, investigations and research

Program: Water Resources Investigations

CFDA NO.: 15.804

Congressional Relevance: *House Committee on Interior and Insular Affairs; Senate Committee on Environment and Public Works; House Appropriations Committee: Interior Subcommittee; Senate Appropriations Committee: Interior Subcommittee*

Authority: Department of the Interior and Related Agencies Appropriations Act, 1984 (P.L. 98-146).

Availability: Agency

Geographic Relevance: International/Foreign

Purpose: The system disseminates scientific and technical information to the water resources community through a variety of services, including a monthly abstract bulletin, a computerized file of ongoing projects, topical bibliographies, and computer searches. The content includes abstracted and indexed information dealing with water-related aspects of the life, physical, and social sciences, as well as related engineering and legal aspects of the characteristics, conservation, control, use, or management of water. It covers 1968 to the present, although earlier permanently valuable works are included. The coverage is worldwide, with English-language material predominating. The printed file is updated monthly; the machine-readable counterpart is updated monthly. **Input:** The system contains data from state water resources institutes, water-related U.S. agencies, about 400 scientific and technical journals, and foreign governments on exchange agreements. Input is in the form of magnetic tapes executed in WRSIC specification and accompanied by original documents. **Output:** Output includes the Abstracts Bulletin (monthly, printed and machine-readable/searchable), indexes accompanying the Abstracts Bulletin, special bibliographies (irregularly printed), and computer searches (on demand, printout).

Availability: Internal Use Only

Geographic Relevance: Regional

Purpose: This is an integrated system which has been established to provide for preparation and processing of planning, accounting, payroll, and budgetary data. The system is responsible to both internal and external needs. The content of the records are budgetary plans, detailed payroll/personnel information, detailed transaction records, and summary records which are used to provide payroll payments and records, budgetary control reports for managers, and other required reports. **Input:** The data are derived from source documents initiated by or for the program managers and, for planning, from source documents prepared by various Indian tribes, agency and school superintendents, and other Bureau of Indian Affairs managers. **Output:** The major output types are: reports on budgetary plans (hardcopy); daily edited transaction input reports (hardcopy); daily budgetary status information (machine-readable); biweekly detailed payroll reports (hardcopy); monthly operating reports, both detailed to location and summarized to areas and Bureau (hardcopy); standard reports required by other federal units such as SF 224, SF 225, and SF 133 (hardcopy); and disbursement transactions for Disbursing Officer processing (machine readable). A query system is available to query summarized data in the system.

Alaska Native Enrollment System (ANE).

OMB Funding Code/Title: 14-2100-0-1-452 / Operation of Indian programs; 14-9925-0-2-452 / Miscellaneous permanent appropriations

Program: Aid to Tribal Government; Alaska Native Fund

Congressional Relevance: *House Committee on Interior and Insular Affairs; Senate Committee on Energy and Natural Resources; House Appropriations Committee: Interior Subcommittee; Senate Appropriations Committee: Interior Subcommittee*

Authority: Indian Financing Act of 1974 (P.L. 93-262). Indian Reorganization Act (P.L. 73-383). Alaska Native Claims Settlement Act of 1971 (P.L. 92-203).

Availability: Internal Use Only

Purpose: The system supports the requirements of the Alaska Native Claims Settlement Act. The purpose of the system is to provide timely and accurate support capability for the late enrollment of certain natives, the establishment of an escrow account for the proceeds of certain lands, the treatment of certain payments and grants, and the consolidation of existing regional corporations and other administrative requirements. Input requirements are general in nature. Applications come from individuals who claim native status and from Bureau enrollment officers who query a demographic structured automated data base. **Input:** The input types are appropriation, appointment schedules, and program activities. Budget authorities represent the budgetary support input. Enrollment status applications and existing enrollment data bases represent the major input to the system for monitoring the system's processes. **Output:** The major output types are a daily, mid year update family tree report listing enrollees by geographical place and total Alaska resident native population by zip codes and village. It also includes Alaska enrollment family lists by deceased, final full applicant name alpha listing, and final roll region village alpha listing.

Authority: Federal Land Policy and Management Act of 1976 (P.L. 94-579). Taylor Grazing Act (P.L. 73-482). National Environmental Policy Act of 1969 (P.L. 91-190). Timber Protection Act of 1922 (P.L. 67-315).

Availability: Agency

Geographic Relevance: 12 western states on BLM lands; BLM Inventory Units

Purpose: This system provides information for management of resources through analysis and interpretation of forest inventory. The system provides ADP support to forest inventory data collection from national resource lands (excluding Oregon and California lands). It performs extensive interpretation, analysis, and another expression of basic forest inventory data. It is essential in timber management and production planning. The system contains a broad range of public domain forest inventory data including county, state, 1/4 section, forest type, soil and past cuttings. There are presently 45 available and approximately 200 various data elements maintained. **Input:** Inventories conducted by BLM forestry and contract personnel provide the input data for the system. The data describes individual trees and stands of trees including locations. **Output:** The system produces files and reports for each field office. The files are mounted on magnetic media and may be queried by knowledgeable field personnel via terminals when necessary. A reformatted file is provided to Service on magnetic tape when requested. Hardcopy reports are available on request which provide information on tree sizes, tree measurements (i.e. volumes, heights, growth) and summaries by acre. **Agency Contact:** Bureau of Land Management. (303) 236-0167.

S00714-006

Automated Coal Lease Data System.

01/80

OMB Funding Code/Title: 14-1109-0-1-302 / Management of land resources

Program: Energy and Minerals Management

Congressional Relevance: *House Committee on Agriculture; Committee on Interior and Insular Affairs; Senate Committee on Agriculture, Nutrition and Forestry; Senate Committee on Energy and Natural Resources; House Appropriations Committee: Interior Subcommittee; Senate Appropriations Committee: Interior Subcommittee*

Authority: Mineral Lands Leasing Act of 1920 (P.L. 66-146). National Environmental Policy Act of 1969 (P.L. 91-190). Federal Land Policy and Management Act of 1976 (P.L. 94-579).

Geographic Relevance: National

Purpose: The purpose of the system is to maintain an exhaustive file for all coal leases and lease applications. The system supports administration of leases and management of BLM coal resources. Information relates to the geography, surface ownership, expected production terms and important dates of each lease, royalty amounts and bids. Approximately 300 data items are maintained on each coal lease. **Input:** Input is from coal leases at BLM state offices. **Output:** Hardcopy statistical reports are produced twice a year. Files are maintained on disk.

Agency Contact: Bureau of Land Management. (202) 343-4537.

Authority: Materials Act of 1947 (P.L. 80-291). Federal Land Policy and Management Act of 1976 (P.L. 94-579, as amended by P.L. 94-579). Taylor Grazing Act (P.L. 73-482; 43 U.S.C. 315).

Availability: Agency; BLM State Office

Geographic Relevance: National

Purpose: The system is an extensive financial data base containing many functional subsystems which in turn support all the tasks in Accounting and Fund Control. It provides a means of monitoring program accomplishments in relation to costs. It allows management to evaluate program effectiveness and track operating budget expenditures. The system covers every Bureau program and activity. It is updated and reprogrammed annually with new data. Of the many data files in the system, the Operating Budget file and the Cost file are two of the most active. The system interfaces with payroll, range management, property management, equipment utilization, and other systems. **Input:** Data are from within the Bureau. They include operating budgets, program objectives, and manpower distribution. **Output:** The system generates more than 25 reports. These detail accomplishments, expenditures, and manpower figures for each program. They provide a crosswalk by which managers may compare units of work planned with actual accomplishments or accomplishments with associated costs. Reports are mostly in microfiche form, although a few hardcopy reports are output.

Authority: Taylor Grazing Act (P.L. 73-482). National Environmental Policy Act of 1969 (P.L. 91-190). Federal Land Policy and Management Act of 1976 (P.L. 94-579).

Availability: Agency

Geographic Relevance: Ten Western States

Purpose: This system provides administrative support and various reports from a systematically arranged record of all livestock operators recognized as having a preference for grazing use on the public lands administered under sections 3 and 15 of the Taylor Grazing Act. The system prints statements of grazing preference, grazing authorizations, and billings which are sent to the livestock operators. Receipts collected are audited, and the system generates collection data of the financial management system. The system contains a combination of records pertaining to each individual livestock operator. Geographical, biological, administrative, and statistical data are included. Examples are: state, district, resource, allotment, and acreage of land by type and biome, as well as others. **Input:** Data and information are input from the individual-

duces 18 programmed hardcopy reports. Other reports may be developed and programmed as needed. The major categories of reports are control reports, administrative reports, management reports, and statistical reports. Some of these reports are provided on a scheduled basis; others are provided on request. The system processes around 23,000 grazing billings and authorizations and in excess of 100,000 pages in reports annually.

Availability: Agency

Geographic Relevance: National

Purpose: The purpose of the system is to support billing, acreage control, and administration of leases. All leases in effect are included. Effective April 1, 1984, the Bureau of Land Management will handle land and special mineral cases and Minerals Management Service will handle all other mineral leases. **Input:** Lease transactions, geographic data, and billing data are input from the Bureau of Land Management office files. The data are obtained from new lease forms and from reviewing files for payments and updates. **Output:** Thirty-two reports are produced, generally concerned with transactions, geographic data, and administrative information. Bills and receipts for payment are produced as hardcopy and microfiche. Updates are processed twice-a-week. Files are maintained on magnetic tape.

Geographic Relevance: States with BLM lands

Purpose: This is an automated bookkeeping system which collects, segregates, totals, and prints out timber sale data into several basic formats. Hardcopy is reduced to microfilm and is used for monthly, biannual, and annual program analysis; budget formulation; and as a general information source in responding to inquiries. Reporting requirements include volumes, values, acres, type and number bidders, miles, location and a variety of other units of accountability relating to timber sales and vegetative products disposal. Coverage is Bureauwide. Hardcopy (microfiche) reports are available monthly and are cumulative. **Input:** Input data are from sales, free use, and trespass reports from the Bureau of Land Management offices. **Output:** The major output types are solid timber sale volume, timber sales by type and size, timber sales volume and value by species, bid method summary of advertised timber sales, timber sale contract requirements, vegetal and mineral free use, negotiated cash sales (\$999.99 or less), and Western Oregon supplemental. All are monthly and on microfiche, except for vegetal and mineral free use which is an annual report. Each year a conflict of interest report is provided to personnel. A master file of current transactions is maintained on magnetic media.

Availability: Agency

Geographic Relevance: National

Purpose: Public Law 94-565, as amended by Public Law 95-469, December 17, 1978, authorizes two categories of annual payments to units of local government throughout the United States. The law calls for the accumulation of specified data, computation of amounts due, and issuance of payments annually. The information will be provided by any federal land management agency with entitlement over lands. **Input:** System input consists of population data (Bureau of the Census) and acreage data (BLM, NPS, FS, Corp of Engineers, Water and Power Resource Service, Department of Army, U.S. Fish and Wildlife Service). Stipulated federal payments are provided by state governors. In its final form, the system will contain a data base for all entitlement lands covered by the Act which will be updated annually and incorporated data required for annual payments. **Output:** It is anticipated that the system's primary output will be payments computation data and the issuance of payments.

Geographic Relevance: National

Purpose: This system supports the Wild Horse and Burro Program.

The system maintains a listing of individuals who have applied to adopt wild horses or burros. The listing includes name, address, and telephone numbers of each applicant; the species, number, and sex of animals requested; and the which preferred location for adoption of the animals. As animals become available, a listing is generated for use by agency personnel to contact the appropriate applicants. The system also maintains a listing of adopters, their addresses, and telephone numbers; the individual identification numbers for animals obtained; and the agency offices approving the adoptions. The data are updated when adopted animals die or are reassigned to other adopters and when titles of ownership are transferred to the adopters. **Input:** Data is input from forms provided by the applicant and additional data provided by field offices. **Output:** Hardcopy reports are produced showing applicants or adopters, mailing addresses, and related information, as requested. The master files are maintained on disk.

Simultaneous Oil and Gas Lottery System (SLOG). (LS).
01/82

OMB Funding Code/Title: 14-1109-0-1-302 / Management of lands and resources

Program: Energy and Minerals Management

Congressional Relevance: House Committee on Interior and Insular Affairs; Senate Committee on Energy and Natural Resources; House Appropriations Committee: Interior Subcommittee; Senate Appropriations Committee: Interior Subcommittee

Authority: Mineral Lands Leasing Act, as amended (P.L. 66-146, § 1, as amended by P.L. 97-78, § 1(1); 41 Stat. 437; 30 U.S.C. 181); Minerals Act of 1947 (P.L. 80-291, § 1-2; 61 Stat. 681; 30 U.S.C. 601-602); Mineral Leasing Act for Acquired Lands, as amended (P.L. 80-392, § 2, as amended by P.L. 97-78, § 1(9); 61 Stat. 913; 30 U.S.C. 351-352); Federal Land Policy and Management Act of 1976 (P.L. 94-579, title III, § 201; 90 Stat. 2747; 43 U.S.C. 1712).

Availability: Specific reports available to the public

Purpose: The Simultaneous Oil and Gas Lease System is designed around the use of a two-part machine readable form. Part A is used to establish name and address data file (file M1, 120 characters); Part B is used to build a drawing data file (file M2, 320 characters) used by the BLM's central site computer to randomly select parcel winners and to aid in detecting improper or illegal filings. Five output products are available through the automated system: winner report by parcel, which contains name and address information for the winner of each parcel; parcel alpha report, which contains name and address information for all applicants who filed for a parcel; drawing alpha report, which contains name and address information for all applicants in the drawing and a list of parcels each applied for; filing status mailers for individual applicants, which contain a list of parcels a particular applicant applied for and whether the applicant was selected as the winner for any parcel; and applicant fee refund for any parcels withdrawn or deleted from a drawing. The system consists of six processing phases: master number file set-up, file update, fee/application balancing, pre-drawing preparation, winner drawing, and report processing. The system has a 49 computer command run procedures to assist in accomplishing these six

phases. **Input:** Input is from forms completed by applicants who are applying for Bureau of Land Management (BLM) oil and gas leases. The applicant's name and address and the parcel they are applying for are included in the input data. **Output:** Hardcopy reports are produced six times each year when drawings are held. The reports provide information on leased parcels and lessees, including associated financial data. The files are maintained on magnetic tape.

Automated Land and Minerals Record System (ALMRS). (LR)

OMS Funding Code/Title: 14-1109-0-1-302 / Management resources

Program: Planning and Data Management

Congressional Relevance: *House Committee on Interior Affairs; Senate Committee on Energy and Natural Resources; Appropriations Committee; Interior Subcommittee; Senate Appropriations Committee; Interior Subcommittee*

Authority: Department of the Interior Act (9 Stat. 395; 43 U.S.C. 1732). Minerals Act of 1947 (P.L. 80-291, § 681; 30 U.S.C. 601-602) (43 C.F.R. 1813). (Department 371.D45 Serial Register Page). (Solicitors Letter dated 5/1982). Mineral Lands Leasing Act, as amended (P.L. 66-146, as amended by P.L. 97-78, § 1(1); 41 Stat. 437; 30 U.S.C. 181).

Availability: Agency

Purpose: The goals are to facilitate public access and appraisal of the public lands, increase production of energy and resources, and establish and implement sound management practices. The system provides extensive automation of federal title and use authorization data (titles) for use with other information (1) produce gains in operating efficiencies in processing mineral cases, for example, oil, gas, and coal leases and (2) provide improved access to federal title and use information at more locations easier and faster for the public, of state, and local governments, as well as Bureau users. The Land and Minerals Record System (ALMRS) is designed for integration with other information systems of the Bureau, resources and finance, and other agencies such as the Mineral Management Service. ALMRS is also designed in incremental components: an initial core of land description, title and use authorization for later data increments such as bonding, applicable stipulations, enhanced case information, and automated map data to provide graphic displays of the data. Data will include status cases necessary to process current cases and define current federal rights, from 1900 and new cases in the future. **Input:** The public land and use information is being converted from the labor intensive "Office" manual records system to an automated system. Prior to data conversion, most additional information is furnished by beneficiaries (public and private interests) at the time of applications for title or use of the public lands or minerals. Appraisals compared and analyzed with the automated data and existing information to expedite processing. **Output:** Outputs consist of reports, for example, management, program and progress, processing aids, public land and mineral title and use information of the Public Land Statistics tables. Additional information respond to the daily inquiries and use of the public land records by agencies and private interests. Records and information available only at state offices will be available at all Bureau local offices as required.

Agency Contact: Bureau of Land Management. (303) 234-5

S00714-029

Program Management.

OMB Funding Code/Title: 14-1109-0-1-302 / Management resources

Program: General Administration

Congressional Relevance: *House Committee on Interior Affairs; Senate Committee on Energy and Natural Resources; Appropriations Committee; Interior Subcommittee; Senate Appropriations Committee; Interior Subcommittee*

Authority: Act of March 3, 1849 (9 Stat. 395; 43 U.S.C. 1732; Statute 437).

Availability: Agency

Purpose: The system provides the Bureau with the means to plan program accomplishments in relation to costs. It allows the Bureau to plan workload, evaluate program effectiveness, and track expenditures. **Input:** Data is input from within the Bureau. It includes operating budgets, program objectives, and manpower. **Output:** The system produces reports which detail accomplishments, expenditures, and manpower figures for each Bureau program. Reports are produced monthly on microfiche.

Bureau of Reclamation

S00718-002

Operation and Maintenance Reporting System

OMB Funding Code/Title: 14-5064-0-2-301 / Operation and maintenance

Program: Operation and Maintenance

Congressional Relevance: *House* Committee on Interior and Insular Affairs; *Senate* Committee on Energy and Natural Resources; *House* Appropriations Committee: Energy and Water Development Subcommittee; *Senate* Appropriations Committee: Energy and Water Development Subcommittee

Authority: Reclamation Act of 1902 (P.L. 57-161).

Availability: Agency

Geographic Relevance: Regional

Purpose: The principal purpose is to provide information and data for the current year on the operation and maintenance of reclamation projects. This system serves as a source of information for management on the status of project operations and provides a basis for planning operations of projects for the ensuing year. Reservoir and precipitation data are developed which are used in planning subsequent reservoir operations. The data include a narrative summary of water supply situations by regions, tables listing values of active storage, outflow, inflow, and end-of-the-month reservoir elevations for individual reservoirs. A review of maintenance report is prepared biennially or triennially to provide maintenance information on all major and minor water structures and facilities, including carriage, distribution, and drainage systems. **Input:** Each Bureau region compiles data from numerous sources on the operation and maintenance of projects in its area and develops plans for operations for the ensuing year. **Output:** The major output types are the annual water supply reports and operating plans for various river systems, semiannual reports on abatement and control of pollution at federal facilities, and biennial or triennial reports on status of maintenance of specific dams or other project facilities.

Annual Excess Lands Report

OMB Funding Code/Title: 14-5064-0-2-301 / Operation and maintenance

Program: Operation and Maintenance

Congressional Relevance: *House* Committee on Interior and Insular Affairs; *Senate* Committee on Energy and Natural Resources; *House* Appropriations Committee: Energy and Water Development Subcommittee; *Senate* Appropriations Committee: Energy and Water Development Subcommittee

Authority: Reclamation Act of 1902 (P.L. 57-161).

Availability: Agency

Geographic Relevance: Regional

Purpose: Data are systematically compiled to determine compliance with acreage limitation provisions of reclamation law. The law limits to 160 acres the quantity of land an individual may own for which he can receive a reclamation project water supply. The reports are compiled by Bureau region, service project, and contracting entity. Data include total irrigable acreage, exempt acreage, nonexcess acres and number of owners, excess acres and number of owners, excess lands under recordable contract for sale, excess acres served obligably, excess acres not served, and excess acres served ineligibly. Excess acres are defined as the irrigable land owned by one landowner within a contract Bureau area in excess of the 160-acre nonexcess entitlement. Reports are compiled and updated annually as of December 31 of each calendar year. **Input:** The data are compiled by irrigation districts or other entities which have contracted with the United States for an irrigation water supply from a reclamation project. **Output:** Summary reports are filed in Washington office. Detailed reports are maintained in regional offices. These reports are produced annually.

S00716-005

Environmental Data Network for Project Skywater

OMB Funding Code/Title: 14-5060-0-2-301 / General investigations

Program: General Engineering and Research

Congressional Relevance: *House* Committee on Interior and Insular Affairs; *Senate* Committee on Energy and Natural Resources; *House* Appropriations Committee: Energy and Water Development Subcommittee; *Senate* Appropriations Committee: Energy and Water Development Subcommittee

Authority: Reclamation Act of 1902 (P.L. 57-161)

Availability: Agency

Geographic Relevance: National

Purpose: The Bureau's research in weather modification demands a continuous flow of real time atmospheric data which are not routinely available through the National Weather Service. A central data base of cloud models, special display and analysis programs, and an on-line weather data base have been established to fulfill this requirement. The system includes cloud models used for determining cloud size, rainfall rates, and results of cloud seeding. The supporting data base includes digitized forecasts of wind flow, temperature, and moisture over the United States as well as cloud heights, surface winds, atmospheric pressure, temperatures, and general weather characteristics. The computer also processes weather radar data from field sites by converting digitized analog data into actual pictures of clouds and their rain-producing mechanisms. Although part of the data is national in scope, most of the data pertain to the 17 Western States. **Input:** External sources include the National Weather Service Analysis Center in Suitland, MD, which is interfaced with the Bureau's computer in Denver, CO. In addition, 150 weather stations provide hourly weather reports, and 85 stations in the Western States provide terminal forecasts for 24-hour periods. **Output:** No reports are produced directly. A computer data bank is available to researchers in the area of weather modification.

Authority: Reclamation Act of 1902 (P.L. 57-161). Small Reclamation Projects Act of 1956 (P.L. 84-984). Felt Finders' Act, Amendment (P.L. 79-35). Colorado River Basin Project Act (P.L. 90-537). Colorado River Storage Project Act (P.L. 84-485).

Availability: Agency

Geographic Relevance: Regional, 17 Western States and Hawaii

Purpose: The major function is to provide management and program evaluation data on irrigation development, crop production, and other multipurpose functions such as municipal and industrial water service, public recreation, power, and flood control. The system provides basic data for investigations of proposed new projects and extension of existing ones. The system contains historical and current year data on acreage, yield, and production of crops; extension of irrigation to new lands; gross value of crops grown on all projects; and multipurpose functions such as municipal and industrial water service, public recreation, power, and flood control. It also contains current year accomplishments in planning, research, construction, foreign activities, and environmental enhancement and cultural resource and youth conservation programs. **Input:** Input is comprised of historical and current year data on topics relating to reclamation projects. **Output:** A report which discusses the program accomplishments is published annually. In addition, other reports are published which give detailed data for each project. Computer printouts which provide more detailed unpublished data are also available.

Authority: Colorado River Basin Salinity Control Act (P.L. 93-320).

Availability: Agency

Geographic Relevance: Colorado River Basin

Purpose: The purpose is to report to the Congress on the continuing studies of the quality of water in the Colorado River Basin. The authorizing legislation for the Colorado River Storage Project (Public Law 84-485), the Navajo Indian Irrigation Project (Public Law 87-483), the Frypan-Arkansas Project (Public Law 87-590), and the Colorado River Basin Salinity Control Act (Public Law 93-320) require that reports on Colorado River Water Quality be submitted to the Congress. Records of flow and water quality are available for all or part of the 1941-1972 period for 17 key monitoring stations. Analysis of the impacts on water quality of future resource development and of salinity control projects is included in the biennial report. Principal data collection and analysis pertain to the increasing salt load which is the principal agent causing degradation of water quality. Other agents such as toxic metals, bacteria, radioactivity, mercury, sediment, and pH which affect water quality are also monitored. **Input:** Data are obtained by Reclamation with assistance from the Geological Survey and other agencies from a network of water quality measuring stations that include significant diversions, surface return flows, and major river stations. This data gathering system is used extensively in determining the historical and projected salinity of the Colorado River. **Output:** A progress or status report on the quality of water in the Colorado River Basin is published biennially.

Purpose: The system was designed primarily to provide management with an automated, data base, information system to collect program and budget data from the field offices throughout the agency to be used for agencywide analysis and reporting. The principal functions of this system are to provide for program development, budget estimating, ZBB estimating, ZBB analysis, preparation of the budget justification documents, tracking and budget through the appropriation process, allocating funds, managing budget execution, coordinating program change orders, and meeting requests for special reports, tables, and schedules. The system contains some data maintained by the Washington office which is used to control and validate the data provided by the field offices. The field offices maintain detailed data within the system for contracts, land and right-of-way acquisitions, and noncontract costs for the budget execution year plus at least six more years. The detailed data include total cost estimates; award dates; award amounts; ranking and classification data; ZBB priority data; design status; specification status; engineering data collection status; EIS status; and repayment contract negotiation status information where appropriate; total cost-to-date; contractor identification; annual budget amounts; etc. The data are updated monthly. **Input:** Input is comprised of program and budget data from field offices. **Output:** Generally, the reports are produced monthly; however, all reports may be produced as needed. The system provides a series of reports for maintaining and analyzing the detailed data and the information supplied by the Washington office. It also provides various project management reports, a series of monthly reports showing the status of funds by major activities, analysis of the Operation and Maintenance Program for the current and budget years by states, and a 1-page summary report of our construction program.

State Plan Review System (MPRS).

OMB Funding Code/Title: 14-1801-0-1-302 / Regulation and technology

Program: Federal Regulatory Programs

CFOA NO.: 15.250

Congressional Relevance: House Committee on Interior and Insular Affairs; Senate Committee on Energy and Natural Resources; House Appropriations Committee: Interior Subcommittee, Senate Appropriations Committee: Interior Subcommittee

Authority: Surface Mining Control and Reclamation Act of 1977, as amended (P.L. 95-87, title V, § 502-507, as amended by P.L. 95-343; 91 Stat. 468-474; 30 U.S.C. 1252-1257).

Availability: Agency

Geographic Relevance: National; State

Purpose: The system supports the review process associated with coal mine plan applications and permit approvals. Subsystems include: Ground Water Model, Surface Water Model, Earth Slope Stability Assessment, Contour Mapping, Surface Approximation Contour Mapping, and Seismic Analysis. Application requires 200 million bytes of on-line disk storage. Data is retained for the life of the mine (20,30 or more years). Mine Plan is reviewed every 5 years. **Input:** The coal mining industry supplies data required for mine plan review and permit approval. **Output:** Cross references, 3-dimensional perspective views, burden loads, graphics, and matrices are provided. Output is produced for each mine plan--approximately three per week. Every 5 years, mines are re-permitted.

Agency Contact: Office of Surface Mining Reclamation and Enforcement. (303) 837-5940.

Office of Youth Programs

S00725-001

Administrative Services Center (ASC).

OMB Funding Code/Title: 16-0174-0-1-504 / Training and employment services; 12-1125-0-1-302 / Youth Conservation Corps

Program: Comprehensive Employment and Training Programs; Youth Conservation Corps

CFDA NO.: 17.211; 10.661; 10.663

Congressional Relevance: House Committee on Education and Labor; Senate Committee on Energy and Natural Resources; House Appropriations Committee: Interior Subcommittee; Senate Appropriations Committee: Interior Subcommittee

Authority: Youth Conservation Corps Act of 1972 (P.L. 93-408). Youth Employment and Demonstration Projects Act of 1977 (P.L. 95-93). Job Corps Act (P.L. 95-482).

Availability: Internal Use Only

Geographic Relevance: National

Purpose: The Administrative Services Center was established shortly after enactment of the Job Corps. Initially it was to provide an accounting service to two program (Job Corps and Youth Conservation Corps) but was further expanded in 1977 to include the Young Adult Conservation Corps. Basically, the Center acts as the bank for all three programs -- it provides an accounting service for the three programs and reconciles the general ledger of accounts and program appropriations. The system basically acts as the bank for these programs. It provides an accounting service and reconciles the general ledger of accounts with the program appropriations. Data obtained from the camp level includes payroll, camp expenditures, camp operations, and camp size and location. Statistical information on enrollees is also maintained in this system. **Input:** The Administrative Services Center is an internal system only. All input data are from camp level information on payroll, camp expenditures, camp operations and camp size, and location. Basic information concerns (budgets) and statistical information are provided on enrollees and accounts. **Output:** The frequency of output is biweekly for YCC during camp operations, monthly for budget execution, and quarterly for fiscal reports. All output is in the form of hardcopy for financial reports, enrollee characteristics, work accomplishments, payroll, and camp listings.

Agency Contact: Office of Youth Programs. (202) 343-6044.

Office of Territorial and International Affairs

Minerals Management Service

S00731-001

Oilspill Trajectory Analysis Model (OSTA).

OMB Funding Code/Title: 14-1917-0-1-302 / Minerals and royalty management

Program: OCS Lands

Congressional Relevance: House Committee on Interior and Insular Affairs; Senate Committee on Energy and Natural Resources; House Appropriations Committee: Interior Subcommittee; Senate Appropriations Committee: Interior Subcommittee

Authority: Act of March 3, 1879 (P.L. 45-82, § 1, as amended by 87-626, 20 Stat. 394; 43 U.S.C. 31).

Availability: Agency

Geographic Relevance: National

Purpose: The oilspill risk analysis model aids in estimating the environmental hazards of developing oil resources in outer continental shelf areas. This large, detailed computerized model analyzes the probability of spill occurrence, likely paths of the spills, and location of recreational and biological resources which may be vulnerable. The analysis implicitly includes estimates of weathering rates, slick dispersion, and possible mitigating effects of cleanup. The model provides a method for realistically assessing oilspill risks associated with outer continental shelf development. The results of analyses of proposed areas are incorporated into environmental impact statements. In addition, a "real time" version of the model was used to forecast the movement of the Argo Merchant oilspill. **Input:** Data used in this model obtained from the Offshore Resource Evaluation Division of the Geological Survey, the Minerals Management Service's Environmental Studies Program, the National Oceanic and Atmospheric Administration, and the National Weather Service. **Output:** An open file report prepared for each analysis, and the results are incorporated into environmental impact statements. Model runs are planned for future oil sales and development proposals in frontier areas at an anticipated rate of about eight per year.

Agency Contact: Minerals Management Service. (703) 860-6730.

OMB Funding Code/Title: 14-1917-0-1-302 / Minerals and royalty management

Program: Royalty Management (Non Research and Development)

Congressional Relevance: House Committee on Interior and Insular Affairs; Senate Committee on Energy and Natural Resources; House Appropriations Committee: Interior Subcommittee; Senate Appropriations Committee: Interior Subcommittee

Authority: Act of March 3, 1879 (P.L. 45-82, § 1, as amended by P.L. 87-626; 20 Stat. 394; 43 U.S.C. 31).

Availability: Agency

Geographic Relevance: National; State; County; Indian Lands

Purpose: The AFS is the U.S. government system for the accounting of royalties paid on federal and Indian mineral leases. The file size is estimated at 2.5 gigabytes. This system became operational in February of 1983 and will be used indefinitely. **Input:** The source of input data to the Auditing and Financial System (AFS) is through the Payor Information Form and Federal Form 2014. These forms are submitted by all parties having paying responsibility for all federal and Indian mineral leases. **Output:** Reports which describe royalties paid, due, and to be distributed to states, Indians, etc. are provided. Most of the reports are available monthly in hard copy format. The information is also available from punched cards, in machine readable form, on microfiche, etc.

Agency Contact: Minerals Management Service. (FIS) 326-3286.

S00731-004

Post-Sale Analysis System.

OMB Funding Code/Title: 14-1917-0-1-302 / Minerals and royalty management

Program: OCS Lands (Non Research and Development)

Congressional Relevance: House Committee on Interior and Insular Affairs; Senate Committee on Energy and Natural Resources; House Appropriations Committee: Interior Subcommittee; Senate Appropriations Committee: Interior Subcommittee

Authority: Act of March 3, 1879 (P.L. 45-82, § 1, as amended by P.L. 87-626; 20 Stat. 394; 43 U.S.C. 31).

Availability: Internal Use Only

Geographic Relevance: Federal Outer Continental Shelf

Purpose: The system determines acceptable bids subsequent to a federal OCS lease sale. **Input:** Bids received during an Outer Continental Shelf (OCS) lease sale are input for the system. **Output:** Tabular and graphical data are provided subsequent to OCS lease sales.

Agency Contact: Minerals Management Service. (703) 860-7558.

S00731-005

Geophysical Mapping System (GMS).

06/77

OMB Funding Code/Title: 14-1917-0-1-302 / Minerals and royalty management

Program: OCS Lands (Non Research and Development)

Congressional Relevance: House Committee on Interior and Insular Affairs; Senate Committee on Energy and Natural Resources; House Appropriations Committee: Interior Subcommittee; Senate Appropriations Committee: Interior Subcommittee

Authority: Act of March 3, 1879 (P.L. 45-82, § 1, as amended by P.L. 87-626; 20 Stat. 394; 43 U.S.C. 31).

Availability: Agency

Geographic Relevance: Federal Outer Continental Shelf

Purpose: The system automates manual mapping methods for federal Outer Continental Shelf pre- and post-lease sales. File size exceeds 2 gigabytes. **Input:** Geophysical, geological and engineering data are input for the system. **Output:** Maps, all line and as demanded, are provided.

Agency Contact: Minerals Management Service. (703) 860-7571.

S00731-006

Automated Cartographic System (ACS).

06/80

OMB Funding Code/Title: 14-1917-0-1-302 / Minerals and royalty management

Program: OCS Lands (Non Research and Development)

Congressional Relevance: House Committee on Interior and Insular Affairs; Senate Committee on Energy and Natural Resources; House Appropriations Committee: Interior Subcommittee; Senate Appropriations Committee: Interior Subcommittee

Authority: Act of March 3, 1879 (P.L. 45-82, § 1, as amended by P.L. 87-626; 20 Stat. 394; 43 U.S.C. 31).

Availability: Internal Use Only

Geographic Relevance: Federal Outer Continental Shelf

Purpose: The system provides thematic maps of all federal Outer Continental Shelf oil and gas information in the Gulf of Mexico. **Input:** Geological data, geophysical data, engineering data, as well as operation lease information, are input for the system. **Output:** Thematic maps, detailed engineering maps, and detailed scientific maps of the Gulf of Mexico are provided.

Agency Contact: Minerals Management Service. (FIS) 680-9729.

S00731-007

Monte Carlo Evaluation System.

OMB Funding Code/Title: 14-1917-0-1-302 / Minerals and royalty management

Program: OCS Lands (Non Research and Development)

Congressional Relevance: House Committee on Interior and Insular Affairs; Senate Committee on Energy and Natural Resources; House Appropriations Committee: Interior Subcommittee; Senate Appropriations Committee: Interior Subcommittee

Authority: Act of March 3, 1879 (P.L. 45-82, § 1, as amended by P.L. 87-626; 20 Stat. 394; 43 U.S.C. 31).

Availability: Internal Use Only

Geographic Relevance: Federal Outer Continental Shelf

Purpose: The system determines the potential value of offshore tracts for leasing purposes. The system provides a Monte Carlo evaluation of time series modelling of oil and gas development on offshore tracts. **Input:** Geological and geophysical analysis data, as well as petroleum information data, are sources of input for the system. **Output:** Output occurs prior to each federal lease sale on the Outer Continental Shelf.

Agency Contact: Minerals Management Service. (703) 860-7571.

S00731-008

Lease Production Revenue (LPR).

OMB Funding Code/Title: 14-1917-0-1-302 / Minerals and royalty management

Program: OCS Lands (Non Research and Development)

Congressional Relevance: House Committee on Interior and Insular Affairs; Senate Committee on Energy and Natural Resources; House Appropriations Committee: Interior Subcommittee; Senate Appropriations Committee: Interior Subcommittee

Authority: Act of March 3, 1879 (P.L. 45-82, § 1, as amended by P.L. 87-626; 20 Stat. 394; 43 U.S.C. 31).

Availability: Agency

Geographic Relevance: Federal Outer Continental Shelf

Purpose: The system provides analyses on leasing, production and revenue from oil and gas leases in the Gulf of Mexico. **Input:** Sources of data are lease sales and the Gulf of Mexico Outer Continental Shelf Information System. **Output:** Tabular and graphical displays are provided.

Agency Contact: Minerals Management Service. (703) 860-7567.

S00731-009

Platform Inspection System.

1975

OMB Funding Code/Title: 14-1917-0-1-302 / Minerals and royalty management

Program: OCS Lands (Non Research and Development)

Congressional Relevance: *House* Committee on Interior and Insular Affairs; *Senate* Committee on Energy and Natural Resources; *House* Appropriations Committee: Interior Subcommittee; *Senate* Appropriations Committee: Interior Subcommittee

Authority: Act of March 3, 1879 (P.L. 45-82, § 1, as amended by P.L. 87-626; 20 Stat. 394; 43 U.S.C. 31).

Availability: Internal Use Only

Geographic Relevance: Federal Outer Continental Shelf

Purpose: The system provides information on periodic engineering inspections of platforms and drilling rigs in the Gulf of Mexico. The purpose of the inspection is to ensure safety of life and equipment. **Input:** Platform inspection data are sources of input. **Output:** These are monthly print-outs of inventories of data, arranged in tabular form, showing non-compliance.

Agency Contact: Minerals Management Service (FIS) 680-9729.

600731-010

Outer Continental Shelf Information System (OCSIS).

1979

OMB Funding Code/Title: 14-1917-0-1-302 / Minerals and royalty management

Program: OCS Lands (Non Research and Development)

Congressional Relevance: *House* Committee on Interior and Insular Affairs; *Senate* Committee on Energy and Natural Resources; *House* Appropriations Committee: Interior Subcommittee; *Senate* Appropriations Committee: Interior Subcommittee

Authority: Act of March 3, 1879 (P.L. 45-82, § 1, as amended by P.L. 87-626; 20 Stat. 394; 43 U.S.C. 31).

Availability: Internal Use Only

Geographic Relevance: Federal Outer Continental Shelf

Purpose: The system provides status on production, wells, reservoirs, and oil and gas leases on the federal Outer Continental Shelf. The system supports the regulatory responsibilities for the management of leases. **Input:** Federal Forms 9-152, 9-330, 9-331, and 9-331C are sources of input. **Output:** Output is tabular and graphical and is provided monthly, periodically, and ad hoc.

Agency Contact: Minerals Management Service (FIS) 680-9729.

DEPARTMENT OF JUSTICE

S00800-006

U.S. Trustee Management Information System (USTIS).

01/82

OMB Funding Code/Title: 15-0322-0-1-752 / Salaries and expenses, United States Attorneys and Marshals

Program: Bankruptcy Matters

Congressional Relevance: *House Committee on The Judiciary; Senate Committee on The Judiciary; House Appropriations Committee: Commerce, Justice, State, The Judiciary and Related Agencies Subcommittee; Senate Appropriations Committee: Commerce, Justice, State and Judiciary Subcommittee*

Authority: Bankruptcy Reform Act of 1978 (P.L. 95-598, title II, § 224(a); 92 Stat. 2662; 28 U.S.C. 581-589).

Availability: Internal Use Only

Geographic Relevance: Federal Court Districts

Purpose: The U.S. Trustee Management Information System (USTIS) is a case tracking system for field offices.

Agency Contact: (202) 724-8391.

Antitrust Division

S00601-001

Economic Policy Office Statistical Analysis Reports.

OMB Funding Code/Title: 15-0319-0-1-752 / Salaries and expenses, Antitrust Division

Program: Enforcement of Antitrust, Consumer Protection and Kindred Laws

Congressional Relevance: *House Committee on The Judiciary; Senate Committee on The Judiciary; House Appropriations Committee: Commerce, Justice, State, The Judiciary and Related Agencies Subcommittee; Senate Appropriations Committee: Commerce, Justice, State and Judiciary Subcommittee*

Authority: Sherman Antitrust Act (P.L. 51-647); Clayton Antitrust Act (P.L. 63-212); Antitrust Procedures and Penalties Act (P.L. 93-528); Antitrust Civil Process Act (P.L. 87-664).

Availability: Internal Use Only

Geographic Relevance: National; State; (SMSA) Standard Metropolitan Statistical Area; City

Purpose: The report is the broad designation for all analysis programmed and processed for the Division's Economic Policy Office (EPO). The majority of the projects are related and designed for particular cases and investigations and terminate at the end of the case or investigation and thus do not become a total operating system. However, five systems are grouped under this category for accounting purposes: 1) EIS (Economic Information System), 2) BLS (Bureau of Labor Statistics), 3) Standard and Poors, 4) Compustat, and 5) timesharing access to a variety of economic data bases, including the foregoing. This system includes: 1) EIS--includes plant data on names of firms in the United States including shipments, estimated sales, estimated employment, addresses of firms, telephone numbers, parent companies, and names. 2) BLS--includes 20 years of price indexes and product descriptions. 3) D&B--includes standard industrial codes 0111 through 9131, names of firms' headquarters, branches, subsidiaries, manufacturing or non-manufacturing locations, line of business, sales volume, number of employees and other firm information. 4) Compustat--includes annual financial data for 20 years plus quarterly data for 10 years. 5) Banking and utility industry data covering sales volumes and other market information. **Input:** Input is generated from tapes purchased from EIS,

BLS, Standard and Poors, and Investors Management Sciences, Inc. (for Compustat tapes). **Output:** EIS produces an annual report consisting of Market Share Report, Geographical Analysis and Product Patterns of Individual Firms Activity. BLS produces a quarterly update for a report on behavior of prices in particular products. Data are arranged in part by SMSA and SIC. Compustat is a service providing financial information and over 600 industrial companies representing the New York, American, over the counter and Canadian stock exchanges. It is available on-line for various reporting requirements.

Agency Contact: Antitrust Division. (202) 724-7339.

S00801-004

Identical Bidding in Public Procurement.

OMB Funding Code/Title: 15-0319-0-1-752 / Salaries and expenses, Antitrust Division

Program: Salaries and Expenses, Antitrust Division (All Programs)

Congressional Relevance: *House Committee on The Judiciary; Senate Committee on The Judiciary; House Appropriations Committee: Commerce, Justice, State, The Judiciary and Related Agencies Subcommittee; Senate Appropriations Committee: Commerce, Justice, State and Judiciary Subcommittee*

Authority: Sherman Antitrust Act (P.L. 51-647); Clayton Antitrust Act (P.L. 63-212); Antitrust Civil Process Act (P.L. 87-664); Antitrust Procedures and Penalties Act (P.L. 93-528).

Availability: Agency; GPO

Purpose: The system was established pursuant to section 7 of Executive Order 10936 issued April 24, 1961. This order authorized the Department of Justice to collect and publish data concerning identical bidding affecting procurement by the federal government. This system organizes the data for analysis by the public and business. It includes the details of identical bids and the names of the firms submitting them. It is used for informational purposes only. The data base consists of a file of reporting agencies, a file of bidder names and addresses, and a file of procurement contracts which received identical bids. The data are submitted throughout the fiscal year by government agencies nationwide. The data are received as bidding occurs and are consolidated once each year in an annual report. **Input:** The data are derived from procurement forms submitted by government agencies. **Output:** Output is produced annually in the form of camera-ready copy reports of agencies, bidders, and procurement contracts and bids.

Agency Contact: Antitrust Division. (202) 724-6818.

S00601-006

Antitrust Division Casefile Evaluation System (ACES).

07/01/79

OMB Funding Code/Title: 15-0319-0-1-752 / Salaries and expenses, Antitrust Division

Program: Enforcement of Antitrust and Kindred Laws

Congressional Relevance: *House Committee on The Judiciary; Senate Committee on The Judiciary; House Appropriations Committee: Commerce, Justice, State, The Judiciary and Related Agencies Subcommittee; Senate Appropriations Committee: Commerce, Justice, State and Judiciary Subcommittee*

Authority: Sherman Anti-Trust Act, as amended (P.L. 93-528, § 3; 26 Stat. 209; 15 U.S.C. 1 et seq.); Government Organization and Employment Act (P.L. 89-554, § 4(c); 80 Stat. 613-614; 28 U.S.C. 516, 519).

Availability: Agency

Purpose: The system maintains descriptive and status information on all Antitrust Division matters. The scope is Antitrust Division-wide. The

file size is approximately 250 megabytes of storage in several files. Subsystems include: (1) a matters data base that contains all matters assigned to the division; (2) a workload data base that contains records of attorney and professional hours charged to each matter; and (3) a cost data base that contains needs of other than direct labor costs for each matter. The period covered is from 1963 to the present. **Input:** Matters input include records of assignments by the Office of Operations. Workload input consists of time accounting forms completed by division professional staff. Cost input is extracted from the department's financial management information systems. **Output:** The system produces hardcopy monthly activity reports. Ad hoc reports are produced as required, and annual authority summary reports are produced on a yearly basis.

Agency Contact: Antitrust Division. (202) 724-7956.

Civil Division

S00602-002

Civil Division Case Management System.

10/79

OMB Funding Code/Title: 15-0128-0-1-752 / Salaries and expenses, General Legal Activities

Program: Claims, Customs, and General Civil Matters

Congressional Relevance: House Committee on The Judiciary; Senate Committee on The Judiciary; House Appropriations Committee: Commerce, Justice, State, The Judiciary and Related Agencies Subcommittee; Senate Appropriations Committee: Commerce, Justice, State and Judiciary Subcommittee

Authority: Government Organization and Employees Act (P.L. 89-554).

Availability: Internal Use Only

Geographic Relevance: National

Purpose: This management information system is used to make determinations of case assignments, responsibility, and action status; to prepare budget requests; and to report on litigation by case type and agency. This is a hybrid system consisting of manual and automated indices and associated documents relating to general and specific litigation and records pertaining to Civil Division cases, concerns, and correspondence. **Input:** Specific data are extracted from legal documents, correspondence, and memoranda and are entered into the automated or the manual components of this system. **Output:** The system generates reports to Civil Division management which list cases by type, attorney, reviewer, and status results.

Agency Contact: Civil Division. (202) 633-5033.

S00802-003

Staff Resource Management System (SRMS).

05/04/81

OMB Funding Code/Title: 15-0128-0-1-752 / Salaries and expenses, General Legal Activities

Program: Claims, Customs, and General Civil Matters

Congressional Relevance: House Committee on The Judiciary; Senate Committee on The Judiciary; House Appropriations Committee: Commerce, Justice, State, The Judiciary and Related Agencies Subcommittee; Senate Appropriations Committee: Commerce, Justice, State and Judiciary Subcommittee

Authority: Government Organization and Employees Act (P.L. 89-554, § 4(c); 50 Stat. 612, 44 U.S.C. 3101; Executive Order 12174).

Availability: Internal Use Only

Purpose: This is a work measurement system to assist in identifying and forecasting staff needs and evaluating the current allotment of staff resources. It provides quantitative data on the expenditure of attorney and paralegal time for the preparation of reliable budget estimates and requests. It is an ongoing system that collects daily time data from over 350 participants. **Input:** Data for the system come from time sheets that attorneys and paralegals complete for any work activity occupying more than 15 minutes time. **Output:** The system produces periodic (weekly and monthly) reports on employee participation, summaries of employee and case activities, and analyses of time devoted to the litigation of specific types of cases.

Agency Contact: Civil Division. (202) 724-7291.

S00602-004

Litigation Support System.

09/01/82

OMB Funding Code/Title: 15-0128-0-1-752 / Salaries and expenses, General Legal Activities

Program: Claims, Customs, and General Civil Matters

Congressional Relevance: House Committee on The Judiciary; Senate Committee on The Judiciary; House Appropriations Committee: Commerce, Justice, State, The Judiciary and Related Agencies Subcommittee; Senate Appropriations Committee: Commerce, Justice, State and Judiciary Subcommittee

Authority: Government Organization and Employees Act (P.L. 89-554, § 4(c); 50 Stat. 611, 28 U.S.C. 501 et seq.)

Availability: Internal Use Only

Geographic Relevance: National

Purpose: The purpose of the system is to assist Civil Division trial attorneys in managing a large number of litigation documents for such major families as Asbestos, Radiation, Student Loans, and Toxic Substances. This is a multi-year effort involving millions of records, many of which are privileged. **Input:** Sources of input are biographically coded data from documents including but not limited to depositions, trial exhibits, correspondence, reports, specifications, and memoranda related to the case families listed above. **Output:** The output is primarily in the form of responses to search requests by trial staff, discovery requests by opposing parties, and Freedom of Information Act requests by the public.

Agency Contact: Civil Division. (202) 724-7269.

Civil Rights Division

S00603-001

Civil Rights Division Index File and Associated Records.

11/82

OMB Funding Code/Title: 15-0128-0-1-752 / Salaries and expenses, General Legal Activities

Program: Civil Rights

Congressional Relevance: House Committee on The Judiciary; Senate Committee on The Judiciary; House Appropriations Committee: Commerce, Justice, State, The Judiciary and Related Agencies Subcommittee; Senate Appropriations Committee: Commerce, Justice, State and Judiciary Subcommittee

Authority: Civil Rights Act of 1964 (P.L. 88-352).

Availability: Internal Use Only

Geographic Relevance: National; State

Purpose: This system consists of alphabetical indices and the associated records to which the indices relate, containing general and particular records of all Civil Rights Division correspondence, cases, matters, and memoranda. Information is used to make decisions in the course of investigations and legal proceedings; to assist in preparing responses to correspondence; to prepare budget requests, MBO program descriptions, and reports on the work product of the Division; and to carry out other authorized internal functions. Records are also disseminated to appropriate federal, state, and local agencies and officials concerned with the implementation, investigation, or litigation of civil rights matters. **Input:** All records, correspondence, public, U. S. Attorneys, and court legal pleadings as well as FBI reports, are system input. **Output:** Principal output is workload reports.

Agency Contact: Civil Rights Division. (202) 633-3889.

S00803-004

Docketing System (CRT DS).

10/78

OMB Funding Code/Title: 15-0128-0-1-752 / Salaries and expenses, General Legal Activities

Program: Civil Rights Matters

Congressional Relevance: House Committee on The Judiciary; Senate Committee on The Judiciary; House Appropriations Committee: Commerce, Justice, State, The Judiciary and Related Agencies Subcommittee; Senate Appropriations Committee: Commerce, Justice, State and Judiciary Subcommittee

Authority: Government Organization and Employees Act (P.L. 89-554), Civil Rights Act of 1964 (P.L. 88-352).
Availability: Internal Use Only
Geographic Relevance: National; State; City
Purpose: This system consists of an index of the Civil Rights Division's investigations, cases, matters, legislative products, and other substantive activities. It contains information from October 1978 to date and includes management information such as file name, DJ number, section assigned to, lead person, initial date, and status of investigations, matters, and cases. Information in the system is used for tracking status of activity; determining case, matters, and investigative assignments; providing budget information; and projecting resource needs. **Input:** The system receives all case information for the Division and investigative matters for the Division. **Output:** The system generates a monthly report on the status of all cases and as needed information on cases, matters, and investigations for budget, personnel assignment, and resource allocation and reallocation purposes. Information is available through use of CRT and/or printer.
Agency Contact: Civil Rights Division. (202) 633-4636.

S00803-005

White House/Congressional Controlled Mail Index.
 01/78
OMB Funding Code/Title: 15-0128-0-1-752 / Salaries and expenses, General Legal Activities
Program: Civil Rights Matters
Congressional Relevance: House Committee on The Judiciary; Senate Committee on The Judiciary; House Appropriations Committee: Commerce, Justice, State, The Judiciary and Related Agencies Subcommittee; Senate Appropriations Committee: Commerce, Justice, State and Judiciary Subcommittee
Authority: Government Organization and Employees Act (P.L. 89-554), Civil Rights Act of 1964 (P.L. 88-352).
Availability: Internal Use Only
Geographic Relevance: National
Purpose: This system consists of listing of White House and congressional controlled correspondence for the period of January 1978 to the present. Information can be retrieved on the basis of name of person referring the correspondence, subject name of referred item, date correspondence was received in CRT, date of original correspondence, section/office correspondence sent in for response, status of response, and date of response. **Input:** All congressional and White House controlled correspondence referred to the CRT for response is included in the system. **Output:** A monthly status report, sorted from oldest to newest date of receipt of correspondence and by office/section assignment is produced. Information is available on-line by CRT and printer.
Agency Contact: Civil Rights Division. (202) 633-3883.

S00803-006

Citizen Correspondence Control Index.
 10/78
OMB Funding Code/Title: 15-0128-0-1-752 / Salaries and expenses, General Legal Activities
Program: Civil Rights Matters
Congressional Relevance: House Committee on The Judiciary; Senate Committee on The Judiciary; House Appropriations Committee: Commerce, Justice, State, The Judiciary and Related Agencies Subcommittee; Senate Appropriations Committee: Commerce, Justice, State and Judiciary Subcommittee
Authority: Government Organization and Employees Act (P.L. 89-554), Civil Rights Act of 1964 (P.L. 88-352).
Availability: Internal Use Only
Geographic Relevance: National; State; City
Purpose: This system consists of a listing of correspondence received from citizens for which no case or matter assignment has been made. Contents date from October 1978 to the present. Information can be retrieved by search on name of writer, city, state, class of inquiry, date letter received by CRT, and DOJ number. Correspondence responded to by the Citizen Complaint and Response Unit can additionally be retrieved on the basis of date of response and nature of response. **Input:**

The following data are entered for each correspondence referred to the Citizen Complaint and Response Unit (CCRU): name of writer, date correspondence received; unit assigned to for response, city, state and street address of writer, class of writer, date of response, and nature of response. **Output:** Information is used to generate responses to citizen inquiries retained by the CCRU; to provide management control of correspondence, to provide, upon request, management data on the volume of correspondence received, volume mature, etc., for use in workload evaluation and budget submissions. No regular reports are generated except period volume data.

Agency Contact: Civil Rights Division. (202) 633-3850

S00603-007

Matters Referred by the Equal Employment Opportunity Commission.
 03/72
OMB Funding Code/Title: 15-0128-0-1-752 / Salaries and expenses, General Legal Activities
Program: Civil Rights Matters
Congressional Relevance: House Committee on The Judiciary; Senate Committee on The Judiciary; House Appropriations Committee: Commerce, Justice, State, The Judiciary and Related Agencies Subcommittee; Senate Appropriations Committee: Commerce, Justice, State and Judiciary Subcommittee
Authority: Civil Rights Act of 1964, as amended (P.L. 88-352, title VII, § 701, as amended by P.L. 89-554; 78 Stat. 253; 42 U.S.C. 2000e et seq.).
Availability: Internal Use Only
Geographic Relevance: State; County; City
Purpose: This system contains the names, addresses, and charges of individuals employed by or seeking employment with state governments or their subdivisions who have filed an allegation of employment discrimination with the EEOC; the EEOC has determined there is probable cause to believe discrimination occurred and referred the matter to the Division for litigation; and the Division has declined to litigate, instead sending the person a notice of right to sue. **Input:** System inputs consist of information provided by the Equal Employment Opportunity Commission (EEOC), together with the Department of Justice Number and date of Right to Sue letter, to the claimant. **Output:** The system provides as-needed reports and information on right to sue matters. The information is available for indexing and retrieval of Right to Sue letters and management reports.
Agency Contact: Civil Rights Division. (202) 633-3168.

S00603-008

Workload Measurement System (BAMS).
 10/79
OMB Funding Code/Title: 15-0129-0-1-751 / Salaries and expenses
Program: Program Direction and Policy Coordination (Justice Management Division)
Congressional Relevance: House Committee on The Judiciary; Senate Committee on The Judiciary; House Appropriations Committee: Commerce, Justice, State, The Judiciary and Related Agencies Subcommittee; Senate Appropriations Committee: Commerce, Justice, State and Judiciary Subcommittee
Authority: Government Organization and Employees Act (P.L. 89-554, § 4(c); 80 Stat. 612; 28 U.S.C. 507, 510).
Availability: Internal Use Only
Purpose: This system consists of a number of programs which provide computer generated personalized timesheets for all attorneys and some professionals of the Division; facilitates the entry into the system of data from manually maintained attorney and professional timesheets; and provides the retrieval of timesheet information, case name(s), DOJ Number, and the amount of the time expended on cases. **Input:** The input of the system consists of timesheet information for all attorneys and some professionals of the Division together with information from the Division's Docket Control System, e.g., case name, Department of Justice (DOJ) Number, status, and lead attorney. **Output:** Quarterly reports and additional reports as requested totaling attorney/professional workhours associated with all or individual cases of the Division are provided.
Agency Contact: Civil Rights Division. (202) 633-4636.

01/80

OMB Funding Code/Title: 15-0129-0-1-751 / Salaries and expenses

Program: Program Direction and Policy Coordination (Justice Management Division)

Congressional Relevance: House Committee on The Judiciary; Senate Committee on The Judiciary; House Appropriations Committee: Commerce, Justice, State, The Judiciary and Related Agencies Subcommittee; Senate Appropriations Committee: Commerce, Justice, State and Judiciary Subcommittee

Authority: Government Organization and Employees Act (P.L. 89-554, § 4(c), 80 Stat. 612; 28 U.S.C. 507, 510).

Availability: Internal Use Only

Purpose: This system provides the Division with management information on its employees which includes strength of sections, daily employee status, location of employees, FLSA coverage, amount of time in the Division, and grade. The information covers employees of the Division from January 1980 to date. The information is used for allocating of positions to the sections, publishing of a Division locator, identification of employees eligible for promotion, and compiling of personnel related reports. **Input:** The input consists of data about individual employees which is obtained from official Department of Justice and Division records. The data includes name, section assigned to, grade level, position title, date of entry to the Division, date of last promotion, race, sex, classified information access clearance level, FLSA coverage, employment status, handicaps if any, and professional classification. **Output:** Outputs of the system include monthly staffing pattern, daily morning report, quarterly or as needed employee locator, monthly NSI access listing, quarterly professional employees eligible for promotion listing, and other reports as needed. The information is on line and may be produced through use of a line printer.

Agency Contact: Civil Rights Division. (202) 633-3869.

Criminal Division

S00804-003

Case Management Information System (CMIS)

OMB Funding Code/Title: 15-0128-0-1-752 / Salaries and expenses, General Legal Activities

Program: Criminal Matters

Congressional Relevance: House Committee on The Judiciary; Senate Committee on The Judiciary; House Appropriations Committee: Commerce, Justice, State, The Judiciary and Related Agencies Subcommittee; Senate Appropriations Committee: Commerce, Justice, State and Judiciary Subcommittee

Authority: Government Organization and Employees Act (P.L. 89-554), Crime Control Act of 1976 (P.L. 94-503), Department of Justice Appropriation Authorization Act of 1980 (P.L. 96-132).

Availability: Internal Use Only

Geographic Relevance: National, Federal Judicial Districts

Purpose: This system maintains descriptive and status information about all investigations and prosecutions for which the Criminal Division has operational responsibility. The data base includes less than 3,000 records organized in separate files for each of the Division's litigating sections. **Input:** Data are updated regularly on monthly cycles. Key input documents include Investigation Initiation Forms and Prosecution Initiation Forms; updated information is submitted on Investigation and Prosecution Profile forms which are turn-around documents. **Output:** Investigation/Prosecution Profiles (summarizing all case information in the CMIS) are produced as a result of each periodic updating cycle and are used to enter data for the subsequent update cycle. Case inventory reports summarize important information pertaining to each case as part of the periodic update. A variety of other reports are produced as needed.

Fraud and Corruption Tracking (FACT)

05/01/83

OMB Funding Code/Title: 15-0128-0-1-752 / Salaries and expenses, General Legal Activities

Program: Criminal Matters

Congressional Relevance: House Committee on The Judiciary; Senate Committee on The Judiciary; House Appropriations Committee: Commerce, Justice, State, The Judiciary and Related Agencies Subcommittee; Senate Appropriations Committee: Commerce, Justice, State and Judiciary Subcommittee

Authority: Government Organization and Employees Act (P.L. 89-554, § 4(c), 80 Stat. 616; 28 U.S.C. 535).

Availability: Agency

Purpose: The Fraud and Corruption Tracking (FACT) system was developed to support the administration's efforts to combat government fraud, waste, and abuse, and to assist in the implementation of the "Policy Statement of the Department of Justice on its Relationship with the Statutory Inspectors General of the Various Departments and Agencies of the United States," issued by Deputy Attorney General Ed C. Schmults on June 3, 1981. FACT will collect a variety of information needed for more effective enforcement, oversight, and policymaking. The FACT system will track referrals on corrupt or fraudulent practices related to federal agencies and programs. The start up date for the system is fiscal year 1983. **Input:** FACT input forms are from the Inspectors General, the Federal Bureau of Investigation, and U.S. Attorneys. **Output:** Output includes activity and status reports that are produced on a monthly, quarterly, and yearly basis.

Agency Contact: Criminal Division. (202) 633-5747.

Lands Docket Tracking System.

12/01/80

OMB Funding Code/Title: 15-0128-0-1-752 / Salaries and expenses.

General Legal Activities

Program: Land, Natural Resources, and Indian Matters**Congressional Relevance:** *House Committee on The Judiciary; Senate Committee on The Judiciary; House Appropriations Committee: Commerce, Justice, State, The Judiciary and Related Agencies Subcommittee; Senate Appropriations Committee: Commerce, Justice, State and Judiciary Subcommittee***Authority:** Judiciary and Judicial Procedure, as amended (P.L. 80-773, as amended by P.L. 81-72; 62 Stat. 972; 28 U.S.C. 2410) Act of August 1, 1888, as amended (P.L. 80-773; 25 Stat. 357, 40 U.S.C. 257)**Availability:** Agency**Purpose:** The Lands Docket Tracking System (LDTIS) is an on-line case tracking and management information system for the Land and Natural Resources Division. It is used to track all matters and cases within the division in order to maintain current status and case information and to provide management information for the efficient utilization of the division's resources. Categories of records in the system include: (1) administrative information dealing with the case or matter, including the Department of Justice file number, alien agency, court of origin, opposing party, title, section, and associated date; (2) calendar information, including key dates in tracking future activities; (3) activities related to the Department of Justice number, including correspondence and court events; (4) information about parties in the case, including names, the parties' relationship to the case, and the state residing; (5) tract information dealing with land acquisition cases, including tract numbers, participants, owners, events, scheduled events, court, and estate type; (6) the civil or criminal action number (court docket number and judicial officers); (7) information on cases status, including actions, dates, and reasons which affect the status of a case or matter; and (8) cases on appeal. There are approximately 800,000 records in the database, with 140,000 new records created each year. **Input:** Sources of information contained in this system are the correspondence, pleadings, legal issues, and other developments in the cases received primarily from the alien agencies and the United States Attorneys' offices. **Output:** Reports are continually produced to monitor the progress of the case load and the utilization of division resources. Approximately 1,200 reports are produced a year. LDTIS is an on-line system and supports from 5,000 to 8,000 transmissions per day.**Agency Contact:** Land and Natural Resources Division. (202) 633-4198.

Budget and Financial Management System.

OMB Funding Code/Title: 15-0200-0-1-751 / Salaries and expenses
Program: Salaries and Expenses (All Programs)

Congressional Relevance: House Committee on The Judiciary; House Permanent Select Committee on Intelligence; Senate Committee on The Judiciary; Senate Select Committee on Intelligence; House Appropriations Committee; Commerce, Justice, State, The Judiciary and Related Agencies Subcommittee; Senate Appropriations Committee; Commerce, Justice, State and Judiciary Subcommittee

Authority: Department of Justice Appropriation Authorization Act of 1980 (P.L. 96-132).

Availability: Internal Use Only

Geographic Relevance: National

Purpose: The system is to provide FBI management automated assistance in formulating budgetary requirements, controlling obligation and funds, and analyzing programmatic areas in which field investigative support is being provided. In order to provide budget and financial management capability for the FBI, the system tracks obligations by type (object classification), incurring organizational segment (Cost center), and purpose (activities and programs) from the initial budget submission on through appropriation, enactment into law, obligation, and expenditure. A variety of update cycles exist ranging from biweekly for payroll data to annually for certain budget formulation information. Three major subject areas of data are maintained in this system: 1) Cost accounting contains data showing the work-years expended investigating the different crime classifications over which the FBI has jurisdiction; 2) Fund control contains data showing obligation by type (object classification), by incurring organizational segment (cost center), by purpose (activities and programs), and by period; 3) Budget formulation contains data showing fiscal requirements by the same breakdown as contained for fund control with an additional breakdown showing whether the requirement is for a program increase or is part of the base. **Input:** The system processes manual and automated input. Time utilization data are provided via mark-sense from FBI field offices and designated headquarters divisions. Field control information is provided from automated personnel and accounting information systems. Budget formulation input consists of the above automated accounting and fund control data along with manual input to define FBI fiscal requirements. **Output:** Hardcopy and CRT output falls into three types: 1) Hardcopy cost accounting is provided periodically to FBI management to delineate the different areas in which investigative support is being expended; 2) fund control reports are provided monthly, quarterly, and yearly with output on either CRT or hardcopy to provide FBI management the ability to monitor rate and areas in which funds are being obligated; and 3) annu-

Authority: Government Organization and Employees Act, as amended (P.L. 89-554, § 4(c), as amended by P.L. 97-292, § 2; 80 Stat. 616; 28 U.S.C. 533-534).

Availability: Agency

Geographic Relevance: Federal Bureau of Investigation Field Offices

Purpose: The Field Office Information Management System (FOIMS), when fully operational, will provide each field office with an integrated information processing system incorporating word processing, data processing, and telecommunications technologies. FOIMS will link all the field offices with Federal Bureau of Investigation (FBI) headquarters through the use of regional computer centers. The FBI plans to integrate FOIMS with the resource management system and automated records management system and, where appropriate, with the investigative support systems. FOIMS will allow for the automation of many of the field offices' manual administrative and records-keeping functions. Some of the FOIMS applications are to provide time capture, vehicle fleet management, personnel management, work processing, electronic mail, case management, and specialized investigative support. FOIMS is operational in two FBI field offices, and the first regional computer center is partially operational and construction will be completed in 1984. **Input:** Input consists of administrative and investigative data. **Output:** Output includes administrative and investigative data.

Geographic Relevance: National

Purpose: The purpose of the Uniform Crime Reporting (UCR) program is to: (1) collect, process, and compile crime statistics; (2) provide them to law enforcement agencies; and (3) publish them for public use. The UCR program has a direct impact on crime prevention programs by providing information vitally needed by law enforcement agencies in planning their activities and by legislators to derive crime prevention legislation. On a monthly basis, this program collects law crime statistical data from over 16,000 individual law enforcement agencies nationwide. Data collection is based on a crime index which is comprised of the offenses of murder, rape, robbery, aggravated assault, burglary, larceny, motor vehicle theft, and arson. UCR has also been charged with the collection of data concerning parental kidnapping and ethnic origin. **Input:** Input consists of crime statistics. **Output:** Output includes crime statistics.

OMB Funding Code/Title: 15-0200-0-1-751 / Salaries and expenses

Program: State and Local Assistance (Fingerprint Identification)

Congressional Relevance: *House Committee on The Judiciary; Senate Committee on The Judiciary; House Appropriations Committee: Commerce, Justice, State, The Judiciary and Related Agencies Subcommittee; Senate Appropriations Committee: Commerce, Justice, State and Judiciary Subcommittee*

Authority: Grain Futures Act, as amended (P.L. 67-33), § 8a, as amended by P.L. 97-444, title I, § 104; 7 U.S.C. 12a). Securities Exchange Act of 1934, as amended (P.L. 73-291, title I, § 17, as amended by P.L. 94-29, § 14; 48 Stat. 897, 15 U.S.C. 78q). Government Organization and Employees Act, as amended (P.L. 89-554, § 4(c), as amended by P.L. 97-292, § 2, 80 Stat. 616, 28 U.S.C. 534).

Availability: Agency

Purpose: The Identification Division Records System (IDRS) is the manual recordkeeping system traditionally employed in the Federal Bureau of Investigation's (FBI) Identification Division. The IDRS includes all fingerprint cards, related biometric documents, and manual work-processing functions not included in the Automated Identification Division System (AIDS), which is being developed. For example, at the beginning of 1984, over 7 million criminal history records and the fingerprints of over 16 million arrestees had been computerized and included in the AIDS data base, leaving about 15 million criminal history records, the fingerprints of 6 million criminal history records, and the fingerprints of 6 million arrestees in the IDRS. By 1984 over 60 percent of the fingerprint searching was being performed with AIDS, leaving about 40 percent of the name searching and 5 percent of the fingerprint searching in the IDRS. As the AIDS project progresses, the number of criminal history records and percentages of name and fingerprint searching will continue to grow in AIDS and diminish in the IDRS. However, it should be noted that, since existing plans for AIDS do not include the automation of the Identification Division's massive civil fingerprint file, the applicant-type fingerprint cards of over 34 million present and former federal government employees, members of the U.S. Armed Forces, and aliens will continue to be indexed and searched in the manual IDRS. **Input:** Input consists of fingerprint cards and correspondence. **Output:** Output includes information regarding fingerprint card processing and related activities.

Agency Contact: Federal Bureau of Investigation. (202) 324-5101.

Bureau of Prisons

S00808-001

Profile Data Reports System.

OMB Funding Code/Title: 15-1060-0-1-753 / Salaries and expenses
Program: Custody, Care, and Treatment of Prisoners in Federal Institutions

Congressional Relevancy: *House Committee on The Judiciary; Senate Committee on The Judiciary; House Appropriations Committee: Commerce, Justice, State, The Judiciary and Related Agencies Subcommittee; Senate Appropriations Committee: Commerce, Justice, State and Judiciary Subcommittee*

Authority: Act of June 25, 1948 (P.L. 80-772; 18 U.S.C. 307).

Availability: Internal Use Only

Purpose: The system is one of many of the IIS reporting outputs; it consists of general statistical applications which are used to provide various internal offices, the institutions, and the public with information on inmate population trends. This service supports decisions on the physical plant characteristics and type of inmate population expected for planned institutions. This system uses such data as offense, sentence procedures, age, and prior arrests in making its computations. **Input:** Data are derived from the Inmate Information System Master File. **Output:** Output requirements are determined by requests from the Planning and Development Branch and Inmate Programs Section.

Agency Contact: Bureau of Prisons. (202) 724-3168.

S00808-002

Financial Management System (FMS).

OMB Funding Code/Title: 15-1060-0-1-753 / Salaries and expenses

Program: Salaries and Expenses (All Programs)

Congressional Relevancy: *House Committee on The Judiciary; Senate Committee on The Judiciary; House Appropriations Committee: Commerce, Justice, State, The Judiciary and Related Agencies Subcommittee; Senate Appropriations Committee: Commerce, Justice, State and Judiciary Subcommittee*

Authority: Act of June 25, 1948 (P.L. 80-772; 18 U.S.C. 307).

Availability: Internal Use Only

Purpose: The system provides centralized accounting and related financial reporting for all Bureau of Prisons funds except Federal Prison Industries. It encompasses 36 geographically separated institutions, 5 regional offices, the central office, and will accommodate new institutions without system modifications. Through the use of the Bureau's 19-digit accounting classification code, accounting, planning, budgeting, and reporting activities at all levels (central office, regional office, institutions, institutional departmental breakdown) can be monitored. The four areas of reporting are cost, history, general ledger, and allotment. Updates are processed twice weekly. The normal reporting cycles are monthly, quarterly, and annually; additionally, some reports are created twice weekly and on demand. **Input:** Input is accounting transactions entered by the institutions, the central office and the Department of Justice Payroll System. **Output:** Output pertains to allotment, general ledger, cost, and history. Frequency of the numerous reports varies (twice weekly, weekly, monthly, quarterly, and on demand). Some reports are printed; some are transmitted to the field locations via data communications for local printing.

Agency Contact: Bureau of Prisons. (202) 724-3168.

S00808-003

Industrial Employment Information System (IEIS).

OMB Funding Code/Title: 15-4500-0-4-753 / Federal Prison Industries, Incorporated

Program: Industrial Manufacturing Program

Congressional Relevancy: *House Committee on The Judiciary; Senate Committee on The Judiciary; House Appropriations Committee: Commerce, Justice, State, The Judiciary and Related Agencies Subcommittee; Senate Appropriations Committee: Commerce, Justice, State and Judiciary Subcommittee*

Authority: Act of June 25, 1948 (P.L. 80-772; 18 U.S.C. 307).

Availability: Internal Use Only

Purpose: The system provides Federal Prison Industries (FPI) and the Bureau of Prisons with managerial and analytical information to support the evaluation of current employment efforts, help with inmate release planning, and the management of FPI. The IEIS system has three basic cycles: Edit Update (run weekly), Report Extract (run monthly) and

Employment History Report (processed upon request). Information includes records of inmate industrial participation, work experience, and work performance, payroll data; industrial placement records; industries records, work experience summary; and industrial employment by grade, minority distribution, occupations, factories, and locations. In addition, the system provides industrial participation in existing computerized data bases; specifically the reporting and program system (RAPS). **Input:** The input originates from the annual FPI Form 96, Industrial Employment/RAPS Action Report, which is filled out at the institution. The data on this form are keyed and transmitted to the central office for processing. **Output:** The following reports are printed for the Central Office and put on file to be transmitted to the field via SYCOR. Employment History Record - provides a summary of all Federal Prison Industries employment for an individual. This report is produced upon demand; Industrial Skills Employment - run semiannually and summarizes the Federal Prison Industries inmate manpower distribution at the various institutions by occupation; Regional Industrial Employment - produced semiannually and summarizes the FPI inmate manpower distribution at the various regions by job class; Minority Industrial Employment - provided semiannually and produces a summary of FPI inmate manpower usage by total participation and minority participation; Industrial Employment by Industry - a monthly report which provides a synopsis of all participants, by grade in a particular factory within an institution. In addition, IEIS updates the IEIS master and history files. An output file is created to be used by the RAPS System. The system is capable of generating other reports regarding termination and turnover, industries population, and skills development.

Agency Contact: Bureau of Prisons. (202) 724-3168.

S00808-004

Short Term Research Projects.

OMB Funding Code/Title: 15-1060-0-1-753 / Salaries and expenses

Program: Custody, Care, and Treatment of Prisoners in Federal Institutions

Congressional Relevancy: *House Committee on The Judiciary; Senate Committee on The Judiciary; House Appropriations Committee: Commerce, Justice, State, The Judiciary and Related Agencies Subcommittee; Senate Appropriations Committee: Commerce, Justice, State and Judiciary Subcommittee*

Authority: Act of June 25, 1948 (P.L. 80-772; 18 U.S.C. 307).

Availability: Internal Use Only

Purpose: Projects are established intermittently to respond to specific congressional or other official inquiries regarding some aspect of the Bureau of Prisons functions. Typically first in five research projects are ongoing at one time which make only minimal use of the computer, and are too short in duration to warrant individual documentation. They are usually initiated by inquiries from Congress. **Input:** The projects use data from the master files of all processing systems within the Bureau of Prisons. The type of statistical output required determines which master file is used. For each study, data are collected manually, edited, keypunched, and used as a card input to a statistical software package. **Output:** Output is produced on request.

Agency Contact: Bureau of Prisons. (202) 724-3228.

S00808-006

Research Follow-up Study Projects Data Bases.

OMB Funding Code/Title: 15-1060-0-1-753 / Salaries and expenses

Program: Custody, Care, and Treatment of Prisoners in Federal Institutions

Congressional Relevancy: *House Committee on The Judiciary; Senate Committee on The Judiciary; House Appropriations Committee: Commerce, Justice, State, The Judiciary and Related Agencies Subcommittee; Senate Appropriations Committee: Commerce, Justice, State and Judiciary Subcommittee*

Authority: Act of June 25, 1948 (P.L. 80-772; 18 U.S.C. 307).

Availability: Internal Use Only

Purpose: This system was created to provide the Planning and Development Division of the Bureau of Prisons (BOP) with information about the performance of former inmates. This information is in several data bases. Research analysts access this data with statistical programs to identify significant trends and to make inferences about various rehabilitation programs. The system is divided into several subsystems;

analyzing these are the Glaser Long-term Follow-up Study and the Parole Board/IOIP Study. The Glaser Follow-up Study examines the probation and parole system in order to determine long term patterns of recidivism. The Parole Board/IOIP Study examines, at 2-year intervals, recidivism rates in order to refine base expectancy rates. Both studies provide base line data for comparisons with other research efforts. The Glaser Study data base includes information such as personal characteristics, age at first arrest, offense, sentence length, and socioeconomic status indicators. The Parole Board/IOIP Study data base includes information such as personal characteristics, history of prior criminality, drug usage, and postrelease outcome data. In addition, new follow-up studies are established using discharged population from selected years. **Input:** Data for the Glaser Follow-up Study were developed by Dr. Dan Glaser for use in his original study and was donated to the IOIP; follow-up data were obtained from the Federal Bureau of Investigation (FBI). Data for the Parole Board/IOIP Study were developed from prisoner files and from information furnished by the FBI. **Output:** Output is generated on request or whenever additional data are needed. **Agency Contact:** Bureau of Prisons. (202) 724-3228.

S00808-006

Community Services Population System (COSPOS)

OMB Funding Code/Title: 15-1060-0-1-753 / Salaries and expenses

Program: Custody, Care, and Treatment of Prisoners in Federal Institutions

Congressional Relevance: *House* Committee on The Judiciary; *Senate* Committee on The Judiciary; *House* Appropriations Committee: Commerce, Justice, State, The Judiciary and Related Agencies Subcommittee; *Senate* Appropriations Committee: Commerce, Justice, State and Judiciary Subcommittee

Authority: Act of June 25, 1948 (P.L. 80-772; 18 U.S.C. 307).

Availability: Internal Use Only

Purpose: The system is designed to provide an electronic method of maintaining records on federal inmates in non-federal facilities. The major functions of the system are to validate all input data, create new master files records, apply changes to previously established records, and produce various reports and statistical summaries about inmates in the COSPOS system. The master file contains such information as offense codes, sentence procedure codes, current and previous locations, birth and entry dates, and, for discharged individuals, program outcomes, job placement data, and salary information. The file is updated weekly. **Input:** The data are derived from information submitted by the regional offices on individuals committed directly from court and from the Inmate Information System on individuals transferred from federal institutions. **Output:** Output is produced monthly and includes master file listings, both alphabetically and by register number, and unit summaries. Output is in hardcopy and microfiche.

Agency Contact: Bureau of Prisons. (202) 724-3168.

S00808-007

Inmate Programs and Reporting System (IPRS)

OMB Funding Code/Title: 15-1060-0-1-753 / Salaries and expenses

Program: Custody and Care of Federal Prisoners; Inmate Education

Congressional Relevance: *House* Committee on The Judiciary; *Senate* Committee on The Judiciary; *House* Appropriations Committee: Commerce, Justice, State, The Judiciary and Related Agencies Subcommittee; *Senate* Appropriations Committee: Commerce, Justice, State and Judiciary Subcommittee

Authority: Act of June 25, 1948 (P.L. 80-772; 18 U.S.C. 307).

Availability: Internal Use Only

Geographic Relevance: National

Purpose: The purpose of the system is to maintain an automated record of inmate activities in federal prisons. This includes data on activities for which they have been planned, as well as activities in which they have enrolled, whether planned or unplanned, in addition to data on activity completion and withdrawal and reason for inability to participate in an activity. Activities include: education, psychology, psychotherapy, recreation, vocational training, on-the-job training, counseling, work release, study release, health services (i.e., speech therapy), and volunteer groups (i.e., AA, Jaycees, Thiasmasters). The files contain information such as assigned institution, unit within the institution, planned activities, birth and commitment/discharge dates, race, sex, last

commitment/discharge code and date, release destination ZIP code, reason for activity constraint, reason for activity withdrawal, date enrolled, date completed, date withdrawn, activity code, unit activity, activity planned/unplanned, indicator, institution geographic region, inmate number, course number, and department number. The files are updated weekly. **Input:** Data are derived from information submitted by federal prisons on sentenced inmates planned and engaged in activities and from the Inmate Information System (IIS). **Output:** The system produces weekly, monthly, quarterly, and annual outputs which consist of master files and listings of prisoners by names and statistics. Output is microfiche and hardcopy.

Agency Contact: Bureau of Prisons. (202) 724-3168

S00808-008

Inmate Information System (IIS)

OMB Funding Code/Title: 15-1060-0-1-753 / Salaries and expenses

Program: General Administration

Congressional Relevance: *House* Committee on The Judiciary; *Senate* Committee on The Judiciary; *House* Appropriations Committee: Commerce, Justice, State, The Judiciary and Related Agencies Subcommittee; *Senate* Appropriations Committee: Commerce, Justice, State and Judiciary Subcommittee

Authority: Act of June 25, 1948 (P.L. 80-772; 18 U.S.C. 307)

Availability: GPO

Geographic Relevance: National

Purpose: The purpose of the system is to maintain records on federal prisoners in federal facilities. The major functions of the system are to validate all input data, create new master files records, and produce various reports and statistical summaries about inmates on file in the system. The files contain such information as inmate number, commitment/discharge dates, prison of confinement, type of commitment/discharge, offense code, sentence length, race, sex, date of birth, education, job history, drug usage, prior commitments, citizenship, prior arrests, IQ scores, military history, judicial district where sentenced, parole eligibility and mandatory release dates, how sentenced, and number of sentences. The file is updated with commitment/discharge data biweekly and with demographic data biweekly. **Input:** The data are derived from information submitted by federal prisons on inmates sentenced and committed directly from courts. In October 1983, data will be reflected on federal inmates in non-federal institutions. **Output:** The system's output is produced daily, weekly, monthly, quarterly, semiannually, and annually. It consists of master file listings--both alphabetically and by register number on hard copy and microfiche--statistical reports, inmate demographic data, and inmate movement data.

Agency Contact: Bureau of Prisons. (202) 724-3168.

S00808-009

Sentry--Offender Management and Control System

03/78

OMB Funding Code/Title: 15-1060-0-1-753 / Salaries and expenses

Program: Custody and Care of Federal Prisoners; Inmate Education; Medical Services; Maintenance and Operation of Institutions

Congressional Relevance: *House* Committee on The Judiciary; *Senate* Committee on The Judiciary; *House* Appropriations Committee: Commerce, Justice, State, The Judiciary and Related Agencies Subcommittee; *Senate* Appropriations Committee: Commerce, Justice, State and Judiciary Subcommittee

Authority: Act of June 25, 1948 (P.L. 80-772; 18 U.S.C. 307).

Availability: Agency

Geographic Relevance: International/Foreign; National; State; IROP Region

Purpose: Sentry is a real time update inquiry system which provides operational information concerning the location and characteristics of individuals in the custody of the U.S. Attorney General, a special module for monitoring central supervision cases, the Federal Prison System, accountable personal property, and a legal reference system. SENTRY also provides data input to a separate batch Inmate Information System. The information content consists of personal data (name, race, sex, date-of-birth, address) and CJJ data, such as status--pre trial, pre sentencing, sentenced; offense; sentence length; judicial district; sentencing court and supervision responsibility; inmate location; facility.

cell assignment, and work assignment; and inmate management data -- custody level, movement histories, assignment histories, and behavioral incidents. **Input:** The system's input consists of relatively constant data that identify and describe the inmate and criminal justice process (CJP) data that tend to vary. **Output:** CRT displays of offender location and characteristics are available upon inquiry by an authorized user. These displays describe a specific individual in the group of individuals assigned to his/her custody.

Agency Contact: Bureau of Prisons. (202) 724-3168

S00806-010

Energy Usage System.
04/80

OMB Funding Code/Title: 15-100-0-1-753 / Salaries and expenses

Program: Institution Administration and Maintenance

Congressional Relevance: *House Committee on The Judiciary; Senate Committee on The Judiciary; House Appropriations Committee: Commerce, Justice, State, The Judiciary and Related Agencies Subcommittee; Senate Appropriations Committee: Commerce, Justice, State and Judiciary Subcommittee*

Authority: Act of June 25, 1948 (P.L. 80-772; 62 Stat. 847; 18 U.S.C. 4001, 4041, 4042; Executive Order 11912); Government Organization and Employees Act (P.L. 89-554; 18 U.S.C. 4001); Energy Policy and Conservation Act of 1975 (P.L. 94-163; 89 Stat. 874; 42 U.S.C. 6201).

Availability: Agency

Geographic Relevance: National

Purpose: The Energy Usage System collects energy data from institutions and Regional Offices each month and adds or replaces records on the Energy Usage master file. The Energy Usage master file is on disk. As of March 1983 there are 1550 480-byte records on the file. Each month, 49 new records are added to the master file. **Input:** Energy usage data sent from institutions and Regional Offices are collected until all stations have reported. The transaction records are edited and, if correct, are added to the master file. After all stations have reported successfully for that reporting month, the report program is executed. **Output:** Monthly and quarterly reports reflect the following data: vehicle mileage and fuel consumption in gallons for all motorized equipment--all types of fuels are shown and all fuel totals are shown in BTUs; all types of energy used by the institution, UNICOR, and staff housing--actual usage is displayed along with the corresponding BTUs for each energy source.

S00808-011

Inmate Injury System (SAFETY).
12/01/80

OMB Funding Code/Title: 15-1060-0-1-753 / Salaries and expenses

Program: Inmate Care and Custody

Congressional Relevance: *House Committee on The Judiciary; Senate Committee on The Judiciary; House Appropriations Committee: Commerce, Justice, State, The Judiciary and Related Agencies Subcommittee; Senate Appropriations Committee: Commerce, Justice, State and Judiciary Subcommittee*

Authority: Act of June 25, 1948 (P.L. 80-772; 62 Stat. 847; 18 U.S.C. 4042); Government Organization and Employees Act (P.L. 89-554; 18 U.S.C. 4042).

Availability: Agency

Geographic Relevance: National

Purpose: The system automates collecting and reporting of inmate injuries, accidents, and occupational illnesses. The Inmate Safety master file is on tape. As of March 1983, the master file had 40,565 100-byte records. Each week approximately 200 new records are added. The update program is run weekly, and the report program is run every month. Two annual summary reports are run after each year. **Input:** Safety transactions sent from institutions during the week are edited for validity and, if correct, are used to add, change, or delete records on the master file. **Output:** The monthly reports reflect the number of types of injuries during the reported month. Items listed are: name, registration number, date, department, accident area, source of injury, medical findings, body part, hazardous act, injury category, injury type, machinery, and number of days lost.

Agency Contact: Bureau of Prisons. (202) 724-3168.

S00608-012

Contact Profile System (CPS).

OMB Funding Code/Title: 15-100-0-1-753 / Buildings and facilities

Program: New Construction, Modernization and Repair of Existing Facilities, Planning and Site Acquisition

Congressional Relevance: *House Committee on The Judiciary; Senate Committee on The Judiciary; House Appropriations Committee: Commerce, Justice, State, The Judiciary and Related Agencies Subcommittee; Senate Appropriations Committee: Commerce, Justice, State and Judiciary Subcommittee*

Authority: Act of June 25, 1948 (P.L. 80-772; 62 Stat. 848-849; 18 U.S.C. 4003, 4009); Act of June 25, 1948 (P.L. 80-772; 62 Stat. 848; 18 U.S.C. 4003); Government Organization and Employees Act (P.L. 89-554, § 3(f); 80 Stat. 610; 18 U.S.C. 4010).

Availability: Internal Use Only

Geographic Relevance: Regional

Purpose: The Contact Profile System works parallel with the COSPOS System. It also interfaces with COSPOS to build a data file reflecting all contracted locations used by the BOP. **Input:** As contracts are established, the Community Programs Manager submits data to the Bureau of Prisons (BOP) Regional Office where it is transmitted to the Central Office for processing. **Output:** Reports reflecting the status and characteristics--programs, costs, capacity, etc.--of the contracted locations are generated as output.

Agency Contact: Bureau of Prisons. (202) 724-3168.

Staff Training Data System (STDS).

OMB Funding Code/Title: 15-1060-0-1-753 / Salaries and expenses

Program: Institution Administration and Maintenance (Staff Training)

Congressional Relevance: *House Committee on The Judiciary; Senate Committee on The Judiciary; House Appropriations Committee: Commerce, Justice, State, The Judiciary and Related Agencies Subcommittee; Senate Appropriations Committee: Commerce, Justice, State and Judiciary Subcommittee*

Authority: Act of June 25, 1948 (P.L. 80-772; 62 Stat. 847, 849; 18 U.S.C. 4001, 4041-4042).

Availability: Internal Use Only

Purpose: This system provides for centralized, regional, and local cost accounting and repository of instances and hours of training for personnel of the Federal Prison System. This is accomplished through the use of course codes and employees' personnel and training records. **Input:** Input data are comprised of employee training transactions from all levels of the Bureau, Staff Training Data System master file, JUNEPIER master file which contains data of inactive and active personnel, and the JETS master file which contains valid course codes. **Output:** Output consists of reports of training instances, hours, cost, reimbursement, and courses. Frequency of the numerous reports varies (weekly, monthly, quarterly and on demand). Some reports are printed; whereas, others are transmitted to the field locations via data communications for local printing.

Authority: Crimes and Criminal Procedure (P.L. 80-772; 62 Stat. 847; 18 U.S.C. 4001 et seq.); Crimes and Criminal Procedure, as amended (P.L. 80-772, as amended by P.L. 90-371; 62 Stat. 849; 18 U.S.C. 4041-4042).

Availability: Agency

Geographic Relevance: Regional

Purpose: The system generates monthly reports by institution, region, and agency. **Input:** Input consists of raw utility readings, such as gas-line, kilowatts, and cubic feet of water. **Output:** Output includes reports summarizing the raw data.

Agency Contact: Bureau of Prisons. (202) 724-3065.

S00808-015

Sentry Property Management System (SPMS).

OMB Funding Code/Title: 15-1060-0-1-753 / Buildings and facilities.

Program: New Construction, Modernization and Repair of Existing Facilities, Planning and Site Acquisition.

Congressional Relevance: House Committee on The Judiciary; Senate Committee on The Judiciary; House Appropriations Committee: Commerce, Justice, State, The Judiciary and Related Agencies Subcommittee; Senate Appropriations Committee: Commerce, Justice, State and Judiciary Subcommittee.

Authority: Crimes and Criminal Procedure (P.L. 80-772; 62 Stat. 848-849, 18 U.S.C. 4003, 4009) Crimes and Criminal Procedure (P.L. 80-772, 62 Stat. 848, 18 U.S.C. 4003) Government Organization and Employees Act (P.L. 89-554, § 3(f), 80 Stat. 610; 18 U.S.C. 4010).

Availability: Agency.

Purpose: The objective of the Sentry Property Management System is to provide a means of meeting the administrative and legislative requirements for property management and inter-agency reporting. This system will fulfill the requirements for controlling and reporting the acquisition, movement, and disposition of property owned and leased by the Federal Prison Service. The personal property data base is made up of approximately 60,000 items which are frequently changed because of acquisitions, dispositions, and property transfers between facilities. **Input:** The storekeeper or warehouse officer will use the packing slip that accompanies the delivered property to complete the inventory transaction form (BP-ACCTG-139), which is the source document for entering data into the automated system. A multi-purpose screen is generated to enter property acquisitions into the database. **Output:** All on-line output is directed to the inquiring terminal. A hard copy of the information on the display screen is available as a "local print" option. The entire property record can be retrieved by specifying the identification number that was used to establish the record. Summary totals of capitalized, non-capitalized, and donated property are available at various reporting levels.

Agency Contact: Bureau of Prisons. (202) 724-3144.

S00808-018

Sentry Legal Reference System (SLRS).

09/01/82

OMB Funding Code/Title: 15-1060-0-1-753 / Salaries and expenses.

Program: Program Direction (Executive Direction and Control).

Congressional Relevance: House Committee on The Judiciary; Senate Committee on The Judiciary; House Appropriations Committee: Commerce, Justice, State, The Judiciary and Related Agencies Subcommittee; Senate Appropriations Committee: Commerce, Justice, State and Judiciary Subcommittee.

Authority: Crimes and Criminal Procedure, as amended (P.L. 80-772, as amended by P.L. 90-371; 62 Stat. 849; 18 U.S.C. 4041-4042).

Availability: Agency, Internal Use Only.

Geographic Relevance: Bureau of Prisons Central and Regional Offices.

Purpose: The purpose of the system is to record summary entries of legal cases, briefs, pleadings, and letters to and legal research. Located on the Sentry IDMS, database access is on-line and immediate. Reference is made by party, date, date range recipients, senders, type of entry, topic or subtopic, or court of jurisdiction. Sentry is the system and legal reference is the subsystem. The Legal Reference System began in August 1982 but records entries as far back as needed for a particular litigation or research project. **Input:** The Bureau of Prisons central office and regional attorneys record entries for all documents of special interest to the Bureau of Prisons. **Output:** On-line retrievals and searches are the major outputs. The basic format is a listing of the indices and a three-line screen summary of the main issue of the document.

Agency Contact: Bureau of Prisons. (202) 724-3065.

S00808-017

Sentry Legal Litigation System (SLLS).

09/01/83

OMB Funding Code/Title: 15-1060-0-1-753 / Salaries and expenses.

Program: Program Direction (Executive Direction and Control).

Congressional Relevance: House Committee on The Judiciary; Senate Committee on The Judiciary; House Appropriations Committee: Commerce, Justice, State, The Judiciary and Related Agencies Subcommittee; Senate Appropriations Committee: Commerce, Justice, State and Judiciary Subcommittee.

Authority: Crimes and Criminal Procedure, as amended (P.L. 80-772, as amended by P.L. 90-371; 62 Stat. 849; 18 U.S.C. 4041-4042).

Availability: Agency; Internal Use Only.

Geographic Relevance: Bureau of Prisons Central and Regional Offices.

Purpose: The purpose of the system is to record summary entries of legal cases now in process at the Bureau of Prisons. This enables a complete inventory and improved scheduling of events for cases. Sentry is the system, the Legal Litigation Tracking System is the subsystem. The Legal Litigation System was implemented in September 1983 and records summary entries for all active litigation cases. **Input:** Bureau of Prisons central office and regional office attorneys record summary entries for active litigation cases and update them as the litigations are completed. **Output:** Output includes on-line retrievals and searches of litigation cases. Events can be tracked, monitored, and scheduled as needed. A three-line screen summary is retrievable by topic/subtopic, dates, court of jurisdiction, parties, or type of entry.

Agency Contact: Bureau of Prisons. (202) 724-3065.

Immigration and Naturalization Service

S00809-001

Immigration and Naturalization Service Statistical Reporting System (ISRS).

01/01/84

OMB Funding Code/Title: 15-1217-0-1-751 / Salaries and expenses.

Program: Inspections; Adjudications; Citizenship; Aliens Excluded.

Congressional Relevance: House Committee on The Judiciary; Senate Committee on The Judiciary; House Appropriations Committee: Commerce, Justice, State, The Judiciary and Related Agencies Subcommittee; Senate Appropriations Committee: Commerce, Justice, State and Judiciary Subcommittee.

Authority: Department of Commerce Organic Act (P.L. 51-343).

Availability: GPO; Agency.

Geographic Relevance: National; State.

Purpose: This service is required by section 347 of the Immigration and Naturalization Act to collect and to report statistical information concerning immigration and naturalization activity. The Statistical Reporting System meets the requirements of law and provides useful statistical information for management's decisions in operations, personnel, and the budget. Information that is generated is used internally and externally by the government agencies, embassies, the Congress, industry, labor groups, students, scholars, and the general public. The system tracks the number of immigrants or nonimmigrants admitted to the United States each year (statistics begin with 1820) by country of birth, by permanent residence; by sex, age, and marital status; by race and major occupation group; by major ports of entry; by class of admission; and by state of intended residence and foreign state of charge. Persons who derive citizenship or who become naturalized are tracked by district, sex, age, marital status, occupation, city or state of residence, by nationality, and other categories. Crewmen who are shown by nationality, foreign flag, port, and type of destination. Citizens expatriated are listed by grounds (cause). Aliens deported are required to depart are tabulated by charge, by nationality, status, and year entered, country deported to, and other categories. Some publications are monthly or quarterly; others, annually. **Input:** Input consists of statistical information collected service-wide. **Output:** All publications are quarterly computer printouts are produced on immigrants, nonimmigrants, persons naturalized, derivative citizenship, deportations, required departures and crewmen deserted; yearly printouts are on U.S. citizens expatriated and aliens excluded. Most of the publications are printed in table form and are published annually in the INS Statistical Report. Some tapes are available by special arrangement. Computer processing inquiries, excluding analysis, is good.

S00809-002*Work Measurement Report System.***OMB Funding Code/Title:** 15-1217-0-1-751 / Salaries and expenses**Program:** Inspections, Border Patrol, Adjudications, Naturalization, I and N Records, Detention and Deportation, Investigations, General Administration**Congressional Relevance:** *House* Committee on The Judiciary; *Senate* Committee on The Judiciary; *House* Appropriations Committee: Commerce, Justice, State, The Judiciary and Related Agencies Subcommittee; *Senate* Appropriations Committee: Commerce, Justice, State and Judiciary Subcommittee**Authority:** Department of Commerce Organic Act (P.L. 57-87).**Availability:** Agency**Geographic Relevance:** International/Foreign; National**Purpose:** The system is a collection of comprehensive operational statistics which measure the various activities of the service. The report provides information to program managers for use in evaluating programs and allocating resources more efficiently. The report contains data on eight activities of the Service, i.e., Examinations (Inspections and Adjudications); Hearings before Immigration Judge; Detention and Deportation; Nationality; Border Patrol; Investigations, Trial Attorney Work; and Administration. Under each activity is a description of the work unit. The work units are reported in status categories, e.g., received, completed, pending. Man-hours are also reported under each activity as productive and nonproductive and, where relevant, shown for specific work units with an hours per unit average. The reports are prepared by the field, which is divided into 4 regions of the United States that include 38 district offices and 22 Border Patrol sector headquarters. The district offices have jurisdiction over varying numbers of suboffices as do the sector headquarters have jurisdiction over varying numbers of Border Patrol stations. Three district offices are located outside the United States. The data are reported at monthly increments and consolidated on a semiannual and fiscal year basis. Further consolidations are made at regional and Service-wide levels. **Input:** The report is produced by counting, recording, and reporting work units and man-hours used in the performance of most activities of the Service. The data are collected from daily activity and time reports maintained by individual employees and from various work unit control cards and other appropriate records. **Output:** Handwritten statistical reports are prepared monthly, semiannually, and annually; they summarize field operations by district, sector, region, and Service-wide. Reports are reproduced and distributed internally. The system is manual, and query capability is limited.**Agency Contact:** Immigration and Naturalization Service. (202) 633-3182.**S00809-003***Immigration and Naturalization Service Financial Accounting Control System (FACS).***OMB Funding Code/Title:** 15-1217-0-1-751 / Salaries and expenses**Program:** General Administration**Congressional Relevance:** *House* Committee on The Judiciary; *Senate* Committee on The Judiciary; *House* Appropriations Committee: Commerce, Justice, State, The Judiciary and Related Agencies Subcommittee; *Senate* Appropriations Committee: Commerce, Justice, State and Judiciary Subcommittee**Authority:** Department of Commerce Organic Act (P.L. 57-87).**Availability:** Agency**Geographic Relevance:** Regional**Purpose:** Accounting systems for federal agencies are required under 31 U.S.C. 66a. The Immigration and Naturalization Service Accounting System (INSAS) meets this requirement and was approved by the Comptroller General of the United States on April 18, 1967. The major functions of the INSAS are to provide 1) full disclosure of the financial results of the Agency's activities; 2) effective control over all funds, property, and other assets for which the Agency is responsible; 3) the basis for budget preparation and execution; and 4) selected data in support of accounting and management responsibilities of other agencies of the government. The coverage of the INSAS is Service-wide, and all financial transactions affecting the financial position of the Service flow through the system. Users of Internal reports produced from the system are the executives and financial management and budget personnel ofINS. Users of external reports produced from the system include the Office of Management and Budget and the Departments of Justice and of the Treasury. The records consist of the system input documentation and ledger accounts reflecting monetary results of financial transactions classified as to resources, liabilities, and government equity, and income and expenses for the current fiscal year. The ledger accounts also reflect the current status of the appropriation under classifications of amounts available for obligation, amounts obligated for future expenditure, and amounts expended. The FACS contains audit trails to facilitate analysis and verification of account balances. **Input:** After input into the system of appropriation variants from the Department of the Treasury and appropriations of the appropriation from the Office of Management and Budget, the data consist of advices of obligation authority issued by INS management, documents evidencing financial transactions with vendors and vendees of goods and services, and documents evidencing the value of goods and services consumed. **Output:** Reports reflect financial condition, financial results of operations, status of the appropriation, and selective financial data. Output is generated monthly. The format is uniform on standard forms or on INS forms.**Agency Contact:** Immigration and Naturalization Service. Deportable Alien Control System/Legal Tracking System (DACSLTS)

OMB Funding Code/Title: 15-1217-0-1-751 / Salaries and expenses

Program: Immigration Support (Data and Communications Systems)

Congressional Relevance: House Committee on The Judiciary; Senate Committee on The Judiciary; House Appropriations Committee: Commerce, Justice, State, The Judiciary and Related Agencies Subcommittee; Senate Appropriations Committee: Commerce, Justice, State and Judiciary Subcommittee

Authority: Immigration and Nationality Act, as amended (P.L. 82-414, title II, § 261, 290, as amended by P.L. 97-116, § 11; 66 Stat. 223, 234; 8 U.S.C. 1360; 8 U.S.C. 1301 et seq.).

Availability: Agency

Purpose: A system of control over apprehended aliens is necessary to insure prompt and just process under the Immigration and Nationality Act. This system will insure that deportable aliens' removal from the United States is effected promptly. The system will track the progress of the cases, and make available to the alien and attorneys, essential information such as charge, amount of bond, hearing date, etc. The Legal

Tracking system will provide the capability to monitor the legal status of each case and to produce reminders concerning upcoming hearings or actions in the process. **Input:** Docket control data comprises the major source of input to this activity. This information is currently contained in various forms. The legal system will have another input form specifying the actions that took place at the hearing. **Output:** Output will consist of computer generated letters, reports, managerial and statistical reports, and forms.

Drug Enforcement Administration

S00810-001

Automated Reports and Consummated Order System (ARCOS) and Diversion Analysis and Detection System (DADS).

1975

OMB Funding Code/Title: 15-1100-0-1-751 / Salaries and expenses

Program: Law Enforcement--Compliance and Regulation

Congressional Relevance: House Committee on Energy and Commerce; Senate Committee on The Judiciary; House Appropriations Committee: Commerce, Justice, State, The Judiciary and Related Agencies Subcommittee; Senate Appropriations Committee: Commerce, Justice, State and Judiciary Subcommittee

Authority: Controlled Substances Act, as amended (P.L. 93-481; 28 U.S.C. 31); Controlled Substances Import and Export Act, as amended (P.L. 91-513; 21 U.S.C. 1304).

Availability: Internal Use Only

Purpose: The systems are to produce comprehensive and accurate U.N. reports on narcotic drugs, provide data to establish reasonable manufacturing quotas for Schedule II drugs, and provide leads to Compliance investigators and facilitate their routine investigations of firms. This automated system provides for the audit of drug inventory transactions which are originated by manufacturers, distributors, importers, and exporters of certain substances. There are approximately 2,300 companies registered to handle controlled substances who are required to report to DEA on a calendar-quarter basis. The reportable transactions consist of sales and purchases as well as other activities. ARCOS provides a government capability to maintain a current inventory of selected controlled substances from point of import or manufacture to point of sale, distribution, export, or other disposition to the dispensing (consumption) level. To accomplish this mission, ARCOS accumulates data by means of individual transactions in a single, standard ARCOS Transaction input format. The ARCOS master record contains CSA Registration Numbers for all reporters and the quantities they handle and the dates that all transactions occur. The Diversion Detection Analysis System (DADS) provides intelligence related to actual and potential diversion of controlled substances from the legitimate distribution system and drug inventory statistical information. **Input:** The data are obtained from reporting manufacturers, distributors, importers, and exporters of certain substances which have been declared by federal law as controlled substances. **Output:** 1) Error and discrepancy reports will automatically be sent to registrants and/or DEA regional Compliance Offices on those whose inventories do not "balance." 2) Controlled Substances Usage and Inventory by Schedule will show inventory of all reportable substances for type B registrants and the amount of usage (purchased by type A registrant by drug within schedule).

Agency Contact: Drug Enforcement Administration. (202) 633-1316.

Drug Abuse Warning Network (Project DAWN).
03/73

OMB Funding Code/Title: 15-1100-0-1-751 / Salaries and expenses

Program: Research and Development

Congressional Relevance: *House* Committee on Energy and Commerce; *Senate* Committee on The Judiciary; *House* Appropriations Committee: Commerce, Justice, State, The Judiciary and Related Agencies Subcommittee; *Senate* Appropriations Committee: Commerce, Justice, State and Judiciary Subcommittee

Authority: Controlled Substances Act, as amended (P.L. 93-481; 28 U.S.C. 31).

Availability: Agency

Purpose: The network was originated by DEA in 1972, under section 201 of the Comprehensive Drug Abuse Prevention and Control Act of 1970 and now cosponsored by DEA and NIDA is a nationwide system for collecting and reporting drug abuse statistics. Its purposes include the identification of drugs and substances associated with abuse, the provision of data for control and scheduling, the assessment of the health hazards associated with drug use, and provision of data for program planning. The drug abuse statistics consist of 18 data elements relating to the facility reporting, the person involved, and the drug(s) abused. No individual patient identification is possible since no patients' names or identifiers are collected. The data elements collected are age, race, sex, employment, reason for taking drug, reason for contact, disposition, name(s), dosage form, route of administration, source of drugs, means of identification of drugs, and patient's clinical status. Other information relating to the cause and manner of death is reported by medical examiners. The published reports represent tabulations of these data elements on a monthly basis along with an analysis of the data. **Input:** The statistics collected and reported by DAWN are derived from reports of drug abuse episodes submitted by over 900 hospital emergency rooms, medical examiners, and crisis intervention centers located throughout the United States. Collection, processing, analysis, and reporting is done for the government under a contract awarded to IMS America of Ambler, PA. **Output:** Output includes an annual final report for each phase of the contract (hardcopy), quarterly report (hardcopy), monthly statistical summary (hardcopy), monthly tabulations and reports (microfiche), special computer printouts (hardcopy), and updated computer tape (monthly). Terminals at DEA and NIDA access tape directly. A main data bank is maintained by the contractor at Ambler, PA.

S00810-008

Federal Drug Removals.

1971

OMB Funding Code/Title: 15-1100-0-1-751 / Salaries and expenses

Program: Salaries and Expenses (All Programs)

Congressional Relevance: *House* Committee on Energy and Commerce; *Senate* Committee on The Judiciary; *House* Appropriations Committee: Commerce, Justice, State, The Judiciary and Related Agencies Subcommittee; *Senate* Appropriations Committee: Commerce, Justice, State and Judiciary Subcommittee

Authority: Controlled Substances Act, as amended (P.L. 93-481; 28 U.S.C. 31).

Availability: Agency

Purpose: The system is designed to provide information regarding the weight and volume of illicit drugs removed through DEA and federal enforcement activities. Drug removal information is aggregated quarterly by type of drug, agency of origin, on a national basis, and by DEA

DEA/cooperative removals were analyzed in DEA laboratories. **Output:** Drug removals are reported quarterly in the DEA Statistical Report. Query capability for the system exists. Drug removals are available for all geographic subdivisions of the DEA organization. Data at this level are routinely used for internal DEA management requirements.

Agency Contact: Drug Enforcement Administration (202) 633-1263.

S00810-008

Drug Enforcement Agency Heroin and Cocaine Retail Price/Purity Index.
09/75

OMB Funding Code/Title: 15-1100-0-1-751 / Salaries and expenses

Program: Salaries and Expenses (All Programs)

Congressional Relevance: *House* Committee on Energy and Commerce; *Senate* Committee on The Judiciary; *House* Appropriations Committee: Commerce, Justice, State, The Judiciary and Related Agencies Subcommittee; *Senate* Appropriations Committee: Commerce, Justice, State and Judiciary Subcommittee

Authority: Controlled Substances Act, as amended (P.L. 93-481; 28 U.S.C. 31).

Availability: Agency

Geographic Relevance: National; State; selected metropolitan area

Purpose: The index was developed to monitor the relative availability of illicit narcotics by measuring the retail price and purity of heroin and cocaine available to users and provide trends for measuring the changes in the illicit drug supply over an extended time period. The heroin and cocaine retail purity index is computed on a quarterly basis. The data reflect an average purity expressed in percentage terms and an average dollar price for a pure milligram of heroin and cocaine. The data are computed on a national basis and by geographic region. They are also accessible for certain selected metropolitan areas. **Input:** The data source is an automated drug evidence retrieval system. All heroin and cocaine analyses performed in DEA forensic laboratories are available through this system. A selection criteria is imposed upon these data, so that only samples meeting the standard of a "retail" purchase form part of the final computation. **Output:** The following reports are available quarterly in hardcopy (available to public) or published along with analysis in the DEA Performance Measurement Report (PMS): Illicit Drug Situation; The Quarterly White House Drug Briefing Report: Heroin; The DEA Statistical Report: Illicit Drug Price/Purity Index. There is query capability for selected metropolitan areas.

Agency Contact: Drug Enforcement Administration. (202) 633-5206.

S00810-009

Drug Thefts.

01/74

OMB Funding Code/Title: 15-1100-0-1-751 / Salaries and expenses

Program: Salaries and Expenses (All Programs)

Congressional Relevance: *House* Committee on Energy and Commerce; *Senate* Committee on The Judiciary; *House* Appropriations Committee: Commerce, Justice, State, The Judiciary and Related Agencies Subcommittee; *Senate* Appropriations Committee: Commerce, Justice, State and Judiciary Subcommittee

Authority: Controlled Substances Act, as amended (P.L. 93-481; 28 U.S.C. 31).

Availability: Agency

Geographic Relevance: State; DEA administrative region

Purpose: This system is to provide data on the total volume of narcotics and dangerous drugs entering the illicit market through theft from licensed handlers, and to identify, for intelligence purposes, those areas experiencing the most severe problems in terms of retail pharmacy larcenies. Each record identifies the quantity of drugs stolen by class and dosage unit, type of firm, type of theft, and geographic location. The data are aggregated for reporting purposes by state and DEA administrative region. **Input:** The data are derived from mandatory reports submitted by all legitimate handlers of controlled substances who experience theft or loss of narcotics or dangerous drugs. **Output:** Output

drug thefts by volume (both quarterly, biweekly, and monthly). A drug theft report by state and SMSA is produced monthly.
Agency Contact: Drug Enforcement Administration. (202) 633-1263.

S00810-010

Geo-Drug Enforcement Program (G-DEP).

03/75

OMB Funding Code/Title: 15-1100-0-1-751 / Salaries and expenses

Program: Intelligence

Congressional Relevance: *House Committee on Energy and Commerce, Senate Committee on The Judiciary; House Appropriations Committee: Commerce, Justice, State, The Judiciary and Related Agencies Subcommittee; Senate Appropriations Committee: Commerce, Justice, State and Judiciary Subcommittee*

Authority: Controlled Substances Act, as amended (P.L. 93-481; 28 U.S.C. 31).

Availability: Internal Use Only

Purpose: This is a system of definitions and procedures for the classification, reporting, and compilation of the significant elements of the drug trafficking environment in terms of the relative importance of targeted drug violators and their organizations, the major drug involved, general location, selected investigative resources expended, and the direct results of the effort in terms of arrests and drug seizures. This system provides information to support establishment of investigative priorities and management of the enforcement effort. The data reflect DEA worldwide investigative activities by DEA regions and total DEA. The compilation reflects statistics on domestic arrests and foreign cooperative arrests by level of investigation by drug and violator class, domestic drug removals and seizures in foreign cooperative cases, expenditures for purchase of information and evidence, and manpower utilization.
Input: The input is internal, and the source documents are submitted routinely within the case reporting framework of the Investigative Reporting and Filing System and monthly progress reporting. The data are extracted at DEA headquarters from personal history reports on arrestees; vouchers for payments for information or purchase of evidence; the System to Retrieve Information from Drug Evidence (STRIDE) for domestic drug removals and cooperative/seizure reports from DEA foreign regions; and office monthly work-hour summaries for investigative time expended. **Output:** The principal output is the "Geo-Drug Enforcement Program--Quarterly Statistics" in hardcopy.

Agency Contact: Drug Enforcement Administration. (202) 633-1181.

S00810-011

System to Retrieve Information from Drug Evidence (STRIDE).

1971

OMB Funding Code/Title: 15-1100-0-1-751 / Salaries and expenses

Program: Law Enforcement--Criminal Enforcement

Congressional Relevance: *House Committee on Energy and Commerce; Senate Committee on The Judiciary; House Appropriations Committee: Commerce, Justice, State, The Judiciary and Related Agencies Subcommittee; Senate Appropriations Committee: Commerce, Justice, State and Judiciary Subcommittee*

Authority: Controlled Substances Act, as amended (P.L. 93-481; 28 U.S.C. 31).

Availability: Internal Use Only

Geographic Relevance: International/Foreign; National; State; Congressional District; regional

Purpose: STRIDE was established to provide data resulting from forensic examination of drug evidence for tactical and strategic intelligence use as well as planning and management purposes. The system is used to detect the early appearance of new drugs, to collect data to determine the extent and trends of abuse, and to detect unusual occurrences and other matter of drug intelligence. This report also furnishes data for statistical analysis which will be used for planning, programming, and budgeting. STRIDE is a system of computer programs. It consists of three subsystems--Manpower Utilization, Laboratory Analysis, and the Ballistics programs. The Manpower Utilization program is used by the Forensic Sciences Division as a management information system. The Laboratory Analysis program is based on the fact that when a DEA forensic chemist analyzes drug evidence, he not only identifies the controlled substances present, but identifies other constituents

and capsules. These data, with information supplied by the submitting officer, are fed into a computer. They can be retrieved for intelligence and other purposes. **Input:** The data are derived from the forensic analysis of drug evidence throughout the DEA laboratory system. The data are input via computer terminals located in each laboratory. **Output:** The system is available for queries at any time. Output is produced monthly and quarterly. The monthly reports are: Regional Laboratory Drug Analysis, Nationwide Laboratory Drug Analysis, Nationwide Number and Time of Analysis by Drug Category, Suspected vs. Identified Drugs, and Presumptive Manufacturer. The quarterly reports are: Laboratory Manpower Expenditures, Quarterly Drugs, Number of Drugs Analyzed by State, Percentage of Exhibits by State, Country, Drug Category, and Agency; Quarterly Drugs Collected by District; Evidence Turnaround Time, Drug Occurrences by Potency, and Nationwide and Regional Consolidated Drug Removals. On-line query capability is available to the Ballistics Intelligence Tables System (BITS).

Authority: Controlled Substances Act, as amended (P.L. 93-481; 28 U.S.C. 31).

Availability: Internal Use Only

Purpose: EPIC is a multiagency intelligence center (DEA, INS, Customs, ATF, IRS, Coast Guard, FBI, and FAA) located on the United States/Mexican border. It provides direct support to U.S. federal and state enforcement agencies on a 24-hour, 7-day-a-week schedule. Service is primarily a watch function that is supported by the EPIC Lookout System, as well as by member agencies' systems accessed by EPIC. This system is designed to facilitate identification and interdiction of narcotics traffickers and their instruments. Stress is on biographic identifiers for violators and their associates; and identifiers for vessels, aircraft, cars, trucks, weapons, and patterns involved in narcotics traffic. Geographic focus is on movement of drugs over the United States border plus support to missions of participating and associated member agencies. **Input:** Input is derived from investigative reporting from DEA and other federal, state, and local enforcement agencies. **Output:** Output includes direct response by phone, cable, or letter to queries from field investigators, both federal and local, on a 24-hour, 7-day schedule; EPIC Weekly Brief; and special reports requested by watch agencies.

Drug Enforcement Agency Accounting System (DEAAS) II.
11/78

OMB Funding Code/Title: 15-1100-0-1-751 / Salaries and expenses

Program: Salaries and Expenses (All Programs)

Congressional Relevance: *House Committee on Energy and Commerce, Senate Committee on The Judiciary, House Appropriations Committee: Commerce, Justice, State, The Judiciary and Related Agencies Subcommittee; Senate Appropriations Committee: Commerce, Justice, State and Judiciary Subcommittee*

Authority: Controlled Substances Act, as amended (P.L. 93-481; 28 U.S.C. 31).

Availability: Internal Use Only

Purpose: The system was developed to control and account for all DEA funds, obligations, expenditures, costs, and revenues for which DEA program managers are responsible; generate financial reports to meet internal needs and external requirements; and provide a basis for developing and reporting costs in accordance with programs, budget activities, MBO mission elements/program objectives, special projects, and organization cost centers. The system is administratively, incorporating budget and financial data of domestic regions, foreign regions, laboratories, intelligence center, aircraft section, and headquarters activities. The system operates on a lifetime frame basis. The input subsystem operates daily, the file maintenance on a twice-a-week basis, and the reports subsystem on a weekly and monthly basis. **Input:** Information is derived from basic documents such as allotment advices, operating plans, payroll data files, obligation documents, receipts documents, accrual documents, reimbursement agreements, manpower activity reports, and expenditures/disbursement documents. **Output:** The three types of reports are: 1) Control reports (daily)--support monitoring system input and process to ensure financial data reliability and to provide basic system audit trails; 2) financial management information reports (weekly, monthly)--provide basic accounting records and financially-oriented reports in the direct support of DEA management and administrative activities (i.e., status of funds, travel advance balances, general ledger, and related subsidiaries, cost reports, etc.); and 3) external reports (monthly, quarterly, annually)--provide externally specified reports (i.e., report on budget execution, report on obligations, statement of transactions, FIXS, etc.).

Agency Contact: Drug Enforcement Administration. (202) 633-1020.

S00810-016

Investigative Reporting and Filing System.
03/73

OMB Funding Code/Title: 15-1100-0-1-751 / Salaries and expenses

Program: Law Enforcement--Criminal Enforcement

Congressional Relevance: *House Committee on Energy and Commerce; Senate Committee on The Judiciary, House Appropriations Committee: Commerce, Justice, State, The Judiciary and Related Agencies Subcommittee; Senate Appropriations Committee: Commerce, Justice, State and Judiciary Subcommittee*

Authority: Controlled Substances Act, as amended (P.L. 93-481; 28 U.S.C. 31).

Availability: Internal Use Only

Purpose: The system encompasses the prescribed documentation of DEA drug investigative activities. The manual document files contain reports of drug investigative activities and the results prepared by DEA Special Agents, drug intelligence reports on drug-related matters prepared by intelligence analysts for support of enforcement efforts, and drug-related reports and documents received from other law enforcement agencies. The reports deal with violations and/or possible violations of the Controlled effort expended to suppress the traffic in illicit

drugs. The scope of the documentation is worldwide. The reports required are prepared and submitted within prescribed timeframes subsequent to the investigative activity, in the occurrence, depending on the nature of the matter involved. The reports in general address the details of the investigative activity or information obtained and the identity of known suspected drug violators, potential witnesses, and in some instances persons knowledgeable about the offense or a related occurrence as a matter of fact but not implicated. The automated index record (NADDIS) contains names, associated file references, basic identifying information, and selected investigative data elements to assist the on-line or off-line user to discriminate between records for operational and intelligence retrieval purposes. The manual reports comprise the source of the NADDIS data. NADDIS is updated upon receipt of the report in DEA headquarters. **Input:** The investigative data consist of reports prepared by DEA Special Agents and intelligence analysts covering drug enforcement activities and the results, and pertinent drug-related reports obtained from other law enforcement agencies. These reports comprise the data source for the NADDIS index component. **Output:** The reports of investigation and related material contained in these files are retrieved and reviewed for further intelligence and investigative use.

Availability: Internal Use Only

Geographic Relevance: International/Foreign; National

Purpose: The program was established to provide a data base of information on geographic sources of heroin. This system is to match the chemical elements of questioned heroin exhibits against known exhibits and classify the questioned exhibits as to source and produce various reports for use in tracking heroin in the U.S. market from its source. The records consist of the results of chemical analyses of heroin exhibits conducted by DEA laboratories. The exhibits are obtained from domestic seizures and international seizures of heroin. The elements of exhibits of unknown source are matched against exhibits of known source and classified on the basis of the results of the match. **Input:** The data are derived from chemical analyses of heroin exhibits conducted by DEA laboratories. **Output:** A quarterly report is prepared showing the sources supplying the U.S. heroin market nationally and the percentage represented by each source. Periodic reports of a sectional nature are prepared on request.

Administrative Accounting System (AAS). (F114).

OMB Funding Code/Title: 15-0400-0-1-754 / Law enforcement assistance; 15-0401-0-1-754 / Justice assistance; 15-4169-0-3-754 / Revolving fund

Program: Administrative Services, OJARS; Justice Statistical Programs; Antifencing Operations

Congressional Relevance: House Committee on The Judiciary; Senate Committee on The Judiciary; House Appropriations Committee: Commerce, Justice, State, The Judiciary and Related Agencies Subcommittee; Senate Appropriations Committee: Commerce, Justice, State and Judiciary Subcommittee

Authority: Omnibus Crime Control and Safe Streets Act of 1968 (P.L. 90-351; 82 Stat. 198; 42 U.S.C. 3711). Omnibus Crime Control and Safe Streets Act of 1973 (P.L. 93-83, § 402, as amended by P.L. 96-509; 87

Stat. 1701; 42 U.S.C. 3711). Omnibus Crime Control and Safe Streets Act of 1973 (P.L. 93-83, § 402, as amended by P.L. 96-509; 87

Purpose: The ADP component of the LEAA Financial Management System, this system integrates the budgetary, cost proprietary accounts, and related subsidiary ledgers to produce records and reports which meet the internal and external reporting requirements of the Agency. The system is a GAO-approved accrual-based accounting system. The automated system consists of three systems. 1) Grants Subsystem--processes reports that relate to grants-in-aid to state and local governments; 2) Transaction Subsystem--is the focal point for processing all accounting transactions; and 3) Reports Subsystem--produces a wide variety of internal and external reports used for control, accounting, operations, and management. Various portions of the system are run daily, weekly, monthly, and annually. **Input:** The system processes all Agency financial transactions including grants, contracts, interagency agreements, purchase orders, travel vouchers, and payroll. **Output:** The reports are financial types, produced in hardcopy and on microfiche. The format varies depending on the purpose of the form. The system has no query capability but is easily accessed via report generator software.

Authority: Omnibus Crime Control and Safe Streets Act of 1968 (P.L. 90-351; 82 Stat. 198; 42 U.S.C. 3711). Omnibus Crime Control and Safe Streets Act of 1973 (P.L. 93-83, § 402; 87 Stat. 197; 42 U.S.C. 3701). Juvenile Justice and Delinquency Prevention Act of 1973 (P.L. 93-415, § 102; 42 U.S.C. 5601). Omnibus Crime Control and Safe Streets Act of 1976 (P.L. 94-503; 90 Stat. 2406; 42 U.S.C. 3701).

Availability: Agency

Geographic Relevance: State; (SMSA) Standard Metropolitan Statistical Area; Congressional District; County; City

Purpose: The system was developed to provide comprehensive data describing grants, contracts, and interagency agreements awarded by the Law Enforcement Assistance Administration under the provisions of the Omnibus Crime Control and Safe Streets Act. LEAA provides technical assistance and federal grant funds to the states to assist them in combating crime at the local level. Hundreds of different types of projects are funded annually by LEAA. The main purpose of PROFILE is to provide timely and accurate data on these awards. Information for each project awarded includes project number, award amount, award date, project begin and end dates, recipient name and address, title of project, project description, and subjective keywords which allow retrieval on subject of award and criminal justice area affected. **Input:** The data are obtained from award documents of projects awarded for the various crime prevention projects. **Output:** Reports are produced upon request and include awards by fiscal year, location, and criminal justice component.

S00811-005

National Victims Resource Center (NVRC).

04/15/84

OMB Funding Code/Title: 15-0401-0-1-754 / Justice assistance

Program: Criminal Justice Statistical Programs

CFDA NO.: 16.550

Congressional Relevance: *House* Committee on The Judiciary; *Senate* Committee on The Judiciary; *House* Appropriations Committee; Commerce, Justice, State, The Judiciary and Related Agencies Subcommittee; *Senate* Appropriations Committee; Commerce, Justice, State and Judiciary Subcommittee

Authority: Omnibus Crime Control and Safe Streets Act of 1968, as amended (P.L. 90-351, title I, § 101, as amended by P.L. 96-157, § 2; 82 Stat. 198, 42 U.S.C. 3711 et seq.) (Executive Order 12360)

Availability: Agency

Geographic Relevance: National; State; Local

Purpose: The President's Task Force on Victims of Crime, in its December 1982 report, recommended the establishment of National Victims Resource Center. Specifically, the Task Force report called for a federally based resource center that would serve as a national clearinghouse of information on victim assistance and compensation programs and victim advocacy organizations, function as a liaison to public and private organizations that assist crime victims, and operate as a reference point for those seeking current information on state victim compensation programs and other victim-related legislation and victim services. **Input:** The Center works through a network of public and private organizations at the national, state, and local level that promote or operate victim assistance programs. **Output:** The Center maintains a computerized national program data base containing descriptions of all types of victim assistance programs throughout the country. A legislative data base has been developed to track pending and enacted legislation on victim assistance and compensation programs. It also collects and makes available literature--books, articles, reports, and audiovisual materials.

500811-008

Centralized Automated Inventory Accountability System (CAIAS).

OMB Funding Code/Title: 15-100-0-1-751 / Salaries and expenses

Program: Program Direction (Administrative Services)

Congressional Relevance: *House* Committee on The Judiciary; *Senate* Committee on The Judiciary; *House* Appropriations Committee; Commerce, Justice, State, The Judiciary and Related Agencies Subcommittee; *Senate* Appropriations Committee; Commerce, Justice, State and Judiciary Subcommittee

Authority: Comprehensive Drug Abuse Prevention and Control Act of 1970 (P.L. 91-513, title II, § 501, 84 Stat. 1270, 21 U.S.C. 871).

Availability: Internal Use Only

Purpose: The content is an accountability for personal property, the agency's property, and contractor held property. Four main master files are required by the system: (1) inventory master; (2) address master; (3) item code master; and (4) subsidiary ledger master. The four subsystems are: (1) the item code processing module; (2) the address master processing module; (3) the inventory processing module; and (4) the subsidiary ledger accounting module. These reports are generated on a monthly basis. **Input:** Input consists of coding sheets generated by the Administrative Services Division. **Output:** Output consists of pre-edit and edit (generated monthly), update (generated monthly), monthly (generated monthly), and quarterly (generated quarterly) reports. The various types of formats include reports run by document, address, and serial number.

Agency Contact: Office of Justice Assistance, Research, and Statistics. (202) 724-7728.

Authority: Comprehensive Drug Abuse Prevention and Control Act of 1970 (P.L. 91-513, title II, § 501; 84 Stat. 1270; 21 U.S.C. 871).

Availability: Agency

Purpose: This system transmits and processes all personnel actions. Individual employee files total 234 in number. **Input:** Input consists of in-

formation provided by individual offices. **Output:** Output consists of promotions, reassignments, transfers, and pay adjustments completed at least once a year.

Agency Contact: Office of Justice Assistance, Research, and Statistics. (202) 724-7728.

Parole Commission

500813-001

Parole Decision-Making History.

OMB Funding Code/Title: 15-1061-0-1-751 / Salaries and expenses

Program: Parole

Congressional Relevance: *House* Committee on The Judiciary; *Senate* Committee on The Judiciary; *House* Appropriations Committee; Commerce, Justice, State, The Judiciary and Related Agencies Subcommittee; *Senate* Appropriations Committee; Commerce, Justice, State and Judiciary Subcommittee

Authority: Parole Commission and Reorganization Act (P.L. 94-233, 90 Stat. 219; 18 U.S.C. 4204).

Availability: Agency

Geographic Relevance: National

Purpose: This system maintains a chronological history of the parole decisions made with regard to individual prisoners. This system serves as a data base for all statistical reports on the number and types of parole hearings and decisions and for monitoring the use of the Parole Commission's guidelines. The system contains cases from October 1974 to the present and is updated weekly. **Input:** Data for this system are received in batched code sheets from the Parole Commission's regional offices. **Output:** The system generates monthly reports on microfiche for use by the regions in determining the parole disposition of cases of codefendants. Data are used for preparing bimonthly statistical reports and for responding to requests for information.

Agency Contact: Parole Commission. (301) 492-5980.

500813-002

Labor/Pension Case, Legal File/General Correspondence System.

OMB Funding Code/Title: 15-1061-0-1-751 / Salaries and expenses

Program: Program Direction

Congressional Relevance: *House* Committee on The Judiciary; *Senate* Committee on The Judiciary; *House* Appropriations Committee; Commerce, Justice, State, The Judiciary and Related Agencies Subcommittee; *Senate* Appropriations Committee; Commerce, Justice, State and Judiciary Subcommittee

Authority: Parole Commission and Reorganization Act (P.L. 94-233, § 2; 90 Stat. 219; 18 U.S.C. 4201 et seq.).

Availability: Agency

Purpose: This system contains Parole Commission files in three general categories: (1) application of persons convicted of certain crimes for exemptions to allow their employment in the labor field or to come under an employee benefit plan; (2) work files for each inmate or parolee who is involved in litigation with the board; and (3) files of general correspondence, including queries from congressmen concerning their constituents. Final pension and labor case decisions are used by the Commission, the Justice and Labor Departments, and the public to establish precedents in this field of litigation. **Input:** Input consists of letters of general correspondence and work and pension documents. **Output:** Output includes labor, pension, and legal files.

Agency Contact: Parole Commission. (301) 492-5959.

500813-003

Parole Information System.

OMB Funding Code/Title: 15-1061-0-1-751 / Salaries and expenses

Program: Program Direction

Congressional Relevance: *House* Committee on The Judiciary; *Senate* Committee on The Judiciary; *House* Appropriations Committee; Commerce, Justice, State, The Judiciary and Related Agencies Subcommittee; *Senate* Appropriations Committee; Commerce, Justice, State and Judiciary Subcommittee

with Bureau of Prisons and U.S. Marshals Service systems to minimize redundant record keeping and data entry. It will include: (1) current location and status information on all individuals under the supervision of the Parole Commission; (2) information on inmate transfer between institutions; (3) co-defendant information prior to parole hearings or as required; and (4) automation of inputs, queries, and updates in the present manual inmate files. **Input:** Input consists of information on inmate status, including locator forms and parole decisions regarding co-defendants. **Output:** Output includes a case file for each inmate. **Agency Contact:** Parole Commission. (301) 492-5980

S00813-004

Parole Commission Reports

OMB Funding Code/Title: 15-1061-0-1-751 / Salaries and expenses
Program: Program Direction

Congressional Relevance: House Committee on The Judiciary; Senate Committee on The Judiciary; House Appropriations Committee: Commerce, Justice, State, The Judiciary and Related Agencies Subcommittee; Senate Appropriations Committee: Commerce, Justice, State and Judiciary Subcommittee

Authority: Parole Commission and Reorganization Act (P.L. 94-233, § 2; 90 Stat. 219; 18 U.S.C. 4201 et seq.).

Availability: Agency

Purpose: This will be a report subsystem of the Bureau of Prisons Inmate Information System. In addition to the reports on prisoner movement and status already being produced, it will also provide the Parole Commission with the ability to track an inmate along the rehabilitation path through contract community centers. **Input:** Input consists of locator documents and other information regarding inmate status. **Output:** Output includes a file tracking inmate location.

Agency Contact: Parole Commission. (301) 492-5980.

S00813-005

Docket, Scheduling, and Control

OMB Funding Code/Title: 15-1061-0-1-751 / Salaries and expenses
Program: Program Direction

Congressional Relevance: House Committee on The Judiciary; Senate Committee on The Judiciary; House Appropriations Committee: Commerce, Justice, State, The Judiciary and Related Agencies Subcommittee; Senate Appropriations Committee: Commerce, Justice, State and Judiciary Subcommittee

Authority: Parole Commission and Reorganization Act (P.L. 94-233, § 2; 90 Stat. 219; 18 U.S.C. 4201 et seq.).

Availability: Agency

Geographic Relevance: Regional

Purpose: This system provides each Parole Commission Region and the National Appeals Board with a cumulative series of docket sheets in time sequence showing Commission action on current and former inmates under the custody of the Attorney General who have become eligible for parole. In addition, the system contains hearing schedules for record reviews, parole hearings, and other hearings. Information is recorded on one-item-per-line sheets of paper and stored in folders or binders. An experimental program to store such data on tape, disk, or microfiche using automatic data processing technology is currently in operation. **Input:** Input consists of docket coding sheets. **Output:** Output includes a list of parole decisions by inmate.

Agency Contact: Parole Commission. (301) 492-5952.

S00813-008

Inmate and Supervision Files

OMB Funding Code/Title: 15-1061-0-1-751 / Salaries and expenses
Program: Program Direction

Congressional Relevance: House Committee on The Judiciary; Senate Committee on The Judiciary; House Appropriations Committee: Commerce, Justice, State, The Judiciary and Related Agencies Subcommittee; Senate Appropriations Committee: Commerce, Justice, State and Judiciary Subcommittee

Purpose: This system provides the data and processing for maintaining personal records on current and former inmates under supervision. This file is the working tool used by Parole Commission examiners to frame questions at the inmate's initial hearing, and as the principal information source for decisions necessary during the pre-release and post-release stages. This system will be incorporated into the automated Parole Information System. A summary sheet of information on each inmate's supervision file is also available on microfiche for easy reference. **Input:** Input consists of supervision documents. **Output:** Output includes a detailed record of corrective activity and inmate supervision. **Agency Contact:** Parole Commission. (301) 492-5952.

S00813-007

Parole Decision History System (PDHS)

OMB Funding Code/Title: 15-1061-0-1-751 / Salaries and expenses
Program: Program Direction

Congressional Relevance: House Committee on The Judiciary; Senate Committee on The Judiciary; House Appropriations Committee: Commerce, Justice, State, The Judiciary and Related Agencies Subcommittee; Senate Appropriations Committee: Commerce, Justice, State and Judiciary Subcommittee

Authority: Parole Commission and Reorganization Act (P.L. 94-233, § 2; 90 Stat. 219; 18 U.S.C. 4201 et seq.).

Availability: Agency

Purpose: This system includes a data base consisting of records of all individual paroling considerations, including hearings, appeals, reopenings, and reviews on the record. Each record contains approximately 40 items, including sentence parameters, for example, sentence length and type; parole decision parameters, for example, offense severity and salient factor score; and the results of the paroling consideration. Each record in the data base is identified by the Bureau of Prisons' register number so that records can be matched with automated records maintained by the Bureau of Prisons. The system includes a library of programs which provide a number of standard reports and a formatted listing of all records in the data base on microfiche. Major Parole Decision History system uses a codefendant equity, quality control, workload analysis, policy planning, and published reports and research. **Input:** Input consists of information regarding individual parole hearings, including sentence parameters, parole decision parameters, and resulting parole decision. **Output:** Output includes reports regarding codefendant equity, quality control, workload analysis, and issues related to parole. Other output is information for policy planning and published reports.

Agency Contact: Parole Commission (301) 492-5980

Parole Decision Making System (PDMS)

OMB Funding Code/Title: 15-1061-0-1-751 / Salaries and expenses
Program: Program Direction

Congressional Relevance: House Committee on The Judiciary; Senate Committee on The Judiciary; House Appropriations Committee: Commerce, Justice, State, The Judiciary and Related Agencies Subcommittee; Senate Appropriations Committee: Commerce, Justice, State and Judiciary Subcommittee

Authority: Parole Commission and Reorganization Act (P.L. 94-233, § 2; 90 Stat. 219; 18 U.S.C. 4201 et seq.).

Availability: Agency

Purpose: The Parole Decision Making System includes a research data base consisting of samples of prisoners released from federal custody (two in 1970, one in 1971, and one in 1978). Each record contains over 200 items concerning personal history and prior criminal record as well as data on criminal behavior during a specific period following release from federal custody (from 2 to 6 years). The system also includes a library of program modules designed to assist in statistical and scientific analysis of the data. The principle use of the Parole Decision Making System is for research on issues related to parole, including the development and refinement of the Commission's actuarial device for evaluating parole risk called the salient factor score. **Input:** Input consists of background information of sample parolees, including personal history, prior

criminal record, and parole violations. **Output:** Output includes statistical information regarding parole risk.

Agency Contact: Parole Commission. (301) 492-5980.

United States Marshals Service

S00814-003

Monthly Statistical Reporting System (USM-6). (USM-6).

OMB Funding Code/Title: 15-0322-0-1-752 / Salaries and expenses, United States Attorneys and Marshals, 15-0311-0-1-752 / Fees and expenses of witnesses

Program: Process Received for Service, Actual Arrests Made, Property Seizures Made, Prisoners Received, Fact Witnesses, Protection of Witnesses, Expert Witnesses

Congressional Relevance: *House* Committee on The Judiciary; *Senate* Committee on The Judiciary; *House* Appropriations Committee: Commerce, Justice, State, The Judiciary and Related Agencies Subcommittee; *Senate* Appropriations Committee: Commerce, Justice, State and Judiciary Subcommittee

Authority: Government Organization and Employees Act (P.L. 89-554, § 4; 80 Stat. 619; 28 U.S.C. 37)

Availability: Agency

Geographic Relevance: National

Purpose: USM-6 is intended to show the work of the entire district office pertaining to the following programs: process, warrants, process of prisoners, transport and movement of prisoners, personal security, witness security, collection and disbursement of funds, part-time employees, and special assignment. This system contains statistical data on process, warrants, process of prisoners, transport and movement of prisoners, personal security, witness security, collection and disbursement of funds, part-time employees, and special assignment programs. The process program consists of government-civil, government-criminal, private-civil, and private-criminal categories. The warrant program includes primary responsibility felony, other felony, misdemeanor, and traffic offense. The process of prisoner program contains data on adult male, adult female, and juvenile types. In transport and movement of prisoners, the emphasis is on prisoner trips, and number of prisoners moved. Personal security contains data on people afforded protection: judicial officers, jurors, U.S. Attorneys, witnesses, threats received, and other categories. Witness security data pertain to active or funded witnesses. Collection and disbursement of funds deals with different monetary transactions that take place within each specific district. Part-time employees data includes the number and type such as intermittent deputies, inmates, guards (hospital, jail, traveling), maritime keepers, and other. Special assignment covers special hours worked by personnel in and out of their own districts. **Input:** Source/system input comes from 94 USMS District Offices located within the United States or territories under U.S. jurisdiction. **Output:** The Monthly Statistical Report is a file workload activity, and provides a summary of the amounts of seizures, data on warrant activity, and information on prisoner responsibility activity. It is available in hardcopy and is produced quarterly, semiannually, and annually. The system's query capability varies.

Agency Contact: United States Marshals Service. (703) 285-1185.

S00814-004

Monthly Activity Report (USM-7 and USM-7A). (USM-7; USM-7A).

OMB Funding Code/Title: 15-0322-0-1-752 / Salaries and expenses, United States Attorneys and Marshals

Program: U.S. Marshals

Congressional Relevance: *House* Committee on The Judiciary; *Senate* Committee on The Judiciary; *House* Appropriations Committee: Commerce, Justice, State, The Judiciary and Related Agencies Subcommittee; *Senate* Appropriations Committee: Commerce, Justice, State and Judiciary Subcommittee

Authority: Government Organization and Employees Act (P.L. 89-554, § 4; 80 Stat. 619; 28 U.S.C. 37).

Availability: Agency

Geographic Relevance: National

Purpose: USM-7 and USM-7A provides a method for tracking all hours expended on the many programs assigned to the U.S. Marshals Service, aids top management in making decisions in properly utilizing manpower and dollar resources, and assists in justifying future budgetary requests to Congress and the Department. Data is entered into the system once a month. Normally, new data will be entered at the same time any updating takes place. **Input:** Input is comprised of hours expended by personnel in the U.S. Marshals Service. **Output:** Data obtained from the system should produce information that will help management make decisions regarding the best utilization of available resources.

Agency Contact: United States Marshals Service. (703) 285-1185.

S00814-005

Witness Security System (WITSEC).

1980

OMB Funding Code/Title: 15-0322-0-1-752 / Salaries and expenses, United States Attorneys and Marshals, 15-0311-0-1-752 / Fees and expenses of witnesses

Program: U.S. Marshals; Protection of Witnesses

Congressional Relevance: *House* Committee on The Judiciary; *Senate* Committee on The Judiciary; *House* Appropriations Committee: Commerce, Justice, State, The Judiciary and Related Agencies Subcommittee; *Senate* Appropriations Committee: Commerce, Justice, State and Judiciary Subcommittee

Authority: Government Organization and Employees Act (P.L. 89-554, § 4; 80 Stat. 619; 28 U.S.C. 37).
Availability: Internal Use Only
Geographic Relevance: National
Purpose: The WITSEC System was established to improve management control of the Witness Security Program. Data are maintained on all witnesses in the program, their location, services rendered, funds expended, medical condition, physical description, documentation provided, and employment assistance provided. **Input:** The data contained in this application are derived from pre-entrance interviews with the witness and subsequent interaction between the witness and United States Marshals Service employees servicing the case. **Output:** Major output is on an individual case basis by CRT display. Hardcopy financial reports will be produced on a monthly basis beginning FY 81. Hardcopy statistical reports are produced on demand.
Agency Contact: United States Marshals Service. (202) 285-1185.

S00814-008

Jail Contracting Management System (JCMS).
 06/82

OMB Funding Code/Title: 15-0322-0-1-752 / Salaries and expenses, United States Attorneys and Marshals
Program: U.S. Marshals (Executive Direction and Control)
Congressional Relevance: House Committee on The Judiciary; Senate Committee on The Judiciary; House Appropriations Committee: Commerce, Justice, State, The Judiciary and Related Agencies Subcommittee; Senate Appropriations Committee: Commerce, Justice, State and Judiciary Subcommittee
Authority: Government Organization and Employees Act (P.L. 89-554, § 4(c); 80 Stat. 619; 28 U.S.C. 561 et seq.).
Availability: Agency
Geographic Relevance: National
Purpose: The Jail Contracting Management System helps monitor the performance of approximately 800 contracts with local jails, as well as the financial aspects of these contracts. It contains/produces such information as costs and obligations, population trends, jail inspection data, etc. **Input:** Source data is obtained from jail surveys and inspection reports submitted by regional inspectors. **Output:** The Jail Contracting Management System produces hard copy reports on an as-requested basis on jail and cost information as well as allowing interactive file/record query.
Agency Contact: United States Marshals Service. (703) 285-1185.

S00814-007

National Asset Seizure and Forfeiture System (NASAF).

OMB Funding Code/Title: 15-0322-0-1-752 / Salaries and expenses, United States Attorneys and Marshals
Program: U.S. Marshals
Congressional Relevance: House Committee on The Judiciary; Senate Committee on The Judiciary; House Appropriations Committee: Commerce, Justice, State, The Judiciary and Related Agencies Subcommittee; Senate Appropriations Committee: Commerce, Justice, State and Judiciary Subcommittee
Authority: Government Organization and Employees Act, as amended (P.L. 89-554, § 4(c), as amended by P.L. 95-530, § 2; 80 Stat. 619; 28 U.S.C. 561 et seq.).
Availability: Agency
Geographic Relevance: National
Purpose: The National Asset Seizure and Forfeiture System will maintain a complete inventory of property seized by the government and placed in the custody of the U.S. Marshals Service. Initially, this will be all judicial seizures and administrative seizures made by the Federal Bureau of Investigation. The scope of the system is expected to eventually expand to cover administrative seizures made by all Department of Justice agencies. The system will also maintain a complete record of all funds expended to maintain and dispose of the property. **Input:** Input includes various administrative documents such as court orders. **Output:** Output includes inventory listings, summary reports on inventory items by category, and financial reports.
Agency Contact: United States Marshals Service. (703) 285-1185.

Executive Office for U.S. Attorneys

S00815-001

Prosecutors' Management Information System.

OMB Funding Code/Title: 15-0322-0-1-752 / Salaries and expenses, United States Attorneys and Marshals
Program: U.S. Attorneys
Congressional Relevance: House Committee on The Judiciary; Senate Committee on The Judiciary; House Appropriations Committee: Commerce, Justice, State, The Judiciary and Related Agencies Subcommittee; Senate Appropriations Committee: Commerce, Justice, State and Judiciary Subcommittee
Authority: Government Organization and Employees Act (P.L. 89-554; 80 Stat. 619; 28 U.S.C. 541 et seq.).
Availability: Agency; Internal Use Only
Geographic Relevance: Judicial Districts (9)
Purpose: PROMIS provides a method for tracking litigation through the Office of the U.S. Attorney, Washington, DC, from the arrest of a defendant to disposition of the case. It also furnishes an objective process for identifying serious crimes and recidivists and supplies the U. S. Attorney with information on the effect of policies and procedures initiated in his office. PROMIS creates an on-line master file of pending litigation which can be accessed by U. S. Attorney personnel. In addition, a prototype "mini-promis" system has been installed in United States Attorneys' Offices in San Diego and Newark during July and August 1980, respectively. This PROMIS version includes criminal, civil, and collections litigation information. Based upon results of an evaluation of this system, a determination will be made concerning the expansion of the system to additional United States Attorney's Offices. This system contains the defendant's history for other pending cases; status of cases, defendant's address, time, date, and charge. Data are obtained from the master file keyed into the system from pending litigation. **Input:** Source/system input is initial case paperwork; indictment list, sentencing, daily trial schedule, daily court action report; preliminary hearing calendar; grand jury disposition entries; misdemeanor calendar; breakdown cards and assignment cards. **Output:** The One Day Misdemeanor Calendar, the One Day Preliminary Hearing Calendar, the Misdemeanor Specially Assigned Cases, and the Felony Specially Assigned Cases are principal output.
Agency Contact: Executive Office for U.S. Attorneys. (202) 673-6379.

S00815-002

U.S. Attorney's Docket and Reporting System.

OMB Funding Code/Title: 15-0322-0-1-752 / Salaries and expenses, United States Attorneys and Marshals
Program: U.S. Attorneys
Congressional Relevance: House Committee on The Judiciary; Senate Committee on The Judiciary; House Appropriations Committee: Commerce, Justice, State, The Judiciary and Related Agencies Subcommittee; Senate Appropriations Committee: Commerce, Justice, State and Judiciary Subcommittee
Authority: Government Organization and Employees Act (P.L. 89-554; 80 Stat. 619; 28 U.S.C. 541 et seq.).
Availability: Agency
Geographic Relevance: National
Purpose: The system provides the Department with statistics on the workload of U.S. Attorneys to justify appropriations requests to the Congress and to supply information to enable the Department to control and govern the implementation of litigation policies by U.S. Attorneys. Record data include case number, subject name, offense, status changes, court docket number, prosecuting attorney, judge, fine or judgment amounts, and case milestone dates. The files are analyzed to produce the U.S. Attorneys Annual Statistical Report of Litigative and Collection Activities. **Input:** The data are derived from records pertaining to current criminal, civil, collections, and appellate cases pending in the U.S. Attorney's Office. **Output:** Printouts on all correct cases opened and closed during the month are produced.
Agency Contact: Executive Office for U.S. Attorneys. (202) 633-5631.

Program: U.S. Attorneys' Program; **Congressional Relevance:** *House Committee on The Judiciary; Senate Committee on The Judiciary; House Appropriations Committee: Commerce, Justice, State, The Judiciary and Related Agencies Subcommittee; Senate Appropriations Committee: Commerce, Justice, State and Judiciary Subcommittee*
Authority: Government Organization and Employees Act (P.L. 89-554, § 4(c), 80 Stat. 617, 28 U.S.C. 541 et seq.).
Availability: Agency
Purpose: The United States Attorneys' Prosecutors' Management Information System (PROMIS) is a case-tracking system utilized by individual U.S. Attorneys' Offices to track criminal, civil, and collections caseloads on either a computer or word-processing system. Case management information is used by assistant U.S. Attorneys to conduct investigations and litigation and by supervisors to monitor matters and cases. Caseload statistics are used to allocate resources and evaluate performance. Collections data provides for accounting control of the debt collections process. It maintains history of all case activities, creating case records, updating case status, establishing debts, and processing collections. File size varies depending upon the caseload of the individual districts. Installation of PROMIS in all U.S. Attorneys' Offices is now in progress. **Input:** Input will come from case files, court minute orders, agency claims, collections receipts, and other sources. **Output:** Output includes case related documents, calendars, case listings, statistical reports, and audit records of collections activities. Data extracts are also produced and sent to Washington to be used in the U.S. Attorneys' Docket and Reporting System. The extracts will eventually be fed into a central PROMIS system which will replace the U.S. Attorneys' Docket and Reporting System. The extracts are produced monthly. Production schedules for other outputs vary.
Agency Contact: Executive Office for U.S. Attorneys. (202) 673-6379.

Community Relations Service

S00816-001
Operational Data Information System (ODIS).
OMB Funding Code/Title: 15-0500-0-1-751 / Salaries and expenses, Community Relations Service
Program: Prevention and Conciliation of Community Disputes
CFOA NO.: 16 200
Congressional Relevance: *House Committee on The Judiciary; Senate Committee on The Judiciary; House Appropriations Committee: Commerce, Justice, State, The Judiciary and Related Agencies Subcommittee; Senate Appropriations Committee: Commerce, Justice, State and Judiciary Subcommittee*
Authority: Civil Rights Act of 1964 (P.L. 88-352, § 1002; 78 Stat. 267; 42 U.S.C. 2000g).
Availability: Internal Use Only
Geographic Relevance: National; State; City
Purpose: The Operational Data Information System was established in FY 80 to provide a process for recording, reporting, analyzing, and distributing data describing Community Relations Service (CRS) field performance in order to accomplish the goals and objectives of its mission, i.e., to provide assistance to communities in resolving disputes relating to discriminatory practices based on race, color, or national origin. The data collected provide a basis for operational oversight by Headquarters, program analysis, evaluation and development, and budget preparation. Each activity record contains information relating to project area, community size, dates of CRS field performance, descriptive information on communities involved, case entry/closure criteria, objectives, and other data necessary to provide insight into CRS field activities. **Input:** Information contained in the files is derived from CRS field reports submitted to Headquarters by each regional office daily and/or weekly in the form of progress reports of operations and special development reports. **Output:** Output in the form of CRT display and hardcopy includes weekly summaries of case progress, monthly printouts of operational statistics, daily summary of alerts and special developments, and quarterly review and analysis of operational data.
Agency Contact: Community Relations Service. (301) 492-5900.

OMB Funding Code/Title: 15-0129-0-1-751 / Salaries and expenses
Program: Program Direction and Policy Coordination
Congressional Relevance: *House Committee on The Judiciary; Senate Committee on The Judiciary; House Appropriations Committee: Commerce, Justice, State, The Judiciary and Related Agencies Subcommittee; Senate Appropriations Committee: Commerce, Justice, State and Judiciary Subcommittee*
Authority: Government Organization and Employees Act, as amended (P.L. 89-554, § 4(c), as amended by P.L. 95-251, § 2(a)(6); 80 Stat. 617, 28 U.S.C. 507, 509-510).
Availability: Internal Use Only
Purpose: The legislative manual file contains records to and from Congress, the Office of Legislative Affairs, other divisions of the Department of Justice, and sections within the Justice Management Division on proposed legislation. Included are any comments and suggestions from the time a bill is introduced until final enactment or disposition.
Agency Contact: Justice Management Division. (202) 633-2077.

S00818-002

National Criminal Justice Reference Service (NCJRS).
1972

OMB Funding Code/Title: 15-(401-0-1)-754 / Justice assistance
Program: Research, Evaluation, and Demonstration Programs
CFOA NO.: 16 507
Congressional Relevance: *House Committee on The Judiciary; Senate Committee on The Judiciary; House Appropriations Committee: Commerce, Justice, State, The Judiciary and Related Agencies Subcommittee; Senate Appropriations Committee: Commerce, Justice, State and Judiciary Subcommittee*
Authority: Omnibus Crime Control and Safe Streets Act of 1968 (P.L. 90-351, title 1, § 201-204, as amended by P.L. 96-157; 42 U.S.C. 3721-3724). Juvenile Justice and Delinquency Prevention Act of 1974 (P.L. 93-415, title 1, § 101, as amended by P.L. 96-509; 88 Stat. 142 U.S.C. 5601 et seq.). Omnibus Crime Control and Safe Streets Act of 1976 (P.L. 94-503; 90 Stat. 2406; 42 U.S.C. 3701)
Availability: Agency
Geographic Relevance: International/Foreign; National; State; City
Purpose: The service was established by the National Institute of Law Enforcement and Criminal Justice during fiscal year 1973 to collect, disseminate literature of interest to the Nation's law enforcement and criminal justice community. The integrated data base consists of files: 1) Documentation Data Base--information (bibliographic information, indexing terms, annotation, and abstract) on all active documents in the NCJRS information system; 2) User File--information on registered NCJRS users (name, address, classification, category, profile, and mailing list control data); 3) Selected Notification of Information (SNI) Statistics File--information on the extent to which users have used the SNI service; 4) Thesaurus File--a computer file representing the controlled list of descriptors and their structural interrelationships; 5) Document Retrieval Index (DRI)--a fully indexed catalog of the entire NCJRS collection; 6) Automated Source Listing (ASL)--information on each organizational source of documents maintained by NCJRS. **Input:** The primary system input is abstracts of documents on law enforcement and criminal justice and bibliographic source information. The automated system also maintains information on registered NCJRS users including name, address, classification, category, profile, and mailing list control data. **Output:** Index, thesaurus, reports, and listings. Generated these can be obtained in either hardcopy or microfiche. They are maintained on punched cards or tape which can be merged in other new complex files. The bibliographic file can also be searched through private vendors.
Agency Contact: Justice Management Division. (202) 724-2945.

S00818-003

Controlled Substances Act Registration System.

05/71

OMB Funding Code/Title: 15-1100-0-1-751 / Salaries and expenses

Program: Law Enforcement--Compliance and Regulation

Congressional Relevance: House Committee on Energy and Commerce, Senate Committee on The Judiciary, House Appropriations Committee: Commerce, Justice, State, The Judiciary and Related Agencies Subcommittee, Senate Appropriations Committee: Commerce, Justice, State and Judiciary Subcommittee

Authority: Controlled Substances Act, as amended (P.L. 93-481; 28 U.S.C. 31), Controlled Substances Import and Export Act, as amended (P.L. 91-513).

Availability: Internal Use Only

Purpose: The system was established to implement the provisions of the Comprehensive Drug Abuse Prevention and Control Act of 1970 (Public Law 91-513) requiring that all legal handlers of controlled substances obtain annually a registration issued by the Department of Justice. The system processes new and renewal applications for registration; applies changes to previously established master records; issues order forms for the purchase, sale, or transfer of Schedule 1 and 2 controlled substances; and produces various fiscal accounting, control, and statistical records. The master records contain information on legal handlers of controlled substances including name, address, DEA registration number, business activity, initial issue date of registration, last renewal date of registration, expiration date of registration, and drug schedules authorized. File maintenance changes are made daily, and all registrations are renewed annually. **Input:** The data are derived from filing applications of legal handlers of controlled substances. **Output:** Output is produced daily and includes preprinted renewal application forms, order form books, order form log, certificates of registration, list of pending applications, list of approved applications, and list of deposits and refunds. All are in hardcopy.

S00818-004

Financial Management Information System.

OMB Funding Code/Title: 15-0129-0-1-751 / Salaries and expenses

Program: Program Direction and Policy Coordination

Congressional Relevance: House Committee on The Judiciary; Senate Committee on The Judiciary; House Appropriations Committee: Commerce, Justice, State, The Judiciary and Related Agencies Subcommittee; Senate Appropriations Committee: Commerce, Justice, State and Judiciary Subcommittee

Authority: Government Organization and Employees Act (P.L. 89-554).

Availability: Agency

Purpose: This automated, integrated on-line base management system is designed to generate program budget formulation and execution information along with analytical support for all levels of Department of Justice management. This system provides an on-line interactive capability for maintaining and retrieving budget formulation data and for tracking and reporting budget apportionment, reprogramming, transfers, supplements, allotments, and obligations. The system receives data from individual bureaus and compares it with operating plans. The system interfaces with the accounting and other data systems of most organizations within the Department. Updating is accomplished through the "rolling budget" concept which constitutes continuous updating of planning data submitted for each program in response to the Spring Planning Call. **Input:** Internal budget data are received from the individual bureaus. The data are arrayed by program, type fund, decision package, and object class and provide information on funds, personnel, and workyears. **Output:** Retrieval is accomplished through the use of generalized report formats, each of which has a set of dynamically defined variables which allows users to interactively develop and produce customized reports in machine-readable form, CRT display, or hard copy.

Agency Contact: Justice Management Division. (202) 633-5343.

S00818-006

Justice Retrieval and Inquiry System (JURIS).

OMB Funding Code/Title: 15-0322-0-1-752 / Salaries and expenses,

expenses, General Legal Activities

Program: Salaries and Expenses, United States Attorneys and Marshals (All Programs); Salaries and Expenses, General Legal Activities (All Programs)

Congressional Relevance: House Committee on The Judiciary, Senate Committee on The Judiciary, House Appropriations Committee: Commerce, Justice, State, The Judiciary and Related Agencies Subcommittee; Senate Appropriations Committee: Commerce, Justice, State and Judiciary Subcommittee

Authority: Government Organization and Employees Act (P.L. 89-554).

Availability: Legal Community of the Federal Government

Geographic Relevance: National; State

Purpose: Since 1970 the Department has been developing its own computerized legal research system (JURIS) for use by attorneys of the Department's legal divisions, U.S. Attorneys Offices, and other federal agencies. The system provides fast, comprehensive, and inclusive retrieval of case law, statutory law, and internal Departmental work product. Attorneys use this capability to prepare pleadings, briefs, legal memoranda, and other legal documentation in the normal course of carrying out program responsibilities. The system is also used for litigation support where large volumes of evidentiary materials must be accessed. Data base records consist of the full text of legal opinions and statutory materials, as well as certain digest materials. **Input:** The data base comes from: 1) Case Law--Retrospective materials were keyed initially from reported-decision bound volumes; update materials are now obtained mainly from West Publishing Company as a byproduct of the publication process. 2) Statutory Law--Materials are keyed from hardcopy source materials such as United States Code, Public Laws, and CFR titles. 3) Other--Materials are obtained from a variety of sources such as briefs, legal memoranda, and the like. **Output:** Output consists of citations and/or full text listings created on an ad hoc basis by system users. **Agency Contact:** Justice Management Division. (202) 633-5682.

Legal Activities

S00826-001

International Criminal Police Organization--United States National Central Bureau (USNCB) Records System.

1962

OMB Funding Code/Title: 15-0128-0-1-752 / Salaries and expenses, General Legal Activities

Program: Interpol

Congressional Relevance: House Committee on The Judiciary; Senate Committee on The Judiciary; House Appropriations Committee: Commerce, Justice, State, The Judiciary and Related Agencies Subcommittee; Senate Appropriations Committee: Commerce, Justice, State and Judiciary Subcommittee

Authority: Act of June 10, 1938, as amended (P.L. 85-768, as amended by P.L. 95-624; 52 Stat. 640, 22 U.S.C. 263a).

Availability: Agency

Geographic Relevance: International/Foreign; National; State; County; City

Purpose: The INTERPOL-USNCB Records System (IRS), maintained by INTERPOL-USNCB, contains program records of INTERPOL-USNCB, consisting of criminal and non-criminal case files. The files contain fingerprint records, photographs, criminal investigative reports, radio messages (international), teletype messages (internal U.S.), log sheets, computer printouts, letters, memoranda, and statements of witnesses and parties to litigation. These records relate to fugitives, wanted persons, lookouts (temporary and permanent), specific missing persons, and deceased persons in connection with death notices. The purpose of the system is to provide information to assist INTERPOL-USNCB's mission of facilitating international law enforcement cooperation as the United States representative, on behalf of the Attorney General, to INTERPOL. **Input:** Sources of information contained in this system include investigative reports of federal, state, local and foreign law enforcement agencies (including investigative reports from a system of records published by Department of the Treasury entitled Treasury Enforcement Communications System); other non-Department of Justice investigative agencies; and the work product of the International

Criminal Police Organization-United States National Central Bureau Records System (INTERPOL-USNCB) staff working on specific cases.

Output: In the event a record in this system of records indicates a violation of law, whether civil, criminal or regulatory in nature, and whether arising by general statute, or particular program statute, or by regulation, rule or order issued pursuant thereto, the relevant records may be referred as a routine use to the appropriate law enforcement and criminal agencies, whether federal, state, local or foreign, charged with the responsibility of investigating or prosecuting such violation or charges with enforcing or implementing the statute, or rule, regulations or order issued pursuant thereto; and for certain other routine uses.

DEPARTMENT OF LABOR

S00900-002

Integrated Accounting System (IAS).

OMB Funding Code/Title: 16-0165-0-1-505 / Salaries and expenses

Program: Salaries and Expenses (All Programs)

Congressional Relevance: *House* Committee on Education and Labor; *Senate* Committee on Labor and Human Resources; *House* Appropriations Committee: Labor, Health and Human Services, and Education Subcommittee; *Senate* Appropriations Committee: Labor, Health and Human Services, and Education Subcommittee

Authority: Act of March 4, 1913 (P.L. 62-426).

Availability: Agency

Geographic Relevance: National; Regional

Purpose: The system provides a means by which all DOL accounting and fiscal data are collected, recorded, and processed according to established standards. It assembles the information necessary for the control and efficient management of the Department's resources. The IAS is divided into subsystems: 1) The General Ledger--provides a systematic means of classifying and summarizing accounting data. 2) Fund Accounting--controls the funds made available to the Department and obligations against these funds and records additional transactions including undelivered orders, accounts payable, and expenditures. 3) Financial Management Reports--extracts and summarizes accounting data from the IAS data bank to produce the monthly reports. 4) Travel Advance System--provides a file which records advances made to individuals who require funds to finance the costs of travel. 5) Monthly Fund Reports System--reflects the official status of DOL appropriations/funds. 6) Working Capital Fund--provides common support services to customers including DOL Agencies on an advance reimbursable basis. 7) Integrated Personnel Payroll System--controls payroll activities through the use of a Master Employee Record, Personnel Input History Records, and biweekly time cards for each employee. **Input:** Data are input to the data bank in detail for administrative or salary and expense transactions and in summary for Agency program accounting systems. **Output:** Monthly output includes Detail Fund Report, Detail Cost Report, Unliquidated Obligation Report, Allotment Status Report, Status of Object Class Report, Monthly Project Status Report, Monthly Budget Activity Report, Status of Object Class by Appropriation Report, Agency/Allotment/Appropriation/Budget Activity Obligations by Object Class Report, Agency/Allotment/Appropriation/Budget Activity Obligations by Object Class with Cost Center Detail, and Agency/Allotment/Appropriation/Budget Activity and by Cost Center with Object Class Detail Report.

Description of the Department of Labor's Information Network.

OMB Funding Code/Title: 16-0165-0-1-505 / Salaries and expenses

Program: Executive Direction

Congressional Relevance: *House* Committee on Education and Labor; *House* Committee on Ways and Means; *Senate* Committee on Finance; *Senate* Committee on Labor and Human Resources; *House* Appropriations Committee: Labor, Health and Human Services, and Education Subcommittee; *Senate* Appropriations Committee: Labor, Health and Human Services, and Education Subcommittee

Authority: Act of March 4, 1913 (P.L. 62-426; 37 Stat. 736; 29 U.S.C. 551-557).

Availability: Agency

Geographic Relevance: National

Purpose: In order to provide the information and assistance needed by the media and the general public, the Department of Labor has developed an information network consisting of a central office for consultation, review, and coordination of all departmental information activities (Office of Information and Public Affairs) and independent public information offices to serve the Department's major program areas, i.e., occupational safety and health, employment and training, employment standards, labor-management relations, labor statistics, international labor affairs, mine safety and health, etc. **Input:** Agency program officials supply the input. **Output:** Output consists of: news releases, publications, and audiovisual materials. Materials are produced and distributed based on need to inform the public of new or ongoing programs, etc.

Agency Contact: (202) 523-7316.

Employment and Training Administration

S00902-001

Regional Automation System (RAS).

OMB Funding Code/Title: 16-0174-0-1-504 / Training and employment services

Program: Training and Employment Services (All Programs)

Congressional Relevance: *House* Committee on Education and Labor; *Senate* Committee on Labor and Human Resources; *House* Appropriations Committee: Labor, Health and Human Services, and Education Subcommittee; *Senate* Appropriations Committee: Labor, Health and Human Services, and Education Subcommittee

Authority: Economic Opportunity Act of 1974 (P.L. 88-452, title I, § 101; 42 U.S.C. 2711 et seq.); Emergency Employment Act of 1971 (P.L. 92-54); Labor-Management Relations Act, 1947 (P.L. 80-101, title II, § 205A, as amended by P.L. 95-524, § 6(c)(2); 29 U.S.C. 175a); Job Training Partnership Act of 1983 (P.L. 97-300).

Availability: Agency

Geographic Relevance: National; State; Congressional District; County; City

Purpose: The system is composed of regional terminals which transmit daily financial and statistical data on the unemployed, underemployed,

and disadvantaged. The system consists of a monthly budget summary and quarterly financial reports which detail administration cost, allowances, wages, and training costs. There are planning and status summaries which show projected and actual projected enrollments and completions, respectively. A quarterly summary of characteristics such as race, age, and sex is included. The data are from inception to date and there are daily updates. The data represent state, city, county, and congressional district. The data are summarized. No individual data are on file. **Input:** The input data are submitted under the Comprehensive Employment Training Act. The prime sponsor may be a city, county, state, or nonprofit agency. Data are also submitted by the state employment service. Data contain the amount of funding for board personnel, types of training, and completion statistics. **Output:** Reports are produced on a daily, weekly, monthly, and quarterly basis. Reports produced daily are error valid transactions, status of obligations, allotments, and regional planning data. Weekly reports pertain to letter of credit. Monthly reports deal with obligation cost and disbursement. Quarterly reports compare actual accomplishments and planned goals. **Agency Contact:** Employment and Training Administration. (202) 376-6052.

S00902-002

National Office Employment Security Automated Reporting System (ESARS).

OMB Funding Code/Title: 16-0179-0-1-504 / State unemployment insurance and employment service operations, 16-0172-0-1-504 / Program administration

Program: U.S. Employment Service, Employment Services

Congressional Relevance: *House Committee on Education and Labor; Senate Committee on Finance; Senate Committee on Labor and Human Resources; House Appropriations Committee: Labor, Health and Human Services, and Education Subcommittee; Senate Appropriations Committee: Labor, Health and Human Services, and Education Subcommittee*

Authority: Social Security Act (P.L. 74-271, title III, § 301); Wagner-Peyser Act of 1933 (P.L. 73-30, § 3); Veterans Employment and Readjustment Act of 1972 (P.L. 92-540, § 501-503) Civil Rights Act of 1964 (P.L. 88-352, § 691-695).

Availability: Internal Use Only

Geographic Relevance: National, State

Purpose: The function of the system is to accommodate various files of ESARS statistical data transmitted from state Employment Security (ES) agencies on computer tapes; to aggregate these state data into regional and national summary files; and to produce reports as needed on microfiche or paper for distribution to users in the national office, regional offices, and state ES agencies. National office master files are created quarterly when about 42 state tapes have been received. Master files for the quarter are updated two or more times as subsequent tapes are received. Federal reports tape contains fiscal year cumulative statistics for statewide selected (SMSA) and Work Incentive (WIN) project areas. Various services to applicants are given by characteristics, job openings data, and applicant and job order data by occupational code. Job Order Trailers and Job Order Tapes contain job order "master" record and related transactions for "open" job orders. WIN tapes contain WIN "current month" transactions. ESARS 2-percent sample tape contains a 2-percent sample of applicant characteristic master and services records on file as of end of the fiscal year. **Input:** The input data are transmitted on two files monthly--one quarterly and one annually--from each state Employment Security agency. The two files are the ESARS Federal Reports Tape and ESARS two percent sample tape. **Output:** Output is: (1) quarterly state, regional and national ESARS tables, tabular microfiche, no query; (2) state, regional and national ESARS tables quarterly on magnetic tape loaded to VAX computer on Distributed Computer Network (DCN) for query and ad hoc report development; (3) quarterly WIN Extract tape used by contractor to create a data base for query and production of WIN ad hoc reports; (4) quarterly migrant reports, tabular hardcopy format, no query; (5) annual two percent sample of non-WIN applicants available for production of extract files and reports on request, no query; and (6) annual two percent sample of WIN applicants used by contractor to create a data base for query and production of ad hoc reports, and for reports or extract files upon request.

Unemployment Insurance (UI).

OMB Funding Code/Title: 16-0179-0-1-504 / State unemployment insurance and employment service operations

Program: Unemployment Insurance Service

Congressional Relevance: *House Committee on Ways and Means; Senate Committee on Finance; House Appropriations Committee: Labor, Health and Human Services, and Education Subcommittee; Senate Appropriations Committee: Labor, Health and Human Services, and Education Subcommittee*

Authority: Wagner-Peyser Act of 1933 (P.L. 73-30, § 1).

Availability: Agency

Geographic Relevance: National; State

Purpose: The system is to process data from all states in order to determine the cost of the unemployment insurance program by state and nationally. This system contains nationwide financial data on the cost of unemployment insurance programs. The data are updated on a monthly basis. **Input:** Disbursements are received from the states, key-taped, and processed. The forms are MA5-86 quarterly; MA5-110 monthly includes separate systems for extended benefits and federal supplemental compensation; ES 227 quarterly includes separate systems for federal supplemental compensation; ES 218 quarterly includes separate systems for extended benefits and federal supplemental compensation; ES 207 monthly includes separate systems for extended benefits and federal supplemental compensation; MA5-81 quarterly; and MA5-159 monthly includes separate systems for extended benefits and federal supplemental compensation. **Output:** The output is tables A-1 and all the time publication tables.

Congressional Relevance: *House Committee on Education and Labor; Senate Committee on Labor and Human Resources; House Appropriations Committee: Labor, Health and Human Services, and Education Subcommittee; Senate Appropriations Committee: Labor, Health and Human Services, and Education Subcommittee*

Authority: Economic Opportunity Act of 1964 (P.L. 88-452, title I, § 101; 42 U.S.C. 2711 et seq.); Job Training Partnership Act (P.L. 97-300).

Availability: Agency

Purpose: The Job Corps seeks to provide meaningful training and gainful employment for severely disadvantaged youth between the ages of 15 and 21. Training is conducted at a geographical location called a center, which is classified according to its training, orientation, and center type. The system consists of a center and contract master which contains information on open and closed contracts, center budgets, cost data, and enrollment figures. There is a mainstream subsystem which contains enrollee characteristic data such as age, sex, and schooling. The data are updated weekly, monthly, or quarterly, depending on the volume, and cover all 60 Job Corps centers. The characteristic data are covered by the Privacy Act. **Input:** Data are submitted in hardcopy by the Job Corps training centers to the national office. The data are submitted on a weekly and/or monthly basis and contain funding, characteristics, and administrative and funding costs. **Output:** Monthly, quarterly, and annual reports on financial and demographic data are produced.

Agency Contact: Employment and Training Administration. (202) 376-6286.

S00902-011

Migrants.

02/84

OMB Funding Code/Title: 16-0174-0-1-504 / Training and employment services

Program: Federally Administered Programs; Migrants and Seasonal Farmworkers

CFDA NO.: 17.230

Congressional Relevance: House Committee on Education and Labor; Senate Committee on Labor and Human Resources; House Appropriations Committee; Labor, Health and Human Services, and Education Subcommittee; Senate Appropriations Committee; Labor, Health and Human Services, and Education Subcommittee

Authority: Job Training Partnership Act (P.L. 97-300, title IV, § 402; 96 Stat. 1369; 29 U.S.C. 1672).

Availability: Internal Use Only

Purpose: The system keeps track, on a yearly basis, of 53 grantees and their plans to train migrant farmworkers. It monitors the number of planned and actual persons to be trained, and the amount of planned and actual money spent on training. The data base size is 53 (x1861) records (December 1983 to December 1984). **Input:** Input consists of Employment and Training Agency (ETA) 8595, per grantee per year; ETA 8596, per grantee per year; ETA 8597, per grantee per quarter (three quarters); ETA 8598, per grantee per quarter; and ETA 8599, per grantee per year (end). **Output:** Output includes approximately five quarterly hardcopy printouts.

S00902-013

Trade Adjustment Assistance System (TAAS).

OMB Funding Code/Title: 16-0172-0-1-504 / Program administration

Program: Employment Security; Financial Control and Management

CFDA NO.: 17.400

Congressional Relevance: *House Committee on Education and Labor, Senate Committee on Labor and Human Resources; House Appropriations Committee: Labor, Health and Human Services, and Education Subcommittee; Senate Appropriations Committee: Labor, Health and Human Services, and Education Subcommittee*
Authority: Trade Act of 1974, as amended (P.L. 93-618, as amended by P.L. 97-35; 88 Stat. 2019; 19 U.S.C. 2271-2322).

Availability: Agency

Geographic Relevance: National, State, County

Purpose: This system provides an add facility for management information with regard to the trade adjustment assistance program. Its major functions are to maintain TAAS master file and to accumulate all management. The master file is updated daily and reflects new cases added (new institutions); decisions on old cases, including the number of workers involved; revisions or reconsiderations of cases or product descriptions; partial certifications, the number certified and denied; and the impact and termination dates for cases certified. **Input:** Data are derived from petitions submitted by workers, unions, or companies, and verified by staff of the Office of Trade Adjustment Assistance and reports from the Employment and Training Administration. **Output:** The system generates the following monthly printouts: payment activity reports, inventory by Standard Industrial Code (SIC) and product, case institutions and decisions, summary by state, SIC determination, union determination, time lapse determination, activity by SIC, calendar and fiscal year breakdown, and regional activity. The system includes computer access to the master file, ETA payment file, Union Code file, SIC code file, and geographic location code file.

Labor-Management Services Administration

S00903-001

Labor Organization Reporting System (LORS).

OMB Funding Code/Title: 16-0104-0-1-505 / Salaries and expenses

Program: Labor-Management Standards Enforcement

Congressional Relevance: *House Committee on Education and Labor; Senate Committee on Labor and Human Resources; House Appropriations Committee: Labor, Health and Human Services, and Education Subcommittee; Senate Appropriations Committee: Labor, Health and Human Services, and Education Subcommittee*

Authority: Labor-Management Reporting and Disclosure Act of 1959 (P.L. 86-257).

Availability: Agency

Geographic Relevance: National; State; City; Area Office

Purpose: The primary purpose is to process information received in LMSA from labor organizations. To accomplish this, a computerized data base is maintained of the file universe. Specific functions of the system are financial data editing and referral to auditors, correction and updating of organization information, timely disclosure of reports, delinquency processing and referral to area offices in the field, information retrieval of any stored data in any format, and production of the publications Register of Labor Organizations and Union Financial Statistics. Information is all related to labor organizations and includes LMSA file number; organization identification (affiliation code, affiliation/organization name, unit name, designation name, and designation number); charter city and state, and area office; mailing address; fiscal year end date; date of next election; financial data; and miscellaneous indicators. The file is updated weekly. **Input:** All data are from information reports (LM-1 and LM-1A), annual financial reports (LM-2, LM-3, and simplified), related correspondence and inquiries submitted to LMSA by the private sector and government labor organizations. **Output:** Reports are produced on microfiche (quarterly), tape (weekly, monthly), and terminals (on a limited basis).

Employment Standards Administration

S00904-001

Black Lung System.

09/01/82

OMB Funding Code/Title: 16-1521-0-1-600 / Special benefits

Program: Disabled Coal Miners Benefits

Congressional Relevance: *House Committee on Education and Labor; Senate Committee on Labor and Human Resources; House Appropriations Committee: Labor, Health and Human Services, and Education Subcommittee; Senate Appropriations Committee: Labor, Health and Human Services, and Education Subcommittee*

Authority: Federal Coal Mine Health and Safety Act of 1969 (P.L. 91-173, § 401-431; 33 U.S.C. 901). Black Lung Benefits Reform Act of 1977 (P.L. 95-239).

Availability: Internal Use Only

Geographic Relevance: State, Congressional District, County

Purpose: The Federal Coal Mine Health and Safety Act of 1969 was enacted to provide for improved health and safety standards in the Nation's coal mines. The act requires that once an initial determination of pneumoconiosis is made, the responsible operator be determined. The miner is then eligible for compensation and medical treatment. The system is designed for internal use as well as for satisfying congressional and public inquiries. The Management Support System supplies management with pertinent workload data related to claims processing. Data for state, congressional district, and county are provided for congressional use. The accounts payable and receivable system furnishes information for accountants as well as for the management of the Black Lung Program and Congress. **Input:** The source documents are the applications for Black Lung Benefits, travel vouchers, medical invoices, and physical examination data. The internal system input is the determinations made by the claims examiners, tracking, and status data benefit payment determination data. **Output:** The major reports are Benefit Payment Check Register (monthly), Service Payment Check (weekly), Management Reports (10) (monthly), and Management Reports (10) (quarterly).

Agency Contact: Employment Standards Administration. (202) 523-6761.

S00904-002

Federal Employee Compensation Act (FECA) Chargeback System.

07/01/81

OMB Funding Code/Title: 16-1521-0-1-600 / Special benefits

Program: Federal Employees' Compensation Act Benefits

Congressional Relevance: *House Committee on Education and Labor; Senate Committee on Labor and Human Resources; House Appropriations Committee: Labor, Health and Human Services, and Education Subcommittee; Senate Appropriations Committee: Labor, Health and Human Services, and Education Subcommittee*

Authority: Federal Employees Compensation Act, as amended (P.L. 93-416; 5 U.S.C. 8101 et seq.).

Availability: Internal Use Only

Geographic Relevance: National; State; City; County

Purpose: The Chargeback System provides data on payments/disbursements made from the Federal Employees Compensation Fund during each 12 month period, July 1 through June 30 of the following year. The file is constructed discretely for each year. On an annual basis, the file consists of about 260,000 summary case records and nearly 2 million individual payment records. **Input:** The Chargeback File is constructed from 3 subsystems. Individual payment data contained in the medical Bill Payment System (BPS) and the Automated Compensation Payments System (ACPS) are merged and summarized by Case Number, and then matched with the National Case Management File (NCMF) of the FEC Stage 2 System to produce Chargeback Records. These resultant composite records contain payment detail data for each case, as well as, basic information on the claimant, the time, place and type of injury, and the covered case processing status. **Output:** Hard copy output consists of agency summaries and detail case listings with Employee Name, SSN, Date of Injury, and Amounts of Medical and Compensation Benefits Paid. Computer tapes are provided to each agency on request. Output data are produced quarterly and annually. The system has no query capability.

Agency Contact: Employment Standards Administration (202) 523-8458.

S00904-006

Case Management and Adjudication System.

OMB Funding Code/Title: 16-0165-0-1-505 / Salaries and expenses

Program: Adjudication

Congressional Relevance: House Committee on Education and Labor; Senate Committee on Labor and Human Resources; House Appropriations Committee: Labor, Health and Human Services, and Education Subcommittee; Senate Appropriations Committee: Labor, Health and Human Services, and Education Subcommittee

Authority: Longshoremen's and Harbor Workers' Compensation Act, as amended (P.L. 69-803, § 1, as amended by P.L. 92-576; 44 Stat. 1424, 33 U.S.C. 901 et seq.); Federal Coal Mine Health and Safety Act of 1969 (P.L. 91-173, § 2; 30 U.S.C. 801 et seq.); Black Lung Benefits Reform Act of 1977 (P.L. 95-239, 92 Stat. 105; 30 U.S.C. 901 et seq.).

Availability: Internal Use Only

Geographic Relevance: National

Purpose: The Benefits Review Board was created by Congress in 1972 to review and determine appeals of workers' compensation claims arising under the Longshoremen's and Harbor Workers' Compensation Act and the Black Lung Benefits Amendments to the Federal Coal Mine Health and Safety Act of 1969. The Master Data Base consists of names and addresses of all parties in the case, dates of all pleadings filed and received, all motions and other correspondence, and final disposition of the Board. **Input:** The data in the files are derived from Notice of Appeal, Administrative Law Judges Decision and Order, pleadings and motions filed, and internal data from staff attorneys and Board members. **Output:** The frequency of output is monthly, and includes the following: number of appeals filed, appeals disposed of, and pending cases. Numerous statistical reports and daily status inquiries on selected cases are produced.

Agency Contact: Employment Standards Administration. (202) 653-5106.

S00904-007

Wage Hour Management Information System (WHMIS).

OMB Funding Code/Title: 16-0105-0-1-505 / Salaries and expenses

Program: Enforcement of Wage and Hour Standards

Congressional Relevance: House Committee on Education and Labor; Senate Committee on Labor and Human Resources; House Appropriations Committee: Labor, Health and Human Services, and Education Subcommittee; Senate Appropriations Committee: Labor, Health and Human Services, and Education Subcommittee

Authority: Davis-Bacon Act (P.L. 74-403; 49 Stat. 1011; 40 U.S.C. 276a); Migrant and Seasonal Agricultural Worker Protection Act (P.L. 97-470, § 2; 96 Stat. 2584); Fair Labor Standards Act of 1938 (P.L. 75-718, 52 Stat. 1063; 29 U.S.C. 1801 et seq.; 29 U.S.C. 207 et seq.); Service Contract Act of 1965 (P.L. 89-286; 79 Stat. 1034; 41 U.S.C. 351 et seq.).

Availability: Internal Use Only

Geographic Relevance: National; State; County

Purpose: This system provides the Wage and Hour (WH) Division with a regionally based telecommunication case tracking and management information system. The system tracks all compliance activity concerning the minimum wage, overtime, child labor provision of the Fair Labor Standard Act, compliance activity under the government contracts statutes, and registration and compliance actions involving the Migrant and Seasonal Agricultural Worker Protection Act. **Input:** Input is from the WH-53 Case Registration form, WH-40 CO-Weekly Report, WH-51 Compliance Action Report, WH-110 Child Labor Report, WH-321 Section 14 Investigation Report, and WH-400 F.L.CRA Data Input form. **Output:** This system will, when installed, generate weekly management reports, monthly management and statistical productivity reports, as well as specialized quarterly, semiannual, and annual reports showing area office, regional, and national statistical and management tabulations.

Longshore and Harbor Workers' Compensation Act--Special Fund System (SF).

197J

OMB Funding Code/Title: 16-1521-0-1-600 / Special benefits

Program: Longshore and Harbor Workers' Compensation Benefits

CFDA NO.: 17.302

Congressional Relevance: House Committee on Education and Labor; Senate Committee on Labor and Human Resources; House Appropriations Committee: Labor, Health and Human Services, and Education Subcommittee; Senate Appropriations Committee: Labor, Health and Human Services, and Education Subcommittee

Authority: Longshoremen's and Harbor Workers' Compensation Act, as amended (P.L. 69-803, § 1, as amended by P.L. 92-576; 44 Stat. 1424; 33 U.S.C. 901 et seq.).

Availability: Agency

Geographic Relevance: National

Purpose: The Longshore and Harbor Workers' Compensation Program monitors the payment of wage replacement and medical payments to employees who sustain injury and/or death while engaged in maritime employment. For a special class of claims, the Longshore Program operates an automated Special Fund System for automated processing of monthly benefit payments, recording disbursements, maintaining insurance carrier and self-insured employer special fund assessment payment data and producing financial accounting reports. **Input:** The data contained in this system is obtained from claim decision documentation that is received from Longshore Deputy Commissioners, the Benefit Review Board, and U.S. Courts. Additionally, the payment information, such as name and address changes or beneficiary status changes are updated by notices received from the parties concerned in the claim. **Output:** The system output is composed of monthly Case Master File printouts, monthly disbursement reports, listings of all insurance carrier and self-insured employers authorized to insure under the Longshoremen's and Harbor Workers' Compensation Acts, and reports of the annual assessment amounts for each insurance carrier and self-insured employer.

Occupational Safety and Health Administration

S00905-001

Occupational Safety and Health Administration Federal Agency Reporting System (FARS).

OMB Funding Code/Title: 16-0400-0-1-554 / Salaries and expenses
Program: Safety and Health Statistics, Safety and Health Standards
Congressional Relevance: House Committee on Education and Labor; Senate Committee on Labor and Human Resources; House Appropriations Committee: Labor, Health and Human Services, and Education Subcommittee; Senate Appropriations Committee: Labor, Health and Human Services, and Education Subcommittee
Authority: Occupational Safety and Health Act of 1970 (P.L. 91-596, § 24A).
Availability: Agency
Geographic Relevance: National
Purpose: The system is to provide the Office of Federal Agency Programs with information on the effectiveness of the safety programs in the federal agencies. Data are collected by mail from all federal agencies quarterly (calendar year), keypunched, edited for validity, and added to the master file. A smaller master file containing names and addresses of the federal agencies is updated as changes are received. Data are stored by the Federal Establishment Codes, the quarter data, a quarter/annual data indicator, and a civilian/military data indicator. **Input:** System input is injury/illness data for employees, total agency hours worked, average number of employees. Other data received are reports of agency creation/deletion and address changes. **Output:** Standard reports are produced annually for all agencies as well as an annual summary in hardcopy showing injuries/illnesses and rates calculated for these items.
Agency Contact: Occupational Safety and Health Administration. (202) 523-7008.

S00905-003

Occupational Safety and Health Administration Integrated Management Information System.
OMB Funding Code/Title: 16-0400-0-1-554 / Salaries and expenses
Program: Safety and Health Statistics; Compliance Assistance
Congressional Relevance: House Committee on Education and Labor; Senate Committee on Labor and Human Resources; House Appropriations Committee: Labor, Health and Human Services, and Education Subcommittee; Senate Appropriations Committee: Labor, Health and Human Services, and Education Subcommittee
Authority: Occupational Safety and Health Act of 1970 (P.L. 91-596, § 24A).
Availability: Agency
Geographic Relevance: National; State; County; City; OSHA Region
Purpose: The system is to provide managers of OSHA's federal compliance program and participating 18(h) states at the national, regional, and area levels with information about how the compliance effort is being carried out. The system also tracks the time spent by the compliance officers on different program activities. Data are collected by mail from OSHA's field offices and participating 18(h) states weekly, keypunched, edited for validity, and the master files updated monthly. Data are stored by date of inspection and include a Standard Industrial Classification (SIC) code; establishment size, state, city, and county codes; OSHA region and area codes; as well as violations issued to the employer, identified by a Code of Federal Regulations number. **Input:** System input is primarily OSHA inspection case file documents, such as the inspection report, citation and penalty data, notices of contest, complaints, and penalty payment amounts. A secondary input is hours spent by compliance officers on different compliance related activities. **Output:** Standard reports are produced monthly in hardcopy for each field office, as well as summaries for regional and national managers, showing inspection activity and results of those inspections. Query capability is available for ad hoc requests through IBM's GIS.

S00905-004

Occupational Safety and Health Administration Inspection Scheduling System.
OMB Funding Code/Title: 16-0400-0-1-554 / Salaries and expenses
Program: Safety and Health Statistics; Compliance Assistance

Congressional Relevance: House Committee on Education and Labor, Senate Committee on Labor and Human Resources, House Appropriations Committee: Labor, Health and Human Services, and Education Subcommittee; Senate Appropriations Committee: Labor, Health and Human Services, and Education Subcommittee

Authority: Occupational Safety and Health Act of 1970 (P.L. 91-596, § 24A)

Availability: Internal Use Only

Geographic Relevance: National; State

Purpose: The system is to identify industries in the United States in which workers are likely to be exposed to high injury or health risk and with poor safety and health records and to rank them in a "high hazard" order for inspection scheduling. The data are processed by ranking each industry in the state according to the average number of anticipated injuries per establishment in that industry. Those industries whose BLS injury/illness rate is greater than a predetermined number and whose injury rate per establishment is greater than a predetermined number are singled out for OSHA inspection. **Input:** The safety portion of this system uses data from the Bureau of Labor Statistics' (BLS) Annual Survey of Occupational Injuries and Illnesses, OSHA-MIS, U.S. Commerce County Business Pattern Data, and Dunn and Bradstreet files. Data selected from these files are primarily SIC codes, establishment sizes, injury/illness rates, and geographical data of the county and state level. The health portion of the system combines National Institute of Occupational Safety and Health data on substances reported to be found in each industry with data on employment in the industry and the severity of potential adverse effects as determined by medical and health experts. **Output:** Listings of names and addresses of establishments are produced as reports from this system to assist OSHA field offices in scheduling random inspections. The lists are produced for each county in the United States. A second listing is produced from OSHA-MIS files identifying the names and addresses of those establishments already inspected by OSHA.

Occupational Safety and Health Administration 18(b) State System (SPES).

OMB Funding Code/Title: 16-0400-0-1-554 / Salaries and expenses

Program: Safety and Health Statistics; Compliance Assistance

Congressional Relevance: House Committee on Education and Labor; Senate Committee on Labor and Human Resources, House Appropriations Committee: Labor, Health and Human Services, and Education Subcommittee; Senate Appropriations Committee: Labor, Health and Human Services, and Education Subcommittee

Authority: Occupational Safety and Health Act of 1970 (P.L. 91-596, § 1).

Availability: Agency

Geographic Relevance: National; State

Purpose: The system is to provide OSHA with information about the level of compliance activity conducted by states receiving grants from OSHA under section 18(b) of the Act and not submitting data to OSHA's compliance management information system. Data are submitted by mail quarterly to OSHA's national office. The data are reported by SIC code and are an aggregation of the following: Numbers of inspections, employees covered, citations issued, penalties assessed and paid, complaints received and investigated, hours worked, and cases contested. **Input:** The data are collected from the designated agency of each state responsible for safety and health. Information is submitted at a summary level about inspection activity, citation and penalty data, and category of industry. **Output:** Three quarterly reports are generated monthly--a detailed list, by SIC, for each state submitting data; a synopsis of the state's compliance activity; and a summary of all state's activity, comparing its compliance posture with the federal compliance program. Query capability is available through IBM's GIS.

Congressional Relevance: House Committee on Education and Labor, Senate Committee on Labor and Human Resources, House Appropriations Committee: Labor, Health and Human Services, and Education Subcommittee; Senate Appropriations Committee: Labor, Health and Human Services, and Education Subcommittee

Authority: Occupational Safety and Health Act of 1970 (P.L. 91-596, § 24A).

Availability: Internal Use Only

Geographic Relevance: National; State

Purpose: The system is to record the amount of education being offered to U.S. employees and employers through OSHA educational contracts. Data are collected and processed monthly. Each record contains the course title (coded), number of people in each SIC trained, length of training, and dates of training. **Input:** The primary sources of data are the contractors who organize and provide training to employees and employers around the country. Data consist of the number of people trained, industry represented, and type and length of training. **Output:** Four standard hardcopy reports summarizing data by SIC and course type are generated on an as-requested basis. Query capability is available through IBM's GIS. These reports are used internally to validate education conducted by OSHA contractors.

Office of Economic Growth and Employment Projections, Division of Occupational Outlook System (DOO).

OMB Funding Code/Title: 16-0200-0-1-505 / Salaries and expenses; 16-3902-0-4-505 / Consolidated working fund

Program: Labor Force Statistics; Special Economic and Statistical Studies

Congressional Relevance: House Committee on Education and Labor; Senate Committee on Labor and Human Resources, House Appropriations Committee: Labor, Health and Human Services, and Education Subcommittee; Senate Appropriations Committee: Labor, Health and Human Services, and Education Subcommittee

Authority: Department of Labor Act (P.L. 62-426).

Availability: GPO; Agency

Geographic Relevance: National

Purpose: The system is to develop current and projected information on national occupational employment by industry for use in career guidance and in planning education and training programs. This system contains data on national employment and projections on about 700 occupations in industries. Data are available for 1982, and projected 1995. Career guidance information is published every other year covering about 200 occupations. **Input:** Secondary source data developed by other bureaus, departments, and federal agencies are used as well as data from the Federal-State Occupation Employment Statistics Survey. **Output:** Output includes published bulletins and reports, including Occupational Outlook Handbook, Occupational Outlook Quarterly, and special reports as completed. National data on occupational employment by industry, current and projected, are available on tape and hardcopy; computer tape can be purchased for cost from the Bureau of Labor Statistics. Office of Economic Growth; hard-copy is available from the National Technical Information Service.

Agency Contact: Bureau of Labor Statistics. (202) 272-5381.

S00906-003

Local Area Unemployment Statistics (LAUS).

1979

OMB Funding Code/Title: 16-0200-0-1-505 / Salaries and expenses; 16-3902-0-4-505 / Consolidated working fund

Program: Labor Force Statistics; Special Economic and Statistical Studies

Congressional Relevance: House Committee on Education and Labor; Senate Committee on Labor and Human Resources, House Appropriations Committee: Labor, Health and Human Services, and Education Subcommittee; Senate Appropriations Committee: Labor, Health

Availability: Agency; GPO.

Geographic Relevance: State; (SMSA) Standard Metropolitan Statistical Area; County; City.

Purpose: The system supplies labor force employment and unemployment data for states and local areas for allocating funds and provides data on the current labor force and unemployment trends for states and local areas which serve as economic indicators for those areas. The data base is composed of labor force, employment, unemployment, and unemployment rate for each month that estimates have been made for states, SMSAs, other labor force areas, JTPA Areas of Substantial Unemployment (ASU's), counties, large cities and New England towns. New data are entered monthly. Reports include Geographic Profile of Employment and Unemployment Annual Averages by race and sex for all states--population, labor force, employment, unemployment, occupation, reason for unemployment and duration of unemployment (annually). The program continues under JTPA. **Input:** Monthly estimates for 40 of the 50 states and most metropolitan areas are calculated by the state Employment Security Agencies based on local counts of insured unemployed, covered employment, and other information using a standardized method. Estimates for the other 10 states, for the Los Angeles standard metropolitan statistical area, and for New York City are obtained directly from the Current Population Survey (CPS) on which the national unemployment rate is also based. The 10 CPS states are California, Florida, Illinois, Massachusetts, Michigan, New Jersey, New York, Ohio, Pennsylvania and Texas. **Output:** 1) Press Release: State and Metropolitan Area Employment and Unemployment: Monthly labor force levels and unemployment rate for all states and 240 metropolitan areas. 2) Advance data for 10 largest states, published in monthly "Employment Situation" press release. 3) Historical data in annual volumes for states, metropolitan areas, counties and cities for the period 1976 to the present.

Industrial Relations Activities System.

OMB Funding Code/Title: 16-0200-0-1-505 / Salaries and expenses; 16-3902-0-4-505 / Consolidated working fund

Program: Wages and Industrial Relations; Special Economic and Statistical Studies

Congressional Relevance: House Committee on Education and Labor; Senate Committee on Labor and Human Resources; House Appropriations Committee: Labor, Health and Human Services, and Education Subcommittee; Senate Appropriations Committee: Labor, Health and Human Services, and Education Subcommittee

Authority: Department of Labor Act (P.L. 62-426).

Availability: Agency; GPO; NTIS

Geographic Relevance: National; State; Industry Location

Purpose: This system supports research in collective bargaining settlement terms and work stoppages. The support work in settlement terms consists of maintaining the Bureau's file of about 4,000 agreements (excluding railroads and airlines) and coding the identifying data needed to produce computer printouts to locate agreements in the file. The printouts are arranged by employer name, union name, plant location, Standard Industrial Classification, and expiration date of the agreements. The agreements are used to produce an annual Monthly Labor Review article and a bulletin on bargaining and scheduled wage changes in the coming year, accounts of individual settlements, and aggregate statistical data on wages and benefits for publication in the monthly Current Wage Developments report and quarterly press releases. They are also used by union and management officials, the media, and academic researchers. Prior to 1982, the agreement file also supported the production of bulletins, reports, and articles on contract provisions such as paid leave, grievance procedures, working hours, and layoff procedures. The work stoppage data, which are obtained from press accounts, are limited to strikes and lockouts involving 1,000 workers or more. Information on the employers and unions involved, location, duration, number of workers, and days of idleness are published monthly in Current Wage Developments and the Monthly Labor Review. Prior to 1982, coverage was all stoppages involving six workers or more and information was received from forms mailed to management and labor. Until 1980, the system also included information on union member-

ships and unions in accordance with sec. 211 of the Federal Information Relinquish Act, and work stoppage information received from public sources. **Output:** See A Directory of BLS Studies in Industrial Relations, 1960-78, for listing of publications, arranged by major subject area. Collective Bargaining Calendar published annually.

S00906-007

Employee Benefit Survey.

OMB Funding Code/Title: 16-0200-0-1-505 / Salaries and expenses; 16-3902-0-4-505 / Consolidated working fund

Program: Wages and Industrial Relations; Special Economic and Statistical Studies

Congressional Relevance: House Committee on Education and Labor; Senate Committee on Labor and Human Resources; House Appropriations Committee: Labor, Health and Human Services, and Education Subcommittee; Senate Appropriations Committee: Labor, Health and Human Services, and Education Subcommittee

Authority: Department of Labor Act (P.L. 62-426).

Availability: Agency

Purpose: The system is to provide an up-to-date data base containing the provisions of a representative sample of leave, pension, and welfare plans in a representative sample of private industry establishments. The data base provides current information needed by government officials concerned with policy and administration of laws affecting employee benefit plans, government officials concerned with the compensation of government employees, and employers (public and private) and unions engaged in or concerned with collective bargaining and/or wage and salary administration. The system contains the principal provisions of leave, pension, and welfare plans in a representative sample of private industry establishments. Data are updated annually. Separate information is provided for professional-administrative, technical-clerical, and production employees. No geographic breakdowns are available. Separate data are collected for each type of benefit. **Input:** Data sources include employee benefit plan descriptions and allied information collected directly from the establishment and reports (Forms EBS-1, 5500, and SPD) filed under the Employee Retirement Income and Security Act (ERISA). **Output:** Output of the program is the annual report: Employee Benefits in Medium and Large Firms. All data are on magnetic tape. System output includes tabulations of data, listings of edits, and formatted dumps of the microdata--all on hard copy. Database is also accessible on CRT through INQUIRY.

OMB Funding Code/Title: 16-0200-0-1-505 / Salaries and expenses

Program: Labor Force Statistics

Congressional Relevance: House Committee on Education and Labor; Senate Committee on Labor and Human Resources; House Appropriations Committee: Labor, Health and Human Services, and Education Subcommittee; Senate Appropriations Committee: Labor, Health and Human Services, and Education Subcommittee

Authority: Department of Labor Act (P.L. 62-426). Economy Act of 1932 (P.L. 72-212).

Availability: Agency

Geographic Relevance: National

Purpose: This system supports analysis and publication of data on the U.S. labor force. It features information on labor force employment, unemployment, and nonparticipation, classified by a variety of demographic, social, and economic characteristics. The Current Population Survey (CPS) provides detail on the economic and social characteristics of the employed, unemployed, and those not in the labor force. It is the source of the unemployment rate economic indicator. The data are available by month, for many series, from 1948. Data in the CEUA system are at the national level only. **Input:** The input is derived from the Current Population Survey (CPS) conducted by the Bureau of the Census for the Bureau of Labor Statistics. The CPS is collected each

month (reference week being week including the 12th of the month) from a probability sample of 60,000 households. The aggregated (macro) estimates from the CPS comprise the CEUA data base. **Output:** Reports output include The Employment Situation (monthly, press release), Employment and Earning (monthly, periodical), The Monthly Labor Review, various articles and tables (monthly, periodical); Special Labor Force Reports (periodic reports), quarterly reports on the status of women minorities; and many other printed sources. All series are available in hardcopy. A limited number of major series are available on tape.

International Price Program--Export and Import Price Indexes.

OMB Funding Code/Title: 16-0200-0-1-505 / Salaries and expenses

Program: Prices and Cost of Living

Congressional Relevance: House Committee on Education and Labor; Senate Committee on Labor and Human Resources; House Appropriations Committee: Labor, Health and Human Services, and Education Subcommittee; Senate Appropriations Committee: Labor, Health and Human Services, and Education Subcommittee

Authority: Department of Labor Act (P.L. 62-426).

Availability: Agency

Geographic Relevance: International/Foreign; National

Purpose: The International Price program provides measures of price change for U.S. exports and imports and analyses of price trends of U.S. products in world markets. Aggregate and detailed indexes are published that represent 100 percent of the value of both U.S. imports and exports. These indexes are used to measure the effect of changes in exchange rates on the prices of goods traded by the United States. They are also used by U.S. representatives in international trade and financial negotiations and by other policymakers and analysts to assess trends in the competitive position of U.S. products in world markets. The publication categories for both export and import indexes are based on the Standard International Trade Classification of the United Nations, a product classification system, and indexes are published at the 1-, 2-, 3-, 4- and 5-digit level of detail. Data are collected quarterly, and indexes are updated and published quarterly. **Input:** In most cases, price data for these indexes are collected by mail questionnaire directly from exporters and importers. In a few cases, prices are obtained from other sources.

Output: The reports produced include Export and Import Price Indexes (quarterly press releases), analyses of U.S. export and import price trends, and comparisons of export price trends of the United States, Germany, and Japan for competitive products

Agency Contact: Bureau of Labor Statistics. (202) 272-5025.

Consumer Prices and Price Index Data in LABSTAT.

OMB Funding Code/Title: 16-0200-0-1-505 / Salaries and expenses

Program: Prices and Cost of Living

Congressional Relevance: House Committee on Education and Labor; Senate Committee on Labor and Human Resources; House Appropriations Committee: Labor, Health and Human Services, and Education Subcommittee; Senate Appropriations Committee: Labor, Health and Human Services, and Education Subcommittee

Authority: Department of Labor Act (P.L. 62-426).

Availability: Agency; GPO; NTIS

Geographic Relevance: National; (MSA) Standard Metropolitan Statistical Area

Purpose: This index supports analysis and publication of data on changes in prices for the goods and services bought by all urban consumers as well as urban wage earners and clerical workers. It is the Nation's principal economic measure of the rate of inflation and is used to formulate and analyze economic policy; to escalate wages, pensions, and Social Security benefits; and in wage negotiations. Indexes are available for all items, major groups, and subgroups, for the United States and 28 major metropolitan areas. Major groups include food and beverages, housing, apparel and upkeep, transportation, medical care, entertainment, and other goods and services. The cycle for data collection varies with the item priced. Most items are priced monthly or bimonthly. A few are priced semiannually or annually. The CPI is updated and published monthly. **Input:** The price data are collected by BLS data collectors in 85 sample areas from retail outlets, housing units, and other reporters. **Output:** Reports produced include the Consumer Price Index

(monthly, press release); CPI Detailed Report (monthly); and Consumer Prices: Energy and Food (monthly).

Agency Contact: Bureau of Labor Statistics. (202) 272-5164.

Industrial Price Program--Producer Price Indexes (PPI).

OMB Funding Code/Title: 16-0200-0-1-505 / Salaries and expenses

Program: Prices and Cost of Living

Congressional Relevance: House Committee on Education and Labor; Senate Committee on Labor and Human Resources; House Appropriations Committee: Labor, Health and Human Services, and Education Subcommittee; Senate Appropriations Committee: Labor, Health and Human Services, and Education Subcommittee

Authority: Department of Labor Act (P.L. 62-426).

Availability: Agency; GPO

Geographic Relevance: National

Purpose: The Industrial Price program is a major source of information on price changes in primary markets of the economy; that is, price changes at the first commercial transaction for products. The data are used in market analysis, escalation of long-term purchases and sales contracts, formulation of economic policy, as indicators of economic trends, and deflation of the National Accounts. The fundamental data in the system are price indexes for over 5,000 detailed commodities sold in the primary markets of the United States. These detailed indexes are summarized in three different aggregation structures. One is by stage-of-processing for finished, intermediate, and crude materials. A second is by industry output for 250 4-digit industries in the Standard Industrial Classification. Data are published monthly. Corrected data are published four months following the original release to reflect late reports or other corrections. **Input:** Price data are collected monthly from producers (and a few buyers) for more than 50,000 items covering more than 5,000 commodities. **Output:** Reports produced include Producer Price Indexes (monthly news release) and Producer Prices and Price Indexes (monthly detailed report and annual supplement). Data tapes are available for all published producer price indexes.

Agency Contact: Bureau of Labor Statistics. (202) 272-5110.

S00906-014

Economic Growth Projection System.

OMB Funding Code/Title: 16-0200-0-1-505 / Salaries and expenses

Program: Economic Growth Studies

Congressional Relevance: House Committee on Education and Labor; Senate Committee on Labor and Human Resources; House Appropriations Committee: Labor, Health and Human Services, and Education Subcommittee; Senate Appropriations Committee: Labor, Health and Human Services, and Education Subcommittee

Authority: Department of Labor Act (P.L. 62-426).

Availability: Agency; GPO

Purpose: The primary objective is to develop medium- to long-range projections of employment opportunities under alternative assumptions about the future economic environment. The current program produces output and employment projections for 160 industries over a 10-15 year horizon. A completely revised set of projections is released about every 2 years. Results are structured according to the Standard Industrial Classification. Intermediate results produced include: 1) projections of the aggregate economy including analysis of major income flows, government policy, and the growth of potential output; 2) projections of major demand categories in industry and selected product detail such as personal consumption expenditures by product type, government expenditures by function, and investment by industry; and 3) projections of the input-output structure of the U.S. economy. The System also investigates the employment requirements of currently operating or anticipated government programs and/or categories of demand. **Input:** Input is from the Bureau of Economic Analysis; the Bureau of the Census, and the Bureau of Labor Statistics. **Output:** Major bulletin(s) are published by BLS at approximately 2-year intervals. Articles published in the Monthly Labor Review present summary information on projection projects and employment requirements studies. All results are available

on computer tape. Unpublished detail is also available for computer listings. Special analyses can be performed by varying the basic set of assumptions used in the projections or by applying models and data bases to current situations.

S00906-016

Productivity and Costs (PRODY) System.

OMB Funding Code/Title: 16-0200-0-1-505 / Salaries and expenses

Program: Productivity and Technology

Congressional Relevance: House Committee on Education and Labor; Senate Committee on Labor and Human Resources; House Appropriations Committee: Labor, Health and Human Services, and Education Subcommittee; Senate Appropriations Committee: Labor, Health and Human Services, and Education Subcommittee

Authority: Department of Labor Act (P.L. 62-426).

Availability: Agency

Geographic Relevance: National

Purpose: The system provides information on labor and multifactor productivity--output per hour of all persons and output per unit of combined labor and capital inputs--and costs for the U.S. economy. This information helps public and private economists and planners evaluate and project economic progress, employment trends, and resource allocation. Productivity and cost measures are prepared for the business, nonfarm business, and manufacturing sectors (including durable and nondurable manufacturing subsectors) and for nonfinancial corporations. These measures are published in the Productivity and Costs press release (issued eight times annually) and are carried in the Monthly Labor Review (MLR), Employment and Earnings, Business Conditions Digest and Economic Indicators. Most of the series begin with 1947. Annual measures of multifactor productivity, output per unit of capital input, and output per hour of all persons are also maintained and regularly published for the private business, private nonfarm business, and manufacturing sectors. These measures are published twice yearly in the Multifactor Productivity press release and are carried in the MLR. Measures are also maintained for 10 major industrial classifications (annually) and for the total private economy and several residual sectors. All of the series cover the entire Nation; no regional divisions are available. Measures of productivity and costs are studied to disentangle secular and cyclical patterns and to illuminate the relationship between productivity and cost movements; quarterly articles and technical notes appear regularly in the MLR on these subjects. **Input:** Input includes measures of employment and average weekly hours data from the BLS Establishment Survey (790) and Household Survey. Output and capital measures are based on the National Income and Product Accounts (NIPA) prepared by the Bureau of Economic Analysis of the U.S. Department of Commerce and the Federal Reserve Board's Index of Industrial Production. Compensation data for employees and other costs data are from the NIPA. Data on changes in prices come from the Consumer Price Index prepared by BLS. **Output:** Reports include: 1) Productivity and Costs (press release; quarterly and annually, hardcopy; text, six tables); 2) Productivity Reports (MLR article; quarterly and annually, hardcopy); 3) Productivity and cost measures (1909-present, 1947-present, 1958-present; annually for aggregate sectors; hardcopy computer listings); 4) Residual sectors (quarterly; hardcopy computer listings); and 5) Capital/Labor ratios and Capital/Productivity ratios (1947-present; annually, hardcopy computer listings).

S00906-017

Productivity Indexes for Selected Industries and Government.

OMB Funding Code/Title: 16-0200-0-1-505 / Salaries and expenses

Program: Productivity and Technology

Congressional Relevance: House Committee on Education and Labor; Senate Committee on Labor and Human Resources; House Appropriations Committee: Labor, Health and Human Services, and Education Subcommittee; Senate Appropriations Committee: Labor, Health and Human Services, and Education Subcommittee

Authority: Department of Labor Act (P.L. 62-426).

Availability: Agency; OPO

Purpose: Productivity indexes measure the relationship between output in real terms and the labor time involved in its production. The measures are useful for studying changes in labor utilization, projecting future employment requirements, analyzing trends in labor costs, comparing productivity progress among industries and countries, examining the

effects of technological improvements on employment and unemployment, and analyzing related economic activities. The indexes of productivity and the related indexes of output, hours, and employment cover selected industries within the mining, manufacturing, trade, service, and transportation sectors of the economy. The indexes for the government cover about two-thirds of the civilian government workforce and selected state and local government services. Historical information is available for selected industries usually from 1947 or 1958 through the most recent year for which data are available. Measures for the government begin in fiscal year 1967 and extend through the latest fiscal year. The productivity indexes are available only at the national level. **Input:** Data from the Bureau of Labor Statistics, the Bureau of the Census, the ICC, the CAB, the Bureau of Mines, and other government agencies and trade associations are used to develop real output indicators. Data from the Bureau of Labor Statistics, the Bureau of the Census, the ICC, the CAB, and the Internal Revenue Service are used to develop measures for employment and hours. Productivity and related indexes for the government are developed from output employee-year and personnel compensation data collected directly from approximately 390 federal organizations. **Output:** Output includes Productivity Indexes for Selected Industries (annual bulletin, tables and charts, hardcopy). New industries are presented as articles in the Monthly Labor Review. Productivity in the government for 28 functional areas and the overall sample (recurring, article with tables and charts, hardcopy) articles appear in the Monthly Labor Review. Tables also appear in the Handbook of Labor Statistics.

Annual Survey of Occupational Injuries and Illnesses.

1972

and Human Services, and Education Subcommittee
Authority: Occupational Safety and Health Act of 1970 (P.L. 91-596).
Availability: Agency; GPO; NTIS
Geographic Relevance: National; State
Purpose: The survey secures information about the incidence of job-related fatalities and job-related nonfatal injuries and illnesses for various manufacturing and nonmanufacturing business activities. The data enable the Occupational Safety and Health Administration and similar state agencies to effectively set standards, guide enforcement and consultative activities, and establish educational and training programs which will reduce and control the incidence of occupational injuries and illnesses. The reports of injuries and illnesses submitted by employers are based on OSHA-required records. Data are tabulated at the 4-digit Standard Industrial Classification level in manufacturing, and the 3-digit level in construction, and other nonmanufacturing industries. **Input:** The survey sample includes about 280,000 establishments representing 5 million workplaces. Survey data are solicited from employers covered by the Occupational Safety and Health Act of 1970 and by other federal safety and health legislation. The major categories of data collected are deaths, lost workday cases, lost workdays, and nonfatal cases without lost workdays. **Output:** National data are published by industry and employment size annually in the form of a press release, a bulletin, and in a series of industry guides. In addition, data are republished in the President's Annual Report on Occupational Safety and Health. Tabulations are produced in hardcopy and on microfiche, and are sold in computer tape format.

Authority: Occupational Safety and Health Act of 1970 (P.L. 91-596).

Availability: National Technical Information Service

Geographic Relevance: State

Purpose: The system secures information about characteristics of injuries and accidents in order to effectively set standards, guide enforcement activities, and establish educational and training programs which will reduce the incidence of occupational injuries and illnesses. The system contains recorded characteristics of injuries and accidents: nature of injury-illness, part of body affected, source of injury-illness, and accident-exposure type. Other data elements which cooperating state agencies must submit are workers' occupation, SIC code, sex of the worker, and a sampling weight. Some state agencies also provide day of occurrence time of incident, time the workday began, object or substance associated with incident, age of the worker, length of service in the job or with employer, kind of insurance, weekly wages, extent of disability, indemnity compensation and medical payments. The time reference is one year. The update cycle is one year. The geographic reference point is the state. The information is provided in microdata format (data on individual cases) and is collected on magnetic tape. **Input:** The SDS secures information from reports of injuries and illnesses to state agencies, generally in connection with administration of workers' compensation programs. The data are collected from one source in each state or jurisdiction. Reports are routinely prepared by employers and others for use in administration of claims, and data are obtained from these reports as a byproduct of the administrative process. The major categories of data collected are characteristics of the injury or illness, the firm, the worker, and the work situation. **Output:** Tabulations of work injuries and illnesses are provided by state. Information is

S00906-021

Employment and Wages System, ES-202.

1936

OMB Funding Code/Title: 16-0200-0-1-505 / Salaries and expenses

Program: Labor Force Statistics

Congressional Relevance: House Committee on Education and Labor; Senate Committee on Labor and Human Resources; House Appropriations Committee; Labor, Health and Human Services, and Education Subcommittee; Senate Appropriations Committee; Labor, Health and Human Services, and Education Subcommittee

Authority: Department of Labor Act (P.L. 62-426).

Availability: Agency; GPO

Geographic Relevance: National; State; County; Metropolitan Statistical Area (Primary/Consolidated)

Purpose: Employment and Wages is compiled from information collected from mandatory tax documents for state unemployment insurance programs and contains the only data available covering the entire population of workers covered by unemployment insurance programs. Data for all operating units are classified by industry and state and county of work. Most employees in the United States are accounted for in this report. Exceptions are some agricultural and household workers, workers in certain nonprofit establishments, unpaid family workers, and railroad employees. Intended users include those needing information for economic research and planning, government funding and policy analysis, job market analysis, evaluation of unemployment insurance programs, and industry studies. The system also serves as a statistical basis for the unemployment actuarial systems and input to other statistical series: gross national product, personal income, rates of insured unemployment, sampling frame for statistical studies, foundation for labor market and manpower information program in many states. This system contains the following information: monthly employment, total quarterly wages, total number of reporting units, taxable wages, and employer contributions by state, industry, and for federal employees. All national and statewide data are available at the basic four digit SIC industry level. County data are available at the major industry group level. Annual averages are available at the industry group level nationally and on selected basis by state. Annual averages are available. **Input:** Data come from state unemployment insurance contribution reports, quarterly reports filed by approximately four million reporting units subject to the unemployment insurance laws/state Employment Security agencies. **Output:** Output is Employment and Wages (quarterly in hardcopy and some machine-readable data) and other tabulations and machine-readable data provided by the Division of Occupational and Administrative Statistics.

Authority: Department of Labor Act (P.L. 62-426).

Availability: Agency; GPO

Geographic Relevance: National; State; (SMSA) Standard Metropolitan Statistical Area

Purpose: The Current Employment Statistics program provides detailed current information on non-agricultural wage and salary employment in the Nation, states, and major areas. Estimates are based on a mail survey of employer units, which account for 39 percent of the total estimated employment. The industry employment statistics system also provides detailed information on average weekly earnings, average hourly earnings, and average weekly hours which relate to production workers

This system provides the following information: Non agricultural establishment employment data available: National total employment in major non-agricultural industries, 1919 to current year; total employment in 509 industries; production or non-supervisory workers in 451 private non-agricultural industries; women employees in 437 industries; selected employment series, seasonally adjusted; historical summary, annually, state and area- Total employment by major industry division for each state and 250 areas, annual averages in greater detail. Hours and Earnings data available: National gross hours and earnings of production or non-supervisory workers in private non-agricultural industries, 1947 to current year; gross hours and earnings in 454 industries; overtime hours in 323 manufacturing industries; indexes of aggregate weekly hours and payroll in private non agricultural industries; hourly earnings excluding overtime in major manufacturing industries; spendable weekly earnings, current and adjusted for price changes, for major industry groups, seasonally adjusted at the total private non-agricultural industry level; hours and average hourly earnings seasonally adjusted, total private and major divisions; historical summary, annually, state and area--Gross hours and earnings in manufacturing industries for each state and 209 areas, annual averages in greater detail. **Input:** Input is from CES-BLS-790, a sample of 163,000 employer units/state Employment Security agencies. **Output:** Reports produced include: The Employment Situation (press release, monthly, hardcopy); Employment and Earnings (monthly, hardcopy); and Employment and Earnings, United States (annually, hardcopy and machine-readable data); Employment and Earnings, state and areas (annually, hardcopy and machine-readable). They are available in the BLS labstat database.

Authority: Department of Labor Act (P.L. 62-426).

Availability: Agency

Geographic Relevance: National; Regional

Purpose: The system collects occupational wage, salary, and benefit data on a quarterly basis. It converts the data to straight time hourly compensation and calculates quarterly changes in wages and total compensation. In addition to the changes in wages and compensation published in the quarterly press release, the system generates a wide range of analytic tabulations that are used in preparing the analytic text of the press release. **Input:** Occupational wage, salary and benefit data are collected quarterly from approximately 2,000 establishments representing, with certain exclusions, the occupational employment composition of the private nonfarm economy. The major exclusions are the self employed, unpaid family workers, and private household employees. Data are also collected from about 750 establishments in state and local governments. **Output:** Quarterly statistical summaries are issued as press releases.

state or local government. This system contains information collected on the size and nature of changes in wages and benefits negotiated in labor contracts. The data are updated as new settlements occur. In addition, cost-of living adjustments are noted as they become effective. Data are not released on the size of individual settlements. **Input:** Information on collective bargaining settlements is derived primarily from secondary sources, including general circulation newspapers and periodicals, as well as union, management, and trade publications. Other possible sources include the file on union contracts maintained by BLS and contacts made to management or labor representatives. **Output:** Statistical summaries are issued as press releases quarterly for private industry and semi-annually for state and local government. They are also included in Current Wage Developments, a monthly report in terms of major collective bargaining settlements.

Labor Statistics Data Base and Analysis System (LABSTAT).

OMB Funding Code/Title: 16-0200-0-1-505 / Salaries and expenses

Program: Salaries and Expenses (All Programs)

Congressional Relevance: *House* Committee on Education and Labor; *Senate* Committee on Labor and Human Resources; *House* Appropriations Committee: Labor, Health and Human Services, and Education Subcommittee; *Senate* Appropriations Committee: Labor, Health and Human Services, and Education Subcommittee

Authority: Department of Labor Act (P.L. 62-426).

Availability: Agency

Geographic Relevance: International/Foreign; National; State; (SMSA) Standard Metropolitan Statistical Area; County; City

Purpose: This system provides a centralized data base of public data generated by the Bureau of Labor Statistics (BLS). At present, LABSTAT contains time series from most of the Bureau's programmatic areas. In addition, limited data from the Bureau of Economic Analysis, Department of Commerce are also stored (less than 1 per cent of the data base). LABSTAT is also designed and is being enhanced to provide statistical analysis facilities. LABSTAT is intended to serve economists, other socio-economic analysts, and information specialists. Space does not permit a detailed statement of contents. Two BLS documents provide this information: LABSTAT Data Contents Guide and LABSTAT Series Directory. The data base contained 16 million observations, some as early as 1913. The data base is updated several times a month as new observations are generated by the many separate data-producing activities of the Bureau. **Input:** Inputs consist of data and analytical programs. Most of the data come from other offices within BLS and include such measures as: labor force characteristics, employment and earnings, price indexes, labor turnover rates, productivity, values of imports and "penetration" ratios, and international labor measures. Many of the analytical computer programs come from BLS, but others have been obtained from the Federal Reserve System, the Bureau of the Census, and research institutions. **Output:** On April 1, 1984, LABSTAT contained over 140,000 computer-stored time series representing many of the Bureau's published figures. From this data base, individual users may obtain tables, charts, and statistical analyses. The results may be displayed on a line printer or computer terminal. Other output includes data base directories and magnetic tape extracts.

lished in 1971 to provide support services and statistical data mandated by the Federal Coal Mine Health and Safety Act of 1969, as amended by the Federal Mine Safety and Health Act of 1977. The Directorate plans and directs MSIIA education programs concerning safety and health in the nation's mining industry and the system ensures that mining personnel receive mandatory safety and health training prescribed by law, approves training plans, qualifies and certifies persons, evaluates for compliance and effectiveness, and provides safety and health analyses for development of specific training programs designed to reduce re-entraining, high-incident accidents and health hazards. The major files contain data on miners history, instructors, mines, training plans, and the Holmes Safety program. **Input:** The primary sources of information are training documents, requests for temporary qualification and certification, exam records, instructor updates, and training plans. The data are input by batch mode and by terminal on a weekly basis. **Output:** Certification and qualification cards are issued to individual miners and instructors. Lists of mine identification with addresses, by district, state and county are provided as requested. Various selections may be retrieved from the computer system for mine instructors, training plans, certified and qualified persons, and MSIIA courses in the formatted computer printouts, 16 mm microfilm, and CRT display as requested or as scheduled. Labels for mailout services are also provided. The Holmes Safety program containing chapter addresses and meetings statistics is run monthly and quarterly. All other programs are updated and run weekly.

10/01/81

OMB Funding Code/Title: 16-1200-0-1-554 / Salaries and expenses

Program: Enforcement: Coal

Congressional Relevance: House Committee on Education and Labor; Senate Committee on Labor and Human Resources; House Appropriations Committee: Labor, Health and Human Services, and Education Subcommittee; Senate Appropriations Committee: Labor, Health and Human Services, and Education Subcommittee

Authority: Federal Coal Mine Health and Safety Act of 1969 (P.L. 91-173). Federal Mine Safety and Health Amendments Act of 1977 (P.L. 95-164).

Availability: Agency

Geographic Relevance: National; State; City; County

Purpose: The Coal Mine Safety and Health Management Information System contains records on all Coal Mine Safety and Health personnel. The records consist of: annual manpower and activity plans, operational characteristics of surface and underground coal operations, identification of key officials at individual mines, functional time utilization information for all Coal Mine Safety and Health personnel, location categorization of all time utilized by inspection personnel for onsite visits to individual mines, violation information on individual mines, and information on plans and other documents submitted by coal mine operators. Source documents consist of weekly time and activity logs, mine status and inspection reports, and citation and order forms. **Input:** Inspection reports, citation and order forms, and environmental measurements provide the input for the system. **Output:** Monthly, quarterly, and annual reports of activities are generated. Special purpose reports can be produced as needed.

Program: Assessments

(P.L. 95-164). Federal Coal Mine Health and Safety Act 1969 (P.L. 91-173).

Availability: Agency

Geographic Relevance: National

Purpose: This system helps to determine assessments against mine operators for violations of mandatory health and safety standards. It keeps track of the status of cases and the collection of civil penalties. Reference files are retrieved and maintained relative to mine data, operator and controller data, mine ownership period, mine size, controller size, previous history of violations, special assessments, and representatives of the miners. The case builder programs generate assessment cases based on the data stored in these reference files. **Input:** Input is comprised of case records concerning mine operators. **Output:** Information stored in the reference files is accessed by on-line retrieval through a telecommunications network linking the assessment field office at the Arlington office to the Denver Departmental Computer Center.

Metal and Nonmetal Management Information System (MANMIS).

OMB Funding Code/Title: 16-1200-0-1-554 / Salaries and expenses

Program: Enforcement: Metal/Nonmetal

CFDA NO.: 17.600

Congressional Relevance: House Committee on Education and Labor; Senate Committee on Labor and Human Resources; House Appropriations Committee: Labor, Health and Human Services, and Education Subcommittee; Senate Appropriations Committee: Labor, Health and Human Services, and Education Subcommittee

Authority: Federal Coal Mine Safety and Health Act of 1969, amended (P.L. 91-173, title 1, § 101, as amended by P.L. 95-164, Stat. 745; 30 U.S.C. 811 et seq.).

Availability: Internal Use Only

Geographic Relevance: National; State; County

Purpose: The purpose of the Metal and Nonmetal Management Information System is to collect data related to inspector/investigator activities in order to allow evaluation of time utilization and inspection violation history of mining operations. Data are routinely produced fiscal year to date but are available from the inception of the system (1972) by special request. **Input:** Input source is Metal/Nonmetal inspectors and investigators. Major categories are mine identification data, enforcement events and hours, and violation data. **Output:** Major output types are hard copy summary reports aggregated at subdivision, district, and national levels and hardcopy detail reports for individual enforcement activities, mines, and violations. Most common frequency are monthly and by request.

Financial and Management Information System (FMIS).

1978

OMB Funding Code/Title: 16-1200-0-1-554 / Salaries and expenses

Program: Program Administration (Administrative Management)

Congressional Relevance: House Committee on Education and Labor; Senate Committee on Labor and Human Resources; House Appropriations Committee: Interior Subcommittee; Senate Appropriations Committee: Interior Subcommittee

Authority: Federal Mine Safety and Health Amendments Act of 1977 (P.L. 95-164, title III, § 302(a); 91 Stat. 1319; 29 U.S.C. 557(a)). Act of September 13, 1982 (P.L. 97-258; 96 Stat. 959; 31 U.S.C. 3511 et seq.).

Availability: Agency

Geographic Relevance: National; State; County

Purpose: The Mine Safety and Health Administration's centralized accounting system provides financial and related records on resources, liabilities and obligations, expenditures, and revenues. Costs are reported

to internal management, to other agencies, to the Congress, and to the public. It meets those objectives set forth in the *Budget and Accounting Procedures Act of 1950*: (1) disclosure of financial results; (2) financial information for management purposes; (3) accountability for all funds, property, and other assets; (4) preparing and supporting budget requests, controlling the execution of the budget, and providing financial information required by the Office of Management and Budget; and (5) integration of accounting with the Departmental Integrated Accounting System and reporting to the Treasury Department. Integrated with the Financial and Management Information System is a Capitalized Property Accountability, Reporting, and Procurement Information System and the centralized Integrated Payroll and Personnel System of the Office of the Assistant Secretary for Administration and Management. **Input:** Primary sources of information are purchase orders, contracts, travel advances, travel authorizations, supply requisitions, budgetary information, and Fedstrip documents. Data is input via the batch environment on a daily basis. Payroll files are input on a biweekly basis. **Output:** Operating reports, accountability reports, control totals, managerial reports and regulatory reports are some of the outputs generated from the Financial and Management Information System. General ledger trial balance reports, travel advance verification notices, plus an additional 100 different reports are all outputs from the system. Reports are generated on a daily, monthly, biweekly, and quarterly basis depending on the nature. The output media includes standard tabulating paper, microfiche, microfilm, and xerox.

Inspector General

SO0909-001

Assignment Tracking and Reporting System (ATARS).

OMB Funding Code/Title: 16-0165-0-1-505 / Salaries and expenses

Program: Inspector General

Congressional Relevance: *House Committee on Education and Labor; Senate Committee on Labor and Human Resources; House Appropriations Committee: Labor, Health and Human Services, and Education Subcommittee; Senate Appropriations Committee: Labor, Health and Human Services, and Education Subcommittee*

Authority: Inspector General Act of 1978 (P.L. 95-452; 92 Stat. 1101; 5 U.S.C. App.).

Availability: Internal Use Only

Geographic Relevance: National; State; City; Regional

Purpose: The purpose of the Assignment Tracking and Reporting System (ATARS) is to provide management information and information for the semiannual Inspector General report concerning audits. The ATARS tracks audit assignments from inception through resolution and closure. It includes a monthly time reporting system which collects professional staff time charged to each audit assignment during the fiscal year as well as time spent on indirect/administrative functions. The ATARS is in the process of conversion and will be subsequently redesigned for use on the recently acquired OIG minicomputers. **Input:** The input to the system is through forms which are filled out and keyentered by the cognizant office. **Output:** There are 15 standard reports which are available on demand.

Agency Contact: Inspector General. (202) 523-6374.

SO0909-002

Investigations Case Tracking System (ICTS).

OMB Funding Code/Title: 16-0165-0-1-505 / Salaries and expenses

Program: Inspector General

Congressional Relevance: *House Committee on Education and Labor; Senate Committee on Labor and Human Resources; House Appropriations Committee: Labor, Health and Human Services, and Education Subcommittee; Senate Appropriations Committee: Labor, Health and Human Services, and Education Subcommittee*

Authority: Inspector General Act of 1978 (P.L. 95-452; 92 Stat. 1101; 5 U.S.C. App.).

Availability: Internal Use Only

Geographic Relevance: National; State; City; Regional

Purpose: The purpose of the Investigations Case Tracking System is to

provide management information and information for the semiannual Inspector General reports concerning investigations and associated worktime. The investigation tracking subsystem contains status information and counts of various significant items such as convictions, costs recovered, etc. The worktime subsystem keeps track of time spent on investigations and administrative activities. Both the Office of Investigations and the Office of Organized Crime and Racketeering use this system. The data include all activity after October 1979. The system will be redesigned for use on the recently acquired OIG minicomputers. **Input:** The input to the system is interactive. **Output:** Output from the system include responses to some online queries and a number of regional and national batch reports, all of which are initiated by the user as required. **Agency Contact:** Inspector General. (202) 523-6374.

SO0909-003

Office of the Inspector General Index System.

OMB Funding Code/Title: 16-0106-0-1-505 / Office of the Inspector General

Program: Office of the Inspector General

Authority: Inspector General Act of 1978 (P.L. 95-452; 92 Stat. 1101; 5 U.S.C. App. III).

Availability: Internal Use Only

Geographic Relevance: National

Purpose: The purpose of the Office of the Inspector General (OIG) Index System is to collect information from the Offices of Audit, Investigations, and Organized Crime and Racketeering; link the associated information; and provide retrieval of the information readily. Users are able to query the system with a small amount of information and retrieve all information pertinent to the query. The system will be subsequently redesigned for use on the recently acquired OIG minicomputers. **Input:** The input to the system is interactive. **Output:** Outputs from the system are primarily responses to online queries and five reports for national level usage.

Agency Contact: Inspector General. (202) 523-6374.

DEPARTMENT OF STATE

Bureau of International Organization Affairs

S01010-003

Office of International Conferences (OIC) Computer Based Information System.

OMB Funding Code/Title: 19-1125-0-1-153 / International conferences and contingencies

Program: International Conferences (Other)

Congressional Relevance: House Committee on Foreign Affairs; Senate Committee on Foreign Relations; House Appropriations Committee: Commerce, Justice, State, The Judiciary and Related Agencies Subcommittee; Senate Appropriations Committee: Commerce, Justice, State and Judiciary Subcommittee

Authority: Secretary of State Powers Act of 1956 (P.L. 84-885). Foreign Service Act of 1946 (P.L. 79-724).

Availability: Agency

Geographic Relevance: International/Foreign

Purpose: The system is designed to provide support for the budget officers responsible for the international conferences and contingencies appropriation, and for the program and administrative officers responsible for U.S. participation in international conferences. Information will be entered in conference title files chronologically and will include such general facts as conference name, subject, date, location, and sponsoring organization. It will also include data on U.S. participation in budget estimates and expenditures (broken down into travel--per diem, support, and representation) and delegation composition with name, sex, funding source, and whether from public or private sector. Data will be entered as they become available and will be retained in the system for a minimum of five years, the exact time being determined by need for future conferences. **Input:** Data will be collected by the budget, program, and administrative officers from sources (appropriate to each conference) within the Department of State, other federal agencies, private sector entities, and international organization bodies, and will be formatted as necessary for the computer system. **Output:** Hardcopy (teletype) output will be available on an interactive basis. A program is being written to enable the system to respond to queries on the current status of OIC appropriation, on the current status of information on any one conference, and/or on statistical compilations based on one or more elements of data (size of delegation, site of conference, dates of conference, female delegates, and non-government members).

Bureau of Consular Affairs

S01012-001

Consular Package.
1978

OMB Funding Code/Title: 19-0113-0-1-153 / Salaries and expenses

Program: Diplomatic Relations with Foreign Countries; Diplomatic Relations Through International Organizations

Congressional Relevance: House Committee on Foreign Affairs; Senate Committee on Foreign Relations; House Appropriations Committee: Commerce, Justice, State, The Judiciary and Related Agencies Subcommittee; Senate Appropriations Committee: Commerce, Justice, State and Judiciary Subcommittee

Authority: Foreign Service Act of 1980 (P.L. 96-465). Mutual Defense

Assistance Control Act of 1951 (P.L. 82-213). Secretary of State Powers Act of 1956 (P.L. 84-885). Foreign Assistance Act of 1961 (P.L. 87-195).

Availability: Internal Use Only

Geographic Relevance: International/Foreign

Purpose: The Consular Package is a worldwide statistical composite of the Department's overseas consular workload, used as a management tool to review consular workloads in the field. It is designed to provide the data the Department requires to reprogram American and local positions rationally and to justify new positions where increased workloads so warrant. The system thus permits the Department to evaluate the relative needs of posts so that the most effective and economical use of manpower resources is attained. CA and the regional bureaus use the Consular Package in support of their budget presentations before the Department, OMB, and Congress. A consular package is prepared by each post. Data are provided on the basis of fiscal year workloads. Included in the consular package are: 1) immigrant visa workload statistics; 2) nonimmigrant visa workload statistics; 3) special consular services broken down into identifiable categories such as naturalizations, arrests, American citizen deaths, welfare, and whereabouts; 4) citizenship and passport services broken down into identifiable categories such as passports issued, reports of birth, and consular witness to marriage; 5) recommended increases/decreases in American and local consular positions; 6) special workloads unique to post; and (7) workloads related to the processing of refugee cases by consular section. **Input:** The data are provided by each overseas post which has a consular operation. **Output:** The principal output is a composite consular package prepared annually for the appropriate fiscal year budget submission. The composite package is in loose leaf binder form with both machine- and hand-produced copy. All data are available through manual extraction by post, geographic areas, or worldwide.

Agency Contact: Bureau of Consular Affairs. (202) 632-1158.

S01012-002

Consular Arrest System.

1978

OMB Funding Code/Title: 19-0113-0-1-153 / Salaries and expenses

Program: Conduct of Diplomatic and Consular Relations with Foreign Countries

Congressional Relevance: House Committee on Foreign Affairs; Senate Committee on Foreign Relations; House Appropriations Committee: Commerce, Justice, State, The Judiciary and Related Agencies Subcommittee; Senate Appropriations Committee: Commerce, Justice, State and Judiciary Subcommittee

Authority: Foreign Service Act of 1980 (P.L. 96-465). Mutual Defense Assistance Control Act of 1951 (P.L. 82-213). Secretary of State Powers Act of 1956 (P.L. 84-885). Foreign Assistance Act of 1961 (P.L. 87-195).

Availability: Agency

Geographic Relevance: International/Foreign

Purpose: The Consular Arrest System maintains current information on Americans in prison in foreign countries in order to respond to requests for this information from the Congress, other United States government agencies, and the public. Upon notification by local authorities that an American citizen has been arrested and detained, a consular officer, based on personal visits and other information sources, develops current information on the case. This information is transmitted to the Department in Washington, where a file is created in the Department's Consular Arrest System. This file is updated as the case progresses and is moved to inactive status upon the release of the American citizen from jail. The file contains up to 71 data elements covering personal identity

of the case, and reports on the personal welfare of the prisoner. At the present time, there are approximately 21,000 active and inactive cases in this data file. These cases are updated on a daily basis as new information is received. This system is used to provide individual case information for the official use of the Department's case officers and statistical information to provide meaningful trend data upon receipt of an appropriate inquiry. **Input:** Information received from consular officers on Americans in prison in their consular districts provides the input for the system. **Output:** The system produces an annual report to the Congress and ad hoc responses to inquiries from the Congress, other agencies of the Executive Branch, and the public.

Agency Contact: Bureau of Consular Affairs. (202) 632-3225.

Passport Files Miniaturization Project (PF3M)

1978

OMB Funding Code/Title: 19-0113-0-1-153 / Salaries and expenses

Program: Conduct of Diplomatic and Consular Relations with Foreign Countries

Congressional Relevance: *House* Committee on Foreign Affairs; *Senate* Committee on Foreign Relations; *House* Appropriations Committee: Commerce, Justice, State, The Judiciary and Related Agencies Subcommittee; *Senate* Appropriations Committee: Commerce, Justice, State and Judiciary Subcommittee

Authority: Foreign Service Act of 1980 (P.L. 96-465); Mutual Defense Assistance Control Act of 1951 (P.L. 82-213); Secretary of State Powers Act of 1956 (P.L. 84-885); Foreign Assistance Act of 1961 (P.L. 87-195)

Availability: Internal Use Only

Geographic Relevance: National

Purpose: The Passport Files Miniaturization Project was designed to reduce the space requirement and improve the efficiency of the passport files function through micrographic and minicomputer technologies. The information content of the system consists of citizenship and personal data, including a photograph supplied by the passport applicant. The key elements of this data are: full name, sex, date of birth, place of birth, date passport was issued, and passport number. The original passport application is filed on microfilm, and the location in the film file is added to the key data elements listed above. The key data and file address are filed electronically with the aid of a computer data processing system. The key data elements are written on computer output microfilm (COM) in annual editions, ordered by name and passport number, when they are retired from the electronic file. The system is expected to be fully operational in July 1978 and will process new documents as received forward in time. The rate of passport applications is now approximately 3.6 million yearly and a 10 percent annual rate of growth has been projected. **Input:** The physical documents which make up a passport application file are recorded on microfilm and certain key information is input into a minicomputer to aid in the file search function. **Output:** The outputs are key passport issuance data displayed on CRT terminals and microfilm images of the original passport documents displayed on microfilm viewers with facsimile print capability. Throughput statistics are reported by computer printout to assist in managing the file function. The query capability is by passport number or bearer's name. There are about 800 queries per day.

S01012-004

Immigrant Visa Applicant Control System (IVACS)

1981

OMB Funding Code/Title: 19-0113-0-1-153 / Salaries and expenses

Program: Conduct of Diplomatic and Consular Relations with Foreign Countries

Congressional Relevance: *House* Committee on Foreign Affairs; *Senate* Committee on Foreign Relations; *House* Appropriations Committee: Commerce, Justice, State, The Judiciary and Related Agencies Subcommittee; *Senate* Appropriations Committee: Commerce, Justice, State and Judiciary Subcommittee

Authority: Immigration and Nationality Act, as amended (P.L. 82-414, title II, § 222; 66 Stat. 163; 8 U.S.C. 1104); Foreign Service Act of 1980 (P.L. 96-465).

Geographic Relevance: International/Foreign

Purpose: This system is used in Consular sections at foreign service posts to provide a computer-assisted data filing program and an automated immigrant visa processing system. The data base contains administrative and personal data about intending immigrants to the United States, including principal country for quota chargeability, visa classification, required background checks, and visa processing actions. The system provides immediate screen display capability for visa status reports and is programmed to automatically process AVLOS name-checks, request visa numbers, and assign visa numbers while printing the immigrant visa in machine-readable type. Another capability automatically generates pre-addressed replies to correspondence or letters of visa instructions. **Input:** Data about an intending immigrant is entered into the data base system when an applicant registers with a U.S. consulate as a potential immigrant. The system prompts the visa clerk for certain required processing steps and the record is updated as each step of visa processing is completed until it is placed in the archives status after the visa is issued. **Output:** In addition to interactive and ad hoc report capabilities, the system will generate statistics for administrative purposes and monthly visa reports required by law.

Agency Contact: Bureau of Consular Affairs. (202) 632-1939.

S01012-005

Nonimmigrant Visa Computer-Assisted Processing System (NIV/CAPS)

1980

OMB Funding Code/Title: 19-0113-0-1-153 / Salaries and expenses

Program: Conduct of Diplomatic and Consular Relations with Foreign Countries

Congressional Relevance: *House* Committee on Foreign Affairs; *Senate* Committee on Foreign Relations; *House* Appropriations Committee: Commerce, Justice, State, The Judiciary and Related Agencies Subcommittee; *Senate* Appropriations Committee: Commerce, Justice, State and Judiciary Subcommittee

Authority: Foreign Service Act of 1980 (P.L. 96-465); Immigration and Nationality Act (P.L. 82-414, title II, § 222; 66 Stat. 477; 8 U.S.C. 1202).

Availability: Agency

Geographic Relevance: International/Foreign

Purpose: This system is used abroad in consular sections of major visa issuing posts of the Foreign Service. It facilitates post namechecking against a larger "lookout" data base located in the Department of State and automates the processes of preparing monthly and semiannual reports on visas issued and refused by type of issuance or refusal and by nationality. It also provides reports which will assist post administrators in managing the visa issuance function. Data on applicants for the most recent month will be "on-line" and immediately retrievable. Data is maintained on tape for one year or longer. **Input:** Input consists of name, place of birth (country), date of birth, passport country, and type of visa issued for each applicant issued a visa. For each refusal, the refusal reason and data are entered with an option to enter additional data as an "annotation" on the record. **Output:** Reports consist of statistics (no names) on a daily, monthly, and semiannual basis on visa issuances and refusals by a variety of categories, including place of birth and visa or refusal type. Retrieval of individual records by name and the results of a name check against a "lookout" data base for each applicant will be available as needed.

Agency Contact: Bureau of Consular Affairs. (202) 632-1939.

S01012-006

Immigrant Control and Reporting System (ICARS)

10/01/81

OMB Funding Code/Title: 19-0113-0-1-153 / Salaries and expenses

Program: Conduct of Diplomatic and Consular Relations with Foreign Countries

Congressional Relevance: *House* Committee on Foreign Affairs; *House* Committee on The Judiciary; *Senate* Committee on Foreign Relations; *Senate* Committee on The Judiciary; *House* Appropriations Committee: Commerce, Justice, State, The Judiciary and Related Agencies Subcommittee; *Senate* Appropriations Committee: Commerce, Justice, State and Judiciary Subcommittee

Authority: Foreign Service Act of 1980 (P.L. 96-465); Immigration and

Nationality Act (P.L. 82-414, title II, § 201, 202, 203, 66 Stat. 175-176, 178; 8 U.S.C. 1151, 1152, 1153).

Availability: Agency

Geographic Relevance: International/Foreign

Purpose: This system is used by the Visa Office, Bureau of Consular Affairs, to provide computer-assisted management of immigrant visa applications in accordance with the requirements of the Immigration and Nationality Act. The data base contains the demand for immigrant numbers worldwide by qualified applicants, and the total immigrant visa allocations fiscal-year-to-date for each foreign country and is accumulated from immigrant visa demand reports submitted monthly by the Foreign Service posts abroad and the Immigration and Naturalization Service. The system offers immediate screen display capability for the status of each foreign country and provides immigrant number allocations within the numerical limitations to issuing offices. A monthly report of immigrant visa issuances broken down by country and category and a semiannual report of nonimmigrant visas issued by nationality and visa classification are submitted by offices abroad and form the basis for statistical reports by the Visa Office on worldwide visa activity. **Input:** Data from the posts abroad and the Immigration and Naturalization Service on the quality of immigrant demand by foreign country, visa preference class, and priority date are entered into the data base each month. Immigrant demand that cannot be allocated during a month cycle is held back in backlog until the next monthly process. Immigrant visa issuance totals from offices abroad are added to the data base each month and nonimmigrant visa issuance data semiannually. An annual report from each immigrant processing office abroad on the total pending immigrant cases on file is entered each year for tabulation of total worldwide pending immigrant cases. **Output:** The system has interactive and ad hoc capabilities. Data are accumulated for each fiscal year and statistics generated for the management of the visa allocations process. Statistical tables on immigrant and nonimmigrant visa issuances are printed following the end of each fiscal year and distributed to interested parties in the Department of State, the Immigration and Naturalization Service, Congress and the public.

Program: Conduct of Diplomatic and Consular Relations with Foreign Countries

Congressional Relevance: House Committee on Foreign Affairs; Senate Committee on Foreign Relations; House Appropriations Committee: Commerce, Justice, State, The Judiciary and Related Agencies Subcommittee; Senate Appropriations Committee: Commerce, Justice, State and Judiciary Subcommittee

Authority: Foreign Service Act of 1980 (P.L. 96-465). Immigration and Nationality Act (P.L. 82-414, title II, § 222, 66 Stat. 477; 8 U.S.C. 1202).

Availability: Agency

Geographic Relevance: International/Foreign

Purpose: Regulations require that all visa applicants be checked against a list of persons for whom a "lookout" has been established. The list includes persons previously denied visas, persons in whom U.S. security and law enforcement agencies have an interest, or violators of the Immigration and Nationality Act. AVLOS is a computerized file of some 1.6 million names, which provides a quick and error free name check for 71 Foreign Service posts. The data base is located in the Department of State, and it is constantly updated. AVLOS not only provides an efficient method of name checks for post on line, but it has also served as a basis for computerized innovations in the consular field. **Input:** The data base contains the name, date of birth, place of birth, refusal code, and originator of the entry into the system. These administrative and personal data about either intending immigrants or nonimmigrants allow a Foreign Service post to conduct the required name check in an expeditious manner. **Output:** The system provides a variety of information about the status of aliens, such as previous visa refusals, Immigration and Naturalization Service deportation information, and persons in whom there is U.S. security interest. The system lists the individual's name, date of birth, place of birth, reasons for entry and office which entered the name into the system on request.

Geographic Relevance: International/Foreign

Purpose: The Citizen Services System was developed for use abroad in Consular Sections at Foreign Service posts to provide a computer assisted data filing program for American citizens resident in and visiting foreign countries. The files are maintained to enable the post to notify citizens in emergencies and to record services provided to citizens. The data base contains administrative and personal details about U.S. citizens which includes but is not limited to: passport number, date and place of issue, date and place of birth, name, sex, marital status, foreign address, U.S. address, next of kin, and date of service provided by the post. **Input:** Data about a citizen is entered when the citizen formally registers at the foreign service post or when the post receives a request for service to or for the citizen. The formal registration file is maintained for five years after the last activity in the file. The file of visitors and/or requests for service to or for a citizen is maintained temporarily and is deleted when no further need is evident. **Output:** In addition to interactive and ad hoc report capabilities, the system can generate lists of citizens registered at post.

Purpose: The system fulfills the objectives of the Budget and Accounting Procedures Act of 1950. The system is to provide management with financial data for acquiring and effectively managing the Department's resources. The activities are budgeted and accounted for within the Department's several uniform systems. The Account Structure and Classification codes have been developed so that one uniform set of codes accommodates organizational and management changes and provides for classifying related data and information for budgeting, accounting, personnel administration, and other operating requirements under all appropriations. **Input:** Source documents are processed daily and fed into the Department's Financial Management (FINMAN) System from which daily, weekly, monthly, quarterly, and annual reports are prepared. Documents consisting of funds, obligations, and liquidations are also processed at U.S. foreign posts or through one of the three overseas regional finance centers located in Paris, Bangkok, and Mexico City. **Output:** Output is hardcopy financial reports which are generated monthly, quarterly, and annually. Special reports can only be obtained through special programming since all pertinent data are stored on magnetic tapes.

Purpose: The Office of Management Operations (M/MO) Position Control System (PCS) monitors the worldwide status of full-time American positions within the Department of State. The system provides the office of the Deputy Under Secretary for Management and other interested parties with information on the movement, history, and current location of positions authorized to the various bureaus and offices throughout the Department. The output from this system is important in supporting the decisionmaking at top management in responding to changing internal and external personnel requirements. The data base for the PCS is composed partly of information extracted from the Department's automated personnel system and partly of original information input to the system by the Office of Management Operations (M/MO). The administrator of the PCS is the Director of Management Operations. The PCS is based on Computer Corporation of America's Model 204 DBMS. It will be maintained on-line for daily entry of transactions (approximately 5-20 a day) and for ad hoc query via CRT. Recurring reports will be produced monthly. The files will require approximately 7,500 bytes of storage. There will be an individual record for each position. **Input:** All input is internally generated and falls into four categories: DS-860 Authorization for Permanent Positions and Employment; DS-1670 Request for Position Data Change; DS-103M Request for Personnel Action; and mass position transfers. **Output:** Ad hoc reports can be produced via CRT or hardcopy terminal. Recurring hardcopy monthly reports and a monthly reconciliation, in hardcopy, are also produced by this system.

Availability: Internal Use Only

Geographic Relevance: International/Foreign

Purpose: The Foreign Service Institute (FSI) cost accounting and management system serves these major purposes: it serves as a basis for calculating tuition to be charged to other government agencies participating in FSI courses; it provides cost data responsive to information requests from the Department for the Office of Management and Budget (OMB) and for congressional hearings; and it provides management with the basic information necessary for analyzing the cost of FSI operations. Accounting, budgeting, property, reimbursements, and enrollment data are contained in one integrated system. The system provides for periodic input and update of data information. Annual, semiannual, and quarterly reports for the respective subfunctions are generated by the system. **Input:** Data elements cover the cost of instruction, from

reimbursements, obligations and accrual accounting, obligations and cost-based budgeting, and nonexpendable personal property inventory accounting.

Authority: Foreign Service Buildings Act, 1926 (P.L. 69-186, § 4).

Availability: Agency.

Geographic Relevance: International/Foreign.

Purpose: An inventory is provided for all real properties owned and leased overseas in the name of the Secretary of State. This includes all management functions related thereto, such as buying and selling of real properties, construction projects, improvements and renovations, long-term leasing activities, etc. A Real Property Record is prepared at the overseas post for each government-owned and leased property and submitted to FBO. It provides descriptive data and serves as the basic document for property inventory control in FBO. The Government-Owned and Leased Real Property Report is prepared annually in booklet form by FBO. This report provides a consolidated inventory of government-owned and leased properties listed individually by posts with geographic areas. It contains descriptive data on each property, initial costs, and accumulated costs. This report is generated from the real property inventory information system, a computer file of real property records. The computer file is also the data source for providing the General Services Administration (GSA) the computerized reports (via magnetic tape) at the Annual Report of Real Property Owned and Real Property Leased. **Input:** Inputs are the Real Property Records and Quarterly Control Listings. **Output:** Various management reports.

Program: Salaries and Expenses (All Programs)

Congressional Relevance: *House* Committee on Foreign Affairs; *Senate* Committee on Foreign Relations; *House* Appropriations Committee: Commerce, Justice, State, The Judiciary and Related Agencies Subcommittee; *Senate* Appropriations Committee: Commerce, Justice, State and Judiciary Subcommittee

Authority: Foreign Service Act of 1980 (P.L. 96-465). Mutual Defense Assistance Control Act of 1951 (P.L. 82-213). Secretary of State Powers Act of 1956 (P.L. 84-885). Foreign Assistance Act of 1961 (P.L. 87-195).

Availability: Internal Use Only

Geographic Relevance: International/Foreign

Purpose: The purpose of the Foreign Affairs Information System (FAIS) is to provide an automated central repository for the text and indices to virtually all Department of State documents. The system is available to all Department of State personnel with a need for the stored information. At the present time the data base is composed of the text of Department of State telegrams and indices (called citations) to those telegrams, as well as indices to hardcopy information sources such as airmails, letters, memos, and diplomatic notes. The telegraphic text remains available on-line for about 15 months after receipt. The text of all documents (both telegraphic and hardcopy) is recorded on microfilm and stored in the Foreign Affairs Information Management Center, (A/OPR/FAIM) retrieval unit. The indexing is accomplished by a combination of computers and people. The computer builds part of the citation record from the telegram external such as date, originator, and addressee. The citation is then completed by an indexer who applies subject concepts as necessary from a cathode ray tube (CRT). The retrieval of indexed documents and telegraphic texts is available to users via CRT and printer terminals throughout the Department. **Input:** The input consists of information generated or received by the Department in the normal course of business, including diplomatic notes, congressional correspondence, and telegrams. **Output:** The FAIS is a large-scale, on-line information storage and retrieval system. The only outputs are copies of stored documents.

Availability: Agency; GPO

Geographic Relevance: International/Foreign; City

Purpose: The FLC-AP measures costs of living, costs of permanent housing (if government quarters are not provided), costs of temporary lodging, and costs of dependents' education in foreign areas where U.S. government employees are assigned. Based on analysis of costs, appropriate rates of allowances and travel per diem are established to reimburse employees for extraordinary costs of living, education, average costs of housing, and subsistence during travel. Basic reports contain 700 prices for 200 different items on general living costs; rent and utilities costs for house/apartment units; charges for hotel rooms and restaurant meals; and fees and costs of attending specific schools. About 700 foreign locations are assigned appropriate rates of allowances resulting from analyses of data. **Input:** Data are obtained from regular reports from U.S. government posts in foreign areas (embassies, consulates, and others). Reports are chiefly forms DSP-23 Retail Price Schedule, DSP-63 Education Allowance Questionnaire, SF-1190 Foreign Allow-

ances Application, Grant and Report (housing expense portion), and DF-267 Post Differential Questionnaire. **Output:** Two hardcopy products are produced by this system: Classification Rates for Foreign Locations, published every 4 weeks in sections 920 and 925 Standardized Regulations (Government Civilians, Foreign Areas), and U.S. Department of State Indexes of Living Costs Abroad, Quarters, Allowances and Hardship Differentials, published quarterly by the Bureau of Labor Statistics.

S01023-004

Information Request Management System (INFORM).

08/80

OMB Funding Code/Title: 19-0113-0-1-153 / Salaries and expenses

Program: Technical Support Programs

Congressional Relevance: *House* Committee on Foreign Affairs; *Senate* Committee on Foreign Relations; *House* Appropriations Committee: Commerce, Justice, State, The Judiciary and Related Agencies Subcommittee; *Senate* Appropriations Committee: Commerce, Justice, State and Judiciary Subcommittee

Authority: Government Organization and Employees Act (P.L. 89-552) as amended by P.L. 93-502, § 1-3; 80 Stat. 383; 5 U.S.C. 552). Privacy Act of 1974, as amended (P.L. 93-579, § 3, as amended by P.L. 94-142, § 2(2); 88 Stat. 1897; 5 U.S.C. 552a). (Executive Order 12356).

Availability: Internal Use Only

Purpose: The data base for the Information Request Management System contains information concerning requests from the public for information from the Department of State's Central Foreign Policy File source. The information will be used by Department personnel to manage information requests as they are processed for information release, and to produce statistics on the results of that process. The system contains information on about 4,000 information requests per year beginning with requests for 1979. **Input:** The input consists of information identifying the request and information concerning the results of attempts to provide the requested information. **Output:** The output consists of hardcopy reports of information request status, documents produced to satisfy the request, and statistics related to request processing.

Agency Contact: Administration. (202) 632-3411.

DEPARTMENT OF TRANSPORTATION

S01100-001

Federal Transportation Financial Data Base FY 1970 to 1980.

OMB Funding Code/Title: 69-0142-0-1-407 / Transportation planning, research, and development

Program: Transportation Policy and Planning

Congressional Relevance: *House* Committee on Public Works and Transportation; *Senate* Committee on Environment and Public Works; *House* Appropriations Committee: Transportation Subcommittee; *Senate* Appropriations Committee: Transportation Subcommittee

Authority: Department of Transportation Act of 1966 (P.L. 89-670).

Availability: Agency

Geographic Relevance: State; National

Purpose: These reports identify and briefly discuss the federal domestic transportation revenue obligations and expenditure programs and the attendant funding levels for the time period 1970-1980. The programs incorporated into this report include: for revenues, the Highway Trust Fund and the Airport and Airway Trust Fund; and for obligations and expenditures, federal aid to highways, federal aid to airports, airways, air carrier subsidy, urban mass transit, Coast Guard, and Corps of Engineers (navigation). The historical description of transportation programs and accompanying time series of revenues, obligations and expenditures will be useful and informative to a variety of persons ranging from federal, state, and local transportation planners and policy developers to academicians and students of transportation and community planning. The revenue and expenditure tabulations identify specific modal program areas, where appropriate, showing levels of funding by fiscal year 1957-1975. Highway revenues are listed by state; airport and airway data are listed at the U.S. total level only while expenditures are shown by state and within states by aggregate SMSA's and non-SMSA's (rural) separately. This report is to be updated and refined about every two years. **Input:** Highway Trust Fund--various published and unpublished annual reports of expenditures by state and annual computer tapes. New Automobile Excise Tax--unpublished expenditures by state and annual computer tapes. Airport and Airway Trust Fund--Subsidy for U.S. Certified Air Carriers, CAB (annual) and Public Benefits provided by the Local Airline Industry, Association of Local Transport Airlines (Bi-annual). Federal-aid for Highways--Appendix to the Budget of the U.S. Government (annual). Urban Transit--Annual disbursements computer tapes. Coast Guard--Appendix to the Budget of the U.S. Government (annual) and Federal Outlays in States (Executive Office of the President, 1966-1971). Corps of Engineers--Annual Reports of the Chief of Engineers, Civil Works Activities, Corps of Engineers, Department of the Army. **Output:** The principal output is a series of reports presenting National and state level data by agency and program.

Agency Contact: (202) 426-2090.

S01100-006

Department of Transportation Contract Information System (DOT/CIS). (M-60).

OMB Funding Code/Title: 69-0102-0-1-407 / Salaries and expenses

Program: Salaries and Expenses (All Programs)

Congressional Relevance: *House* Committee on Public Works and Transportation; *Senate* Committee on Commerce, Science, and Transportation; *Senate* Committee on Environment and Public Works; *House* Appropriations Committee: Transportation Subcommittee; *Senate* Appropriations Committee: Transportation Subcommittee

Authority: Department of Transportation Act of 1966 (P.L. 89-670). Hazardous Materials Transportation Act (P.L. 94-474). Natural Gas

Pipeline Safety Act Amendments of 1976 (P.L. 94-477). Office of Federal Procurement Policy Act (P.L. 93-400).

Availability: Agency

Geographic Relevance: International/Foreign; National; State, Congressional District; County

Purpose: This system provides current information on DOT contract awards over \$10,000 to offices within the Department and responds to queries about DOT contract activity from many sources, including Congress, GAO, OMB, and private industry. The system also is used to provide input to the Federal Procurement Data System (FPDS) Data elements include operating administration, procurement office, contract number, contractor name, award date, value of contract, type of contract, method of solicitation, and whether special clauses are used in the contract. Additional information about the contractor includes type of business (large, small, minority, non-profit, educational institution), as well as contractor business location and place of performance (city, state, county, and congressional district) and additional socio-economic and demographic data on DOT contractors. The system contains data from fiscal year 1972 to the present and is updated monthly. Contract modifications are also included. **Input:** Input is received internally from the 55 DOT procurement offices on DOT Form 4220.11. **Output:** The following reports are produced: edit and update reports (monthly), Individual Contract Information Report (monthly), Type of Business Report (semiannually), Report of Actions for FPDS (quarterly), and special reports on request.

Agency Contact: (202) 426-4237.

S01100-007

Grant Information System (GIS).

OMB Funding Code/Title: 69-0102-0-1-407 / Salaries and expenses

Program: General Administration

Congressional Relevance: *House* Committee on Public Works and Transportation; *Senate* Committee on Commerce, Science, and Transportation; *Senate* Committee on Environment and Public Works; *House* Appropriations Committee: Transportation Subcommittee; *Senate* Appropriations Committee: Transportation Subcommittee

Authority: Department of Transportation Act of 1966 (P.L. 89-670).

Availability: Agency

Geographic Relevance: National; State; (SMSA) Standard Metropolitan Statistical Area; Congressional District; County; City

Purpose: The GIS provides current grant information in various formats and locations required by management and other users, particularly Congressmen and Senators, to assist in determining where and for what purpose DOT grant funds are distributed. The system is also used to provide input to the Federal Assistance Award Data System (FAADS). Data elements include grantee, locations, amount of funds, award dates, SMSA codes, FIPS codes, congressional districts, types of grants, performance locations, and region codes. The time period covered is January 1, 1969, to present. Grantee business location and place of performance (city, state, county, congressional district, and region) are included. **Input:** Input is received from each DOT administration. **Output:** Several routine reports are produced. Special queries are run upon request. Machine-readable output is also available. Quarterly report is provided for FAADS.

Agency Contact: (202) 426-4160.

S01100-012

Transportation Safety Information System (TRANSIS).

OMB Funding Code/Title: 69-0142-0-1-407 / Transportation planning, research, and development

See, *Senate Appropriations Committee: Transportation Subcommittee*
Authority: Act of August 4, 1949 (P.L. 81-207, § 1, 63 Stat. 544, 14 U.S.C. 631 et seq.).

Availability: Internal Use Only

Geographic Relevance: Coast Guard District

Purpose: The system is to produce statistical reports of aircraft, boats, and cutters for each district. These reports reflect the activities within current Coast Guard programs and represent a bona fide method for planning, programming, and budgeting the Coast Guard program. COMDTINST 3123.7D provides authority for this system. The system is Coast Guard-wide. Principal data elements are cumulative hours expended for operation of aircraft, boats, and cutters within current Coast Guard programs, i.e., Search and Rescue. **Input:** Abstracts of Operation Reporting Forms (CG-3273A, CG-3273B, CG-3273C) are produced at unit level and forwarded through districts to headquarters as input. **Output:** Reports include: Abstract of Operation Boat Reports (quarterly-annually), Abstract of Operation Aircraft/Maintenance (quarterly-annually, hardcopy), and Abstract of Operation Cutter Report (quarterly-annually, hardcopy). There is no query capability.

Agency Contact: Coast Guard. (202) 426-4927.

501101-008

Pollution Incident Reporting System II (PIRS).

OMB Funding Code/Title: 69-0201-0-1-403 / Operating expenses

Program: Marine Environmental Protection

Congressional Relevance: *House Committee on Merchant Marine and Fisheries; Senate Committee on Commerce, Science, and Transportation; House Appropriations Committee: Transportation Subcommittee; Senate Appropriations Committee: Transportation Subcommittee.*
Authority: Act of August 4, 1949 (P.L. 81-207, § 1; 63 Stat. 544, 14 U.S.C. 631 et seq.). Clean Water Act, as amended (P.L. 96-483, § 1; 94 Stat. 2360, 33 U.S.C. 1251 et seq.).

Availability: Agency

Geographic Relevance: State

Purpose: The system was developed for the Marine Environmental Protection Staff to generate a data base of pollution incidents. PIRS reports pollution incidents that occur in U.S. waters including the District of Columbia and American territories. Principal data elements are frequency and volume of spill data on major water bodies, location, material, source, cause and month of spill. The masterfile contains 65,000 records and increases by approximately 13,000 records per year. Data are input at the Department of Transportation Computer Center. **Input:** Data are derived from pollution incidents reported by units and districts. Forms are prepared and data are transmitted by district terminals to Headquarters. The Pollution Incident Reporting System (PIRS) routinely inputs pollution history data to the Marine Safety Information System. **Output:** Monthly and quarterly reports are produced for the usage of each district. An annual publication is produced for the general public, industry, Congress, and academic institutions. Reports include major water body breakdown, location data, material data, cause data, source data, and various charts. Special reports for individual analysis and research are produced daily and are available upon request.

Agency Contact: Coast Guard. (202) 426-0266.

501101-009

Marine Safety Information System (MSIS).

OMB Funding Code/Title: 69-0201-0-1-403 / Operating expenses

Program: Marine Safety

Congressional Relevance: *House Committee on Merchant Marine and Fisheries; Senate Committee on Commerce, Science, and Transportation; House Appropriations Committee: Transportation Subcommittee; Senate Appropriations Committee: Transportation Subcommittee.*
Authority: Act of August 4, 1949 (P.L. 81-207, § 1; 63 Stat. 544, 14 U.S.C. 631 et seq.). Port and Tanker Safety Act of 1978 (P.L. 95-474, § 2; 92 Stat. 1471; 33 U.S.C. 1221 et seq.).

Availability: Agency

Geographic Relevance: International/Foreign

Purpose: This system provides boarding, pollution, violation, and casualty histories of merchant vessels to Captains of the Port (COTP). District hearing officers receive violation histories of responsible parties.

The principal data elements are vessel identification, hearing history, violation history, casualty history, certificate of inspection data and, where applicable, letters of compliance. The update cycle is daily. **Input:** Input is made by field units via computer terminal to update boarding, pollution, violation, and casualty histories. Violators Report, CG Form 2636, is prepared by COTP personnel and is the primary source document. **Output:** The major reports are violation histories available to the Captains of the Port (COTP) and to District Hearing Officers. Hardcopy reports are generated daily or as needed via teletype terminals. There is no query capability available to COTP personnel, but query capability is available to headquarters.

Agency Contact: Coast Guard. (202) 426-1854.

501101-010

Program Budget System.

OMB Funding Code/Title: 69-0201-0-1-403 / Operating expenses

Program: Headquarters Administration

Congressional Relevance: *House Committee on Merchant Marine and Fisheries; Senate Committee on Commerce, Science, and Transportation; House Appropriations Committee: Transportation Subcommittee; Senate Appropriations Committee: Transportation Subcommittee.*
Authority: Act of August 4, 1949 (P.L. 81-207; 63 Stat. 495; 14 U.S.C. 1 et seq.).

Availability: Internal Use Only

Purpose: The system is to provide historical cost information by program and facility. This information is a tool for budget formulation and a backup for the budget document relating to operating expenditures. The principal data elements contained in this system are unique account numbers, dollar expenditures, operating hours (vessels and aircraft), and program resource allocations (shore stations). The update cycle is annual. **Input:** Three external files are used. The Cost File, generated by FINAIDS, contains expenditures and appropriation data. The Abstract of Operations File, generated by the OPSTAT System, contains all operating hours (resource hours) and standby hours by program for vessels and aircraft. The Unit Summary File, generated by JUMPS, contains OPFAC numbers and names of units. An internal file, the Personnel Allocation Master File, contains resource allocation percentages by program for each CG Shore Station and Aid. **Output:** The major hardcopy report is Facilities Costs by Program. There is a query capability.

Agency Contact: Coast Guard. (202) 426-2402

501101-012

Search and Rescue (SAR) Data System.

OMB Funding Code/Title: 69-0201-0-1-403 / Operating expenses

Program: Search and Rescue

Congressional Relevance: *House Committee on Merchant Marine and Fisheries; Senate Committee on Commerce, Science, and Transportation; House Appropriations Committee: Transportation Subcommittee; Senate Appropriations Committee: Transportation Subcommittee.*
Authority: Act of August 4, 1949 (P.L. 81-207, § 1; 63 Stat. 544; 14 U.S.C. 631 et seq.).

Availability: Commandant U.S. Coast Guard (G-OSR-3)

Purpose: The Search and Rescue System provides statistics to establish program plans and standards, measure unit effectiveness, reallocate resources, analyze performance, and plan and justify budget requests. The principal data elements are unit identification, case, response, and sortie information. Sortie data describes how the Coast Guard participated in the case. The file size consists of approximately 100,000 records per year. Five years available online, with earlier data available from tape. Current FY data not available until approximately 6 months after end of FY. **Input:** Source data are entered on assistance reports, CG-5151, and are batched by RJE terminal to the Transportation Computer Center. **Output:** The output includes: SAR Statistics, COMDTINST M16107.2 (annual, hardcopy); SAR Operations Analysis (on request); and Density Plot (on request). Ad Hoc query capability (on request).

Agency Contact: Coast Guard. (202) 426-1957.

Authority: Department of Transportation Act of 1966 (P.L. 89-670, § 4; 80 Stat. 933; 49 U.S.C. 1653).

Availability: Agency

Geographic Relevance: International/Foreign; National

Purpose: The data base is composed of 1-92 Immigration and Naturalization forms which cover all commercial flights arriving and departing the United States. The Department of Transportation (DOT) started processing the data in January 1976. Prior to this date, the Immigration and Naturalization Service processed the data. Annual volume is approximately 360,000 forms. This information is useful to DOT and other government agencies in preparing for bilateral and multinational aviation negotiations. **Input:** The data source is the 1-92 forms. The main categories of input categories include: Airline Name, Flight Number, Date, Type of Flight, Arrival Port, Departure Port, Number of Aliens, U.S. Citizens, and Total Passengers between the U.S. Port and Foreign Port(s). **Output:** U.S. International Air Travel Statistics is published monthly, quarterly, annually, and contains arrival and departure data for flights between the United States and foreign points with citizen/alien and U.S. flag/foreign details.

Agency Contact: (202) 426-0377.

S01100-029

Real Property Management Information System (RPMS). (M-60).

OMB Funding Code/Title: 69-0102-0-1-407 / Salaries and expenses

Program: General Administration

Congressional Relevance: House Committee on Public Works and Transportation; Senate Committee on Commerce, Science, and Transportation; House Appropriations Committee: Transportation Subcommittee; Senate Appropriations Committee: Transportation Subcommittee

Authority: Act of January 12, 1983 (P.L. 97-449; 96 Stat. 2422; 49 U.S.C. 322).

Availability: Agency

Geographic Relevance: Regional

Purpose: This provides current information on all real property owned and leased by the Department of Transportation including property leased from the General Services Administration (GSA). The system facilitates the maintenance of real property records, reduces the time and effort needed to prepare real property reports, and provides easy access to information needed to manage real property resources. **Input:** Input is received internally from the regional and district field locations of the Department of Transportation's operating administrations. **Output:** The system generates the annual report to GSA of real property owned and real property leased. In addition, special reports are produced as needed.

Agency Contact: (202) 426-4243.

Coast Guard

S01101-003

Financial Accounting Integrated Data System (FINAIDS).

Program: Headquarters Administration

Congressional Relevance: House Committee on Merchant Marine and Fisheries; Senate Committee on Commerce, Science, and Transportation; House Appropriations Committee: Transportation Subcommittee; Senate Appropriations Committee: Transportation Subcommittee

Authority: Act of August 4, 1949 (P.L. 81-207, § 1; 63 Stat. 544; 14 U.S.C. 631 et seq.).

Availability: Internal Use Only

Purpose: The system is to develop a primary source of financial information from which accounting transactions can be accurately recorded and reported. The principal data elements are appropriations, fiscal year, administrative target unit, operating guides, subaccount organization, object class, document number, five general ledger account amounts, expense category, amount of undelivered orders, amount of expenditures, amount of unobligated target, and amount of combined expenditure accounts. **Input:** Sources of input are headquarters and selected offsite units. **Output:** Weekly reports include available and unavailable targets, composition of undelivered orders and other general ledger accounts, target status report transactions, and analysis of net

disbursement. Monthly reports include target status reports, target classification, available and unavailable targets, composition of selected general ledger account balances, general ledger trial balance, working sheet for analysis and reconciliation of available funds, fund analysis of general ledger trial balance, and analysis of net disbursement.

Recreational Boating Accident Reporting System (BAR).

OMB Funding Code/Title: 69-0201-0-1-403 / Operating expenses

Program: Marine Safety

Congressional Relevance: House Committee on Merchant Marine and Fisheries; Senate Committee on Commerce, Science, and Transportation; House Appropriations Committee: Transportation Subcommittee; Senate Appropriations Committee: Transportation Subcommittee

Authority: Federal Boat Safety Act of 1971 (P.L. 92-75, § 2; 82 Stat. 213; 46 U.S.C. 1451 et seq.).

Availability: Agency; Internal Use Only

Geographic Relevance: State; Territory

Purpose: The system provides a means to collect, analyze and publish reports, information, or statistics concerning recreational boating accidents together with such findings and recommendations as considered appropriate. BAR System includes all states, Guam, American Samoa, the Virgin Islands, Puerto Rico, Northern Marianas, and the District of Columbia. The principal data elements are case number, date, state, county, cause, fatalities, injuries, operator age, vessel types, time, and environmental conditions. Information is maintained in both machine-readable form and in documentation files. **Input:** This system provides internal reports to the Office of Boating, Public, and Consumer Affairs "Safety Management Information Systems" for analysis of boating safety problems and programs and in order to produce required tabulations for the Annual Boating Statistics Publication. Accident report forms are sent from the states to CG Headquarters or to districts and for forwarding to headquarters for central review and data entry. **Output:** 1) Output reports generated by this system categorize boating accidents according to the needs of the request. (hardcopy, on request) 2) Coast Guard Boating Statistics. 3) Output reports and data base available on computer tape or diskette.

S01101-013

Chemical Hazards Response Information System (CHIRIS).

OMB Funding Code/Title: 69-5168 0-2-104 / Pollution fund

Program: Operating Costs (Pollution Fund)

CFDA NO.: 20.002

Congressional Relevance: *House Committee on Public Works and Transportation, Senate Committee on Environment and Public Works; House Appropriations Committee: Transportation Subcommittee; Senate Appropriations Committee: Transportation Subcommittee*

Authority: Federal Water Pollution Control Act of 1972 (P.L. 92-500, § 311; 33 U.S.C. 1251).

Availability: GPO

Geographic Relevance: International/Foreign

Purpose: These handbooks provide timely information essential for proper decisionmaking by responsible Coast Guard personnel during emergencies involving the water transport of hazardous chemicals. Information is presented on the complete spectrum of the chemical incident, including specific chemical data, hazards produced by the discharge, response techniques applicable to the specific chemical, and the location of equipment and resources critical to the incident. **Input:** Data contained in the manuals are derived from literature searches, chemical-specific experimentation, and industry surveys. **Output:** The system consists of four manuals which are updated as necessary and a related computer system, the Hazard Assessment Computer System.

Agency Contact: Const Guard. (202) 426-9568.

501101-014

Hazard Assessment Computer System (HACS).

OMB Funding Code/Title: 69-5168-0-2-304 / Pollution fund

Program: Operating Costs (Pollution Fund)

CFDA NO.: 20.002

Congressional Relevance: *House* Committee on Public Works and Transportation; *Senate* Committee on Environment and Public Works; *House* Appropriations Committee: Transportation Subcommittee; *Senate* Appropriations Committee: Transportation Subcommittee

Authority: Federal Water Pollution Control Act of 1972 (P.L. 92-500; 33 U.S.C. 1251).

Availability: Agency

Geographic Relevance: International/Foreign

Purpose: This computerized system enables Coast Guard decisionmakers to quickly evaluate the hazards associated with spills of hazardous materials. Graphic output displays show the relationships among spill concentrations, thermal radiation, location, and time. The system can be used for emergency discharge advance planning, for the development and testing of hazard assessment methods, and for estimating the nature and extent of the hazard involved in an actual incident. **Input:** This system is built on mathematical models created for the chemical hazards response information system and several specialized computer models. Chemical-specific information is derived from the literature available and from experimentation. **Output:** This system, which is available 24 hours a day, is located in the National Response Center in Coast Guard Headquarters in Washington, D.C. Computer printouts are produced in response to queries.

Availability: Agency

Geographic Relevance: National; Federal Aviation Administration Region

Purpose: The system is on-line, immediate access with a single data base that is centrally managed and maintained. This information source is used to provide financial information on resources, liabilities and obligations, disbursements, revenues, and costs to meet the management needs of FAA and the reporting requirements of OMB, Treasury, GSA, GAO, and Congress. The source contains financial data relative to: 1) FAA operations; 2) air navigation facilities and equipment; 3) inventories; 4) other assets, liabilities, and equity; 5) grants-in-aid for airport planning and development; 6) aviation insurance coverage, claims, and expenditures; 7) aircraft loan guarantee program; 8) operation, maintenance, and construction of Washington National and Dulles International Airports; 9) research, engineering, and development for acquisition and modernization of facilities and equipment; 10) reimbursable work for other federal agencies; and 11) appropriation and fund control. **Input:** Financial data are updated and reported monthly with certain reports on a quarterly or annual basis. Selected data are reported annually by state and entity. Financial data are entered into the system via cathode ray tube (CRT) terminals at 11 locations throughout the contiguous United States and Alaska. **Output:** Query capability provide immediate access to information in all fields. The source maintains financial data in machine-readable form and/or paper. External reports, on a local and national level, are generated to meet requirements of OMB, Treasury, GSA, and other government agencies. Internal reports are generated at the local and national levels, as appropriate, to monitor Agency programs and to support budget presentation and execution. A comprehensive FAA Annual Financial Report is prepared showing results of current year operations, along with comparative data and narrative explanations.

Federal Highway Administration

S01103-001

Motor Carrier and Shipper Census/Identification System.
1978

OMS Funding Code/Title: 69-0552-0-1-401 / Motor carrier safety
Program: Administration

Congressional Relevance: *House Committee on Public Works and Transportation; Senate Committee on Environment and Public Works; House Appropriations Committee: Transportation Subcommittee; Senate Appropriations Committee: Transportation Subcommittee*

Authority: Department of Transportation Act, as amended (P.L. 89-670, § 6; 80 Stat. 937; 49 U.S.C. 1655(f)(3)(B)).

Availability: Agency

Geographic Relevance: International/Foreign; National; State; County; City

Purpose: The Federal Motor Carrier Safety Regulations (49 C.F.R. 385-399) are applicable to interstate motor carrier operations, and the Federal Hazardous Materials Regulations (49 C.F.R. 170-179) apply to both shippers and carriers of hazardous materials. There is no federal registration requirement for these groups. As individual operating entities are identified, they are notified of their duties and responsibilities under these federal laws. Identifying and descriptive data about them

compliance with regulations. The system also provides for general and selective mailing lists. The system consists of a master record of carriers and shippers domiciled in the United States, Canada, and Mexico. Carrier identifiers include unique identification number; name, address (including county, state, and zip code), and staff member territorial code; organizational structure, i.e., corporation, partnership, or individual; carrier classification (e.g., private, common); fleet size; commodities transported; geographic area of operations; date served with regulations; and date of last federal safety inspection survey. Shipper identifiers are similar. The system is updated quarterly. Census statistics are made available at the end of each quarter. The system provides other data on call. Subsystems are being developed with regard to various compliance indicators, useful in managing and administering the Federal Motor Carrier Safety Program. **Input:** Data are derived from prescribed report forms (MCS0135 and 135A) prepared by federal government personnel based on interview or correspondence with officials of motor carrier and shipper entities. The system is updated as changes are determined. **Output:** Principal reports are: Carrier and Shipper Census Data (quarterly) and other data as deemed appropriate or upon request. **Agency Contact:** Federal Highway Administration. (202) 426-0630.

SO1103-004

Highway Research Information System (HRIS).

1980

OMB Funding Code/Title: 20-8102-0-7-401 / Federal-aid highways (trust fund)

Program: Administration and Research

Congressional Relevance: House Committee on Public Works and Transportation; Senate Committee on Environment and Public Works; House Appropriations Committee; Transportation Subcommittee; Senate Appropriations Committee; Transportation Subcommittee. **Authority:** Act of August 27, 1958 (P.L. 85-767; 72 Stat. 885; 23 U.S.C. 101 et seq.)

Availability: Transportation Research Board, National Academy of Sciences

Geographic Relevance: International/Foreign; National; State

Purpose: HRIS was established to permit rapid access to information about highway-related research and the results of completed research throughout the world. The Research in Progress Records consist of the title, performing agency, investigator, funding agency, accession number, and summary statement. The Document Records consist of a record number, title, abstract, author, and availability data. **Input:** The input comes from many domestic and foreign sources. Major contributors are FHWA, Transportation Research Board, state highway agencies, National Safety Council, International Road Federation, and the Science Information Exchange of the Smithsonian Institution. **Output:** Output is in the form of file searches (batch and on-line), monthly current awareness reports by subject area, and the quarterly publication, HRIS Abstracts.

SO1103-006

Procurement Management Information System (PMIS).

OMB Funding Code/Title: 20-8102-0-7-401 / Federal-aid highways (trust fund)

Program: Administration and Research

Congressional Relevance: House Committee on Public Works and Transportation; Senate Committee on Environment and Public Works; House Appropriations Committee; Transportation Subcommittee; Senate Appropriations Committee; Transportation Subcommittee. **Authority:** Act of August 27, 1958 (P.L. 85-767; 72 Stat. 885; 23 U.S.C. 101 et seq.)

Availability: Internal Use Only

Geographic Relevance: National; State; County; Congressional District; City

Purpose: The Procurement Management Information System (PMIS) assists in the management of the Federal Highway Administration's (FHWA) procurement program by the Office of Contracts and Procurement. The system consists of two independent subsystems: requisition and postaward. In the requisition system, the status of all requisitions received is recorded, updated, and made available to contract specialists

and management weekly. In the postaward system, the status of awarded contracts, including completion of work and audit requests, is recorded, updated, and made available to contract administrators on a management monthly. Special reports are available to FHWA management upon request. The geographic location of award by state only contained in the requisition system. The postaward system contains geographic data on contractors, including their location by state, county, and congressional district. **Input:** In the requisition system, the following data elements are included: important dates, purchase requisition numbers, office identification, type of requirement, specialist assigned, total cost, title of project, and contractor identification. The postaward system maintains all significant contract data elements concerning the status of each contract. Information for both subsystems is provided by contract specialists located within the Office of Contracts and Procurement. **Output:** Status reports on requisition system are generated weekly. Postaward reports are the administrator, contractor number, biweekly reminder, and contractor/contract manager digest. All reports are hardcopy. Records are updated by cathode-ray tube (CRT) terminals. The system's query capability is also via CRT terminals.

SO1103-007

Federal Highway Administration Project Status Record System.

OMB Funding Code/Title: 20-8102-0-7-401 / Federal-aid highways (trust fund)

Program: Federal Aid Highway (All Programs)

Congressional Relevance: House Committee on The Budget; House Committee on Public Works and Transportation; Senate Committee on The Budget; Senate Committee on Environment and Public Works; House Appropriations Committee; Transportation Subcommittee; Senate Appropriations Committee; Transportation Subcommittee. **Authority:** Act of August 27, 1958 (P.L. 85-767; 72 Stat. 885; 23 U.S.C. 101 et seq.)

Availability: Agency

Geographic Relevance: National; State; (SMSA) Standard Metropolitan Statistical Area; County

Purpose: This system provides the Department of Transportation, Federal Highway Administration (FHWA), the Executive Branch, Congress, and the states with current fiscal, statistical, and descriptive information on the status of highway projects that are financed from highway trust fund, and related highway projects that are financed from the general fund. This system provides data on obligations for FHWA formula type programs, as well as those related highway programs funded by the Treasury and allocated to the states as needed at as administratively determined. These include: (1) highway research, planning and construction (Federal Aid Highways Program); (2) highway beautification, advertising, and junkyard control; (3) bridge replacement and (4) economic growth center, off system roads, etc. Fiscal information includes: prior year--actual obligations and unobligated balance; current and prior year appropriations; current year--obligations each month and actual obligations for the current fiscal year to date and budget year--estimated obligations consistent with the President's budget. **Input:** Data are included on the projects authorized as provided in the states annual program which utilizes the federal aid related highway funds as apportioned to the Federal Highway Administration by OMB. **Output:** Monthly automated reports on the progress of federal aid highway construction programs are produced.

S01103-009

Motor Carrier Safety Management Information System.

1978

OMB Funding Code/Title: 69-0552-0-1-401 / Motor carrier safety

Program: Administration

Congressional Relevance: House Committee on Public Works and Transportation; Senate Committee on Commerce, Science, and Transportation; House Appropriations Committee: Transportation Subcommittee; Senate Appropriations Committee: Transportation Subcommittee

Authority: Department of Transportation Act of 1966 (P.L. 89-670). Interstate Commerce Act (P.L. 89-104; 49 U.S.C. 11145).

Availability: Agency

Geographic Relevance: National, State, City, County; (SMSA) Standard Metropolitan Statistical Area

Purpose: The purpose of the safety management information system is to identify those carriers and hazardous materials shippers in need of administrative/enforcement activities by the Bureau of Motor Carrier Safety to bring them into satisfactory compliance with safety regulations. The system also is used to provide statistical information to the Bureau in support of indicate the need for rulemaking to improve safety on the nation's highways. **Input:** Input includes data from 6 forms: Master Motor Carrier Census System; Driver Vehicle Examination System; Motor Carrier Accident Report System; Enforcement Information System; Safety Management Audit System; and ICC Compliance Reporting System. **Output:** Internal periodic reports to regional offices.

Agency Contact: Federal Highway Administration. (202) 426-0630.

S01103-010

Motor Carrier Accident Reports System.

OMB Funding Code/Title: 69-0552-0-1-401 / Motor carrier safety

Program: Administration

Congressional Relevance: House Committee on Public Works and Transportation; Senate Committee on Environment and Public Works; House Appropriations Committee: Transportation Subcommittee; Senate Appropriations Committee: Transportation Subcommittee

Authority: Department of Transportation Act of 1966 (P.L. 89-670, § 6; 80 Stat. 937; 49 U.S.C. 1655).

Availability: Agency

Purpose: These are the only highway accident reports directly collected by the federal government and are specifically related to the Motor Carrier Safety Act (49 U.S.C. 301) and the federal regulations promulgated thereunder (49 C.F.R. 394). The data obtained from these reports provide critical information for the development and evaluation of highway safety regulations and the administration of the Federal Motor Carrier Safety Program. **Input:** Reports of accidents involving motor vehicles operated by motor carriers of property or passengers in interstate or foreign commerce provide the input for this system. The reports are filed by the carriers and include accidents involving death, injuries requiring treatment away from the accident scene, or property damage of \$2,000 or more. Accident reports include description of reporting motor carrier, time and place of accident, description of accident, description

and condition of carrier's vehicle, identification of other vehicles involved, weather and light conditions, and type of road. **Output:** Major system output includes annual reports summarizing accident data for all motor carriers (hardcopy), reports summarizing accident experience of individual motor carrier for use in compliance reviews (hardcopy), and special reports dealing with specific types of safety problems, e.g., fire (hardcopy).

Federal Railroad Administration

S01104-001

Accounting System.

OMB Funding Code/Title: 69-0700-0-1-401 / Office of the Administrator

Program: Executive Direction and Administration; Policy Support

Congressional Relevance: House Committee on Energy and Commerce; House Committee on Public Works and Transportation; Senate Committee on Commerce, Science, and Transportation; Senate Committee on Environment and Public Works; House Appropriations Committee: Transportation Subcommittee; Senate Appropriations Committee: Transportation Subcommittee

Authority: Department of Transportation Act (P.L. 89-670).

Availability: Internal Use Only

Geographic Relevance: National

Purpose: This system is designed to enable the Federal Railroad Administration (FRA) to control and manage appropriated funds and revolving funds, to provide financial information to FRA management and to budget officials of the Office of the Secretary, and to satisfy the reporting requirements of OMB and the Treasury Department. The information content of the system consists of the input listed above controlled by a manually maintained general ledger and banks of original entry and supported by an automated account ledger. The Alaska Railroad accounting system is separate from the FRA headquarters system. Accounting in CONUS is centralized and covers the activities of five regions and the Transportation Test Center at Pueblo, CO. The principal subject matter is accounting, and the information is updated daily. **Input:** Input includes obligations, disbursements, accruals, undelivered orders, receivables, payables, payroll, travel, property, loans, grants collections, miscellaneous receipts, reimbursements, refunds, loan guarantees, transfers, warrants, allotments, apportionments, and advances. The major source of input is FRA; payroll data are furnished by the Federal Highway Administration; appropriation warrants are from Treasury; and apportionments are from OMB. **Output:** Internal reports are prepared monthly as ADP printouts listing by appropriation breakdown by major and subobject class, programs, cost centers, and fund administrators. External reports submitted monthly include: Report of Budget Execution, Report of Obligations and Statement of Transactions; quarterly: Report of Selected Balances for Stating Budget Results on an Accrual Basis (BA-6727 and BA-6728); annually: Statement of Unexpended Balances of Appropriations and Funds, Statement of Financial Condition and Report of Advances and Report of Federal Outlays (FIXS). External reports are prepared manually. There is no query capability in the ADP system.

S01104-002

Grade Crossing Inventory System (GCIS).

OMB Funding Code/Title: 69-0700-0-1-401 / Office of the Administrator

Program: General Management and Administration

Congressional Relevance: House Committee on Energy and Commerce; House Committee on Public Works and Transportation; Senate Committee on Commerce, Science, and Transportation; Senate Committee on Environment and Public Works; House Appropriations Committee: Transportation Subcommittee; Senate Appropriations Committee: Transportation Subcommittee

Authority: Department of Transportation Act of 1966 (P.L. 89-670).

Availability: Agency

Geographic Relevance: National

Purpose: The system is to maintain a current computer file of all rail-highway crossings in the country. This includes all public and private

a unique identification number. The information is used by states and railroads to establish priorities for grade crossing improvements. The file is also used for research in the grade crossing area. For all types of crossings, information such as identification number, railroad, railroad division, subdivision, milepost and branch, state, county, city or nearest city, street or highway, and crossing type is available. In addition, for public grade crossings, more detailed information is available. This information includes number of daily train movements, train speeds, type and number of tracks, details of crossing protection both active and passive, crossing angle, number of traffic lanes, daily highway traffic volume, pavement markings, advance warning signs, crossing surface, highway system, percentage of trucks, and other items. The system is updated continuously as updates are received. **Input:** Updates to system information are furnished by states and railroads. **Output:** At present the only periodic report containing system information is the annual publication *Railroad-Highway Crossing Accidents*. System output formats are printed reports, magnetic tapes, or cards. Query capability is very flexible.

Agency Contact: Federal Railroad Administration. (202) 426-2760.

S01104-003

Railroad Accident/Incident Reporting System (RAIRS)

OMB Funding Code/Title: 69-0702-0-1-401 / Railroad safety

Program: Grant-in-Aid for Railroad Safety

Congressional Relevance: *House* Committee on Energy and Commerce; *House* Committee on Public Works and Transportation; *Senate* Committee on Commerce, Science, and Transportation; *Senate* Committee on Environment and Public Works; *House* Appropriations Committee: Transportation Subcommittee; *Senate* Appropriations Committee: Transportation Subcommittee

Authority: Federal Railroad Safety Act of 1970 (P.L. 91-458). Federal Railroad Safety Authorization Act of 1976 (P.L. 94-348).

Availability: Agency

Geographic Relevance: National

Purpose: By authority of the Federal Railroad Safety Act of 1970 and the Accident Reports Act, as amended, railroads are required to report to the Federal Railroad Administration (FRA) the occupational illnesses of employees, damages to railroad equipment and structures, and injuries to persons arising from the operation of a railroad. The information is used to identify railroad safety problems and support regulatory changes. The principal data elements of the system are railroad codes, casualty information, damage costs, location of accident, train speed, weather, and grade crossing information. **Input:** Data are received from railroads on the standard FRA Accident Reporting Form monthly, with a summary report at the end of the year. **Output:** Several periodic output reports are generated including: Accident Bulletin (annually); Rail-Highway Grade-Crossing Accidents (annually); Preliminary Report of Railroad Accidents/Incidents and Resulting Casualties (monthly); and Summary of Accidents/Incidents Reported by all Line-Haul and Switching and Terminal Railroad Companies (monthly).

Agency Contact: Federal Railroad Administration. (202) 426-2760.

Waybill Statistics System

OMB Funding Code/Title: 69-0700-0-1-401 / Office of the Administrator

Program: General Management and Administration

Congressional Relevance: *House* Committee on Energy and Commerce; *Senate* Committee on Commerce, Science, and Transportation; *House* Appropriations Committee: Transportation Subcommittee; *Senate* Appropriations Committee: Transportation Subcommittee

Authority: Department of Transportation Act of 1966 (P.L. 89-670).

Availability: Agency

Geographic Relevance: National

Purpose: The system provides vital information to both the railroads and their shippers for cost benefit analysis, market area analysis, and ground transportation analysis. This information about railroad activities provides to the FRA important statistics for economic impact and analysis, commodity analyses, and other areas of rail studies. The major output includes *Carload Waybill Statistics Report* which is published annually; input statistics for the FRA Rail Planning Model (*Network Analysis*); and *Economic Rail Line Viability Studies*. The *Waybill Statistics System* is a sample of rail commodity movements originating and terminating in the continental United States. Reports are updated annually. **Input:** All Class 1 railroads are required to submit to the FRA (ICC) copies of all waybills when waybill numbers end with 1 or 01. The principal data elements are serial and waybill number; number of carloads; origin and destination railroads, station, and territories; rate types, STCC, weight and revenue; short line miles; and AAR car type. **Output:** Major output is a yearly *Carload Waybill Statistics Report* sorted by origin/destination area, displaying total carloads, tonnage, and revenue and important summary statistics of average short line miles, average carloads, average tonnage; frequent requests for state-to-state flows, frequent requests for commodity analysis, and daily requests for specific railroad commodity flows.

Urban Mass Transportation Administration

S01106-002

Grant Management System (GMS)

OMB Funding Code/Title: 69-1119-0-1-401 / Urban mass transportation fund

Program: Administrative Expenses

Congressional Relevance: *House* Committee on Public Works and Transportation; *Senate* Committee on Banking, Housing, and Urban Affairs; *House* Appropriations Committee: Transportation Subcommittee; *Senate* Appropriations Committee: Transportation Subcommittee

Authority: Urban Mass Transportation Act of 1964 (P.L. 88-365). National Mass Transportation Assistance Act of 1974 (P.L. 93-503). Federal Aid Highway Act of 1973, as amended (P.L. 93-87).

Availability: Agency

Geographic Relevance: National; State; (SMSA) Standard Metropolitan Statistical Area; Congressional District; County; City

Purpose: The system is to provide a vehicle for information dissemination to the Congress, the public, and others; provide for internal management of the program via management reports; and provide for external statutory reporting requirements. Data elements maintained include project name, project number, project description, project address, project status, program code, total cost, net cost, contract execution date, and accrued versus planned/budgeted expenditures. Some 30 output reports are generated by this system. A program allotment status report provides a summary of obligations and reservations by activity within obligational authority and serves as an allotment ledger within the obligational authority. The output measures report can be summarized at any level of a project budget code to show how many products

of a certain type are purchased and how many dollars were spent on a particular transportation mode. The active project status report is a detailed indication of the status of each active project. **Input:** Information is gathered from project grantees (budget data, progress reports, and accrued expenditures by budget line item), project managers within UMTA (e.g., project remarks and general information), and the accounting shop (e.g., obligations, administrative commitments). **Output:** Reports include: Agency General Ledger, Allotment Status, Output Measures, and Active Project Status Report. **Agency Contact:** Urban Mass Transportation Administration. (202) 426-9537.

OMB Funding Code/Title: 69-1119-0-1-401 / Urban mass transportation fund

Program: Administrative Expenses

Congressional Relevance: *House:* Committee on Public Works and Transportation; *Senate:* Committee on Banking, Housing, and Urban Affairs; *House Appropriations Committee:* Transportation Subcommittee; *Senate Appropriations Committee:* Transportation Subcommittee

Authority: Urban Mass Transportation Act of 1964, as amended (P.L. 88-365, § 12, as amended by P.L. 95-599, 78 Stat. 306; 49 U.S.C. 1608). **Availability:** Agency

Geographic Relevance: National

Purpose: This is a reporting system to accumulate public mass transportation financial and operating information by uniform categories and a uniform system of accounts and records. It provides statistical data on transit systems, operating expenses, revenue information, and operating information. **Input:** Input is provided by 417 transit authorities. **Output:** Output is an annual report.

Agency Contact: Urban Mass Transportation Administration. (202) 426-9157.

S01105-005

Urban Transportation Planning System (UTPS).

OMB Funding Code/Title: 69-1119-0-1-401 / Urban mass transportation fund

Program: Administrative Expenses

CFOA NO.: 20.510

Congressional Relevance: *House:* Committee on Public Works and Transportation; *Senate:* Committee on Banking, Housing, and Urban Affairs; *House Appropriations Committee:* Transportation Subcommittee; *Senate Appropriations Committee:* Transportation Subcommittee

Authority: Urban Mass Transportation Act of 1964, as amended (P.L. 88-365, § 12, as amended by P.L. 95-599, 78 Stat. 306; 49 U.S.C. 1608). **Availability:** Agency

Geographic Relevance: National

Purpose: The Urban Transportation Planning System is a set of computer programs for the analysis and planning of multimodal urban transportation systems. It is jointly maintained and supported by the Urban Mass Transportation Administration and the Federal Highway Administration. It is distributed to state DOTs, metropolitan planning organizations (MPOs), local governments and others for their use in planning for their respective jurisdictions. In addition to the computer programs, it includes users' guides, operating manuals, and course materials. It has been updated approximately every two years to incorporate the latest state-of-the-art planning methods. **Input:** The input data are provided by the state DOT or MPO using the programs. Both transportation network data and demographic data are required. **Output:** The outputs are travel demands at various levels of aggregation, travel times and costs, and system impacts and evaluation for the urban area under study.

Agency Contact: Urban Mass Transportation Administration. (202) 426-9271.

S01105-006

Budget Formulation and Reporting System.

OMB Funding Code/Title: 69-1119-0-1-401 / Urban mass transportation fund

Program: Administrative Expenses

Congressional Relevance: *House:* Committee on Public Works and Transportation; *Senate:* Committee on Banking, Housing, and Urban Affairs; *House Appropriations Committee:* Transportation Subcommittee; *Senate Appropriations Committee:* Transportation Subcommittee

Authority: Urban Mass Transportation Act of 1964, as amended (P.L. 88-365, as amended by P.L. 95-599, 49 U.S.C. 1608). **Availability:** Agency

Geographic Relevance: National; State; (SMSA) Standard Metropolitan Statistical Area; Congressional District; County; City

Purpose: This system formulates and monitors the Agency's budget and provides reports to Congress, the public, and OMB. **Input:** Input is received from program elements within UMTA. Financial data come from the Management Accounting and Control System. Sources contain program data which were solicited from program shops for use in formulating the Agency's budget, including descriptive analysis of program objectives and projections in relation to their mission within the program. Files contain obligation projections, supporting narratives, justifications, as well as administrative cost data such as telephone costs, rent, and personnel costs. **Output:** Major output includes OMB Circular A-11, Reporting Requirements; Budget Submission Cycle; General Program Inquiries; Congressional Reporting Data; and Departmental Reporting Data.

Agency Contact: Urban Mass Transportation Administration. (202) 426-4869.

S01105-007

Urban Mass Transportation Administration Financial Management System (UMTA-FMS).

OMB Funding Code/Title: 69-1119-0-1-401 / Urban mass transportation fund

Program: Urban Mass Transportation (All Programs)

Congressional Relevance: *House:* Committee on Energy and Commerce; *House:* Committee on Public Works and Transportation; *Senate:* Committee on Banking, Housing, and Urban Affairs; *Senate:* Committee on Commerce, Science, and Transportation; *Senate:* Committee on Environment and Public Works; *House Appropriations Committee:* Transportation Subcommittee; *Senate Appropriations Committee:* Transportation Subcommittee

Authority: Urban Mass Transportation Act of 1964, as amended (P.L.

istered by the Urban Mass Transportation Administration. The system's purpose is to provide in-depth fund control. It is expected that the system will track between 100,000 to 200,000 financial transactions annually. **Input:** Budgetary and accounting (obligation) transactions as generated from Allotment Advices, operating budgets, obligation and payment documents, etc. are sources of input. **Output:** External and internal Financial Management/Accounting reports are provided as necessary on a daily, weekly, monthly, quarterly, semi-annual and annual basis. **Agency Contact:** Urban Mass Transportation Administration. (202) 426-9748.

Saint Lawrence Seaway Development Corporation

S01106-001

Activity Expense and Revenue Tracking System

OMB Funding Code/Title: 69-4089-0-3-403 / Saint Lawrence Seaway Development Corporation

Program: Administrative Expenses

Congressional Relevance: *House* Committee on Public Works and Transportation; *Senate* Committee on Commerce, Science, and Transportation; *House* Appropriations Committee: Transportation Subcommittee; *Senate* Appropriations Committee: Transportation Subcommittee

Authority: Act of May 13, 1954 (P.L. 83-358, § 1; 65 Stat. 93; 33 U.S.C. 981 et seq.).

Availability: Agency

Geographic Relevance: National

Purpose: This system is designed to maintain constant status of Corporation program expenditures and revenues. Expenditures by organizational subunit (biweekly) and revenues (as received) are system information. **Input:** Annual expenditure plans/periodic expenditure reports and revenues received comprise system sources. **Output:** Biweekly organizational subunit expenditure reports (computer runs) are the principal output.

Agency Contact: Saint Lawrence Seaway Development Corporation. (202) 426-3346.

National Highway Traffic Safety Administration

S01107-001

Contracts Management System

OMB Funding Code/Title: 69-0650-0-1-401 / Operations and research Program: Highway Traffic Safety (All Programs)

Congressional Relevance: *House* Committee on Energy and Commerce; *House* Committee on Public Works and Transportation; *Senate* Committee on Commerce, Science, and Transportation; *House* Appropriations Committee: Transportation Subcommittee; *Senate* Appropriations Committee: Transportation Subcommittee

Authority: National Traffic and Motor Vehicle Safety Act of 1966, as amended (P.L. 89-563). Motor Vehicle Information and Cost Saving Act (P.L. 92-513).

Availability: Internal Use Only

Purpose: This system provides a complete inventory of all active and inactive National Highway Traffic Safety Administration (NHTSA) contracts for use by all management personnel. The system was initially designed to aid in the control and closeout of contracts awarded by NHTSA, Office of Contracts and Procurement. The system captures and processes all pertinent contractual data, including contract number, contract size, contractor, NHTSA office requesting contract, description of contract, the contract technical manager, dollar amount, type of contract, type of award, effective date, completion date, and contract specialist. This batch processed system is updated quarterly. It presently

S01107-003

Evaluation Data System for the Alcohol Safety Action Program (ASAP) (1970-1976)

OMB Funding Code/Title: 69-0650-0-1-401 / Operations and research Program: Highway Safety Programs

Congressional Relevance: *House* Committee on Energy and Commerce; *House* Committee on Public Works and Transportation; *Senate* Committee on Commerce, Science, and Transportation; *House* Appropriations Committee: Transportation Subcommittee; *Senate* Appropriations Committee: Transportation Subcommittee

Authority: National Traffic Motor Vehicle Safety Act of 1966, as amended (P.L. 89-563). Motor Vehicle Information and Cost Savings Act, as amended (P.L. 92-513).

Availability: Internal Use Only

Purpose: This system was designed to collect statistical data concerning alcohol-related highway incidents and alcohol safety action demonstration projects. The ASAP Evaluation Data System is a longitudinal data base, it records the same data elements over time. Baseline measures are observations of these data elements obtained prior to program implementation. They are used for comparison with observations obtained during the program's operational period. There are two main files--the financial file and the nonfinancial file. Each record in the file represents up to seven years of quarterly data for one cell of a table. There are 2,800 records in the financial file and 57,400 records in the nonfinancial file. Data are reported on a quarterly basis, but the submissions are spread uniformly across the quarter. Retrievals from the file average about 10 per week, and subsets of the file are accessible on-line. **Input:** The Alcohol Safety Action Projects (ASAPs) are DOT-funded demonstration projects that initially operated at 35 nationally distributed sites. These demonstration projects seek to test the efficacy of simultaneously employing several countermeasures (e.g., increased enforcement and presence investigation) to reduce alcohol-related traffic accidents and deaths. These sites are required to submit quarterly and monthly tables detailing impact and countermeasure data. As many as 26 tables may be required from each site. The tables are sent in printed form by the sites and are keypunched by DOT. **Output:** Up to 50 fixed evaluation reports are produced. On request other general queries are satisfied.

Agency Contact: National Highway Traffic Safety Administration. (202) 426-8681.

S01107-004

Fatal Accident Reporting System (FARS).

01/75

OMB Funding Code/Title: 69-0650-0-1-401 / Operations and research Program: Research and Analysis

Congressional Relevance: *House* Committee on Energy and Commerce; *House* Committee on Public Works and Transportation; *Senate* Committee on Commerce, Science, and Transportation; *House* Appropriations Committee: Transportation Subcommittee; *Senate* Appropriations Committee: Transportation Subcommittee

Authority: National Traffic and Motor Vehicle Safety Act of 1966, as amended (P.L. 89-563). Motor Vehicle Information and Cost Savings Act, as amended (P.L. 92-513).

Availability: Agency

Geographic Relevance: National; State; County; City

Purpose: This system is designed to collect data for research and analysis of the accident environment. The accident environment includes information about the accident scene, all vehicles, and all persons physically involved in the accident. This information is used to identify problem areas such as conditions which are present in fatal accidents or which contribute to the occurrence of the accident. The information is also used to evaluate the effect of safety countermeasure programs and

of improvements to the highways or vehicles. Trends over time or emerging patterns can be detected and their significance analyzed. Information on all fatal accidents occurring in the 50 states, the District of Columbia, and Puerto Rico is contained in the file. It contains about 250,000 records for approximately 40,000 fatal accidents occurring each year. The file is continuously updated until it is complete. The FARS data files are on-line. The FARS data may be accessed by the highway safety community or the public in general through the National Highway Traffic Safety Administration. **Input:** FARS is a computerized file which can be easily accessed by means of statistical packages such as Table Processing Language (TPL) and Statistical Analysis System (SAS). Its sources consist of police accident reports, driver's license files, registration files, vital statistics files, and highway department files. **Output:** Monthly, quarterly and annually, FARS Statistical Summaries are issued in hardcopy.

Agency Contact: National Highway Traffic Safety Administration. (202) 426-1470.

SO1107-005

Financial Management Information and Accounting System (FMIS).

OMB Funding Code/Title: 69-0650-0-1-401 / Operations and research; 69-8016-0-7-401 / Highway traffic safety grants
Program: Highway Traffic Safety (All Programs); Highway Traffic Safety Grants (All Programs)

Congressional Relevance: House Committee on Energy and Commerce; House Committee on Public Works and Transportation; Senate Committee on Commerce, Science, and Transportation; House Appropriations Committee: Transportation Subcommittee; Senate Appropriations Committee: Transportation Subcommittee

Authority: National Traffic and Motor Vehicle Safety Act of 1966, as amended (P.L. 89-563). Motor Vehicle Information and Cost Savings Act, as amended (P.L. 92-513). Federal Aid Highway Act of 1973 (P.L. 93-87). Department of Transportation Act of 1966 (P.L. 89-670).

Availability: Internal Use Only

Geographic Relevance: State; Congressional District; County; City

Purpose: This system provides an electronic data processing facility to create and maintain a data base of financial management information. The specific requirements of the various programs within NHTSA are integrated into the system. The primary areas of concern are the State and Community Highway Safety Program and the Traffic and Highway Safety Program. All costs in these programs are recorded by object codes and by budget activity designation that relates to organizational structure. The costs are further subdivided into subactivities and categories. The NHTSA FMIS is composed of four modules—the interactive data entry facility, the system tables maintenance, the input-edit and update, and the retrieval and reporting system. Transactions enter the system from headquarters or from any of the 10 regional offices. **Input:** Direct source data is provided from one system of accounts for budget evaluation and supports both budget estimates and financial plans. **Output:** The principal system output includes: Hardcopy, three times weekly: Edit action report, (transaction and error codes by region) and Transaction Register (transaction information by region). Hardcopy monthly: Trial Balances, by appropriation symbol and account number; Budget and Accounting Report by appropriation, FFY, allotment, and object class; Operating Budget by appropriation, FFY, allotment, and budget allowance; Obligations and Expenditures by appropriation, FFY, constant data code; State and Community Highway Safety by allotment, budget allowance, appropriation, and object class; Project Status Reports by allotment, budget allowance, appropriation, and object class; Document Reports by region, document number, appropriation, and object class; and Travel Costs by organization and employee.

Agency Contact: National Highway Traffic Safety Administration. (202) 426-2766

SO1107-006

Highway Safety Literature Search File.

OMB Funding Code/Title: 69-0650-0-1-401 / Operations and research
Program: Highway Traffic Safety (All Programs)

Congressional Relevance: House Committee on Energy and Commerce; House Committee on Public Works and Transportation; Senate

Committee on Commerce, Science, and Transportation; House Appropriations Committee: Transportation Subcommittee; Senate Appropriations Committee: Transportation Subcommittee

Authority: National Traffic and Motor Vehicle Safety Act of 1966, as amended (P.L. 89-563). Motor Vehicle Information and Cost Savings Act, as amended (P.L. 92-513).

Availability: Agency

Purpose: The system was designed to catalog, index, and control the circulation of highway safety literature and to provide query capability to obtain details on specified subjects. Citations are searchable by title, personal and corporate author, contract and report numbers, and significant terms in the abstract. No thesaurus is currently used. Abstracts are of variable length. File size is approximately 35,000 citations and is updated monthly. **Input:** System input is open and report literature, domestic and international, in subject areas related directly to NHTSA. It includes NHTSA contractor reports, selected DOT reports, and other highway safety literature. **Output:** Daily output consists of hardcopy answers to specific inquiries. A quarterly publication is also offered.

Agency Contact: National Highway Traffic Safety Administration. (202) 426-2768.

SO1107-007

Motor Vehicle Import Information (MVI) Certification Investigation System.

OMB Funding Code/Title: 69-0650-0-1-401 / Operations and research
Program: Enforcement Programs

Congressional Relevance: House Committee on Energy and Commerce; House Committee on Public Works and Transportation; Senate Committee on Commerce, Science, and Transportation; House Appropriations Committee: Transportation Subcommittee; Senate Appropriations Committee: Transportation Subcommittee

Authority: National Traffic and Motor Vehicle Safety Act of 1966, as amended (P.L. 89-563).

Availability: Internal Use Only

Purpose: This system keeps track of automobiles entering the United States from abroad that are not in compliance with U.S. standards. 15 U.S.C. 1397(a)(1)(A) prohibits importation of nonconforming vehicles except under such conditions as the Secretaries of the Treasury and Transportation may provide by regulation, such condition to include posting of and conformance with standards. 15 U.S.C. 1403 requires the manufacturer to affix a label to those vehicles certified as conforming to the applicable standards. Information consists of name and address of importer; port and date of entry; entry number; make, model, chassis serial number; and entry alternative on declaration Form HS-7. These items are entered into MVI upon initial receipt and review of declaration. The system contains approximately 14,117 case files. It is updated upon a change in status of an existing case or upon receipt of an initial declaration. **Input:** Automobiles must be corrected within 120 days. Entries suspected of nonconformance or improper entry are entered into the MVI system as well as vehicles imported by nonresidents and diplomats or for additional testing or show purposes. **Output:** As required, hardcopy is produced. Warning letters to owners and letter of inquiry to manufacturers are examples. Reports of Preliminary Customs Investigation and Reports of Import Certification Inquiry (monthly, hardcopy) are also produced.

Agency Contact: National Highway Traffic Safety Administration. (202) 426-2832.

SO1107-008

Office of Vehicle Safety Compliance Periodic Computerized Production Reporting System.

OMB Funding Code/Title: 69-0650-0-1-401 / Operations and research
Program: Enforcement Programs

Congressional Relevance: House Committee on Energy and Commerce; House Committee on Public Works and Transportation; Senate Committee on Commerce, Science, and Transportation; House Appropriations Committee: Transportation Subcommittee; Senate Appropriations Committee: Transportation Subcommittee

Authority: National Traffic and Motor Vehicle Safety Act of 1966, as amended (P.L. 89-563). Motor Vehicle Information and Cost Savings Act, as amended (P.L. 92-513).

Availability: Internal Use Only

Purpose: The Office of Vehicle Safety Compliance (OVSC) reporting

periodicity produces non compliance test information and investigatory case status data. The raw data input of compliance test results and investigatory case status information is encoded into the system on a monthly basis. The purpose of this system is to supply management with additional information in order to plan future programs and necessary personnel requirements. The OVSC reporting system currently encompasses approximately 34 federal motor vehicle safety standards which result in approximately 2,200 compliance tests conducted on an annual basis. The system design incorporates a multiple file data base. These files (10 major and 8 sort and transaction) reside on two separate 3330 disk packs and are accessed either in a direct access or a sequential mode. The data are divided into two types: certification information request (CIR) and compliance test status. The CIR and compliance data each reside on their own master files and are updated by using the data set technique. Both files contain associated sort indexes which are created at retrieval time. At present there are file report generators which produce seven major reports, six on a monthly basis and one report quarterly. **Input:** OVSC Personnel furnish status of complaints and/or investigations and results of compliance test programs. **Output:** Monthly, hardcopy output produced includes Compliance Report, CIR Status Report, Monthly Investigatory Case Summary Report, CIR Index Report, OVSC Quarterly Report, Monthly Penalty Report, and Monthly Update on Manufacturers Addresses. **Agency Contact:** National Highway Traffic Safety Administration. (202) 426-2832.

SO1107-009

Uniform Tire Quality Grading Data Management System (UTQG).

OMB Funding Code/Title: 69-0650-0-1-401 / Operations and research

Program: Rulemaking Programs

Congressional Relevance: *House* Committee on Energy and Commerce; *House* Committee on Public Works and Transportation; *Senate* Committee on Commerce, Science, and Transportation; *House* Appropriations Committee: Transportation Subcommittee; *Senate* Appropriations Committee: Transportation Subcommittee

Authority: National Traffic and Motor Vehicle Safety Act of 1966, as amended (P.L. 89-563). Motor Vehicle Information and Cost Saving Act (P.L. 92-513).

Availability: Internal Use Only

Purpose: The Uniform Tire Quality Grading (UTQG) rule requires NHTSA to provide the UTQG Field Test Center for industry use and compliance testing. The system encompasses one regulation with six major areas of responsibility, i.e.; treadwear, traction, temperature resistance, tire inventory, test center schedules, and quality control. Compliance testing was discontinued in FY82 pending the resolution of treadwear data reproducibility issues. Monitoring of the traction pads at the test center continues in order to accommodate industry traction testing. The data system remains on-line to process the traction monitoring data, maintain CMT inventory and conduct special analysis of prior test data as required. The system incorporates a multiple file data base, and these files reside on two separate 3330-1 disk packs. Each of the six areas of responsibility resides in its own master file and is updated daily, weekly, or as the need arises. The files contain edit routines, sorting indexes, reformat programs, and analysis and reporting programs. **Input:** All traction and treadwear testing is done at the UTQG Test Center. Traction data are recorded in three formats: analog strip charts and digital printer tapes both of which must be read by hand and entered into the computer, and digital cassette tape which can be fed into the terminal for transmission. Treadwear data are recorded in two formats: digital printer tape and Binary Coded Decimal (BCD) input directly into the terminal. Support data for both traction and treadwear are entered by hand through the terminal keyboard. Much of the data are machine-readable (approximately 40-50 percent), but the amount and type of data which are machine-readable will change as testing dictates. **Output:** As required, hardcopy plots and test results are produced.

SO1107-010

Traffic Safety Programs Management Information System (TSP/MIS).

OMB Funding Code/Title: 69-0650-0-1-401 / Operations and research

Program: Highway Safety Programs

Congressional Relevance: *House* Committee on Energy and Commerce; *House* Committee on Public Works and Transportation; *Senate* Committee on Commerce, Science, and Transportation; *House* Appropriations Committee: Transportation Subcommittee; *Senate* Appropriations Committee: Transportation Subcommittee

Authority: Highway Safety Act of 1966 (P.L. 89-564). Motor Vehicle Information and Cost Savings Act (P.L. 92-513)

Availability: Internal Use Only

Purpose: This system provides critical information to support effective management of a highway safety program. The data base contains 56 records and is updated annually. Each record contains 316 data elements. The system has on-line query capabilities providing access to critical information. **Input:** Data enter the system (files stored on a CDC 6600) from TSP personnel by interactive terminal. Forms containing data about traffic records, traffic laws and regulations, vehicle requirements, traffic education, driver licensing, police traffic services, traffic courts, and emergency medical services are prepared by each region for each state and submitted for entry once a year. **Output:** Annual summary reports, detailed expansion reports on request, and all line reports on request are produced in hard copy.

Agency Contact: National Highway Traffic Safety Administration. (202) 426-1760.

SO1107-011

Vehicle Accident and Crash Simulation Models.

OMB Funding Code/Title: 69-0650-0-1-401 / Operations and research

Program: Research and Analysis

Congressional Relevance: *House* Committee on Energy and Commerce; *House* Committee on Public Works and Transportation; *Senate* Committee on Commerce, Science, and Transportation; *House* Appropriations Committee: Transportation Subcommittee; *Senate* Appropriations Committee: Transportation Subcommittee

Authority: National Traffic and Motor Vehicle Safety Act of 1966, as amended (P.L. 89-563). Motor Vehicle Information and Cost Savings Act, as amended (P.L. 92-513).

Availability: Internal Use Only

Purpose: These models are used to simulate car crashes and the motions of a crash victim characterized as a chain of rigid bodies; analyze auto accident data; simulate the planar dynamics of an automobile recently involved in a longitudinal collision; provide a means of reconstructing automobile accidents as well as evaluating the merits of present safety devices and developing improved data on human tolerance to injury; and quantify the force-time characteristics of vehicle structure and occupant restraint systems which will satisfy human tolerance limits and structural constraints. Some of the data elements (parameters) required to operate a model are inertia sensors, locations of joints, rotational stiffness of each joint, mutual force deflection, geometry of the contact surfaces, material properties, initial and boundary conditions, number of time steps, time increments, number of beam cross section types, integration constants, forcing functions, constraint equations, and optimization functions. Models included in the system are: Dynamic Simulation of Motorcycles, 3-Dimensional Vehicle Dynamics, Hybrid Vehicle Handling Program, Articulated Vehicle Dynamics System (AVDS-3), MAIN, Vehicle to Vehicle Side Impact Simulation Model, Continuous System Modeling Program (CSMP), Finite Element Head Model, Finite Element Chest Model, Finite Element Solution of Contact-Impact Problems in Continuum Mechanics (FEAP-74), 3-D Crash Victim Simulator, ABAG 19, BAGSLAP, Integration of Force Crash Characteristics (BEUAI), HURT, Two Dimensional Model, Auto Crash Characteristics, BUMP, Vehicle Crash Worthiness Investigation Program (CRASH), Sheet Metal Finite Element Program, PERFORM, NUPERFORM, Four Mass Collinear Car Collision Model (FMCCCN), WRCKER, Revised Occupant Simulation Model (ROSM), and Fatality Analysis File. **Input:** Parameters are supplied by users of particular models. **Output:** Routine reports are generated from the simulation models on a weekly basis, and special requests are produced, as needed, through the models' query capabilities.

SO1107-014

Vehicle Selection Matrix.

OMB Funding Code/Title: 69-0650-0-1-401 / Operations and research

House Committee: Transportation Subcommittee; *Senate Appropriations Committee: Transportation Subcommittee*.
Authority: National Traffic and Motor Vehicle Safety Act of 1966, as amended (P.L. 89-563). Motor Vehicle Information and Cost Savings Act, as amended (P.L. 92-513).
Availability: Internal Use Only
Purpose: This system is designed solely to rank future selection of vehicles for compliance testing to various Federal Motor Vehicle Safety Standards as part of the Office of Vehicle Safety Compliance (OVSC) Test Program. Historical data are obtained from internal sources such as Research and Development, Office of Defects Investigation, and OVSC relevant to the above. Data elements vary for each of the standards considered and considered current for three years. **Input:** New vehicle data is gathered from Environmental Protection Agency's (EPA) new model certification vehicle data system. Owners' complaints, compliance test results (prior), defect reports, engineering data, and reports on actual motor vehicle accidents from various valid accident data gathering research contracts comprise source data. Information considered is that internal data forwarded to the Administration through various sources including the National Highway Traffic Safety Administration Hotline. It does not normally include complaints to the manufacturers or other state and local organizations. **Output:** Annually hardcopy reports consisting of Vehicle Master Listings, the Matrix and Priority Lists which are updated 3 months later with mid-year production. The Buylist report is produced monthly and updated monthly.
Agency Contact: National Highway Traffic Safety Administration. (202) 426-4862.

Geographic Relevance: National; State; County; City

Purpose: This system collects and records valid, timely, and reliable nationally representative accident data through a program of data collection. The file currently contains data on over 27,000 accidents. Data in this system forms a comprehensive data base used in the evaluation of existing and proposed standards, identification of problems, and formulation of better safety systems. **Input:** A network of 50 accident investigation teams collect nationally representative accident data, perform special studies, and run exposure surveys. Other data is collected, standardized, and interpreted from police accident reports, driver licensing records, motor vehicle registrations, highway inventories, and medical and other records. **Output:** An annual report of national totals and rates as estimated through the use of this data base is produced. Other reports and studies are designed to evaluate safety standards and demonstration programs through the application of various analytical techniques to the data base.

Geographic Relevance: National

Purpose: The system is designed to provide an easy method by which

aircraft configuration, and report on utilization of the aircraft, (e.g., number of passengers and amount of cargo carried). **Input:** CAB-ER 586--Service Segment data, Official Airline Guide--airline scheduled data, CAB-originating and departing survey statistics, and FAA Form 72301--tower data comprise input sources. **Output:** The system provides the basis for generating machine-readable reports on activities between city pairs by frequency of flight, load factors, and number of people traveling. Additionally, airborne and ground delay time reports are produced currently by the system.

S01112-005

Automotive Industry Data Base.

OMB Funding Code/Title: 69-0142-0-1-407 / Transportation planning, research, and development

Program: Transportation Systems Development and Technology

Congressional Relevance: House Committee on Public Works and Transportation; Senate Committee on Environment and Public Works; House Appropriations Committee: Transportation Subcommittee; Senate Appropriations Committee: Transportation Subcommittee

Authority: Department of Transportation Act of 1966 (P.L. 89-670).

Availability: Agency

Geographic Relevance: National

Purpose: This system is comprised of two information sources. The first is used to support quick-reaction studies for the Office of the Secretary's Automotive Fuel Efficiency Program. The second is used to determine the manufacturing and maintenance characteristics of the automotive fleet. The first information source is comprised of 50 attributes for 210 vehicle models describing such things as engine characteristics, emission system, transmission, fuel economy, emission level, performance, price, and production. The second information source contains configurations for selected alternative engines. The vehicles are classified by body size. For each vehicle, information on materials breakdown, labor, manufacturing cost, price, capital investment for tooling and facilities, and the cost of scheduled and unscheduled maintenance is given. **Input:** Fifty special attributes for 210 vehicle models are used as input to the data base. Up to 400 vehicles are involved in the scope of the data collection. **Output:** Both data sources are available in machine-readable form.

S01112-008

Transportation Statistical Reference File.

OMB Funding Code/Title: 69-0142-0-1-407 / Transportation planning, research, and development

Program: Transportation Policy and Planning

Congressional Relevance: House Committee on Public Works and Transportation; Senate Committee on Environment and Public Works; House Appropriations Committee: Transportation Subcommittee; Senate Appropriations Committee: Transportation Subcommittee

Authority: Department of Transportation Act of 1966 (P.L. 89-670).

Availability: Internal Use Only

Geographic Relevance: National

Purpose: This system is designed to provide analysts, researchers, and library managers a means to identify transportation statistical data bases in order to better utilize resources currently available. The statistical reference file contains descriptive information about transportation-related data bases. For each data base, information given includes name of data base, scientific and administrative organizations responsible, location and system, descriptive abstract, timespan and coverage, availability, origin of new data, and the characteristics of the data elements. The file can be accessed through Transportation Research Information Services Network (TRIS). This system consists of an on-line retrieval capability of transportation data base descriptors and availability information. The system revolves around keywords which are selected by the

user's capability. Information is provided an internal work paper as a hardcopy document. This document is designed to provide information about data bases available within the Department. To insure continued effectiveness, the bibliographic data file is updated on a routine basis. Updates consist of new data bases, and additions to previously identified data bases.

Agency Contact: Research and Special Programs Administration. (617) 494-2614.

S01112-007

International Air Passenger Data.

OMB Funding Code/Title: 69-0142-0-1-407 / Transportation planning, research, and development

Program: Transportation Policy and Planning

Congressional Relevance: House Committee on Public Works and Transportation; Senate Committee on Environment and Public Works; House Appropriations Committee: Transportation Subcommittee; Senate Appropriations Committee: Transportation Subcommittee

Authority: Department of Transportation Act of 1966 (P.L. 89-670).

Availability: Agency

Geographic Relevance: International/Foreign

Purpose: This system stores and maintains records of passenger flows on flights between U.S. gateways and foreign countries for timely retrieval, report generation, and data comparison, and statistical analysis. The system contains records of passengers on all international flights arriving at or departing from U.S. gateways, including carrier and flight number, date, number of U.S. citizens and aliens, city and country names, transport class and type. **Input:** Data are from Aircraft Form I-92 of the Immigration and Naturalization Service. **Output:** Reports include the monthly and annual I-92 Travel Summary Report which reports total passengers between each U.S. port and foreign country; passengers on each flight detailing service type, city pair, and citizen percentage; and a geographical summary subtotal listing of passengers by continent, airline, and country.

S01112-008

Railroad Industry Data Base.

OMB Funding Code/Title: 69-0142-0-1-407 / Transportation planning, research, and development

Program: Transportation Policy and Planning

Congressional Relevance: House Committee on Energy and Commerce; House Committee on Public Works and Transportation; Senate Committee on Commerce, Science, and Transportation; Senate Committee on Environment and Public Works; House Appropriations Committee: Transportation Subcommittee; Senate Appropriations Committee: Transportation Subcommittee

Authority: Department of Transportation Act of 1966 (P.L. 89-670).

Availability: Internal Use Only

Geographic Relevance: National

Purpose: This system provides a means to report upon the operational status of the rail industry. The system enables one to observe historical trends and to make short term estimates of the industry's financial activities. The data base contains a collection of items from the Interstate Commerce Commission (ICC) reports submitted by the railroads concerning the carloading activities of each railroad and by 20 developed commercial groups. Additionally there are time series data which permit estimates of railroad activities. The system is responsive to queries concerning railroad commodity groups. **Input:** ICC reports submitted by the railroads and time series data comprise the system input. **Output:** Principal output includes a series of weekly reports estimating railroad activities by financial and performance activity.

SO1112-009

Summary of National Transportation Statistics.

OMB Funding Code/Title: 69-0142-0-1-407 / Transportation planning, research, and development.

Program: Transportation Policy and Planning.

Congressional Relevance: *House* Committee on Public Works and Transportation; *Senate* Committee on Environment and Public Works; *House* Appropriations Committee: Transportation Subcommittee; *Senate* Appropriations Committee: Transportation Subcommittee.

Authority: Department of Transportation Act of 1966 (P.L. 89-670).

Availability: GPO.

Geographic Relevance: National.

Purpose: This system provides summarized transportation activity information in DOT management and the transportation community in support policy and planning decisions. The information consists of selected National-level transportation statistics. Included are cost, inventory, and performance data describing the passenger and cargo operations of the following modes: air carrier, general aviation, automobile, bus, truck, local transit, rail, water, gas, and oil pipeline. The report includes basic descriptors of U.S. transportation such as operating revenues and expenses, number of vehicles and employees, vehicle miles, and passenger miles. **Input:** Time series data collected from a variety of government and private statistical handbooks comprise the system input. **Output:** Previous editions cover selected data over a 10-year span beginning in 1960. The current edition (1982) covers the period 1970-80 (hard-copy).

Agency Contact: Research and Special Programs Administration. (617) 494-2455.

SO1112-011

Hazardous Materials Incident Reporting System.

OMB Funding Code/Title: 69-0104-0-1-407 / Research and special programs.

Program: Operations, Research and Development.

Congressional Relevance: *House* Committee on Public Works and Transportation; *Senate* Committee on Banking, Housing, and Urban Affairs; *Senate* Committee on Commerce, Science, and Transportation; *House* Appropriations Committee: Transportation Subcommittee; *Senate* Appropriations Committee: Transportation Subcommittee.

Authority: Transportation Safety Act of 1974 (P.L. 93-633). Hazardous Materials Transportation Control Act of 1970 (P.L. 91-458).

Availability: Agency.

Geographic Relevance: National; State; County; City.

Purpose: The system is used to process information on the unintentional release of hazardous materials during the course of transportation. This information is compiled in accordance with the requirement levied in the Transportation Safety Act of 1974, Public Law 93-633. The major uses of the system are to highlight problem areas, pinpoint need for corrective action, and provide a statistical compilation of all accidents and incidents involving hazardous materials. The system contains information on each reported incident and consists of data elements such as the date of the incident, location, shipper, carrier, commodity involved, and other detailed information concerning the packaging and nature of the incident. **Input:** Carriers are required to submit a detailed hazardous materials incident report (DOT Form 5800.1) to Information Systems, Materials Transportation Bureau within 15 days of the occurrence of an unintentional release of a hazardous material in transportation. **Output:** Periodic reports are generated and include: Carriers by Mode, Incidents Involving Exemptions, Incidents Involving Reconditioners, Shippers Monthly Report, Commodity/Container Summary Report, Container and Cause Summary Report, Shippers by Location, and Incidents by Location.

Agency Contact: Research and Special Programs Administration. (202) 472-1024.

SO1112-012

Liquid Pipeline Carrier Accident Report System.

OMB Funding Code/Title: 69-0104-0-1-407 / Research and special programs.

Program: Operations.

Congressional Relevance: *House* Committee on Public Works and Transportation; *Senate* Committee on Commerce, Science, and Transportation; *House* Appropriations Committee: Transportation Subcommittee; *Senate* Appropriations Committee: Transportation Subcommittee.

Authority: Pipeline Safety Act of 1979 (P.L. 96-129).

Availability: Agency.

Geographic Relevance: National; State; (SMSA) Standard Metropolitan Statistical Area; County; City.

Purpose: This system reports any failure in a liquid pipeline system where there is a release of commodity transported resulting in any of the following consequences: explosion or fire not intentionally set by carrier; loss of 50 or more barrels of liquid; escape to the atmosphere of more than five barrels a day of highly volatile liquids; death of any person; bodily harm to any person; and property damage of at least \$5,000. The system contains such information as name and address of carrier; date, time, and location of accident; part of carrier system involved and physical location; origin of liquid or vapor release; cause of accident; fatalities and injuries of the carrier's employees and other persons; property damage--item and dollar value; commodity being transported--estimated loss in barrels; year of installation of facility; and whether there was fire or explosion. **Input:** Information is provided by pipeline carriers and augmented by reports of DOT investigators. **Output:** The Annual Summary of Liquid Pipeline Accidents reported on (DOT 700.1) provides total number of accidents, fatalities, and injuries; total property damage, total carrier damage, and other damage; barrels of commodity lost; total number of accidents by year of installation; summary of accidents by commodity, by cause of corrosion, equipment rupturing the line, and by defective pipe joint; and summary of accidents by location and state.

Agency Contact: Research and Special Programs Administration. (202) 472-1024.

SO1112-013

Pipeline Leak and Test Failure Reporting System.

OMB Funding Code/Title: 69-0102-0-1-407 / Salaries and expenses; 69-0142-0-1-407 / Transportation planning, research, and development.

Program: Materials Transportation; Special Programs.

Congressional Relevance: *House* Committee on Public Works and Transportation; *Senate* Committee on Commerce, Science, and Transportation; *House* Appropriations Committee: Transportation Subcommittee; *Senate* Appropriations Committee: Transportation Subcommittee.

Authority: Department of Transportation Act (P.L. 89-670). Transportation Safety Act of 1974 (P.L. 93-633). Natural Gas Pipeline Safety Act of 1968 (P.L. 90-481).

Availability: Agency.

Geographic Relevance: National; State; (SMSA) Standard Metropolitan Statistical Area; County; City.

Purpose: This system provides causal-related and safety-related information to identify trends and problem areas in support of rule-making action and safety program development and to furnish Congress with accident and casualty data in accordance with section 14 of the Natural Gas Pipeline Safety Act of 1968. The system contains the following information: Nationwide identification of companies; sizes, materials, and ages of gas systems; causes and number of leaks repaired; gas systems on coated or bare pipe; gas systems cathodically protected; fatalities and injuries; operator property damage estimates; value of property damage; fires and explosions; leak surveys; and cathodic inspections. Specific incident data show when and where occurred; cause, pipe specifications, when installed, materials that failed; fatalities and injuries; estimated damage; environment of incident; pressure at time of incident; maximum allowable operating pressure; time until escape of gas stopped; method of leak or failure detection, such as rupture, ignition, explosion; type of repair; and other multiples contributed or repaired. Additional information includes failures due to corrosion, outside forces, construction defects, and material failure. **Input:** The information is provided by operators of distribution and/or transmission/gathering systems. **Output:** Output consists of periodic reports of pipeline leaks and test failures and annual summation of all data displaying occurrences related to operators affected by the Natural Gas Pipeline Safety Act of 1968. A summary of data is contained in the

Maritime Administration

SO1113-002

Ship Data System (SDS).

OMB Funding Code/Title: 69-1750-0-1-403 / Operations and training
Program: Operating Programs: Use of Waterborne Transportation Systems

Congressional Relevance: *House Committee on Merchant Marine and Fisheries; Senate Committee on Commerce, Science, and Transportation; House Appropriations Committee: Commerce, Justice, State, The Judiciary and Related Agencies Subcommittee; Senate Appropriations Committee: Commerce, Justice, State and Judiciary Subcommittee*

Authority: Merchant Marine Act, 1936 (P.L. 74-835).

Availability: Agency

Geographic Relevance: International/Foreign; National

Purpose: The Maritime Administration is authorized and directed (section 211, Merchant Marine Act of 1936, as amended) to maintain and disseminate ship characteristics data on oceangoing merchant ships of 1,000 gross tons and over that comprise the world merchant fleet. In this connection the system is used to maintain and update an automated file of ship characteristics data pertaining to the U.S. and foreign flag fleets. This information is used to produce a wide variety of data, published and unpublished, which are used by MARAD, other government agencies, private industry, and unions. Specifically within MARAD, the data are used for hearings, legal cases, comparative analysis of merchant fleets, historical data, and backup support to the Office of Subsidy Administration, Public Affairs, Ship Construction, Maritime Manpower, and Domestic Shipping. Principal subject matter covered is merchant vessel characteristics. Data includes vessel ID, vessel name, flag of registry, owner, owner ID, type and class of vessel, net registered tons, deadweight tons, date constructed, and employment status. **Input:** Automated source materials from Det Norske Veritas, American Bureau of Shipping, Lloyd's Register of Shipping, and other source materials, such as ships' documents and certificate information from the U.S. Coast Guard, Lloyd's monthly supplements, and other ship registers, are used to update the system. **Output:** A series of reports and tabulations which includes Merchant Fleets of the World, Status and Employment of the U.S. Merchant Marine, New Ship Construction, and Vessel Inventory Report, is produced at various intervals (monthly, quarterly, annually).

Agency Contact: Maritime Administration. (202) 382-0374.

SO1113-003

Domestic Trade System.

OMB Funding Code/Title: 69-1750-0-1-403 / Operations and training
Program: Operating Programs: Use of Waterborne Transportation Systems

Congressional Relevance: *House Committee on Merchant Marine and Fisheries; Senate Committee on Commerce, Science, and Transportation; House Appropriations Committee: Commerce, Justice, State, The Judiciary and Related Agencies Subcommittee; Senate Appropriations Committee: Commerce, Justice, State and Judiciary Subcommittee*

Authority: Merchant Marine Act of 1936 (P.L. 74-835).

Availability: Agency; GPO

Geographic Relevance: National

Purpose: The system provides data on Domestic Ocean, Great Lakes, and Inland Waterways trade. The data can be used to assist the maritime industry in assessing its share of the total commodities being moved, establishing its responsibilities in providing transportation services, and capitalizing more fully on market opportunities. Principal subject matter covered is commodity movements in the U.S. domestic waterborne trade. Data include vessel, traffic, and service type; net registered tons; vessel operator; vessel ID; shipping and receiving dates; COE shipping and receiving channel; commodity code and name; shipping and receiving coastal districts; and shipping and receiving ports. **Input:** Input data are provided on magnetic tapes by the Department of

SO1113-004

Maritime Contract Impact System (MCIS).

OMB Funding Code/Title: 69-1750-0-1-403 / Operations and training
Program: Operating Programs: Development of Waterborne Transportation Systems

Congressional Relevance: *House Committee on Merchant Marine and Fisheries; Senate Committee on Commerce, Science, and Transportation; House Appropriations Committee: Commerce, Justice, State, The Judiciary and Related Agencies Subcommittee; Senate Appropriations Committee: Commerce, Justice, State and Judiciary Subcommittee*

Authority: Merchant Marine Act, 1936 (P.L. 74-835, § 301, 603; 49 Stat. 1992, 2002; 46 U.S.C. 1173; 46 U.S.C. 1131)

Purpose: The system is to provide the maritime industry with a tool for the rapid evaluation of current and proposed seafaring labor contracts during the course of labor negotiations. The MCIS is used in the Office of Maritime Labor and Training, other components of MARAD, other government agencies and consultants under contract to MARAD, as well as the maritime industry. The system has the capability of selecting any fleet of ships and altering the manning and/or characteristics and modifying items of labor cost. The user has the option of selecting very general or very detailed data. MCIS is used to generate labor cost information, manning details, and other parameters for use in various studies prepared in the Maritime Administration. Principal subject matter covered is maritime seafaring collective bargaining agreements. Data include wages, employee contributions to fringe benefit plans, union management affiliations, ship characteristics, manning, shipboard ratings, and wage data. **Input:** The MARAD Office of Trade Studies and Subsidy Contracts provides information regarding changes to the U.S. flag fleet such as new entries and deletions. The maritime industry (labor unions and management associations) provides information on labor agreements, wages, contributions to fringe benefit plans, and manning data. U.S. Coast Guard manning data are used to verify manning data supplied by industry. The major categories of input consist of shipboard ratings, wages, contributions to fringe plans, union management affiliations, manning, and ship characteristics. **Output:** Output pertains to personnel costs, fleet selection and modification, and fleet characteristics. Lists of complete files or selected parts of any file are generated. All reports are produced in hardcopy via a time-sharing terminal in the conversational mode.

Agency Contact: Maritime Administration. (202) 426-5755.

SO1113-006

Maritime Administration Budget Accounting Cost Information System (BACIS).

OMB Funding Code/Title: 69-1750-0-1-403 / Operations and training
Program: Operations and Training (All Programs)

Congressional Relevance: *House Committee on Merchant Marine and Fisheries; Senate Committee on Commerce, Science, and Transportation; House Appropriations Committee: Commerce, Justice, State, The Judiciary and Related Agencies Subcommittee; Senate Appropriations Committee: Commerce, Justice, State and Judiciary Subcommittee*

Authority: Merchant Marine Act, 1936, as amended (P.L. 74-835, as amended by P.L. 90-81; 49 Stat. 1988; 46 U.S.C. 119).

Availability: Agency

Geographic Relevance: National; State; (SMSA) Standard Metropolitan Statistical Area; County; City

Purpose: This system provides for all bookkeeping and accounting functions of the Maritime Administration. The system edits and validates all transactions submitted by Washington and the regional offices daily. At the end of each day, the daily transactions are used to update the master accounting files. These master files are used to produce the accounting reports required monthly. Principal subject matter is Maritime Administration accounting information. Data include daily accounting transactions, status of allotments, open commitments and obligations, payroll information, accounting registers, general ledger and

subledgers, cost information, adjustment entries, fund control information, and payment vouchers. **Input:** Input is derived from contractor reports, Mar Ad, and other federal forms, travel vouchers; contracts, purchase orders; employee time and attendance reports; vendor invoices; government invoices; and payment vouchers. Input is provided from headquarters, four regional offices, and the U.S. Merchant Marine Academy. **Output:** Output includes Status of Allotments, Open Commitments and Obligations; Accounting Registers, Subledgers; Cost Reports; Monthly Reports on Federal Ship Mortgage Insurance Revolving Fund; Trial Balance of Budgetary Accounts, Report on Obligations, Operating Differential Subsidies; and Fund Control Reports. These hardcopy reports are produced monthly. The Report of Federal Outlays by Geographic Location is a hardcopy report produced semiannually. **Agency Contact:** Maritime Administration. (202) 426-5852.

S01113-006

Maritime Administration Trade System (MATS).

OMB Funding Code/Title: 69-1750-0-1-403 / Operations and training
Program: Operating Programs: Use of Waterborne Transportation Systems

Congressional Relevance: House Committee on Merchant Marine and Fisheries; Senate Committee on Commerce, Science, and Transportation; House Appropriations Committee: Commerce, Justice, State, The Judiciary and Related Agencies Subcommittee; Senate Appropriations Committee: Commerce, Justice, State and Judiciary Subcommittee

Authority: Merchant Marine Act, 1936 (P.L. 74-835).

Availability: Agency

Geographic Relevance: International/Foreign; National

Purpose: The system provides information on commodity movements into and out of the United States via commercial sea transport; vessels (both foreign and U.S.) entering or leaving a U.S. port; U.S. and foreign competition which involves the determination of long tons of cargo carried between U.S. and specified foreign ports for the purpose of calculating operating differential subsidies; and trade route analysis for comparing the effectiveness of U.S. carriers versus foreign carriers on various trade routes. Principal subject matter pertains to foreign trade vessel movement and foreign trade commodity movement. Data include commodity name and codes, vessel name, U.S. port and foreign port, tonnage, dollar value, date of shipment, flag of carriage, type vessel, type service, cubic footage and weight of containers, and number of passengers. **Input:** Data are derived from monthly files of Bureau of the Census-created reels of magnetic tape on commodity movements, Imports SM304 - Exports SM704, vessel movements, inbound SM350 - Outbound SM750; ship characteristics entered in the MARAD Ship Data System. **Output:** Hardcopy output consists of a series of official MARAD reports showing detailed information on various aspects of U.S. waterborne foreign trade.

S01113-007

Seamen's Employment Analysis System (SEAS).

OMB Funding Code/Title: 69-1750-0-1-403 / Operations and training
Program: Operating Programs: Development of Waterborne Transportation Systems

Congressional Relevance: House Committee on Merchant Marine and Fisheries; Senate Committee on Commerce, Science, and Transportation; House Appropriations Committee: Commerce, Justice, State, The Judiciary and Related Agencies Subcommittee; Senate Appropriations Committee: Commerce, Justice, State and Judiciary Subcommittee

Authority: Merchant Marine Act, 1936 (P.L. 74-835, § 101, 210-211, 301; 49 Stat. 1985, 1989, 1992; 46 U.S.C. 1101, 1120-1121, 1131); (Executive Order 11490) (Federal Preparedness Circular 6).

Availability: Agency

Geographic Relevance: National

Purpose: The automated Seamen's Employment Analysis System (SEAS) provides the only accurate statistical reports on the composition of the U.S. merchant marine workforce and is the basis for all Maritime Administration (MarAd) responses to Congress, Executive Branch agencies, and the maritime industry regarding the shipboard labor force.

In addition, these statistical reports support the output requirements which are necessary for planning national defense contingencies, planning numerous state maritime training programs, development of merchant marine supply and demand studies, and other federal and industry planning and reporting activities. In addition to filling federal and industry data needs, the SEAS enables the agency to fulfill its requirements under Executive Order 11490, Federal Preparedness Circular 6, and legislative authorities of Sections 101, 210, 211 and 301 of the Merchant Marine Act of 1936, as amended. It also enables MarAd to support and the U.S. Department of Labor in furtherance of their legislative mandates. Principal subject matter consists of seafaring workforce characteristics for all merchant seamen who sailed and received U.S. Coast Guard discharge slips within the previous year. The system includes approximately 250,000 discharge certificates and is updated annually. **Input:** The input to SEAS consists primarily of U.S. Coast Guard raw data records on merchant seamen, including social security number, date of entry into the workforce, date of birth, job qualifications, work experience, and training. The processing includes transfer of labor union codes to the input transaction records and generation of reports on the number of active seamen by age, job skills, days worked, training sources, attrition rates, reenlistment rates, licensing, and other characteristics. **Output:** The system produces hard copy, tabular statistical reports on the composition of the U.S. merchant marine workforce.

S01113-009

Port Facilities Inventory (PFI).

OMB Funding Code/Title: 69-1750-0-1-403 / Operations and training
Program: Operating Programs: Use of Waterborne Transportation Systems

CFDA NO.: 11.509

Congressional Relevance: House Committee on Merchant Marine and Fisheries; Senate Committee on Commerce, Science, and Transportation; House Appropriations Committee: Commerce, Justice, State, The Judiciary and Related Agencies Subcommittee; Senate Appropriations Committee: Commerce, Justice, State and Judiciary Subcommittee

Authority: Merchant Marine Act, 1936, as amended (P.L. 74-835; 49 U.S.C. 1119).

Availability: Internal Use Only

Geographic Relevance: National; State; City; Coastal Region/Port

Purpose: The Port Facilities Inventory system was developed primarily for use in agency emergency planning functions, but it has also been utilized for cooperative port planning studies. The system comprises a computerized data base of the major U.S. ocean and inland river port facilities. The types of facility data collected include location, owner/operator, use, physical characteristics and dimensions, type of cargo and vessels served, handling equipment, and storage capacities. The system is updated on a 2 to 3 year cycle. **Input:** Individual port facilities, port authorities, the Army Corps of Engineers, and in-house studies and documents provide data used in the system. **Output:** The frequency of system output is based on agency needs and requirements. Four fixed format reports provide various details on individual port facilities. In addition, special reports can be generated by using any of the data elements as the retrieval criteria in various report formats.

Agency Contact: Maritime Administration. (202) 426-4337.

S01113-010

Emergency Berth Utilization Reporting System (EBURS).

OMB Funding Code/Title: 69-1750-0-1-403 / Operations and training
Program: Operating Programs: Use of Waterborne Transportation Systems

CFDA NO.: 11.509

Congressional Relevance: House Committee on Merchant Marine and Fisheries; Senate Committee on Commerce, Science, and Transportation; House Appropriations Committee: Commerce, Justice, State, The Judiciary and Related Agencies Subcommittee; Senate Appropriations Committee: Commerce, Justice, State and Judiciary Subcommittee

Authority: Merchant Marine Act, 1936, as amended (P.L. 74-835; 49 U.S.C. 1119).

Availability: Internal Use Only; Unclassified appropriate subfields will be made available to U.S. ports

Geographic Relevance: National

Purpose: This system was devised to enable the port function of the Maritime Administration and the National Shipping Authority to more readily and efficiently plan, control, and schedule the utilization of berth capacity in U.S. ports in time of national and limited emergencies. The supporting systems for this data base are the Port Facilities Inventory which provides information on berthing facilities characteristics such as length, width, depth alongside, and storage capacity; and the Ship Data System which provides vessel characteristics for specific vessels, including such information as vessel name, length, beam, draft, flag, NRT, and GRT. The frequency of system updating is determined by the updating cycles of the supporting systems. In time of national emergency, the system will be able to produce, on a daily basis, CRT displays and hardcopy records showing the operational status of ports, terminals, berths, current mooring status of berths, and the allocation status of terminals. **Input:** Terminal operators and port controllers provide information relative to the types of berths available, occupied, or out of operation; the type and amount of cargo ready for loading or unloading; and the type and name of ships expected and the estimated time of arrival. **Output:** In addition to the daily reports which can be produced in time of a national emergency, reports can be produced, using an appropriate subset of unclassified files, for individual ports to enable them to record and evaluate berth utilization during peacetime.

S01113-011

Financial Review And Contract Surveillance System (FRACS).

OMB Funding Code/Title: 69-1750-0-1-403 / Operations and training
Program: Operating Programs: Use of Waterborne Transportation Systems

CFDA NO.: 11.509

Congressional Relevance: House Committee on Merchant Marine and Fisheries; Senate Committee on Commerce, Science, and Transportation; House Appropriations Committee: Commerce, Justice, State, The Judiciary and Related Agencies Subcommittee; Senate Appropriations Committee: Commerce, Justice, State and Judiciary Subcommittee

Authority: Merchant Marine Act, 1936, as amended (P.L. 74-835, as amended by P.L. 90-81; 49 Stat. 1988; 46 U.S.C. 1119).

Availability: Internal Use Only

Geographic Relevance: National

Purpose: This system assists the Maritime Administration (MarAd) in monitoring the financial performance of marine carriers who receive government assistance. The system automates the validation, storage, retrieval, and statistical analysis of financial information submitted to MarAd by U.S. flag vessel owners/operators. The data base is updated continuously and contains two years of information. **Input:** Participating companies submit data semiannually to MarAd. The data submitted consists of balance sheets, income statements, and vessel operating statements. **Output:** Hardcopy reports include: library retrievals, which consist of a specific balance sheet, income statement, or vessel performance report for a given company for a given period; standard summary reports, produced on a cyclical or demand basis, such as "Revenue per Freight Payable Ton by Trade Route and Ship Type" and financial performance ratios for a given company compared to the industry as a whole; and special reports written in a high level retrieval language in response to specific management queries.

Agency Contact: Maritime Administration. (202) 426-5854.

S01113-012

National Cargo Shipping Analysis System (NACS).

OMB Funding Code/Title: 69-1750-0-1-403 / Operations and training
Program: Operating Programs: Use of Waterborne Transportation Systems

CFDA NO.: 11.509

Congressional Relevance: House Committee on Merchant Marine and Fisheries; Senate Committee on Commerce, Science, and Transportation; House Appropriations Committee: Commerce, Justice, State, The Judiciary and Related Agencies Subcommittee; Senate Appropriations Committee: Commerce, Justice, State and Judiciary Subcommittee

Authority: Merchant Marine Act, 1936, as amended (P.L. 74-835; 46 U.S.C. 1119).

Availability: Agency

Geographic Relevance: International/Foreign; National

Purpose: This system is used to determine the compliance of federal agencies with federal cargo preference laws and to report the findings to the Congress. Shipping data recorded for all ocean cargoes generated by federal programs encompassed by the cargo preference laws include such information as revenue, tonnage, type of commodity, vessel name, operator, freight forwarder, and federal agency. The data are compiled on a calendar year basis for reporting to the Congress. Some programs, while reporting annually, require multiyear compilations until a specific loan or project is completed. The records are updated weekly. It is anticipated that, when fully operational, the file will contain 1.3 million records, totaling 28,000 to 30,000 blocks on an annual basis. **Input:** The Department of Defense (DOD) enters data derived from DOD manifests directly into the system. Other agencies, foreign governments, other shippers, and, on occasion, DOD provide commercial bills of lading which are entered on-line. **Output:** Reports are generated in standard formats and in response to ad hoc requests. Standard reports generated on a quarterly basis include listings of shipments by agency by program with related U.S. flag participation. An updated data base is produced on a weekly basis.

S01113-013

Containerized Cargo System (CON).

OMB Funding Code/Title: 69-1750-0-1-403 / Operations and training
Program: Operating Programs: Use of Waterborne Transportation Systems

CFDA NO.: 11.509

Congressional Relevance: House Committee on Merchant Marine and Fisheries; Senate Committee on Commerce, Science, and Transportation; House Appropriations Committee: Commerce, Justice, State, The Judiciary and Related Agencies Subcommittee; Senate Appropriations Committee: Commerce, Justice, State and Judiciary Subcommittee

Authority: Merchant Marine Act, 1936, as amended (P.L. 74-835; 46 U.S.C. 1119).

Availability: Agency

Geographic Relevance: International/Foreign; National

Purpose: This system provides information on containerized cargo movements into and out of ports in the United States and foreign countries via commercial sea transport. The system includes such information as the number of containers in twenty-foot equivalent units empty and loaded, name and flag of vessel, operator trade name, United States and foreign port, and civilian or Department of Defense shipment. The data are used to analyze carrier performance to assist in determining the level of service on various trade routes for subsidy purposes. **Input:** Data used in this system are derived from the CONTAINER/TRAILER REPORT--Foreign Trade, form MA 578A, submitted by all operators carrying more than 25 twenty-foot equivalent units per voyage in the foreign trade of the United States. **Output:** Hardcopy reports produced by the system show various aspects of containerized cargo movements in the import and export trade of the United States. Reports in standard formats are produced annually.

Agency Contact: Maritime Administration. (202) 382-0374.

S01113-014

U.S. Port Trade System.

OMB Funding Code/Title: 69-1750-0-1-403 / Operations and training
Program: Operating Programs: Use of Waterborne Transportation Systems

CFDA NO.: 11.509

Congressional Relevance: House Committee on Merchant Marine and Fisheries; Senate Committee on Commerce, Science, and Transportation; House Appropriations Committee: Commerce, Justice, State, The Judiciary and Related Agencies Subcommittee; Senate Appropriations Committee: Commerce, Justice, State and Judiciary Subcommittee

Authority: Merchant Marine Act, 1936, as amended (P.L. 74-835; 46 U.S.C. 1119).

Availability: Agency

Geographic Relevance: National

Purpose: This system enables members of the U.S. port industry to collectively and individually assess foreign trade flows and growth patterns. The system summarizes U.S. port foreign trade data by port, type of cargo, tonnage, and dollar value. Directional flow information for over 150 individual ports is also included. The U.S. ports are grouped under seven major geographical regions and the ports in each region are monitored for general, dry bulk, and liquid bulk cargo movements. **Input:** The Bureau of the Census provides cargo data computations of information gathered from import declarations and import entries. **Output:** Statistical reports are produced on an annual basis. These reports provide foreign trade totals for individual ports and percentage share information.

S01113-016

Inventory of American Intermodal Equipment.

OMB Funding Code/Title: 69-1750-0-1-403 / Operations and training
Program: Operating Programs: Use of Waterborne Transportation Systems

CFDA NO.: 11.509

Congressional Relevance: House Committee on Merchant Marine and Fisheries; Senate Committee on Commerce, Science, and Transportation; House Appropriations Committee: Commerce, Justice, State, The Judiciary and Related Agencies Subcommittee; Senate Appropriations Committee: Commerce, Justice, State and Judiciary Subcommittee

Authority: Merchant Marine Act, 1936, as amended (P.L. 74-835; 49 U.S.C. 1119).

Availability: Agency

Geographic Relevance: National

Purpose: This inventory provides data for the evaluation of U.S. intermodal equipment capabilities with respect to current trends and future requirements. The inventory contains information on all the intermodal equipment owned by the major U.S. steamship and leasing companies. The types of intermodal equipment included are containers, chassis, ship-borne barges, ro-ro trailers, and vessels. The physical dimensions and characteristics of each company's equipment are included. The inventory is updated annually. **Input:** Participating steamship and leasing companies provide lists of their equipment by type, quantity, and dimension for use in this system. **Output:** An annual report is produced which lists the equipment owned by each U.S. steamship and leasing company. In addition, fifteen statistical summaries are produced which analyze the data from various aspects.

S01113-016

Port Characteristics System (PCS)

1984

OMB Funding Code/Title: 69-1750-0-1-403 / Operations and training
Program: Operating Programs: Use of Waterborne Transportation Systems

Congressional Relevance: House Committee on Merchant Marine and Fisheries; Senate Committee on Commerce, Science, and Transportation; House Appropriations Committee: Commerce, Justice, State, The Judiciary and Related Agencies Subcommittee; Senate Appropriations Committee: Commerce, Justice, State and Judiciary Subcommittee

Authority: Act of June 5, 1920 (P.L. 66-259, § 8; 41 Stat. 992; 46 U.S.C. 867). Merchant Marine Act, 1936 (P.L. 74-835, § 101; 49 Stat. 1985; 46 U.S.C. 1101 et seq.).

Availability: Agency

Purpose: The Port Characteristics System is designed to provide quick summarized port directory channel, terminal, carrier, economic, and trade information. **Input:** Data is entered into system from various government and industry publications. **Output:** The system produces summary information by individual port on an ad hoc basis.

Agency Contact: Maritime Administration. (202) 426-4357.

S01113-017

Student Incentive Payment/Cadet Monitoring System (SIP/CMS).

OMB Funding Code/Title: 69-1750-0-1-403 / Operations and training
Program: Maritime Education and Training: State Marine Schools, Maritime Education and Training: U.S. Merchant Marine Academy
CFDA NO.: 20.806; 20.807

Congressional Relevance: House Committee on Merchant Marine and Fisheries; Senate Committee on Commerce, Science, and Transportation; House Appropriations Committee: Commerce, Justice, State, The Judiciary and Related Agencies Subcommittee; Senate Appropriations Committee: Commerce, Justice, State and Judiciary Subcommittee

Authority: Merchant Marine Act, 1936, as amended (P.L. 74-835, title XIII, § 1302, as amended by P.L. 96-453; 46 U.S.C. 1295a et seq.)

Availability: Internal Use Only

Purpose: The system is to automatically generate quarterly subsidy payments to State Maritime Academy students who are enrolled in the SIP program. In addition, the system is to monitor the mandatory service obligations of all graduates enrolled in the SIP program and all students and graduates of the U.S. Merchant Marine Academy. Data maintained by the system include biographical information on each student, leave of absences to determine eligibility for subsidy payments, actual subsidy payments made, employment history, requests for waivers and deferments for all students and graduates, and breaches of the service obligation contract. Approximately 10,000 students/graduates will be on-line when the system is operational. **Input:** The State Maritime Academies and the U.S. Merchant Marine Academy provide basic input data containing biographical information on each student entering the system. Further information on leaves of absences is provided by the schools. Employment information is provided each year by the graduates. This information will be used to issue quarterly Student Incentive Payment (SIP) checks to students or to evaluate whether or not a student/graduate has breached their service obligation. **Output:** Output consists of a check issue tape of subsidy payments to be sent to the Department of the Treasury. In addition, form letters are automatically generated to warn students or graduates of an impending breach of their service obligation. Reports are produced pertaining to disenrollments, requests for waivers or deferments of the service obligation, employment, breaches of service obligation, amount of quarterly student incentive payment checks, and cumulative subsidy payments received by each student. These reports are produced in hardcopy via a time-sharing terminal in the conversational mode.

DEPARTMENT OF THE TREASURY

S01200-002

Treasury Financial Resource Management System (TFRMS).

OMB Funding Code/Title: 20-0101-0-1-803 / Salaries and expenses
Program: Salaries and Expenses (All Programs)

Congressional Relevance: *House* Committee on Ways and Means; *Senate* Committee on Finance; *House* Appropriations Committee; Treasury-Postal Service and General Government Subcommittee; *Senate* Appropriations Committee; Treasury, Postal Service, General Government Subcommittee

Authority: Act of September 13, 1982 (P.L. 97-258; 96 Stat. 878; 31 U.S.C. 301).

Availability: Internal Use Only

Purpose: This system provides the information, timetable, and mechanism for entering Department of the Treasury program plans into the yearly budget submission. **Input:** The Office of the Secretary and the department's bureaus provide system input in accordance with the format and timetable prescribed by the system. **Output:** The system provides for yearly approval of budget needs by departmental policy officials.

Agency Contact: (202) 566-2006.

S01200-003

Fiscal/Administrative Accounting Systems Tracker (FAAST).

OMB Funding Code/Title: 20-0101-0-1-803 / Salaries and expenses
Program: Departmental Policy and Administrative Services

Congressional Relevance: *House* Committee on Banking, Finance, and Urban Affairs; *House* Committee on Ways and Means; *Senate* Committee on Banking, Housing, and Urban Affairs; *Senate* Committee on Finance; *House* Appropriations Committee; Treasury-Postal Service and General Government Subcommittee; *Senate* Appropriations Committee; Treasury, Postal Service, General Government Subcommittee

Authority: Act of September 13, 1982, as amended (P.L. 97-258, as amended by P.L. 97-452, § 1; 96 Stat. 959; 31 U.S.C. 351 et seq.). (Reorganization Plan 2 of 1950).

Availability: Agency

Purpose: The system is a data base management program used to monitor and assist Office of the Secretary and bureau personnel in correcting instances of nonconformance in GAO accounting principles, standards, and related requirements. Each instance of nonconformance was enumerated in the report resulting from the review of accounting systems, required by Section 4 of the Federal Managers' Financial Integrity Act of 1982. **Input:** The following data from the Financial Integrity Act (FIA) report and bureau personnel is entered into the system: bureau name, project coordinator, phone number, address, accounting system name, discrepancy, action plan to correct deficiency, and date anticipated for completion of action plan. **Output:** For each individual instance of nonconformance noted in the FIA report on Section 4, the system will give current status on the work being done, or the date the discrepancy was eliminated.

Office of the Comptroller of the Currency

S01201-001

Quarterly Statements of Financial Condition or Consolidated Reports of Condition (Call Reports).

OMB Funding Code/Title: 20-8413-0-8-376 / Assessment funds

Program: Regulation of the National Banking System

Congressional Relevance: *House* Committee on Banking, Finance, and Urban Affairs; *Senate* Committee on Banking, Housing, and Urban Affairs; *House* Appropriations Committee; Treasury-Postal Service and General Government Subcommittee; *Senate* Appropriations Committee; Treasury, Postal Service, General Government Subcommittee

Authority: National Bank Act of 1864 (P.L. 38-106).

Availability: Agency

Geographic Relevance: National; State; Local

Purpose: The system is designed to establish a comprehensive pool of bank connected financial and operating data for use in support of various regulatory programs. The data are furnished in response to reporting requirements imposed on all federally chartered commercial banks; that is, national banks. Intended users include banking regulatory agencies, other governmental components, and the private sector. Data from the Consolidated Report, of condition are entered on a quarter-end basis for all national banks and contain details of a bank's assets, liabilities, and equity capital. The balance sheet is further supported by schedules detailing the content of certain captions such as maturities of investment securities held, classes and purposes of loans, types of deposits, and composition of capital accounts. The file for large banks is augmented by data detailing market values of securities holdings, maturities of certain balance sheet items, selected foreign transactions, loans and deposits maturities, composition of domestic offices trading accounts, and reconciliation of loan loss experience. Earnings data are gathered quarterly for major banks, semiannually for others. The Consolidated Report of Income supplies detailed information on sources and disposition of income together with a capital reconciliation schedule. **Input:** All input comes from individual nationally chartered commercial banks. Major categories of data as indexed on file include bank name, city and state location; bank size according to total assets; Consolidated Report of Condition (balance sheet and supporting schedules); and Consolidated Report of Income (earnings statement and supporting schedules). **Output:** Principal output includes the Annual Report of the Comptroller of the Currency, Semiannual Report of Assets and Liabilities--Commercial and Mutual Savings Banks, and periodic (daily) individual bank financial statements in disclosure format.

Agency Contact: Office of the Comptroller of the Currency. (202) 447-9550.

S01201-002

Annual Trust Department Assets and Common Trust Fund Survey.

OMB Funding Code/Title: 20-8413-0-8-376 / Assessment funds

Program: Regulation of the National Banking System

Congressional Relevance: *House* Committee on Banking, Finance, and Urban Affairs; *Senate* Committee on Banking, Housing, and Urban Affairs; *House* Appropriations Committee; Treasury-Postal Service and General Government Subcommittee; *Senate* Appropriations Committee; Treasury, Postal Service, General Government Subcommittee

Authority: Act of September 13, 1982 (P.L. 97-258; 96 Stat. 878; 31 U.S.C. 301).

Availability: Agency

Purpose: The system is designed to establish a comprehensive pool of bank trust operations data for use in statistical and banking regulatory programs. The data are furnished in response to reporting requirements imposed on commercial banks with trust powers. Intended users include banking regulatory agencies, other governmental components, and the private sector. Data are submitted at yearend from banks with trust powers. Assets are classified in two major categories--trust and estates and agency accounts. These assets are reported at market value at valuation date and give detailed information on pension plans, employee benefit accounts, etc. These assets consist of various types of securi-

panies. Major categories of data are indexed on file include bank name, city and state location; bank size according to total assets; Trust Department annual Report; and Common Trust Fund Survey. **Output:** Principal output is the Annual Report of the Comptroller of the Currency and Trust Assets of Insured Commercial Banks (annual publication).

Agency Contact: Office of the Comptroller of the Currency. (202) 447-1731.

SO1201-003

National Bank Surveillance System (NBSS).

OMB Funding Code/Title: 20-8413-0-8-376 / Assessment funds

Program: Regulation of the National Banking System

Congressional Relevance: House Committee on Banking, Finance, and Urban Affairs; Senate Committee on Banking, Housing, and Urban Affairs; House Appropriations Committee: Treasury-Postal Service and General Government Subcommittee; Senate Appropriations Committee: Treasury, Postal Service, General Government Subcommittee

Authority: National Bank Act of 1864 (P.L. 38-106)

Availability: Internal Use Only

Purpose: The system was established in September 1975 as a part of a reorganization of the Office of the Comptroller of the Currency. It is a computer-based, data collection and calculation system. It provides management information which permits timely and appropriate supervision of the performance and the condition of banks in the National Banking System. The financial data are segregated into 19 bank peer groups. The peer groups are determined by each bank's size, its operation as a unit or branch banking system, and its location as a rural or urban bank. Ratios and percentages for each of not less than five years and with quarterly data annualized are calculated on numerous asset, liability, capital, income, and expense figures for each bank and for each peer group of banks. Each of the various ratios and percentages for each bank bears a percentile ranking indicating its position within its peer group of banks. The calculated data on each bank include an analysis of capital, dividends, valuation reserves, purchased funds, uncollected income, and asset and liability changes. Data for five years and for comparable quarters for each bank and its peer group are produced quarterly in a Bank Performance Report for the use of each national bank and for internal supervisory purposes. Data in the form of ratios and percentages from public information sources on each peer group will be published following the receipt of December 31, 1976 data. **Input:** The primary sources of NBSS data are the Reports of Condition and Income submitted by national banks to the Comptroller of the Currency in a detailed financial balance sheet form quarterly. Reports of Income are submitted quarterly by each national bank having resources of \$300 million or more and semiannually by smaller national banks. **Output:** The output is biweekly for internal supervisory purposes and is quarterly for bank and public use. Computer files have query and filter ranking capabilities for internal use. Output is in hardcopy form.

Agency Contact: Office of the Comptroller of the Currency. (202) 447-1453.

SO1201-004

Fiscal Information System.

OMB Funding Code/Title: 20-8413-0-8-376 / Assessment funds

Program: Regulation of the National Banking System

Congressional Relevance: House Committee on Banking, Finance, and Urban Affairs; Senate Committee on Banking, Housing, and Urban Affairs; House Appropriations Committee: Treasury-Postal Service and General Government Subcommittee; Senate Appropriations Committee: Treasury, Postal Service, General Government Subcommittee

Authority: National Bank Act of 1864 (P.L. 38-106).

Availability: Internal Use Only

Purpose: The system was developed to provide top management with an in-depth analysis of bureau operating costs, identifying those areas where economies may be achieved as well as providing an effective management tool to assess the cost of new programs or program increases. The major functions of the system are to 1) accumulate all accounting and budget data; 2) produce monthly reports of financial results; 3) produce budget performance reports comparing actual results

with budget performance. The budget subsystem combines data from the two previous systems to produce monthly performance reports comparing actual results with the budget. Each subsystem produces reports by organizational unit and by general ledger account on a monthly as well as a year-to-date basis. **Input:** The data are derived from the detailed receipt, expenditure, and other accounting transactions processed during the period along with the approved bureau budget. National banks provide the major input for receipts in the form of semiannual assessments and payments for special examinations. Expenditure input is derived from payroll records, travel vouchers, vendor invoices, and other accounting documentation. Budgets prepared by individual operating units as approved by the Comptroller are the input for the budget performance subsystem. **Output:** Output is produced monthly and includes Financial Statements and Supporting Schedules and Budget Performance Reports (both in hardcopy).

Agency Contact: Office of the Comptroller of the Currency. (202) 447-1878.

Congressional Relevance: House Committee on Banking, Finance, and Urban Affairs; Senate Committee on Banking, Housing, and Urban Affairs; House Appropriations Committee: Treasury-Postal Service and General Government Subcommittee; Senate Appropriations Committee: Treasury, Postal Service, General Government Subcommittee

Authority: Act of February 19, 1875 (P.L. 43-2089; 12 U.S.C. 481; Revised Statute 5240).

Availability: Agency

Geographic Relevance: National

Purpose: This system was established in May 1981. It is a computer-based data collection and calculation system. It provides management information which permits timely supervision of the performance and condition of banks. File size is approximately 450 megabytes. **Input:** The primary sources of data are the NBSS Bank Performance Report data which consist of Reports of Condition and Income submitted by national banks to the Comptroller of the Currency in a financial balance sheet form quarterly. **Output:** Principal output is from queries made by bank examiners who use remote terminals to tap into this information system.

Agency Contact: Office of the Comptroller of the Currency. (202) 447-1446.

United States Customs Service

SO1202-003

Customs Accounting and Management Information System (CAMIS).

10/01/81

OMB Funding Code/Title: 20-0602-0-1-751 / Salaries and expenses

Program: Salaries and Expenses (All Programs)

Congressional Relevance: House Committee on Ways and Means; Senate Committee on Finance; House Appropriations Committee: Treasury-Postal Service and General Government Subcommittee; Senate Appropriations Committee: Treasury, Postal Service, General Government Subcommittee

Authority: Tariff Act of 1930, as amended (P.L. 71-361; 46 Stat. 704; 19 U.S.C. 1401 et seq.; OMB Circular A-34).

Availability: Agency; Customs, GMB, GAO (Check Distribution Tape)

Geographic Relevance: National

Purpose: The Customs Accounting and Management Information System reports financial status for the Customs Service. The financial system reflects current and prior year monetary balances of obligations, disbursements, expenditures, and financial plans. Financial data are input from the regional offices via Datapoint terminals and updated on the master files on a daily basis on the Customs Headquarters Computer.

er. Financial data can then be accessed by the Regional Financial Management Staff as required. **Input:** Inputs are obtained from the Bureau of the Mint (TPPIS Payroll System) and from several intra-agency systems, e.g., Automated Procurement System (CAPS), Revenue Accounting System, Work Ticket System, etc. **Output:** Disbursement File Tape. Output consists of: Disbursement File Tape (daily), Statement of Transaction, Collection and Disbursement (SF-224)(monthly), Report of Obligations (SF-225) (monthly), Report of Obligations (SF-225)(monthly), Travel Statistics (daily), Travel Advances (daily), plus 12 additional financially structured master files.

Agency Contact: United States Customs Service. (202) 566-8266.

Authority: Tariff Act of 1930 (P.L. 71-361, title IV, § 461-463, 499, 46 Stat. 717-718, 728; 19 U.S.C. 1461-1463, 1499). Tariff Act of 1930 (P.L. 71-361, title IV, § 484, 491, as amended by P.L. 95-410, title 1, § 102(n); 46 Stat. 722, 726; 19 U.S.C. 1484, 1491). Anti-Smuggling Act (P.L. 74-238, § 1; 49 Stat. 517; 19 U.S.C. 1701 et seq.). Act of May 27, 1921 (P.L. 67-10, § 201-202; 42 Stat. 11; 19 U.S.C. 160-161).

Availability: Agency

Purpose: The system provides an automated capability for processing imported cargo from time of arrival through final determination of import duties. Automation assistance is also provided for merchandise identification, for example, import items; entry liquidation; and statistical reporting. The system benefits the public, other government agencies, and Customs through more uniform and expeditious processing of commercial imports. The system consists of approximately 450 terminals spread in 75 locations, connected to a central computer facility (IBM 3081). The system consists of over 300 programs accessing over 100 data base files. The regular period of operation is 8 a.m. to 7:30 p.m. Eastern Standard Time. Development and test activities are run concurrently and in evenings. **Input:** Customs entry data consisting of CF 5101 (entry record), CF 7501 (consumption entry), CF 8502 (warehouse entry), and collection information are input to the system either through data entry terminals or automated broker/carrier computer to computer interfaces. Also change/no change liquidation data, CF 4811/CF 5106 importer number, and address data are input to the system. **Output:** Output includes bills; refund tapes for disbursing office; notices of liquidations, extensions, and suspensions; reports of collections for the Department of the Treasury, the Internal Revenue Service, the Immigration and Naturalization Service, and the Virgin Island government; files for interfaces with other systems; and Customs' Management Reports.

Bureau of Government Financial Operations

SO1204-001

Treasury Disbursing System.

OMA Funding Code/Title: 20-1801-0-1-803 / Salaries and expenses

Program: Disbursements and Claims

Congressional Relevance: House Committee on Ways and Means; Senate Committee on Finance; House Appropriations Committee; Treasury-Postal Service and General Government Subcommittee; Senate Appropriations Committee; Treasury, Postal Service, General Government Subcommittee

Authority: Act of March 25, 1939 (P.L. 76-9). (Reorganization Plan 3 of 1940).

Availability: Internal Use Only

Geographic Relevance: International/Foreign; National; State

Purpose: The Treasury maintains a system of regional offices to provide disbursing services for most civilian departments and agencies. The

services include the payment of federal civilian payrolls, annuities and benefits under the major civilian retirement and social transfer payment programs, and other valid obligations of the agencies served. The disbursing function also involves the processing of noncheck transfers of funds between the accounts of different agencies that are served by the Treasury. The Treasury disbursing offices maintain magnetic tape, microfilm, and hardcopy records of checks issued and of other payment transactions accomplished. Included in these records are copies of certified vouchers, payment dates, check serial numbers, payee names and account numbers, and types of payments and/or programs supported. Records of check cancellation and deposit transactions and stop payment requests are also maintained. **Input:** The checks issued and other payments made by the Treasury disbursing system are generated on the basis of certified payment vouchers from administrative agencies. The disbursing offices also receive requests for cancellation and deposit of checks to agency accounts when the items cannot be delivered to payees or when the payees are found not to be entitled to payment. Disbursing offices also submit requests for stop payment on the basis of notices received through agencies from payees that checks have not been received or have been lost, stolen, or forged. **Output:** The principal output is the checks issued or other payment transactions (Electronic Funds Transfer and Treasury Financial Communications System Payment Receipts) accomplished for agencies. (The Treasury returns copies of the certified vouchers to agencies reflecting that payments have been made.) Monthly, each disbursing office summarizes the transactions accomplished for each agency unit and makes a report to the Treasury's central accounting and reporting system. Each agency unit submits a report of transactions accomplished by the Treasury as recorded on the agency's books. These two summary reports are used by the central accounting and reporting system to reconcile agency outlays and disbursing officer's accountability. The disbursing offices also make weekly and monthly reports of checks issued for reconciliation with check payments by the Treasury's check payment and reconciliation system.

Agency Contact: Bureau of Government Financial Operations. (202) 566-2392.

SO1204-002

Treasury Check Claims Processing.

OMB Funding Code/Title: 20-1801-0-1-803 / Salaries and expenses; 20-4109-0-3-803 / Check forgery insurance fund

Program: Disbursements and Claims, Check Forgery Insurance Fund

Congressional Relevance: House Committee on Ways and Means; Senate Committee on Finance; House Appropriations Committee; Treasury-Postal Service and General Government Subcommittee; Senate Appropriations Committee; Treasury, Postal Service, General Government Subcommittee

Authority: (Reorganization Plan 3 of 1940). Act of March 25, 1939 (P.L. 76-9)

Availability: Internal Use Only

Purpose: The Treasury processes claims against the United States for the proceeds of government checks which are reported lost, stolen, mutilated, destroyed, or not received, or which bear forged endorsements. Based on the circumstances in each case, settlement is effected by the issuance of checks to the claimants or other appropriate action. The claims processing system primarily involves a collection of files containing documents and checks, which are supplemented by computer records of stop payment and payment status information. The central elements constituting the files are documents provided or forms prepared by the claimants; checks or copies of checks (if paid); documents and forms from the agencies and disbursing offices; records and correspondence of banks or other endorser in connection with recovery of the proceeds of forged checks; Secret Service (or other agency) investigative reports needed in the adjudication process; forms and documents used in connection with the settlement process; and any other information relevant to adjudication of the claims. **Input:** The primary providers of information for the check claims processing are the payee-claimants; the agencies which authorize issuance of the checks involved and which provide information concerning entitlement; the disbursing offices; the Bureau of Government Financial Operations check payment system, which provides information as to payment status; the banks or other endorser concerned with the negotiation of the checks; and the Secret Service and other investigative agencies. **Output:** The principal daily output is machine-readable schedule-vouchers authorizing the issuance of checks to claimants, hardcopy denial notices for unsubstantiated

ed claims, hardcopy documents and/or check copies in response to agency inquiries, and hardcopy charge/credit transfer vouchers between agencies. The system's automated query capabilities are limited to status/payment action inquiries. Queries from the public and other agencies are processed manually.

Agency Contact: Bureau of Government Financial Operations. (202) 447-1080

S01204-003

Treasury Central Accounting and Reporting System.

OMB Funding Code/Title: 20-1801-0-1-803 / Salaries and expenses

Program: Governmentwide Accounting

Congressional Relevance: House Committee on Ways and Means; Senate Committee on Finance; House Appropriations Committee; Treasury-Postal Service and General Government Subcommittee; Senate Appropriations Committee; Treasury, Postal Service, General Government Subcommittee

Authority: Act of March 25, 1939 (P.L. 76-9). (Reorganization Plan 3 of 1940).

Availability: GPO

Geographic Relevance: National

Purpose: The Bureau of Government Financial Operations maintains the system of Central Accounts to provide a consolidated record of the government's financial transactions and to meet the Treasury's responsibility for reporting on the state of the government's finances to the Congress and the public. The Central Accounts constitute a ledger of the assets and liabilities which relate to the government's receipts and expenditures and the Treasury's cash operations. The Central Accounts consolidate data on assets, liabilities, and receipts and outlays of the federal government. **Input:** The Central Accounts are posted monthly on the basis of reports from government disbursing offices and agencies and reports from Federal Reserve and depository banks reflecting the amounts of deposits received in the Treasury's account and the amount of cash paid out for checks drawn against the account. Subsidiary to the Central Accounts are the individual appropriation, fund, and receipt accounts to which are posted the appropriations or spending authorizations granted by the Congress and the reported expenditures and receipts. **Output:** The following recurring reports are produced based on data from the Treasury Central Accounting and Reporting System: 1) Monthly Treasury Statement of Receipts and Outlays of the United States Government--published monthly on the 17th workday with information concerning the preceding month; and 2) Combined Statement of Receipts, Expenditures, and Balances of the United States Government--published annually after the close of each fiscal year. Other principal financial reports prepared by the Treasury which relate to the operations of the government as a whole are the Daily Treasury Statement, the Quarterly Treasury Bulletin, and Federal Aid to States.

S01204-004

Treasury Check Payment and Reconciliation System.

OMB Funding Code/Title: 20-1801-0-1-803 / Salaries and expenses

Program: Governmentwide Accounting

Congressional Relevance: House Committee on Ways and Means; Senate Committee on Finance; House Appropriations Committee; Treasury-Postal Service and General Government Subcommittee; Senate Appropriations Committee; Treasury, Postal Service, General Government Subcommittee

Authority: (Reorganization Plan 3 of 1940). Act of March 25, 1939 (P.L. 76-9).

Availability: Internal Use Only

Purpose: The Bureau of Government Financial Operations maintains the checking symbols of government officers who are authorized to issue checks drawn on the account of the U.S. Treasury. The function involves the final processing of government checks received for payment through Federal Reserve Banks and branches, and the reconciliation of checking symbols through matching the check payments with checks issued as reported by the disbursing officers. The system contains information related to the payment of checks, the reconciliation of accounts, and stop payments. The central data elements are the checking account numbers and serial numbers of the checks. The record of check pay-

ments is updated daily as the checks are received for payment. The check issue data are received weekly and monthly from disbursing officers; reconciliation operations are conducted accordingly. Stop payment transactions are received daily. The system was established in August 1956 and provides information concerning checks dating from that time. Records for checks issued prior to 1956 are in hardcopy form in Bureau of Government Financial Operations files. **Input:** The input is the government checks received for payment from Federal Reserve Banks and branches, the reports of checks issued from government disbursing officers, and requests for stop payment from disbursing offices. **Output:** The system provides essential reports daily in hardcopy. The major output includes reports concerning daily payment operations used in verifying accounting documentation submitted in support of charges to the Treasury's account, reports of out-of-balance conditions for checking accounts based on reconciliation operations, reports concerning current and past stop payment transactions, reports reflecting the payment status of checks on hardcopy or tape for subsequent microfilm. Past stop payment transaction information may be queried by remote printing-type terminals.

S01204-005

Advance Financing System.

OMB Funding Code/Title: 20-1801-0-1-803 / Salaries and expenses

Program: Banking and Cash Management

Congressional Relevance: House Committee on Ways and Means; Senate Committee on Finance; House Appropriations Committee; Treasury-Postal Service and General Government Subcommittee; Senate Appropriations Committee; Treasury, Postal Service, General Government Subcommittee

Authority: Reorganization Plan 3 of 1940. Act of March 25, 1939 (P.L. 76-9).

Availability: Internal Use Only

Purpose: Federal grant and other programs involving advances to various organizations outside the federal government constitute a significant portion of the federal budget. The timing and amount of these advances are of major concern to the Department of the Treasury because of the substantial impact such advances have on Treasury's financing costs at the level of the public debt. The advance financing system provides mechanisms (Treasury checks and letters of credit) for advancing funds to recipient organizations by the federal grantor agency in the amount needed to meet the immediate disbursement needs of the recipient. The system provides information to both Treasury and the federal grantor agencies relating to the cash management practices of recipient organizations and therefore fulfills their respective responsibilities of oversight and monitoring. At the request of the Department of the Treasury, recipient organizations submit a status of federal funds report which shows the receipt and subsequent disbursement of federal funds on its books for a predetermined 30-day period. This report is submitted to Treasury through the appropriate federal grantor agency. It is used by Treasury to fulfill its oversight responsibility related to advance financing. The data are generated outside the sphere of the user but analyzed at the user level. **Input:** Federal program agencies provide input data covering cash management practices and status of federal fund practices and status of federal funds from recipient organizations. Internal sources include monthly aggregate figures for disbursements which are received from the Treasury's central accounting and reporting system and monthly computer listings of individual drawdowns on letters of credit by recipient organizations. **Output:** For oversight purposes, various hardcopy reports are produced reflecting charges against letters of credit.

B01204-006

The Depository System of the United States Government.

OMB Funding Code/Title: 20-1801-0-1-803 / Salaries and expenses

Program: Banking and Cash Management

Congressional Relevance: House Committee on Ways and Means; Senate Committee on Finance; House Appropriations Committee; Treasury-Postal Service and General Government Subcommittee; Senate

Purpose: This system is designed to collect all dollars and foreign currencies received by government offices through designated financial institutions and Federal Reserve banks and branches. The Treasury Department acts as the government's banker. All dollars and foreign currencies collected by the government are deposited to the credit of the U.S. Treasury account through a system of designated commercial depository banks and/or Federal Reserve banks and branches. All federally insured financial institutions and certain state insured institutions may be authorized to receive collections from government officers and transfer the funds to the Treasury's account at the respective Federal Reserve banks or branches. Each Federal Reserve bank or branch, acting in its capacity as fiscal agent of the government, also receives collections directly from government officers for credit to the Treasury's account maintained at each bank or branch. All foreign currencies collected are deposited in designated foreign financial institutions to be used to meet future United States government foreign currency obligations in the currency. Additionally, the Treasury Department has developed the Treasury Financial Communications System which interlinks with the Federal Reserve Bank's wire transfer network providing for electronically transferred funds (both receipts and outlays) while simultaneously classifying accounting data. **Input:** Deposit tickets prepared by government offices comprise system input. **Output:** Principal system output is the daily Treasury statement; monthly Treasury statement; and Combined Statement of Receipts, Expenditures, and Balances of the United States government (published annually at the end of each fiscal year).

S01204-008

Automated Funds Control System (AFCS).

OMB Funding Code/Title: 20-1801-0-1-803 / Salaries and expenses

Program: Government-wide Accounting

Congressional Relevance: House Committee on Ways and Means; Senate Committee on Finance; House Appropriations Committee; Treasury-Postal Service and General Government Subcommittee; Senate Appropriations Committee; Treasury, Postal Service, General Government Subcommittee

Authority: Act of September 13, 1982 (P.L. 97-258; 96 Stat. 879, 880; 31 U.S.C. 306, 321 et seq.).

Availability: Internal Use Only

Purpose: One of the primary responsibilities of the Treasury Department is to forecast and monitor the federal government's overall cash requirements. Financial decisions are based upon the monetary policy of the Federal Reserve System and the fiscal policy of the Treasury Department. The AFCS provides primary support to those Treasury officials responsible for the daily cash and debt management decisions which effect domestic and international financial structures. Cash management data is key entered into the AFCS, where it is analyzed, compiled and summarized into reports which serve as the basis for critical financial decisions. The Daily Treasury Statement, a government cash management report used by the Treasury and other federal government officials, public and private investors, and banking officials, is prepared from the AFCS. **Input:** Cash management information is received from all Federal Reserve banks and branches, IRS Service Centers, Treasury Financial Communication System, disbursing offices and various federal agencies, and miscellaneous sources. **Output:** The primary output is a series of cash management reports used to review, analyze and verify the Treasury's actual and estimated daily cash position. These reports are printed on-site and are critical in ensuring the accuracy of this cash management data. The Daily Treasury Statement is prepared from a report generated from the AFCS.

S01204-009

Financial Accounting and Reporting System (FARS).

OMB Funding Code/Title: 20-1801-0-1-803 / Salaries and expenses

Federal Information Systems and Sources

Authority: Act of September 13, 1982 (P.L. 97-258; 96 Stat. 879, 880; 31 U.S.C. 306, 321 et seq.).

Availability: GPO

Purpose: The Bureau of Government Financial Operations maintains an integrated budget and accounting system for the financial management of its program activities. The system is on the accrual basis of accounting and is designed to provide data for financial reporting and management information. Major functions also include: maintenance of data required to be reported to government-wide accounting and OMB and the coordination of operating expense budgets with personnel requirements, measurable output, and long-range plans. A general ledger and various subsidiary ledgers are maintained to reflect the balances of assets, and liabilities of the U.S. government, including appropriate income and expense accounts. Underlying the maintenance of the ledgers is the system of accrual accounting which provides for disclosing the receipt of goods and services, the consumption of resources in relation to the services performed as output produced, and the assets and liabilities. Voucher registers and other books of original entry are maintained for timely and efficient financial control. Posting of the general ledger occurs monthly. **Input:** Input is received from incoming documents and regional disbursing offices as well as OMB and the Treasury. The input is classified as appropriation warrants and other documents containing budget data, obligations, receipts, and/or expenditures. **Output:** Operating expense reports are produced monthly. Standard financial reports are also prepared for monthly, quarterly, semiannual, and annual submission to the Treasury and OMB. These reports include Statement of Financial Condition, Year-end Closing Statement, Statement of Transactions, Report on Budget Execution, Report of Status of Accounts and Loans Receivables Due from Public, Report on Obligations, and Report of Receipt Account.

Agency Contact: Bureau of Government Financial Operations. (202) 566-2711.

Bureau of the Public Debt

S01205-001

Public Debt Accounting System.

OMB Funding Code/Title: 20-0550-0-1-901 / Interest on the public debt; 20-0560-0-1-803 / Administering the public debt

Program: Payment of Interest; Issuance, Servicing, and Retirement of Savings-Type Securities; Issuance, Servicing, and Retirement of other Treasury Securities

Congressional Relevance: House Committee on Ways and Means; Senate Committee on Finance; House Appropriations Committee; Treasury-Postal Service and General Government Subcommittee; Senate Appropriations Committee; Treasury, Postal Service, General Government Subcommittee

Authority: Act of February 9, 1847 (P.L. 29-2007).

Availability: OPO

Purpose: The system is designed to provide maximum assurance of the integrity of the public debt and related interest. The system contains umbrella systems for financial (cash) accounting, security accountability control, and interest accounting on an accrual basis. The cash journal reflects Public Debt receipt and expenditure transactions (dollar amount of securities issued and redeemed). The security ledger contains inventory detail of all Treasury securities printed and not yet destroyed. Detail includes loans or series, form of security (bearer interim, registered, book, entry), denomination and dollar amount. The security journal contains information on public debt transactions reported on a daily basis by authorized agents. The system also includes detailed records related to U.S. Savings Bonds, Treasury bill Book-entry accounts and registered accounts for Treasury notes and bonds. **Input:** Input is through daily reports by the Federal Reserve Banks and Branches and Treasury offices which issue, service, and redeem securities and/or report book-entry interest paid. The reports vary in content and detail but, at a min-

input, are on a loan series basis for both cash and security reporting as well as interest reporting. **Output:** Financial accounting is summarized in the Daily Treasury Statement (Tables III-A and III-C) with greater detail published in the Monthly Statement of the Public Debt of the United States. Synoptical and comparative information on financial and interest accounting is found in the Monthly Treasury Bulletin and Statistical Appendix to the Report of the Secretary of Treasury on the State of the Finances. Greater detail is provided in monthly journals and ledgers, used internally. All reports are hardcopy.

S01205-002

Federal Reserve Bank Reimbursable Cost Analysis System.

OMB Funding Code/Title: 20-0560-0-1-803 / Administering the public debt

Program: Issuance, Servicing, and Retirement of Savings-Type Securities; Issuance, Servicing, and Retirement of Other Treasury Securities
Congressional Relevance: House Committee on Ways and Means; Senate Committee on Finance; House Appropriations Committee; Treasury-Postal Service and General Government Subcommittee; Senate Appropriations Committee; Treasury, Postal Service, General Government Subcommittee

Authority: Act of June 1, 1955 (P.L. 84-57, § 1). Second Liberty Bond Act (P.L. 65-43, § 1). Fourth Liberty Bond Act (P.L. 65-192). Government Losses in Shipment Act (P.L. 75-192).

Availability: Internal Use Only

Geographic Relevance: National

Purpose: This system reflects work performed and reimbursable costs incurred by Federal Reserve Banks and Branches in their capacity as fiscal agents of the United States for the Bureau of the Public Debt. The work performed involves processing transactions in United States securities. Reimbursement for these expenses is authorized by Act of June 1, 1955, C. 119, 69 Stat. 82 (31 U.S.C. 1023). Categories of expenses include personnel, supplies, equipment, postage and shipping, telephone and telegraph, data communications, data processing, data system support, space, printing and duplicating, and other expenses. Categories of work volumes processed include savings bonds/notes issued and redeemed and other Treasury issues issued and redeemed. **Input:** Each month, the Federal Reserve banks and branches submit to the Bureau reports of work volumes processed and vouchers for related reimbursable expenses. **Output:** Each month a report is prepared showing comparative work volumes and unit costs for each Federal Reserve Bank. This report is used by the Bureau to monitor the reimbursable costs of the banks.

S01205-003

Administrative Accounting System.

OMB Funding Code/Title: 20-0560-0-1-803 / Administering the public debt

Program: Administering the Public Debt (All Programs)

Congressional Relevance: House Committee on Ways and Means; Senate Committee on Finance; House Appropriations Committee; Treasury-Postal Service and General Government Subcommittee; Senate Appropriations Committee; Treasury, Postal Service, General Government Subcommittee

Authority: Act of June 1, 1955 (P.L. 84-57, § 1). Second Liberty Bond Act (P.L. 65-43, § 1). Fourth Liberty Bond Act (P.L. 65-192). Government Losses in Shipment Act (P.L. 75-192).

Availability: Internal Use Only

Purpose: The Bureau of the Public Debt, under the direction of the Commissioner of the Public Debt, is responsible for the performance of administrative functions arising from the Treasury's debt management activities. The administrative accounting system provides information on resources, liabilities and obligations, disbursements, receipts and costs to meet the needs of management for budgeting, planning, and administering the Bureau's program and activities. The system reports year-to-date and current-month obligations, accruals, and disbursements by object class for each allotment and appropriation. Accrued expenditures, including unfunded costs (annual leave, depreciation, and supply usage) are also reported by organizational unit. Obligation-based budget estimates, totaling the OMB-approved apportionment, are input each quarter. Cost-based budget estimates are input annually and amended as required. The master file is updated monthly and at the end of each fiscal

year. **Input:** The data are derived from apportionment schedules, allotment advices, budget estimates, payroll registers, voucher schedules, travel claims, imprest fund disbursements, purchase orders, invoices, bills of lading, reimbursement claims from Federal Reserve Banks, deposit tickets, and miscellaneous documents. **Output:** The system produces a monthly update of general ledger account entries and balances, a trial balance and various computer generated reports (e.g., Report of Cost by Activity and Organizational Unit, Status of Budget, Status of Allotment, Status of Appropriation, and Cash Receipts). Reports are generated on a recurring basis from data accumulated in the accounting system for external and internal purposes. External reports are generated to meet requirements of OMB, the Treasury Department, General Services Administration, other governmental agencies and the Congress. Internal reports are generated to monitor Bureau programs and to support budget formulation, presentation and execution.

Budget Execution and Financial Management System.

OMB Funding Code/Title: 20-0560-0-1-803 / Administering the public debt

Program: Promoting the Sale of Savings Bonds

Congressional Relevance: House Committee on Ways and Means; Senate Committee on Finance; House Appropriations Committee; Treasury-Postal Service and General Government Subcommittee; Senate Appropriations Committee; Treasury, Postal Service, General Government Subcommittee

Authority: Temporary Debt Limit Act (P.L. 94-334). Second Liberty Bond Act, as amended (P.L. 74-3).

Availability: Internal Use Only

Geographic Relevance: National, regional and district field organization

Purpose: This system is the main component of the financial management system of the U.S. Savings Bond Division, which includes accounting on an accrual basis, financial reporting, and internal financial management and budgeting. The system provides for recording transactions during the month in the following accounting records: obligation control register, accrual register, cash disbursements register, cash receipts register, journal vouchers, general ledger, and supporting fiscal and accounting records. Internal management reports generated at the appropriation and cost center levels reflect by object class the monthly and year-to-date status of obligations, undelivered orders, accrual expenditures, accrued liabilities, and disbursements. The system also provides a reliable basis for developing and projecting resource requirements for the elements of the Division's budget and program structure. **Input:** The data for this system are derived from Advice of Allotment received from the Commissioner of Public Debt and Division obligation, accrual, disbursement, and cost documents. **Output:** Monthly reports generated by the system include the general ledger master file and cost center master file and the following hardcopy reports: status of allotment report, general ledger accounts, cost center reports, and detail listing report.

Internal Revenue Service

S01206-001

Revenue Accounting System.

OMB Funding Code/Title: 20-0912-0-1-803 / Processing tax returns

Program: Data Processing

Congressional Relevance: House Committee on Ways and Means; Senate Committee on Finance; House Appropriations Committee; Treasury-Postal Service and General Government Subcommittee; Senate Appropriations Committee; Treasury, Postal Service, General Government Subcommittee

Authority: Internal Revenue Code of 1954 (P.L. 83-591).

Availability: Internal Use Only

Geographic Relevance: National

Purpose: The system was designed to record taxpayers' liabilities for taxes due the government; to issue notices for unpaid amounts due; account for all collections of these liabilities with prompt deposits to the

Treasury; record overpayments; credit or refund; record allowable adjustments to taxpayer liabilities; record related transactions such as deposits for federal taxes, collateral, seized and acquired property in payment of taxes, and accountability for revenue; and provide reports integrated with Treasury's central accounts. Centralized computer master files are maintained for business and individual tax accounts. Low volume tax accounts such as alcohol and tobacco taxes are maintained on manually posted ledger cards. **Input:** The data are derived from tax returns filed and payments received. **Output:** Statistical reports show gross collection and refund data for individual income taxes, corporation income taxes, excise taxes, employment taxes, and estate and gift taxes. Published reports include Internal Revenue Collections Comparative Summary (monthly and fiscal year to date); Quarterly Excise Tax News Release; Quarterly Alcohol and Tobacco Tax News Releases; and Statement of Financial Condition (annual). Unpublished reports include Internal Revenue Collection; Status of Collections and Refunds; Report of Net Tax Refunds; Statement of Classified Collections; Statement of Transactions (Refunds Paid); Statement of Accountability (monthly). Trust Fund Certifications—Highway, Airport and Airway, Land and Water Conservation, Black Lung, and Employer Tax Liabilities (quarterly). **Agency Contact:** Internal Revenue Service. SO1206-002

Information Returns Program (IRP).

OMB Funding Code/Title: 20-0912-0-1-803 / Processing tax returns

Program: Returns Processing and Revenue Accounting; Computer Services

Congressional Relevance: House Committee on Ways and Means; Senate Committee on Finance; House Appropriations Committee; Treasury-Postal Service and General Government Subcommittee; Senate Appropriations Committee; Treasury, Postal Service, General Government Subcommittee

Authority: Internal Revenue Code of 1954 (P.L. 83-591).

Availability: Internal Use Only

Geographic Relevance: National

Purpose: The program is to match the income payments, expense deductions reported on all wage and information documents to the income/deduction reported on individual income tax returns. The file is updated annually. Data elements in the file include recipient's name, address, and federal taxpayer identifying number; payer's/employer's name, address, and federal taxpayer identifying number; type of payment/expense involved; money amounts reported; type of document; and tax year. **Input:** The data are derived from the following documents submitted by public and private employers, public and private payers: Forms W-2, W-2G, W-2P (as reported by the Office of Personnel under Combined Annual Wage Reporting--P.L. 94-202), 1099 series, 1087 series, PD-3278, PD-4077, PD-3253, 3921, 3922, 4067, 4798, 5498 foreign information documents, and Schedules K-1 of Forms 1120S, 1065, and 1041. **Output:** The system produces weekly, monthly, annual, and periodic hardcopy reports. The major reports produced are: Report of Schedule K-1 Records Processed (weekly); IRP Production Report, and Payer Contract Control Report (monthly); Nonfiler Underreporter Reports and Analysis Tables, Underreporter Cases, Nonfiler Cases, Employee Delinquency Cases, National Payer Listing, Annual Report of Wage and Withholding Documents and Income Information Returns, Magnetic Tape Processing Report, TIN Perfection Cases, Summary of Conduit Income Records Processed at NCC, Conduit Income Summary of K-1 Schedule Income, and IRP Total Invalid Tape Document Report (annually); and Payer TIN Perfection Statistics of Analysis, Underreporter Case Processing Status Report, Combined Federal/State Filing Program Transmission Report, and Selected TP Invalid TIN Report (periodically).

Work Planning and Control System (WPC and C).

OMB Funding Code/Title: 20-0912-0-1-803 / Processing tax returns

Program: Data Processing

Congressional Relevance: House Committee on Ways and Means; Senate Committee on Finance; House Appropriations Committee; Treasury-Postal Service and General Government Subcommittee; Senate Appropriations Committee; Treasury, Postal Service, General Government Subcommittee

Authority: Internal Revenue Code of 1954 (P.L. 83-591).

Availability: Internal Use Only

Purpose: The system is to provide management and operating personnel the means for planning, measuring, and controlling the resources of the service centers. The system aids in the preparation of work plans and schedules, collecting cost data, identifying staffing needs, and appraising performance. The total system encompasses component systems for Work Planning and Control, Production Control, and Individual Employee Performance. Part of the system is updated on a daily basis, other parts on a weekly or biweekly basis, depending on the frequency of the report. The employee time report contains hours worked by organizational level, function performed, and program; and the employee master file contains the employee's hourly salary rate. A numeric code structure is used to identify the organization levels in the service center (divisions, offices, branches, sections, units, groups), the functions performed (major work actions or a group of actions that represent a phase of completed work), and the major program areas within which a return or document is associated. **Input:** The data are derived from the individual employee's time report, employee master file, unit production cards, batch profile cards, receipt cards, and work schedule tapes. **Output:** The system produces hardcopy reports. The major reports are The Managers Report (weekly), The Abstract Report (monthly), and The Program Analysis Report (monthly).

Geographic Relevance: National; Internal Revenue Service post of duty, region and district

Purpose: The system is designed to collect and maintain data on workload accomplished and staff resources expended to provide service to the taxpayers. This data base is used by management to plan a balanced and effective Taxpayer Service Program, directed toward timely response to the needs of the taxpayer, to provide quality service, and to evaluate services provided. The data base is updated weekly. Data elements include hours and/or units on direct activities such as walk-in or

telephone contacts, correspondence with taxpayers, and assistance preparing returns including self-help and actual preparation; hours spent performing research for referral inquiries; quality review of the program; taxpayer education and related public information; employee training, leave, and management and clerical operations; hours spent detailed-out to another functional activity within IRS; and identification of those hours worked as extended or overtime hours. **Input:** The data are derived from the summaries submitted by the posts of duty and district offices of the daily records of taxpayers assisted and hours expended by each taxpayer service employee and all other employees detailed in to work on the program. **Output:** The system produces hardcopy reports. Weekly reports are produced for each post of duty, with district, regional, and national summaries. They provide actual current and fiscal year cumulative workload and hours expended data, plus a comparison with scheduled and prior year data for the same periods, on all activities performed. Also produced are staff-hour analyses reports on all activities performed by type of employee. **Agency Contact:** Internal Revenue Service. (202) 566-6352.

Statistics of Income Tax Return Data.

OMB Funding Code/Title: 20-0912-0-1-803 / Processing tax returns

Program: Statistical Reporting

Congressional Relevance: House Committee on Ways and Means; Senate Committee on Finance; House Appropriations Committee; Treasury-Postal Service and General Government Subcommittee; Senate Appropriations Committee; Treasury, Postal Service, General Government Subcommittee

Authority: Internal Revenue Code of 1954, as amended (P.L. 83-591) as amended by P.L. 94-455; 68 Stat. 756; 26 U.S.C. 6108.

Availability: GPO

Geographic Relevance: International/Foreign; National; State

Purpose: Statistics of Income consists of various tax return data compiled from income and estate tax returns concerning the operation both the Nation's economy and the tax system. A wide range of information entered in various types of tax returns is gathered, including items of personal income (by size), exemptions and deductions, marital status, geographic location, personal wealth, receipts, business deductions, profits, assets and liabilities, type and size of business organization, industry, tax credits, and tax liability. **Input:** In general, for each of the return types, a random sample is selected. Data from the sample returns are abstracted or edited and entered on magnetic tape. From the computer files, tables are produced for publication or delivery to users, authorized under Internal Revenue Sections 6103 and 6108(c). **Output:** The two annual publications are Individual Income Tax Returns and Corporation Income Tax Returns. Publications for Partnership Returns were produced annually until 1980 and will be produced every 5 years beginning with 1984. Publications for proprietors' returns were produced annually until 1981. Subsequent data for the returns and data previously shown in the abbreviated preliminary reports have been incorporated into the quarterly Statistics of Income (SOI) Bulletin. In addition, the following supplemental volumes are available: Estate Tax Returns, 1976; Fiduciary Income Tax Returns, 1974; Personal Wealth, 1972; Small Area Data from Individual Income Tax Returns, 1974; Private Foundations, 1974-1978; Individual Retirement Arrangements, 1976; Sales of Capital Assets, 1973; Domestic International Sales Corporation Returns, 1972-1974; Foreign Tax Credits Claimed on Corporation Income Tax Returns, 1974; U.S. Corporate and Their Controlled Foreign Corporations, 1974-1978; Foreign Income and Taxes Reported on Individual Income Tax Returns, 1972-1974. Many of these supplemental reports are now discontinued and limited data on the same topics are published in summary form in the aforementioned SOI Bulletin. There is no on-line query capability at the present time, but one is planned.

Agency Contact: Internal Revenue Service. (202) 376-0216.

SO1206-010

Statistics of Income Tape Files.

OMB Funding Code/Title: 20-0912-0-1-803 / Processing tax returns

Program: Statistical Reporting

Congressional Relevance: House Committee on Ways and Means; Senate Committee on Finance; House Appropriations Committee

Treasury-Postal Service and General Government Subcommittee; Senate Appropriations Committee: Treasury, Postal Service, General Government Subcommittee

Authority: Internal Revenue Code of 1954, as amended (P.L. 83-591, 68 Stat. 756, 26 U.S.C. 6108).

Availability: Agency

Geographic Relevance: National; State; International/Foreign

Purpose: Computer files available consist of: Individual Tax Model File 1966-81 (includes State Tax Model File, 1979-1980); State Tax Model File 1977-80; Corporation Source Book (aggregated by industry and size of total assets), 1965-81; Estate Tax File, 1972, 1976; Private Foundation Files, 1979; Employee Plans File, 1977; "Other" Tax Exempt Organization File, 1975 and separate sole proprietorship public use files for farm and nonfarm business. These files are designed to measure the effect of proposed tax law changes on the Nation's tax base, revenues and distribution of tax burden. They are also used to produce tabulations not found in the Statistics of Income Publications. **Input:** In general, for each of the tax return types for which statistics are published, a random sample is selected. Data from these sample returns are abstracted or edited and entered onto magnetic tape. **Output:** As required, computer printouts of special tabulations are provided based on user specifications typically on a cost-reimbursable basis. Computer tape copies of public-use microdata files are produced by the Agency on the same basis. Under Federal-State Exchange Program, state governments can obtain copies of the individual income tax return microdata file for tax administration purposes. Copies of unpublished tabulations on corporations (by industry and size of assets) are available on a cost reimbursable basis from the Agency on computer tape, microfilm, or as hard copy.

S01206-011

Audit Management Information Reporting System (AMIR) and Audit Information Management System (AIMS)

OMB Funding Code/Title: 20-0913-0-1-803 / Examinations and appeals

Program: Examinations

Congressional Relevance: House Committee on Ways and Means; Senate Committee on Finance; House Appropriations Committee: Treasury-Postal Service and General Government Subcommittee; Senate Appropriations Committee: Treasury, Postal Service, General Government Subcommittee

Authority: Internal Revenue Code of 1954, as amended (P.L. 83-591).

Availability: Internal Use Only

Geographic Relevance: National; Internal Revenue Service region and district

Purpose: The systems were designed to provide Examination national office and field managers with statistical data to measure examination accomplishments and monitor tax returns in inventory. The data base is updated daily. Tape extractions from the data base are made monthly for the Audit Management Information Reporting System, District Review Reporting System, Service Center Audit Division Reporting System, Discriminant Function Reporting System, and Tax Change Distribution Reporting System. There are over 50 data elements on the extraction tape for each record including name of taxpayer, type of return, tax period, activity code (asset class), source, status, disposal code and date, examination results, examiners grade and series, examination time, examination technique, examination issue code, preparer of return name and EIN, grade of case, type of review and review time, office audit issue code, fraud, claim, age of return, and date of claim. **Input:** The data in the Audit Information Management System (AIMS) data base are derived from input through terminals in the district and service center Audit Divisions. **Output:** The system produces hardcopy and microfiche reports. The major reports produced under each of the following systems are: Audit Management Information Reporting System-Plan vs. Accomplishments and Inventory of Returns by Status vs. Examination Plan (monthly); Source of Returns (quarterly); Comparison of Grades Assigned and Worked (semiannually); and Grade of Examining Officer (annually); Service Center Examination Branch Reporting

S01206-012

Audit Technical Time Reporting System (ATTR)

OMB Funding Code/Title: 20-0913-0-1-803 / Examinations and appeals

Program: Examinations

Congressional Relevance: House Committee on Ways and Means; Senate Committee on Finance; House Appropriations Committee: Treasury-Postal Service and General Government Subcommittee; Senate Appropriations Committee: Treasury, Postal Service, General Government Subcommittee

Authority: Internal Revenue Code of 1954, as amended (P.L. 83-591).

Availability: Agency

Geographic Relevance: National; Internal Revenue Service region and district

Purpose: The system was designed to provide Examination national office and field managers with data to monitor technical time applications by Revenue Agents, Tax Auditors, and Examination Accounting Aides. The file is updated monthly. The major data elements are district office code, organization code, date (month/year), position code, direct time application by activity code for the current month, nonexamination time by activity code for the current month, and cumulative time in process. **Input:** The data are derived from forms submitted by district offices. **Output:** The system produces hardcopy and microfiche tables. The major tables are: Revenue Agent Applied Time Analysis, and Tax Auditor Applied Time Analysis (monthly); Review Program Applied Time Analysis Revenue Agents, and Review Program Applied Time Analysis Tax Auditors (quarterly); Applied Time Analysis by Grade of Revenue Agent (semiannually); and Examination Accounting Aides Applied Time By Activity (annually). There is no on-line query capability.

S01206-014

Appeals Office Report. (NO-CP-AP-6).

OMB Funding Code/Title: 20-0913-0-1-803 / Examinations and appeals

Program: Taxpayer Conferences and Appeals

Congressional Relevance: House Committee on Ways and Means; Senate Committee on Finance; House Appropriations Committee: Treasury-Postal Service and General Government Subcommittee; Senate Appropriations Committee: Treasury, Postal Service, General Government Subcommittee

Authority: Internal Revenue Code of 1954, as amended (P.L. 83-591).

Availability: Agency

Geographic Relevance: National; Region and Appeals office

Purpose: The report is to provide information for use in determining workload factors and field staffing requirements as well as for use by national office management. The data are furnished on a quarterly basis. The major data elements are Appeals Officer's and Appeals Officer's case time, non-case time, leave, and total hours. **Input:** The data are forms prepared by Appeals field offices. **Output:** The output is quarterly summary schedules showing pertinent workload factors.

Agency Contact: Internal Revenue Service. (202) 566-6481.

S01206-015

Criminal Investigation Case Management and Time Reporting System (CM&TRS). (NO-CP-1-46).

OMB Funding Code/Title: 20-0913-0-1-803 / Examinations and appeals

Program: Tax Fraud Investigations

Congressional Relevance: House Committee on Ways and Means; Senate Committee on Finance; House Appropriations Committee: Treasury-Postal Service and General Government Subcommittee; Senate Appropriations Committee: Treasury, Postal Service, General Government Subcommittee

Authority: Internal Revenue Code of 1954 (P.L. 83-591).

Availability: Internal Use Only

Geographic Relevance: Internal Revenue Service district

Purpose: The system was designed to provide all levels of management

Investigation Division. Each case record contains a maximum of 61 unique data items. The case data are updated daily, and the time data are updated monthly. The principal items of information are name of the taxpayer, case number assigned, taxpayer's address, taxpayer's identification number(s) (SSN or EIN), industry or occupation of the taxpayer, alleged violation, tax years covered, agent assigned to the investigation, information relating to the status or disposition of the investigation, and amount of time investigating agents have expended on cases. **Input:** The data are derived from forms prepared by district officials and input through terminals located in district offices. **Output:** Major monthly tables produced are Time on Workload, Time Charged by Type of Activity, Operations Report, and Final Actions Completed This Year. Major quarterly tables produced are District Case/Project Inventory Registers, Pipeline Case Inventory, Register of Legal Actions, and Court Actions Completed. There is no on-line query capability concerning individual cases.

Agency Contact: Internal Revenue Service. (202) 566-3700.

501205-016

Reports and Information Retrieval Activity (RIRA). (90-016).

OMB Funding Code/Title: 20-0911-0-1-803 / Salaries and expenses

Program: Legal Services

Congressional Relevance: House Committee on Ways and Means; Senate Committee on Finance; House Appropriations Committee; Treasury-Postal Service and General Government Subcommittee; Senate Appropriations Committee; Treasury, Postal Service, General Government Subcommittee

Authority: Internal Revenue Code of 1954, as amended (P.L. 83-591).

Availability: N/IS

Geographic Relevance: National

Purpose: The Reports and Information Retrieval Activity was created to provide a data base of management information and an inventory of pending legal tax issues to assist Chief Counsel attorneys in coordination of legal issues. The system is a tool used in the administration of tax law to insure uniformity and consistency of treatment among similarly situated taxpayers. The system also provides for the indexing of internal materials and the production of management and statistical reports. The master records consist of a unique record for most civil tax cases arising from litigation in the U.S. Tax Court, the U.S. District Courts, the U.S. Claims Court, the U.S. Circuit Courts of Appeal, and the U.S. Supreme Court. The major data elements included are taxpayer name, docket or jacket number, Chief Counsel attorney name, Chief Counsel Office designation, grouping number, legal issues identified by uniform issue list number, status codes, type of tax, district office, place of trial, court code, social security or employer identification number, estimated trial hours, amount in dispute, amount approved, and microfilm reference location numbers. The file is updated monthly. **Input:** The data are derived from forms completed by Counsel attorneys, RIRA clerks, and other Chief Counsel employees. **Output:** Major monthly reports are Pending Case Index by Issue, Closed Case Index, and Internal Revenue Service-Office of Chief Counsel List of Pending Civil Tax Groups by Issue (on microfiche), Counsel attorney inventory and disposal listings and Case Trial Listing (hardcopy). Major quarterly reports are Number of Opinions and Settlements by Issue Listing, Number of Small Tax Cases by Issue Listing, and statistical reports reflecting receipts, disposals, and inventory data (hardcopy). There is no on-line query capability for statistical data. The Counsel/Appeals Tracking System (CATS) to be developed during fiscal years 1983-1986 will be a successor to RIRA and will be a control and management information system with interactive terminals.

Agency Contact: Internal Revenue Service. (202) 566-4148.

501206-017

Technical's Automated Management Information System (TAMIS). (NO-T-4).

OR/82

OMB Funding Code/Title: 20-0914-0-1-803 / Investigation, collection and taxpayer service

Program: Enforcement Litigation and Rulings

Congressional Relevance: House Committee on Ways and Means; Senate Committee on Finance; House Appropriations Committee; Treasury-Postal Service and General Government Subcommittee; Senate

Appropriations Committee; Treasury, Postal Service, General Government Subcommittee

Authority: Internal Revenue Code of 1954 (P.L. 83-591)

Availability: Agency

Purpose: The system furnishes the means for evaluating and monitoring the workload, inventory, production, and staff utilization at the various operating levels of the Technical organization which is located entirely in Washington, DC. It also provides statistics vital to long-range planning, staffing, and budgetary needs. Receipts, closings, inventory, and hours worked on major workload items are furnished and consolidated on a monthly and fiscal year-to-date basis. Workload items include Taxpayer Requests for Rulings, Technical Advice Requests from Internal Revenue Field Offices, Published Revenue Rulings and Revenue Procedures, Changes in Accounting Methods and Changes in Accounting Periods, Congressional Correspondence, Technical and General Correspondence, Regulations Projects, Legislative Projects, and Internal Revenue Bulletin and Related Publications. **Input:** The data are forms prepared by each technical employee in the two rulings divisions of the Technical organization. **Output:** The work progress reports are produced monthly, providing age of inventory. Other weekly, monthly, and ad hoc analysis reports are produced for management use.

Agency Contact: Internal Revenue Service. (202) 566-4001.

501205-016

Employee Plans/Exempt Organizations Technical Time Reporting System (DEPT).

OMB Funding Code/Title: 20-0913-0-1-803 / Examinations and appeals

Program: Employee Plans; Exempt Organizations

Congressional Relevance: House Committee on Ways and Means; Senate Committee on Finance; House Appropriations Committee; Treasury-Postal Service and General Government Subcommittee; Senate Appropriations Committee; Treasury, Postal Service, General Government Subcommittee

Authority: Internal Revenue Code of 1954 (P.L. 83-591), Employee Retirement Income Security Act of 1974 (P.L. 93-406).

Availability: Agency

Geographic Relevance: National; Internal Revenue Service region and district

Purpose: The system is designed to monitor time expended by EP/EO technical personnel in key districts. The data base is updated monthly for actual time, at the beginning of the fiscal year for the time applications plan, and when there is a change in the plan. The data base consists of two files--one for Employee Plans (EP) and one for Exempt Organizations (EO). The file contains data elements for each activity code used by EP/EO specialists for reporting time in categories such as Determination Time, Examination Time, Review, Pattern Plans, and Private Schools--Religions. **Input:** The data are derived from forms submitted by EP/EO specialists and time application plans developed jointly by the national, regional, and district offices. **Output:** Monthly hardcopy and microfiche technical personnel-activity analysis tables are produced separately for EP and EO. There is no on-line query capability.

Agency Contact: Internal Revenue Service. (202) 566-3171.

501206-019

Employee Plans/Exempt Organizations Application Control System (EACS)--Employee Plans (DPTA) and Exempt Organizations (DEOD).

OMB Funding Code/Title: 20-0913-0-1-803 / Examinations and appeals

Program: Employee Plans; Exempt Organizations

Congressional Relevance: House Committee on Ways and Means; Senate Committee on Finance; House Appropriations Committee; Treasury-Postal Service and General Government Subcommittee; Senate Appropriations Committee; Treasury, Postal Service, General Government Subcommittee

Authority: Internal Revenue Code of 1954 (P.L. 83-591), Employee Retirement Income Security Act of 1974 (P.L. 93-406).

Availability: Agency

Geographic Relevance: National; Internal Revenue Service region and district

Purpose: The system was designed to control the applications for determinations for employee plans and exempt organizations, to enable Employee Plans/Exempt Organizations (EP/EO) managers to monitor the status and aging of the applications and to update the Employee Plans

updated when the status of an application changes. The data base consists of two files--the Plan Case Control File (PCCF) and the Plan Organization Index File (POIF). The PCCF contains all the data used to control a case such as case number, file number, employee identification number, plan names, type and form of plans, date issued, status of case, time charged to complete the case, and the key district. The POIF contains data to be used for researching cases such as plan names and numbers of employers/administrators. **Input:** The data are derived from applications filed by requesting individuals and/or organizations and are input through terminals in the key district offices and selected associate district offices. **Output:** The system produces hardcopy reports. The major reports produced are the semi-monthly notice listings of cases approaching the 270-day determination time limit; a semi-monthly listing of all district office undisposed cases whose age exceeds 80 days; a Weekly Inventory Count Report by district office and form number of all cases; five monthly Employee Plans Determinations tables by types of plan such as Defined Benefit Plans, Defined Contributions Plans for Profit Sharing, Stock Bonus and Money Purchase Plans, and Master or Prototype Plans; and seven monthly Exempt Organizations tables showing opening inventory, net receipts, disposals and closing inventory by type of application such as initial, amendment and termination. There is no on-line query capability for statistical data.

Agency Contact: Internal Revenue Service. (202) 566-3171.

S01206-020

Audit Information Management System (AIMS)--Employee Plans (DPFE) and Exempt Organizations (DEXP).

OMB Funding Code/Title: 20-0913-0-1-803 / Examinations and appeals
Program: Employee Plans; Exempt Organizations

Congressional Relevance: House Committee on Ways and Means; Senate Committee on Finance; House Appropriations Committee; Treasury-Postal Service and General Government Subcommittee; Senate Appropriations Committee; Treasury, Postal Service, General Government Subcommittee

Authority: Internal Revenue Code of 1954 (P.L. 83-591). Employee Retirement Income Security Act of 1974 (P.L. 93-406).

Availability: Internal Use Only

Geographic Relevance: National; Internal Revenue Service region and district

Purpose: The system was designed to provide Employee Plans/Exempt Organizations (E/P/EO) field managers with statistical data to measure examination accomplishments and monitor returns in inventory. The data file is updated daily. There are over 50 data elements for each record including name of taxpayer, type of return, tax period, activity code (asset class), source, status, disposal code and date, examination results, examiner grade and series, examination time, examination technique, preparer of return name and EIN, grade of case, type of review and review time, principal issue code, and age of return. **Input:** The data are derived from input through terminals by Employee Plans/Exempt Organization Divisions in key districts. **Output:** The major exempt organizations, hard copy and microfiche reports are Plan vs. Accomplishments (monthly) and Inventory of Returns by Status vs. EO Examination Plan (monthly), Source of Returns (semiannually), Comparison of Grades Assigned and Worked (quarterly), and Returns by Case Grade (semiannually). The major Employee Plans Reports are Plan vs. Accomplishment (Monthly), Disposition and Average House by Source and Grade (Quarterly), Case Disposal Analysis, Change Case Accomplishments Issues by Exam Class (Quarterly), Disposals and Issues by Industry Code (Annual), and Inventories by Class and Source (Monthly). There is no on-line query capability for statistical data.

Agency Contact: Internal Revenue Service. (202) 566-3171.

S01206-021

Taxpayer Compliance Measurement Program (TCMP).

OMB Funding Code/Title: 20-0913-0-1-803 / Examinations and appeals; 20-0912-0-1-803 / Processing tax returns

Program: Audit of Tax Returns; Exempt Organizations; Collection

Congressional Relevance: House Committee on Ways and Means; Senate Committee on Finance; House Appropriations Committee; Treasury-Postal Service and General Government Subcommittee; Senate Appropriations Committee; Treasury, Postal Service, General Government Subcommittee

Availability: Agency

Geographic Relevance: National; Internal Revenue Service region

Purpose: The program (TCMP) is the Service's enforcement and long-range research program designed to provide the information needed in certain enforcement areas to fully implement and optimize federal tax administration. TCMP informs IRS concerning the nature of compliance and noncompliance and how well the Nation's taxpayers are voluntarily complying with the tax laws. The data base files are used for the development of the Discriminant Function Scoring Systems which are used to select those returns for audit most in need of examination. The data base files also provide the basic input into long-range planning for the examination of tax returns. Some tax areas have been surveyed only once, whereas other areas are surveyed on a recurring but variable basis depending on data needs and resource availability. Compliance, tax change, and line item data are developed on a sample basis and are weighted to represent the entire taxpaying population on a national basis. **Input:** The data base files maintained for certain phases of TCMP contain all the elements of data on different types of tax returns surveyed, both as reported by the taxpayer and corrected by the Service. **Output:** TCMP does not produce periodic reports. At the completion of each phase and cycle, a one-time output is produced covering elements of data specifically used by the Service in determining compliance levels and other data as the need arises. Output is either in the form of computer printouts (hard copy), microfiche or tape files.

S01206-024

Appeals Management Information Retrieval System (AMIRS). (NO-CP-AP-37).

01/01/79

OMB Funding Code/Title: 20-0913-0-1-803 / Examinations and appeals
Program: Appeals

Congressional Relevance: House Committee on Ways and Means; Senate Committee on Finance; House Appropriations Committee; Treasury-Postal Service and General Government Subcommittee; Senate Appropriations Committee; Treasury, Postal Service, General Government Subcommittee

Authority: Internal Revenue Code of 1954, as amended (P.L. 83-591).

Availability: Agency

Geographic Relevance: National; Internal Revenue Service region and district

Purpose: This system provides Internal Revenue Service Appeals office managerial personnel with key operational and statistical data on appeals, non-docketed and docketed case receipts, disposals, and inventories. This data file is updated monthly. Data elements on each case include the taxpayer's name, the work unit number, the type of tax involved, the proposed deficiencies and penalties, the type of examination, the tax periods involved, the closing date, the district office code, the Appeals Office code, and the amount of the overassessment or claim. **Input:** The data used in this system are derived from forms prepared by Appeals Offices. **Output:** The system generates hard copy monthly, quarterly, and fiscal year-to-date and statistical tables showing Appeals receipts, inventory, and disposal activity for non-docketed and docketed cases.

Agency Contact: Internal Revenue Service. (202) 566-6481.

S01206-026

Internal Security Management Information System (ISMIS).

OMB Funding Code/Title: 20-0911-0-1-803 / Salaries and expenses

Program: Internal Audit and Security

Congressional Relevance: House Committee on Ways and Means; Senate Committee on Finance; House Appropriations Committee; Treasury-Postal Service and General Government Subcommittee; Senate Appropriations Committee; Treasury, Postal Service, General Government Subcommittee

Authority: Internal Revenue Code of 1954, as amended (P.L. 83-591); 26 U.S.C. 7805; Reorganization Plan 1 of 1952).

Availability: Agency

Geographic Relevance: National

Purpose: This system provides management personnel of the Internal

tion. The system provides regional, branch, and group breakdowns of information on direct versus indirect time spent on processing cases and investigations, case inventories and statutes, case dispositions, and case assignments by grade and location. **Input:** Feeder reports for this system include weekly employee time reports, case index cards, case completion reports, and inspector personnel reports. **Output:** Monthly management reports and quarterly summaries are generated. In addition, special compilations and analysis can be generated on request. **Agency Contact:** Internal Revenue Service. (202) 566-4564.

S01206-027

Automated Accounting and Budget Execution System (AABES).
1977

OMB Funding Code/Title: 20-0911-0-1-803 / Salaries and expenses; 20-0912-0-1-803 / Processing tax returns; 20-0913-0-1-803 / Examinations and appeals

Program: Administrative Activities (All Programs); Examination and Appeals (All Programs); Investigation, Collection and Taxpayer Service (All Programs)

Congressional Relevance: House Committee on Ways and Means; Senate Committee on Finance; House Appropriations Committee; Treasury-Postal Service and General Government Subcommittee; Senate Appropriations Committee; Treasury, Postal Service, General Government Subcommittee

Authority: Internal Revenue Code of 1954, as amended (P.L. 83-591)

Availability: Agency

Geographic Relevance: National

Purpose: The system was designed to control the allocation, obligation, and expenditure of Internal Revenue Service (IRS) appropriated funds. Actual obligations and expenditures (accounting operations) are recorded and automatically compared against the appropriate budget allocations (budget execution operation). The accounting operation runs on a daily update cycle and provides for the automatic issuance of disbursement schedules for payment of vendor invoices. The budget operation runs on a monthly cycle and provides the control necessary to insure that funds are not overspent. All transactions are recorded on a master file and provide the user with a comprehensive on-line audit trail. **Input:** Input data are derived from various documents. These documents identify the detail allocations, obligations, and expenditures of funds that are recorded in the system. Input data are key entered through a CRT and reside on magnetic disc. **Output:** System output consists of hardcopy reports which show the financial status of the IRS at a given point in time. These outputs are used in preparing various financial reports required by the Treasury Department and other government agencies. System output also includes automated disbursement transactions. **Agency Contact:** Internal Revenue Service. (202) 566-6851.

S01206-028

Collection Activity Reports.

1980

OMB Funding Code/Title: 20-0914-0-1-803 / Investigation, collection and taxpayer service

Program: Collection

Congressional Relevance: House Committee on Ways and Means; Senate Committee on Finance; House Appropriations Committee; Treasury-Postal Service and General Government Subcommittee; Senate Appropriations Committee; Treasury, Postal Service, General Government Subcommittee

Authority: Internal Revenue Code of 1954, as amended (P.L. 83-591).

Availability: Agency

Geographic Relevance: National; Internal Revenue Service region, district and service center

Purpose: The collection activity reports are designed to allow management to monitor and evaluate activity on delinquent accounts, delinquency investigations, installment agreements, and deferred accounts. **Input:** The data are extracted from the Integrated Data Retrieval System and the Individual and Business Master Files. These are operational files from which limited management information can be derived. **Output:** Reports on issuances, dispositions, and inventory of delinquent accounts and delinquency investigations are produced weekly, monthly, and fiscal year-to-date. Reports on issuances, dispositions, and invento-

date. Reports on the number of suppressed delinquency investigations and the issuances, dispositions, and inventory of deferred accounts are produced quarterly.

Agency Contact: Internal Revenue Service. (202) 566-4033.

Quality Management Information System (QMIS). (NO.D.R.T-125).
10/76

OMB Funding Code/Title: 20-0912-0-1-803 / Processing tax returns

Program: Taxpayer Service

CFDA NO.: 21.003

Congressional Relevance: House Committee on Ways and Means; Senate Committee on Finance; House Appropriations Committee; Treasury-Postal Service and General Government Subcommittee; Senate Appropriations Committee; Treasury, Postal Service, General Government Subcommittee

Authority: Internal Revenue Code of 1954, as amended (P.L. 83-591); 7802, 7805; 68 Stat. 915; 26 U.S.C. 7802, 7805; Reorganization Plan of 1952).

Availability: Agency

Geographic Relevance: Internal Revenue Service regions and districts
Purpose: The purpose of the Quality Management Information System (QMIS) is to provide statistically valid data on the accuracy of service provided by the Taxpayer Service Division. QMIS is used to identify performance problems. **Input:** Coded data obtained from a statistical valid review of units of work are collected in all district offices and transcribed on CRTs. Data are then compiled to produce reports. **Output:** Reports listing overall accuracy data are produced monthly during the nonfiling period (October through December and May through August) and weekly during the filing period (January through April). Analy-

Reports with additional breakdowns of data are issued three times per year (October-December, January-April, May-September). Reports are available for the National, Regional, and District offices.

Form 4913, Taxpayer Education Statistical Reporting System.

OMB Funding Code/Title: 20-0912-0-1-803 / Processing tax returns

Program: Taxpayer Service

CFDA NO.: 21.003

Congressional Relevance: House Committee on Ways and Means; Senate Committee on Finance; House Appropriations Committee; Treasury-Postal Service and General Government Subcommittee; Senate Appropriations Committee; Treasury, Postal Service, General Government Subcommittee

Authority: Internal Revenue Code of 1954, as amended (P.L. 83-591); 68 Stat. 915, 917; 26 U.S.C. 7802, 7805; Reorganization Plan I of 1952

Availability: Agency

Geographic Relevance: National; IRS Field Offices

Purpose: The Taxpayer Education Statistical Reporting System permits the IRS to identify specific fiscal year Taxpayer Education activities conducted in its 62 field offices. It also allows the Service to track sources and resource utilization with respect to these education programs. **Input:** Form 4913 (Taxpayer Education Statistical Report) documents are used to provide input for the system. These documents are prepared manually by the Internal Revenue Service (IRS) field staff engaged in education activities and computer processed at the IRS Data Center in Detroit, Michigan. **Output:** The Data Center produces statistical tables monthly for the IRS National Office and its field offices. These tables are generated as hardcopy cut sheets.

Agency Contact: Internal Revenue Service. (202) 566-6352.

S01206-032

Taxpayer Information and Public Affairs Statistical Report (Form 6349).

OMB Funding Code/Title: 20-0912-0-1-803 / Processing tax returns

Program: Taxpayer Service

CFDA NO.: 21.003

Congressional Relevance: House Committee on Ways and Means; Senate Committee on Finance; House Appropriations Committee

Availability: Agency

Geographic Relevance: National; IRS Field Offices

Purpose: The Taxpayer Information and Public Affairs Statistical Reporting System provides for program planning and evaluation of existing IRS programs. **Input:** The Statistical Reports, Forms 6349, are used to provide input as to the effectiveness of Internal Revenue Service (IRS) programs. These documents are prepared manually by IRS field staff engaged in Taxpayer Information and Public Affairs activities and submitted to the IRS National Office for analysis. **Output:** The reports are annually consolidated at the IRS National Office and the reports are used to help establish future year program objectives, provide reports to Congress, and to plan the budget.

Purpose: The Budget Preparation System is a commercial, time-sharing operation. The purpose of the system is to prepare budget requests for submission to the Department of the Treasury, the Office of Management and Budget, and Congress. There are approximately 500 files varying in size from 1,000 to 1,000,000 characters. Data covers a 3 year period. **Input:** Data combined in the two input files comes from the previous year's Congressional Budget Submission and the adjustments which update the prior year's request. **Output:** In addition to many ad hoc reports requested as needed, a series of reports are run for each budget submission giving positions by grade, average position by employment category and dollars by object class.

S01206-034

Employee Plans/Exempt Organizations Determination System (EDS).

OMB Funding Code/Title: 20-0913-0-1-803 / Examinations and appeals

Program: Employee Plan and Exempt Organizations

Congressional Relevance: House Committee on Ways and Means; Senate Committee on Finance; House Appropriations Committee: Treasury-Postal Service and General Government Subcommittee; Senate Appropriations Committee: Treasury, Postal Service, General Government Subcommittee

Authority: Internal Revenue Code of 1954, as amended (P.L. 83-591, as amended by P.L. 93-406; 68 Stat. 134, 163; 26 U.S.C. 401, 501).

Availability: Agency

Geographic Relevance: Internal Revenue Service region and district

Purpose: The system was designed to control the applications for determinations for employee plans and exempt organizations, to enable Em-

(POH). The ICCF contains all the data used to control a case such as case number, file number, employee identification number, plan names, type and form of plans, date assigned, status of case, time charged to complete the case, and the key district. The POH contains data to be used for researching cases such as plan names and numbers of employers/administrators. **Input:** The data are derived from applications filed by requesting individuals and/or organizations and are input through terminals in the key district offices and selected associate district offices. **Output:** The system produces CRT displays and hardcopy reports. The major reports produced are the semi-monthly notice listings of cases approaching the 270-day determination time limit; semi-monthly listing of all district office undisposed cases whose age exceeds 80 days; a Weekly Inventory Control Report by district office and form number of all cases; five monthly employee Plans Determinations tables by types of plan such as Defined Benefit Plans, Defined Contributions Plans for Profit Sharing, Stock Bonus and Money Purchase Plans, and Master or Prototype Plans; and seven monthly Exempt Organizations tables showing opening inventory, net receipts, disposals and closing inventory by type of application such as initial, amendment, and termination. Monthly hardcopy and microfiche technical personnel-activity analysis tables are produced separately for EP and EO.

Payer Master File (PMF).

OMB Funding Code/Title: 20-0912-0-1-803 / Processing tax returns

Program: Returns Processing and Revenue Accounting; Computer Services

Congressional Relevance: House Committee on Ways and Means; Senate Committee on Finance; House Appropriations Committee: Treasury-Postal Service and General Government Subcommittee; Senate Appropriations Committee: Treasury, Postal Service, General Government Subcommittee

Authority: Internal Revenue Code of 1954, as amended (P.L. 83-591, as amended by P.L. 93-406, § 1051(n), 68 Stat. 915, 917; 26 U.S.C. 7802, 7805).

Availability: Internal Use Only

Geographic Relevance: National

Purpose: The program is to insure that payers of income properly file all information returns and to match income tax returns to payer information returns. The file is updated annually. Data elements in the file include payer's name, address, and federal taxpayer identification number; type of information returns filed; type of payment; number of documents filed; and tax year. **Input:** The data are derived from forms 1096 and W-3G, transmittal documents for information returns, and the computerized substitutes for these records. **Output:** The plan is to have the system produce annual reports. Reports to be produced are: form 1096 filings by paper and magnetic media, form 1096 and related 1099 volume report, paper 1096 filers sorted by volume of returns filed and type of payer, stop-filer cases, nonfiler cases stop-filer/nonfiler report, no-TIN document report, no-TIN/invalid TIN document report, and perfected documents report.

S01207-001

Financial Management Information System (FMIS).

OMB Funding Code/Title: 20-1616-0-1-803 / Salaries and expenses; 20-1618-0-1-803 / Expansion and improvements; 20-5811-0-2-803 / Coinage profit fund

Program: Salaries and Expenses (All Programs); Expansion and Improvements (Costs-Obligation); Coinage Wastage and Recoinage Losses

Congressional Relevance: House Committee on Banking, Finance, and Urban Affairs; Senate Committee on Banking, Housing, and Urban Affairs; House Appropriations Committee: Treasury-Postal Service and

system which interfaces with a automated general ledger system. The automated general ledger contains two subsystems which provide information on travel advances and accounts payable. FMIS provides for the tracking and recording of changes in assets and liabilities and generates detailed information on the status of obligations, expenditures, changes in source of funds, and other accounting transactions. Financial reports produced by the system provide information to meet external and internal reporting requirements, to evaluate current financial performance relative to approved financial plans, to exercise financial control over resources and their application, and to aid in future financial planning. **Input:** This data includes all mint obligations, liquidations, payroll and other accrued expenditures, disbursements, travel advances and journal entries. **Output:** Reports are generated monthly and include the following: Object Class Transaction Listing, Cost Center Transaction Listing, Document Transaction Listing, SF-225 Report, Report of Obligations, Report of Operating Expenditures, Undelivered Orders Report, Trial Balance, Program Analysis Report, Accounts Payable Register, Travel Advance Report, Program Transaction Listing and General Ledger Transaction Listing.

Cost Accounting System.

OMB Funding Code/Title: 20-1616-0-1-803 / Salaries and expenses
Program: Salaries and Expenses (All Programs)

Congressional Relevance: House Committee on Banking, Finance, and Urban Affairs; Senate Committee on Banking, Housing, and Urban Affairs; House Appropriations Committee: Treasury-Postal Service and General Government Subcommittee; Senate Appropriations Committee: Treasury, Postal Service, General Government Subcommittee
Authority: Bureau of the Mint Organic Act (P.L. 42-131; 31 U.S.C. 251). Export-Import Bank Act Amendments of 1978 (P.L. 95-630; 31 U.S.C. 251).

Availability: Internal Use Only

Purpose: Cost reports submitted monthly, quarterly, and annually by the Bureau of the Mint field institutions and the Washington office constitute one of the principal sources of information used in preparation of the annual budget estimates. Also, prompt and reliable cost data are valuable aids to management in planning operations; improving processes, methods, and procedures; and measuring results of operations as planned and controlling costs. The financial planning and reporting required by each office, and by the Mint Service as a whole, could not be accomplished without an adequate cost accounting system. Objectives of cost and operating reports regularly prepared are to furnish a maximum amount of cost and operating information, to present in the most practical way the facts that reveal actual working conditions and situations, to facilitate effective supervision of plant operations, and to aid in determining policies. **Input:** Computerized labor distribution summaries, stores requisitions, inventory statements, and other data prepared for the use of the cost accounting section provide the input for this system. **Output:** Cost and operating reports are prepared on a regular basis.

United States Savings Bonds Division

SO1206-001

Payroll Savings Plan Information System (PSP).

01/83

OMB Funding Code/Title: 20-0560-0-1-803 / Administering the payroll savings plan

Program: Promoting the Sale of Savings Bonds

Congressional Relevance: House Committee on Ways and Means; Senate Committee on Finance; House Appropriations Committee: Treasury-Postal Service and General Government Subcommittee; Senate Appropriations Committee: Treasury, Postal Service, General Government Subcommittee

Authority: Second Liberty Bond Act, as amended (P.L. 74-3; 93 Stat. 561).

Availability: Internal Use Only

Geographic Relevance: National; County; Sales district, Sales position

Purpose: The Payroll Savings Plan (PSP) System provides consistent, impartial, nationwide data on participation in payroll savings programs for U.S. Savings Bonds. Employers provide employment and participation statistics in response to semiannual mailings (March and September). The file size currently exceeds 70,000 records. Data items include name and address, employment and participation, and codes for sales district, position, county, industry, and mail form type. Information from PSP output reports are used as a zero based budget means of program effectiveness and are used by Division personnel in planning, conducting, and evaluation payroll savings campaigns. Input: Semiannual input includes Forms SB 60, SB 60A mailed to employees.

substantiated by Division field personnel to aid, delete, or correct records on employers. **Output:** Semiannual hardcopy and/or microfiche reports include Profit Lists, Alphabetical, Person-County Report, IQ Misallocation Companies Reports, Blue Ribbon List, Size Group Summaries, Industry Reports, and related documents.

S01206-002

Call and Progress Summary System (CAPS).

10/81

OMB Funding Code/Title: 20-0560-0-1-803 / Administering the public debt

Program: Promoting the Sale of Savings Bonds

Congressional Relevance: House Committee on Ways and Means; Senate Committee on Finance; House Appropriations Committee; Treasury-Postal Service and General Government Subcommittee; Senate Appropriations Committee; Treasury, Postal Service, General Government Subcommittee

Authority: Second Liberty Bond Act, as amended (P.L. 74-3; 93 Stat. 561).

Availability: Internal Use Only

Geographic Relevance: National; Sales district, Sales position

Purpose: The CAPS System records and compares planned savings bond sales activities and goals with actual activities and results for Sales Branch field personnel. CAPS output reports support planning and evaluation of sales activities. Major subsystems include Annual Plan, Field Call, Payroll Savings Results, Promotional Results, Monthly Reports, and Annual Reports. File sizes range from 288 records (Annual Plan Master File) to 192,000 records (Yearly SB-133 Activity File). The CAPS System processing cycle covers one fiscal year. CAPS Master File will contain prior year as well as current year dates. **Input:** Inputs are prepared by Sales Branch field sales representatives and include: one annual plan per field representative to the beginning of the program; one SB-133 Field Call report for each field representative sales call (daily); one SB-73 Payroll Savings Results report for each completed payroll savings campaign (weekly); and a minimum of one SB-10 Promotional Results report per field representative per month. **Output:** Hardcopy reports include Annual Plan Reports at the beginning of each program year, ten Monthly Reports, and two Annual Reports.

Agency Contact: United States Savings Bonds Division. (202) 634-5386.

S01208-003

U.S. Savings Bonds Dollar Sales and Redemption Reports.

05/41

OMB Funding Code/Title: 20-0560-0-1-803 / Administering the public debt

Program: Promoting the Sale of Savings Bonds

Congressional Relevance: House Committee on Ways and Means; Senate Committee on Finance; House Appropriations Committee; Treasury-Postal Service and General Government Subcommittee; Senate Appropriations Committee; Treasury, Postal Service, General Government Subcommittee

Authority: Act of September 13, 1982, as amended (P.L. 97-258, as amended by P.L. 97-452, § 1(6); 96 Stat. 940; 31 U.S.C. 3105).

Availability: Agency

Geographic Relevance: National; State; County; Field Offices

Purpose: At the request of the Saving Bond Division, the Bureau of Public Debt prepares monthly reports of savings bonds dollar sales nationally and by state, county, and issuing agency, with calendar-year-to-date and current-monthly figures. Sales reports include data on approximately 5,000 counties. Redemption reports are national. The purpose is to evaluate effectiveness of sales promotion, determine staffing and grades, inform national and local volunteers, and generate national and local publicity. A subsystem is the payroll savings allocation system for distribution of issuances from major centralized corporate payrolls. Processing by the Bureau of Public Debt is automated, and a variety of output reports are also prepared manually by Savings Bonds Division headquarters from the Bureau of Public Debt's reports. **Input:** Input consists of savings bonds issuance and redemption data from stubs,

Reserve Banks Savings Bonds Division territory alignments are from Savings Bonds Division headquarters and field offices. Allocation system inputs are from the Savings Bonds Division and from employers via Federal Reserve Banks (form PD 4385). **Output:** Daily reports of national sales and redemption are processed. Monthly reports consist of current and year-to-date sales by issuing agent, county, Savings Bonds Division field territory, state and national totals, and national redemptions.

Purpose: This system provides automated and manual means of maintaining centralized accounting and related financial records for internal and external reporting purposes and serves as a data base for the formulation of budgetary requirements and the control of obligations of funds. The system includes the following major categories of data: cost accounting data, including staff time expended in program areas; fund control data showing obligations by object classification, by office incurring the charges, by activity and program, and by time period; and budget formulation data showing fiscal requirements by object class, office, program, and timeframe. Internal management information reports provide data on obligations and expenditures which are used as a basis for budget submissions, fund control, and productivity analysis. **Input:** Data for this system are derived from purchase orders and contracts, reimbursable work authorizations, vendor invoices, time and attendance records, and travel vouchers filed by employees. **Output:** The system generates monthly, quarterly, and annual reports required by the Department of the Treasury, the Office of Management and Budget, and the General Services Administration. Internal reports are generated on a monthly, weekly, and demand basis. Regular recurring reports required by congressional committees are produced as are ad hoc reports requested by these committees.

Office of Revenue Sharing

S01218-003

General Revenue Sharing Payment System.

11/72

OMB Funding Code/Title: 20-2111-0-1-851 / Payments to State and local government fiscal assistance trust fund

Program: Payment to State and Local Government Fiscal Assistance Trust Fund

CFDA NO.: 21.300

Congressional Relevance: House Committee on Ways and Means; Senate Committee on Finance; House Appropriations Committee: Treasury-Postal Service and General Government Subcommittee, Senate Appropriations Committee: Treasury, Postal Service, General Government Subcommittee

Authority: Act of September 13, 1982 (P.L. 97-258; 96 Stat. 1010; 31 U.S.C. 6701 et seq.).

Availability: Agency

Geographic Relevance: National; State; Congressional District; County; City; Townships, Louisiana Sheriff Offices

Purpose: The system was established to support the requirements of the state and Local Fiscal Assistance Act of 1972. The major functions are to: 1) make quarterly general revenue sharing payments to eligible recipient governments; 2) make special payments as needed; 3) compute adjustments to entitlements when necessary; and 4) redistribute funds to proper recipients when adjustments, waivers, or accounts receivables occur. The system organizes the recipients of general revenue sharing funds as over 39,000 individual accounts, computing the proper amounts for regular payments as well as for special payments as needed. Payments are made either by check to the recipient or by electronic funds transfer to a designated financial institution. The basis for determination of amount of the entitlement is the allocation amount. Changes in the allocation are adjustments to the Payment System which may generate supplemental payments or accounts receivable. Governments no longer desiring to receive general revenue sharing funds may waive the funds. The payment system changes the status of the recipient, satisfies any outstanding accounts receivable, and redistributes the funds to the proper recipients. **Input:** The data are derived from the eligible GRS recipient governments, the General Revenue Sharing Allocation System, and the General Revenue Sharing Accounting System. **Output:** Output is produced each quarter (or payment) and includes several reports prepared for distribution to state governments and requesting recipients. Also produced is a history of all transactions of all recipients by state. This history is provided on microfiche to requesting state audit groups.

Agency Contact: Office of Revenue Sharing. (202) 634-5170.

S01218-004

General Revenue Sharing Allocation System.

11/72

OMB Funding Code/Title: 20-2111-0-1-851 / Payments to State and local government fiscal assistance trust fund

Program: Payments to State and Local Government Fiscal Assistance

CFDA NO.: 21.300

Congressional Relevance: House Committee on Ways and Means;

Senate Committee on Finance; House Appropriations Committee: Treasury-Postal Service and General Government Subcommittee; Senate Appropriations Committee: Treasury, Postal Service, General Government Subcommittee

Authority: Act of September 13, 1982 (P.L. 97-258; 96 Stat. 1010; 31 U.S.C. 6701 et seq.).

Availability: Agency

Geographic Relevance: National; State; (SMSA) Standard Metropolitan Statistical Area; Congressional District; County; City; Louisiana Sheriff Offices, Townships

Purpose: The system was established to support the requirements of the State and Local Fiscal Assistance Act of 1972. The major function is to determine the amount of general revenue sharing funds to which the governmental units are entitled by apportioning the funds by mathematical formula detailed in the law. The system determines the amount of general revenue sharing funds to which the governmental units are entitled. Certain data elements concerning each recipient are supplied (primarily by the Bureau of Census) to the allocation system. A special formula for apportioning the funds was detailed in the congressional act establishing general revenue sharing. At the end of an entitlement period, based on the latest data available, the allocation for each recipient is recalculated for that period. If there is a difference between the amount paid for the period and the final allocation, that amount is handled by the payment system as an adjustment to the next entitlement period. As the current entitlement period is being recalculated, the next period is calculated to determine the initial allocation. This is the only time during the period that allocations are calculated for all recipients. If extreme changes are made in the data elements during the period, reallocations can be made on an individual state basis. Technical memoranda provide the method of calculating allocation adjustments for closed entitlement periods. **Input:** The data are derived primarily by mathematically calculating the general revenue sharing allocation for each recipient using data supplied primarily by the Bureau of the Census, Bureau of Indian Affairs, Bureau of Economic Analysis, and the Internal Revenue Service. **Output:** Output is produced each entitlement period and includes several reports prepared for distribution to state governments and requesting recipients.

Agency Contact: Office of Revenue Sharing. (202) 634-5170.

S01218-005

Antirecession Program Payment System. (HRS).

1976

OMB Funding Code/Title: 20-0108-0-1-852 / Antirecession financial assistance fund

Program: Antirecession Payments

Congressional Relevance: House Committee on Government Operations; Senate Committee on Finance; House Appropriations Committee: Energy and Water Development Subcommittee; Senate Appropriations Committee: Energy and Water Development Subcommittee

Authority: Public Works Employment Act of 1976, as amended (P.L. 94-369); Tax Reduction and Simplification Act of 1977 (P.L. 95-30).

Availability: Agency

Geographic Relevance: National; State; Congressional District; County; City; Federal Reserve District

Purpose: The system was established to support the requirements of the Public Works Employment Act of 1976 (Title 11, P.L. 94-369) and amended by Title VI, P.L. 95-30 in 1977. The major functions are to make quarterly antirecession payments to eligible recipient governments, make special payments as needed, and compute adjustments to recipients when necessary. The system organizes the recipients of the Antirecession Fund into approximately 39,000 individual accounts, computing the proper amounts for regular payments, as well as for special payments as needed. Payments are made by check to the recipient. The basis for the amount of the quarter period payment is the allocation system. Changes in the allocation are adjustments to the payment system which may generate supplemental payments or accounts receivable. Governments no longer desiring to participate in the Antirecession Program may waive the funds. The payment system changes the status of the recipient and adds the funds to the proper reserve account. **Input:** The data are derived from the eligible antirecession recipient governments, the Antirecession Allocation and Accounting Systems, and feedback from the General Revenue Sharing Accounting System. **Output:** Quarterly outputs include several publications prepared for distribution to the Congress, to state governments, and to requesting recipients. In

addition, a history of all transactions of all recipients of state assistance on microfiche to state audit groups.
Agency Contact: Office of Revenue Sharing. (202) 634-5170.

S01218-006

Antirecession Program Allocation System.

1976

OMB Funding Code/Title: 20-0108-0-1-852 / Antirecession financial assistance fund

Program: Antirecession Payments

Congressional Relevance: House Committee on Government Operations; Senate Committee on Finance; House Appropriations Committee: Energy and Water Development Subcommittee; Senate Appropriations Committee: Energy and Water Development Subcommittee

Authority: Public Works Employment Act of 1976, as amended (P.L. 94-369). Tax Reduction and Simplification Act of 1977 (P.L. 95-30).

Availability: Agency

Geographic Relevance: National; State; (SMSA) Standard Metropolitan Statistical Area; Congressional District; County; City

Purpose: The system was established to support the requirements of the Public Works Employment Act of 1976 (Title II, P.L. 94-369) and amended by Title VI, P.L. 95-30 in 1977. The major function is to determine the amount of antirecession funds to which governmental units are entitled by apportioning the funds by mathematical formula detailed in the law. The system determines the amount of antirecession funds to which the governmental units are entitled. Certain data elements concerning each recipient are supplied (primarily by the Bureau of Labor Statistics and the General Revenue Sharing Program) to the allocation system. A special formula for apportioning the funds was detailed in the congressional act establishing the antirecession fund. Technical memoranda provide the method of calculating allocation adjustments. **Input:** The data are derived primarily by mathematically calculating the antirecession allocation for each recipient using data supplied primarily by the Bureau of Labor Statistics, Bureau of the Census, Bureau of Indian Affairs, and the General Revenue Sharing Accounting System. **Output:** Quarterly hardcopy outputs include several publications prepared for distribution to the Congress, state governments, and requesting recipients.

Program: Antirecession Payments

Congressional Relevance: House Committee on Government Operations; Senate Committee on Finance; House Appropriations Committee: Energy and Water Development Subcommittee; Senate Appropriations Committee: Energy and Water Development Subcommittee

Authority: Public Works Employment Act of 1976, as amended (P.L. 94-369). Tax Reduction and Simplification Act of 1977 (P.L. 95-30).

Availability: Agency

Geographic Relevance: National; State; (SMSA) Standard Metropolitan Statistical Area; Congressional District; County; City; Federal Reserve District

Purpose: The system was established to support the requirements of the Public Works Employment Act of 1976 (Title II, P.L. 94-369) and amended by Title VI, P.L. 95-30 in 1977. The major function of the system is to maintain financial records of all Antirecession Fund activities from program inception to date. The system maintains cumulative records of all financial transactions from program inception and includes such data as appropriations received, allocations and net disbursements made from both the regular fund and the adjustment reserves, waivers of allocations, returns to the General Fund of the Treasury, accounts payable, and reserve balances. Computer input is coded to facilitate retrieval of data so that financial information is readily available by time periods (fiscal year, quarter periods, and upon demand); congressional districts; local governments; state and county geographic areas; and Federal Reserve districts. Separate records are maintained on approximately 39,000 individual recipient governments. **Input:** The data are derived from the appropriations made by Congress under Public Law 94-369 (amended by Public Law 95-30 in 1977), the Antirecession Allocation System, the Antirecession Payment System, and input from recip-

ient governments. **Output:** Output from this system provides the basis for periodic financial reports and for the Annual Report to Congress. The system is extremely flexible and is capable of responding to queries. Output is generally on a demand basis.

Program: Collection, Production and Analysis

Congressional Relevance: *House Committee on Energy and Commerce; House Committee on Government Operations; Senate Committee on Commerce, Science, and Transportation; Senate Committee on Energy and Natural Resources; Senate Committee on Governmental Affairs; Senate Appropriations Committee: Interior Subcommittee; Senate Appropriations Committee: Interior Subcommittee*

Authority: Federal Energy Administration Act of 1974 (P.L. 93-275). Department of Energy Organization Act (P.L. 95-91).

Availability: Agency

Geographic Relevance: National; State

Purpose: The EIA-728B, Reseller/Retailers' Monthly Petroleum Product Sales Survey collects price and sales volume data by state from a sample of resellers of motor gasoline and resellers and retailers of no. 2 distillate and residual fuel oil. The no. 2 distillate data is broken out by sales of no. 2 fuel oil and no. 2 diesel fuel into 6 sales categories: retail sales to residential, commercial/institutional, industrial, company-operated retail outlets, and other end-users, and wholesale sales. Motor gasoline data is collected for leaded regular, unleaded regular, and premium gasoline sales through company-operated retail outlets, to other end-users and for resale, residual sales are collected by sulfur content for retail sales and wholesale sales. **Input:** The data are derived from

monthly reports submitted by a scientifically selected sample of firms which sell No. 2 distillate, residual, or motor gasoline. It uses Form EIA-782B. **Output:** The data are aggregated with data collected from refineries and resellers on Form 782A, and published monthly in the Petroleum Marketing Monthly.

Authority: Federal Energy Administration Act of 1974 (P.L. 93-275). Department of Energy Organization Act (P.L. 95-91). National Gas Policy Act of 1978 (P.L. 95-621).

Availability: Internal Use Only

Geographic Relevance: National; State

Purpose: The system was developed and implemented to collect data pertaining to natural gas shortages and to assess the resulting impact on alternate fuel sources. All reporting firms furnish basic delivery data for end-use customers by month for the past heating year. Data pertaining to large end-use customers include individual accounts of deliveries, deficiencies, and alternate fuel usage for the heating year (April 1-March 31). Each large customer is identified as to state and county in which deliveries are received, category of customer, type of service, SIC code, and DOE priority. **Input:** The data contained in the file for this system are derived from submission of reports from interstate and intrastate pipeline distributors of natural gas and municipalities. Twelve-month historical data are gathered each summer. The data are collected on Form FERC-50. **Output:** Internal analysis based on data are performed by the Federal Energy Regulatory Commission.

Agency Contact: Energy Information Administration. (202) 252-6178.

Availability: Agency

Geographic Relevance: National

Purpose: This system is to collect information concerning storage capacity, storage levels, injections and withdrawals, and storage ownerships from intrastate and interstate underground natural gas storage operators. The system contains data on the volume of gas stored; gas in reservoirs operated by respondents; name, location, and capacity of underground storage reservoirs; and reservoirs in development stage. **Input:** Data for this system are collected from approximately 52 intrastate underground natural gas storage operators and 41 interstate underground natural gas storage operators. The intrastate respondents and the interstate respondents report directly to DOE. Data are collected monthly (April-November) and semimonthly (December-March). It uses Forms EIA-191 and EIC-8. **Output:** Output includes listings by company of volumetric injections, withdrawals, and balances.

SO1301-030

Annual Estimates of U.S. Crude Oil, Natural Gas and Natural Gas Liquids Proved Reserves. (6055; 6462).

OMB Funding Code/Title: 89-0216-0-1-276 / Energy information administration

Program: Collection, Production and Analysis

Congressional Relevance: House Committee on Energy and Commerce; Senate Committee on Commerce, Science, and Transportation; Senate Committee on Energy and Natural Resources; House Appropriations Committee: Interior Subcommittee; Senate Appropriations Committee: Interior Subcommittee

Authority: Federal Energy Administration Act of 1974 (P.L. 93-275). Department of Energy Organization Act (P.L. 95-91).

Availability: Agency

Geographic Relevance: National; State; State Subdivision

Purpose: The system is designed to collect information on proved reserves and production of crude oil, natural gas, and natural gas liquids in the United States and its Outer Continental Shelf for the following purposes: (1) To provide basic data which are needed by energy analysts to support the evaluation of changes in resource availability and the rate and extent of conversion of such resources to producible reserves as a function of technology, alternative policy decisions, and other factors. (2) To replace annual statistical reports on U.S. Reserves published by the American Petroleum Institute and the American Gas Association. (3) To aid DOE analysts and policy makers in assessing the United States energy position, and in formulating energy policy alternatives. The content includes data on the production of oil and gas for 1977-1982. **Input:** This system collects information as of December 31 of each report year from approximately 2500 operators of oil and gas wells (Form EIA-23). Information as to the geographic source of natural gas streams input to gas processing plants is separately collected (Form EIA-64A). **Output:** Output includes an annual report on year-end proved reserves published in the fall of each year for the preceding calendar year. Annual reports have been published for report years

1977-1982. Other information on production indicated additional reserves of crude oil, non-producing proved reserves, and commitment status of natural gas reserves are also included.

Agency Contact: Energy Information Administration. (214) 767-2200.

SO1301-032

Petroleum Product Sales Reporting System. (6849).

OMB Funding Code/Title: 89-0216-0-1-276 / Energy information administration

Program: Collection, Production and Analysis

Congressional Relevance: House Committee on Energy and Commerce; Senate Committee on Commerce, Science, and Transportation; Senate Committee on Energy and Natural Resources; House Appropriations Committee: Interior Subcommittee; Senate Appropriations Committee: Interior Subcommittee

Authority: Federal Energy Administration Act of 1974 (P.L. 93-275).

Availability: Agency

Geographic Relevance: National; State

Purpose: The system has been developed to provide petroleum product prices and sales volumes to facilitate the timely analysis of price and volume of sales data at the refined product level. The system currently tabulates selling price and sales volume data for each respondent firm for each covered petroleum product it sells. Covered products include gasoline, distillate, residual fuel oil, aviation fuels, kerosene, and propane. Information is collected monthly on a state basis. **Input:** The source of information currently is the Form EIA-782A, Refiner/Gas Plant Operators' Monthly Petroleum Product Sales Report. **Output:** The output is published monthly in the Petroleum Marketing Monthly.

Agency Contact: Energy Information Administration. (202) 252-9601.

SO1301-033

Monthly Petroleum Supply Reporting System. (6301).

Program: Collection, Production and Analysis

Congressional Relevance: House Committee on Energy and Commerce; Senate Committee on Commerce, Science, and Transportation; Senate Committee on Energy and Natural Resources; House Appropriations Committee: Interior Subcommittee; Senate Appropriations Committee: Interior Subcommittee

Authority: Federal Energy Administration Act of 1974 (P.L. 93-275). Department of Energy Organization Act (P.L. 95-91).

Availability: Agency

Geographic Relevance: National; State; County

Purpose: The purpose of this system is to assemble statistical data collected monthly on liquid hydrocarbon products and includes production at refineries and natural gas processing plants, stocks, imports, exports, pipeline, tanker and barge movements, and refinery input to provide a comprehensive collection of data on supply and disposition of crude oil and refined products in the United States and its territories. The system provides for aggregations on a refining district and Petroleum Administration for Defense (PAD) District levels. Historical data are available in automated form from 1976 to present. **Input:** Sources of data for this system are: 1) Monthly Refinery Report, Form EIA-810; 2) Monthly Bulk Terminal Report, Form EIA-811; 3) Monthly Product Pipeline Report, Form EIA-812; 4) Monthly Crude Oil Report, Form EIA-813; 5) Monthly Imports Report, Form EIA-814; 6) Monthly Report of Oil Shipments from Puerto Rico into the United States, Form EIA-815; 7) Monthly Natural Gas Liquids Report, Form EIA-816; 8) Monthly Tanker and Barge Movement Report, Form EIA-817. **Output:** Data from the system are published in the Petroleum Supply Monthly, the Monthly Energy Review and the Petroleum Supply Annual publications and in special studies requested by the Department of Energy.

SO1301-036

Production of Lower 48 Oil and Gas (PROLOG). (6138).

OMB Funding Code/Title: 89-0216-0-1-276 / Energy information administration

Program: Collection, Production and Analysis; Program Services; Policy and Management

Energy Policy and Conservation Act (P.L. 94-163). Energy Information and Production Act (P.L. 94-385). Department of Energy Organization Act (P.L. 95-91).

Availability: Agency

Geographic Relevance: National

Purpose: The model is designed to produce independent estimates of future crude oil and natural gas production from the lower 48 states onshore for use in energy policy formulation and planning. It forecasts the oil and gas production by region beginning 1981. The model is revised annually on a scheduled basis, but modifications and updates to the data base are being implemented on a continuing basis. Future production possibilities are established as functions of anticipated profitability compared to alternative investment opportunities, the amount of exploratory drilling undertaken and its success, and the extent of constraining policies that limit profitability or the availability of land favorable for exploration and production. Runs may be made under alternate user specified assumptions such as factors and expected prices for oil and natural gas. **Input:** The data are from American Petroleum Institute, American Gas Association and Energy Information Administration. **Output:** Output includes oil and gas production and reserves by onshore region by year in comprehensive annual study supporting the EIA Annual Energy Outlook and as issues develop.

Agency Contact: Energy Information Administration. (202) 252-6408.

S01301-037

National Coal Model (NCM).

OMB Funding Code/Title: 89-0216-0-1-276 / Energy information administration

Program: Collection, Production and Analysis

Congressional Relevance: House Appropriations Committee: Interior Subcommittee; House Committee on Energy and Commerce; Senate Appropriations Committee: Interior Subcommittee; Senate Committee on Commerce, Science, and Transportation; Senate Committee on Energy and Natural Resources

Authority: Federal Energy Administration Act of 1974 (P.L. 93-275). Energy Policy and Conservation Act (P.L. 94-163). Energy Conservation and Production Act (P.L. 94-385).

Availability: Agency

Geographic Relevance: Regional

Purpose: The purpose is to forecast the supply of coal by region and coal type in 1985, 1990 and 1995. Coal demand in 44 regions is met via a transportation network from existing and new mine capacity in 31 supply regions. Regional supply-price relationships are developed for 30 coal types based on the Bureau of Mines Demonstrated Reserve Base in the United States on January 1, 1980, engineering estimates of mining costs based on five surface mine types and four deep mine types, and regional and coal type specific cost elements. The supply methodology is used for the Annual Energy Outlook. The model is designed to forecast coal production, consumption, and prices and to analyze coal-related public policy issues. The model employs linear programming techniques to provide a general equilibrium solution. It is written in FORTRAN and utilizes Kelson's MPS-III linear programming software. It takes approximately 15 minutes to solve all job steps of the National Coal Model for three target years. The model is capable of making projections under a variety of policy scenarios. Users have the capability of changing such factors as region specifications, assumed inflation rates, or assumed growth rates in electricity sales through modifications in the data base. These factors are not a part of the model's structure. **Input:** The input is from EIS electric utility capacity data, sales by region data, and coal delivery data; EIA coal reserve data publication (DOE-EIA-0280(80)); EIS utility coal demand and distribution efficiencies; nonutility coal demand, and coal transportation demand. **Output:** The NCM calculates the demand for coal by electric utilities based on specified levels of electrical generation, existing and planned generating capacity, the economics of electricity generation, non-utility demand for coal. To date, a 1985, 1990, and 1995 data base has been developed and used to generate scenarios for use in the analysis of the Federal Coal Leasing

Geographic Relevance: Regional

Purpose: The model is designed to develop coal supply curves which are input to the National Coal Model (NCM), the Intermediate Future Forecasting System (IFFS), the Coal Supply Transportation Model (CSTM), and the United States supply sector of the International Coal Trade Model (ICTM). Thirty coal type categories, defined by BTU and sulfur content ranges, are considered. A separate supply curve is developed for each coal type present in each of 31 supply regions. To develop a supply curve, the program deducts reserves committed to existing mines or otherwise unavailable for mining from total reserves. The remaining surface mineable reserves are allocated by overburden ratio and mine size and the remaining underground mineable coal depth, seam thickness and mine size. The potential annual production and minimum acceptable price of each mine category are calculated and the production is ordered by price to produce the supply curve. Prices are based on the costs of five surface mine types and four underground mine types, adjusted for regional factors. **Input:** Input is reserves data from the Bureau of Mines, and the EIA, Federal Power Commission Coal Survey, and the EIA Demonstrated Reserve Base of Coal in the United States on January 1, 1980 [Publication (DOE-EIA-0280 (80))], and production data from the EIA. **Output:** Output consists of regional coal supply files and printed reports, including coal reserve base and coal type data and mine size allocation, and coal supply functions.

Geographic Relevance: International/Foreign

Purpose: The OMS Model is a dynamic model that simulates world crude oil supplies and demands by region (the United States, Canada, Japan, Europe, and the less developed countries) on an annual basis through 2000. The model consists of regional crude oil supply and demand equations with crude oil demand determined as a function of both prices and income. The model can be used to simulate OPEC production given a projection of world crude oil prices, or to simulate world crude oil prices for given levels of OPEC capacity. **Input:** The data requirements are productive capacity information; economic growth; OPEC pricing policy; and reference world supply and demand equilibrium paths over time from some energy equilibrium model of the world. **Output:** Output from the model includes regional crude oil demand, quantities of crude oil supplied by OPEC and non-OPEC

sources, the level of U.S. imports, world crude oil prices, and the level of OPEC crude oil revenues.

Authority: Federal Energy Administration Act of 1974 (P.L. 93-275), Energy Policy and Conservation Act (P.L. 94-163), Energy Conservation and Production Act (P.L. 94-385)

Availability: Agency

Geographic Relevance: Local

Purpose: This model is used for comparison of investment alternatives among six electricity generating plant types. The "fixed charge factor" calculated by the computer program are multiplied by the corresponding plant's initial investment cost to produce the annual capital charge, levelized over the plant's economic life. The program is run interactively and queries the user for inputs. It requires 120K of core on the IBM 370 computer and executes in less than 5 seconds of CPU time. **Input:** This is a mathematical model which employs as input user supplied estimates of property tax rates, insurance rates, the cost of capital, income tax rates, investment tax credit rates, inflation rates, depreciation methods, and plant characteristics, including the economic life and salvage values as a percentage of initial investment. **Output:** Output is currently used by the MEFS model. However, fixed charge factors produced in nominal dollar form (at the option of the user) are directly comparable with those used in the utility industry. Used in the annual report to Congress.

S01301-067

Levelized Nuclear Fuel Cost Model (LNFCM).

OMB Funding Code/Title: 89-0216-0-1-276 / Energy information administration

Program: Collection, Production and Analysis

Congressional Relevance: *House* Committee on Interior and Insular Affairs; *Senate* Committee on Energy and Natural Resources; *House* Appropriations Committee; Interior Subcommittee; *Senate* Appropriations Committee; Interior Subcommittee

Authority: Federal Energy Administration Act of 1974 (P.L. 93-275), Energy Policy and Conservation Act of 1975 (P.L. 94-163), Energy Conservation and Production Act (P.L. 94-385).

Availability: Agency

Geographic Relevance: National

Purpose: The model computes the levelized quantities of fuel cycle services (such as pounds of uranium per kilowatt-hour), the levelized direct costs (such as mills per kilowatt-hour attributable to fabrication of fuel elements), and the carrying charges which account for time value of money. All fuel cycle services from natural uranium purchase through waste disposal are covered, and the user can specify one of three modes for uranium and plutonium recycle: no recycle, self-generated recycle only, or reprocessed uranium (plutonium) sale and/or purchase. LNFCM is coded in FORTRAN and is suitable for either batch or interactive-mode processing. In the interactive mode, the model is self-documenting in that the parameters (whose names are mnemonic and chosen) are initially listed with their default values, and the user is asked to specify the names and new values of parameters to be changed for the desired run. Once these input parameters are specified (or defaulted), the model determines the required fuel cycle quantities and direct costs from the unit fuel cycle prices, and finally determines the inventory carrying charge. The model is purely an accounting model (optimization techniques are used). **Input:** The inputs to the model are categorized in three types: physical characteristics of the reactor; fuel design; physical and engineering characteristics of fuel processing; and unit prices for fuel cycle services and the utility's varying charges. **Output:** This stand-alone model is designed to compute an electricity utility's levelized fuel cost (mills per kilowatt-hour) for a "batch" of

clear fuel. Fuel cost projections prepared with the code are used in the Annual Report to Congress.

SO1301-081

Annual Report of Natural and Supplemental Gas Supply and Disposition. (6543).

OMB Funding Code/Title: 89-0216-0-1-276 / Energy information administration

Program: Collection, Production and Analysis

Congressional Relevance: *House* Committee on Interior and Insular Affairs; *Senate* Committee on Energy and Natural Resources; *House* Appropriations Committee; Interior Subcommittee; *Senate* Appropriations Committee; Interior Subcommittee

Authority: Federal Energy Administration Act of 1974 (P.L. 93-275). Department of Energy Organization Act (P.L. 95-91).

Availability: Agency

Geographic Relevance: National; State

Purpose: The need to monitor the supply and disposition of natural gas on an annual basis resulted in the development of this system. Data are received from producing and nonproducing companies, and indicate the supply of raw and residue gas from wells, pipelines, and underground storage and disposition of gas to consumers or storage. These data are retained historically and form the basis for various Department of Energy publications and special projects. Data are received on the supply of raw and residue gas, including gas produced by the company, received from producing or pipeline companies, or withdrawn from underground storage. Data on disposition of raw and residue gas include extraction loss, vented or burned, used as fuel by the company, and deliveries to processing plants and pipeline companies, distribution companies and consumers. Data are processed on an annual basis and are historically maintained on automated files from 1972 to the present. Data are available on an individual company basis or aggregated by state. **Input:** The source of data for this system is the canvass form EIA-176 titled, Supply and Disposition of Natural Gas. A total of 2,240 responses are received annually from 1,850 companies by state of operation. **Output:** Data from the system are used in the following publications: Natural Gas Monthly, Natural Gas Annual, Annual Report to Congress, State Energy Data Report and special studies requested by the Department of Energy.

Agency Contact: Energy Information Administration. (202) 252-6305.

SO1301-094

Annual Petroleum Supply Reporting System. (6536).

OMB Funding Code/Title: 89-0216-0-1-276 / Energy information administration

Program: Collection, Production and Analysis

Congressional Relevance: *House* Committee on Interior and Insular Affairs; *Senate* Committee on Energy and Natural Resources; *House* Appropriations Committee; Interior Subcommittee; *Senate* Appropriations Committee; Interior Subcommittee

Authority: Federal Energy Administration Act of 1974 (P.L. 93-275). Department of Energy Organization Act (P.L. 95-91).

Availability: Agency

Geographic Relevance: National; State

Purpose: The purpose of this system is to assemble statistical data on an annual basis on liquid hydrocarbon products, including data on facilities engaged in processing and storing these products. Currently, the system provides data measuring current and sustainable capacity of the significant facilities of all refineries located in the U.S., Puerto Rico, the Virgin Islands, and Guam on an annual basis for use in Department of Energy publications. The data are retained in a historical file from which information for special studies is provided. Data are collected on the type of plant, the storage capacity by product, and the type of refining facility and its capacity (operating, shutdown, and building). Historical data are available from 1970 to present in automated form. Data on the historical file are available on an individual refinery basis and may be aggregated by state and county. **Input:** The source of the data is the canvass form EIA-820 Capacity of Petroleum Refineries. Responses are received annually from approximately 320 petroleum refineries. **Out-**

put: (DOE) publication, Petroleum Supply Annual and in special studies requested by DOE.

Agency Contact: Energy Information Administration. (202) 252-5994.

Availability: Agency

Geographic Relevance: International/Foreign; National

Purpose: This system will support a wide range of studies concerning the competitive structure and financial performance of energy companies. The financial reports for each company provide data on revenues, profits, cash flows, and investments in total, as well as by energy source and function (such as production, refining, or marketing). Initial submissions for the reporting years 1977 and 1978 were received in 1979. Data for 1979 and 1974-76 were received in 1980. Data has been collected and reported for 1981 and is currently being collected for 1982 and 1983. **Input:** Information used in this system is being collected from energy companies on form EIA-28. **Output:** Summary reports providing financial and operating statistics pertaining to the energy industry will be generated. The reports will provide a profile of the industry by firm size, energy source, operating segment, and geographic area. **Agency Contact:** Energy Information Administration. (202) 252-1441.

SO1301-106

Nonresidential Buildings Energy Consumption Surveys (NBECS). (6240).

OMB Funding Code/Title: 89-0217-0-1-276 / Emergency preparedness and energy regulation

Program: Economic Regulation

Congressional Relevance: *House* Appropriations Committee; Interior Subcommittee; *House* Committee on Energy and Commerce; *Senate* Appropriations Committee; Interior Subcommittee; *Senate* Committee on Energy and Natural Resources

Authority: Energy Policy and Conservation Act (P.L. 94-163). Energy Conservation and Production Act (P.L. 94-385).

Availability: Agency

Geographic Relevance: National; Census Region & Weather Zone

Purpose: This system is used to determine the energy consuming characteristics of a national scientific sample of non-residential buildings. This information will be used for such projects as assessing the possibilities for financial incentives for the installation of energy conservation measures. **Input:** Information such as square footage, type of business conducted, and temperature maintained is collected on a standard form from building managers and owners. Energy consumption and expenditures data are collected from fuel suppliers of the sampled buildings. **Output:** Reports and public use tapes are published from this survey. **Agency Contact:** Energy Information Administration. (202) 252-1125.

SO1301-108

Short-Term Integrated Forecasting System (STIFS).

OMB Funding Code/Title: 89-0216-0-1-276 / Energy information administration

Program: Energy Information Administration (All Programs)

Congressional Relevance: *House* Appropriations Committee; Interior Subcommittee; *House* Appropriations Committee; Energy and Water Development Subcommittee; *House* Committee on Energy and Commerce; *House* Committee on Science and Technology; *Senate* Appropriations Committee; Interior Subcommittee; *Senate* Appropriations Committee; Energy and Water Development Subcommittee; *Senate* Committee on Energy and Natural Resources

Authority: Federal Energy Administration Act of 1974 (P.L. 93-275). Energy Policy and Conservation Act (P.L. 94-163). Energy Conservation and Production Act (P.L. 94-385). Department of Energy Organization Act (P.L. 95-91).

Availability: Agency

Geographic Relevance: National

Purpose: This system has an automated method of compiling and reporting the results of short-term econometric models, electric utility, and petroleum demand on a national basis. Natural gas demand is currently assumed to be primarily a function of natural gas supply. A short-term econometric natural gas demand model is under development. The system will use data on national income, population, weather, and price indices and historical supply, demand, stock, production, import, and export data for coal, crude oil, refined petroleum products, nuclear power, and natural and synthetic gas. Several standard scenarios, such as high or low economic growth and cold or mild winters, can be specified in the models. The system will have a national monthly balanced energy accounts data base which will fill up the national energy reference network, including stocks and conversions. The balancing framework will address electric utility fuel-switching flexibility and refinery yield utilization trade-off, and will measure energy shortages. **Input:** The energy data used in the system are supplied by other systems within the Department of Energy. Other data, including income, population, and weather information, are supplied primarily by the Department of Commerce. **Output:** This system generates monthly forecasts of supply, demand, and stocks (and shortages, if any) on a national basis for coal, special fuels (including hydro and nuclear), petroleum, and natural gas for an 18 to 24 month period from the current month.

Agency Contact: Energy Information Administration. (202) 252-5382.

Petroleum Allocation Model (PAL).

OMB Funding Code/Title: 89-0216-0-1-276 / Energy information administration

Program: Energy Applied Analysis

Congressional Relevance: House Appropriations Committee: Interior Subcommittee; House Committee on Energy and Commerce; Senate Appropriations Committee: Interior Subcommittee; Senate Committee on Energy and Natural Resources

Authority: Federal Energy Administration Act of 1974 (P.L. 93-275). Energy Policy and Conservation Act (P.L. 94-163). Energy Conservation and Production Act (P.L. 94-385).

Availability: Agency

Geographic Relevance: International/Foreign

Purpose: This model is used to quantify the level of petroleum imports from OPEC, OPEC, and other sources for use in supply vulnerability analysis and to simulate supply interruption scenarios. The model calculates expected shortfalls in imports from each supply source and simulates world trade in those crude oils both before and during a supply interruption. This also includes calculations for sharing or reallocating petroleum by the International Energy Agency (IEA) members in the event of an embargo against any IEA members. The model permits simulation of any supply interruption scenario for which lower levels of production can be defined. The model adjusts the supplies to the lower production levels and then determines the minimum shortfalls that result for the consuming countries. The model is currently set up to simulate different cases for any given year from the present to 1995 under a given demand scenario. **Input:** This system uses econometric demand forecasts for petroleum from EIA demand models, energy supply forecasts from EIA supply models, and energy process data on world refineries and transportation resources. **Output:** The system generates three reports: regional crude oil imports, supply shortfalls, and supply obligations/rights. These reports are provided for all the IEA member countries. Regional reports for the United States are produced for the East, Gulf, West Coast, and Puerto Rico/Virgin Islands regions.

Congressional Relevance: *House* Appropriations Committee: Energy and Water Development Subcommittee; *House* Committee on Energy and Commerce; *Senate* Appropriations Committee: Energy and Water Development Subcommittee; *Senate* Committee on Energy and Natural Resources

Authority: Energy Supply and Environmental Coordination Act of 1974, as amended (P.L. 93-319, § 11(f); 15 U.S.C. 796). Federal Energy Administration Act of 1974 (P.L. 93-275). Clean Air Act, as amended (P.L. 84-159). Clean Water Act of 1977 (P.L. 95-217).

Availability: NTIS; EIA Clearinghouse, FERC, OPI Tapes, EIA Office of ADP Services

Geographic Relevance: International/Foreign; National; State; County; City

Purpose: This system analyzes and evaluates information on steam electric powerplant performance to determine the environmental effects of the plants and facilities on air and water quality. Data used in this system include plant fuel consumption, fuel source, flue gas cleaning equipment, boiler data, stack data, cooling facilities, and plant emissions. **Input:** Form EIA-767 is used to collect data annually from about 300 publicly and privately owned electric utilities having generating plants with an installed steam electric capacity of 100 megawatts or more. **Output:** An annual tape is generated by this system.

Agency Contact: Energy Information Administration. (202) 252-6535.

S01301-139

Monthly Report of Cost and Quality of Fuel for Electric Plants. (52A01).

OMB Funding Code/Title: 89-0216-0-1-276 / Energy information administration

Program: Collection, Production and Analysis

Congressional Relevance: *House* Appropriations Committee: Energy and Water Development Subcommittee; *House* Committee on Energy and Commerce; *Senate* Appropriations Committee: Energy and Water Development Subcommittee; *Senate* Committee on Energy and Natural Resources

Authority: Energy Supply and Environmental Coordination Act of 1974, as amended (P.L. 93-319, § 11(f); 15 U.S.C. 796). Federal Power Act (P.L. 96-280).

Availability: NTIS; FERC, OPI Tapes; EIA Office of ADP Services

Geographic Relevance: International/Foreign; National; State; County; City

Purpose: This system monitors utility purchasing patterns to assess fossil fuel supplies in order to measure the impact of possible supply shortages on cost and service reliability. Data collected for use in this system include information on type of plant, type of fuel contract, type of fuel, source of fuel, fuel quality, fuel quantity, and fuel costs. **Input:** Form FERC is used to collect the information for this system from about 240 publicly and privately owned electric utilities with plants having a steam-electric generating capacity of 50 megawatts or greater. **Output:** A computerized publication is produced monthly which consists of tabular presentation. These data are presented in the *Electric Power Monthly*, *Cost and Quality Monthly*, and *Annual Reports*.

OMB Funding Code/Title: 89-0216-0-1-276 / Energy information administration

Program: Collection, Production and Analysis

Congressional Relevance: House Appropriations Committee; Interior Subcommittee; House Committee on Energy and Commerce; Senate Appropriations Committee; Interior Subcommittee; Senate Committee on Energy and Natural Resources

Authority: Federal Energy Administration Act of 1974 (P.L. 93-275); Energy Policy and Conservation Act (P.L. 94-163); Energy Conservation and Production Act (P.L. 94-385).

Availability: Agency

Geographic Relevance: National

Purpose: This system is designed to project domestic uranium supplies and prices into the long-term future, given assumptions about domestic resources, uranium investment criteria, and future demand. **Input:** A schedule of uranium demand, characterization of the domestic resource base, production and exploration costs, initial inventories, and market information provide the input data for this system. **Output:** Projections of annual domestic supply capability, imports, exports, prices, inventories, capital expenditures, and exploration activities are produced by the system. Output from the system is used in preparing nuclear fuel cost projection for the Annual Report to Congress.

S01301-145

Enhanced Oil Recovery Model (EOR).

OMB Funding Code/Title: 89-0216-0-1-276 / Energy information administration

Program: Reserves and Natural Gas Division

Congressional Relevance: House Appropriations Committee; Interior Subcommittee; House Committee on Energy and Commerce; Senate Appropriations Committee; Interior Subcommittee; Senate Committee on Energy and Natural Resources

Authority: Federal Energy Administration Act of 1974 (P.L. 93-275); Energy Policy and Conservation Act (P.L. 94-163); Energy Conservation and Production Act (P.L. 94-385).

Availability: Agency

Geographic Relevance: National

Purpose: The purpose of the model is to provide forecasts of potential recovery of oil through tertiary or enhanced recovery processes on an annual basis. The recovery techniques that the model examines are steam drive, in-situ combustion, carbon dioxide miscible flood, surfactant/polymer flood, and polymer augmented waterflood. Production estimates are based on physical characteristics of reserves, the remaining resource base, and economics of tertiary production and development (includes cost of EOR technology, market price of oil, and minimum rate of return). Tertiary production can be estimated by project, by reservoir, by region. The model is structured into a COBOL front end program (FRONT) and a FORTRAN program (FOR). FRONT is used to select which fields/reservoirs are of interest, preprocesses data from the database for EOR, and contains various display options. FOR computes the production and economics, printing the selected tables. The EOR program requires 850K memory on an IBM 370. **Input:** The program reads user requests determining which fields to select and what recovery techniques, prices, and time periods are available. It also reads a "Big Fields" database containing historical, technical, production and EOR data on the 875 largest fields. The FRONT program passes this selected data to the EOR program. **Output:** The model is run on demand. The FRONT program can be used to display various or all characteristics of the selected fields. The EOR program produces reports for each scenario, year, field, and sums and extrapolations to up to 30 different tables, showing production, reserves, economics, and drilling.

S01301-148

Alaskan Hydrocarbon Supply Model (AHSIM).

OMB Funding Code/Title: 89-0216-0-1-276 / Energy information administration

Program: Collection, Production and Analysis

Congressional Relevance: House Committee on Energy and Commerce; Senate Committee on Energy and Natural Resources; House Appropriations Committee; Interior Subcommittee; Senate Appropriations Committee; Interior Subcommittee

Authority: Interior Subcommittee

Authority: Federal Energy Administration Act of 1974 (P.L. 93-275); Department of Energy Organization Act (P.L. 95-91).

Availability: Agency

Geographic Relevance: State of Alaska

Purpose: This model provides production activities for selected years over a 40-year time horizon in 5-year increments. These activities include production, transportation, drilling, and reserve additions. This model can be used to analyze the impact of changes in world oil prices, geology estimates, taxation policies and leasing schedules. The model consists of a Monte Carlo simulation procedure to evaluate the resource base. The establishment of a single resource appraisal requires approximately 18 CPU minutes and 1200K bytes of core on an IBM 370/168 operating under the MVS operating system. The activity forecasting component is a linear program requiring about 7 CPU minutes and 624K bytes of core on the same equipment. The equation system is written in GANMA and is optimized under MPSX or PMSII. **Input:** The resource component requires detailed economic data relevant for regional oil and gas operations and probabilistic variables describing the anticipated resource base by subsurface supply regions. Other inputs include production profiles for field equipment and expected schedules for investment expenditures. The activity forecasting component requires the resource appraisal output and the leasing schedule, product prices for sales at the state border, and allowable pipeline routes for network expansion. **Output:** AHSIM provides forecasts for productive activities in several years over a 40 year time horizon. These activities include production, transportation, drilling, and reserve additions. The model output by selected years supports the EIA Annual Energy Outlook and is used as issues develop.

International Energy Agency: Imports/Stocks-At-Sea Report. (8065).

OMB Funding Code/Title: 89-0216-0-1-276 / Energy information administration

Program: Collection, Production and Analysis

Congressional Relevance: House Appropriations Committee; Interior Subcommittee; House Committee on Energy and Commerce; Senate Appropriations Committee; Interior Subcommittee; Senate Committee on Energy and Natural Resources

Authority: Federal Energy Administration Act of 1974 (P.L. 93-275); Department of Energy Organization Act (P.L. 95-91).

Availability: Internal Use Only

Geographic Relevance: International/Foreign

Purpose: The EIA-142 Survey is designed to collect data on U.S. petroleum imports and petroleum in transit or held as stocks at sea by U.S. companies. These data help fulfill reporting obligations to the International Energy Agency and the North Atlantic Treaty Organization. The data are used in monitoring programs and petroleum sharing operations during periods of international petroleum supply disruption. **Input:** Monthly reports collected from 78 importers of record on imports of crude oil, natural gas, feedstocks, and refined products provide the input for this report. **Output:** Limited official use monthly data on total volume of imports reported to the International Energy Agency are produced.

Alternate Fuel/Incremental Price Monitoring System. (8006).

1979

OMB Funding Code/Title: 89-0212-0-1-276 / Federal Energy Regulatory Commission

Program: Natural Gas Regulation

Congressional Relevance: House Committee on Energy and Commerce; Senate Committee on Energy and Natural Resources; House Appropriations Committee; Energy and Water Development Subcommittee; Senate Appropriations Committee; Energy and Water Development Subcommittee

Authority: Natural Gas Act (P.L. 75-688; 52 Stat. 821; 15 U.S.C. 717 et seq.); Natural Gas Policy Act of 1978 (P.L. 95-621; 92 Stat. 3351; 15 U.S.C. 3301 et seq.).

Availability: Federal Register

Geographic Relevance: National; State

Purpose: The Federal Energy Regulatory Commission (FERC) has the statutory requirement to implement the incremental pricing provisions of the Natural Gas Policy Act of 1978. This system provides FERC with the requisite data to implement this mandate. The Energy Information Administration (EIA) collects data monthly on the sale of No. 6 high sulfur residual fuel oil to ultimate industrial consumers by state and No. 2 distillate fuel oil landed in the New York Harbor area. These data are used to compute alternate fuel price ceilings for each of the 48 contiguous states. These prices are published monthly by EIA in the Federal Register. **Input:** The data contained in the file for this system are derived from submission of reports from sellers of No. 6 high sulfur residual fuel oil. The data are collected on Form EIA-194. **Output:** Alternate fuel price ceilings based on statistical and analytical reports produced by the system are published monthly in the Federal Register and in the Natural Gas Monthly.

Availability: Agency; Internal Use Only

Geographic Relevance: State

Purpose: This system is designed to provide the Federal Energy Regulatory Commission (FERC) with periodic information on the actual and anticipated supply and requirements status of natural gas. **Input:** The data contained in this file system are derived from reports filed on FERC Form 16 by 56 interstate natural gas companies. The data are collected semiannually (April 30 and September 30). **Output:** This system is used to produce 18 reports in table form which are submitted to the FERC. The reports contain actual data for the past year and projected data for one year. The reports generated from the April 30 filing present actual data April through March for the preceding period and projected data for April and through the following March. The September filing is used to generate reports of actual data for the preceding September through August and of projected data for the current September through the following August.

Program: Collection, Production and Analysis

Congressional Relevance: *House* Committee on Energy and Commerce; *Senate* Committee on Energy and Natural Resources; *House* Appropriations Committee; Interior Subcommittee; *Senate* Appropriations Committee; Interior Subcommittee

Authority: Energy Supply and Environmental Coordination Act of 1974, as amended (P.L. 93-319, § 11(f); 15 U.S.C. 796). Federal Energy Administration Act of 1974 (P.L. 93-275).

Availability: Agency

Geographic Relevance: National; State; County

Purpose: The Automated EIA Respondent Reporting System (AERRS) is designed to maintain and process name and address files for the coal surveys conducted by the Energy Information Administration. Each survey has a unique AERRS file name. A portion of each file is standard among all surveys, allowing the same programs to update and generate standard outputs for all surveys. The system can be interfaced with data systems to allow automatic maintenance of the processing status of any survey form. **Input:** The standard portion of the files contains such information as respondent name, address, and telephone number. The free format area of the files is survey-dependent. **Output:** The AERRS produces name and address printouts, a status of response report, and a non-respondent report.

Agency Contact: Energy Information Administration. (202) 252-5252.

Geographic Relevance: National; Regional

Purpose: The Coal Supply and Transportation Model involves project distribution patterns of coal supply and intermodal movements of coal. Both rail and water movements are represented covering all major U.S. rail lines and barge or collier routes on the Great Lakes, along the Coast, and on the Mississippi, Ohio, Illinois, and Tombigbee rivers. Rail shipments are represented by unit train costs for the utility market, single car for the residential/commercial markets, multi-car for the industrial market, and trainload for the synthetic and metallurgical coal markets. Coal export demands for steam and metallurgical coal can be traced from coal-producing states to port of exit. **Input:** Unit train rail rates are based on 1982 rates published by Pasha publications. Barge rates are based on cost data from the U.S. Army Corps of Engineers. Non-unit train rail rates are based on tariffs collected by the Interstate Commerce Commission. **Output:** Output consists of coal production by producing state, distribution patterns from coal producing state to demand region, and level of movements by rail and water.

Purpose: The purpose of SCOAL is to project domestic coal production, imports, consumption and exports six to eight quarters into the future. All markets are defined at the national level except bituminous and lignite production, which are defined at the state level. **Input:** The Energy Information Administration's (EIA) Generating Unit Reference File is used to estimate current and future coal fired electric generating capacity. Total electric generation is estimated by the Short Term Integrated Forecasting System is also input to Short-Term Coal Analysis System (SCOAL). Prices of coal and competing fuels are estimated from a survey of information about the current market situation. Historical data include: state anthracite, bituminous coal, and lignite production (Minerals Yearbook and Weekly Coal Production Reports); fuel

coal imports, exports, and values, coke imports and coke exports (Census Bureau, Monthly Reports IM-145 and EM-522), coal consumption and stock by sector (FERC Form 423, EIA Form 5, 5A, 3, and 6); pigiron production (American Iron and Steel Institute); foreign and domestic industrial indices (DRI); heating degree days and wholesale prices of fuels (DRI); and crude oil prices (Monthly Energy Review). The Quarterly Coal Report provides the latest quarterly data. **Output:** SCOAL estimates state bituminous coal and lignite production along with the following national level markets: anthracite production, U.S. coal imports and exports, consumer stocks and coal consumption by the coke, electric utility, residential and commercial and other industrial sectors.

Purpose: The purpose of the National Utility Financial Statement Model is to project financial and production cost details for the electric utility industry. The model is designed to interpret the electric utility forecasts generated by the NCM and the Electric Utility Module of the EPPS. The model generates forecasts of balance sheets, income statements, revenue requirement, sources and uses of funds for various regulatory and financial assumptions. **Input:** The model requires annual forecasted regional user inputs for regulatory and economic assumptions. In addition, the models require detailed capacity, fuel, operating and maintenance expenses from the National Coal Model (NCM) or the Intermediate Future Forecast System (IFFS). **Output:** Output of the model include annual projected national and regional reports such as: balance sheets, income statements, ratio analyses, etc. Output is currently utilized in the Annual Report to Congress.

Geographic Relevance: International/Foreign

Purpose: The International Coal Trade Model is a computerized analytical tool that projects future coal flows between 18 supply regions and 6 demand regions for 3 types of coal. The model is used in the analysis of international coal trade and U.S. exports of coal. Major coal exporters (e.g., Australia, South Africa, Poland, and Canada) and major coal importers (e.g., Western Europe and Japan) are represented. Ocean transportation representation takes into account port capacities and ship size limitations. **Input:** Input consists of supply capabilities (price-supply relationship), demand quantities, prices and elasticities by coal type, ocean transportation costs, and regional import/export constraints. **Output:** Projections are updated once a year for the Energy Information Administration Annual Energy Outlook. Special studies are undertaken at other times.
